Introduction

The City of Seattle and its more than 12,000 employees build and maintain infrastructure, provide utility service, support the needs of the city’s residents, and create recreational, cultural, and other enriching opportunities. In providing excellent service, these employees use and maintain dozens of city-owned properties, a fleet of vehicles ranging from fire trucks to golf carts, and equipment and facilities necessary to complete the City’s mission.

Budgeting for a large organization with many functions is a crucial and complex process. A proposed budget requires solid forecasts on commodities (such as the price of fuel), economic strength (as it impacts tax revenues, among other budgetary components), and demand for services (from parking meters to libraries to police officers to disc golf courses).

This book is designed to provide clear and accurate information on the budgetary process, estimated revenue streams, and a basic description of departmental needs and spending. The State of Washington allows cities to adopt biennial budgets. The City Council and Mayor endorsed a budget for 2020 in late 2018 and will adopt a budget for 2020 in late 2019.

City of Seattle Budget Process

In its simplest terms, the City budget is proposed by the Mayor (Executive), checked for compliance with the law (City Attorney), and amended and passed by the City Council (Legislative) before returning to the Mayor for his or her approval and signature. The budget itself is composed of two main documents: an operating budget and a capital improvement program (CIP) budget. The CIP budget consists of large expenditures on infrastructure and other capital projects. The operating budget is primarily composed of expenditures required by the City to deliver the day-to-day array of City services.

Charts summarizing the City’s budget process and organization can be found at the end of this section.

Budget Preparation

The budgeting process begins early each year as departments assess needs and budget forecasters work to estimate revenues and costs. Operating budget preparation is based on the establishment of a current services or “baseline” budget. Current services is what it sounds like – continuing programs and services the City provided in the previous year, in addition to previous commitments that will affect costs in the next year, such as a voter-approved levy for new park facilities, as well as labor agreements and changes in health care, insurance, and cost-of-living- adjustments for City employees.

During the budget preparation period, the City Budget Office (CBO) makes two General Fund revenue forecasts, one in April and one in August. Both are used to determine whether the City’s projected revenues are sufficient to meet the projected costs of the current services budget. If revenues are not sufficient to cover the cost of current services, the City must identify changes to close the gap – either through reductions or increased revenues or a combination of both. If the revenue forecast shows that additional resources are available, then the budget process identifies new or expanded programs to meet the evolving demands for City services. Regardless, the City is required by state law to prepare a balanced budget.

Introduction & Budget Process

In May, departments prepare and submit Budget Memos to CBO for analysis and mayoral consideration. The Mayor's Office reviews and provides direction to departments on the Budget Memos, giving direction on items they should include in their formal budget submittal. In early June, CBO receives departmental operating budget and CIP submittals, including all position (employee) changes. Mayoral review and evaluation of department submittals takes place through the end of August. CBO, in conjunction with individual departments, then finalizes the operating and CIP budgets.

In late September, the Mayor submits the proposed budget and CIP to the City Council. In addition to the budget documents, CBO prepares supporting legislation and other related documents.

After the Mayor submits the proposed budget and CIP, the City Council conducts public hearings. The City Council also holds committee meetings in open session to discuss budget requests with department representatives and CBO staff. Councilmembers then recommend specific budget actions for consideration by their colleagues.

During the budget review process, the City Council may choose to explain its budget actions further by developing statements of legislative intent and budget guidance statements for future budget action. Intent statements describe the Council's expectations in making budget decisions and generally require affected departments to report back to the City Council on results.

After completing the public hearing and deliberative processes the City Council votes to adopt the budget, incorporating its desired budget changes, in late November. The Mayor can choose to approve the Council's budget, veto it, or let it become law without mayoral signature. The Mayor must veto the entire budget or none of it, as there is no line-item veto in Seattle. Copies of budget documents are available for public inspection at the CBO offices, at the Seattle Public Library, and on the Internet at <http://www.seattle.gov/budget>.

During the year, the City may have a need to change the adopted budget to respond to evolving needs. The City makes such changes through supplemental budget appropriation ordinances. A majority of the City Council may, by ordinance, eliminate, decrease, or re-appropriate any unspent appropriations during the year. The City Council, generally with a three-fourths vote, may also increase appropriations from available money to meet necessary expenditures that were not foreseeable earlier. Additional unforeseeable appropriations related to settlement of claims, emergency conditions, or laws enacted since passage of the annual operating budget ordinance require approval by a two-thirds vote of the City Council. Absent such changes, departments are legally required to stay within their annual budget appropriation.

Reader's Guide

This reader's guide describes the structure of the 2020 Adopted Budget book and outlines its content. The budget book is designed to present budget information in an accessible and transparent manner – the way decision-makers consider the various proposals. It is designed to help residents, media, and City officials more easily understand and participate in the budget deliberations.

A companion document, the 2020-2025 Adopted Capital Improvement Program (CIP), identifies expenditures and fund sources associated with the development and rehabilitation of major City facilities, such as streets, parks, utilities, and buildings over the next six years. The CIP also shows the City's financial contribution to projects owned and operated by other jurisdictions or institutions. The CIP fulfills the budgeting and financial requirements of the Capital Facilities Element of Seattle's Comprehensive Plan by providing detailed information on the capacity impact of new and improved capital facilities.

The 2020 Adopted Budget and 2020-2025 Adopted CIP can also be found online at the City Budget Office's webpage. In addition to PDF files containing the Adopted Budget and Adopted CIP, the site contains department-customized expenditures and revenues.

The 2020 Adopted Budget

This document is a description of the proposed spending plan for 2020. It contains the following elements:

- **Adopted and Proposed Budget Executive Summaries** – Narratives describing the current economy, highlighting key factors relevant in developing the budget document, and how the document addresses the Mayor's priorities;
- **Summary Tables** – a set of tables that inventory and summarize expected revenues and spending for 2020;
- **General Fund Revenue Overview** – a narrative describing the City's General Fund revenues, or those revenues available to support general government purposes, and the factors affecting the level of resources available to support City spending;
- **Selected Financial Policies** – a description of the policies that govern the City's approach to revenue estimation, debt management, expenditure projections, maintenance of fund balances, and other financial responsibilities;
- **Departmental Budgets** – City department-level descriptions of significant policy and program changes from the 2020 Endorsed Budget, the services provided, and the spending levels proposed to attain these results;
- **Appendix** – an array of supporting documents including Cost Allocation, a summary of cost allocation factors for internal City services; a summary of position changes by department contained in the 2020 Adopted Budget; and a glossary.

Reader's Guide

Departmental Budget Pages: A Closer Look

The budget presentations for individual City departments (including offices, boards, and commissions) constitute the heart of this document. They are organized alphabetically within seven functional clusters:

- Arts, Culture, & Recreation;
- Education, Health & Human Services;
- Neighborhoods & Development;
- Public Safety;
- Utilities & Transportation;
- Administration; and
- Funds and Funding Sources.

Each cluster, with the exception of the last, comprises several departments sharing a related functional focus, as shown on the organizational chart following this reader's guide. Departments are composed of one or more budget control levels, which in turn may be composed of one or more programs. Budget control levels are the level at which the City Council makes appropriations.

As indicated, the adopted budget appropriations are presented in this document by department, budget control level, and program. At the department level, the reader will also see references to the underlying fund sources (General Fund and Other) for the department's budgeted resources. The City accounts for all of its revenues and expenditures according to a system of funds. In general, funds are established to account for specific revenues and permitted expenditures associated with those revenues. For example, the City's share of Motor Vehicle Fuel taxes must be spent on road-related transportation activities and projects, and are accounted for in a fund in the Transportation Fund. Other revenues without statutory restrictions, such as sales and property taxes (except voter-approved property taxes), are available for general purposes and are accounted for in the City's General Fund. For many departments, such as the Seattle Department of Transportation, several funds, including the General Fund, provide the resources and account for the expenditures of the department. For several other departments, the General Fund is the sole source of available resources.

Reader's Guide

Budget Presentations

Most department-level budget presentations begin with information on how to contact the department. The department-level budget presentation then goes on to provide a general overview of the department's responsibilities and functions within City government, as well as a summary of the department's overall budget. A narrative description of the issues impacting the department's 2020 Adopted Budget then follows. The next section of the department-level budget presentation provides a numerical and descriptive summary of all of the incremental budget changes included in the 2020 Adopted Budget, along with a discussion of the anticipated operational and service-level changes that will result. The department-level budget presentation concludes with summary level tables that describe the department's overall expenditures and revenues by type as well as by budget control level and program. All department, budget control, and program level budget presentations include a table summarizing historical and adopted expenditures, as well as proposed appropriations for 2020.

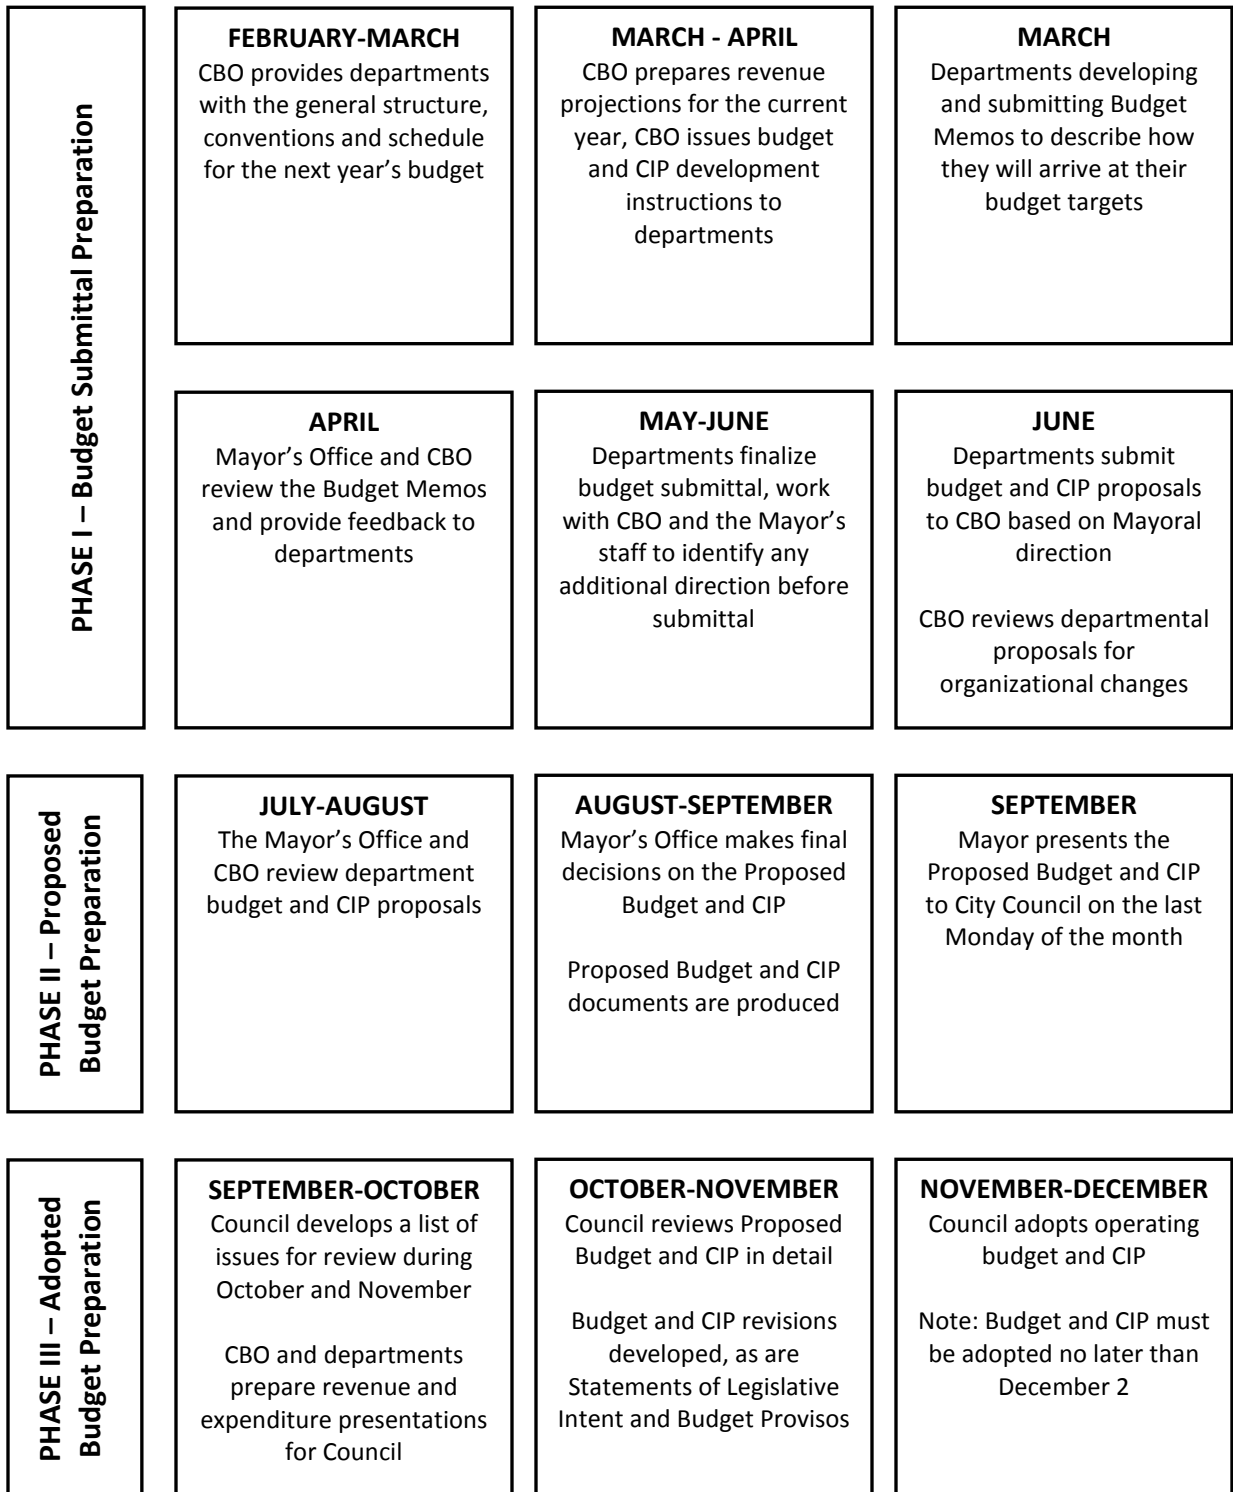

A list of all position changes adopted in the budget has been compiled in the appendix. Position modifications include eliminations, additions, reclassifications, and status changes (such as a change from part-time to full-time status), as well as adjustments to departmental head counts that result from transfers of positions between departments.

For information purposes only, an estimate of the number of staff positions to be funded under the 2020 Adopted Budget appears in the departmental sections of the document at each of the three levels of detail: department, budget control, and program. These figures refer to regular, permanent staff positions (as opposed to temporary or intermittent positions) and are expressed in terms of full-time equivalent employees (FTEs). In addition to changes that occur as part of the budget document, changes may be authorized by the City Council or the Human Resources Director throughout the year, and these changes may not be reflected in the estimate of staff positions presented. These changes are summarized in the appendix.

* The Library is governed by a five-member citizens' board of trustees, appointed by the Mayor and confirmed by the City Council.

Budget Process Diagram

2020 Adopted Budget Executive Summary

On November 25, 2019, following two months of intensive review and discussion, the Seattle City Council's Select Budget Committee approved the 2020 Adopted Budget, [Ordinance 126000](#). The full City Council voted 8-1 to approve the budget later the same day. As a result of its review and deliberations, the Council made a number of modifications to the Mayor's 2020 Proposed Budget. The purpose of this executive summary is to highlight the most significant elements of these changes. This summary of the changes in the adopted budget must be read in conjunction with the summary of the 2020 Proposed Budget, which describes the major elements of the budget as it was proposed to the Council by the Mayor (and follows this section).

Economy and Revenue

The Mayor's 2020 Proposed Budget was based on revenue forecast that was completed in August, three months before final Council action on the 2020. In early November, the Budget Office prepared an update to this forecast. Consistent with this update, the Council adopted a small change of an additional \$1.2 million in General Fund revenues. In addition, the City Council approved two new taxes on transportation network companies, such as Uber and Lyft, and heating oil service providers, which generate \$9.6 million and \$568,000 respectively in 2020. By appropriating a number of one-time resources and re-directing funding that had from the uses identified in Mayors 2020 Proposed Budget, Council provided funding for several of their collective priorities.

Homelessness and Hygiene Access

The City Council continued to address homelessness in their budget deliberations, including over \$2 million for tiny home villages; \$1.5 million to support the relocation and improvement of a young adult shelter; \$1 million to expand homelessness services for American Indian and Alaskan Native people; and \$750,000 to create and evaluate a rental assistance pilot for individuals over 50, limited income sources, and at risk of, or currently experiencing homelessness.

Hygiene access was another priority for the Council, adding \$1.28 million to purchase and operate five mobile restroom units; \$244,000 to expand shower services; and \$115,000 to expand encampment trash pickup services

Transportation

Increasing appropriations and projects, the City Council primarily made a variety of one-time adds (\$3,350,000 total) supported by the to-be-implemented increase in Transportation Network Company (TNC) taxes. While these new TNC taxes are ongoing, the Council utilized the 2020 revenue to fund several one-time adds. The Council also redirected \$2 million of "Mercer Megablock" property sale proceeds to support more protected bike lane infrastructure instead of using those proceeds to backfill declining commercial parking tax revenue, as originally proposed.

Public Safety

The Council added \$3.5 million in annual funding to support the Law Enforcement Assisted Diversion (LEAD) program in the Human Services Department. This program seeks to provide case management and direct services to individuals who have been or at risk of being involved in the criminal justice system. The City has been funding the program for several years, but Council acted to significantly expand the scope of the program. The Council also added one-time funding to support an additional recruit class for the Seattle Fire Department and provided additional funding to facilitate the replacement of Fire Station 31. A temporary station will now be established, while work continues to site and build a new facility.

Tenant Assistance and Protection

The Council also took action to provide additional assistance and protections to those in Seattle who rent their homes, which includes roughly 40% of Seattle Households. Council provided an additional \$236 in funding for outreach and education regarding tenant right, and an additional \$230,000 for legal assistance for those facing eviction.

Other Significant Council Changes

- *Funding for the relocation of a homeless youth shelter; \$1.5 million*
- *Funding for a new health clinic; \$1.8 million*
- *Redirected Sweetened Beverage Tax resources toward food and education programs; \$2.3 million*
- *Providing water filling stations at community centers, \$300,000*
- *Rapid response program for emergent needs in the Office of Immigrant Refugee Affairs; \$375,000*

2020 Proposed Budget Executive Summary

The City of Seattle's 2020 Proposed Budget represents the second year of the City's 2019-2020 biennial budget process. The City's biennial budget process requires that the City develop a two-year budget plan every other year. The first year of the biennial budget is adopted as law, and the second provides the foundation from which to develop a single-year proposal the following year. Accordingly, as part of last year's budget actions, the Mayor and the City Council formally adopted the 2019 Budget and endorsed a budget for 2020. The 2020 Endorsed Budget did not legally appropriate spending for 2020 but did provide a firm baseline from which the 2020 Proposed Budget has been developed.

As described below, the overall revenue forecast for 2019 and 2020, which defines the resources available for appropriation, has changed relatively little since the 2020 budget was endorsed last fall. The local economy has remained stable over the past year, growing steadily but at a relatively modest rate, consistent with the City's forecast. However, several other developments have provided additional resources to support some new spending in 2020. For example, the sale of the Mercer Megablock properties and payments to the City associated with the expansion of the Washington State Convention Center have provided significant resources for both housing and transportation investments. Inflation costs have been somewhat lower than anticipated and the cost of retroactive pay at the Seattle Police Department was less than projected. Most of these additional resources represent one-time infusions and balancing this limitation against the pressures for expansion of ongoing services is among the challenges that the Mayor faced in developing the 2020 Proposed Budget. Recognizing the one-time nature of the additional revenues, a number of the proposals for additional spending represent one-time spending or cautionary investments in pilot programs that need to be further assessed before the City makes long-term funding commitments.

Local Economy Remains Strong but Growth Has Slowed

For the past two years the City Budget Office (CBO) has predicted that the local economy would continue to grow – buoyed by a strong technology sector and robust construction activity – but that this growth would slow as the pace of hiring and expansion locally began to track more closely to national trends. While stronger growth persisted somewhat longer than had been anticipated, this prediction has largely been realized. Looking forward, the local economic forecast, which underlies the prediction of economically dependent revenues such as sales tax and business and occupation tax, anticipates that this trend will continue. In 2020, CBO is forecasting 1% growth in regional employment, which is significantly slower than the approximately 3% average annual growth rate since the post-recession low point in February 2010. General Fund revenues are expected to grow by about 2.8%, after adjustments, such as removing the one-time proceeds from the sale of the Mercer Megablock, that allow for cross-year comparisons. Such growth is just above the expected rate of inflation at about 2.3%.

Relative to recent forecasts, the most important difference is the downward risk in the current projections. Current federal trade policy has been reducing the volume of international trade, and a further escalation in volleying tariffs poses a significant risk to the regional economy. Major employers including Boeing, Microsoft and Amazon are all dependent on access to international markets. Neither CBO's forecast, nor the national predictions upon which it is built, anticipate that these policies will lead

2020 Proposed Budget Executive Summary

to a recession in the coming year, but the probability that such an event could occur has definitely increased. The 2020 Proposed Budget includes additional contributions to both the City's Revenue Stabilization Account and its Emergency Fund, per the terms of existing financial policies, that could help mitigate the impacts of an economic downturn, should one occur.

Affordable Housing and Equitable Development – Opportunities Provided by the Sale of the Mercer Megablock and New State Laws

While the recent strength of the local economy has driven growth in City revenues, it also has created significant policy challenges in terms of housing affordability and displacement. The City has responded with a variety of strategies, both in terms of direct funding and regulatory intervention. In the 2020 Proposed Budget, the proceeds from the sale of the Mercer Megablock properties will provide significant resources to expand direct investments in new and existing strategies to provide affordable housing and promote a more equitable, community-driven pattern of neighborhood development. In total, after accounting for transaction costs, the sale of the Megablock properties will provide more than \$78 million for these programs. Of this total, \$15 million is allocated to the City's existing Equitable Development Initiative (EDI). Led by the Office of Planning and Community Development, EDI provides direct funding for community-driven development efforts that are designed to serve existing residents, businesses and the cultural organizations that are at the highest risk of displacement. This will complement the \$5 million in annual funding from the Short-Term Rental (STR) Tax that now will now be fully devoted to EDI projects. In 2019, approximately \$1 million of STR revenues are being used to fund the staff tasked with implementing EDI. Consistent with recent City Council action directing that STR revenues not be used to fund City staff, the 2020 Proposed Budget allocates General Fund resources for this purpose.

An additional \$15 million will be directed to the Office of Housing to further mitigate residential displacement by funding affordable home ownership via a community land-trust model. Residential affordability, both for homeowners and potential tenants, will also be enhanced by a proposed \$6 million investment in enhancing the affordability of accessory dwelling development. The City recently approved legislation expanding the opportunities for the construction of such units, and the Mayor is now proposing that \$6 million of the proceeds from the sale of the Mercer Megablock properties be used to fund a low-cost loan program to reduce the cost of building such units, in exchange for ensuring that they will be rented at affordable rates.

The remaining \$42 million in proceeds from the sale of the Mercer Megablock properties will be held in Finance General, awaiting appropriation for strategic investments that will produce publicly-owned assets, whether that be undeveloped land or existing facilities, to provide affordable housing, mitigate the pressures of displacement, and provide other potential public benefits on a permanent and enduring basis. The Megablock properties are a significant tangible asset and the Mayor believes that if they are to be sold, the proceeds from the sale should be used to purchase comparable assets that can provide long-term value to future generations of Seattle residents. Over the coming months and into the first part of 2020, the Mayor has proposed a process to work with the City Council to identify such opportunities, vet these potential investments with a committee of community experts and stakeholders, and to bring forward specific proposal for Council action. Rarely does the City have access to the resources needed to make such targeted investments in support of the joint goals of expanding

2020 Proposed Budget Executive Summary

access to affordable housing and mitigating the risk of displacement for local residents, businesses and cultural institutions.

In addition to this funding for affordable housing and equitable development, more than \$50 million of the total \$143.5 million in proceeds from the sale of the Mercer Megablock properties are dedicated to transportation purposes. Portions of the Megablock properties were originally purchase with transportation-restricted resource and must be used for transportation purposes. The details of this proposed spending are summarized below as part of a more general discussion of proposed transportation funding.

Actions by the state legislature to increase the funding available for affordable housing have provided for further opportunities to expand investments in affordable housing, relative to what was originally planned in the 2020 Endorsed Budget. The City recently adopted legislation taking advantage of a new state law that provides an opportunity to redirect a portion of the sales tax collected from local jurisdictions into new affordable housing investments. This will provide up to \$4.5 million per year for 20 years for new affordable housing. The 2020 Proposed Budget invests in 175 new units of Permanent Supportive Housing (PSH) and the associated operation and maintenance costs. Debt will be issued to secure the funding needed to build the housing, and this new revenue stream will provide both the resources needed to repay that loan and the operational costs of the facility.

Taking advantage of another state law change in 2019 ([HB 1219](#)), the Mayor is also making \$25 million total of Real Estate Excise Tax (REET) revenues available to support additional capital investments for new affordable housing through 2025. Per City policy, REET revenues are generally targeted toward spending on the long-term maintenance of City facilities, including things such as roof repair, HVAC replacement and other basic capital needs. While additional funding for affordable housing is a priority for the City, ongoing investments in our existing facilities is necessary to support the provision of other City services and to avoid costly projects that result from the neglect and deferred maintenance. The budget strikes a balance between these competing uses of REET revenues.

A Renewed Focus on Assistance for Small Business

The strength of the local economy has also been a mixed blessing for the City's business community. The growth in employment and population has created significant opportunities, but the pressure on wage costs, commercial rental rates and competition have also created significant challenges, particularly for small businesses. The Mayor's proposed budget responds to this dynamic by expanding the tools available to the Office of Economic Development's (OED) Only in Seattle (OIS) Program, as well as an increased strategic focus at OED on service-oriented small businesses in neighborhoods facing high-risk of displacement. The proposed budget includes \$300,000 for two designated funds to assist small businesses, the Business Stabilization and Tenant Improvement funds. The Business Stabilization Fund will help small businesses facing short-term emergencies, such as theft, vandalism, or emergency repairs, with a focus on those in high-risk displacement neighborhoods. The Tenant Improvement Fund encourages the development of affordable commercial tenant improvements for businesses in high displacement risk areas. Both these funds are part of the office's new Inclusive Economy Agenda, which aims to reduce barriers to economic success for small business owners.

2020 Proposed Budget Executive Summary

Expansion of Childcare Subsidies and Access to Healthy Food – Opportunities Provided by Sweetened Beverage Tax Revenues

Unanticipated growth in the revenues from the City's Sweetened Beverage Tax (SBT) represents a notable exception to the general observation that tax revenues have tracked closely to forecast. For the second year in a row, 2019 SBT revenues will significantly outpace our initial forecasts, and this outcome has led CBO to also revise 2020 revenue estimates as well. The original forecasts for 2019 and 2020 anticipated approximately \$21 million per year in SBT revenues—the forecast now projects that to be closer to \$24 million per year. This will provide an additional \$3 million per year in funding for SBT-eligible activities. Furthermore, after final action was taken on the 2019 Adopted and 2020 Endorsed Budget, Council provided direction to the Executive that will make additional SBT resources available for such activities in 2020 and beyond. In particular, the 2019 Adopted and 2020 Endorsed Budget relied on SBT revenues to support more than \$6 million in annual spending that had previously relied on General Fund resources. The 2020 Proposed Budget implements that direction, meaning that about \$9 million of ongoing SBT funding is available to be allocated in the 2020 Proposed Budget (approximately \$3 million from the forecast revision and \$6 million due to change in policies regarding the use of funding). In addition, unspent fund balance of approximately \$4 million from 2019 is also available for appropriation on a one-time basis in 2020.

This additional ongoing funding will be used to make three significant investments. First, \$2.7 million will be dedicated to a significant expansion of the Fresh Bucks program, which provides direct assistance for the purchase of healthy foods to those who might not otherwise be able to afford such options. An additional \$3 million will be made available to the Department of Education and Early Learning (DEEL) to expand the eligibility and depth of the subsidies offered through the City's Child Care Assistance Program (CCAP). Specifically, this funding will support increasing income eligibility from 300% to 350% of the Federal Poverty Level (FPL), fund enrollment increases, reflect the increasing cost of childcare, support providers who participate in the program, and enhance staffing capacity. The 2020 Proposed Budget almost doubles the funding for the program, and as a result, an additional 500-700 families will receive childcare vouchers. In addition, the proposed budget provides \$2.5 million to the Department of Neighborhoods to create a Healthy Food Fund, a new community grant program to improve public health. The Fund is consistent with the recommendations from the Sweetened Beverage Tax Community Advisory Board (CAB), which provides recommendations regarding the City's use of SBT revenue. Additional funding will also be provided to fund some additional youth-focused recreational activities in the Department of Parks and Recreation. The remaining resources are to be used to support the staff needed to implement the new and expanded programs.

The additional, one-time \$4 million unspent fund balance mentioned above will be used for two purposes: the creation of a one-time \$3 million opportunity fund to address capital needs at P-patches and community gardens, which can directly help provide access to healthy food for both the gardeners themselves and the agencies to whom the P-patches and community gardens donate; and the creation of a fund reserve to protect against a future downturn of SBT revenues. Initially, the reserve would be funded at \$1 million.

2020 Proposed Budget Executive Summary

Public Safety

Seattle Police Department Staffing. The Mayor maintains a strong commitment to public safety and consistent with that view, the 2020 Proposed Budget includes funding to enhance public safety services in a number of ways. Unanticipated challenges in both recruitment and retention have constrained the Seattle Police Department's (SPD) ability to meet the hiring goals set in the original budget. With lower staffing levels than anticipated there are resources available to fund new recruitment and retention efforts, and to invest in programs that can complement the officers who are available for duty.

