Seferiana Day

Meet Vicky Yuki and Seferiana Day from Seattle IT's Community Technology Program. They will report on the 2018 Technology Access and Adoption Study, especially as it pertains to older adults. Our guests are also looking to engage in dialogue about the role tech plays in your daily life and how the City can facilitate digital equity.

Want to hear from these and other presenters? Search for "Aging King County" on YouTube and watch interviews on "Age Friendly Minute" along with vlogs and other videos about previous events.

For questions about accessibility or to request an accommodation, contact Lenny Orlov (206-386-1521 or agefriendly@seattle.gov) at least one week prior to the event.

Age Friendly Seattle Coffee Hours are held on the third Thursday of every month at the Central Building and on other dates in Seattle neighborhoods.

The events bring community elders closer to City officials to explore topics of interest. Presentations often include cutting edge information about healthy aging, legal and planning issues, and more.

Participants learn about City programs and services, and officials hear from their constituents.

Coffee and refreshments are served.
