

## Updated Bicycle Routes, Pedestrian Access and Bus Stop Map

The map below has been updated with current bicycle routes, pedestrian access, and King County Metro bus stops in the east phase construction area. The following updates have been made since bicycle and pedestrian maps were distributed in November 2010:

- 9th Ave. N Sidewalk Closure**

To protect the safety of pedestrians and bicyclists, both sidewalks on 9th Ave. N between Broad St. and Mercer St. are closed while intensive sewer replacement work is completed nearby. Bicyclists and pedestrians are asked to use the west sidewalk of Westlake Ave. N to travel through this area.

- Terry Ave. N Closure**

Terry Ave. N is closed between Valley St. and Mercer St. to accommodate installation of upgraded utilities along the north side of Mercer St. and construction of new westbound Mercer St. lanes.

- King County Metro Temporary Bus Stops**

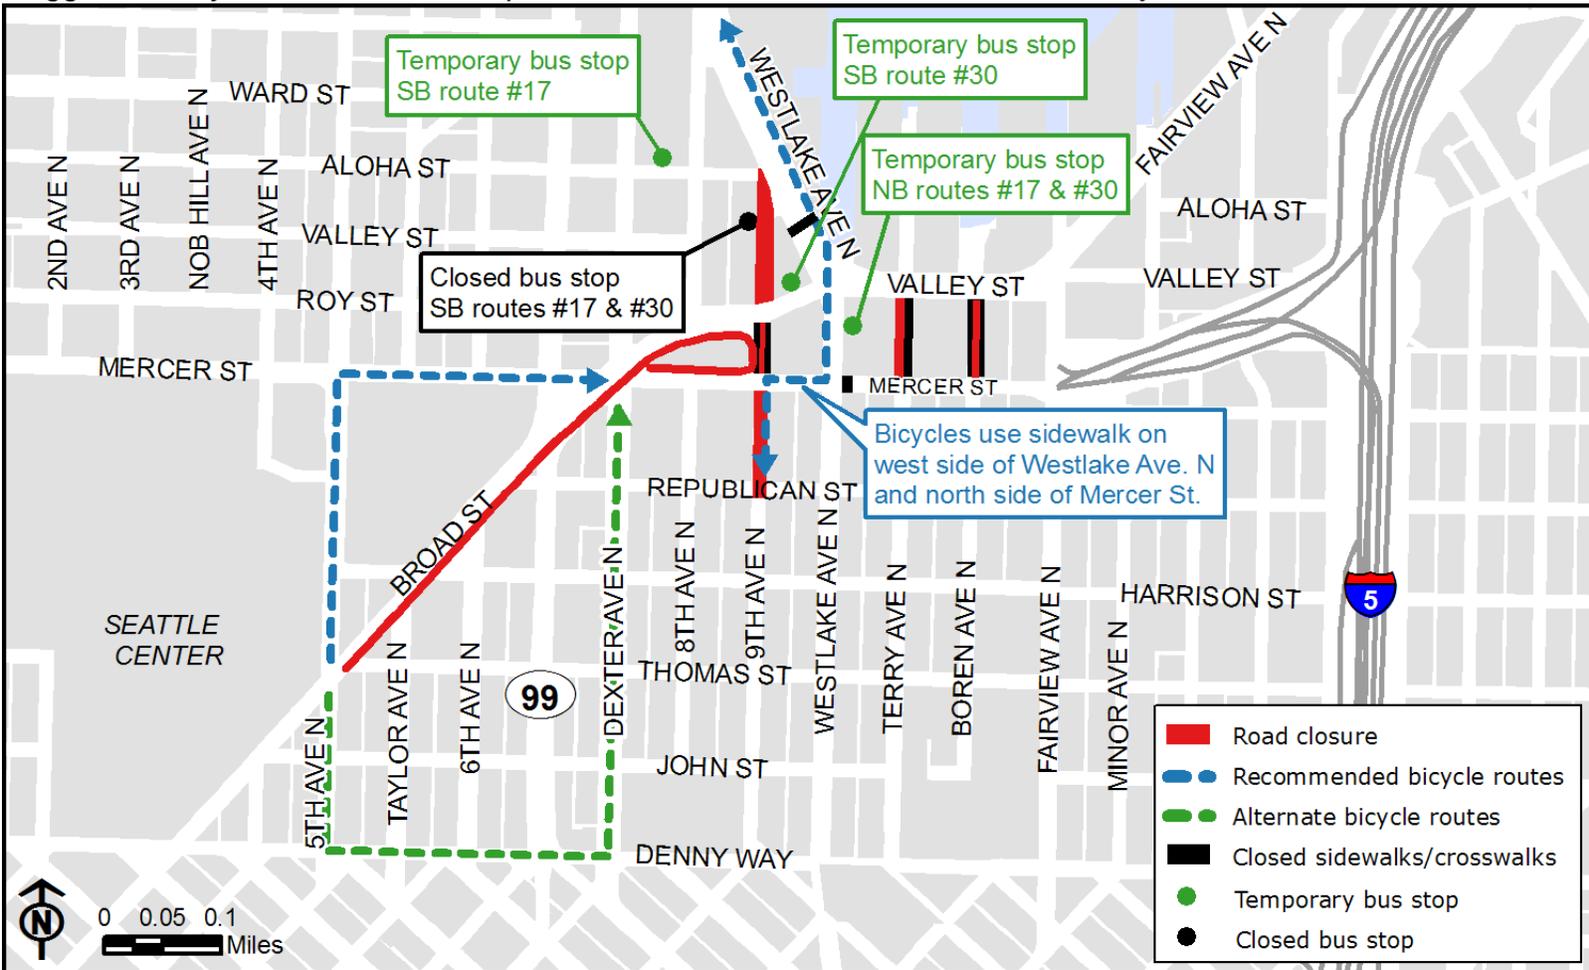

Temporary King County Metro bus stops are in use for the King County Metro Route 17 and Route 30, replacing bus stops that were closed during construction. For current transit information, please visit Metro Online at [www.kingcounty.gov/metro](http://www.kingcounty.gov/metro) and check the "Alerts Center."
