

Increased Transit Service for Seattle

Bridging the Gap and Transit Now

The City of Seattle and King County Metro are partnering to add 45,000 hours (\$4.5 million) in bus service per year.

This new service is made possible through a partnership program funded by Seattle's Bridging the Gap and Metro's "Transit Now" initiative. New trips are being added to 19 Metro routes.

More bus service for the 19 routes shown in the table moves us closer to the goal of having a bus every 15 minutes, 18 hours a day, seven days a week on major routes connecting neighborhoods with active business centers.

Frequent, reliable transit service offers people options to driving and helps fight global warming.

We are making transit an easier choice.
