

# Construction Update

September 22, 2014

## Genesee Combined Sewer Overflow Reduction Project Roadway work

### UPDATE

As the final work on the Genesee Combined Sewer Overflow Reduction Project continues, we would like to provide an update to the construction schedule mailed to you on July 22, 2014. Some of the work dates have changed. Please see the detailed description of the work locations and sequence on the opposite side of this page. For your reference, a copy of the previous notice is printed to the right. We will provide future updates on the project website: [seattle.gov/util/CSO](http://seattle.gov/util/CSO) (click Genesee Basin).

## NOTICE OF UPCOMING WORK

July 22, 2014

### Genesee Combined Sewer Overflow Reduction Project Roadway work after Seafair

#### PROJECT DESCRIPTION

As work on the two combined sewer overflow storage tanks nears completion we would like to provide details about the work that our contractor will perform after Seafair. Work will include installation of new underground structures and pipes in the streets to connect the storage tanks to the sewer system. Affected roadways will be fully restored.

A detailed description of the work locations and sequence is printed on the opposite side of this page.

#### SCHEDULE

Work is expected to begin the week of August 18. Major work is expected to be complete by late September with final restoration in the parking lot area during October. Normal work hours will be 7 a.m. to 6 p.m., Monday through Friday. Work on will take place only as needed to stay on schedule. We will make every effort not to work on Saturdays.

#### LOCATION

Please see the map on the opposite side of the page.

- Lake Washington Blvd at 53<sup>rd</sup> Avenue S
- 52<sup>nd</sup> Avenue S and S Snoqualmie Street
- S Alaska Street at 54<sup>th</sup> Avenue S
- S Alaska Street and 53<sup>rd</sup> Avenue S

#### ANTICIPATED IMPACTS

- Construction noise and dust
- Pavement excavation and restoration
- Restricted driving access to some houses
- Traffic detours

Seattle Public Utilities will contact directly affected residents with specific information as the work progresses.

Please see the reverse side for anticipated impacts during each step of the project.

In addition to providing a reliable water supply to more than 1.3 million customers in the Seattle metropolitan area, SPU provides essential sewer, drainage, solid waste and engineering services that safeguard public health, maintain the city's infrastructure and protect, conserve and enhance the region's environmental resources.

| Sequence and location | Type of work   | Home access or driving restrictions  | Approximate work dates          | Results  |
|-----------------------|--|--|---------------------------------|--|
| <b>A</b>              | Install underground structures   | Closing one lane of traffic at a time. Flaggers will direct traffic travelling both ways. Full access to homes. We will notify residents who may experience short periods of limited driveway access. North entrance to 53rd Ave. S. closed. | Mid-August to mid-October       | Lake Washington Blvd. S. will be fully restored.   |
| <b>B</b>              | Renovate intersection with ADA accessible sidewalk ramps.<br><br>Replace asphalt paving in street.   | Traffic will detour around the intersection during work hours only. Intersection will open after work hours.   | Mid-September to early October  | Improved intersection with water quality treatment systems to protect Lake Washington.   |
| <b>C</b>              | Replace the temporary asphalt strip and curbs on 53rd Ave. S. with permanent concrete. Install ADA accessible sidewalk ramps on all corners. Restore sections of sidewalk on the north side of S. Alaska St. | Minor traffic disruptions on 53rd Avenue S and S Alaska Street.  | Mid-September to early October  | The intersection will be fully restored.   |
| <b>D</b>              | Install underground structures in the grassy area north of S. Alaska St.   | Minor traffic disruptions on S Alaska St. and 54th Ave. S.   | Early September to mid-November | Sidewalk and street will be fully restored.<br><br>New maintenance holes in grassy area. |
