

Bigleaf Maple

Acer macrophyllum

Bigleaf Maple grows along the Pacific Coast and is Seattle's most common native tree. This Ballard specimen is particularly impressive from its mossy base to its towering leafy crown. This tree is a wildlife sanctuary and beloved and inspiring neighborhood landmark. Year after year it marks the seasonal progression: spring's bright exuberance, summer's shady greenery, autumn's golden retreat, and winter's cool rest.

A worthy tree, this is the first Bigleaf Maple dedicated as one of Seattle's Heritage Trees, on December 15, 2001.