As the hiring challenges became clear early in 2019, the Executive formed a work group that included experts from SPD and elsewhere in the City to identify new strategies to enhance both recruitment and retention. The 2020 Proposed Budget includes approximately \$1.6 million to implement these strategies and an additional \$800,000 will be spent on direct financial incentives for new recruits and "lateral" hires who move to SPD from another police department.

These efforts will help increase the size of the force over time, but investments are also proposed to address near-term public safety needs. Nearly \$850,000 in funding will be available to continue the community-based emphasis patrols that began earlier this year. At the same time, the Mayor proposes redirecting \$1.2 million that would have otherwise been spent to fund new sworn officers towards the expansion of the recently revived Community Service Officer (CSO) program. CSOs are non-sworn, civilian positions that work closely with police officers to coordinate on specific community needs and build stronger relationships with communities across the city and may serve as a community pipeline for new officers. The funding will add six CSOs, including a supervisor, expanding the overall program from 12 to 18 employees.

Behavioral Health and Public Safety. Beyond these general commitments to enhancing SPD, the budget also includes funding for several innovative pilots designed to address more specific public safety issues. For example, one issue that has become an increasing challenge for both SPD and the Seattle Fire Department (SFD) is the number of non-emergency calls that require attention of both police and fire personnel. Many of these calls come from individuals who are facing significant mental or emotional challenges, but not immediate risks to their physical health. To help reduce the number of calls that are generated, the budget includes funding to provide dedicated nurses at five locations that currently generate a high volume of non-emergent, low-acuity 9-1-1 calls. This will be complemented by a dedicated nurse call line available to other facilities that also generate many such calls. In addition, resources will be available to expand the new "Health One" unit, which will be launched in October of 2019. This unit, which is being piloted by SFD, provides a team that includes both medical and mental health personnel to respond to calls that are not life-threatening emergencies and where other services are required to address both the near- and long-term needs of those seeking assistance. Funding will also be provided to expand SPD's Crisis Response Unit with four new mental health professionals, providing one such professional for each of the five precincts. This addition is not designed to reduce call volumes, but rather ensure that SPD has an appropriate team available to respond to situations where significant mental health crises have created a public safety risk.

Response to "High Barrier" Individuals. An analysis of data from SPD, SFD, the Seattle Municipal Court and the Human Services Department has revealed that a relatively small number of individuals are putting significant stress on the City's public safety systems, and that a significant majority of these individuals suffer from serious mental health and/or substance abuse issues. Recognizing that the City's

2020 Proposed Budget Executive Summary

existing structure of interventions and services is not successfully addressing their needs or effectively minimizing their impact on the broader community, the Mayor formed a multi-jurisdictional, multi-agency work group, which included City and County representation from the relevant law enforcement, court, prosecution, defense and human service agencies to develop new, more effective strategies. The High Barrier Individual Work Group has just completed a progress report that recommends a number of pilot projects. The 2020 Proposed Budget includes just over \$3 million, including \$2 million in capital costs, to implement these recommendations. The capital investment is associated with a joint effort by the County and the City to transform an unused portion of the King County Jail into a place-based treatment center for those dealing with mental health and substance abuse issues. In addition, the County and the City are working together to provide enhanced services, including referral to appropriate treatment, for individuals who are being released from jail after relatively short stays, but for whom such stays have been repeated and frequent. The Seattle Municipal Court, which also has been an active participant in High Barrier Individual Work Group, will pilot a new approach to probation services for this group of individuals, with an emphasis on lower caseloads for probation counselors, specialized training in harm reduction, and a more flexible approach to court-controlled sanctions and incentives.

Human Services and Homelessness – Increased Services and a Shift to Regional Governance

In terms of overall funding, the Mayor's 2020 Proposed Budget continues a strong commitment to serving the needs of those who find themselves experiencing homelessness in Seattle. Funding is maintained for current services and additional resources are proposed for an expansion of some existing programs. The specific proposals are described below. At the same time, initial funding will be provided to the newly formed King County Regional Homelessness Authority, which has been proposed in conjunction with King County to take over responsibility for the development and implementation of programs to both prevent homelessness and provide services to those who are experiencing homelessness. A funding allocation of \$2 million, paid for by part of a \$5 million donation from the developer that purchased the Mercer Megablock properties, will provide the one-time resources needed to stand up the agency.

The remainder of this donation will provide funding to address a number of other funding needs, including: the resources that may be needed to ramp down operations at two of the City-sanctioned tiny house villages and replace any lost shelter system capacity with increased space in other villages and enhanced shelters; the ongoing operation costs for the recently opened Mount Baker Family Resource Center; and one-time funding needed to sustain families enrolled in the pilot Seattle Rental Housing Assistance Program.

The budget also provides resources to sustain the City's Navigation Team at its current size and capacity level. The Human Services Department used one-time salary savings to expand the Navigation Team in 2019 by hiring two additional Field Coordinators. This expansion has allowed the Team to increase outreach services to those living in unsanctioned locations, and provided the resources needed to remove unsanctioned encampments with a focus on those blocking the right-of-way.

The budget also includes additional resources for Seattle Public Utilities, the Department of Finance and Administrative Services, and the Department of Parks and Recreation to expand the City's existing

2020 Proposed Budget Executive Summary

recreational vehicle remediation program. The budget makes an additional investment in 2020 to support the pilot Safe Parking Program originally funded through the 2019 Adopted and 2020 Endorsed Budget. These funds will be added to the \$250,000 already in the 2020 Endorsed Budget, expanding the program's 2020 budget by 50%.

The proposed budget also makes an additional inflationary adjustment for human service provider contracts. The 2020 Endorsed Budget contained a 2% inflationary increase for contracts that are funded by the City's General Fund. The City Council passed [Ordinance 125865](#) in July 2019, requiring that the City adjust all human services provider contracts by CPI-W each year. The proposed budget increases this adjustment to a total of 2.6% across nearly all City HSD contracts.

Transportation – Implementing the “Move Seattle” Levy and Investing in Mobility

As noted previously, the sale of the Mercer Megablock properties will generate significant revenues for the Seattle Department of Transportation (SDOT). Much of this money will be spent to repay previous outstanding debts, including for the construction of the Mercer Corridor itself (\$12.2 million), past operations of the South Lake Union Streetcar (\$3.6 million) and a recent Council-authorized allocation to the Center City Streetcar (\$9 million). In addition, \$9.2 million will be needed to address a decline in the forecast of Commercial Parking Tax revenues. This leaves \$16.7 million for new transportation investments. The 2020 Proposed Budget directs this funding into bicycle facilities, new sidewalks, sidewalk repair, curb ramps, and traffic calming devices that will be SDOT-owned and maintained. These Vision Zero projects were selected based on the priorities in the Bicycle Master Plan, the Pedestrian Master Plan and the Safe Routes to School Action Plan. These documents contain strong equity components, driving capital investments toward neighborhoods that are historically disadvantaged.

The 2020 Proposed Budget continues to support the Move Seattle Levy plan by including capital project staffing support, sidewalk and ADA improvements, multimodal corridor projects, bridge rehabilitation, and school zone safety enhancements. 2019 saw a ramp-up in delivery on many programs, including over 800 striped crosswalks; nearly 15 lane miles of paving; 12 blocks of new sidewalks; and 8 sidewalk block equivalents repaired. The funding in the proposed budget will support the various programs and keep on-track to meet annual planned accomplishments.

In addition, the 2020 Proposed Budget invests the remaining Seattle Transportation Benefit District (STBD) Proposition One revenues by adding 25,000 Metro transit service hours, beginning in March 2020, and continues funding for first/last mile transit service. These investments will support and increase mobility in areas where service gaps remain. The proposed budget also adds almost \$5 million to STBD's capital improvement program to fund items such as new bus shelter pads and benches, transit-only lanes, queue jumps and other spot improvements. Funding in the proposed budget continues to promote affordability and accessibility of transportation options through the ORCA Opportunity program, which provides transit passes to students. The STBD Proposition One measure will expire at the end of 2020.

Addressing Climate Change and Shifting to Carbon-free Energy Sources

In addition to the more traditional transportation funding outlined above, the Mayor's focus on climate change and the need to shift toward carbon-free energy sources is reflected in other transportation-related investments. An additional \$2.2 million is proposed to continue advance electrification of the

2020 Proposed Budget Executive Summary

City's vehicle fleet, as called for in the Green Fleet Action Plan. The budget also includes a proposed expenditure of \$600,000 by Seattle City Light to add six more direct current fast chargers for electric vehicles. The 2019 budget included funding for 20 stations and this additional investment will bring the total number of stations to 26. However, investments to reduce the use of carbon-based fuels are not limited to transportation. For example, the budget includes an additional \$1.5 million for the City's Municipal Energy Efficiency Program, which funds capital investments in City facilities that will reduce overall energy consumption, with a focus reducing the use of carbon-based fuels. Looking beyond the actions of the City government itself, Mayor Durkan also recently proposed legislation that would impose a tax on home heating oil, with the associated revenues dedicated to subsidizing homeowners to help offset the costs of converting from oil heat to more efficient electric heat pumps.

Investing in Community Assets

As noted above, much of the additional funding available for the 2020 Proposed Budget was from one-time sources and thus is most appropriately spent on one-time commitments. This has provided an opportunity for the City to meet the funding needs of several community organizations that have been seeking support for one-time capital investments. For example, using proceeds from street vacations associated with expansion of the Washington State Convention Center, the 2020 Proposed Budget includes \$500,000 to support Lambert House in its effort to purchase the facility it uses to provide services to LGBTQ youth in Seattle; \$1 million for the Chief Seattle Club to complete a major renovation and expansion of its facility in downtown Seattle; and \$500,000 to supplement funding awards for the Equitable Development Initiative. In addition, one-time investments are also proposed for redevelopment of a facility at Magnuson Park that the *Outdoors for All* organization will use to "enrich the quality of life for children and adults with disabilities through outdoor recreation" (\$1,000,000), and for International Community Health Services to pursue the development of a new facility on North Beacon Hill (\$1,000,000).

Fulfilling Commitments to City Employees

Following through on initial commitments that were made during last year's budget process, the 2020 Proposed Budget includes funding to increase staffing at the newly formed Office of the Employee Ombud, provides resources to the newly formed workplace investigations unit at the Seattle Department of Human Resources (SDHR), adds staff at SDHR to support anti-harassment and anti-discrimination training, and includes a new staff position at the Seattle Office for Civil Rights to support implementation of the Race and Social Justice Initiative. In addition, the budget includes the resources needed to fulfill the financial commitments made to City employees represented by the Coalition of City Unions, and to provide comparable increases to the compensation and benefits provided to the City's non-represented employees.

Race and Social Justice Initiative (RSJI)

Introduction

This chapter provides background and context for Race and Social Justice Initiative (RSJI)-related budget additions throughout the 2020 Adopted Budget.

[RSJI](#) is a Citywide effort to end institutionalized racism and race-based gaps in City government. A key component of achieving this goal is the examination of City policies, projects, initiatives and budget decisions to determine how each item impacts different demographic groups in Seattle. Launched in 2004, Seattle was the first U.S. city to undertake an effort that focused explicitly on institutional racism. Since then, King County, and other cities – including Minneapolis, Madison, and Portland – have all established their own equity initiatives. RSJI’s long-term goals are to change the underlying system that creates race-based disparities and to achieve racial equity, as well as to:

- End racial disparities within City government so there is fairness in hiring and promotions, greater opportunities in contracting, and equitable services to all residents;
- Strengthen outreach and public engagement, changing existing services using Race and Social Justice best practices, and improving immigrant and refugee access to City services; and
- Lead a collaborative, community-wide effort to eliminate racial inequity in education, criminal justice, environmental justice, health and economic success.

RSJI works to eliminate racial and social disparities across key indicators of success in Seattle, including: arts and culture, criminal justice, education, environment, equitable development, health, housing, jobs, and service equity.

Mayoral Direction

Soon after her inauguration, Mayor Jenny A. Durkan signed an Executive Order reaffirming the City's commitment to RSJI and a focus to apply a racial equity lens on actions relating to: 1) affordability, 2) education, 3) criminal justice, 4) environmental justice, 5) transportation equity, 6) labor equity, 7) women and minority business contracting equity, 8) removing internal structural and institutional barriers for City employees, and 9) arts and culture equity. The Executive Order also charged the Mayor’s Office to oversee and coordinate a review of the City’s current implementation of the RSJI and directed department directors, personnel within the Mayor’s Office, as well as the Mayor herself, to participate in implicit bias training.

Consideration of Race and Social Justice in the Mayor’s Office

Each City department has a “Change Team” – a group of employees that supports RSJI activities and strengthens a department’s capacity to get more employees involved. The team facilitates and participates in discussions on race and racism. These discussions increase individual and group understanding of how racism and other marginalizing factors affect equity and service provision.

Consistent with established practice since the launch of RSJI, all 2020 budget adjustments were screened for race and social justice impacts. Departments used the City’s Racial Equity Toolkit (RET) or

Race and Social Justice Initiative (RSJI)

other tools to assess direct and indirect results of their proposals, and this analysis was then utilized in the decision-making process within CBO and the Mayor's Office.

Race and Social Justice Impacts in the 2020 Adopted Budget

This section highlights specific examples of RSJI considerations in the 2020 Adopted Budget.

Equitable Development Initiative (EDI)

The Equitable Development Initiative is coordinated by the Office of Planning and Community Development (OPCD) and guided by an interdepartmental working group from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Office of Arts & Culture (ARTS), Office of Civil Rights (OCR), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external interim community advisory board and review committee representing impacted communities. The EDI program addresses historic and market inequities in Seattle's most marginalized communities and neighborhoods that have high displacement risk and low access to opportunity. Under the existing funding structure, approximately \$16 million of one-time funding is paying for capital and capacity building grants for 15 unique projects.

The 2020 Adopted Budget expands this commitment by providing \$15 million of proceeds from the sale of the Mercer Megablock in South Lake Union to create a revolving site acquisition loan fund for EDI projects. Loans will be repaid with permanent financing so that this can be a sustainable tool to serve future projects. In addition, \$500,000 of proceeds from this property sale will be used to begin community outreach and engagement and a feasibility evaluation for strategic land acquisition. The 2020 Adopted Budget also includes \$5.5 million of short-term rental tax revenues and unrestricted cumulative reserve funds for EDI grant awards, \$430,000 of federal Community Development Block Grant dollars, and \$1.1 million of General Fund for EDI administration and staff costs.

Child Care Assistance Program Expansion

The 2020 Adopted Budget includes Sweetened Beverage Tax (SBT) funding to expand the Child Care Assistance Program (CCAP). CCAP provides financial assistance to low and moderate-income families to pay for child care. The subsidies are based on a sliding scale and the program is designed to support families who make too much money to qualify for the State's Working Connections Child Care program which only supports families up to 200% of the Federal Poverty Level (FPL). DEEL currently contracts with approximately 180 Seattle licensed child care providers. In 2018, 648 vouchers were issued to 491 families. More than 80% of the families that received child care vouchers identified as families of color.

As of September 1, 2019, the sliding scale for the voucher subsidies increased from 300% Federal Poverty Level (FPL) to 350% FPL or approximately \$90,000 for a family of four. The 2020 Adopted Budget continues funding for this expansion, reflects increases in costs for providers, and provides funding for increasing enrollment at lower income levels. DEEL conducts an annual market rate study and the voucher rates are adjusted to reflect the increased costs of child care. The 2020 Adopted Budget also includes additional funding and supports for child care providers who participate in the CCAP program.

Race and Social Justice Initiative (RSJI)

Seattle Youth Employment Program Expansion

The Seattle Youth Employment Program serves youth that are from vulnerable and historically disadvantaged communities. The expansion from a summer only model to a year-round model increases career navigation, exploration, and skill-building opportunities for youth from these communities. HSD does not plan to use a Racial Equity Toolkit for this proposal. HSD has applied Results Based Accountability to develop its theory of change and will have focus populations

SHA Rental Assistance Program Pilot Extension

The Seattle Housing Authority Assistance Program analyzes outcomes and practices by race and ethnicity and will arrive at equity recommendations or goals, with RET guidance, by the end of the pilot. HSD established in its 2017 Homelessness Investments RFP that increasing the rates at which Black/African American households maintain permanent housing through a homelessness prevention project can impact the percentages of people that are living unsheltered and interrupt overrepresentation among Black/African-American households in the homeless services system. The SRHAP pilot is a part of this plan to address racial disparities in services. More than half (52%) the SRHAP participants are Black or African American; this percentage is greater than the percentage of Black or African Americans who are homeless in the region and living in Seattle. Language Access Plan (LAP): Staff across four nonprofit agencies work to ensure that immigrant and refugee English language learners are able to access the information and services they need. Agencies offer support in Spanish, Somali, Amharic, Tigrinya, Marshallese, Vietnamese, Cantonese, Arabic, Oromo, Hindi, and Urdu. Agencies have transferred clients to one another as needed to support SRHAP household language needs. Agencies are also available to SHA to increase the percentage and amount of program materials translated into multiple languages as needed. Continual investment in all four agencies can maintain language access for the entire pilot: eliminating just one of the smallest programs would limit the availability of Arabic, Oromo, Amharic, Somali, Tigrinya, Hindi, Urdu, and Spanish for the pilot and SHA.

Mt. Baker Family Resource Center

The budget continues pilot investments in the Mt. Baker Family Resource Center. The agencies indicated that the proposed families to be served through the Mt. Baker Family Resource Center include families of color who are low income and may have experienced homelessness. The agencies proposed that bilingual services will be provided by REWA for families who are English Language Learners.

Investments to Improve Homeownership Opportunities and Creating ADUs

The Office of Housing (OH) will invest nearly \$15 million of the proceeds from the sale of the Mercer Properties towards increasing affordable housing. OH will use \$9 million to improve homeownership opportunities and \$3 million to support the Mayor's goal of nearly doubling the City's portfolio of permanently affordable homes, affordable to households earning less than 80% of Area Median Income (AMI). OH will also use \$2.5 million to pilot a loan program to help low- and moderate-income families create affordable ADUs.

Race and Social Justice Initiative (RSJI)

Continuation of 2019 Navigation Team Expansion

The homeless population is disproportionately made up of people of color, ethnic minorities and LGBTQ. The Navigation Team addresses public safety and public health concerns by conducting outreach to encampment inhabitants, connecting them to resources, including shelters and tiny house villages and other resources aimed at helping them move toward housing. Field coordinators play a critical role in these operations; they serve as the project manager for site engagements, offer and provide storage to encampment occupants, and work closely with outreach to ensure that people living unsheltered are connected to resources.

Additional Funding for Safe Parking Pilot

In 2019, a majority of individuals experiencing homelessness in Seattle/King County identified as people of color. An estimated 42% of individuals identified as White, 32% identified as Black or African American, 10% identified as American Indian or Alaska Native, 4% identified as Asian, and 3% identified as Native Hawaiian or Pacific Islander. Eight percent (8%) of individuals identified with multiple races. Additionally, an estimated 15% of individuals identified their ethnicity as Hispanic or Latino. When compared to the demographic racial profiles of Seattle/King County's general population, disparities were observed among those identifying as Black or African American (32% compared to 27%), as American Indian or Alaska Native (10% compared to 3%), and with Native Hawaiian or Pacific Islander (3% compared to 1%).

The racial equity goals for this pilot will be determined as the project gets more fully underway. The goals will be incorporated into the services and management plan. The Urban League has access to interpreters and language line services to provide services to non-English speaking clients.

Startup Costs for King County Regional Homelessness Authority

Homelessness is often a symptom of structural and institutional racism. Homelessness occurs as a result of a variety of factors, principle among them the legacy of slavery, Jim Crow laws and legislated redlining, all of which have collectively resulted in, among other things, a disparity in wealth by race and ethnicity that, by some accounts, places wealth accumulation of African American households over 200 hundred years behind White households. The result is a phenomenon referred to as network impoverishment, or the financial impoverishment of one's support network to such a degree that they cannot provide support and assistance in times of crisis. In other words, through systematic impoverishment of communities of color, institutionalized racism has reduced the ability of these communities to backstop people in times of crisis, resulting a higher likelihood that people of color will experience homelessness. In King County, nearly two-thirds of people experiencing homelessness are people and families of color. African Americans are five times more likely to experience homelessness than their white counterparts in King County and American Indian and Alaska Native individuals are seven times more likely to experience homelessness.

One of the primary goals of Regional Governance is to build a system that places equity and customer voice at the center. To do that, customers and equity advocates have been closely involved in the design

Race and Social Justice Initiative (RSJI)

of the new Regional Authority structure, with particular focus on the Governing Board. Specifically, persons with lived experience and organizations representing their perspective expressly identified the need for the Governing Board to not merely consider customer voice, but more importantly include persons with or representing Lived Experience in all levels of governance – the Steering Committee and the Governing Board.

To ensure equity is at the center of the Regional Authority's work, the Authority will proactively seek to eliminate disproportionalities in the population experiencing homelessness and disparities in outcomes for people experiencing homelessness by directly addressing structural racism, ableism, homophobia, transphobia, misogyny and other sources of inequities. To this end, the Authority will establish and operate under an equity-based decision-making framework that shall guide its policy, business processes, and funding activities. This equity-based decision-making framework will establish a prioritization of customers of the service system and people with lived experience of homelessness as decision-makers in both system operations and policy development; a process for driving program and policy proposals based on customer feedback; a process for examining all policy, business process, and funding decisions with an explicit equity and racial justice analysis; a set of strategies to advance equity and racial justice. It will provide for the mitigation of unintended negative consequences; processes to ensure policy and program direction adapts to customer feedback and in response to negative impacts on communities of color; and establish processes to measure, evaluate, and respond to the impact of its decision-making on its goals of advancing equity.

Keeping the customer at the center of the Regional Authority's work requires intentional design to ensure that customer experience is at the heart of program design and customer voice is not merely valued but reflected in every aspect of the Authority's work. The Governing Board will ensure the creation of an Office of the Ombud with the goals of establishing an accountability structure for customers and employees of the Authority and its homeless service system; and promoting customer confidence in the system and the Authority's ability to quickly and appropriately meet the needs of people experiencing homelessness.

Commitment to customers and employees necessitates attention to accessibility. Within six months of formation, the Authority will prepare an initial work plan that, among other things, will describe an organizational structure, a plan for initial implementation of contracted services and a description of major goals and activities that the PDA will undertake until approval of its first Five-Year Plan. This first implementation plan will include ways in which it will address accessibility for employees and customers, including a plan to ensure that language needs of customers, staff and the general public are met.

Nurse Call Line

The new nurse call line is designed to benefit individuals experiencing homelessness, which are disproportionately people of color. According to the 2019 *Point-in-Time Count*, a majority of individuals experiencing homelessness in Seattle/King County identified as people of color. An estimated 42% of individuals identified as White, 32% identified as Black or African American, 10% identified as American Indian or Alaska Native, 4% identified as Asian, and 3% identified as Native Hawaiian or Pacific Islander. Eight percent (8%) of individuals identified with multiple races. Additionally, an estimated 15% of individuals identified their ethnicity as Hispanic or Latino. When compared to the demographic racial

Race and Social Justice Initiative (RSJI)

profiles of Seattle/King County's general population, disparities were observed among those identifying as Black or African American (32% compared to 27%), as American Indian or Alaska Native (10% compared to 3%), and with Native Hawaiian or Pacific Islander (3% compared to 1%).

Onsite Nurses at Shelter and Permanent Supportive Housing Locations

Attaching medical services to the shelter or permanent supportive housing (PSH) site can satisfy outstanding needs of people experiencing homelessness who are disproportionately Black or African American, American Indian or Alaska Native, and Multi-racial as compared to their percentages in the general population in Seattle/King County.

In 2019, All Home reported that a majority of individuals experiencing homelessness in Seattle/King County identified as people of color. An estimated 42% of individuals identified as White, 32% identified as Black or African American, 10% identified as American Indian or Alaska Native, 4% identified as Asian, and 3% identified as Native Hawaiian or Pacific Islander. Eight percent (8%) of individuals identified with multiple races. Additionally, an estimated 15% of individuals identified their ethnicity as Hispanic or Latino. When compared to the demographic racial profiles of Seattle/King County's general population, disparities were observed among those identifying as Black or African American (32% compared to 27%), as American Indian or Alaska Native (10% compared to 3%), and with Native Hawaiian or Pacific Islander (3% compared to 1%).

In a data scan of the top five PSH sites, there are people who are disproportionately impacted by homelessness who can benefit from nursing staff on site:

- 26% Black or African American
- 11% American Indian or Alaska Native
- 6% Hispanic/Latino
- 3% Multiple Races
- 1% Native Hawaiian or Pacific Islander

100% are living with a disability including:

- 82% mental health problem
- 76% substance use disorder
- 48% physical disability
- 39% chronic health condition

Data was pulled from the County's database, HMIS, on 08/27/2019 for 01/01/2018 through 06/30/2019.

Likewise, staff from the outreach continuum and Seattle Navigation Team, permitted villages, and Navigation Center all report seeing people they engage with who need support to meet immediate and ongoing medical needs and activities of daily living that can be better addressed by on-site nursing staff. People with outstanding post-surgical, pregnancy, or post-partum needs would be better served at a shelter and/or PSH site designed with medical services, rather than in programs that must scramble to generate necessary medical services or referrals.

Race and Social Justice Initiative (RSJI)

CDBG Capital Investments

This proposal supports organizations and projects designed to support historically disadvantaged communities; ICHS specifically serves the Asian Pacific Islander community; SHA provides housing for low-income households in need of subsidized housing. Systemically, non-white populations are over-represented in being excluded from housing and income opportunity.

Domestic Violence Hotline

In Seattle and King County, an estimated 132,000 women and 86,000¹ men experience some form of intimate partner violence every year. Domestic violence has devastating physical, emotional, and economic consequences for survivors, their children, perpetrators, and their communities. It is the immediate cause of homelessness for approximately 50% of homeless women and children², as well as a significant contributor to poor physical and behavioral health for many adults and children. Due to the impacts of current and historical trauma and oppression, families of color, refugees and immigrants, and other marginalized people are at highest risk for experiencing domestic violence, and they also encounter the greatest barriers to accessing help. For example, immigrant and refugee survivors and other survivors of color are unlikely to consider calling 911 when they are in danger, for fear of deportation, incarceration, and loss of custody of their children.

Safety RFP Ramp-Down Funding

The Safety RFP award review committee members represented and worked with the priority and focus populations of this RFP. Raters hold content expertise with addressing the impacts of the criminal legal system in the City of Seattle, King County, and Washington State. Raters were age, gender, and ethnically diverse and represented multiple cultures and communities: Black, African-American, Native, Black/Mexican, Black (mixed), Brown (mix), South Asian, Asian/Filipino, Asian, African-American/Pacific Islander, Middle Eastern, Hispanic/Latino, LGBTQ, bilingual, and white. The review committee participated in a two-hour session with the Black Prisoners' Caucus (BPC) Chapter from Stafford Creek Corrections Center and a session led by the Seattle Office for Civil Rights. To prepare for the review process, the review committee discussed the anti-racist principles and strategy chart of the People's Institute for Survival and Beyond as guidance and tools when rating applications.

Staff Capacity to Support Food Programs

This funding provides increased support to programs that increase racial equity. People of color experience food insecurity at higher rates than non-Hispanic Whites. Native Hawaiian and Pacific Islanders are 3 times more likely to experience food insecurity compared to non-Hispanic Whites. Black/African Americans are 2.5 times and American Indian/Alaskan Native, Hispanic/Latinx and Asians are 2 times more likely to experience food insecurity compared to non-Hispanic Whites. Food and meal

¹ Centers for Disease Control, National Intimate Partner and Sexual Violence Survey, 2010 & 2015

² The National Center on Family Homelessness, Addressing Issues Facing Families Who are Homeless, 2013

Race and Social Justice Initiative (RSJI)

programs have historically been low barrier programs providing low income families and families of color access to food through location, cultural competency and service delivery style. Food programs are also one of the few accessible services for undocumented clients. HSD used the Racial Equity Toolkit in planning for the 2019 Food and Nutrition RFP and conducted a robust community engagement process with over eleven listening circles and focus groups including two focus groups of food bank clients. All community input was integrated into planning for food and meal investments, which received a significant increase from the Sweetened Beverage Tax.

Additional Staff to support Utility Discount Program (UDP)

The two new staff positions will increase capacity to reach the increased household enrollment goals through outreach. The additional capacity will allow staff with fixed call center schedules to attend RSJ trainings and activities. RSJ trainings and activities develop the ability of staff to serve our diverse population of customers through an RSJ lens. A RET will not be used for this proposal because UDP currently serves vulnerable populations and most customers come from areas in the City that are historically disadvantaged. This proposal incorporates Language Access Plan strategies through UDP's community outreach efforts. Outreach efforts target populations with translation and interpretation needs through engagement with local community-based organizations that provide services to immigrant populations.

Citywide Outreach & Engagement Expansion

The Mayor is committed to improving the City's outreach and engagement efforts, especially to historically under-served communities. As part of her commitment, the Mayor has asked the Department of Neighborhoods (DON) to improve the coordination of outreach and engagement by departments through the 2020 budget process. DON is to serve as a strategic advisor to departments so communities can better access City services and information and provide feedback in a more streamlined way. The 2020 Adopted Budget expands the DON's current portfolio to lay the Citywide groundwork to improve how departments provide outreach and engagement. A position will be added to negotiate Memorandums of Understanding (MOUs) with the first cohort of partner departments, including Finance and Administrative Services, the Office of Sustainability and the Environment, Human Services Department, Seattle Information Technology, Seattle City Light, and Seattle Public Utilities. MOUs with partner departments will identify funding to support two additional full-time positions, to be added via supplemental requests in 2020.

Community Outreach and Engagement

Using the Racial Equity Toolkit, the Office of Arts and Culture (ARTS) found the need for more dedicated support to reach communities of color, refugees, and others who have not historically benefited from ARTS' programs. To reach ARTS' racial equity goals of meeting artists who haven't had access to these resources previously requires additional, dedicated communications and outreach capacity that can focus on digging deeper into community engagement opportunities and partnering strategically with community partners. This kind of outreach takes more time and relationship building than traditional modes of media. The 2020 Adopted Budget adds a community outreach and engagement manager to

Race and Social Justice Initiative (RSJI)

provide expanded reach for open grants, calls for artists, professional development opportunities, events, and workshops. This new position will also support ARTS' Language Access Plan and other accessibility efforts, maintain grants, maintain the website, and other communications needs.

