## Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need so all Seattle residents can live, learn, work, and take part in strong, healthy communities. HSD contracts with more than 230 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, productive education and job opportunities, adequate health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD staff is committed to working with the community to provide appropriate, culturally relevant services.

HSD's Strategic Plan, "Healthy Communities, Healthy Families," identifies a set of goals and actions to position HSD to better serve clients and strengthen the City's overall service delivery system. The strategic plan includes four key goals:

- Create a Proactive, Seamless Service System;
- Strengthen and Expand Partnerships;
- Engage and Partner with the Community; and
- Use Data-Driven Design and Evaluation.

In 2013, HSD made organizational structural changes to support the Strategic Plan by merging the Community Support and Self-Sufficiency (CSSS) and Transitional Living and Support (TLS) divisions. The changes reflected in the 2014 Proposed Budget will align the department's resources, eliminate barriers to collaboration, increase operating efficiency, and more effectively support individuals experiencing crisis or instability. The department now consists of the following divisions:

- Leadership and Administration (LAD);
- Youth and Family Empowerment (YFE);
- Community Support and Assistance (CSA); and
- Aging and Disability Services (ADS).

In 2014, HSD integrates four programs/units into one division called Community Support and Assistance (CSA) division. The new division consists of Domestic Violence/Sexual Assault Prevention Program, Emergency and Transitional Housing Programs, Community Development Block Grant and Facilities Unit, and the Utility and Energy Assistance Program. The Family Center and Support unit is integrated into the Youth & Family Empowerment (YFE) division, and the Mayor's Office for Senior Citizens is integrated into the Aging and Disability Services (ADS) division. These changes provide HSD with an organizational structure that is more responsive, integrated and sustainable.

HSD's work is funded by a variety of revenue sources, including federal, state and inter-local grants, and the City General Fund. General Fund contributions leverage significant grant revenues to benefit Seattle residents. As a result, external grants represent approximately 48% of HSD's revenue, while General Fund represents 52%.

### Budget Overview

To advance the City's priority to enhance the safety net for Seattle's most vulnerable residents, the 2014 Adopted Budget for the Human Services Department (HSD) preserves services and increases support in key program areas such as:

- homelessness,
- domestic violence,
- young adult training and violence prevention,
- early learning, and
- senior services.

Many families and individuals continue to suffer the effects of the recession and reductions in funding from other public-sector entities. Combined with existing investments, the increase in City funds will provide critical support to individuals and families.

The 2014 Adopted Budget maintains all current investments in community-based health and human services, including a 2.4% General Fund inflation increase to contracts in 2014. In addition, the City will mitigate state and federal reductions by preserving funding to provide services to those who are homeless, deliver basic services for seniors and empower disadvantaged young adults. The 2014 Adopted Budget expands programs based on evidence-based evaluations and consultation with community advocates to meet acute community needs.

#### **Enhance Center City Initiative through Expanded Critical Services and Targeted Diversion**

By many measures, downtown Seattle is thriving. However, a significant homeless population in downtown is struggling with the need for mental health or substance abuse treatment, stable housing and sufficient food. The

# Human Services Department

Center City Initiative is working with residents, businesses, service providers, and government agencies on specific actions to help make downtown streets safe and inviting. The 2014 Adopted Budget includes funds to provide outreach and human services to people in need in the downtown core by significantly increasing funding for case management and services.

Through the Law Enforcement Assisted Diversion (LEAD) program, currently administered by multiple nonprofits and the Seattle Police Department in the Belltown neighborhood, individuals who engage in low-level crimes may be referred to services instead of arrest. LEAD helps to identify long-term solutions to the underlying problems that contribute to the individual engaging in low-level street disorder and crime. More than 250 individuals will receive intensive case management and services as a result of expanding LEAD to the entire downtown core. By accessing needed services, homeless individuals will achieve greater stability, and, as a result, create safer and more inviting downtown streets for residents, businesses and tourists. The Council made changes to the Center City Initiative as described below in the City Council Changes to the Proposed Budget.

