# Draft Bicycle Master Plan Update And Protected Bike Lanes

January 2014

# Bicycle Master Plan Update

## Seattle's Vision

Riding a bicycle is a comfortable and integral part of daily life in Seattle for people of all ages and abilities.

# Bicycle Master Plan Update

Chicago, IL

The draft Bicycle Master Plan Update integrates bicycling into our urban transportation system

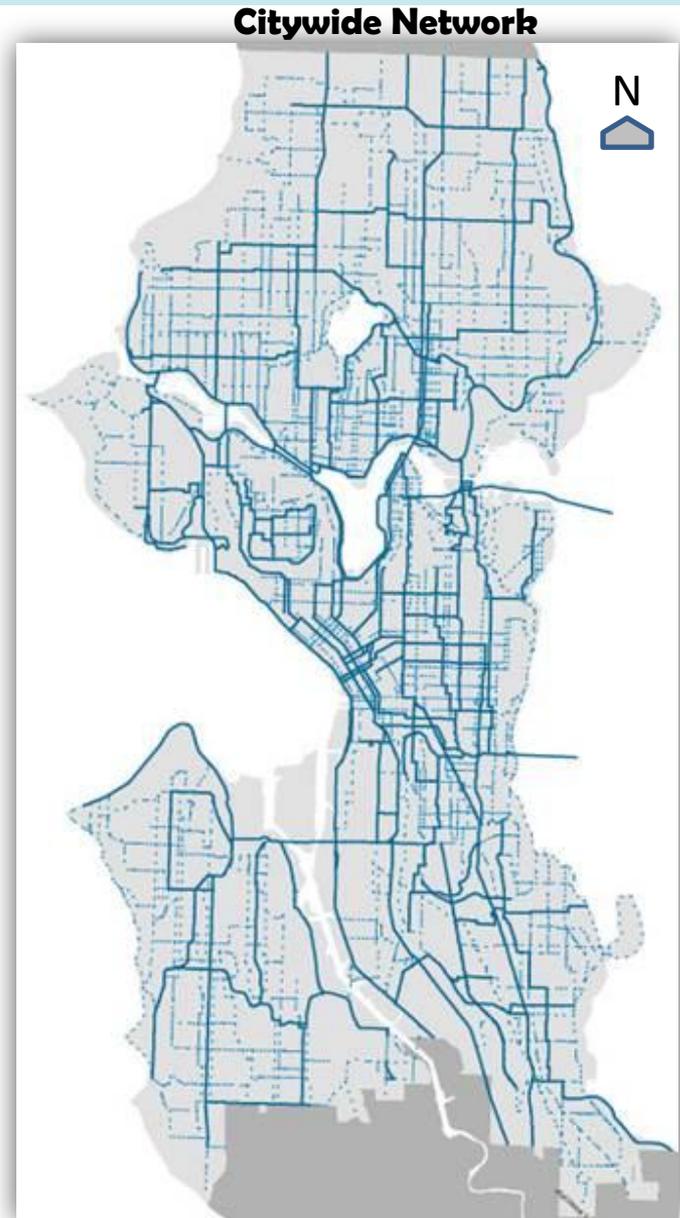

# Proposed Citywide Bicycle Network

## Citywide Network:

- Connect to key destination clusters

## Local Connections:

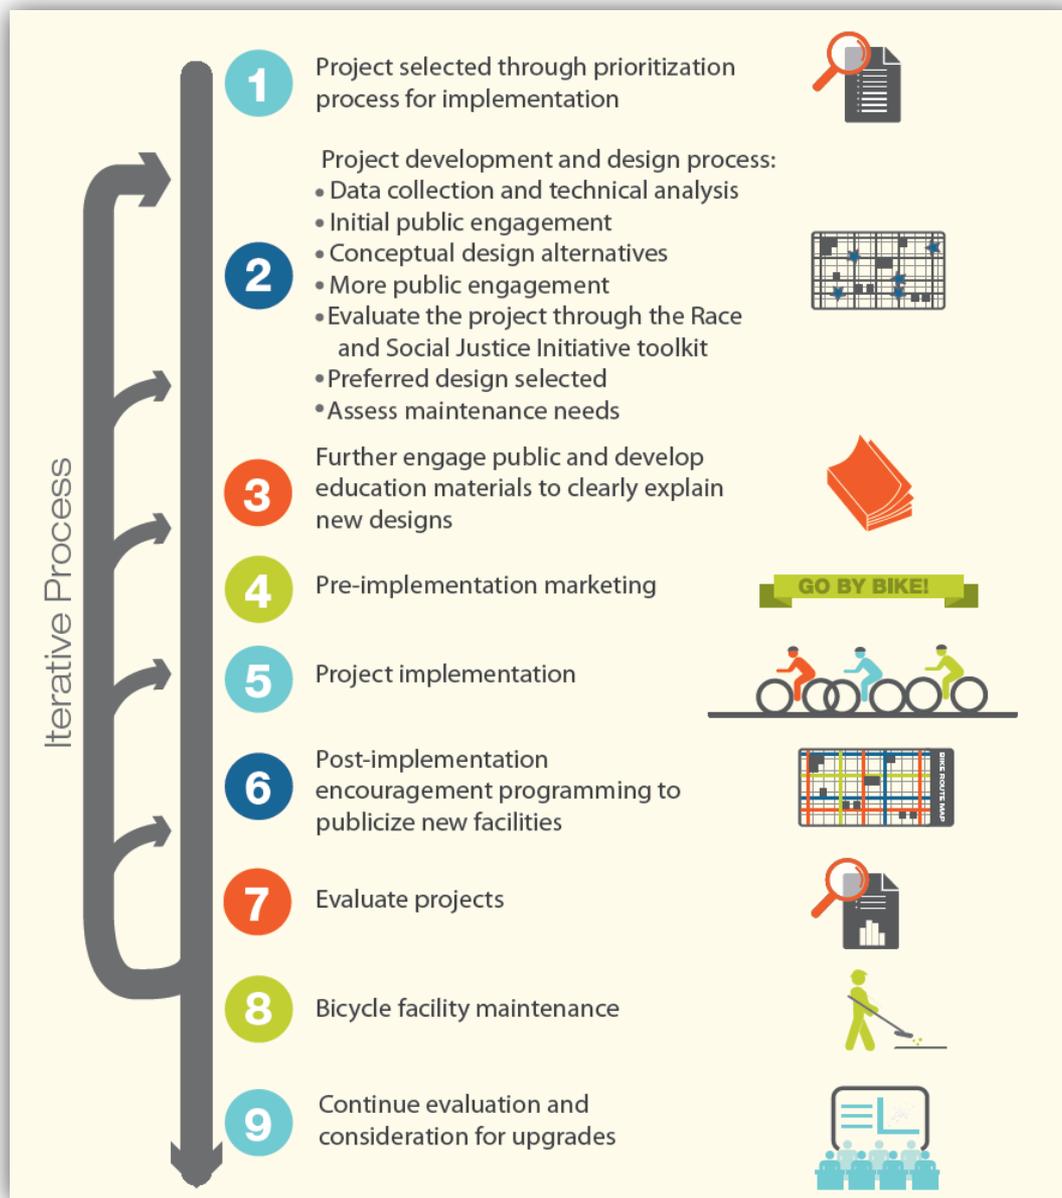

- Connect to citywide network and serve local destinations

# Plan implementation

# Bicycle project delivery process

# What is a protected bike lane?

Combines the user experience of a multi-use trail with a conventional bike lane.