Expansion of Small Business Support

The Office of Economic Development (OED) will expand the tools available to the Only in Seattle (OIS) program to include two designated funds to assist more small businesses, the Business Stabilization and Tenant Improvement Funds. The Business Stabilization Fund will help small businesses facing short-term emergencies, such as theft, vandalism, or emergency repairs, with a focus on those in high-risk displacement neighborhoods. The Tenant Improvement Fund encourages the development of affordable commercial tenant improvements for businesses in high displacement risk areas. Both these funds are part of the office's new Inclusive Economy Agenda, which aims to reduce barriers to economic success for small business owners.

Eliminate Fines for Overdue Library Materials

The 2019 Library levy eliminates fines for overdue materials and uses levy resources as a revenue replacement for these funds. Approximately 10% of all accounts that have had a check-out within the last three years are blocked due to fines and fees and patrons are unable to borrow materials. Other library systems have found borrowers return materials at the same or higher rates after fines are eliminated. Overdue fines impact “low opportunity” neighborhoods more significantly because patrons who are unable to pay fines are blocked regardless of whether they return materials or not. Removing fines will increase access to library materials. Over a 7-year period, the levy includes \$8 million to replace lost fine revenue.

Pre-Filing Diversion Program Funding of Choose 180 Workshops

Additional funding will expand upon efforts started in the 2017 Adopted Budget, which created the Pre-Filing Diversion Program led by the Law Department with assistance from the Seattle Municipal Court. In a 2017 Racial Equity Toolkit (RET) analysis, it was determined that additional services were required to meet racial equity needs of participants, including pre- and post-workshop support and connection with resources in a timely manner. The department conducts six workshops per year, providing one every other month. The six workshops have been funded through carryover budget due to the late start of the program in 2017. For 2020, the department requested \$25,000 to continue the same level of service. An additional \$75,000 is added to increase the workshops to one a month. With 12 workshops per year, participation is expected to increase with a more immediate connection to resources.

The letter sent to young adults inviting them to take part in diversion has been translated into 14 different languages. Telephonic interpretation services are provided to Choose 180 for their outreach and in-person interpretation is provided to participants attending the workshop.

Race and Social Justice Initiative (RSJI)

Seattle Police Department Diverse Police Officer Recruitment and Hiring

The budget supports the department's ongoing efforts to recruit and hire quality, diverse police officers in 2020 above current staffing levels. It is important to both Chief Best and the Mayor to focus on building a department that represents the community it serves. Recognizing the significance of hiring diverse police officers and understanding that the current hiring plan is aggressive, the budget includes continued funding in support of continuing recruiting efforts.

Repurpose Funding for Aquatic Equity Initiatives

The 2020 Adopted Budget repurposes funding in SPR's budget to provide more impactful, equity-focused investments in aquatic programming. Specifically, it will equalize service levels at its 22 wading pools to maintain a consistent operating schedule for community and staff; eliminate the low-income swim fee at all pools; and expand the lifeguard training program with a focus on recruiting diverse, low-income youth to participate in the program.

Expand Recreation Programming with Sweetened Beverage Tax Funds

The 2020 Adopted Budget adds \$150,000 of Sweetened Beverage Tax (SBT) funds to expand summer programming for youth including Destination Summer Camps and the Summer of Safety program. Destination Summer Camps are highly subsidized, low-fee activity camps sited in low-income neighborhoods. In 2018, the department piloted this program with external funding at Garfield Community Center and had more than 580 program registrations. Funding from the Sweetened Beverage Tax will provide a sustainable funding source for this program and allow for expansion to additional sites in Southeast Seattle. The Summer of Safety program provides free, structured recreation for youth not otherwise engaged in formal programming. Sweetened Beverage Tax funds will increase the number of days the program can operate at its existing locations.

Add Funding for Outdoors for All

Outdoors for All enriches the quality of life for children and adults with disabilities through outdoor recreation. In March 2019 through a Request for Proposal process, Outdoors for All was awarded the right to renovate and use Building 18 for its future headquarters. This item adds \$1 million to SPR's budget as an award from the Mayor's Office to Outdoors for All to help fund capital improvements necessary to renovate the building.

Sidewalk Accessibility and Safety

As part of an Americans with Disabilities Act consent decree, the City will invest in constructing 1,250 curb ramps annually, increasing accessibility to sidewalks and streets. In addition to curb ramps, the budget includes funding to address sidewalk defects across the City, which will make the sidewalks safer and more accessible.

Race and Social Justice Initiative (RSJI)

Digital Equity/Technology Impacts

The Seattle Department of Transportation recognizes the inequities and impacts that can be created via service and transportation models that may require access to or utilization of personal technologies that many underserved residents may not possess (access to mobile payment system, park-by-plate, etc.). This plan will allow SDOT and the City to identify where these perceived advancements can negatively impact certain resident demographics, and where alternative solutions can be equally beneficial and cost effective.

By proactively creating a strategic plan for technology improvements and investments, Seattle can ensure that disparate negative outcomes or burdens, such as construction impacts or loss of business parking, on people of color and historically neglected communities are minimized or eliminated. We will also consider equity as a large component in prioritizing these improvements, making sure to provide high levels of service in areas with lower access to opportunity and high density of people of color and recent immigrants.

School Safety Improvements

Projects within the Pedestrian Master Plan and the Safe Routes to School Action Plan contain strong equity components, driving capital investments toward neighborhoods that are historically disadvantaged. Schools with higher percentages of non-white or Hispanic students receive a higher priority score during the selection process.

Increase Capacity for the Office of the Employee Ombud

The Office of the Employee Ombud (OEO) serves as an independent resource for City employees who have questions, concerns and complaints regarding workplace experiences that are not in alignment with the City of Seattle's workplace expectations. In early 2019, the Director conducted nearly a dozen listening sessions with City employees and the consistent themes that emerged in these sessions centered on race, class and gender related discrimination. Additional staff and a more strategically accessible office will increase the OEO's ability to address these concerns, providing greater capacity and a confidential space. In addition to working with individual employees, OEO is working to further dismantle institutional racism by engaging with policy improvements that support the City's continuous effort to provide every City employee a safe and respectful workplace.

Improving the City's Response to Misconduct Allegations

The Mayor's Executive Order (EO) 2018-04 directed SHDR to establish a Human Resources Investigations Unit (HRIU) as part of the City's initial actions to improve the response to, and thoroughly investigate, employee allegations of harassment, discrimination, retaliation and harassment-related misconduct. Centralizing and establishing consistent practices in investigations is foundational in addressing the disparities that the RSJI Survey reported pertaining to employee concerns over harassment and discrimination. The RSJI Survey found that 80% of respondents who experienced gender-based incidents

Race and Social Justice Initiative (RSJI)

of harassment in the workplace did not seek help; 29% of women of color and 18% of men of color reported experiencing different workplace treatment due to their race; and 30% of women of color and 37% of white women reported experiencing different treatment due to their gender. The 2020 Adopted Budget finalizes the establishment and funding of the HRIU, allowing the work to address these disparities to continue.

Increase RSJI Training Capacity

In May 2018, the Mayor issued Executive Order (EO) 2018-04: Anti-Harassment and Anti-Discrimination. Among other things, the EO tasked the Seattle Department of Human Resources (SDHR) director and the Seattle Office for Civil Rights director to develop anti-harassment and anti-discrimination training. SDHR was also directed to work with all departments to develop a training plan for employees to include anti-harassment and anti-discrimination training and bias training. The two departments have worked collaboratively to assess the training needs of executive departments and develop a training plan. The demand for trainings far exceeds the capacity that the two departments have for providing trainings. To respond to the EO, and meet department training needs, the 2020 Adopted Budget adds two positions to SDHR and one position to OCR. SDHR is the lead department on the EO and the training plan. The OCR position will add capacity to the department to do RSJI training and partner with SDHR on embedding RSJI in the anti-harassment and anti-discrimination trainings, described below.

Anti-Harassment/Anti-Discrimination (AH/AD) Training

Implementation of the AH/AD trainings is one of the first steps in creating a safe, welcoming and inclusive workplace for all employees where discrimination and harassment is not tolerated. In 2020, SDHR and OCR are partnering to create a Train-the-Facilitator Program (TTF) in which employees will know how to:

- Define harassment, discrimination and inappropriate behavior in the workplace and which actions and behaviors should be reported
- List ways to respond to discrimination, harassment and inappropriate behavior in the workplace and resources to reach out to or make referrals to
- Identify behaviors that foster a workplace culture that prevents harassment and discrimination from taking place
- Explain the role that bystanders have when witnessing discrimination, harassment and inappropriate behavior in the workplace
- Explain what bystanders can do upon witnessing harassment, discrimination and inappropriate behavior

The training of approximately 11,000 City employees carries out the primary goal of RSJI of having a racially knowledgeable workforce able to intervene and respond to instances of harassment and discrimination to create culture change that positions the City as an employer of choice. The TTF will utilize strong facilitators who understand and model an equity framework and look at existing groundwork to consider how best to assess and ensure a strong level of facilitation and RSJ competency.

Race and Social Justice Initiative (RSJI)

Statewide Initiative 1000 Implementation

Statewide Initiative 1000 (I-1000) provides agencies with the authority to establish and implement affirmative action programs. With the passing of I-1000, agencies are still prohibited from granting preferential treatment to groups based on race, sex, age, sexual orientation, veteran status, ethnicity and disability. However, agencies now may establish affirmative action programs that allow setting and achieving goals for these protected groups with the purpose of increasing diversity within defined areas provided no quotas or set asides are used.

The City is committed to equity and inclusion within its contracting program, employee hiring and recruitment and education opportunities for Seattle students. This budget funds a body of work that includes a review of how the City's current policies and aspirational goals fit into initiative requirements, support of a Citywide disparity study and development/implementation of any policy or procedural changes necessary to be in compliance.

I-1000 gives the City an opportunity to increase racial equity within the City's contracting, employment and educational policies and programs.

General Fund Revenue Overview

City Revenue Sources and Fund Accounting System

The City of Seattle budget authorizes annual expenditures for services and programs for Seattle residents. State law authorizes the City to raise revenues to support these expenditures. There are four main sources of revenues. First, taxes, license fees, and fines support activities typically associated with City government, such as police and fire services, parks, and libraries. Second, certain City activities are partially or completely supported by fees for services, regulatory fees, or dedicated property tax levies. Examples of City activities funded in-whole or in-part with fees include certain facilities at the Seattle Center, recreational facilities, and building inspections. Third, City utility services (electricity, water, drainage and wastewater, and solid waste) are supported by charges to customers for services provided. Finally, grant revenues from private, state, or federal agencies support a variety of City services, including social services, street and bridge repair, and targeted police services.

The City accounts for all revenues and expenditures within a system of accounting entities called “funds.” The City maintains numerous funds. The use of multiple funds is necessary to ensure compliance with state budget and accounting rules and is desirable to promote accountability for specific projects or activities. For example, the City of Seattle has a legal obligation to ensure revenues from utility use charges are spent on costs specifically associated with providing utility services. As a result, each of the City-operated utilities has its own fund. For similar reasons, expenditures of revenues from the City’s various property tax levies are accounted for in separate funds. As a matter of policy, several City departments have separate funds. For example, the operating revenues and expenditures associated with those revenues for the City’s parks are accounted for in the Park and Recreation Fund. The City also maintains separate funds for debt service and capital projects, as well as pension trust funds, including the Employees’ Retirement Fund, the Fireman’s Pension Fund, and the Police Relief & Pension Fund. The City holds these funds in a trustee capacity, or as an agent, for current and former City employees.

The City’s primary fund is the General Fund. The majority of resources for services typically associated with the City, such as police and fire or libraries and parks are received into and spent from one of two funds of the City’s general government operation: the General Fund for operating resources and the Cumulative Reserve Fund for capital resources.

All City revenue sources are directly or indirectly affected by the performance of the local, regional, national, and even international economies. For example, revenue collections from sales, business and occupation, and utility taxes, which together account for 55.5% of General Fund revenue, fluctuate significantly as economic conditions affecting personal income, construction, wholesale and retail sales, and other factors in the Puget Sound region change. The following sections describe the current outlook for the local and national economies, and present greater detail on forecasts for revenues supporting the General Fund and the Cumulative Reserve Fund.

National Economic Conditions and Outlook

“As Janet Yellen says, expansions don’t die of old age. I like to say they get murdered instead.”

- Ben Bernanke

Long live the expansion. The economic expansion that began after the Great Recession was over in June 2009 is now 126 months long, making it the longest expansion in U.S. history. However, compared to

Revenue Overview

the previous expansions it is weaker, with real gross domestic product (GDP) growth averaging only 2.3% per year. Over the course of the recovery, the economy has been adding on average 169,000 jobs each month and the unemployment rate has gradually fallen from its 10.0% peak in October 2009 to 3.5% in December 2019. Wages have risen rather slowly, on average at 2.1% per year, but have slightly outpaced the consumer price inflation which averaged 1.7% per year.

Figure 1. Annual U.S. Real GDP Growth

Source: U.S. Bureau of Economic Analysis, IHS Markit.

Increased uncertainty and economic slowdown ahead. Even though the fundamentals of the U.S. economy appear solid, with continued job and income growth and strong consumer spending, there are increased concerns regarding the future. The rate of economic growth has been decreasing steadily for several decades and is expected to decline further in coming years. It was temporarily stimulated in 2018 by the Tax Cuts and Jobs Act which lowered individual and corporate federal taxes and the Bipartisan Budget Act, which boosted federal spending in 2018 and 2019. This stimulus was however considered by many economists as poorly timed, possibly overheating the economy and causing a boom-bust cycle.

In addition, the overall increase in policy uncertainty and ongoing trade war between the U.S. and China make it more difficult for businesses to anticipate costs and demand. A new study by Federal Reserve economists suggests that the increased trade policy uncertainty could lower growth by about 0.5% in 2019 and 1% in 2020. Combined with a slowdown of global demand, this leads to lower investment and hiring by firms, which could also lower confidence and spending by consumers, thus increasing the risk of a recession. Greater uncertainty about the future has increased volatility in financial markets and lowered long-term Treasury yields. The 10-year Treasury yield dropped below the 2-year Treasury yield at the end of August 2019. Similar inversions preceded each of the past seven recessions by about 18 months on average. Recession fears subsided slightly recently as shown in Figure 2 below, but the December 2019 Wall Street Journal Economic Forecasting Survey of economists still puts the probability of recession in the next 12 months at 25.9%, and the IHS Markit U.S. Economic Outlook at 20%. Finally, based on the 2019Q4 Duke University/CFO Global Business Outlook 52% of the 427 U.S. CFOs that participated in the survey believe that a recession will have begun by the end of 2020.

In response to recent economic developments and outlook, the Federal Reserve has lowered interest rates by 0.25% in July 2019 for the first time since the last recession. Two more 0.25% cuts followed, in September and in October.

Revenue Overview

Figure 2. Probability of a U.S. Recession In Next Twelve Months

Seattle Metropolitan Area Economic Conditions and Outlook

Despite the weak national recovery, the Seattle area economy has grown rapidly. Since the Great Recession ended in June 2009, the region’s economy has outperformed the national economy by a considerable margin. This is reflected in the region’s robust job growth and low unemployment rate. Seattle Metro Area (King and Snohomish Counties) employment increased by 28.2% from its post-recession low in February 2010 through July 2019. This compares to a 16.7% gain for the U.S. and a 19.1% gain for the rest of Washington state (see Figure 3). In July 2019, the seasonally adjusted unemployment rate for the Seattle metro area was 3.2%, compared to 4.6% for Washington and 3.7% for the U.S. The region has also outpaced the nation and the state in both income and wage growth during the recovery.

Figure 3. Employment Growth: February 2010 to December 2019

*King & Snohomish Counties. Source: WA ESD, U.S. BLS.

Revenue Overview

Although virtually all sectors of the region’s economy have seen employment increase during the recovery, the principal driver of growth has been high-technology business. Foremost is Amazon, which has increased its Seattle area employment from less than 10,000 in 2010 to about 53,000 in 2019. Google and Facebook each have more than 3,000 employees in the region, and other Silicon Valley firms have opened or expanded Seattle area offices. In addition, local firms, including Microsoft, Tableau, and Zillow, have been growing, and new firms have emerged. Strong growth in the technology sector and other basic industries has spurred growth in construction, real estate, and business and professional services.

Strong employment growth has drawn workers and job seekers to the region, boosting the region’s population. Between 2010 and 2019, the population of King and Snohomish Counties increased by 400,000 (15.5%). Slightly more than a third of that increase took place in Seattle. Strong population growth has stimulated employment in the local serving sectors of the economy, including retailing, eating and drinking places, and health care.

Figure 4. Seattle Metro Area Year-over-Year Employment Change

Seattle has been home to an outsized share of metro area growth during the recovery. The region’s economic growth during the current recovery has been concentrated in the city of Seattle. Both employment and population growth have been more robust in Seattle than in the rest of the region. The difference has been most pronounced for population growth. Between 2010 and 2019 Seattle’s population increased by 138,640, a 22.8% gain, to reach 747,300. The increase for the rest of the metro area (the rest of King and Snohomish Counties) was 12.9%.

Revenue Overview

Figure 5. Annual Population Growth, City of Seattle

The biggest driver of growth in the city has been Amazon, which has added more than 35,000 jobs since 2010. Also contributing to the city’s growth have been other technology businesses, and business and professional service firms. Employment growth at these businesses, along with the current popularity of in-city living, has boosted the demand for office space and housing in the city, spurring a construction boom. Initially construction was focused in new apartments and public construction, but over time activity has broadened to include more office projects and condominiums. In 2017, the City issued building permits valued at a record \$5.0 billion (see Figure 6).

Figure 6. Value of Building Permits Issued, Seattle

Source: Seattle Dept. of Construction and Inspections.

The Seattle metro area economy is expected to continue slowing. The economic forecast for the metro area predicts that 2016 will be the peak year for employment and population growth during the current cycle, and that the slowing which began in 2017 will continue going forward (see Figure 7). Driving the deceleration is the forecast for the U.S. economy, which predicts the nation’s economy will slow as the impact of the 2018 tax cuts wanes and the trade war and slowing world economy take their toll. At the

Revenue Overview

local level, the forecast assumes Amazon’s growth will continue to slow and that construction employment will fall gradually for several years after peaking in 2019.

Figure 7. Annual Growth of Seattle Metro Area Employment

The risks to the forecast are high in large part because the probability of a national recession is elevated. A national recession would almost certainly precipitate a regional recession. Even if a national recession is avoided, there are sources of risk and uncertainty in the local economy, including the outlook for the current construction cycle and the fortunes of the region’s technology sector, including major employers Boeing, Amazon, and Microsoft.

Construction activity is highly cyclical, with periods of strong growth often, but not always, followed by steep downturns. The city is currently well into a boom period, with the value of building permits issued annually having more than tripled since 2010. The regional economic forecast incorporates a modest construction downturn beginning in 2020, but a more severe downturn is possible, particularly if there is a national recession.

Risks for Boeing include the federal government’s expanding trade war, the risk of a national recession, and the grounding of the 737 MAX. As the nation’s biggest exporter, Boeing is vulnerable to trade war retaliation, and national recessions have always been followed by employment reductions in the aerospace industry. Boeing’s most immediate problem is resolving the safety issues that have led to the grounding of the 737 MAX. The return of the MAX is expected in the second half of 2020. Boeing has halted MAX production and may potentially have to lay off workers at its Renton facility if the return is delayed further.

A major source of uncertainty is the future course of Amazon in the region. The company’s decision to sublease rather than occupy the Rainier Square Tower suggests its expansion in Seattle will continue to slow. However, Amazon has been both purchasing and leasing office space in Bellevue, and the firm is in the process of moving its worldwide operations unit from Seattle to Bellevue. At the same time, Amazon is developing second headquarters in Virginia and in New York.

Revenue Overview

Consumer Price Inflation

Inflation remains moderate, effect of trade tariffs likely to be small. The Great Recession pushed inflation into negative territory in 2009, the first time in 54 years that consumer prices had declined on an annual basis. During the subsequent recovery, inflation has remained subdued, with the U.S. Consumer Price Index for All Urban Consumers (CPI-U) averaging 1.8% per year over the period 2010-2018. For the 12-month period ending in July 2019, the U.S. CPI-U increased by 1.7%.

Local inflation tends to track national inflation because commodity prices and national economic conditions are key drivers of local prices. Seattle inflation has been, however, running higher in recent years due to the region's high housing price inflation. From 2011 to 2018, the Seattle CPI-U has grown on average 2.3% each year, compared to 1.8% for the U.S. CPI-U. Average annual housing inflation for this period was 3.8% for Seattle and 2.3% for the U.S.

Nationally, inflation is expected to average about 2.3% over the next several years. The estimates of the effect of trade tariffs suggest only a small impact around 0.3%, because goods constitute just 30% of total consumer spending and consumers will to some extent lower and shift their spending. Seattle area inflation will continue to track higher than national inflation in the short run, though the gap will narrow as the region's housing price inflation slows.

Annual Wage Increase adjustments for City of Seattle employees are based on the Seattle CPI-W.

Annually, the City of Seattle adjusts employee salaries for changes in the cost-of-living. Most wage adjustments are based on the Seattle CPI-W, which measures price changes for urban wage earners and clerical workers (the CPI-U measures price changes for all urban consumers). In recent years, some adjustments have been based on negotiated fixed rate increases. The two CPI measures that the City uses for annual wage increase adjustments are:

- June-to-June change in Seattle CPI-W
- Change in Seattle CPI-W averaged for 12 months ending in June

City Revenue

The following sections describe forecasts for revenue supporting the City's primary operating fund, the General Fund, its primary capital funds – the Cumulative Reserve Funds, and two select other funds – the Sweetened Beverage Tax Fund and the Short-Term Rental Tax Fund.

General Fund Revenue Forecast

Expenses paid from the General Fund are supported primarily by taxes. As Figure 8 illustrates, the most significant revenue source is the property tax, which accounts for approximately 23%, followed by sales tax, the Business and Occupation (B&O) tax, and utility taxes.

Revenue Overview

Figure 8. 2020 Adopted General Fund Revenue Forecast by Source - \$1,480.7 Million

Figure 9 illustrates tax revenue growth continuing to outpace inflation for almost all of the economic expansion since the Global Financial Crisis. Inflation is forecast to be stable and low. Tax revenue growth is forecast to be positive and above inflation, with an average annual growth rate of over 3.0%, 2019 through 2020. Inflation for the same period will average 2.4%. Tax growth is artificially low in 2020 because two relatively new taxes that were included in the general fund (Sweetened Beverage Tax and the Short-term Rental Tax) will now be in their own funds beginning in 2020.

* In the past, 10% of certain tax and fee revenues were shown as revenue to the Parks and Recreation Fund and 90% as General Fund. As of 2009, 100% of these revenues (depicted as "100%" in the table) are deposited into the General Fund. General Fund support to the Department of Parks and Recreation is well above the value of 10% of these revenues.

Revenue Overview

Property Tax

Property tax is levied primarily on real property owned by individuals and businesses. Real property consists of land and permanent structures, such as houses, offices, and other buildings. In addition, property tax is levied on various types of personal property, primarily business machinery and equipment. Under Washington State law, property taxes are levied by governmental jurisdictions in accordance with annual growth and total rate limitations.

Statutory growth-limits, Assessed Value and New Construction. State statute restricts the annual growth in property tax revenue in two ways. First, state law limits growth in the amount of tax revenue a jurisdiction can levy to the lesser of 1% or the national measure of the Implicit Price Deflator. Previously, beginning in 1973, state law limited the annual growth of the City's regular levy (i.e., General Purpose plus voted lid lifts) to 6%. In November 2001, voters statewide approved Initiative 747, which changed the 6% limit to the lesser of 1% or the Implicit Price Deflator, effective for the 2002 collection year. On November 8, 2007, Initiative 747 was found unconstitutional by the state Supreme Court. However, the Governor and state legislature, in a special session on November 29, 2007, reenacted Initiative 747, thus preserving the 1% growth limit. The second growth restriction is that state law caps the maximum tax rate a jurisdiction can impose. For the City of Seattle, this cap is \$3.60 per \$1,000 of assessed value and covers the City's general-purpose levy, including Fire Pension, and lid lifts.

The City of Seattle's 2019 tax rate at \$2.23 per \$1,000 AV was roughly 27% of the total \$8.28 rate paid by Seattle property owners for all taxing jurisdictions. In 2019, for a home of median assessed value in Seattle, although the tax obligation for taxes imposed by the City of Seattle increased 7.6% from \$1,410 to \$1,518, the total property tax obligation from all taxing jurisdictions decreased 1.1% from \$5,709 to \$5,642. The increase in the City levy is largely due to voter approval of the new Families, Education Preschool and Promise Levy, which replaces the expired Families and Education Levy and the Pre-School Services Levy. The overall decrease is due to the legislated decrease in the Seattle School District's levy for public school funding. For the median valued Seattle residence this was a 23.4% and \$281 decrease from \$1,201 in 2018 to \$920 in 2019. As part of the State Legislature's solution on school funding, the Seattle Public School District's (SPS) levy is capped beginning in the 2019 tax collection year. The State's schools levy increased 2.7% from \$1,742 in 2018 to \$1,790 in 2019 for the median assessed valued residence.

Assessed Value (AV) -- Prior to 2010, the last significant decrease in Seattle's total assessed value (AV) was in 1984 when AV decreased 3.6%. As Figure 11 illustrates, total assessed value in the City of Seattle fell in 2010 by approximately 10.3 percent. AV fell again in 2011 and 2012 by 2.9 percent and 2.2 percent respectively. Since then, AV growth has clearly reversed as Seattle AV (commercial and residential combined) has grown an annual average of approximately 13.0% from 2014 to 2019. Seattle AV growth has slowed significantly, however, in the past 12 months. The 2020 Adopted Budget assumes AV growth of 3.9% for the 2020 tax collection year.

Revenue Overview

Figure 11. Seattle Total Assessed Value

New Construction -- In addition to the allowed maximum 1% levy growth, state law permits the City to increase its regular levy in the current year by an amount equivalent to the previous year's tax rate times the value of property constructed or remodeled within the last year, as determined by the assessor. The City is receiving \$11.5 million in additional levy revenues from new construction in 2019 based on \$5.77 billion in new construction added to the tax roll. The 2020 Adopted Budget assumes a decrease in new construction value to \$4.85 billion in 2020. These new construction volumes are projected to generate \$9.99 million in 2020 revenue.

Figure 12. Seattle New Construction Property Tax Revenue

Revenue Overview

The 2020 Adopted Budget assumes 1% growth plus new construction. The forecast for the 2020 Adopted Budget’s General Fund (General Purpose) portion of the City’s property tax is \$268.2 million in 2019 and \$277.9 million in 2020. Additionally, the City is levying approximately \$249.4 million for voter-approved lid lifts in 2019, and \$264.7 million in 2020. The 2019 amount includes \$86.7 million from the voter-approved 2018 Families, Education, Pre-school and Promise Levy and the 2020 revenue includes \$30.3 million for the renewed Library levy. All levy lid lift proceeds are accounted for in other funds than the City’s General Fund. Finally, the City is levying \$22.8 million in 2019 and \$22.7 million in 2020 to pay debt service on voter-approved bond measures.

Seattle Parks District. In August 2014, voters approved creation of a Metropolitan Park District (MPD). Pursuant to RCW 35.61, the MPD is a legally separate taxing jurisdiction from the City of Seattle, whose property tax levy authority of \$0.75 per \$1,000 assessed value is outside of the City’s statutory rate limit of \$3.60 per \$1,000 assessed value and whose revenues will not be accounted for in the City’s General Fund. The MPD, per its 6-year spending plan (2015-2020), is levying approximately \$52.1 million in 2019 and \$53.3 million in 2020.

Medic 1/Emergency Medical Services. Voters in November 2013 approved a renewal of the Medic 1/EMS levy at \$0.335 per \$1,000 of AV. At this rate King County projected revenues over the 6-year life of the levy of \$678 million, approximately \$256 million of which will come to the City of Seattle. The 2020 Adopted Budget projects revenues of \$52.5 million in 2019, the final year of the current levy. The 2020 Adopted Budget reflects renewal of this levy in 2019 at the proposed \$0.265 per \$1,000 assessed value. This generates approximately \$67.1 million in revenue in 2020.

Figure 13 shows the different jurisdictions whose rates make up the total property tax rate imposed on Seattle property owners, as well as the components of the City’s 2019 property tax.

Revenue Overview

 (tax rate = \$2.23 per \$1,000 assessed value)

Revenue Overview

Retail Sales and Use Tax

The retail sales and use tax (sales tax) is imposed on the sale of most goods and certain services in Seattle. The tax is collected from consumers by businesses who, in turn, remit the tax revenue to the state. The state sends the City its share of the collections each month.

The current sales tax rate in Seattle is 10.1%. The rate was increased to 10.1% on April 1, 2017 by the addition of a voted increase of 0.5% for the Regional Transit Authority (Sound Transit). This followed an increase from 9.5% to 9.6% on April 1, 2015, when a 0.1% sales tax levy for the Seattle Transportation Benefit District was added. Seattle voters approved that increase in November 2014.

The basic sales tax rate of 10.1% is a composite of separate rates for several jurisdictions as shown in Figure 14. The City of Seattle's portion of the overall rate is 0.85%. In addition, Seattle receives a share of the revenue collected by the 0.1% King County Criminal Justice Levy. Revenue collected by the Seattle Transportation Benefit District is used to make transportation improvements in Seattle.

Figure 14. Sales and Use Tax Rates in Seattle, 2019

Sales tax revenue has grown and contracted with the local economy's ups and downs. Of the City's four major taxes, the sales tax is the most volatile because it is the most sensitive to changing economic conditions. Over half of sales tax revenue comes from retail trade and construction activity, which are very sensitive to changing economic conditions.

