

# TRAFFIC ADVISORY NOTICE

## RapidRide D Line BAT Lane on 15th Avenue NW Between NW 50th Street and NW Market Street

To improve transit reliability for the RapidRide D Line, the Seattle Department of Transportation is planning to make the following changes on 15th Avenue NW between NW 50th Street and NW Market Street:

- Install a new northbound bus lane on 15th Avenue NW between NW 50th Street and NW Market Street (active 24 hours a day/7 days a week);
- Remove the two-way left turn lane between NW 52nd Street and NW 53rd Street;
- Install a pedestrian crossing and pedestrian activated signal at NW 53rd Street

The RapidRide D Line currently experiences delay traveling north on 15th Avenue NW. The improvement will help reduce travel time and allow buses to bypass traffic which currently stacks up during peak travel times.
