

# Temporary Pedestrian and Bicycle Route Revisions along Fairview Ave. N and Valley St., Beginning September 18

## Construction Notice

### Mercer Corridor Project Mercer East Construction

September 17, 2012

**What & Where:** Pedestrian and bicycle detour routing will shift to the southeast side of Fairview Ave. N between Aloha St. and Boren Ave. N. beginning September 18 for up to six weeks.

**Why:** Underground electrical installations near the intersection of Fairview Ave. N and Valley St. requires the existing single southbound lane of vehicle traffic on Fairview Ave. N to be shifted to the east to maintain southbound flow during construction. This temporary shift in traffic requires a reroute of pedestrian and bicycle traffic to maintain safety for travelers.

**Pedestrian and Bicycle Routing:** Pedestrians and bicyclists will be directed to the southeast side of Fairview Ave. N between Aloha St. and Valley St., and to use the coned pathway through the work zone at the intersection of Fairview Ave. N and Valley St. to continue westbound on Valley St.

*Pedestrian and bicycle pathway temporarily shifted to **southeast side** of the roadway between Aloha St. and Boren Ave. N.*

	Closed during construction
	Local access only to Lake Union Park and parking lot
	Open Bike/ Pedestrian path
	Crosswalk open
	Closed Bike/ Pedestrian path
	Crosswalk closed