## **Increase Assistance for Families and Individuals without Shelter**

Investments through the Center City Initiative will augment efforts to expand housing options for homeless families and individuals. HSD invests more than \$35 million a year in preventing and addressing homelessness. While the 2014 Adopted Budget preserves and expands emergency shelter capacity, HSD and the Office of Housing are simultaneously pursuing the long-term goal of moving more individuals and families into stable living situations. The departments are working with shelter and supportive housing providers to identify individuals who are living in shelter for multiple years. The providers create an action plan to engage the individuals and place them in permanent housing, thereby freeing up capacity in the existing shelter system.

Emergency shelter is a critical first-step to moving people off of the street and onto a pathway toward stability. The 2014 Adopted Budget makes three types of investments to preserve and expand shelter options in Seattle. First, HSD will extend winter shelter for the entire year, filling a gap in the summer months when many individuals would otherwise not have access to shelter. The funding will sustain year-round operations at both a women's shelter and the co-ed shelter at City Hall. Second, the shelter for people living in encampments will relocate and expand to increase capacity. By consolidating the encampment shelter, a day center and potential meal site south of downtown, the City will not only increase support for the most vulnerable but also provide access to services beyond the downtown core. Finally, the department preserves important shelter capacity with General Fund resources in order to offset a federal reduction to the Community Development Block Grant (CDBG) program.

In addition to emergency shelter, day and hygiene centers are an integral part of the support services for homeless people. The 2014 Adopted Budget increases daily day center access in downtown Seattle by providing funding to remain open on Sundays. The budget also includes funding to eliminate a gap in service hours at the relocated encampment shelter and day center to provide for 24-hour access and support services. Together these investments will assist the Center City Initiative by providing more homeless individuals with a safe place to go during the day.

The 2014 Adopted Budget also expands the Road to Housing program to reach at least 90 total vehicular residents who are sleeping in Seattle neighborhoods, a 200 percent increase over 2012. Through partnering with parking lots and increasing outreach services and case management, the program will increase safety and provide connections to housing for unsheltered persons who are living in their vehicles. The case managers will identify a resident's needs and link them with existing services and resources.

## **Enhance Supports for Young Adults**

The 2014 Proposed Budget invests in violence prevention and education and training for homeless and gang-involved young adults aged 18 to 24, filling a gap in services targeting this age group. Young adults have a more difficult path into the labor force if they are struggling with poverty, homelessness, crime and lack of high school completion. The 2014 Adopted Budget preserves education and apprenticeships in the construction industry for

# Human Services Department

homeless or at-risk of homelessness young adults. Without new resources to mitigate a federal reduction, the City will lose critical services that provide access to career training and a pathway out of poverty for young adults. In addition, the City will complete a one-time investment in gun violence prevention research and strategy development in partnership with Public Health - Seattle & King County.

## **Enhance Domestic Violence Response**

Although crime is down across the city, domestic violence assaults increased during the recession. In response to increased needs and the complexity of accessing services, the domestic violence (DV) response center will launch in mid-2014 to improve access to domestic violence services and law enforcement within a one-stop shop. The DV response center will co-locate police officers, prosecutors, civil legal service providers, community-based advocacy programs and other social service providers. Additional resources will expand long-term supportive housing for domestic violence survivors and their children. Survivors who are homeless or at risk of becoming homeless will have safe, long-term housing solutions. To more swiftly and strategically respond to trends in domestic violence and manage the increase in investments, the 2014 Adopted Budget funds a leadership position in HSD's Domestic Violence/Sexual Assault Prevention team.

## **Expand Support and Training for Early Learning Providers**

In contrast to the federal government's sequestration reductions to Head Start, the City remains committed to providing and expanding quality early learning opportunities for low-income children. Through a partnership of HSD and the Office for Education, the City's Early Learning Academy provides professional training and development to improve the quality of early learning education for providers serving low-income children. The 2014 Adopted Budget provides funding to increase the number of participants in HSD's Comprehensive Child Care Program (CCCP), focusing on providers who serve immigrant and refugee children. With this investment and current department efforts to contract with Somali child care providers, enrolled CCCP providers will nearly double to 250 child care locations in the program. The CCCP will increase staffing to support and train providers. By building new partnerships and connecting existing providers with quality training and oversight, more child care locations will be better prepared to ensure their children achieve early learning standards.