# Common elements of protected bike lanes

Protected bike lanes can be designed in a variety of ways, but all are separated from moving vehicles and sidewalks

# Examples around the U.S.

Chicago, IL

San Francisco, CA

Missoula, MT

New York City, NY

Cambridge, MA

Portland, OR

# Examples around Seattle

# Why build a Center City network

- Meet growing commuter demand
- Support healthy lifestyles of residents
- Offer travel options for customers and visitors

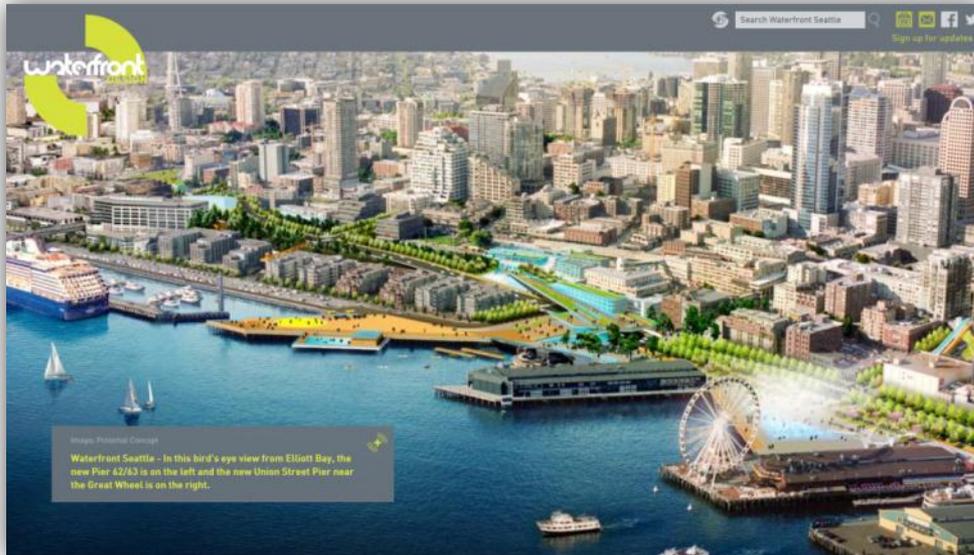

# Plan coordination

We'll coordinate!

- Access Seattle
- Center City Connector
- Central Waterfront
- Pike/Pine Corridor Renaissance
- Center City Initiative
- Commercial Vehicle Pricing Project

# Center City network—next steps
