

Concept 12 - Western Entry

- Larger Reuse & Recycling building, larger Transfer Station, better traffic separation.
- Provides a significant improvement in on-site queuing, and more vehicle unloading stalls inside the building to reduce off-site traffic impacts.
- Site access is on the southwest side of the transfer station.
- Significant underground trailer parking and maneuvering.
- The Recycling Area is located to the west and accessed before the scales, enclosed with vehicle doors only on the west and south.
- The Carr Place Parking Lot and the areas noted with a star symbol would be available as a community amenity, open for ideas.
- Concept 12 would require rezone of industrial buffer, partial 1550 property rezone and street vacation.