## **Preserve and Enhance Services for Seniors**

The 2014 Adopted Budget preserves funding for existing senior services despite federal and state reductions and expands services at the nine senior centers across the city. Seniors who live alone and who are low-income are at the highest risk of poor health. In 2012, the nine senior centers served more than 14,000 Seattle residents, of which 60% live alone and 65% are low-income, leaving them at risk to access social and health resources. Additional funding for services allows the centers to increase targeted programming and case management to uniquely target their neighborhood needs.

HSD will preserve additional services for low-income seniors, often accessed at senior centers, despite federal sequestration and state reductions. The City will maintain funding for senior meal services, volunteer transportation, adult day services, case management, family caregiver support services and healthy aging programs. Services for basic home improvements for seniors are maintained despite federal cuts to CDBG, but the program will move from the Office of Housing to HSD's Aging and Disability Services division to consolidate contract administration.

## **Advance City's Food Action Plan Recommendations**

The City's Food Action Plan strategy "Healthy Food for All" establishes the goal that "all Seattleites should have enough to eat and access to affordable, local, healthy, sustainable, culturally appropriate food." In support of this goal, the Farm to Table initiative connects local farms with senior meal and child care programs to increase access to healthy food. City investment will preserve the program's progress after its federal grant expires and expand the training and assistance to at least 50 more child care and senior meal sites reaching at least 1,500 low-income children and seniors. Combined with the Office of Sustainability and Environment's investment in Fresh Bucks, the

# Human Services Department

Farm to Table initiative will make real progress toward the City's "Healthy Food for All" goal.

## **Enhance Department Planning and Administrative Efficiencies**

An increase in investments for critical services for Seattle's most vulnerable residents requires thoughtful planning and efficient administration of resources. The 2014 Adopted Budget adds staffing to HSD to support an increase in contract management and to strategically plan for program investments to respond to changing trends and federal and state policy changes. HSD will also partner with Seattle City Light and Seattle Public Utilities to modernize its database and phone system for the Utility Discount Program, which provides assistance to low income utility customers. System upgrades will allow HSD to more efficiently manage the program on behalf of the utilities and to meet the goal of increasing assisted customers by 30% to 17,000 customers over the next two years.

## **City Council Changes to the Proposed Budget**

The Council increased General Fund support in the areas of homelessness, domestic violence, senior centers, and public health. The Council decreased funding for the Center City Initiative, the Career Bridge program, child care subsidies and youth violence prevention.

In the area of homelessness, the Council increased funding to provide emergency housing/shelter and long-term housing to homelessness families and young adults (ages 18-25); added funding for the Road to Housing program to provide services to and to help re-house people who are living in their vehicles; and increased funding for basic emergency shelter capacity for unsheltered families. The Council also added funds to support additional housing stability services.

The Council provided additional funding for senior centers to enhance services and wellness programs, and increased hours at senior centers. The Council also added funding for contracted paralegal services for immigrant domestic violence survivors. In addition, Council provided funding to support funding for fruit gleaning to provide fresh fruit to food banks and meal programs. The Council also added funds in Finance General for Meridian Center for Health, which will provide integrated medical, dental, behavioral, health and human services to residents of north Seattle and the surrounding area.

The Council reduced funding for the City Center Initiative and placed some funds under proviso. The Council removed funding from the proposed budget for the youth violence prevention initiative for 18-24 year-olds and eliminated the expansion of Career Bridge to English language learners (ELL). The Council also decreased funding for the Comprehensive Child Care Program (CCCP) subsidies based on lower enrollment, and reduced the amount of funding for backfilling federal and state reductions to county-wide services for seniors.

## Descriptions of Incremental Budget Changes

### Baseline Changes

#### **Adjustments for Standard Central Cost Changes - \$8,917**

The baseline budget is adjusted to provide budget authority for central cost allocations. Charges in 2014 are higher than projected in the 2014 Endorsed Budget. General Fund adjustments to the appropriate central cost accounts were made in baseline phase.

### Proposed Changes

#### **Enhance Center City Initiative - \$1,708,000/2.00 FTE**

The Council made changes to the Center City Initiative as described in the Council Changes section below. The Proposed Budget description follows. The City must protect the health and vitality of the downtown core to maintain its strength as an economic engine and location of choice for tourists, businesses and residents. The 2014 Proposed Budget included \$1.7 million to provide outreach, case management and services to individuals engaging in low level offenses who are in need of mental health and other social services.

