Concrete

Metal

New Gypsum Scrap

Starting in 2014:

Recycling Requirements for Construction Projects in Seattle

You will now be required to recycle the following from your construction material loads:

- Asphalt Paving
- Bricks
- Cardboard
- Concrete
- Metal
- New Gypsum Scrap

Also, you are required to complete some or all of the following documents for permitted projects:

- Waste Diversion Plan
 - Prior to receiving a building permit
 - For projects over 750 square feet
- Salvage Assessment
 - For demolition projects
- Waste Diversion Report
 - For projects permitted after January 1, 2014
 - For new construction and alteration projects valued at \$30,000 or greater
 - For all demolition projects
