2011 Work Plan

Transportation Committee, Seattle City Council

February 8, 2011

Make Seattle the Most Walkable City in the Nation

Identify actions, projects, and programs to achieve the following goals:

- Safety
- Equity
- Vibrancy
- Health

2011 Work Plan Overview

- Center City Placemaking
- Walkable Zone Communications
- Right-of-Way Improvements Manual Updates
- Neighborhood-Based Code Updates
- Encouragement and Education Programs
- Pedestrian Lighting Plan
- Policy and Plan Development
- Sustainable Cities Initiative
- Infrastructure Program Delivery
- Evaluation and Performance Monitoring

1. Center City Placemaking

Advance Pedestrian Master Plan projects within Center City neighborhoods

2. Walkable Zone Communications Program

Develop and implement a coordinated program defining and promoting the walkable zone

3. ROWIM Design Guidance Updates

Begin the update process for the 2012 Right-of-Way Improvements Manual update

4. Neighborhood-Based Land Use Code Updates

Advance neighborhood-specific code updates through urban design frameworks

5. Encouragement and Education Programs

Implement pedestrian safety education and encouragement programs

Complete the Pedestrian Lighting Plan

6. Pedestrian Lighting Plan

Complete the pedestrian lighting plan

7. Policy and Plan Development

Advance the Plan's policy recommendations

8. Sustainable Cities Initiative

Advance numerous sustainability tactics defined in the Plan through the Sustainable Cities Initiative projects

9. Infrastructure Program Delivery

Design and build 2011 infrastructure projects including sidewalks, crossing improvements and curb ramps

Bridging the Gap Pedestrian Programs

- New Sidewalks
- Crossing Improvements
- Neighborhood Street Fund
- Maintenance and Repair
- Countdown Signals
- Curb Ramps
- Pedestrian Lighting

10. Evaluation and Performance Monitoring

Continue evaluation and performance monitoring tasks, including preparation of an annual progress report
