

Concept 8/9-B

- Provides a significant improvement in on-site queuing, and more vehicle unloading stalls inside the building to reduce off-site traffic impacts.
- Customer entrance stacked over transfer trailer traffic with green roof to screen transfer trucks.
- Significant underground trailer parking and maneuvering.
- The Recycling Area is accessed before the scales, enclosed with vehicle doors only on the west and south.
- Large buffers along the north and east property lines
- The Carr Place Parking Lot and the areas noted with a star symbol would be available as a community amenity, open for ideas.
- Concept 8/9-b would require 1550 property rezone and street vacation to allow recycling.
