

# First Avenue S. Rebuild Project: Stacy to Horton

## Construction Update

Thursday, February 12, 2009

Lane Configuration from  
S Stacy St to S Forest St

### Project Overview

The project involves the complete reconstruction of the street, curbs and most sidewalks as well as a new waterline and storm drains.

Until February 20th the work will have limited impacts, with nighttime-only closures of short sections of First Avenue South between Stacy and Lander (6PM to 7AM) and occasional closures of a single lane during the day.

***Beginning February 20th, lane closures and parking prohibitions go into effect between Stacy and Forest. These restrictions will extend south to Horton near the end of March and will remain in effect until the project is completed in early September 2009.***

### Parking Restrictions

On-street parking will be prohibited on **both sides** of First Avenue South in the construction zone. Construction crews need to convert the parking lanes into travel lanes, initially for room to install the new waterline in the center of the road, then to replace the curbs, sidewalk and pavement on each side.

### Access

Driveway access will be maintained, although only right-hand turning movements will be possible. In a few instances, prior arrangements may be made with business owners for limited access to speed construction and minimize impacts.

***Access to business entries will be maintained at all times***, even when sidewalks and curbs are being replaced.

### Website and List Serve

If you haven't already done so, please sign up at [www.firstavepaving.info](http://www.firstavepaving.info) to receive the most current information by email. Look for "[Click here . . .](#)" at the bottom of the page.

Please also review the website. The website has the broadest, most thorough information about the project. By signing up to receive email updates, you will continue to receive the most current information on upcoming construction activities and impacts.

### Traffic Restrictions

Daytime traffic will be limited to two (2) northbound lanes and a single (1) southbound lane.

In addition, NO left hand turns will be allowed off of – or on to – First Avenue South except at designated intersections. The left-turn restrictions will be most prevalent in the southbound direction.

Traffic may be further restricted to a single lane in either direction at night (6PM to 7AM).

Uniformed police officers and/or flaggers may occasionally assist with traffic control, but drivers should expect delays and exercise caution at all times.
