

How will SDOT rebuild the roadway?

1 Relocate utilities (water, gas, power)

Impacts

- This work will be done during the day requiring single-lane closures of the roadway.

2 Remove the existing roadway

Impacts

- This work will be noisy.
- Concrete breaking will be done during the day.
- Asphalt grinding will be done at night and will require full roadway closures.
- Some work may occur on weekends.

3 Install drainage pipes

Impacts

- Trenching in the roadway will be required to install pipes and environmentally-friendly drainage facilities.
- Access to Meridian Ave N, Fremont Ave N and Phinney Ave N will be closed for extended periods.

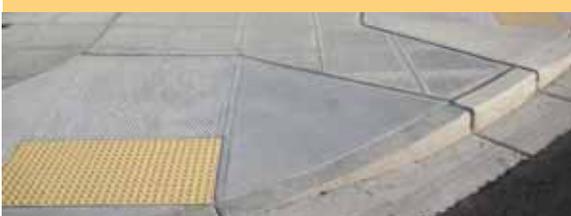

4 Repave the roadway

Impacts

- Concrete work will be done during the day.
- Asphalt work will be done at night and requires full roadway closures.
- This work will affect driveway access.
- Some work may occur on weekends.

5 Install sidewalks and new curb ramps

Impacts

- This work will be done during the day.
- Sections of sidewalks and crosswalks will be closed at times, requiring pedestrian detours.

6 Restripe and cleanup

Impacts

- This work will be done during the day or at night, and will not be noisy.
- Restriping will require single-lane closures.

What should I expect during construction?

Traffic closures and changes:

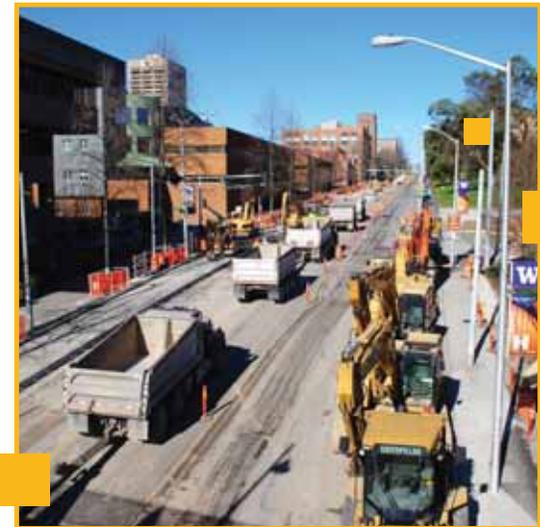

- Eastbound closures and detours.
- Reduced westbound traffic lanes.
- Multiple intersection closures at 8th Ave NW, Greenwood Ave N, and Aurora Ave N.
- Temporary changes to SR 99 and I-5 access.

Typical work hours:

- Monday through Friday between 7:00 a.m. and 4:00 p.m.
- Evening and weekend work will occur periodically.
- Jack hammering is not allowed between 10 p.m. and 8 a.m.
- Any work outside typical work hours must follow City noise variance rules.

Other construction impacts:

- Noise and dust will result from work.
- The contractor will be required to manage dust by sweeping and watering.
- Issues regarding excessive noise or dust should be reported to the project team.

How will I access my home or business during construction?

- Pedestrian access to your home or business entrance will be maintained at all times.
- Crews can close driveways up to three times throughout the project to construct the new roadway, driveways and sidewalks.
- Driveways may be closed for up to 48 hours at a time.
- If a home or business has multiple driveways, or a driveway can accommodate two cars at a time, crews must maintain vehicle access.
- Non-arterial side streets can be closed for up to 30 days.

Plan ahead for driveway and side-street closures by identifying alternate routes and parking or loading areas on nearby streets.
