Making residential streets safer and calmer for you, your family, neighbors and customers

# BALLARD NEIGHBORHOOD SAFETY IMPROVEMENTS

Join the Seattle Department of Transportation (SDOT) on **Tuesday, March 25** to talk about a second neighborhood greenway in Ballard. Last summer one was completed on NW 58th Street. This year we're studying a north-south route in the area of 16th, 17th or 18th Avenues NW from Salmon Bay to Soundview Playfield. We want to hear from the people who live, work, shop and play along these streets.

This is the first of two public meetings. The first meeting shares traffic data and helps SDOT staff understand where people want to walk and bike and barriers to doing so. At the second meeting we share the results of technical analysis and public comment and the most promising route with recommended safety improvements.

Seattle is building a network of neighborhood greenways. Neighborhood greenways are safer, calmer residential streets for you, your family and neighbors. On streets with low car volumes and speeds a greenway can:

- Improve safety
- Help people cross busy streets
- Discourage cut-thru traffic
- Protect the residential character of our neighborhoods
- Keep speeds low
- Get people to where they want to go like parks, schools, shops and restaurants