The funding expands the successful Law Enforcement Assisted Diversion (LEAD) program that currently operates in the Belltown neighborhood to the entire downtown core. Under the existing LEAD program, the Seattle Police Department may choose to refer individuals engaging in low level drug crimes or prostitution to services instead of arrest.

Case management workers will assist approximately 250 individuals over a 12-month period with various types of services including chemical dependency and mental health treatment, and housing, food, and transportation assistance. The funding is divided roughly half for staff and half for services. LEAD is currently grant funded; expansion funds will come from the General Fund.

#### **Increase Shelter Investments to Address Homelessness - \$577,540**

The Council increased funding to this service area as described in the Council changes section below.

The 2014 Adopted Budget adds General Fund support to maintain and expand shelter, housing and other services for homeless individuals and families with children. HSD will increase shelter capacity by extending Winter Response Shelters year-round (\$112,440). Additional shelter beds will provide safe places to sleep and a path

# Human Services Department

toward stability for people who are homeless. Maintaining year-round shelter minimizes overhead costs by increasing capacity at existing facilities.

- Up to 30 women will have year-round access to emergency shelter every night through the summer months.
- Up to 80 men and women will have access each night to the "Behind the Red Door" shelter at City Hall during the summer months.

The encampment shelter will expand and relocate out of the downtown core in 2014. The 2014 Adopted Budget includes additional funding to support increased leasing costs (\$65,100) and one-time acquisition costs (\$400,000) for the shelter relocation. The new location will include an overnight shelter for 40 men and women who are referred to the shelter through outreach to individuals living in encampments. The new location advances the Center City Initiative goal to de-concentrate downtown services. Seattle City Light is selling the property on Roy Street where the shelter currently operates, necessitating the relocation. The new shelter location will share the site with the relocated Community Service and Wellness Center, which is currently located in Belltown and provides comprehensive daytime services and referrals to address the needs of homeless men and women. The new center will serve up to 300 women and men a day, allowing homeless individuals to access a continuum of services.

The City projects that federal Community Development Block Grant (CDBG) funding will decline by 5% from the 2014 Endorsed Budget. Using the General Fund as replacement funding, human service levels are preserved in the 2014 Adopted Budget despite the decrease. The overall decrease in CDBG reduces the amount of CDBG that the City may allocate to shelters because federal guidelines indicate that jurisdictions may spend no more than 35% of their CDBG funds on shelter. Without additional revenue, funding for shelters will decrease by \$187,567. The 2014 Adopted Budget provides General Fund resources to hold shelters harmless from the federal CDBG reduction.

## **Increase Other Investments to Address Homelessness - \$262,000**

The Council increased funding to this service area as described in the Council Changes section below. In addition to emergency shelter, day and hygiene centers and targeted outreach to vehicular residents are an integral part of the support services to help persons experiencing homelessness move toward stable housing. The 2014 Adopted Budget includes funds to enhance day and hygiene center services at two locations. The budget adds hygiene center hours downtown by providing \$95,000 so that the center is open 12 hours on Sundays. The budget also includes \$55,000 to eliminate a gap in service hours at the relocated encampment shelter and day center to provide for 24-hour access and support services. These centers provide individuals and families who are homeless with an access point to engage with services and resources to assist in moving toward stability. The centers provide services such as case management, healthcare, housing, employment assistance and access to showers, toilets and laundry. With anticipated federal reductions to day centers, contingency funding in Finance General will also assist to mitigate the potential loss of revenue in 2014.

The Road to Housing expansion, formerly known as the Safe Parking Program, will enhance services that create connections to housing for homeless individuals who are living in their vehicles in Seattle. During the 2013 One Night Count of people who are unsheltered, at least 631 individuals were sleeping in their vehicles in Seattle neighborhoods. The program will expand from 16 safe parking spaces to more than 55 parking spaces in participating parking lots across the city. The expanded program will connect at least 90 vehicular residents with support services with the goal of moving at least one-third into a stable living environment. The \$112,000 in expansion funds will provide outreach to increase the number of participating parking lots and case management to connect vehicular residents with services.