Seattle's sales tax base grew rapidly in the late 1990s, driven by a strong national economy, expansion at Boeing in 1996-1997, and the stock market and technology booms. The recession that followed the bursting of the stock market bubble and the September 11, 2001 terrorist attacks ushered in three successive years of declining revenue. This was followed by four years of healthy growth, 2004–2007, led by a surge in construction activity. That expansion ended in 2008 with the onset of the Great Recession, which caused the largest contraction in the sales tax base in more than 40 years. In a period of five quarters beginning with the third quarter 2008, the sales tax base shrunk by 18.2%. The decline was led by a steep drop in construction along with falling sales in almost every industry.

Revenue Overview

After hitting bottom in 2010, Seattle’s sales tax base has rebounded strongly, with construction leading the way. Other fast-growing industries include motor vehicle and parts retailing, e-commerce retailing, professional, scientific and technical services, accommodation, and food services. Over the 2011-2018 period sales tax revenue increased on average at an average rate of 8.4% per year.

Sales tax revenue growth is expected to slow down in the coming years. Sales tax revenue has grown by 6.0% in the first six months of 2019 compared to the same period in the previous year. This is a slowdown from 10.9% growth in 2018, which was above average for several reasons. Retail trade and construction sectors, which account for about 55% of the sales tax revenue, both posted strong increases by 15.0% and 15.7% respectively in the first half of 2018. Retail trade tax revenue increased considerably as a result of the Washington Marketplace Fairness Act and the Wayfair decision which expanded taxation of online retail sales. Compliance is expected to increase over time and retail trade grew by a solid 8.2% in the first half of 2019. The construction sector, on the other hand, posted a revenue increase of only 2.6% in the first six month of 2019 as a result of the 2018 base effect and the February 2019 snowstorms.

Sales tax revenue is expected to increase by 5.3% in 2019, 2.5% in 2020, and 2.6% in 2021 (see Figure 15). Weaker growth in 2020 and 2021 reflects the expected slowing of the metro area economy and the assumption of a modest decline in construction activity from its current above the trend levels. The expected decline accumulates to 10.5% over the three-year period 2019-2021.

Figure 15. Annual Growth of Retail Sales Tax Revenue

Business and Occupation Tax

Seattle’s principal business tax is the business and occupation (B&O) tax, which is levied on the gross receipts of most business activity that takes place in the city. The B&O tax has a small business threshold of \$100,000, which means businesses with taxable gross receipts below \$100,000 are exempt from the tax. Between January 1, 2008 and January 1, 2016, the City’s B&O tax also included a square footage tax that was complementary to the gross receipts tax. The square footage tax was implemented to offset an expected revenue loss from state mandated changes in the allocation and apportionment of B&O income. Included in B&O tax revenue are tax refunds, audit payments, and penalty and interest payments for past-due tax obligations.

Revenue Overview

The City levies the gross receipts tax at different rates on different types of business activity, as indicated in Figure 16. Most types of business activity, including manufacturing, retailing, wholesaling, and printing and publishing, are subject to a tax of 0.222% on taxable gross receipts in 2018. Services and transporting freight for hire are taxed at a rate of 0.427%. In 2017 and 2018, the City increased B&O tax rates to the maximum allowed under state law. The increase took place in two steps, a roughly two percent increase on January 1, 2017 and an increase of approximately one percent on January 1, 2018. In addition, the special 0.15% rate for international investment management services was eliminated on January 1, 2017.

Figure 16. Seattle Business and Occupation Tax Rates, 2016 – 2019

Printing, publishing	0.215%	0.219%	0.222%
Service, other	0.415%	0.423%	0.427%
International investment management	0.150%	0.423%	0.427%

Other things being equal, the B&O tax base is more stable than the retail sales tax base. The B&O base is broader than the sales tax base, which does not cover most services. In addition, the B&O tax is less reliant than the sales tax on the relatively volatile construction and retail trade sectors, and it is more dependent upon the relatively stable service sector.

B&O revenue growth has mirrored the growth of the local economy. B&O receipts have fluctuated with the economy’s ups-and-downs, rising rapidly during the late-1990s stock market and dot-com boom and the housing bubble of the mid-2000s, going flat from 2001–2004 during the previous decade’s first recession, and falling sharply during the Great Recession (see Figure 17). During the Great Recession the B&O tax base lost 16.8% of its value between first quarter 2008 and second quarter 2010.

Figure 17. Annual Growth of B&O Tax Revenue

Note: All revenue figures reflect current accrual methods.

B&O tax revenue has grown at a healthy pace during the recovery from the Great Recession. Over the 2011-2018 period, revenue increased on average at a 7.2% annual rate. Growth was weak in 2013

Revenue Overview

because of a drop in the revenue from audit activity and an increase in refund payments, not because of a weakening of tax base growth. Industries growing rapidly during the recovery have been construction, information, real estate, management of companies and enterprises, food services, and accommodation.

B&O tax revenue growth will slow down in the coming years. The B&O revenue forecast has been shaped by the expected slowdown of the economic growth in the metro area. Tax revenue growth forecast is 5.1% for 2019 and on average 4.3% per year for the 2019-2022 period. A one-time drop in revenue is expected in 2020 as a result of HB 1059 which changes the due date for annual payments from January 31 to April 15 beginning with 2020 obligations. Since January and February payments are accrued to 2020, but April and May payments are accrued to 2021, this delay in due date lowers the forecasted growth rate for the 2020 B&O tax revenue from 3.7% to 2.5%.

Utility Business Tax - Private Utilities

The City levies a tax on the gross income derived from sales of utility services by privately owned utilities within Seattle. These services include telephone, steam, cable communications, natural gas, and refuse collection for businesses.

Natural gas prices remain low. The City levies a 6% utility business tax on gross sales of natural gas and on sales of steam which has natural gas as an energy source. The bulk of revenue from the natural gas tax is received from Puget Sound Energy (PSE). PSE's natural gas rates are approved by the Washington Utilities and Transportation Commission (WUTC). Another tax is levied on consumers of gas delivered by private brokers. It is also assessed at 6% on gross sales. Spot prices, those paid for delivery in the following month, continue to be low. Temperatures play a key role in gas related revenues and are inversely related to natural gas usage and subsequent tax receipts.

Telecommunications tax revenues continue to decline. The utility business tax is levied on the gross income of telecommunication firms at a rate of 6%. Revenue from traditional land-line services has been on a steady decline. This was counteracted by the increasing prevalence of mobile/wireless phones. While new smartphone users have added to the wireless tax revenue base, the increased use of data and internet services which are not taxable have caused declines in the revenue streams.

As more and more wireless phone users are using the devices for data transmission instead of voice or text applications, and telecom companies change their rate plans to respond to this consumer behavior, the City may continue to see tax revenue declines. Some recent court decisions have altered what types of wireless phone calls the City can tax; the City may no longer assess a tax on interstate and international phone calls. There are continued pressures on this revenue stream.

Cutting the cord is affecting Cable Tax revenues. The City has franchise agreements with cable television companies operating in Seattle. Under the current agreements, the City levies a 10% utility tax on the gross subscriber revenues of cable TV operators, which accounts for about 90% of the operators' total revenue. The City also collects B&O taxes on miscellaneous revenues not subject to the utility tax. The imposition of a 4.4% franchise fee makes funds available for cable-related public access purposes. This franchise fee is deposited into the City's Cable Television Franchise Fund. Cable revenues have been declining year over year for some time. Increased competition from satellite and streaming services appear to be taking customers away from traditional cable providers. That is expected to continue and will be a drag on revenues.

Revenue Overview

Utility Business Tax - Public Utilities

The City levies a tax on most revenue from retail sales collected by City-owned utilities (Seattle City Light and Seattle Public Utilities). Tax rates range from a State-capped 6% on City Light up to a current 15.54% on the City Water utility.

Revenue Stabilization Account Surcharge is in effect. City Light sells excess power on the wholesale energy market. City Light energy production, almost exclusively hydro power, competes with natural gas in the wholesale market. For the 2010 fiscal year, the City Council authorized the creation of a rate stabilization account (RSA) for the utility funded with an as needed surcharge based on funding levels of the RSA. The rate stabilization surcharge was triggered in 2016 because the RSA funding level has dropped below \$90 million, the account's minimum required balance set by the Council. This forecast expects the surcharge to remain in effect through October of 2020.

Water rates are adopted through 2023. Tax revenue growth is expected to average 1.7% for 2019 through 2020.

Drainage and Wastewater rates are adopted through 2020. Drainage and wastewater tax revenue growth will average 8.0% 2019 through 2020.

Value of some recycled products has declined. Some recycled products that had a market overseas have seen their demand collapse. No recovery in these commodity prices is forecast soon. Solid waste has also seen a decline in demand from single-family households that has been offset by increased demand from multi-family and commercial users. Solid waste tax revenues will average 1.2% growth 2019 through 2020.

Tonnage taxes remain stable. The City imposes a \$13.27 per ton tax on solid waste hauled within the city limits. Historically these tax revenues, which apply to both public and private haulers, was collected by Seattle Public Utilities and used to pay for Clean City programs. These programs support public garbage collection, graffiti removal, illegal dumping, and other activities. In 2016 the tonnage tax began accruing to the General Fund which continues to support Clean City programs.

Other Notable Taxes

Admission Tax. The City imposes a 5% tax on admission charges to most Seattle entertainment events, the maximum allowed by state statute. This revenue source is highly sensitive to swings in attendance at athletic events. It is also dependent on economic conditions, as people's ability and desire to spend money on entertainment is influenced by the general prosperity in the region. Recently, entertainment venues have opened around the City, increasing the size of the tax base. Offsetting this, the former Key Arena has closed for renovations affecting some large entertainment events. Once reopened, the refurbished venue should provide increases in admissions tax revenues starting mid-2021. Revenues are forecast to grow by an average annual rate of 0.5% for 2019 through 2020.

Of admission tax revenues, excluding men's professional basketball, 20% were dedicated to programs supported by the Office of Arts and Culture (Arts) before 2010. In 2010 this contribution increased to 75% based on the actual admission tax receipts from two years prior, this was increased to 80% for 2016. In 2017 funding was increased to 90% and then 100% of actual receipts in 2018. As a result, Arts

Revenue Overview

is fully funded by the admission tax, except for money received from the 1% for Arts program. The forecasts in Figure 10 for admission taxes reflect the full amount of tax revenue. The Office of Arts and Culture section of this document provides further detail on the office’s use of Arts Account revenue from the admission tax and the implementation of this change.

New Heating Oil Tax. Effective September 1, 2020, Council imposed a \$0.236 per gallon tax on heating oil service providers for every gallon of heating oil sold and delivered within Seattle. This tax is estimated to generate \$568,000 in 2020. The revenues primarily support low-income household oil furnace conversion programs administered by the Office of Sustainability and Environment.

New Transportation Network Company Tax. In November 2019, Council approved a tax on transportation network companies (TNC), such as Uber and Lyft, effective July 1, 2020. The tax of \$0.57 per trip is owed for all rides originating in Seattle by TNC’s with more than 1 million rides per calendar quarter. This tax is estimated to raise \$8.9 million in 2020.

Licenses and Permits

The City requires individuals and companies conducting business in Seattle to obtain a City business license. In addition, some business activities, such as taxi cabs and security systems, require additional licenses referred to as professional and occupational licenses. The City also assesses fees for public-safety purposes (e.g., pet ownership and fire hazard inspection) and charges a variety of fees for the use of public facilities and rights-of-way.

In 2005 the City instituted a two-tier business license fee structure. The cost of a license, which had been \$80 per year for all businesses, was raised to \$90 for businesses with worldwide revenues of more than \$20,000 per year and lowered to \$45 for businesses with worldwide revenues less than \$20,000 per year. The City increased the fees for 2015 license renewals to \$110 and \$55, respectively.

To provide funding for additional police officers, the City implemented a new business license fee structure that took effect for 2017 licenses. Fees increased for businesses that have a taxable income (reported for B&O tax purposes) greater than \$500,000. Fees for all other businesses remain at 2016 levels (See Figure 18) until 2020. Fee increases were being phased in over a three-year period, 2017–2019, and will increase with inflation annually thereafter. Largely as a result of the fee increases, business license revenue grew from \$6.8 million in 2015 to \$17.3 million in 2018, a 153.2% increase. Revenue growth is expected to slow to 4.9% in 2019 and 2.4% in 2020.

Figure 18. Business License Fee Schedule, 2016 – 2020

Taxable income	2016*	2017	2018	2019	2020
Less than \$20,000	\$55	\$55	\$55	\$55	\$56
\$20,000 - \$500,000	\$110	\$110	\$110	\$110	\$113
\$500,000 - \$2 mil.	\$110	\$480	\$480	\$500	\$511
\$2 mil. - \$5 mil.	\$110	\$1,000	\$1,000	\$1,200	\$1,227
More than \$5 mil.	\$110	\$1,000	\$2,000	\$2,400	\$2,455

*2016 fee is based on worldwide gross income, not taxable income.

Revenue Overview

Parking Meters/Traffic Permits

In spring 2004, the City of Seattle began replacing traditional individual space parking meters with pay stations in various areas throughout the City. In addition to offering the public more convenient payment options, including credit cards and debit cards, for hourly on-street parking, pay station technology has allowed the City to more actively manage the street right-of-way by adopting different pricing, time limit and other management parameters on different blocks throughout the city and at different times of day. The City currently has around 1,700 pay stations controlling approximately 12,000 parking spaces. The overall objective of the parking management program is to provide a more data-driven, outcome-based management and price-setting approach in pursuit of the adopted policy goals of one to two open spaces per block-face, reduced congestion, support of business districts, and reduced vehicle emissions and improved air quality.

Based on collected occupancy data, the 2020 Adopted Budget assumes the implementation in Fall 2019 of planned changes to parking rates (increases and decreases), which are reviewed and adjusted annually by SDOT based on parking availability targets. Also assumed are projected space additions and removals for coming years, as planned by SDOT. The net effect of rate, space and timing changes, as well as changes in paid occupancy, is -1.0% growth between 2018 and 2019. The 2020 Adopted Budget forecast is for on-street parking revenues of approximately \$38.6 million in 2019 and 2020.

Street Use and Traffic Permits. Traffic-related permit fees, such as meter hood service, commercial vehicle load zone, truck overload, gross weight and other permits, including revenues from the City's car sharing program with Car2Go, Lime and ReachNow, are projected to generate revenues of approximately \$7.2 million in 2019, then fall to approximately \$6.5 million in 2020. The 2020 Adopted Budget includes fee increases for meter hoods (a \$2 increase) and vehicle load zone permits (from \$195 to \$250), but also reflects the discontinuation of the ReachNow and Lime car share services in 2019.

Court Fines

Although shifting with the introduction of photo enforcement cameras, between 50% and 60% of court fine revenues collected by the Seattle Municipal Court are from parking citations written by Seattle Police Department parking enforcement (PEOs) and traffic officers. Fines from photo enforcement in selected intersections and school zones now comprise approximately 35-45% of revenues and 5-10% comes from traffic and other non-parking related citations.

Overall fines revenue increased approximately \$1.3 million (3.3%) from 2017 to 2018 to \$39.5 million. Approximately \$1.1 million of that increase came from camera enforcement revenues. In 2018 school zone speed camera revenues came in at \$12.2 million, up from \$11.2 million in 2017. The 2020 Adopted Budget includes \$9.9 million in school zone camera revenue for 2019 and \$10.6 million in 2020. The decline in 2019 is due to an assumed rate of change in the number of citations based on driver behavior. 2020 revenues assume activation of six new cameras at three new school locations. School zone camera revenues are accounted for in the School Safety Traffic and Pedestrian Improvement Fund.

Total General Fund fines revenues were approximately \$26.6 million in 2018 and are expected to increase slightly in 2019 and 2020 to approximately \$27.1 million. Red light camera enforcement revenues (i.e., non-school zone cameras) in 2019 and 2020 are projected to remain relatively flat at about \$5.1 million in each year. However, these amounts are fully recognized in the General Fund through 2020, per the City Council's action for 2018-20 to suspend the prior requirement of transferring 20% of red-light camera revenues to the School Safety Traffic and Pedestrian Improvement Fund. Non-

Revenue Overview

camera fine revenues are projected to fall approximately \$500,000 from 2018 to approximately \$22.0 million in 2019 and 2020, due to reduced citation volumes.

Interest Income

Through investment of the City's cash pool in accordance with state law and the City's own financial policies, the General Fund receives interest and investment earnings on cash balances attributable to several of the City's funds that are affiliated with general government activities. Many other City funds are independent, retaining their own interest and investment earnings. Interest and investment income to the General Fund varies widely, subject to significant fluctuations in cash balances and changes in earnings rates dictated by economic and financial market conditions.

As a result of the financial crisis in 2008 and the Federal Reserve Bank's (Fed) unprecedented purchasing of assets through quantitative easing, borrowing rates fell to historic lows. These rates have remained relatively low, but the Fed has ended their purchasing programs. They have recently begun to lower short-term interest rates to head off a slowing economy. This will lead to fairly flat interest earnings on the City's cash pool for 2020. The annual earnings yield for the cash pool was 2.58% in 2018 but forecast to be 2.29% in 2019 before rising to 2.46% by 2020. Should the economy suffer any material setbacks, these rates would be expected to fall further.

Revenue from Other Public Entities

Washington State shares revenues with Seattle. The State of Washington distributes a portion of tax and fee revenue directly to cities. Specifically, portions of revenues from the State General Fund, liquor receipts (both profits and excise taxes), and motor vehicle fuel excise taxes, are allocated directly to cities. Revenues from motor vehicle fuel excise taxes are dedicated to street maintenance expenditures and are deposited into the City's Transportation Fund. Revenues from the other taxes are deposited into the City's General Fund.

Criminal Justice revenues are stable. The City receives funding from the State for criminal justice programs. The State provides these distributions out of its General Fund. These revenues are allocated on the basis of population and crime rates relative to statewide averages. These revenues have been affected by State budget changes in the recent past and, while not expected, could be affected in future budgets out of Olympia.

Marijuana related revenues are being shared with local jurisdictions. As part of the State's 2016 budget, marijuana related tax revenues are being shared with local jurisdictions for public safety purposes. The state has adopted a complicated allocation of these revenues, but in general only those cities in counties that have legalized marijuana sales will receive excise tax distributions based on both their jurisdictions proportion of marijuana related sales as well as a per capita basis. Because this is a relatively new revenue stream with a growing tax base, the forecast is imprecise.

State budget restores liquor related revenues to cities. Cities in the state of Washington typically receive two liquor related revenues from the State. One is related to the liquor excise tax on sales of spirits and the other is a share in the State Liquor and Cannabis Board's profits accrued from the operation from their monopoly on spirits sales. The State no longer holds the monopoly in liquor sales in the state due to the passing of Initiative 1183 in November of 2011. The initiative guaranteed the cities would continue to receive distributions in an amount equal to or greater than what they received from liquor board profits prior to the implementation of the initiative as well as an additional \$10 million to

Revenue Overview

be shared annually. There was no guarantee concerning liquor excise taxes. In recent budgets the State has eliminated, on a temporary basis, the sharing of liquor excise taxes. The most recent State budget has restored fully the excise tax funding to cities.

Service Charges and Reimbursements

Internal service charges reflect current administrative structure. In 1993, the City Council adopted a resolution directing the City to allocate a portion of central service expenses of the General Fund to City utilities and certain other departments not supported by the General Fund. The intent is to allocate a fair share of the costs of centralized general government services to the budgets of departments supported by revenues that are largely self-determined. These allocations are executed in the form of payments to the General Fund from these independently supported departments. More details about these cost allocations and methods are detailed in the Cost Allocation section of this budget.

Interfund Transfers

Interfund transfers. Occasionally, transfers from departments to the General Fund take place to pay for specific programs that would ordinarily be executed by a general government department or to capture existing unreserved fund balances. A detailed list of these transfers is included in the General Fund revenue table found in the Funds and Other section. This includes the transfer of school zone camera revenues described under Court Fines above.

In adopting the 2020 Budget, it is the intent of the City Council and the Mayor to authorize the transfer of unencumbered, unreserved fund balances from the funds listed in the Finance General revenue table to the General Fund.

Cumulative Reserve Fund – Real Estate Excise Tax

The Cumulative Reserve Fund resources are used primarily for the maintenance and development of City general government capital facilities. These purposes are supported mainly by revenues from the Real Estate Excise Tax (REET), but also, to a lesser degree, by the proceeds from certain property sales and rents, street vacation revenues, General Fund transfers, and interest earnings on fund balances.

The REET is levied by the City at a rate of 0.5% on sales of real estate measured by the full selling price. Because the tax is levied on transactions, the amount of revenue that the City receives from REET is determined by both the volume and value of transactions.

Over time, 52.6% of the City's REET tax base has come from the sale of residential properties, which include single-family homes, duplexes, and triplexes. Commercial sales, which include apartments with

Revenue Overview

four units or more, account for 32.2% of the tax base, and condominiums constitute the remaining 15.2% (see Figure 19).

Figure 19. Value of Seattle Real Estate Transactions by Property Type, 1982 - 2018

The residential market showing signs of calming. The value of Seattle real estate transactions (the REET tax base) increased at an average annual rate of 13.1% between 1982 and 2007, a period when Seattle area inflation averaged only 3.4% per year. Growth was particularly strong during the recent boom years, fueled by low interest rates and a growing economy. 2008 saw the national property bust that started in late 2005 come to Seattle. The REET tax base declined 50.7% from 2007 to 2008 and continued to decline by 23.4% into 2009. The decline was felt across all three real estate categories. The first quarter of 2009 was the bottom of Seattle's residential market for both sales and prices on a seasonally adjusted basis. With low financing rates and a strong economy, residential and condominium sales have been on an upswing in Seattle increasing Real Estate Excise Tax revenues. Single-family home prices, both nominal and adjusted for inflation, have well surpassed their previous peak set in 2007 (see Figure 20). Average prices have come down from that peak but are expected to stabilize over the next few years.

Revenue Overview

Figure 20. Seattle Single-family Market

*Seasonally adjusted data

The volatility of REET is reflected by the fact that despite a 8.7% compounded average annual growth rate, the REET tax base declined in eleven years during the period 1982–2018. This volatility is largely the result of changes in sales volumes, which are sensitive to shifts in economic conditions and movements in interest rates; average prices tend to be more stable over time. Commercial activity tends to be more volatile than the residential market, in part because the sale of a handful of expensive properties can result in significant swings in the value of commercial sales from one year to the next, as was seen in 2007, 2012, and 2015 (see Figure 21). Those years saw significant commercial activity with many large buildings in the downtown core changing hands.

Revenue Overview

Figure 21. REET Revenues

Sweetened Beverage Tax Fund

On June 5, 2017, the City Council approved the Sweetened Beverage Tax (SBT) effective January 1, 2018. Distributors of sweetened beverages are liable for the tax of \$0.0175 per fluid ounce of sweetened beverage distributed into the city of Seattle for final sale to the consumer. The 2020 Adopted Budget includes revenues of \$23.9 million in 2019 and \$24.3 million in 2020. Sweetened beverages include sodas, energy drinks, sweetened juices and teas, sports drinks and ready-to-drink coffee drinks. Revenues will be used to fund educational and food access programs primarily through the Department of Education and Early Learning (DEEL), the Human Services Department (HSD) and the Office of Sustainability and Environment (OSE). Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Sweetened Beverage Tax Fund in the City’s accounting system.

Short-Term Rental Tax Fund

Effective January 1, 2019, the State legislature authorized the public facilities district that is the Washington State Trade and Convention Center to impose a 7% tax on the sale of or charge made for the furnishing of lodging (including but not limited to any short-term rental). The proceeds generated from short-term rental charges in Seattle are distributed to the City of Seattle to support community-initiated equitable development and affordable housing programs. The 2020 Adopted Budget assumes \$10.5 million in each of 2019 and 2020. Beginning in 2020 these revenues and associated expenditures are moved from the General Fund to the Short-Term Rental Tax Fund in the City’s accounting system.

City Fiscal Reserve Funds

The State of Washington permits the City to maintain two financial reserves to draw upon in the event of certain unanticipated expenditure or revenue pressures.

Emergency Fund

Under the authority of RCW 35.32A.060, the City maintains the Emergency Fund (EMF) of the General Fund. The EMF is the principal reserve for the City to draw upon when certain unanticipated expenses occur during the fiscal year. Eligible expenses include costs related to storms or other natural disasters. State law limits the amount of money the City can set aside in this reserve to 37.5 cents per \$1,000 of assessed value of property within the city.

The City's practice had been to fully fund the emergency reserve to this maximum limit. However, over that past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. While perhaps good news from an economic standpoint, these increasing assessed values do not translate into a proportional increase in City property tax revenues. In that context, and in recognition of the need for resources to be directed toward related social services in response to the homelessness crisis, in 2017 the City modified the existing financial policies for the EMF to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the EMF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs. For the 2020 Adopted Budget, the City adds \$1.9 million to the reserve balance bringing the total to \$66.9 million for 2020.

Revenue Stabilization Fund

Under the authority of RCW 35.21.070, the City maintains a second financial reserve called the Revenue Stabilization Fund (RSA), also known as the Rainy Day Fund. The RSA provides resources for the City to draw upon to maintain City services in the event of a sudden, unanticipated shortfall in revenue due to economic downturns or other factors. City code limits the amount set aside in this reserve to five percent of General Fund tax receipts. [Ordinance 123743](#) requires the City to deposit an amount equivalent to 0.5% of General Fund tax revenues into the RSA, with some limited exceptions. In addition, City policy requires the deposit of 50% of any unplanned year-end fund balance in the General Fund into the RSA. The RSA has a fund balance cap equal to five percent of total annual General Fund tax revenue.

The City adopted significant RSA funding enhancements in 2011 via Ordinance 123743. These changes enabled the City to rebuild the Rainy-Day Fund reserves that had been spent down in 2009 and 2010 in the midst of the Great Recession. The new policies facilitated the rebuilding of this reserve fund from a low of \$10.5 million in 2010 to \$57.7 million by 2019. For the 2020 Adopted Budget, the City adds \$3.0 million to the reserve balance bringing the total to \$60.8 million for 2020.

Community Development Block Grant (CDBG)

Funding Source Overview

In 2017, as part of the implementation of a new enterprise-wide financial management system, the Community Development Block Grant (CDBG) Fund (17810) was dissolved and budget was distributed to various other funds in alignment with the direct fund model. The Human Services Department is the City department which acts as custodian for all grants from the U.S. Department of Housing and Urban Development, including CDBG funding. However, CDBG is a relatively flexible funding source and is used by many City departments.

Budget Overview

In the 2020 Adopted Budget, the funds are distributed to departments and projects as detailed on the following page. All projects are subject to federal CDBG eligibility requirements, and, for some projects, final eligibility has not yet been determined.

The City Council took one action impacting CDBG in the Adopted Budget, allocating \$933,000 in previously unspent CDBG funding to support relocation and renovations for the ROOTS youth and young adult shelter in the University District.

Community Development Block Grant - 2020 Adopted Budget

Department	Title	Project Description	2018 Actuals*	2019 Adopted Budget	2020 Endorsed Budget	2020 Adopted Budget	2020 Adopted Budget Changes
HSD	Community Facilities	Community facility capital improvements.	-	1,933,449	217,000	2,933,000	Additional \$2,933,000 CDBG appropriations from unspent prior year awards.
	Homeless Services	Provides emergency shelter, day center / outreach activities, and homelessness prevention services. Note that the City is allocating all CDBG services funding to homelessness shelters and programs.	3,730,628	3,151,628	3,151,628	3,368,628	Entirety of Service Funding in HSD Homelessness Services. In the 2020 Proposed Budget, \$217,000 was reallocated from the Office of Housing.
	Human Services Admin & Planning	Provide internal staffing capacity to adequately and effectively manage and administer all Consolidated Plan funds; ensure programmatic compliance with applicable federal regulations.	790,519	1,122,621	1,122,621	1,122,621	No Change
	Minor Home Repair	Provide minor home repairs to low- and moderate-income homeowners for safety and health-related repairs to their homes.	379,902	449,917	449,917	449,917	No Change
	HSD Total		4,901,049	6,657,615	4,941,166	7,874,166	
OED	Neighborhood Business District - Only in Seattle	Provide grants and services to foster inclusive neighborhood business districts that allow small businesses to thrive.	13,399	679,675	679,675	199,675	Reduce CDBG support to the Only in Seattle program by \$480,000 and reallocate to new Small Business Support programs.
	King Street Station	Provide financial assistance to conduct a feasibility analysis and to begin implementation of projects development of King Street Station as determined by the feasibility analysis and community.	-	262,500		-	One-time in 2019.
	Neighborhood Business District Planning, Technical Assistance & Staff Support	Provide staffing, technical assistance, planning and administration to support the Only in Seattle Initiative.	130,000	172,000	172,000	172,000	No Change
	Small Business Support	Provide financial assistance to qualifying small businesses and microenterprises. Delivery of business marketing and technical assistance to existing small business entrepreneurs serving low-income neighborhoods.	259,399	512,000	512,000	992,000	Increase CDBG support by \$480,000 for new Small Business Support programs.
	OED Total		402,798	1,626,175	1,363,675	1,363,675	
OH	Home Repair Program	Provide major home repair financial assistance to low- and moderate-income homeowners. Assisted households typically include seniors and others on low, fixed incomes. The Home Repair Loan Program helps prevent displacement of low-income homeowners by helping them remain safely in their homes.	248,231	350,000	350,000	350,000	No Change
	Home Repair Staffing	Provide administrative and management staff support to the home repair program.	248,122	255,462	255,462	255,462	No Change
	Homebuyer Education and Counseling	Provide education for first-time low- and moderate-income homebuyers.	220,941	217,000	217,000	-	Alternate funding source identified for this program in the Office of Housing, funding moved to HSD to support Homeless Services.
	Office of Housing Admin & Planning	Support OH costs associated with CDBG and HOME program planning, administration, and contracted services.	168,956	160,972	160,972	160,972	No Change
	Rental Housing Preservation and Development	Provide financial assistance for the preservation and development of multifamily rental affordable housing.	630,818	490,278	490,278	490,278	No Change
OH Total		1,517,070	1,473,712	1,473,712	1,256,712		
OIRA	ESL for Work (Ready to Work)		388,898	400,000	400,000	400,000	No Change
OPCD	Equitable Development Initiative	Provide support for community-based organizations pursuing investment strategies that will mitigate displacement within high-risk neighborhoods.	-	1,430,000	430,000	430,000	No Change
Parks	Seattle Conservation Corp Park Upgrades	Provide funding to the Seattle Conservation Corps for capital improvements and renovation in neighborhood parks serving qualifying low- and moderate-income neighborhoods and ADA Improvements.	716,832	808,000	808,000	1,508,000	Additional \$700,000 one-time added for ADA improvements in Parks.
Total			7,926,647	12,395,502	9,416,553	12,832,553	
							Unspent from prior years (\$2,993,000 appropriated in HSD's Community Facilities for one-time projects and \$300k in Parks for ADA improvements)
							\$ (2,300,000)
							\$ (400,000)
							10,132,553 Net CDBG entitlement expectation for 2020

*Note that 2018 Actuals are an estimate based on 2018 year-end data and subject to change based on accounting adjustments and corrections in 2019.

