

We want to hear from you! Please let us know if you support the new Restricted Parking Zone

Since July 1, we've been taking public comments on the plan for a **new** RPZ in Capitol Hill. Despite SDOT and Sound Transit both mailing postcards to residents and holding a public hearing, we didn't hear from many of you by the July comment deadline. To give residents and visitors to the neighborhood another chance to have their voices heard, we've opened the public comment period for an extra two weeks.

Take [this quick survey](#) or send an email to capitolhillparking@seattle.gov by **September 26** to let us know if you support the plan for a new RPZ.

You can also comment on and ask questions about the plan in person:

Where: Top Pot Doughnuts, 609 Summit Ave E, Seattle, WA 98102

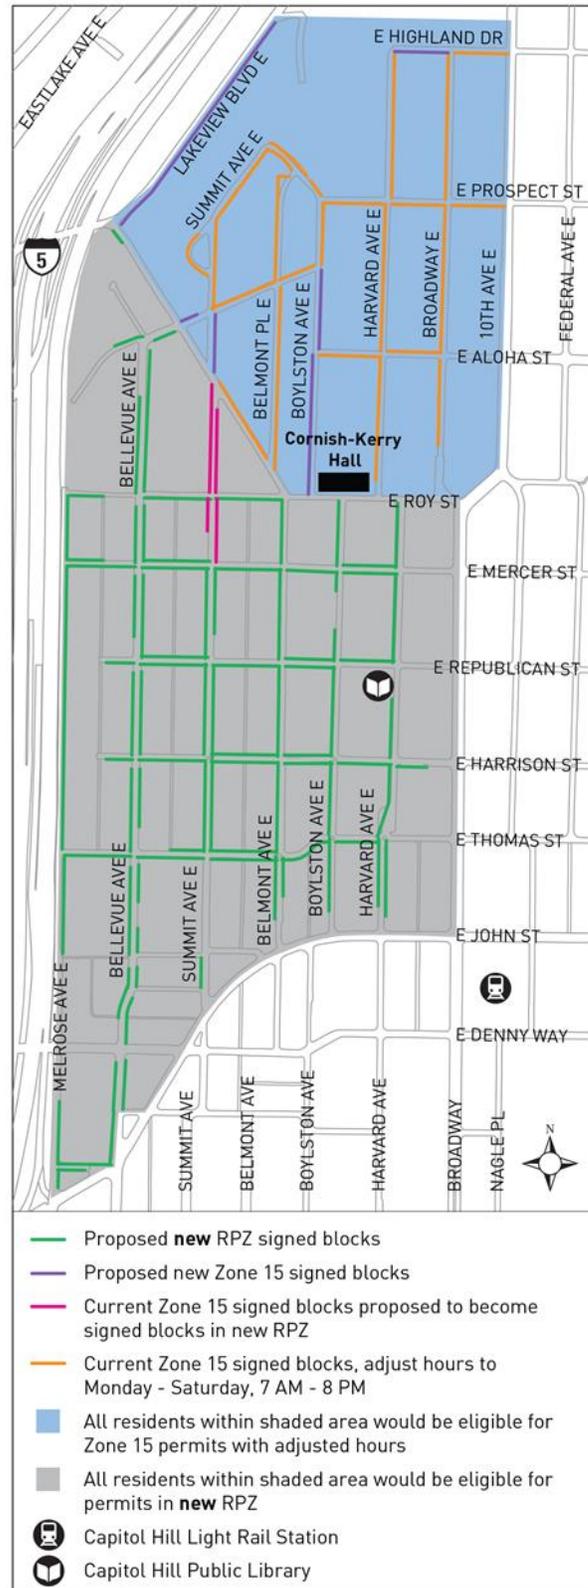

When: Saturday, September 17, 2016, 10 AM – 12 PM

SDOT staff will be available to take comments and answer questions related to the plan.

SDOT and Sound Transit are working together to manage on-street parking around the Capitol Hill light rail station. We've identified blocks with unrestricted parking northwest of the station that could be used by commuters seeking to park near light rail. SDOT and Sound Transit are working to better manage parking on these blocks with this plan to install a new Restricted Parking Zone (RPZ). SDOT is also planning an expansion of Zone 15 and a change in hours to prevent commuter parking.

What's in the plan?

- The gray area on the map highlights the area being proposed for a new RPZ, using E Roy St and Belmont Ave E as the northern boundary.
- In the new zone, we would install RPZ signs on the color-lined blocks within the gray shaded area, limiting vehicles without zone permits to 2-hour parking Monday – Saturday, 7 AM – 8 PM.

- All residents in this area would be eligible for permits in the new RPZ.
- Permits are currently \$65 per vehicle for a two-year cycle. Guest permits are also available.
- Signs would not be installed adjacent to commercial properties, nor would they replace existing paid or time limited parking.
- Visit the survey for more information:
www.surveymonkey.com/r/CapitolHillRPZ

What is an RPZ?

RPZs are intended to improve parking access for residents, while balancing the needs of others to use the public right of way. RPZs help neighborhoods deal with parking congestion from traffic generators through signed time limits from which vehicles displaying a valid RPZ permit are exempt.

Visit www.seattle.gov/transportation/parking/parkingrpz.htm to see general RPZ program information.