# Human Services Department

## **Expand Support and Training for Early Learning Providers - \$502,500/1.00 FTE**

The 2014 Adopted Budget increases support for quality child care services to enhance children's growth, development and learning opportunities. The 2014 Adopted Budget provides \$148,500 in funding to conduct training and outreach to an additional 60 providers to bring them into the department's Comprehensive Child Care Program (CCCP). Recruitment efforts will focus on immigrant and refugee child care providers. The providers benefit from contracting with the program by receiving subsidies for income-eligible families and improving the quality of child care through training and support from HSD education specialists.

The City's Early Learning Academy (ELA) recognizes that child care providers are at different levels of readiness for professional training and development. The addition of one education specialist position (\$104,000) to the CCCP will improve quality support and training to prepare providers for advancement within the ELA and will accommodate the growing case load. Three education specialists currently provide training and oversight to 131 child care providers. The CCCP is in the process of adding approximately 60 new Somali child care providers during the next year, in addition to the new 60 providers that will be recruited as a result of the 2014 Adopted Budget increase. By nearly doubling the CCCP provider participants, the City will continue to expand its reach to improve quality early learning opportunities for children from families with low incomes.

Finally, HSD will maintain child care services for homeless children through an existing contract (\$249,218) that is unfunded in 2014. The funding will provide services for nine children enrolled at any time. HSD will compare outcomes for homeless children in the existing child care services to outcomes for homeless children in HSD's children's behavioral health pilot to assess the funding needs for 2015.

## **Increase Support for Young Adults - \$490,000**

The 2014 Adopted Budget invests in violence prevention and education and training for young adults, targeting 18- to 24-year-olds. Young adults typically age out of many supportive services at age 18, but the need for continued support often remains. The 2014 Adopted Budget provides \$250,000 for young adult job training efforts that lost federal funding. Young adults who are hard hit by poverty, unemployment, homelessness, crime and lack of high school completion have a more difficult path into the labor force. Apprenticeships and education with a building industry-validated curriculum will prepare disadvantaged youth for demand-driven careers in the construction-related fields. This funding will bridge the gap to sustain education and training for young adults in anticipation that competitive federal funds may be awarded in late 2014. Some of these services will be provided at Seattle Public School's new Interagency Academy hub site in southeast Seattle. The increased investment in construction job training through HSD will complement the City's Seattle Conservation Corps, administered by Parks, and the Target Hire program, administered by the Department of Finance and Administrative Services (FAS), to promote training and employment of workers in construction careers.

Building on the success of the Seattle Youth Violence Prevention Initiative, the 2014 Proposed Budget included \$240,000 to provide case management support for young adults at risk for involvement in violence. Council eliminated funding for this initiative. For additional information, see the Council Phase Changes section below. <

## **Enhance Domestic Violence Response - \$438,000**

The Council increased funding to this service area as described below in the Council changes section below.

A domestic violence (DV) response center will launch in mid-2014 to improve access to domestic violence services and law enforcement within a one-stop shop. Through a partnership among HSD, the Seattle Police Department, King County Prosecuting Attorney's Office, service providers and the Seattle Police Foundation, the City will fund half of the center's operating costs. The 2014 Adopted Budget includes funding (\$125,000) to support operation costs for the second-half of 2014, based on estimates from a feasibility study completed in August 2013. The funding will leverage nearly \$1 million in other private and public sources, including King County and the Seattle

# Human Services Department

Police Foundation. The DV response center will co-locate police officers, prosecutors, civil legal service providers, community-based advocacy programs and other social service providers.

The 2014 Adopted Budget also includes \$200,000 to establish and maintain supportive long term housing for domestic violence survivors and their children in Seattle. An increase in demand and a reduction in federal funding drive the need for one case manager and associated flexible housing and stability funds. Survivors who are homeless, or at risk of becoming homeless, will have safe, long-term housing solutions and the initiative will also open up opportunities in short-term shelter options by moving out long-term shelter users. Approximately 50 families will receive long-term housing and supportive services through this program.