City Bond Issuance and Debt Service

In addition to cash resources, the City also uses bonds and property tax levies to fund a variety of capital improvement projects. The City's budget must include funds to pay interest and principal on outstanding and proposed bonds. The City has issued three types of debt to finance its capital improvement programs: unlimited tax general obligation bonds, limited tax general obligation bonds and revenue bonds.

Unlimited Tax General Obligation Bonds

The City may issue Unlimited Tax General Obligation (UTGO) Bonds for capital purposes if a proposition authorizing their issuance is approved by 60% of the voters in an election in which the number of voters exceeds 40% of the voters in the most recent general election. Payment of principal and interest is backed by the "full faith and credit" of the City. This means that the City commits itself to include in its property tax levy an amount that is sufficient to pay principal and interest on the bonds. Property taxes levied to pay debt service on UTGO bonds are not subject to the statutory limits in state law on the taxing authority of local governments, which is why UTGO bonds are "unlimited" (see the "Property Tax" section of the "Revenue Overview" for a description of statutory limits on property tax rates and growth). However, state law does limit the amount of UTGO bonds that can be outstanding at any time to 7.5% of assessed valuation of property in the city: 2.5% for open space and park facilities, 2.5% for utility purposes, and 2.5% for general purposes. As of December 31, 2018, there were approximately \$274 million in UTGO bonds outstanding.

Limited Tax General Obligation Bonds

The City Council may authorize the issuance of Limited Tax General Obligation (LTGO) Bonds, also known as Councilmanic bonds, in an amount up to 1.5% of assessed valuation, without a vote of the people. The City pledges its full faith and credit to the payment of principal and interest on LTGO bonds, but this pledge must be fulfilled within the City's statutory property tax limitations. Thus, these are "limited" general obligation bonds. The combination of UTGO bonds issued for general purposes and LTGO bonds cannot exceed 2.5% of assessed property valuation. If LTGO bonds are issued up to the 1.5% ceiling, then UTGO bonds for general purposes are limited to 1% of assessed value.

The City also guarantees debt issued by the Pike Place Market Preservation and Development Authority, the Seattle Indian Services Commission, the Seattle Chinatown/International District Preservation and Development Authority, and the Museum Development Authority. As of December 31, 2018, the guarantees totaled \$39.3 million out of \$877 million outstanding LTGO debt. Guarantees count against the City's LTGO debt capacity.

Revenue Bonds

Revenue bonds are used to provide financing for the capital programs of City Light and the three other utilities - Water, Drainage and Wastewater, and Solid Waste - which are grouped together in Seattle Public Utilities. The City does not pledge its full faith and credit to the payment of debt service on revenue bonds. Payment of principal and interest on the bonds issued by each utility is derived solely from the revenues generated by the issuing utility. No tax revenues are used to pay debt service.

When revenue bonds are sold, the City commits itself to set fees and charges for the issuing utility that will be sufficient to pay all costs of operations and maintenance, and all payments of principal and interest on the bonds. While the amount of revenue bonds is not subject to statutory limits, the utility's ability to repay debt with interest is a practical constraint.

Forms of Debt Authorized by State Law

Table 1 below summarizes the conditions and limitations that apply to the issuance of the general obligation debt issued by the City.

Table 1: Summary of Conditions and Limitations for City Debt Issuances

Form of Debt	Voter Approval Required	Source of Repayment	Statutory Limitation	Current Limit ¹	Outstanding 12-31-18 ¹
Unlimited Tax General Obligation Bonds (UTGO)					
Parks & Open Space	Yes	Property Tax	2.5% of AV	\$6.1 Billion	\$0
Utility	Yes	Property Tax	2.5% of AV	\$6.1 Billion	\$0
General Purposes	Yes	Property Tax	1.0 % of AV ²	\$2.4 Billion	\$274 Million
Limited Tax General Obligation Bonds (LTGO)					
	No	Taxes and Other Revenues	1.5% of AV ²	\$3.7 Billion	\$877 Million ³

¹ As of 12/31/18, assuming the latest certified assessed value of \$244.9 billion, issued on February 25, 2019 for taxes payable in 2019.

² The sum of UTGO and LTGO debt for general purposes cannot exceed 2.5% of assessed valuation.

³ Includes \$39.3 million of PDA debt guarantees.

City Debt Management Policies and Bond Ratings

The use of debt financing by the City is subject to federal and state laws as well as the City's own debt management policies ([Resolution 31553](#)).

The City has earned very high ratings on its bonds as a result of a strong economy and prudent financial practices. The City's UTGO debt is rated Aaa by Moody's Investors Service, AAA by Fitch IBCA, and AAA by Standard & Poor's (S&P), which are the highest possible ratings. The City's LTGO debt is rated Aaa by Moody's, AAA by Fitch, and AAA by S&P. In addition, the City's utilities have very high ratings for revenue debt, reflecting sound finances and good management.

2020 Projected Bond Issues

In 2020, the City expects to issue approximately \$63.3 million of limited tax general obligation (LTGO) bonds for a variety of purposes. Table 2 lists the financed projects and other details of the financing plan. Bond proceeds will be deposited into the 2020 Multipurpose Bond Fund. City departments responsible for all or portions of projects listed in Table 2 will then draw money from this fund as appropriated to implement the projects. The appropriation authority for using these bond funds are in the respective departments' sections of this budget.

Table 2: 2020 Multipurpose LTGO Bond Issuance Costs - Informational Only (\$1,000s)

Project	Capital Cost	Approx. Par Amount (1)	Max. Term	Approx. Rate	Debt Service Adopted 2020	Debt Service Estimated 2021	Debt Service Funding Source
Criminal Justice IT	10,000	10,300	8	4.0%	309	1,530	General Fund

IT Computing	1,100	1,133	8	4.0%	34	168	ITD

Total	63,326	65,226			2,376	7,292	

(1) Includes 3% for costs of issuance and pricing adjustments.

(2) Receipts from additional 2.5% commercial parking taxes.

2020 Multipurpose LTGO Fund Issuance Costs - Informational Only (\$1,000s)

Approx. Par Amount	Issuance Costs & Pricing Adjustments	Issuance Cost Adopted for 2020
\$63,326	3%	\$1,900

2020 Debt Service

In 2020, debt service associated with outstanding bond issues as well as the planned 2020 bond issuances totals \$97.5 million. Appropriation authority for debt service costs are in the respective departments' sections of this budget. The Debt Service Appendix lists debt service amounts by paying fund.

Selected Financial Policies

Through a series of Resolutions and Ordinances, the City has adopted a number of financial policies that are designed to protect the City's financial interests and provide a framework and guidelines for the City's financial practices. For additional information about these policies, please refer to the City of Seattle website: http://www.seattle.gov/financedepartment/financial_policies.htm.

Budgetary Basis

- The City budgets on a modified accrual basis. Property taxes, sales taxes, business and occupation taxes, and other taxpayer-assessed revenues due for the current year are considered measurable and available and, therefore, as revenues, even though a portion of the taxes may be collected in the subsequent year. Licenses, fines, penalties, and miscellaneous revenues are recorded as revenues when they are received in cash since this is when they can be accurately measured. Investment earnings are accrued as earned.
- Expenditures are considered a liability when they are incurred. Interest on long-term debt, judgments and claims, workers' compensation, and compensated absences are considered a liability when they are paid.

Appropriations and Execution

- The adopted budget generally makes appropriations for operating expenses at the budget control level within departments, unless the expenditure is from one of the General Fund reserve accounts, or is for a specific project or activity budgeted in the General Subfund category called Finance General. These projects and activities are budgeted individually.
- Capital projects programmed in the CIP are appropriated in the budget at the program or project level. Grant-funded activities are controlled as prescribed by law and federal or state regulations.
- Within the legally adopted budget authorizations, more detailed allocations, as approved by CBO, are recorded in the City's accounting system, called SUMMIT, at the lowest levels of each department's organizational structure and in detailed expenditure accounts. Throughout the budget year, CBO monitors revenue and spending performance against the budget to protect the financial stability of the City.
- In accordance with Washington state law, any unexpended appropriations for operating or ordinary maintenance expenditures automatically lapse at the close of the fiscal year, except for any appropriation continued by ordinance. Unexpended appropriations for capital outlays remaining at the close of the fiscal year are carried forward to the following year, except for any appropriation abandoned by ordinance.

Budget Transfers

The Budget Director may approve, without ordinance, appropriation transfers within a department or agency of up to 10%, and with no more than \$500,000 of the appropriation authority for the particular budget control level or, where appropriate, line item, being increased. In addition, no transfers can reduce the appropriation authority of a budget control level by more than 25%.

Selected Financial Policies

Debt Policies

- The City of Seattle seeks to maintain the highest possible credit ratings for all categories of short- and long-term General Obligation debt that can be achieved without compromising delivery of basic City services and achievement of adopted City policy objectives.
- The City will reserve \$100 million of legal limited tax (councilmanic) general obligation debt capacity, or 12% of the total legal limit, whichever is larger, for emergencies. The 12% reserve is now significantly greater than \$100 million.
- Except in emergencies, net debt service paid from the General Subfund will not exceed 9% of the total General Fund budget. In the long run, the City will seek to keep net debt service at 7% or less of the General Fund budget.

General Fund Fund Balance and Reserve Policies

- State law allows the City to maintain an emergency reserve at a maximum statutory-authorized level of 37.5 cents per \$1,000 of assessed property value in the city. The City's previous practice had been to fully fund the emergency reserve to this maximum limit. However, over the past several years assessed values have undergone significant growth and are expected to continue at a rate that far outpaces the projected City's revenue growth rate. In 2017 the City modified the existing financial policies for the Emergency Subfund (ESF) to establish a minimum balance of \$60 million, and to adjust that level each year with the rate of inflation. This implies that the ESF would continue to grow, but at somewhat lower rate than under the previous policy. This policy change strikes a balance between ensuring that resources will be available to address unanticipated expenditures and making resources available to address current needs.
- Annual contributions of 0.50% of forecasted tax revenues are automatically made to the Revenue Stabilization Account of the Cumulative Reserve Subfund (commonly referred to as the "Rainy Day Fund").¹ In addition, 50% of any unanticipated excess General Subfund fund balance at year's end is automatically contributed to the Rainy Day Fund. These automatic contributions are temporarily suspended when the forecasted nominal tax growth rate is negative or when the total value of the Rainy Day Fund exceeds 5% of total tax revenues. In addition to the automatic contributions, the City may also make contributions to the Rainy Day Fund via ordinance. Expenditures from the Rainy Day Fund require the approval of a majority of the members of the Seattle City Council and must be informed by the evaluation of out-year financial projections.

Other Citywide Policies

- As part of the Mayor's budget proposal, the Executive develops a revenue estimate that is based on the best available economic data and forecasts.
- The City intends to adopt rates, fees, and cost allocation charges no more often than biennially. The rate, fee, or allocation charge structures may include changes to take effect at

¹ The 0.50% contribution is lowered to 0.25% of forecasted tax revenues for any year immediately following the suspension of contributions as a result of negative nominal tax revenue growth.

Selected Financial Policies

specified dates during or beyond the biennium. Other changes may still be needed in the case of emergencies or other unanticipated events.

- In general, the City will strive to pay for general government current operating expenditures with current revenues, but may use fund balance or other resources to meet these expenditures. Revenues and expenditures will be monitored throughout the year.
- In compliance with State law, no City fund whose purpose is restricted by state or local law shall be used for purposes outside of these restrictions.
- Working capital for the General Fund and operating funds should be maintained at sufficient levels so that timing lags between revenues and expenditures are normally covered without any fund incurring negative cash balances for greater than 90 days. Exceptions to this policy are permitted with prior approval by the City Council.

Office of Arts and Culture

Randy Engstrom, Director

(206) 684-7171

<http://www.seattle.gov/arts/>

Department Overview

The Office of Arts & Culture (ARTS) envisions a city driven by creativity that provides the opportunity for everyone to engage in diverse arts and cultural experiences. The office promotes Seattle as a cultural destination and invests in Seattle's arts and cultural sector to ensure the City provides a wide range of high-quality programs, exhibits and public art. ARTS includes eight programs: Cultural Partnerships, Communications and Outreach, Equity and Youth, Cultural Facilities Operations, Public Art, Artwork Conservation, Administrative Services, and Cultural Space. These programs are supported by two funding sources: the Arts and Culture Fund, which is funded through the City's admission tax revenues, and the Municipal Arts Fund, which is supported by the 1% for Arts contributions from Capital Projects.

The **Cultural Partnerships** Program invests in cultural organizations, youth arts programs, individual artists and community groups to increase residents' access to arts and culture, and to promote a healthy cultural sector in the city. The Cultural Partnerships program offers technical assistance and provides grants to arts and cultural organizations throughout the city.

The **Communications and Outreach** Program works to ensure greater community access to arts and culture through annual forums and award programs by showcasing community arts exhibits and performances at City Hall and King Street Station, and by developing materials to promote Seattle as a creative capital. This program also works on innovative ways to reach out to communities about the opportunities of the department.

The **Cultural Space** Program provides resources to fund the development of new cultural spaces, the retention of crucial cultural anchors, and physical space improvements in existing cultural institutions. The program exists to preserve, create and activate cultural square footage in the city of Seattle; to work with artists and arts organizations to strengthen their role in charting the future of their creative spaces; and to work with developers and builders to incorporate arts and culture into new projects.

The **Cultural Facilities Operations** Program (formerly named the Langston Hughes Performing Arts Institute Program) provides operational support for Langston Hughes Performing Arts Institute, a cultural facility that provides rental spaces and technical assistance, and that works in partnership with LANGSTON, a non-profit organization, to present classes, performing arts academies, programs and events, with the goal of providing quality cultural programs with educational components that meet the needs of the African American community. This program also supports the operation and programming of the King Street Station. This includes a rotating gallery opened to the public. Programming is submitted by the community and reviewed by a community advisory group. This program also provides technical assistance to applicants and selected programs.

The **Equity and Youth** Program invests in teaching artists, educators and organizations that are working toward a stronger more vibrant creative youth culture. ARTS does this through funding, professional development, school and community arts partnerships, arts education initiatives (The Creative Advantage), and career-connected learning in the arts and creative industries. The program also supports arts and cultural learning and events for our city's young people.

The **Public Art** Program integrates artists and their ideas in the design of City facilities, manages the City's portable artworks collection and incorporates art in public spaces throughout Seattle. This program is funded through the 1% for Art program, which by ordinance requires eligible City capital projects to contribute 1% of their budgets to the Municipal Arts Fund for the commission, purchase and installation of public artworks.

Office of Arts and Culture

The **Artwork Conservation** Program supports the City of Seattle's Public Art investment in permanent art. This program provides professional assessment, conservation, repair, and routine and major maintenance of artwork for the City's approximately 400-piece permanently sited art collection.

The **Administrative Services** Program provides executive management and support services for the office; engages in Citywide initiatives, supports the Seattle Arts Commission, a 16-member advisory board that advises the office, The Film and Music Commission, a 21 member advisory board, Mayor and City Council on arts programs and policy; and promotes the role of the arts in economic development, arts education for young people and cultural tourism. Funding within this program also covers basic department overhead costs, including office space, human resources, and IT.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Office of Arts and Culture (ARTS) is funded by admission tax revenue and the 1% for Art Program. This funding supports arts-related programs and capital expenditures to keep artists living and working in Seattle, builds community through arts and cultural events and the placement of public art, and increases arts opportunities for youth. ARTS commits to an anti-racist work practice that centers the creativity and leadership of people of color – those most impacted by structural racism – to move toward systems that benefit us all.

Building on the momentum of the 2019 Adopted Budget, the 2020 Adopted Budget uses admission tax funds strategically to focus on short-term programming and funding opportunities that benefit artists, students, and community members from under-represented groups, and that advance the goals of the City's Race and Social Justice Initiative (RSJI). ARTS will continue racial equity work in 2020 by providing RSJI training to ARTS partners and panel members, updating translations of ARTS' media, and expanding the Creative Strategies Initiatives for racial justice work.

Over the past four years, ARTS has worked with other City departments and community stakeholders to identify opportunities to increase affordability, stabilize cultural communities in flux, and bring equity to the current wave of property development. The 2020 Adopted Budget sustains and strengthens these commitments.

In 2019, ARTS implemented an expanded Cultural Facilities Fund program. This was one way to achieve some of the recommendations of the Create Activate Preserve (CAP) Report released in 2017 and followed recommendations made through a Racial Equity Toolkit analysis of the program in 2018. Changes to the existing fund resulted in the shift of the allocation of resources in community and aimed 80% of the cultural facilities funding towards communities of color.

Office of Arts and Culture

The Tiny Cultural Space program, a program responding to community advocacy around the disposition of “snippet” excess properties and the need for tiny, stand-alone cultural spaces, was launched in 2019 in partnership with the Department of Finance and Administrative Services. Sawhorse Revolution was engaged as a partner and Estelita’s Library was identified as the recipient organization. The tiny space, designed and built by an all-women, youth-of-color cohort from South Seattle, was installed onsite in the Central District in the fall of 2019.

In 2019 the Cultural Space program graduated the first class of its Build Art Space Equitably (B.A.S.E.) certification cohort. This 30-person group, made up entirely of people of color, represented an attempt to knit together the worlds of commercial property development and of arts and culture.

The first large-scale collaboration between ARTS and the Office of Housing was launched in 2019, when the two departments co-issued the Request for Proposals for the “K-Site,” a City-owned piece of property in the Uptown neighborhood. The two offices both offered funding and technical assistance to create a mixed-use project that will contain both affordable housing for those transitioning out of homelessness and a cultural space serving both the building’s tenants and the broader community.

In 2020, ARTS will continue implementation of The Creative Advantage, a racial equity driven arts education initiative led by a public-private partnership that includes ARTS, Seattle Public Schools, The Seattle Foundation, and community arts partners. The Creative Advantage began with 13 schools in 2013-2014 and by the end of the 2019-2020 school year will be operating in 81 schools. The goal is to provide equitable access to sequential and comprehensive arts education to all K-12 students in the 100+ schools within Seattle Public Schools. ARTS is on track to reach this goal by the 2022-2023 school year.

In 2019, ARTS deepened its partnership with Office of Economic Development (OED)/Office of Film and Music (OFM), and DEEL to align investments in education, creative workforce development, creative industry, and arts and culture to create a robust city-wide strategy for Seattle’s creative economy. The City is laying the foundation for a multi-year, multi-pronged approach that will be driven by community and industry needs and evaluated through qualitative and quantitative data. ARTS and partner departments have already begun synthesizing feedback received from the economic reports, industry focus groups, and racial equity toolkits, and have identified key priorities in creative industries work.

As part of the reorganization of the OFM, funding provided by ARTS for some creative economy functions that were housed at OFM/OED will return to ARTS in 2020, but will be dedicated to the same purposes they had been previously. Specifically, funding and support for the Music Commission, as well as a strategic advisor position that supports creative industries work, will stay within ARTS moving forward.

In 2019 ARTS opened a cultural hub on the third floor of King Street Station, preserving historic cultural and affordable space in the heart of the city. At the same time, the ARTS offices moved into the historic building to provide more access to resources for the community. In 2019, ARTS implemented increases in operations and maintenance needed to support operating two cultural facilities. Cultural Facilities Operations is monitoring the needs of the new facility through its inaugural year. The 2020 Adopted Budget adds funding to provide security services needed at ARTS at King Street Station to ensure this new public space is a welcoming and safe place for all, including artists who have artworks on display.

The 2020 Adopted Budget also adds three new positions to ARTS. To ensure that ARTS can carry out its increased programming effectively and reach communities that have not historically benefited from ARTS’ programs, the 2020 Budget adds an executive assistant to the director to help handle ARTS’ expanded programming, partnerships, and new projects like King Street Station and Langston Hughes Performing Arts Institute; a community impact and assessment manager to support ARTS’ creative economy work, manage cross-departmental partnerships, and improve ARTS’ effectiveness through evaluation of race and social justice outcomes; and a community outreach and engagement manager to reach marginalized communities through stronger relationship building as well as other communications and accessibility efforts.

Office of Arts and Culture

City Council Changes to the Proposed Budget

The City Council approved a one-time increase in Admission Tax funding to support free online access to Seattle's historical resources, as well as an ongoing increase to further align the work between the Race and Social Justice Initiative and organizations promoting racial equity. The Council also added one-time General Fund appropriation to ARTS to support expansion of Coyote Central in north Seattle, a creative space for youth and teenagers to explore interests and build skills in creative pursuits. Finally, the Council made a one-time reduction of appropriation supported by Admission Tax by delaying hiring of a new strategic advisor position by three months.

Separately, the Council added appropriation supported by Admission Tax revenue to the Office of Economic Development for a Film and Music Program Lead position.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$279,457

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Office of Arts and Culture

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$4,534

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$21,664

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Community Impact & Assessment Manager

Expenditures \$149,413
Position Allocation 1.00

This item adds a full-time Impact and Assessment Strategic Advisor I to develop data collection and analysis informing program assessment. Programmatic assessment will measure ARTS' impact against racial equity goals, and this position will be closely aligned with the department's Racial Equity Coordinator and other data leads in the department in order to present a full picture of results. This position additionally supports ARTS' creative economy work and provides research and assessment support for partnerships across the City, with other departments and partnering organizations, including Seattle Public Schools.

Community Outreach & Engagement

Expenditures \$161,415
Position Allocation 1.00

The Council altered this proposal in the Adopted Budget by making a one-time reduction equivalent to three months' salary costs by delaying hiring for the position. Refer to the Council Changes section below.

This item adds a community outreach and engagement Strategic Advisor II to address results from using the Racial Equity Toolkit finding the need for more dedicated support to reach communities of color, refugees, and others who have not historically benefited from ARTS' programs. This kind of outreach takes more time and relationship building than traditional modes of media. This position will provide expanded reach for open grants, calls for artists, professional development opportunities, events, and workshops. This position will also support ARTS' Language Access Plan and other accessibility efforts, maintain grants, maintain the website, and other communications needs.

Executive Assistant

Expenditures \$121,607
Position Allocation 1.00

Office of Arts and Culture

This item adds a dedicated Executive Assistant (Admin Staff Analyst) to support the director of the department. ARTS' programmatic scope has grown significantly in recent years, including the Langston Hughes Performing Arts Institute and the ARTS at King Street Station space, as well as new interdepartmental partnerships like the Shape of Trust performances. Demands on the director and the overall internal needs of the department have also grown significantly and require additional administrative support. This position will also act as primary contact and support for the Seattle Arts Commission and Seattle Music Commission.

Security for ARTS at King Street Station

Expenditures \$90,000

This item will pay for security service during public hours at the new ARTS at King Street Station cultural hub. Security is needed at ARTS at King Street Station to ensure this public space is a welcoming and safe place for all, including artists who have artworks on display.

Proposed Technical

Funding Alignment

Expenditures -

This technical change makes net zero corrections to program areas within ARTS' budget. The transfers will correct an inaccurate division created during the conversion to the new PeopleSoft financial system, as well as better align programming.

Position Pocket Move

Position Allocation 1.00

This technical change moves a Strategic Advisor I position from the Office of Economic Development (OED) to ARTS. ARTS currently pays for the full time position via an annual Memorandum of Agreement with OED. Funding for the position comes from Admission Tax. This position supports the departments' creative industries work.

Council

Add \$15,000 of Admissions Tax to ARTS for access to online historical resources

Expenditures \$15,000

The City Council added \$15,000 in one-time Admission Tax funding to the Office of Arts and Culture (ARTS) to support gaps in funding for programs that provide free online access to Seattle's historical resources, such as at HistoryLink.

ARTS annually funds HistoryLink with a \$50,000 contract. If awarded to HistoryLink, the additional one-time funding of \$15,000 would add to the \$50,000 contract for a total of \$65,000 in 2020.

Add \$25,000 of Admissions Tax to ARTS to support racial equity alignment

Expenditures \$25,000

The City Council added \$25,000 in ongoing Admissions Tax funding to the Office of Arts and Culture to further align the work between the Race and Social Justice Initiative and racially equitable organizations serving artists of color, immigrants, and others experiencing structural oppression such as the Martin Luther King Jr. Commemorative Committee (MLKCC).

This funding may be used for investments such as:

- Expansion of the "Turning Commitment into Action" model to include a series on creative strategies for racial

Office of Arts and Culture

justice and equity;

- Strategizing with community organizations and individuals who are vulnerable to cultural displacement due to development and gentrification; and
- Partnering with entities that already have connections to ARTS.

The Council added \$25,000 of one-time funding for this same purpose in the 2019 Adopted Budget. Those funds were awarded to Urban League to partner with MLKCC to organize and host the community-focused celebration of the life of and recognition of the assassination of MLK Jr. This Council change provides ongoing funding for this purpose.

Expand Coyote Central program to the Lake City neighborhood

Expenditures \$50,000

The City Council added one-time funding of \$50,000 General Fund to both the Office of Arts and Culture (ARTS) and Finance General (FG) to support the expansion of Coyote Central to the Lake City neighborhood. FG will transfer the General Fund moneys to ARTS for this work. This funding will contribute to a new building, "Coyote North," which will have a dedicated performing arts center, hold classes, provide activities, and give access to professional artists for youth living in the North End.

Coyote Central is a creative space for youth and teenagers to explore interests and build skills in creative pursuits through hands-on projects. Coyote North is currently raising funds to meet their capital and programming goal of \$2.4 million. Coyote North applied to ARTS for funding through its Cultural Facilities Fund competitive process and has been awarded \$90,000. This item gives Coyote North a total award of \$140,000.

Cut \$31,413 in Admissions Tax from ARTS and delay hiring of one new position by three months

Expenditures \$(31,413)

The City Council cut \$31,413 in Admission Tax funds from the Office of Arts and Culture (ARTS) by delaying hiring for the new Strategic Advisor II position add by three months.

Film and Music Program Lead

Expenditures -

The City Council added \$116,291 in ongoing Admission Tax funds to the Office of Economic Development (OED) for a full-time Film and Music Program Lead, a Strategic Advisor I, to focus on managing film and music program functions. This action did not change ARTS' budget appropriation. Since 2012, the film and music program functions have been managed by a Film and Special Events Manager in OED. Separating the duties into two assignments will allow more staff capacity to focus on the film industry and add music to the portfolio. The responsibilities of the new position include but are not limited to: providing policy guidance related to the film and music industries; overseeing coordination of film permitting; advising the director of OED, the Special Events Committee, and Creative Industry Cluster Director on film and music policies.

Seattle Parks and Recreation

Jesús Aguirre, Superintendent

(206) 684-4075

<http://www.seattle.gov/parks/>

Department Overview

Seattle Parks and Recreation (SPR) works with all residents to be good stewards of the environment and to provide safe, welcoming opportunities to play, learn, contemplate, and build community. SPR manages a [6,400-acre park system of over 485 parks](#) and extensive natural areas. SPR provides athletic fields, tennis courts, play areas, specialty gardens, and more than 25 miles of boulevards and 120 miles of trails. The system comprises about 12% of the city's land area. SPR also manages many facilities, including 26 [community centers](#), eight [indoor swimming pools](#), two [outdoor \(summer\) swimming pools](#), four [environmental education centers](#), two [small craft centers](#), four [golf courses](#), an outdoor stadium, and much more. The Woodland Park Zoological Society operates the zoo with City financial support, and the Seattle Aquarium Society operates the City-owned Seattle Aquarium.

Department employees work hard to develop partnerships with park neighbors, volunteer groups, non-profit agencies, local businesses, and Seattle Public Schools to effectively respond to increasing requests for use of Seattle's park and recreation facilities. Perhaps the most significant partnership is with the Associated Recreation Council (ARC) which provides child care and supports recreation programs at SPR-owned facilities, including community centers and small craft centers. ARC, a non-profit organization, also supports and manages the recreation advisory councils. These advisory councils are made up of volunteer community members who advise SPR's staff on recreation programming at community centers and other facilities. This collaborative relationship with ARC enables the department to offer quality child care and a wide range of recreation programs to the public.

SPR's funding is a combination of tax dollars from the City's General Fund, Seattle Park District funds, Real Estate Excise Tax and revenue from a variety of other sources including grants, user fees and rental charges. Funding for new parks facilities historically came from voter-approved levies. In 2014, Seattle voters approved the formation of a new taxing district known as the Seattle Park District. Property taxes collected by the Seattle Park District provide funding for City parks and recreation including maintaining parklands and facilities, operating community centers and recreation programs, and developing new neighborhood parks on previously acquired sites.

Seattle Parks and Recreation

Budget Overview

The 2020 Adopted Budget maintains resources to Seattle Parks and Recreation (SPR) and identifies efficiencies to implement budget-neutral staffing changes across the department. In addition, the adopted budget allocates funding to cover increasing costs associated with utility expenses and other citywide adjustments; adds funds to expand existing operations and recreation programming; updates the Capital Improvement Program to reflect planned spending in 2020; and implements technical changes to adjust revenues and expenditures within SPR's budget.

