Lane closure for sewer improvements on SW Orchard St

SEATTLE—Seattle Public Utilities will be excavating for sewer improvements along SW Orchard Street between Delridge Way SW and Dumar Way SW. The excavation work has started and will take several weeks to complete. A uniformed police officer is controlling traffic at the intersection of Delridge Way SW and SW Orchard Street through the week of February 16th. Work will occur from 7 a.m. – 5 p.m. on weekdays and from 9 a.m. – 5 p.m. on Saturday.

The work will require closure of the westbound lane on SW Orchard Street (east of Delridge Way SW). The lane will remain closed for the duration of work hours until February 21st, and will be opened to traffic after non-work hours. Starting February 23rd, the westbound lane of SW Orchard Street will be closed intermittently during work hours for material deliveries. During the closure, all westbound traffic will be diverted to the eastbound lane with the assistance of a traffic flagger.