To increase the department's capacity to manage additional resources and strategically respond to trends in domestic violence, the 2014 Adopted Budget funds a Manager of Domestic Violence/Sexual Assault Prevention Investments within the Community Support and Assistance (CSA) division. The new position (\$113,000) will use an existing but unfunded FTE. The position will manage four staff and serve as the department's lead on developing and sustaining a continuum of services and investments. The manager will also work with external stakeholders to address domestic violence and sexual assault in our community.

## **Advance Gun Violence Prevention Strategies - \$68,000**

The 2014 Adopted Budget includes one-time funding for a half-time position at Public Health - Seattle & King County to conduct a comprehensive review and development of gun violence prevention strategies. Under the direction of the manager of Public Health's Violence and Injury Prevention Unit and in consultation with the division and department directors, the project manager will coordinate a multi-disciplinary team to review and analyze six identified gun violence prevention strategies and develop recommendations for advancing gun violence prevention.

## **Mitigate Federal and State Reductions in Aging and Disability Services - \$631,000**

The Council made changes to this proposal as described in the Council Changes section below. The Proposed Budget description follows. The 2014 Proposed Budget mitigates state and federal reductions to the Aging and Disability Services (ADS) division. The department will lose revenues due to federal sequestration (\$483,000) and state Department of Social and Health Services (DSHS) reductions (\$148,000). Without the City replacing the lost revenue, critical services would serve fewer low-income seniors through senior meal services, volunteer transportation, adult day services, case management, family caregiver support services and healthy aging programs.

## **Expand Senior Center Services - \$210,000**

Additional resources will enhance services and wellness programs and increase service hours at senior centers. With the number of older people expected to nearly double in Seattle by 2025, senior centers are an important component in providing low-cost services for three generations of elders and the people who care for them. Nine senior centers across the city will receive an average of \$20,000 to expand services and programming:

- [Ballard Northwest Senior Activity Center](#)
- [Central Area Senior Center](#)
- [Greenwood Senior Center](#)
- [International Drop In Center](#)
- [Pike Market Senior Center](#)
- [South Park Senior Center](#)
- [Southeast Seattle Senior Center](#)
- [Wallingford Community Senior Center](#)
- [Senior Center of West Seattle](#)

# Human Services Department

The 2014 Adopted Budget provides an additional \$30,000 in support to the South Park Senior Center, which currently relies entirely on volunteer support to provide services and programming to the predominantly immigrant and refugee communities in the area.

## **Move Minor Home Repair Contract from OH to HSD - \$449,917**

The Office of Housing (OH) will transfer the Minor Home Repair program to HSD to leverage existing contract monitoring and oversight within the ADS division. The CDBG-funded program typically funds small projects such as a bathroom grab bar, with an average materials cost of \$17 for more than 2,000 home repair jobs in 2012. The ADS division will administer the contract using staff expertise and contract oversight procedures already in place for existing contracts with the same provider.

## **Sustain Farm to Table program - \$136,000**

The Farm to Table program provides local produce to City-supported childcare and senior meal programs. Due to an expiring federal grant, City funding is needed to sustain a 0.5 FTE education specialist in the YFE division and a 0.25 FTE planner in the ADS division. The staff will provide technical assistance and training through contracts with community partners. Continuing the program will:

- Provide access to healthy local food for at least 1,250 children and older adults;
- Connect 30 of 340 program sites (9%) to local farms in 2014; and
- Advance the Healthy Food for All strategy in the 2012 Food Action Plan.

## **Increase Enrollment in Expanded Medicaid - \$120,000**

The 2014 Adopted Budget includes one-time funding for enhanced citywide outreach strategies to increase the number of Seattle residents enrolled in Medicaid. The funding supports one position in Public Health-Seattle & King County's Community Health Services Access & Outreach program. Because of the Affordable Care Act, in 2014, approximately 56,000 uninsured Seattle residents will be eligible for Medicaid and subsidized coverage through the Health Benefits Exchange. In the first expansion year, the City will enroll as many of the newly eligible as possible and establish systems to ensure ongoing enrollment into Medicaid. The new position will support one additional enrollment event per week and lead to the potential enrollment of 9,000 additional uninsured residents through increased capacity to certify City staff to enroll applicants.