Identifying Efficiencies to Improve Service Levels

SPR closely examined its operations to find efficiencies within existing budget. As a result, the 2020 Adopted Budget implements a number of changes to improve service levels and help the department keep up with increasing demand at its recreation facilities. These changes are budget neutral and include:

- repurposing funding to equalize service levels at 22 wading pools and allow SPR to invest in other aquatic equity initiatives like eliminating the low-income swimming fee;
- adding permanent staffing at the Arboretum Loop Trail, Japanese Garden, and the 24-Hour Call Center;
- realigning staffing to better reflect the evolving needs of various programs and divisions;
- formalizing a commitment to the Teen Summer Musical and other performing arts programs by establishing a dedicated funding source for this work; and
- expanding SPR's administrative capacity and ongoing efforts to measure performance quality across the organization.

Expanding and Enhancing Operations

The 2019-2020 budget added \$150,000 of Sweetened Beverage Tax funding to SPR for youth recreation scholarships. In 2020, SPR will receive additional funding to expand the number of Destination Summer Camp locations and to add hours for Summer of Safety programming at existing sites. In 2020, funding from the Sweetened Beverage Tax will be budgeted in a new Sweetened Beverage Tax Fund per [Ordinance 125886](#).

The 2019 Third Quarter Supplemental Budget Ordinance added partial funding for SPR to partner with the Associated Recreation Council (ARC) to add staffing capacity at community centers. The 2020 Adopted Budget provides the ongoing funding and position authority to hire 3.5 permanent Assistant Coordinator positions. The adopted budget also adds ongoing funding to expand the RV Remediation Program; this funding will cover SPR's portion of the costs and provide additional staff hours and backfill support.

Updating the Capital Improvement Program

In 2019, Outdoors for All was awarded an RFP to renovate Building 18 at Magnuson Park to serve as the organization's future headquarters. Outdoors for All enriches the quality of life for children and adults with disabilities through outdoor recreation. The 2020 Adopted Budget includes \$1,000,000 of one-time funding in SPR's Capital Improvement Program (CIP) to assist Outdoors for All with capital renovations at the facility.

SPR's 2020 baseline budget includes \$808,000 of ongoing Community Development Block Grant (CDBG) funding to support the Seattle Conservation Corps. The 2020 Adopted CIP will provide an additional \$700,000 of one-time CDBG funds for ADA compliance; this will supplement existing funding for this work in 2020 and further advance SPR's efforts to make parks and recreation facilities more accessible to all.

In addition, the 2020-2025 Adopted CIP has been updated to reflect anticipated revenue in 2020 from the King County Conservation Futures Tax, transfer ongoing Municipal Energy Efficiency Program funding from the

Seattle Parks and Recreation

Department of Finance and Administrative Services to SPR's budget, and shift funding for the Aquarium Expansion from 2020 to 2021 to reflect an updated spending plan.

Other Changes

Since 2014, SPR has received approximately \$2,000,000 per year from the King County Parks Levy to fund capital projects such as play area and comfort station renovations. The 2014 King County Parks Levy ended in 2019 and was renewed by voters in August 2019. During the 2019-2020 budget process, SPR temporarily removed funding associated with the King County Parks Levy from its Capital Improvement Program and added a placeholder in its operating budget. Now that the levy has been renewed, the 2020 Adopted Budget removes this placeholder from SPR's operating budget and adds the baseline funding back to the 2020-2025 Capital Improvement Program. Finally, the adopted budget adds funding to SPR to account for increasing utility expenses, annual wage adjustments, and other internal service cost changes.

City Council Changes to the Proposed Budget

The Council made several changes to SPR's proposed budget including:

- providing one-time funding for a study to assess the recreational needs of the Aurora-Licton Springs area, including the cost to build a facility that would best serve the neighborhood's needs (\$150,000);
- providing one-time funding for SPR to contract with a nonprofit organization dedicated to empowering native youth to live healthy lives through sports (\$150,000);
- redirecting ongoing funding from SPR's capital budget for comfort station renovations to SPR's operating budget in order to expand shower services for homeless individuals at community centers (\$244,000);
- increasing SPR's Sweetened Beverage Tax funding to provide water filling stations at community centers (\$300,000); and
- freeing up ongoing general fund resources from SPR's operating budget by backfilling it with King County Parks Levy funding that will be cut from SPR's capital budget for play area renovations (\$500,000).

Total 2020 Adopted Budget **\$261,936,990** **939.68**

Description of Incremental Budget Changes

Baseline

Elliott Avenue Lease Costs

Expenditures \$350,000

In 2019, SPR executed a new lease at 300 Elliott Avenue West, commonly known as Elliott Bay Office Park. This item provides ongoing funding for Parks to cover increased lease costs.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,203,524

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Restore Baseline Funding from the King County Parks Levy (Operating)

Expenditures \$(1,399,238)

Revenues \$(1,399,238)

This item removes funding temporarily added to the Park and Recreation Fund as a placeholder for the 2020 King County Parks Levy. The 2020 Endorsed Budget balanced revenues and expenditures in the Park and Recreation Fund for projects historically funded by the levy with the expectation that the budget would transfer back to the King County Parks Levy fund once approved at the ballot by voters in August 2019. Now that the levy has passed, SPR is removing these revenues and expenditures from the Park and Recreation Fund and will re-appropriate them from

Seattle Parks and Recreation

the King County Parks Levy fund in their Capital Improvement Program via a separate budget adjustment (see below).

Restore Baseline Funding from the King County Parks Levy (Capital)

Expenditures	\$2,163,000
Revenues	\$2,249,000

This item appropriates funding from the 2020 King County Levy in SPR's Capital Improvement Program. SPR receives approximately \$2.2 million in revenue per year to fund capital projects such as play areas and comfort stations. Ongoing funding from the 2014 King County Levy was temporarily removed from the 2020 Endorsed Budget pending approval of a new levy by voters in 2019. This change restores King County Parks Levy funding in SPR's baseline capital budget beginning in 2020. The revenue budget is slightly higher than the expenditure budget in 2020 to cover a small, unfunded balance remaining in the endorsed budget.

Technical Adjustment

Expenditures	-
--------------	---

This item includes budget-neutral technical adjustments to align project coding and account categories.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures	\$6,707,816
--------------	-------------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. SPR will receive General Fund (\$3,886,356) to help support this increase. Remaining funding will come from the Park and Recreation Fund (\$1,577,165) and the Park District Fund (\$1,244,295).

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures	\$100,253
--------------	-----------

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

2020 Baseline CIP Adjustment

Expenditures	\$(500,000)
--------------	-------------

This technical CIP adjustments applies Council changes made during 2019 to the "out years" (2020-2024) of the CIP projects. This change reestablishes the budget from which the 2020-2025 Adopted CIP incremental changes are applied.

Seattle Parks and Recreation

Proposed Operating

Repurpose Funding for Aquatic Equity Initiatives

Expenditures	\$(45,475)
Revenues	\$(45,475)

SPR currently has 22 wading pools in a variety of parks around the city. The level of service provided at these pools has fluctuated since 2017 based on budget decisions and stabilized in 2019 with 22 pools in service for approximately 709 operating days per year. During the 2019-2020 budget process, Council allocated additional budget to SPR to further increase service levels in 2020 to an unspecified number of operating days. The 2020 Adopted Budget will use some of these funds to maintain current service levels (22 pools and 709 days), providing a consistent operating schedule for the community and staff. The remaining funds will be redirected to more impactful, equity-focused investments in aquatic programming. Specifically, Parks will eliminate the low-income swim fee at all pools and expand the lifeguard training program with a focus on recruiting diverse, low-income youth to participate in the program. Eliminating the fee will result in an ongoing reduction in SPR's total revenue and associated expenditure authority, estimated at \$45,475 in 2020.

Add Maintenance Staff at the Arboretum Loop Trail

Expenditures	-
Position Allocation	2.00

The 2019 Adopted Budget provided ongoing funding for costs associated with the Arboretum Loop Trail. In 2019, these funds were used to hire temporary labor to assist with initial planting and restoration work. Now that this work is complete, SPR will reallocate the funding to hire two permanent positions who will address ongoing maintenance needs. This adjustment adds FTE authority for one full-time Maintenance Laborer and one full-time Gardener.

Add Dispatcher Position at the 24-Hour Call Center

Expenditures	-
Position Allocation	1.00

In 2019, SPR implemented a 24-Hour Call Center to receive and dispatch staff for maintenance services and emergency responses. Two of three Dispatchers were hired, and Parks has used part-time and intermittent labor to cover the third eight-hour shift. This proposal reallocates the budget for temporary and part-time labor to hire a permanent, full-time Dispatcher position to cover this shift.

Make a Temporary Position Permanent at the Japanese Garden

Expenditures	-
Position Allocation	0.75

This item reallocates funding within SPR's budget and provides FTE authority to make a temporary, part-time Gardener position permanent at the Japanese Garden. This change is expected to result in more reliable, higher-quality service in response to the growing number of annual visitors at the facility.

Realign Staffing for Event Scheduling

Expenditures	-
Position Allocation	(0.25)

This adjustment abrogates a vacant, 0.5 FTE Event Scheduler position and reallocates the funding to better align staffing with the service needs of the Event Scheduling unit. With this funding, SPR will increase an existing 0.75 FTE

Seattle Parks and Recreation

Special Event Coordinator to full time and increase the unit's budget to hire temporary staff who will support peak season workload needs.

Realign Concrete & Playground Crew

Expenditures	-
Position Allocation	-

This proposal realigns the Concrete & Playground Crew into two distinct crews based on their respective bodies of work. An existing vacant position will be reclassified to a Crew Chief to oversee the Play Area Crew and position costs increases will be covered within existing budget.

Realign Teen Life Center Staffing

Expenditures	-
Position Allocation	0.75

This item adjusts Teen Life Center staffing to better reflect changing usage, including the growing number of youth served at the Southwest Teen Life Center facility. The 2020 Adopted Budget adds one 0.75 FTE Recreation Leader position to the Southwest Teen Life Center and reclassifies one position into a Senior Recreation Program Specialist to take on more unit-wide duties across the three Teen Life Center sites. This is a budget neutral change funded by repurposing existing resources.

Restructure SPR's Youth Employment Program

Expenditures	\$12,550
Revenues	\$12,550
Position Allocation	0.50

The adjustment makes budget neutral changes to combine two programs, Youth Employment and Service Learning and the Youth Career Training Program, under one supervisor. To implement this restructure, Parks will reclassify two positions and increase one half-time position to full time. These changes will result in one Recreation Coordinator who will supervise both programs and increase staffing capacity at the program implementation level. Position cost increases will be funded by repurposing existing budget within the division and recognizing \$12,550 of unbudgeted program revenues.

Create a Teen Performing Arts Project

Expenditures	\$8,000
Revenues	\$8,000
Position Allocation	-

The Teen Summer Musical at the Langston Hughes Performing Arts Institute engages 80+ youth each summer in nine weeks of structured, day-long programming related to theater and the performing arts. It is a flagship annual program that has never had a formal budget in the SPR department and instead relied on one-time funding and other discretionary resources. The 2020 Adopted Budget formalizes a commitment to the Teen Summer Musical and other teen performing arts programming by creating a permanent funding source for this work through the reallocation of existing budget and recognition of \$8,000 of unbudgeted program revenue.

Seattle Parks and Recreation

Increase Administrative Staff Analyst Capacity

Expenditures	-
Position Allocation	1.00

This item increases the hours of two half-time Administrative Staff Analyst positions in the Parks and Environment Division to better support the operational and administrative needs of the division. SPR will reallocate funding from its budget for part-time and temporary labor to make these positions full time; one position will add capacity to support increasingly complex labor coding and data cleanup and the second position will support the Environmental and Education and Sustainability Unit with miscellaneous daily tasks.

Expand Program Performance and Quality Efforts

Expenditures	-
Position Allocation	-

This item reclassifies one position from a Senior Recreation Program Specialist to a Management Systems Analyst to expand the department's efforts to assess and improve program quality and participant outcomes across the Recreation Division. SPR is reallocating existing budget to cover the salary difference.

Expand Recreation Programming with Sweetened Beverage Tax Funds

Expenditures	\$150,000
--------------	-----------

The 2020 Adopted Budget adds \$150,000 of Sweetened Beverage Tax funds to Seattle Parks and Recreation to expand two programs keeping youth safe and active in structured recreation programming during the summer: Destination Summer Camps and Summer of Safety.

Destination Summer Camps are highly subsidized, low-fee activity camps sited in low-income neighborhoods. In 2018, the department piloted this program with external funding at Garfield Community Center and had more than 580 program registrations. Funding from the Sweetened Beverage Tax will provide a sustainable funding source for this program and allow for expansion to additional sites in Southeast Seattle.

The Summer of Safety program provides free, structured recreation for youth not otherwise engaged in formal programming. The program is currently offered at four locations 3-4 days per week. Sweetened Beverage Tax funding will allow these sites to operate five days per week.

Leverage ARC funds to add Assistant Coordinators

Expenditures	\$150,000
Revenues	\$150,000
Position Allocation	3.50

This item adds 3.5 Assistant Coordinator positions to support growing recreation programming needs at community centers, funded in part by an annual contribution from the Associated Recreation Council (\$150,000) and by reducing SPR's budget for temporary staffing. Partial funding for these positions was approved in the 2019 Second Quarter Supplemental Budget Ordinance. This adjustment provides the ongoing budget and FTE authority to hire the permanent positions.

RV Remediation Expansion

Expenditures	\$100,000
--------------	-----------

This adjustment adds \$100,000 for an expansion of the RV remediation program. This funding will provide for the SPR portion of the expansion to additional sites that are not currently covered by the City's RV remediation program.

Seattle Parks and Recreation

Add Funding to Cover Utility Rate Increases

Expenditures \$1,000,000

This item appropriates \$1 million of one-time funding from the Park and Recreation Fund to cover utility rate increases. Utilities include sewer, drainage, water, electricity, gas, and recycling. Seattle Public Utilities has been increasing utility rates annually and SPR is not adequately budgeted for the increasing expenses, particularly drainage costs. The department's total budget for utilities is \$13.7 million in 2019 and 2020 but utility costs already exceeded this amount by \$400,000 in 2018. SPR will evaluate actual operating costs in 2020 and propose a longer-term solution as part of its development of the next six-year Park District financial plan.

Proposed Capital

Adjust Aquarium Expansion Funding

Expenditures \$(936,000)

This item adjusts the timing of the City's funding commitment to the Aquarium Expansion project to align with the spending plan of the Seattle Aquarium Society. This change moves \$936,000 of REET I funding from 2020 to 2021 (\$448,000) and 2022 (\$488,000) based on the most current projected spending plan; it does not affect the total project cost. In addition, this item shifts \$300,000 of REET 1 funding to REET 2 funding in 2020.

Add Community Development Block Grant Funding for ADA Compliance

Expenditures \$700,000

Revenues \$700,000

This item adds \$700,000 of one-time Community Development Block Grant funding to the ADA Compliance project in SPR's Capital Improvement Program. This funding supplements \$1,000,000 of Real Estate Excise Tax (REET) in the CIP in 2020 and will further SPR's efforts to implement ADA improvements at a number of SPR facilities.

Add Funding for Outdoors for All

Expenditures \$1,000,000

Outdoors for All enriches the quality of life for children and adults with disabilities through outdoor recreation. In March 2019 through a RFP process, Outdoors for All was awarded the right to renovate and use Building 18 for its future headquarters. This item adds \$1 million to SPR's budget as an award from the Mayor's Office to Outdoors for All to help fund capital improvements necessary to renovate the building.

Transfer Municipal Energy Efficiency Improvement Funding

Expenditures \$881,449

This change transfers the Municipal Energy Efficiency Program (MEEP) funding to Seattle Parks and Recreation for 2020. Previously, this funding was budgeted centrally in the Department of Finance and Administrative Services. MEEP is managed by the Office of Sustainability and Environment in support of the City's goal to reduce building energy use.

Add Park Land Acquisition CFT Funding

Expenditures \$1,500,000

Revenues \$1,500,000

This item adds \$1.5 million to the Park Land Acquisition project in 2020; this funding is backed by revenue from the King County Conservation Futures Tax (CFT).

Seattle Parks and Recreation

Proposed Technical

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886 and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero.

Waterfront LID Fund - Technical Adjustment

Expenditures -

This adjustment shifts project costs from the Central Waterfront Improvement Fund (35900) to the new Waterfront LID Fund (35040) that was established during the Waterfront LID formation in early 2019.

Other Technical Changes

Expenditures	\$79,797
Position Allocation	1.05

Technical adjustments include modifications that do not represent fundamental changes in SPR's service delivery. SPR adjusts revenue and expense budgets between or within budget control levels to better reflect actual spending patterns. These technical adjustments include the following changes:

- align positions with projects based on actual workload;
- reconcile position titles with the Human Resources Information System (HRIS); and
- shift supply budgets, temporary staffing, and FTE among divisions to reflect actual spending and staffing needs.

Council

Feasibility Study for an Aurora-Licton Springs Community Center

Expenditures \$150,000

This change adds \$150,000 of fund balance from SPR's Park and Recreation Fund to fund a feasibility study to assess the recreation and community gathering and meeting space needs of the Aurora-Licton Springs neighborhood. The study will examine the type of facility that would best serve the neighborhood's needs, and the cost of securing such a facility.

Funding for American Indian and Alaska Native Youth Development

Expenditures \$150,000

The Council added \$150,000 of one-time funding to contract with a non-profit organization dedicated to empowering native youth to live healthy lives by providing awareness, prevention and character enrichment using sports as a modality, such as Rise Above, to increase mentorship opportunities through the delivery of culturally relevant, pro-social interactions with tribal youth.

Seattle Parks and Recreation

Expand Shower Services at Community Centers

Expenditures -

This item cuts \$244,000 in King County Levy funding from SPR's Comfort Station Renovation CIP project and redirects it to SPR's operating budget to expand shower services for homeless individuals at community centers. The additional operating funding will add hours for shower services at two community centers (\$169,000); implement a disposable, compostable towel pilot program (\$65,000); and allow for repairs and maintenance associated with the increased use of showers at these centers (\$10,000).

Reduce Ongoing Funding for Play Area Renovations

Expenditures \$(500,000)

This item frees up \$500,000 of ongoing General Fund from the Seattle Parks and Recreation operating budget by backfilling it with King County Parks Levy funding that is cut from SPR's capital budget for play area renovations.

Redirect Sweetened Beverage Tax to support multiple food and education programs

Expenditures \$300,000

This multi-department change reduces one-time Sweetened Beverage Tax (SBT) support for capital improvements in the P-Patch program in the Department of Neighborhood from \$3,000,000 to \$725,000, a \$2,275,000 decrease. The funding is redirected to food and education programs. The changes to the food and education programs are included in the Department of Education and Early Learning, Human Services Department, and Office of Environment and Sustainability sections of the budget book. The increase to Seattle Parks and Recreation includes the following:

- \$300,000 for the installation of water bottle filling stations at community centers.

SPR - BC-PR-60000 - SR520 Mitigation

The purpose of the SR520 Mitigation BSL is to account for projects resulting from SR520 construction impacts.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
SR520 Mitigation	2,250,845	-	-	-
Total	2,250,845	-	-	-

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPR - BO-PR-10000 - Cost Center Maintenance and Repairs

The purpose of the Cost Center Maintenance and Repairs Budget Summary Level is to repair and maintain parks, park buildings, and park infrastructure.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
M&R Grounds Crews	23,171,292	23,287,013	24,724,210	26,304,061
M&R Shops Crews	9,845,099	10,051,507	10,264,355	12,005,708
M&R Specialty Crews	4,007,067	4,503,858	4,574,807	5,119,913
Total	37,023,457	37,842,378	39,563,372	43,429,682
Full-time Equivalents Total*	153.78	163.44	165.42	170.67

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Cost Center Maintenance and Repairs Budget Summary Level:

Seattle Parks and Recreation

M&R Grounds Crews

The purpose of the M&R Grounds Crews Budget Program Level is to provide custodial, landscape, and forest maintenance and restoration services.

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
M&R Grounds Crews	23,171,292	23,287,013	24,724,210	26,304,061
Full Time Equivalents Total	72.87	76.53	78.51	80.01

M&R Shops Crews

The purpose of the M&R Shops Crews Budget Program Level is to repair and maintain park buildings and infrastructure so that park users can have safe, structurally sound, and attractive parks and recreational facilities.

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
M&R Shops Crews	9,845,099	10,051,507	10,264,355	12,005,708
Full Time Equivalents Total	54.86	55.86	55.86	56.36

M&R Specialty Crews

The purpose of the M&R Specialty Crews Budget Program Level is to provide centralized management of natural areas and developed parks including forest restoration, urban forestry, wildlife management, trails, and grass and turf management.

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
M&R Specialty Crews	4,007,067	4,503,858	4,574,807	5,119,913
Full Time Equivalents Total	26.05	31.05	31.05	34.30

SPR - BO-PR-20000 - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology, and business support to the department.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	8,291,954	15,442,853	13,240,226	12,121,935
Departmental Indirect Costs	13,441,022	9,337,469	9,517,899	12,257,138
Divisional Indirect Costs	7,449,384	8,243,916	8,129,898	9,110,939
Indirect Cost Recovery Offset	(18,244,044)	(3,743,690)	(3,743,777)	(3,879,094)

Total	27,351,929	32,227,622	30,207,116	32,223,220
Full-time Equivalents Total*	114.74	118.54	118.54	120.59

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Parks and Recreation

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services, Seattle Information Technology Department, and the Department of Human Resources.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Citywide Indirect Costs	8,291,954	15,442,853	13,240,226	12,121,935

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Budget Program Level is to provide executive, financial, communications, human resources and business support and strategic planning an analysis to the departments.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Departmental Indirect Costs	13,441,022	9,337,469	9,517,899	12,257,138
Full Time Equivalents Total	73.25	77.05	77.05	78.10

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Budget Program Level is to provide managerial and administrative support for operating divisions. The Budget Program also provides planning and development support to develop new park facilities, and make improvements to existing park facilities to benefit the public.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Divisional Indirect Costs	7,449,384	8,243,916	8,129,898	9,110,939
Full Time Equivalents Total	41.49	41.49	41.49	42.49

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery program is to recover costs associated with indirect programs within Leadership and Administrative BSL from the department's direct cost programs. This program does not fully recover Leadership and Administration BSL costs.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Indirect Cost Recovery Offset	(18,244,044)	(3,743,690)	(3,743,777)	(3,879,094)

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Pooled Benefits	16,413,614	2,947,074	3,062,869	2,612,301

Seattle Parks and Recreation

SPR - BO-PR-30000 - Departmentwide Programs

The purpose of the Department-Wide Services Budget Summary Level is to provide management and operations of services that span across multiple lines of business within Seattle Parks and Recreation such as partner relationship management, emergency operations, and security services.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmentwide Other	1,768,606	1,743,066	1,761,195	1,514,086
Partnerships - Departmentwide	5,065,034	5,168,958	5,204,189	5,217,525
Total	6,833,640	6,912,024	6,965,384	6,731,611
Full-time Equivalents Total*	31.19	28.69	28.69	28.69

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Departmentwide Programs Budget Summary Level:

Departmentwide Other

The purpose of the Departmentwide-Other Budget Program Level is to provide emergency management and safety services at park facilities.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmentwide Other	1,768,606	1,743,066	1,761,195	1,514,086

Seattle Center

Robert Nellams, Director

(206) 684-7200

<http://www.seattlecenter.com/>

Department Overview

Seattle Center is home to cultural and educational organizations, sports teams, festivals, community programs (including cultural and community celebrations), and entertainment facilities. Millions of people visit the 74-acre Seattle Center campus annually. Consistently rated as one of the City's top attractions, Seattle Center is a premier urban park whose purpose is to create exceptional events, experiences, and environments that delight and inspire the human spirit and build a stronger community.

The history of Seattle Center dates back to a time well before it existed as a City department in its current form. Prior to the 1850s, the land on which Seattle Center sits was a part of a Native American trail which was later homesteaded by the David Denny family and eventually donated to the City of Seattle. In 1927, the new Civic Auditorium, now Marion Oliver McCaw Hall, and Arena were constructed with funding from a levy and a contribution from a local business owner. In 1939, a large military Armory was constructed. In 1948, the Memorial Stadium was built and the Memorial Wall was added in 1952. Finally, in 1962, the community pulled together these facilities and added new structures to host the Seattle World's Fair/Century 21 Exposition. At the conclusion of the fair, the City took ownership of most of the remaining facilities and campus grounds to create Seattle Center. Since its creation in 1963, Seattle Center has nurtured artistry and creativity by providing a home for and technical assistance to a wide variety of arts and cultural organizations. These tenants play a critical role in the arts and cultural landscape of the region.

Seattle Center is undergoing major changes with the renovation of the Arena, which began in 2019. Following an RFP process, the City selected Oak View Group (OVG)/Seattle Arena Company (ArenaCo) to renovate the Arena using private funding. When the building reopens in 2021, ArenaCo will operate the building. The new building will be capable of hosting both NHL hockey and NBA basketball, and will continue to house the WNBA's Seattle Storm as well as a variety of concerts, family shows, and other events.

Seattle Center is financed by a combination of tax dollars from the City's General Fund and revenue earned from commercial operations. Major sources of commercial revenues include facility rentals, parking fees, long-term leases to non-profit organizations, sponsorships, food sales, and monorail fares.

Due to the size and importance of commercial revenues, Seattle Center confronts many of the same market factors that other businesses do. Changing consumer preferences, fluctuating demand, and the many options customers have in terms of discretionary spending all influence the financial performance of Seattle Center. Seattle Center's situation is also unique in that it must meet the simultaneous financial challenges of competition with other facilities that host events; the presence on campus of long-term, non-profit tenants; and the need to balance its public and private event offerings.

Seattle Center

Budget Overview

Seattle Center is in the midst of one of the largest transformations to touch the campus since the 1962 Seattle World's Fair. In late 2018, the City signed an agreement with Seattle Arena Company (ArenaCo) based on the City's 2017 Memorandum of Understanding (MOU) with Oak View Group (OVG) to invest over \$600 million of private resources to redevelop Seattle Center's largest venue, KeyArena, into a state-of-the-art, world-class sports and entertainment facility capable of hosting a range of events from touring concerts to NBA/WNBA basketball and NHL hockey. The Arena is now closed for redevelopment until 2021. When the Arena reopens, Seattle Center will no longer operate the revitalized venue.

The redevelopment and shift in management of KeyArena fundamentally changes Seattle Center's operating model. While the Arena is closed, Seattle Center is operating at a deficit. As part of the 2019 Adopted Budget, Council passed legislation authorizing Seattle Center to draw on a temporary interfund loan. Per the lease agreement with ArenaCo, when the Arena reopens, ArenaCo will make annual rent payments to the City. Seattle Center will receive a share of any increased revenue associated with sponsorships and parking receipts. These future revenue streams will help to repay the loan.

To protect the City's interests during Arena construction, proper monitoring of project finances is necessary. The 2020 Adopted Budget adds resources to engage a consultant with the expertise to ensure that ArenaCo maintains appropriate balances in equity accounts and/or letters of credit as construction proceeds.

All funding for Arena operations was removed in the 2019 Adopted Budget. In 2019, remaining KeyArena staff were moved into Seattle Center vacancies with different campus work responsibilities. Continuing the transition plan's 2019 staff reductions, five vacant positions will be eliminated in 2020.

Safety concerns have increased around the Seattle Center campus along with the rapid growth occurring in the surrounding neighborhood. Along with increased foot traffic during evening and nighttime hours, incidents requiring the involvement of Seattle Center security officers have grown in frequency. The 2020 Adopted Budget adds security staffing so that swing and graveyard shift security staff can patrol the 74-acre campus in teams.

Seattle Center

While the Arena is being redeveloped, Seattle Center is maintaining robust programming in its other facilities. These include concerts and festivals held on campus grounds, as well as events at McCaw Hall hosted by its resident tenants, the Seattle Opera and the Pacific Northwest Ballet, and other groups. In 2019, the department increased parking rates and facility rental fee ranges at several campus venues to better reflect market rates and maximize commercial revenues when possible. Facilities affected include McCaw Hall, the Armory Loft, the Exhibition Hall, and Fisher Pavilion.

Seattle Center's Capital Improvement Program (CIP) includes several major investments to address deferred maintenance needs across the campus. In addition to the continuation of critical asset preservation work, major planned outlays include International Fountain and Dupen Fountain renovations; maintenance, seismic upgrades, and elevator renovations in Mercer Garage; relocating Seattle Center's skatepark; and replacing the Cornish Playhouse roof. See Seattle Center's 2020-2025 Adopted CIP Overview for more information on capital projects.

City Council Changes to the Proposed Budget

The Council adopted corrections to errata in the 2020 Proposed Budget and the 2020 – 2025 Proposed CIP identified by the City Budget Office and Central Staff after the Proposed Budget was transmitted to the City Council.

Total Incremental Changes	\$4,064,859	(2.50)
Total 2020 Adopted Budget	\$50,473,568	225.23

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$2,147,640

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Seattle Center

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$35,244

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$366,825

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Arena Construction Financial Oversight

Expenditures \$600,000

This item adds one-time funding to engage a consultant with expertise in construction finances. The City needs continued monitoring and financial due diligence during construction of the new Arena to ensure that ArenaCo is maintaining the proper balances in equity accounts created to protect the City's interest in successful completion of the project. This work requires specialized expertise that City staff do not possess. An independent, third party would review ArenaCo's updates on project budget and material change orders, and have access to construction records to provide the City with advance notice of potential major delays or cost overruns.

Overnight Safety Initiative

Expenditures \$184,045

Position Allocation 2.00

These Security Officer positions will augment Seattle Center's graveyard and swing shifts where staffing levels are currently lower than at other parts of the day. Along with rapid growth of the surrounding neighborhood, Center has seen an increase in the number of incidents requiring involvement of its security officers. This increase will allow for officers on those shifts to patrol in teams.

Proposed Capital

Municipal Energy Efficiency Projects - Seattle Center

Expenditures \$526,105

This change transfers the Municipal Energy Efficiency Program (MEEP) funding to Seattle Center for 2020. Previously, this funding was budgeted centrally in the Department of Finance and Administrative Services. MEEP is managed by the Office of Sustainability and Environment in support of the City's goal to reduce building energy use. In 2020, Seattle Center will use these funds for LED retrofitting at the 5th Avenue N Garage and Seattle Repertory Theatre, and HVAC upgrades at the Armory.

