

31st Avenue South – South Jackson St. to South King St.

31st Avenue South –South Jackson St. to South King St.

Project ID # 2007-217

Type of Improvement: Pedestrian Improvement
Neighborhood: Leschi

Approximate Length: 550 feet
Street Classification: Collector Arterial

Applicant Description of Problem and/or Project:

Problem: None given

Suggested Project: Median from King St to Jackson on 31st Ave S. It would slow traffic by visually narrowing the street as vehicles head south towards a very dangerous intersection at Lane St or No towards the Jackson St stop sign at the entrance to Frink Park. Speed cushion placed mid point in the south bound lane between the median and proposed bike lane. Median needed and speed cushion.

Potential Solution and/or Comments:

31st Ave. S. – S King St. to S. Jackson St.

- Project would result in a new roadway section of 2 travel lanes with a planted median in the center.
- Speed cushion may need to be reconsidered because of grades.

Challenges/Tradeoffs:

- Traffic movement from northbound on 31st Ave S to southbound on 31st Ave S at S. Jackson St would be prohibited.

Preliminary Range of Cost: \$ 560,000 to \$700,000