The enhanced outreach will implement strategies that target the highest numbers of uninsured low-income individuals:

- Clients in City-funded human services, such as programs that prevent or address homelessness;
- Residents in the Central Area of Seattle (23rd and Union) to Rainier Valley, Beacon Hill, Delridge, South Park, Duwamish, Northgate through Lake City way and the Aurora area of Seattle; and
- Spanish speakers, Asian Pacific Islanders, Black/African-American communities, and immigrant populations who are no longer eligible for Refugee Assistance, among others.

## **Improve Strategic Planning and Contract Management - \$277,500/1.00 FTE**

This item increases capacity in the Community Support and Assistance (CSA) division by funding 2.5 FTEs to administer contracts and respond to local and federal requests for planning, evaluation and reporting. The increased planning and contract management capacity will ensure a more effective and efficient use of more than \$35 million in annual investments for services for homeless and low-income persons.

# Human Services Department

- 1.0 FTE (\$110,000) will improve the division's ability to implement program and strategic planning, program evaluation and reporting, and compliance with local and federal regulations related to homeless investments. The planning and development specialist I position is authorized but unfunded.
- 1.0 FTE (\$102,500) will increase the capacity within the Emergency and Transitional Services unit to collectively manage nearly 150 contracts for services for homeless and other low-income persons. This item adds a new senior grants and contracts specialist position.
- 0.5 FTE (\$65,000) will bring a position up to full-time to improve HSD's ability to secure and administer \$18 million in federal funds annually. The planning and development specialist senior position is authorized but unfunded.

## **Improve Utility Assistance Database and Phone System - \$50,000**

This item provides funding to modernize the Utility Discount Program technology to more efficiently assist in lowering utility bills for low income Seattle residents. The program goal seeks to increase the number of enrolled customers from 13,000 to 17,000 over the next two years. Upgrades to the technology systems will increase capacity to achieve this goal and improve the customer's experience by enabling online applications in a secure database. Seattle City Light and Seattle Public Utility are each contributing one-third of the project cost; HSD's General Fund contribution is \$16,666.

## **Proposed Technical Changes**

### **Citywide Adjustments for Standard Cost Changes - (\$90,893)**

Citywide technical adjustments reflect changes due to inflation, central cost allocations, retirement, healthcare, workers' compensation, and unemployment costs. These adjustments typically reflect updates to preliminary cost assumptions established in the 2014 Endorsed Budget.

### **Technical Overhead Changes for the 2014 Proposed Budget - \$141,898**

Department technical changes to overhead reflect the increase in administrative costs as a result of managing additional resources.

### **Technical Changes to Reflect Reorganization and Alignment with Actual Expenditures - (\$3,014,865)**

Department technical adjustments reflect changes made in 2013 to the internal organization structure of the department. Domestic Violence and Sexual Assault Prevention and Access to Benefits under the Community Support and Self-Sufficiency (CSSS) division and Transitional Living and Support (TLS) division are integrated into the new Community Support and Assistance (CSA) division. The Mayor's Office for Senior Citizens previously under the CSSS division is now integrated into the Aging and Disability Services (ADS) division. The Community Based Family Support in the CSSS division is integrated into the Youth and Family Empowerment (YFE) division. Technical changes also reflect changes to grant revenue, reallocation of internal costs and adjustments to align budget to reflect actual expenditures.

## Council Changes

### **Technical Adjustments - (\$8,422)/(2.00) FTE**

Council made technical adjustments during their budget deliberations. These include corrections to central costs, appropriations, position counts, and other non-policy changes to the Proposed Budget.

### **Increase Investments to Address Homelessness - \$530,000**

The Council provides \$130,000 in funding to HSD to provide emergency housing or shelter and long-term housing to homeless families and homeless young adults (ages 18-25). This change includes a proviso that requires HSD to complete a proposal to implement a regional program to assist homeless families, which will release up to \$450,000 more from Finance General. Council also added \$200,000 to add new capacity to existing facilities providing basic emergency shelter capacity. Council anticipates that an additional 30 families will be served with this funding. In addition, the Council added \$100,000 to the Road to Housing program to help rehouse people living in their vehicles, and to help participating organizations host vehicular residents. Council added \$100,000 to support additional housing stability services. The types of housing stability services that are funded will be based on a needs assessment and gap analysis.

