**Background**

CSO Outfall 171 located near 9524 Rainer Avenue South located with City Property.

**Project Scope**

Replacement of 36" diameter CSO Outfall 171 located near 9524 Rainer Avenue South. The outfall pipe bedding is failing resulting surface sink holes. The scope of the project is to define ownership, perform geotechnical investigations, obtain environmental permits, perform in-house engineering, advertise to bid, replace the outfall, install a new bulkhead, install scour prevention methods, and repave the surfaces. This project is in a preliminary phase of design and cost estimates will be revised over time, including for years 2014-2016.

**Contracting Opportunities**

Schedule of Events	Target Date
RFQPA Release	2Qtr 2015
Pre-Proposal Conference and Site Visit	2Qtr 2015
Construction Advertisement	3Qtr 2015