Proposed Technical

Seattle Center

Budget Realignment

Expenditures -

This technical change shifts \$1,313,304 in budget authority from the Leadership and Administration BSL to the Campus Grounds Budget Program in the Campus BSL. This is a more accurate representation of where those funds are actually spent.

Elimination of Vacant Positions

Expenditures -

Position Allocation (4.50)

This technical change eliminates five vacant positions. These positions were identified and unfunded in the staffing transition plan for the 2019 Adopted Budget. They were not eliminated at that time to allow for attrition to address staffing reductions rather than laying off staff. Since that time, these positions have been vacated and Seattle Center is eliminating the position authority.

Laborer Expense Adjustment

Expenditures -

This technical change adjusts expenses for laborers who will be assigned to a different low org. This proposal moves \$768,424 in funding for them from one low org to another.

Council

Errata Corrections to the Proposed Budget and CIP

Expenditures \$205,000

Revenues \$205,000

The Council adopted corrections to the 2020 Proposed Budget and the 2020 – 2025 Proposed Capital Improvement Program (CIP) identified by the City Budget Office and Central Staff after the Proposed Budget was transmitted to the City Council.

Correction 1. Added \$205,000 appropriation for project manager time for the Seattle Center Public Gathering Space Improvements CIP (MC-SC-S9902). The appropriation authority is in the Seattle Center Fund (11410). This corresponds to appropriations from the Seattle Center Fund shown on the CIP project page for Public Gathering Space Improvements - MC-SC-S9902. The expense will be fully reimbursed by ArenaCo.

Correction 2. Added \$205,000 revenue from reimbursements by ArenaCo, in accordance with Section 15.5 of the Development Agreement between the City of Seattle and ArenaCo for the Arena at Seattle Center (Ordinance 125669). This revenue will pay for the project manager time described above in Correction 1. This corresponds to Private Funding/Donations shown under Resources on the CIP project page for Public Gathering Space Improvements - MC-SC-S9902.

*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

The following information summarizes the programs in Campus Budget Summary Level:

Access

The purpose of the Access Program is to provide the services needed to assist visitors in coming to and traveling from the campus, while reducing congestion in adjoining neighborhoods. Program services include operating parking services, maintaining parking garages, managing the Seattle Center Monorail, and encouraging use of alternate modes of transportation.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Access	1,817,096	1,239,189	1,253,938	1,335,314
Full Time Equivalents Total	9.71	9.71	9.71	9.71

Campus Grounds

The purpose of the Campus Grounds Program is to provide gathering spaces and open-air venues in the City's urban core. Program services include landscape maintenance, security patrols and lighting, litter and garbage removal, recycling operations, hard surface and site amenities maintenance, management of revenues associated with leasing spaces, and food service operations at the Armory.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Campus Grounds	15,198,941	12,293,531	12,475,727	15,618,940
Full Time Equivalents Total	82.15	124.00	124.00	126.50

Seattle Center

Commercial Events

The purpose of the Commercial Events Program is to provide the spaces and services needed to accommodate and produce a wide variety of commercial events, both for profit and not for profit, and sponsored and produced by private and community promoters.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

Seattle Public Library

Marcellus Turner, Executive Director and Chief Librarian

(206) 386-4636

<http://www.spl.org>

Department Overview

The Seattle Public Library, founded in 1891, includes the Central Library, 26 neighborhood libraries, and a robust "virtual library" available on a 24/7 basis through the Library's website. The Central Library provides library services and programs for downtown residents and workers. It is also the hub for planning and developing system-wide programs and services and provides critical computer and Wi-Fi availability for people without internet access, in addition to many Seattle visitors. The 26 neighborhood libraries provide services and programs close to where people live, go to school and work, and serve as neighborhood anchors for lifelong learning, civic engagement, and economic vitality.

In 2018, The Seattle Public Library (SPL) hosted more than five million visitors and circulated almost 12 million items. Adult learning programs like English as a Second Language, Adult Education Tutoring, and Ready to Work programs helped over 11,000 people. More than 32,000 kids participated in last year's Summer of Learning and The Seattle Public Library hosted more than 1,100 homework help sessions.

The Library is governed by a five-member Board of Trustees, who are appointed by the Mayor and confirmed by the City Council. Board members are eligible to serve two five-year terms. The Revised Code of Washington (RCW 27.12.240) and the City Charter (Article XII, Section 5) grant the Board of Trustees "exclusive control of library expenditures for library purposes." The Library Board adopts an annual Operations Plan in December after the City Council approves the Library's budget appropriation.

Total Appropriations	88,218,881	83,182,871	63,364,881	86,231,851

Budget Overview

With more than 5 million visits annually, the Seattle Public Library's (SPL) 27 locations are among the most heavily used public spaces in the city. In addition, the Library's virtual branch receives more than 12 million online visits annually. Seattle residents borrow nearly 12 million items a year and 300,000 attendees partake in more than 10,000 annual Library programs and events. Libraries are a critical part of the fabric of the City, helping close the

Seattle Public Library

opportunity gap and providing pathways for people to be successful in life through services to children, students and adults – and especially vulnerable groups such as new immigrants, people who are insecurely housed and those who cannot afford access to the internet at home.

In 2012, Seattle voters passed a seven-year, \$123 million Library levy with 63% approval. The levy restored core Library services that were cut during the Great Recession. The 2012 levy made four promises to voters: keep libraries open when patrons need them, provide a robust collection of books and materials, improve computer and online services, and maintain buildings for the next generation. The levy also allows the Library to access and leverage investments from other sources in response to changing patron needs.

As the Library prepared for the completion of the 2012 levy, it took stock of the cumulative impact of accomplishments over the life of the levy and engaged the community in how to better serve current and future patrons with a levy renewal. In 2018, the Library conducted a community survey to assess public satisfaction with Library programs and services and gauge interest in potential new service offerings. SPL also engaged the public through three Community Conversations about future library services. These efforts guided the development of the levy renewal package that included community priorities of increased access, better collections, investment in technology, services for high-needs communities, and safer, cleaner buildings.

The Mayor proposed and the City Council agreed to place a levy renewal measure on the August 2019 ballot. The measure passed with 76% approval from the voters. The 2020 Adopted Budget adds budget authority to reflect this recent passage. The budget also includes technical adjustments to reflect increases in salary, health care, and retirement costs.

Library Levy

In August 2019, Seattle voters approved a seven-year, \$219 million “Libraries for All” levy to support, maintain, and expand core Library services. Each year, the Library Board of Trustees will allocate available levy funds through the annual Operations Plan and report to the Mayor and City Council on how levy proceeds were spent in the prior year.

The 2020 Adopted Budget includes budget authority for the first year of spending property tax revenues generated from the approved \$219 million levy. The adopted budget reflects the programs that were included in [Ordinance 125809](#).

The seven-year levy supports six priority areas:

- **Hours and Access - \$71.4 million (7-year total)** Seattle residents identified additional open hours as the number one community priority in the 2018 Library Programs and Services Assessment which gathered input from over 26,000 Seattle residents. The levy expands Sunday hours at all branches and adds one hour, Monday through Thursday, at all neighborhood branches. Additional morning and evening hours are added at High Point, International District/Chinatown and South Park branches and Friday hours are added at Delridge, Green Lake, New Holly, and Wallingford branches. The new hours provide more access to collections, technology, meeting spaces, instruction and assistance. This investment area also includes sustaining funding for two security officers and adding a community resource specialist for youth. New Sunday hours will be added early in 2020. Other new hours begin in June 2020. The 2020 Adopted Budget includes \$7.6 million in budget authority for this investment area.
- **Collections Improvements and Late Fine Elimination - \$58.4 million (7-year total)** To meet patron demand, the levy increases investments in e-books, e-audiobooks, and streaming and downloadable services for music, films, tv, digital comics, and magazines. The levy also continues investment in popular materials, sustains the Peak Picks “no holds, no-wait” collection, and continues funding support for the collection and digitization of local history materials. The 7-year levy includes \$45 million to sustain funding for baseline collections and increases investment in e-materials by \$5 million.

In addition to the investment in materials, the levy eliminates fines for overdue materials and uses levy resources as a revenue replacement for these funds. Approximately 10% of all accounts that have had a check-out within the last three years are blocked due to fines and fees, and patrons are unable to borrow

Seattle Public Library

materials. Other library systems have found borrowers return materials at the same or higher rates after fines are eliminated. Overdue fines impact “low opportunity” neighborhoods more significantly because patrons who are unable to pay fines are blocked regardless of whether they return materials or not. Removing fines will increase access to library materials. Over a 7-year period, the levy includes \$8 million to replace lost fine revenue. The 2020 Adopted Budget includes \$5.8 million in baseline collection funding, \$633,000 for increased investments in e-materials and \$1 million to replace lost fine revenue for a total of \$7.4 million.

- **Technology and Access - \$29 Million (7-year total)** The Library plays an important role in providing digital access to patrons who lack internet access at home. A recent Library survey showed that 32% of Seattle residents rely on Library computers or Wi-Fi networks to access the internet and other digital resources. To meet this demand, and provide this important service to the community, the levy adds funding to replace high-speed internet access infrastructure and continues funding for the digital equity programs with levy funds replacing declining cable franchise fee revenues.

The levy also continues funding to upgrade and replace computers, printers and copiers, upgrade enterprise equipment and replace or upgrade the Integrated Library System. The 2020 Adopted Budget includes \$3.2 million in budget authority for this investment area.

- **Maintenance - \$56 million (7-year total)** The Library operates seven Carnegie-era branches which are considered historic city, state, and national landmarks. These are Douglass-Truth, Columbia, Fremont, Green Lake, University, Queen Anne, and West Seattle. These branches are unreinforced masonry (URM) buildings, which means that the buildings are at increased risk during a seismic event. The levy includes funding for seismic retrofits for three of the Carnegie-era branches at highest risk of damage in an earthquake: Columbia, Green Lake, and University branches.

The levy also includes funding to support enhanced daily maintenance of library facilities and regular preventative maintenance. In addition, the levy continues funding for capital costs in the major maintenance program. The 2020 Adopted Budget includes \$3.7 million in budget authority for this investment area.

- **Play and Learn Programming - \$2 million (7-year total)** The levy expands funding for the Library’s early learning programs for children ages zero to five. In 2018, the Library held more than 180 Play and Learn group sessions attended by over 7,600 children and their caregivers and in 2019, hosted five weekly play and learn groups at Broadview, Beacon Hill, Columbia, Lake City, and Rainier Beach branches using the Kaleidoscope Play and Learn model. These groups are led in English, Spanish or Mandarin and are facilitated by Library partners (Denise Louie Center, Chinese Information and Service Center, and Wonderland Development Center). This levy expands the program in up to six library branches with levy funds to support new group formation and facilitation. New play groups may be added at existing locations or other branches such as Delridge, High Point, Lake City, NewHolly, Northgate, and South Park. It is anticipated that most of these new play groups will be led by community partners in languages other than English. The 2020 Adopted Budget includes \$262,000 for this investment area.
- **Levy Administration and Library of the Future - \$2.2 million (7-year total)** Funding for levy administration is approximately 1% of the 2019 Library Levy. This includes funding for labor costs of monitoring and reporting on levy performance metrics. This investment area also includes one-time funding for a consultant study to guide planning for library services, staff development, and library operations over the next 10 years. The 2020 Adopted Budget includes \$486,000 in budget authority for this investment area.

Seattle Public Library

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$3,092,279

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the tentative agreement between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$52,534

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the tentative agreement with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$696,911

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Eliminate Overdue Fines

Expenditures -

This is a revenue change to reflect the new policy to eliminate all overdue fines for Library materials. The 2019 Library Levy will fund operations previously supported by fine revenue. In 2019, the Library expects to collect about \$1.1 million in overdue fines. This revenue source has declined by 19% since 2013 as more patrons use digital formats, which are fine-free. Experience in other jurisdictions has shown that eliminating fines does not have a negative impact on returning library materials. All library branches see a similar number of late materials, but "low opportunity" neighborhoods have higher account balances leading to more blocked accounts and limiting access to library materials. Eliminating fines will remove this barrier to accessing Library materials. This change is reflected on the revenue side of the budget.

Investing in e-Materials

Expenditures \$633,000

This item adds budget authority to reflect the 2019 Library Levy resources for e-materials. Digital content, e-books, and streaming media are the fastest growing formats in the library collection. E-material circulation has increased from less than 10% of the total circulation in 2012 to 30% in 2018. E-books and e-audiobooks can cost 3-5 times more than physical books and the future cost model is uncertain. The levy funding will ensure that digital collections can continue to grow, and meet patron demand. E-materials are also supported by the General Fund and the Seattle

Seattle Public Library

Public Library Foundation.

Add Open Hours to Library Branches

Expenditures \$673,000

This item adds approximately 10,000 hours to all Library neighborhood branches per year over the life of the levy. Starting in June 2020, this includes Friday hours at Delridge, Green Lake, NewHolly and Wallingford branches, additional morning and evening hours at High Point, International District/Chinatown and South Park branches, and one additional open hour Monday through Thursday at all neighborhood branches to support increased access to meeting rooms and other Library resources. In addition, starting in January 2020, all branches will be open on Sunday at noon.

Add Community Resource Specialist for Youth

Expenditures \$146,000

The community resource specialist program is designed to expand and improve the Library's information and referral services for patrons who are in need of housing, shelter, health care or other community resources assistance. The levy adds resources to contract with community-based organization to expand the current community resource special program to include assistance services for at-risk youth. Services will be provided at the Central Library and branches which serve a high number of at-risk youth.

Fund Two Security Personnel with Levy Resources

Expenditures \$200,000

This item shifts the funding for the two security personnel from General Fund resources in 2019 to 2019 Library Levy funding for the duration of the levy. In 2019, the Library was able to add 2.0 FTEs to its security team (1.0 FTE Security Officer and a 1.0 FTE Senior Lead Security Officer) with one-time General Fund resources. The levy continues funding for these positions which are critical to the safety and security of patrons and staff.

Replace Cable Franchise Fees with Levy Resources

Expenditures \$23,500

This item shifts \$671,000 in annual funding for digital equity programs and services from cable franchise fees to the 2019 Library Levy. The Seattle Public Library's Digital Equity and Wi-Fi HotSpot Program serves Seattle residents through short-term checkout of Wi-Fi HotSpots by Library users as well as residents served at prioritized outreach locations. The program is supported by Cable Franchise Fee revenues which is a declining revenue source. The cable franchise fee revenues currently support a librarian and an outreach position. The librarian identifies prioritized populations for the Wi-Fi HotSpot program and provides digital training and support. The staff provides outreach support for hotspot distribution to prioritized populations. The levy is also replacing cable franchise fees which supported \$190,000 of computer hardware and software used by the public. The \$23,500 increase is due to inflation.

Upgrade Enterprise Equipment

Expenditures \$511,000

The item reflects 2019 Library Levy funding to support regular upgrades and replacement of the hardware components of the Library's enterprise technology systems. These include upgrading the Wi-Fi infrastructure and replacing core and network switches at the Central Library and in branches.

In 2020, the Library will use levy funds to upgrade its Wi-Fi infrastructure. The Library continues to see an increase in Wi-Fi connections, surpassing over 5,000 connections per day. It is anticipated that Wi-Fi connections will increase

Seattle Public Library

year over year with a wide-ranging group of users of all ages bringing in more personal devices from tablets to phones. To meet the mobile information needs of our patrons and residents, the Library will upgrade its aging Wi-Fi infrastructure at the Central Library and all 26 branches.

Expand Play and Learn Program

Expenditures \$262,000

This item reflects 2019 Library Levy funding to expand Play and Learn programming by six groups per week at neighborhood branches and hire an early learning program manager for the seven-year levy period. In 2018, the Library held more than 180 Play and Learn group sessions attended by over 7,600 children and their caregivers. In 2019, the Library hosted five weekly play and learn groups at Broadview, Beacon Hill, Columbia, Lake City, and Rainier Beach branches. These groups are led in English, Spanish or Mandarin and are facilitated by Library partners (Denise Louie Center, Chinese Information and Service Center, and Wonderland Development Center). The Library Foundation currently funds the Early Learning Manager who works with community partners to provide these sessions and also provides a small amount of money for books and other materials used by these groups. King County provides funding to the community partners who facilitate these groups through Best Starts for Kids and other resources.

Library of the Future Study

Expenditures \$200,000

This item includes one-time 2019 Library Levy funding for a consultant study to help the Library position itself for the future. SPL will partner with library and information-industry leaders and private-sector entities to contract with future thinking organizations to develop a report on the future of libraries that will guide planning for library services, staff development and library operations over the next 10 years. This work will address the intersection of space and place, self-directed learning, education and skill-development, affordability, technology and communication.

Baseline funding for Hours and Access Levy Category

Expenditures \$7,645,000

This item adds 2019 levy resources to continue funding levels for the "Hours and Access" levy category based on services levels in the 2012 levy. This includes funding to allow the Library to be open 52 weeks a year, provides resources for all branches to be open on Sundays, continues support for hours added in the 2012 Levy at Columbia, Northgate, University, International District, High Point and South Park branches. This funding also supports security and maintenance costs for additional hours as well as reference, technical and supervisory staff to support the longer operating hours.

Baseline Funding for Collection Levy Category

Expenditures \$5,758,000

This item maintains the level of spending on collections and related services funded by the 2012 levy. This includes support for expanding the breadth and depth of the collection in all formats, adding more copies of popular materials, expanding online resources including e-books, e-audiobooks, databases, and streaming services and curating and digitizing the Library's collection of local materials.

Baseline Funding for Technology and Online Services

Expenditures \$2,060,000

This item adds 2019 levy resources to continue technology and online services commitments based on the services levels established in the 2012 Library Levy. This includes labor costs for maintaining spl.org and other digital

Seattle Public Library

presence, administrative support for the Information Technology division, and staff to support enhanced audio-visual equipment in public meeting rooms. This funding also supports print and copy contracts, baseline IT infrastructure, public and staff computers, and upgrades to meeting room audio-visual equipment.

Baseline Funding for Maintenance Levy Category

Expenditures \$1,638,000

This item adds levy resources to support enhanced maintenance service levels established in the 2012 Levy. The funding maintains service levels that were established in the 2012 levy. This includes interior and exterior window washing, carpet and upholstery cleaning, high dusting and numerous other service agreements to keep the facilities clean and safe for staff and patrons. It also supports funding for 5.0 FTEs that are directly funded with levy resources in 2019.

Baseline Funding for Administration Levy Category

Expenditures \$286,000

The 2019 Library Levy maintains the levy oversight services levels established in the 2012 levy. This includes labor costs for monitoring and reporting on levy performance metrics and commitments to the public.

Proposed Capital

Earthquake Retrofit of Carnegie Branches

Expenditures \$500,000

The 2019 Library Levy adds \$13.8 million of new levy resources over the next seven years to the Library's CIP to fund earthquake retrofits at three Carnegie libraries. The total costs of these projects is anticipated to be \$24.9 million. The City's Unreinforced Masonry Policy Committee recommended in 2016 that high-risk unreinforced masonry buildings be retrofitted in ten years or less. The Library has three branches at high risk for seismic damage: Green Lake, University District and Columbia branches. Construction will be staged over the seven year period with funding in the first year to cover the design costs at the Green Lake branch.

Baseline Major Maintenance Funding from Levy

Expenditures \$3,690,000

This item adds \$3.7 million of levy resources in 2020 and \$29.1 million over the next seven years to the Library's CIP to fund the Library's major maintenance program. These resources will be combined with levy money set aside for earthquake retrofit upgrades to provide comprehensive major maintenance to the Green Lake, University and Columbia branches. Approximately \$7.9 million of the \$29.1 million of major maintenance funds over the life of levy will be allocated to these three branches. The remaining funds will go to ongoing major maintenance in other Library facilities.

Proposed Technical

Technical Adjustments

Expenditures \$(5,092,514)

This item includes technical adjustments to remove General Fund budget authority associated with the 2012 Library Levy. This item also makes adjustments for central rates.

Seattle Public Library

Declining Operating Revenues

Expenditures \$(107,740)

The Library is projecting decreased revenues in the amount of \$100,000 for 2020, which is driven by two components. First, as result of the increase in high-rise towers with dedicated parking structures near the Central Branch, parking garage revenue at the Central Library garage has fallen. Second, the Library is no longer accepting credit cards related to print and copy. The Library is participating in the city-wide study and eventual RFP related to city credit card acceptance. This work carries a go-live date of October 2021, which means Print and Copy revenues for the Library will be reduced through at least this period. The Library will manage this reduction without affecting programs or services. The specific reductions will be identified as part of the 2020 Board Adopted Operations Plan.

Expenditure Overview

Appropriations	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

FAC Services	8,389,435	-	-	1,743,000

SPL - BO-PL-B2CTL - Chief Librarian's Office

The purpose of the Chief Librarian's Office is to provide leadership for the Library in implementing the policies and strategic direction set by the Library Board of Trustees, and in securing the necessary financial resources to operate the Library in an effective and efficient manner. The Chief Librarian's Office serves as the primary link between the community and the Library, and integrates community needs and expectations with Library resources and policies.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed
Chief Librarian's Office	707,557	479,785	473,817	516,178
Total	707,557	479,785	473,817	516,178

SPL - BO-PL-B4PUB - Library Program and Services

The purpose of the Library Programs and Services Division is to provide services, materials, and programs that benefit and are valued by Library patrons. Library Programs and Services provides technical and collection services and materials delivery systems to make Library resources and materials accessible to all patrons.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed
Collections and Access	18,098,062	1,029	-	6,530,000
Information Technology	5,926,577	-	-	1,980,000
Public Services	37,909,027	59,328,950	50,454,453	56,495,799
Total	61,933,666	59,329,979	50,454,453	65,005,799

Seattle Public Library

The following information summarizes the programs in Library Program and Services Division:

Collections and Access

The purpose of the Collection and Access Services Program is to make library books, materials, databases, downloadable materials, and the library catalog available to patrons and to provide a delivery system that makes Library materials locally available.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed
Collections and Access	18,098,062	1,029	-	6,530,000

Information Technology

The purpose of the Information Technology Program is to provide public and staff technology, data processing infrastructure and services.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed
Information Technology	5,926,577	-	-	1,980,000

Public Services

The purpose of the Library Programs and Services Program is to administer public services, programs, and collection development and access.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed
Public Services	37,909,027	59,328,950	50,454,453	56,495,799

SPL - BO-PL-B5HRS - Human Resources

The purpose of Human Resources is to provide responsive and equitable services, including human resources policy development, recruitment, classification and compensation, payroll, labor and employee relations, volunteer services, and staff training services so that the Library maintains a productive and well-supported work force.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Proposed

Levy Operating Fund Transfer	4,827,960	-	-	-
Total	4,827,960	-	-	-

Department of Education and Early Learning

Dwane Chappelle, Director

(206) 233-5118

www.seattle.gov/education

Department Overview

The mission of the Department of Education and Early Learning (DEEL) is to transform the lives of Seattle's children, youth, and families through strategic investments in education. DEEL achieves this goal by investing in high-quality early learning services and programs that help children succeed in school, increasing capacity for such programs in underserved communities and strengthening school-community connections.

DEEL is responsible for weaving together early learning programs in the City to provide families with the opportunity to prepare their children to enter school ready to succeed. By braiding and blending resources from the previous Families and Education and the Seattle Preschool Program Levies; the new Families, Education, Preschool, and Promise (FEPP) Levy; the state Early Childhood Education and Assistance Program; the Sweetened Beverage Tax (SBT); and the City's General Fund, the department seeks to ensure families in the city have access to high quality early learning.

DEEL builds linkages between the City of Seattle, the Seattle Public School District, and other organizations to ensure successful levy implementation. Levy investments are made in programs that improve academic achievement and helps students graduate ready for the postsecondary path of their choice. To that end, each program undergoes ongoing program evaluation to ensure it delivers on specific targeted outcomes intended to improve academic achievement. The department provides annual reports detailing program targets and results to policy makers and the community.

DEEL serves as the liaison between the City and the higher education community on education issues of joint concern. The department builds partnerships with, and facilitates collaboration between, local higher education representatives to increase academic, economic and social advancement. DEEL aligns City investments with institutions' priorities, initiatives and goals to increase student success and higher levels of educational attainment. Part of this work includes implementation of the Seattle Promise College Tuition Program. The Seattle Promise provides two years of free college for Seattle public high school graduates, removing financial barriers to higher education facing many Seattle public school students. Seattle Promise students have the opportunity to obtain up to 90 credits of instruction towards a degree, credential, certificate or pre-apprenticeship program. In Fall 2019, Seattle Promise expanded to all 17 Seattle Public High Schools.

Department of Education and Early Learning

Budget Overview

DEEL implements its mission with funding from the Families, Education, Preschool and Promise Levy (FEPP), the City's General Fund, Sweetened Beverage Tax revenues, state and private grants, and partnerships with other City departments.

Child Care Subsidy Program Expansion

The 2020 Adopted Budget includes Sweetened Beverage Tax (SBT) funding to expand the Child Care Assistance Program (CCAP). CCAP provides financial assistance to low and moderate-income families to pay for child care. The subsidies are based on a sliding scale and the program is designed to support families who make too much money to qualify for the State's Working Connections Child Care program which only supports families up to 200% of the Federal Poverty Level (FPL). DEEL currently contracts with approximately 180 Seattle licensed child care providers. In 2018, 648 vouchers were issued to 491 families. More than 80% of the families that received child care vouchers identified as families of color.

As of September 1, 2019, the sliding scale for the voucher subsidies increased from 300% Federal Poverty Level (FPL) to 350% FPL or approximately \$90,000 for a family of four. The 2020 Adopted Budget continues funding for this expansion, reflects increases in costs for providers, and provides funding for increasing enrollment at lower income levels. DEEL conducts an annual market rate study and the voucher rates are adjusted to reflect the increased costs of child care. The 2020 Adopted Budget also includes additional funding and supports for child care providers who participate in the CCAP program.

Families, Education, Preschool and Promise Levy

In November 2018, Seattle voters approved the seven-year \$631 million FEPP Levy. The FEPP Levy replaced the 2012 Families and Education Levy and the 2014 Seattle Preschool Program Levy. The FEPP levy ordinance, Ordinance 125604, directed DEEL to develop an Implementation and Evaluation Plan. DEEL utilized a variety of methods to engage stakeholders across the preschool to post-secondary continuum to inform the development of the plan. After an extensive outreach and engagement process, the City Council adopted the final plan in April 2019 through Ordinance 125807. The 2020 Adopted Budget includes adjustments to positions to better reflect how the levy will be implemented. These adjustments include re-classifications of existing positions and adding new positions for levy implementation.

The FEPP levy focuses on the core connections of investments across a continuum of ages and needs. The objectives of the FEPP levy include the following:

- increase the number of children in quality preschool;
- maintain support for K-12 and community investments, including school-based health services and supports for students most in need; and
- expand access to college for Seattle public school graduates through support for the Seattle Promise Program.

This continuum of investments is comprised of four building blocks:

1. **Preschool and Early Learning** The Preschool and Early Learning investments are allocated across seven strategies, evaluation, and DEEL administration. The seven strategies include preschool services and tuition; quality teaching; comprehensive support; organizational and facility development; Seattle Preschool Program child care subsidies; the Homeless Child Care program; and Family Child Care Mentorship and Quality Supports. Key metrics for the 2019-2020 school year include the following:
 - 1,916 children in levy-funded preschool slots in 106 classrooms for the 2019-2020 school year
 - 42 child care subsidies for levy-funded children

Department of Education and Early Learning

- 1,916 health assessments and consultations for preschool children
 - home visitations for 450 families annually
 - professional development for 400 early learning educators
2. **K-12 School and Community-Based Investments** K-12 School and Community investments are designed to close opportunity gaps and ensure students graduate from high school college career ready and prepared for the post-secondary pathway of their choice. Four strategies are funded in this area:
- **School-Based:** These investments offer intensive support to a limited number of schools. Services will include extended in-school and expanded learning opportunities, academic support and social emotional skill development, college readiness programming, and career exploration experiences.
 - **Opportunity & Access:** These investments will support school and community partnerships, increase access to expanded learning opportunities, promote 21st century skill building and college and career awareness, prevent or limit academic loss during school breaks, and support school and community partnerships by investing in community-based organizations and schools not receiving School-Based awards.
 - **Wraparound Services:** These investments support students by providing family support services and wraparound care, reducing and preventing non-academic barriers to student learning, supporting youth experiencing homelessness, and providing services to support extended day programming.
 - **Culturally Specific and Responsive:** These investments foster equitable learning opportunities, diversify the educator workforce, create positive connections between peers and adults, and offer programming reflective of racial and cultural diversity within the community.

Key metrics for the 2019-2020 school year in the K-12 School and Community-Based Investment area include the following:

- extended learning time and out-of-school time at 21 elementary schools, 16 middle schools, and five high schools;
 - social, emotional, and behavioral support, college and career planning at four middle schools, case management for college and career planning for up to 600 students;
 - summer learning for up to 1,300 students;
 - out-of-school time transportation and sports at 16 middle schools;
 - extended learning time & social, emotional, and behavioral support for ninth graders at five schools;
 - college and career planning at five schools; and
 - case management for college and career planning for up to 400 students at five high schools.
3. **K-12 School Health**

This investment area funds school-based health centers, oral health and mental health training for providers. The FEPP Levy adds funding for three more school-based health centers plus partial funding for a fourth school-based health center. Key metrics and outputs for the 2019-2020 school year include the following:

- school-based health centers (SBHCs) and nursing services at five middle schools and 10 high schools;
- SBHC, nursing, and family engagement services at the Seattle World School;
- SBHC services for students at the Interagency Academy;
- health care, mental health interventions and community referrals for elementary school students at eight sites;
- a quality control system for mental health providers;
- oral health services for 10 schools; and planning work for a SBHC at Nova High School.