### **Expand Senior Center Services - \$240,000**

This change adds \$240,000 to provide additional funding to enhance services and wellness programs and increase service hours at Senior Centers. The Council also includes a Statement of Legislative Intent (SLI) that directs HSD to carry out a planning process for senior centers that will lead to a Request for Investment Process (RFI).

### **Expand Domestic Violence Programs - \$15,000**

This change provides \$15,000 for contracted paralegal services for domestic violence survivors. Council also added a proviso on the domestic violence response center. For additional information on the proviso, see the Council Proviso section below.

### **Support Fruit Gleaning for Food Banks - \$28,000**

This change adds \$28,000 for funding of fruit gleaning to provide fresh fruit to food banks and meal programs. Fruit gleaning is the process of harvesting fruit from neighborhood trees that may have previously gone to waste.

### **Reduce Funding for the City Center Initiative - (\$670,000)**

This change reduces funding for the Center City Initiative by \$400,000 from \$1.5 million to \$1.1 million. The \$1.1 million includes \$830,000 for the Law Enforcement Assisted Diversion (LEAD) program, and \$300,000 is placed in Finance General for potential additional funding for the Multi-disciplinary Team (MDT). The Council also added two statements of legislative (SLIs) on MDT and LEAD. The first SLI requires the MDT to provide to complete ongoing quarterly reporting. The second SLI states that LEAD is to be expanded geographically, but will remain focused on low level crimes involving drugs and prostitution unless LEAD receives explicit legislative approval by the City Council.

# Human Services Department

## **Reduce Child Care Assistance Program Subsidies - (\$365,000)**

This change reduces the Child Care Assistance Program (CCAP) subsidies by \$365,000 based on lower enrollment projections for 2014.

## **Reduce Backfill for State and Federal Reductions - (\$406,000)**

This change reduces backfill funding for state and federal reductions by \$406,000. The Council funding reduction maintains \$225,000 to restore services for City residents. Council also included a Statement of Legislative Intent (SLI) requesting HSD to pursue partnership funding for regional senior services and develop a policy framework for Seattle-specific enhanced services for older adults.

## **Eliminate Youth Violence Prevention Program for 18-to-24-year-olds - (\$240,000)**

This change eliminates \$240,000 in funding for the proposed youth violence prevention program for 18-24-year-olds.

## **Eliminate Career Bridge Expansion to English Language Learners - (\$400,000)**

This change eliminates \$400,000 in Community Development Block Grant (CDBG) funding for the expansion of Career Bridge to English language learners, which was in the 2014 Endorsed Budget. Council also included a SLI for the Career Bridge Men of Color program which requests that HSD, the Office of Economic Development (OED), and the Community Based Development Organization (CBDO) selected to implement Career Bridge, will work cooperatively with the evaluation firm selected by the City Auditor's Office.

## **City Council Provisos**

The City Council adopted the following budget provisos:

- *None of the \$130,000 appropriated in the 2014 budget for the Human Service Department's Youth and Family Empowerment BCL may be spent until the Chair of the Council's Housing, Human Services, Health and Culture Committee (or successor committee) files with the City Clerk his or her certification that HSD has provided a report that confirms that public or private funds matching the City's contribution for these shelter beds has been secured.*
- *No more than \$50,000 appropriated in the 2014 budget for the Human Services Department Community Support and Assistance BCL may be spent on strategic planning for the Domestic Violence Response Center.*
- *None of the money appropriated in the 2014 budget for the Human Services Department Community Support and Assistance BCL may be spent for 2014 Domestic Violence Response Center operations until authorized by future ordinance. Council anticipates that such authority will not be granted until HSD provides Council with information on the selected site, capital costs for the site, short and long term operating costs, a long term funding plan that details the funding commitment by other funders, and the programs and services that will be offered at the Center.*

# Human Services Department

- *Of the appropriation in the 2014 budget for the Human Services Department Community Support and Assistance BCL, \$28,000 is appropriated solely for contract services for gleaning fruit from residential, privately owned trees and providing the fruit to food banks and meal programs in Seattle and may be spent for no other purpose.*
- *Of the appropriation in the 2014 budget for the Human Services Department (HSD), Youth and Family Empowerment Budget Control Level, \$148,500 may not be spent for outreach, training and assistance to new child care providers until HSD completes a competitive process for this funding.*
