

# Zone 5

## Bell Harbor Zone

## Opportunities and Challenges

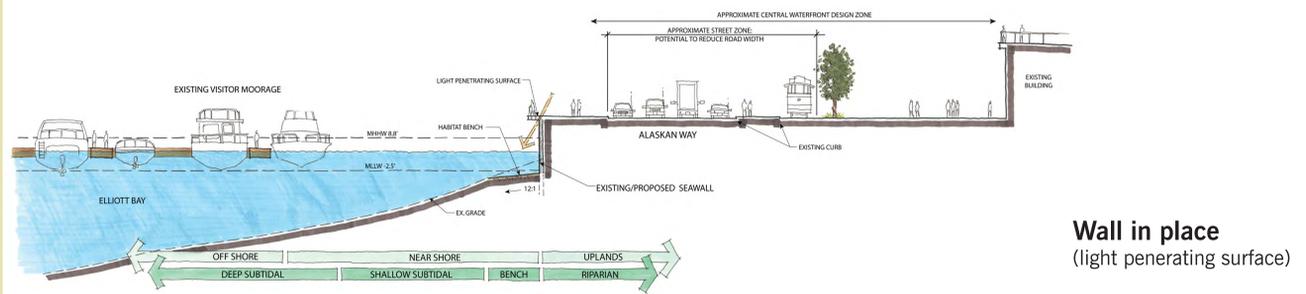

### Opportunities:

- Create light corridor for fish migration
- Expand view decks
- Modify substrate and water depths for habitat
- Provide space for cruise ship passenger needs

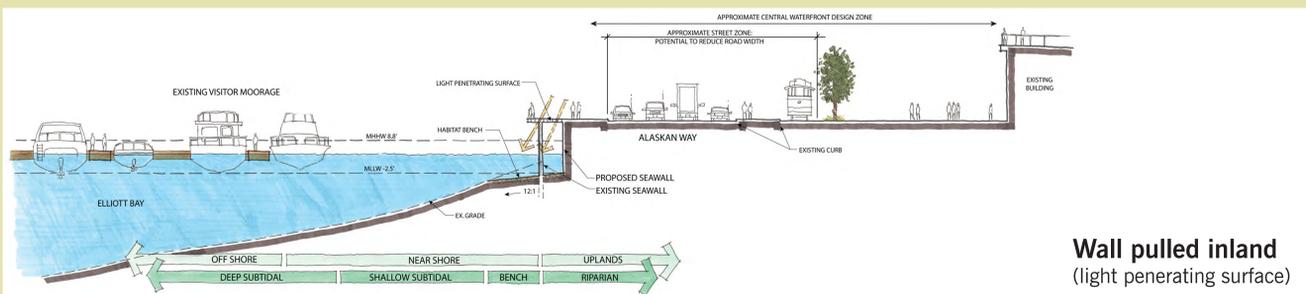

### Potential Challenges:

- The cruise ship terminal dock, the need for cruise line baggage drop-off access, and circulation conditions may limit opportunities to increase daylight to the water.
- Service and emergency vehicle access to the piers must be maintained.

## Example Options for Wall Placement

Wall in place  
(light penetrating surface)

Wall pulled inland  
(light penetrating surface)

### Possible Design Elements:
