

### Linoleum Floor Cleaner

- vinegar                      - water

Mop with a mixture of 1/2 cup vinegar in a bucket of warm water. The vinegar odor will go away shortly after the floor dries.

### All-Purpose Cleaner

(for spots on linoleum, tile and woodwork)

- Murphy's Oil Soap

Add a drop of soap on a wet washcloth and rub briskly. A washcloth will last longer and create less waste than a sponge.

### Copper Cleaner

- vinegar                      - salt  
- water                         - vegetable oil (optional)

Mix equal parts vinegar and salt (a table spoon of each should do) and apply to surface with a rag. Be sure to rinse thoroughly with water afterwards, otherwise it will corrode. Apply a little vegetable oil with a cloth and rub for a shiny appearance. (Don't use this cleaner on lacquered finishes.)

### Drain Cleaner

- baking soda                - boiling water  
- vinegar

This recipe will free minor clogs and helps to prevent future clogs. Pour 1/2 cup of baking soda down the drain first, then 1/2 cup vinegar. Let it fizz for a few minutes. Then pour down a teakettle full of boiling water. Repeat if needed. If the clog is stubborn, use a plunger. If very stubborn, use a mechanical snake.

### Oven Cleaner

- baking soda                - water

Mix 1 cup of baking soda with enough water to make a paste. Apply to oven surfaces, and let stand a little while. Use the scouring pad for scrubbing most surfaces. A spatula or bread knife is effective to get under large food deposits. This recipe will require "elbow grease", but is not toxic to you or a child. Try spot cleaning your oven regularly; dirty ovens are less energy-efficient. Do not use this cleaner on self-cleaning ovens.

Please keep in mind that even these basic cleaning products should be kept out of reach of children. Please do not mix the Green Cleaning Kit contents with other cleaning products. For information on how to properly dispose of hazardous household products you no longer want or need, call Hazards Line at (206) 296-4692 or 1-888-TOXICED.

### Toilet Bowl Cleaner

- *baking soda*
- *Murphy's Oil Soap*

Sprinkle baking soda inside the bowl as you would any scouring powder. Add a couple of drops of soap in also. Scrub with a toilet bowl and finish outside surfaces with a rag sprinkled with baking soda.

### Window and Mirror Cleaner

- *vinegar*
- *water*

Just put 1/4 cup of vinegar in the spray bottle and fill to top with water. Spray on surface. Rub with a diaper, other lint-free rag, or sheets of newspaper. For outdoor windows use a sponge and wash with warm water with a few drops of liquid soap in it. Rinse well and squeegee dry.

### Tub and Sink Cleaner

- *baking soda*
- *Murphy's Oil Soap*

You can use baking soda in place of your scouring powder. Sprinkle it on porcelain fixtures and rub with a wet rag. Add a little soap to the rag for more cleaning power. Rinse well to avoid leaving a hazy film.