Department of Education and Early Learning

4. Seattle Promise

The Seattle Promise program provides college and career readiness supports at the high school level, and tuition assistance and program persistence and advising supports at the three Seattle Colleges for students who graduate from a public Seattle high school. Seattle Promise expanded from three high schools to six schools in 2018. In Fall 2019, the Promise program will expand to all 17 Seattle Public high schools. Key metrics for the program for the 2019-2020 school year include the following:

- 900 12th grade students participating in Seattle Promise;
- 300 college students will receive program and advising supports;
- 140 students will receive tuition assistance; and
- 100 students will receive Equity Scholarship support.

Council Changes to the Proposed Budget

The Council added a proviso to the Child Care Assistance Program (CCAP) budget which requires DEEL to explore strategies for increasing access to infant care through CCAP or other City programs, including an evaluation of whether the subsidy amounts for families with infants can be increased, and whether lack of access to diapers is a barrier to families using child care services. The proviso language is included in the Council Provisos section below.

The Council added \$475,000 in one-time Sweetened Beverage Tax (SBT) to DEEL's budget. The funding is allocated for the following purposes:

- \$100,000 to provide grants to community-based organizations that work to provide diapers to families; and
- \$375,000 to evaluate how the City can facilitate connecting families with childcare providers and develop strategies based on best, promising, or emerging practices to address the lack of affordable and accessible childcare for infants and toddlers.

Department of Education and Early Learning

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$833,961

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$9,384

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$153,277

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Child Care Assistance Program Expansion

Expenditures \$3,000,000

Position Allocation 5.50

The 2020 Adopted Budget includes funding to continue the expansion of the Child Care Assistance Program (CCAP) including increasing income eligibility from 300% to 350% of the Federal Poverty Level (FPL), fund enrollment increases, reflect the increasing cost of child care, support providers who participate in the program and enhance staffing capacity. The base budget for the CCAP program is \$3.1 million. The 2020 Adopted Budget almost doubles the funding for the program, and as a result, an additional 500-700 families will receive voucher subsidies.

In 2018, DEEL contracted with a consultant to do a comprehensive study of the CCAP program. Among other things, the consultant recommended that the income eligibility for the program be expanded to 350% to match increases in median income and cost of living in the city. As of September 1, 2019, DEEL increased the eligibility level for the program from 300% FPL to 350% FPL, or approximately \$90,000 for a family of four. DEEL also increased the subsidy rate from 10% to 25% for families at the higher levels of the sliding scale to make child care more affordable for families.

Department of Education and Early Learning

The 2020 Adopted Budget also includes funding to pay for provider rate increases based on the cost of child care. DEEL does an annual provider rate study, and makes adjustments to subsidies based on this information. In 2019, there was an 8.5% increase in rates based on this study. DEEL anticipates another rate increase in 2020.

In addition to the rate increases, as DEEL has done more outreach to eligible families, enrollment in the program has grown. Enrollment counts in 2019 are almost 30% higher than 2018. DEEL expects this enrollment trend to continue in 2020, and the 2020 Adopted Budget includes funding to support the increased enrollment.

However, for the program expansion to continue, there needs to be enough providers in the program for families to have access to child care. To help support increased participation by providers, the 2020 Adopted Budget includes funding to provide direct financial assistance to encourage providers to meet the eligibility requirements for program participation.

The 2020 Adopted Budget also adds six positions to DEEL to support the program expansion. These positions include intake representatives, education specialists, a grants and contracts position, and accounting support. The staff will provide coaching and support to providers, assist families with enrollment, and perform accounting work to support the program.

Enhance Data Analysis in Early Learning Operations

Expenditures	-
Position Allocation	1.00

This item adds a levy-funded Strategic Advisor 1, Exempt position to the Early Learning Operations team to manage the child enrollment and provider management system (CHIPS). The Early Learning Data Analyst position will be dedicated to early learning work, but will be embedded in DEEL's Performance and Evaluation team to maximize alignment of work flow. This position's primary responsibilities will be to:

- serve as a liaison between Early Learning and the Seattle Information Technology Department (IT) supporting CHIPS;
- work with providers and DEEL staff to offer technical assistance in the functioning of CHIPS;
- ensure the accuracy of data entry which is critical for performance management and provider payments;
- manage reporting evaluation and schedules; and,
- serve as a liaison with external evaluators working on Early Learning assessments.

The position adds are budget neutral as funding was shifted from professional services and other accounts to personnel services. This item includes adjustment for wage increases, and there is an offsetting adjustment in the technical change requests.

Enhance Outreach and Marketing Capacity

Expenditures	-
Position Allocation	1.00

This item adds a Public Relations Specialist, Sr to support DEEL's community-facing programs, including the Seattle Preschool Program and Seattle Promise. With the addition of the Seattle Promise and the continued expansion of the Seattle Preschool Program (SPP) in 2019 and beyond, the need for a position dedicated to graphic design, marketing, and media development has become apparent. This position will assist with outreach events related to FEPP Levy services and programs, with a specific emphasis on Promise and SPP, to ensure that the department is successful in achieving its enrollment and participation goals in both areas.

The position adds are budget neutral as funding was shifted from professional services and other accounts to personnel services. This item includes adjustment for wage increases, and there is an offsetting adjustment in the technical change requests.

Department of Education and Early Learning

Increase Early Learning Administrative Capacity

Expenditures	-
Position Allocation	1.00

This item adds a levy-funded administrative position (Admin Spec II) to support the Early Learning Division in the areas of purchasing and invoice processing, data entry, and management of preschool-related equipment. The Early Learning Division conducts a high volume of purchasing and planning of events that require labor-intensive invoice processing. A position dedicated to this role will help ensure timely and accurate payment processing. In addition, this position will be responsible for entering all professional development data from preschool trainings into MERIT, the Washington State data collection system, to ensure that teachers receive credit for all sessions.

There is a current backlog of invoices, credential data entry, and equipment management which has led to delays in getting both teachers and providers paid in a timely manner. Timely invoice processing is critical for DEEL in order to maintain a close-to-perfect prompt pay record. Additionally, teacher credential data entry is a key step for processing payments to providers and agencies for their teacher enhancement pay. Delays in entering and processing teacher credential data entry also impact the rate at which providers and agencies are paid.

The position adds are budget neutral as funding was shifted from professional services and other accounts to personnel services. This item includes adjustment for wage increases, and there is an offsetting adjustment in the technical change requests.

Early Learning Reorganization

Expenditures	-
Position Allocation	-

This is a budget neutral change which reflects the reclassification of nine levy-funded positions added to the Early Learning Division budget in 2019. At the time the 2019 Adopted and 2020 Endorsed Budget was developed, DEEL was concurrently working on the FEPP Levy Implementation and Evaluation Plan. As a result of that work, and finalizing the plan, DEEL has better information on the types of positions needed for levy implementation and the scopes of work for the levy positions.

The reclassifications include the following:

- 1.0 FTE Early Education Specialist reclassified to Strategic Advisor 1, Exempt (Operations Unit)
- 1.0 FTE Early Education Specialist reclassified to Manager 1, Exempt (Operations Unit)
- 3.0 FTE Early Education Specialists reclassified to Early Education Specialist Sr. (Operations Unit)
- 1.0 FTE Human Services Coordinator (HSC) to Human Services Program (HSP) Supervisor (Operations Unit)
- 1.0 FTE Program Intake Representative (PIR) to PIR Senior (Operations Unit)
- 2.0 FTE Early Education Specialist Sr. reclassified to Manager 1, Exempt (Quality Practice & Professional Development Unit)

The reclassification of nine positions to either a higher or supervisory level would result in several outcomes:

- 1) a more balanced ratio of managers to direct reports;
- 2) more skill diversity and level of responsibility; and
- 3) specialization in key FEPP levy priority areas.

Leadership & Administration Reclassifications

Position Allocation	-
---------------------	---

This is a budget neutral change to reflect two position reclassifications in Leadership & Administration. The reclassifications include a Financial Analyst, Sr. shifting to a Strategic Advisor 1 and an Accounting Tech II shifting to

Department of Education and Early Learning

an Accounting Tech III. These reclassifications align the accounting positions in DEEL with the level needed to perform critical job functions.

Transfer Upward Bound from HSD to DEEL

Expenditures	\$628,398
Revenues	\$464,431
Position Allocation	4.00

This item transfers funding and positions for the Upward Bound program from the Human Services Department (HSD) to the Department of Education and Early Learning (DEEL). The program is funded with a U.S. Department of Education grant of \$460,000 and the General Fund. The Upward Bound program prepares underserved high school students for higher education by promoting academic achievement, goal setting, and career exploration. The program's goal is to give students the knowledge, skills and motivation necessary to earn a two- or four-year college or technical degree after high school. Each year, more than 100 students from three Seattle public high schools participate in Upward Bound.

The transfer to DEEL is occurring to improve mission alignment with the goals of the Families, Education, Preschool and Promise (FEPP) Levy which include pre-college and job readiness for Seattle students. Moving the program to DEEL also allows for efficiencies, and programmatic synergies which will improve access to Seattle Public Schools and Seattle Colleges, provide access to data and evaluation support, and provide direct access for Upward Bound students and families to the Seattle Promise program's services and supports. There is a corresponding adjustment in the HSD section of the budget.

Proposed Technical

Add SPP Tuition Revenues and Expenses

Expenditures	\$2,000,000
Revenues	\$2,000,000

This is a budget neutral change to add revenue and expenditure authority for the Seattle Preschool Program tuition collection. At the time the 2019-2020 budget was prepared, the working assumption was that DEEL would rely on a voucher model and no longer collect tuition from families. During the FEPP planning process, and based on feedback from providers and families, this assumption was changed in favor of continuing to have DEEL collect tuition from families who are able to pay part of the tuition costs.

Early Learning FEPP Personnel Technical Adjustments

Expenditures	\$(1,241)
--------------	-----------

This item makes corrections to the 2020 baseline salary and benefits for FEPP-funded early learning positions, as well as moves some non-personnel budget lines to new activities. During the baseline phase, insufficient funds were allocated to FEPP-funded salaries and benefits in the Early Learning division.

Early Learning General Fund Personnel Technical Adjustments

Expenditures	\$(9,366)
--------------	-----------

This BIP funds makes corrections to the 2020 baseline salary and benefits for General Fund-funded early learning positions, including Sweetened Beverage Tax (SBT) and DEEL's state grant (ECEAP), as well as moves non-personnel budget from/to more appropriate activity codes.

Department of Education and Early Learning

Leadership & Administration Technical Adjustments

Expenditures \$(298,518)

This technical adjustment shifts funding between accounts to offset increases in DEEL's central rates and other adjustments administered centrally that impacted personnel-related accounts.

Technical Balancing Adjustment

Expenditures \$(199,104)

This item includes technical adjustments to offset the annual wage increases and state paid family medical leave increases to the FEPP levy budget. This item also includes adjustments to reflect increases in the Early Childhood Education and Assistance Program (ECEAP) grant.

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886, and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero in total.

Council

Redirect Sweetened Beverage Tax to Support Food and Education Programs

Expenditures \$475,000

This multi-department change reduces one-time Sweetened Beverage Tax (SBT) support for capital improvements in the P-Patch program in the Department of Neighborhood (DON) from \$3,000,000 to \$725,000, a \$2,275,000 decrease. The funding is redirected to food and education programs. The changes to the food programs are included in the Seattle Parks and Recreation (SPR), Human Services Department (HSD), and Office of Environment and Sustainability (OSE) sections of the budget book. The increases to DEEL include the following:

- \$100,000 one-time increase to the Department of Education and Early Learning (DEEL) to provide grants to community-based organizations that work to provide diapers to families of diaper-aged children; and
- \$375,000 one-time increase to DEEL to evaluate how the City can facilitate connecting families with childcare providers and develop strategies and models based on best, promising, or emerging practices to address the lack of affordable and accessible childcare for infant and toddler care (0-3 years of age) from other jurisdictions.

Council Provisos

Impose a proviso on a portion of DEEL Child Care Assistance Program expansion funds to increase access to infant care

-

"No more than \$4.5 million of the money appropriated in the 2020 budget for the Department of Education and Early Learning may be spent for the Child Care Assistance Program until authorized by future ordinance. Council anticipates that such authority will not be granted until the Department of Education and Early Learning provides a plan for increasing access to infant care through the Child Care Assistance Program."

Human Services Department

Jason Johnson, Interim Director

(206) 386-1001

<http://www.seattle.gov/humanservices/>

Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need, so all Seattle residents can live, learn, work and take part in strong and healthy communities. HSD contracts with more than 170 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, education and job opportunities, access to health care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD is committed to working with the community to provide appropriate and culturally relevant services.

HSD's strategic plan, "Healthy Communities, Healthy Families," identifies six key results:

- All youth in Seattle successfully transition into adulthood.
- All people living in Seattle are able to meet their basic needs.
- All people living in Seattle are housed.
- All people living in Seattle experience moderate to optimum health conditions.
- All people living in Seattle are free from violence.
- All older adults experience stable health and are able to age in place.

HSD's work is funded by a variety of revenue sources, including federal, state, and inter-local grants, as well as the City's General Fund. General Fund contributions leverage significant grant revenues to benefit Seattle residents. As a result, external grants represent 35.3% of HSD's revenue, while the General Fund represents 60.1% in the 2020 Adopted Budget. In addition, \$5.88 million of HSD's revenue comes from the newly created Sweetened Beverage Tax Fund, representing roughly 2.5% of the department's total budget in 2020. Approximately 1.4% of HSD's 2020 budget is supported by Short Term Rental tax revenues, and the remaining 0.6% of HSD's budget will come from the Unrestricted Cumulative Reserve Fund.

Human Services Department

Budget Overview

The Human Services Department's 2020 Adopted Budget prioritizes much-needed investments across a wide array of program areas, and also makes a number of technical changes to reflect the City's ongoing work to organize itself as effectively as possible to respond to ongoing crises of affordability, livability and homelessness.

Priorities for HSD's 2020 Adopted budget include:

Homelessness Prevention and Services

The Human Services Department (HSD) budget includes nearly \$98 million to address homelessness in 2020, which is roughly 90% of the \$109 million the City will spend in this area. These funds will support operations, staff, and programs to prevent homelessness, support those experiencing homelessness, and address the community impacts of living unsheltered in 2020. This amount represents an increase of approximately 15% over HSD's revised budget for homelessness in 2019.

The Adopted Budget includes the Mayor's proposed one-time extension of a pilot program to provide rental assistance to households at risk of homelessness while on the Seattle Housing Authority's waitlist for Housing Choice Vouchers, and an additional 2020 investment in a safe overnight parking pilot program to serve people living in vehicles. The Adopted Budget also includes the City Council's new investment to expand the capacity of the City's homeless shelters and services through new tiny house villages and enhanced shelters.

A number of City-funded shelters and Permanent Supportive Housing projects serve a client population with a high level of low-acuity medical needs. This has been shown to result in a very high volume of 9-1-1 calls to select locations. As proposed by the Mayor, the 2020 Adopted Budget makes strategic investments in a 24/7 nurse call line and in onsite nursing staff. In partnership with Seattle/King County Public Health, Harborview Medical Center, and NeighborCare, these investments seek to better meet the needs of this client population while reducing the burden on the City's 9-1-1 system.

Creating the new King County Regional Homelessness Authority

The 2020 Adopted Budget makes a \$1,655,000 one-time investment in startup costs for a new organization to manage the bulk of the Seattle/King County region's homeless services and investments. This amount is reduced from the original \$2 million proposed by the Mayor in the proposed budget. These funds will go to support startup needs such as an executive search firm to assist in hiring leadership, IT infrastructure and systems, legal counsel, and moving costs for City staff into the Regional Homelessness Authority's office space in a County-owned building.

Investing in Administrative Capacity and Contract Inflation

HSD's 2020 Adopted Budget makes investments to maintain department capacity and provider wages. Roughly \$6 million in Sweetened Beverage Tax (SBT) revenue has been added to the department in the last two years to significantly expand investments in food access and awareness. To ensure these funds receive proper oversight and facilitate required reporting to the City Budget Office, City Council, and SBT Community Advisory Board, the Adopted Budget includes the two staff proposed by the Mayor to support HSD's Youth and Family Empowerment division. This division oversees the bulk of HSD's SBT-backed spending.

The Adopted Budget also makes an additional inflationary adjustment for human service provider contracts. The 2020 Endorsed Budget contained a 2% inflationary increase for contracts that are funded by the City's General Fund. The City Council passed Ordinance 125865 in July 2019, requiring that the City adjust all human services provider contracts by CPI-W each year. The ordinance excludes contracts for which the City is solely the pass-through agency for services not provided in the City limits, Medicaid funds, Title XIX funds, or where otherwise explicitly prohibited. Pursuant to this legislation, this budget increases the 2% add to 2.6% and expands it to all eligible provider contracts.

Capital Investments in Community Facilities

The 2020 Adopted Budget makes one-time capital investments to support ongoing operations and new programming at several local human service provider agencies. Lambert House is an organization that empowers LGBTQ youth through the development of leadership, social, and life skills. As proposed by the Mayor, funding in this

Human Services Department

budget will support Lambert House's effort to acquire and renovate the building it currently occupies. Chief Seattle Club provides a range of services to American Indian and Alaska Native people in Seattle, including food, medical support, housing assistance, a legal clinic, and a native art program and gallery. The Mayor proposed and Council adopted an investment to support construction of a health clinic in Pioneer Square which will provide primary care for 600-1,200 homeless and low-income American Indian/Alaska Natives each year.

The Adopted Budget includes actions taken by the City Council to invest in other one-time capital investments to support human services programming in the city, including \$1,500,000 to support relocation and renovations for the ROOTS young adult shelter in the University District and \$1,800,000 to support a partnership between Harborview Medical Center and DESC to construct a health clinic at the Hobson Place project in the Rainier Valley.

In addition, the Adopted Budget invests previously unused Community Development Block Grant (CDBG) money from the U.S. Department of Housing and Urban Development (HUD). These funds will go to support Seattle Housing Authority (SHA) and International Community Health Services (ICHS). SHA will use these funds to make much-needed upgrades to fire alarm systems and other building maintenance needs at its properties. ICHS offers linguistically appropriate primary medical, dental, vision, and behavioral health services to people at all stages of life. ICHS will use CDBG funding to support the completion of a facility for a Program of All-Inclusive Care for the Elderly (PACE) for the Asian Pacific Islander community.

Supporting and Expanding Community Programs

The 2020 Adopted Budget makes several investments in important community programs which span a wide range of services. The Mount Baker Family Housing and Resource Center is a permanent housing facility built through a partnership between Mercy Housing Northwest, Paul G. Allen Philanthropies, and the City of Seattle to provide affordable housing and services to Seattle-area families. The project provides both housing and services on a single site for families either experiencing or at risk of homelessness. Construction is nearing completion and programs are scheduled to open in early 2020. The Adopted Budget includes the Mayor's proposal to fulfill the City's commitment to this project by providing pilot funding to operate programs.

The Adopted Budget also includes the Mayor's proposal for an ongoing investment to support a County-wide domestic violence hotline. Support for this line was expressed by both the Mayor and City Council. It will provide 24-hour, multi-lingual, multi-modal services including immediate crisis support and counseling, and serve as single point of contact for referral to the region's specialized survivor advocacy services, children's services, and legal, medical, and housing assistance.

The Seattle Youth Employment Program (SYEP) serves youth and young adults in the regional economy who often lack access to meaningful career connections and opportunities. SYEP has traditionally served 400 youth from low-income and historically disadvantaged communities in a summer internship program. This new expansion will serve 200 of the program's participants in three consecutive modules during the fall, winter, and spring. The year-round programming will provide career navigation, exploration, and skill-building opportunities through a "learn and earn" model that culminates with a six-week summer internship.

Criminal Justice System Diversion

The Adopted Budget contains several investments in programs seeking to provide an alternative approach to traditional criminal justice system involvement. Over \$500,000 in new spending will support youth diversion and education programs in HSD's Youth and Family Empowerment Division. The City Council also made \$124,000 made available to support diversion classes and programs for workers in the sex industry, including housing, chemical dependency counseling, and employment readiness. Finally, the Adopted Budget includes the City Council's action adding \$3.5 million to expand the City's investment in the Law Enforcement Assisted Diversion (LEAD) program operated by the Public Defender Association. This represents an increase of nearly 135% over the \$2.6m amount in the base budget for LEAD.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$438,152

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process. This BIP captures budget changes in the central cost accounts. Shifts between general fund and grant funding sources budgeted in the Human Services Fund are visible in this BIP. Combined with HSD-140, the total appropriation increase for HSD is \$195,017 of general fund and \$7,022,841 of grant funding sources.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$45,155

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$3,001,306

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Transfer a Management Systems Analyst to the Leadership and Administration Division

Expenditures -
 Position Allocation -

This item transfers budget for a Management Systems Analyst position from the Preparing Youth for Success Budget Summary Level (BSL) to the Leadership and Administration BSL. This move is part of the gradual consolidation of

Human Services Department

data analysis and evaluation positions and expertise within the department's Data, Performance, and Evaluation team, which is housed in the Leadership and Administration BSL.

Transfer Partial Funding for an Administrative Specialist to the Leadership and Administration Division

Expenditures -

This item moves budget authority from the Addressing Homelessness BSL to the Leadership and Administration BSL to partially fund an Executive Assistant position to support the department's deputy director.

Transfer Funding from a 2019 2% Inflationary Increase to the Addressing Homelessness Division

Expenditures -

This item transfers budget authority established by 2019 City Council Green Sheet 14-9-D-1, which provided for an inflationary increase to Human Services provider contracts backed by non-General Fund revenue. Budget authority is moving from the Leadership and Administration BSL into the Addressing Homelessness BSL to support inflation to contracts supported by the Federal HOPWA grant, which had previously been determined ineligible for such an increase.

Transfer HSD's Federal Grants and Community Facilities Teams to the Leadership and Administration Division

Expenditures -

This item transfers budget authority from the Addressing Homelessness BSL to the Supporting Affordability and Livability BSL. HSD's Federal Grants unit and Community Facilities investment teams were previously budgeted and managed out of the Homeless Strategy and Investments Division and have now been transferred to the Leadership and Administration Division.

Move 2019 Council Budget Add to the Affordability and Livability BSL

Expenditures -

This item transfers budget provided by 2019 City Council Green Sheet 15-7-B-1 from the Addressing Homelessness BSL to the Supporting Affordability & Livability BSL. This Council budget action provided \$300,000 in flexible funds for households at risk of homelessness, but the intent of the funding is better aligned with HSD's broader portfolio of affordability programs.

Proposed Operating

One-Time Costs to Stand up the King County Regional Homelessness Authority

Expenditures \$2,000,000

Note: The City Council reduced funding for this item to \$1,655,000 in the 2020 Adopted Budget.

This item provides one-time funding to support startup costs for the new King County Regional Homelessness Authority (KCRHA). It is anticipated that the City will provide funding for some costs associated with opening operations at KCRHA in 2020 which are not currently accounted for in HSD's base budget. These items may include expenses to cover senior level staff, such as an Executive Director, a Chief of Staff, Deputy Directors, and a Human Resources manager. These items may also include startup operations expenses such as an executive search firm, technology systems for financial planning and management and human resources, office supplies, and moving costs to a new office space.

In addition to the City's contribution to one-time standup costs, King County has committed to provide office space and cover four years' worth of space rent for KCRHA. The County will also cover the cost of all tenant improvements

Human Services Department

needed to renovate and furnish the selected space. The estimated 2020 value of the County's contribution in this area is \$1,340,000.

Additional Funding in 2020 to the Support Safe Parking Program

Expenditures \$125,000

Note: The City Council eliminated funding for this item in the 2020 Adopted Budget, but re-added \$158,000 funding for a safe overnight parking lot with a different budget action.

This item makes an additional investment in 2020 to support the pilot safe parking program originally funded through the 2019 Adopted and 2020 Endorsed budgets. The region's 2019 Point-In-Time Count estimated 2,147 individuals living in vehicles. This accounts for 19% of the total count, and 41% of those living unsheltered. These funds will be added to the \$250,000 already in the 2020 Endorsed budget, expanding the program's 2020 budget by 50%.

Continuation of 2019 Navigation Team Expansion

Expenditures \$326,461

This item provides ongoing funding to sustain the Navigation Team at its current size and capacity level. The Human Services Department used one-time salary savings to expand the Navigation Team in 2019 by hiring two additional Field Coordinators. This expansion allowed the Team to further provide outreach, services, and removal of unsanctioned encampments with a focus on those blocking the right-of-way.

Re-Siting Tiny House Villages

Expenditures \$1,262,000

Note: The City Council eliminated funding for this item in the 2020 Adopted Budget.

This item provides one-time funding to ramp down operations at two of the City-sanctioned tiny house villages and replace the lost shelter system capacity with increased space in other villages and enhanced shelters. The City is considering possibilities for the Georgetown and Northlake village locations, both of which have reached the end of their two-year permitting cycles set out in City Ordinance 12474 which originally authorized the establishment of sanctioned encampments. Other encampments which are also at the end of this permitting cycle are likely to enter agreements for sponsorship with faith-based communities which would allow them to remain in place.

Onsite Nurses for Locations that Generate a High Volume of 9-1-1 Medical Calls

Expenditures \$650,000

This item adds ongoing funding to provide onsite nurse support for an after-hours swing shift at five shelter and permanent supportive housing locations which have been identified as among those generating the highest volume of non-emergency 9-1-1 calls. This funding will serve the low-acuity medical needs of those who most frequently access the City's 9-1-1 emergency response system. Nurses will perform basic patient triage and address medical complaints of clients in alignment with the Seattle Fire Department's patient evaluation and triage approach.

Nurse Call Line

Expenditures \$40,000

This item adds \$40,000 in 2020 to open and operate a 24/7 nurse call line to handle low-acuity calls from staff and clients at city shelters and permanent supportive housing locations, with the goal of reducing the burden posed by these calls on the City's 9-1-1 emergency response system.

Human Services Department

Downtown Emergency Services Center (DESC) piloted such a call line from 2017 to 2018. The pilot covered 15 DESC sites. This pilot found that only 80% of the calls received by the call line did not need to be redirected to 9-1-1. This budget action provides for \$3,000 for one-time startup costs and \$37,000 for ongoing operations. It is estimated that this funding will allow the call line to field as many as 900 calls per year.

Mt. Baker Family Resource Center

Expenditures \$840,000

This item provides one-time funding to support the ramp-up of program operations at the Mt. Baker Family Resource Center. These programs are operated by Mary's Place, Childcare Resources, and Refugee Women's Alliance, and are located at Mercy Housing's Mount Baker Affordable Housing building. This center will serve families living at the building as well as those living in the surrounding area. Services will include housing search and navigation, childcare resources and referrals, financial literacy, parent coaching, preventative health education, and employment services.

Seattle Rental Housing Assistance Pilot Extension

Expenditures \$515,000

This item provides additional one-time funding to sustain the Seattle Rental Housing Assistance Pilot (SRHAP) program through the end of 2020. The pilot was originally scheduled to end by February of 2020.

This pilot program provides funding for direct financial assistance, staffing, and other costs to support homelessness prevention services for households on the Seattle Housing Authority (SHA) Housing Choice Voucher waitlist. In October of 2018, SHA slowed the rate at which vouchers are issued in an effort to facilitate a higher success rate among voucher holders in finding housing. A byproduct of this policy has been increased wait times for those on the list, including households enrolled in the SRHAP pilot program.

Additional Inflationary Increase for Human Service Provider Contracts

Expenditures \$1,564,998

This item provides an additional inflationary increase to human services provider contracts in 2020. In July of 2019 the City Council passed Ordinance 125865, which requires that human services provider contracts provide an inflationary increase each year when renewed or renegotiated. The ordinance calls on HSD to use the annual average growth rate of the Seattle-Tacoma-Bellevue Area Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) to determine the inflationary increase amount. CPI-W for this budget cycle is 2.6%.

The 2019 Adopted and 2020 Endorsed Budgets provided for a 2% increase in each year to those human services provider contracts which are supported by General Fund revenues. This proposed additional increase adds \$739,770 to provide the remaining 0.6% to General Fund-backed contracts and adds \$825,228 to provide the full 2.6% increase to most contracts funded by grants or other non-general fund revenues.

King County Domestic Violence Hotline

Expenditures \$375,000

This item provides \$375,000 in ongoing money to support a county-wide domestic violence hotline. King County and partnering agencies will provide the remaining \$1.2 million annually. The County line will provide 24-hour, multi-lingual, multi-modal services including immediate crisis support and counseling, and serve as single point of contact for referral to the region's specialized survivor advocacy services, children's services, and legal, medical, and housing assistance.

Human Services Department

Sweetened Beverage Tax-Backed Investment in Food Banks and HSD Staff Capacity

Expenditures	\$1,125,000
Position Allocation	2.00

This item provides Sweetened Beverage Tax (SBT) revenue to the Human Services Department to support the expansion of staff and programs. Approximately \$300,000 will provide for the addition of a Sr. Grants and Contracts Specialist and a Strategic Advisor II to the department. The remainder of this add, which is approximately \$825,000, will be used to support the work of food banks.

The addition of Sweetened Beverage Tax revenue has resulted in a significant increase to HSD's budget for food and nutrition programs since 2018. These two staff are needed to ensure this funding receives sufficient oversight as it gets programmed, monitored, and reported. The Strategic Advisor II will also be the primary point of contact within HSD for communicating with key stakeholders on issues related to the use of SBT revenue, such as the SBT Community Advisory Board, the Mayor's Office, and Seattle City Council. These staff positions will account for 5.8% of HSD's \$5,149,713 in SBT-backed spending in the 2020 Proposed Budget. This total represents a true increment to HSD's budget relative to spending before the SBT was imposed, because the use of SBT to replace previous General Fund support has been eliminated from the 2020 budget.

Seattle Youth Employment Program Year-Round Expansion

Expenditures	\$310,019
Position Allocation	2.00

This item adds a year-round component to the Human Services Department's Seattle Youth Employment Program (SYEP). SYEP has traditionally served 400 youth from low-income and historically disadvantaged communities in a summer internship program. This expansion will serve 200 of the program's participants in three consecutive modules during the fall, winter, and spring. The new modules will provide career navigation, exploration, and skill-building opportunities to augment the existing summer internships. Participants will receive support for food, transportation, work appropriate clothing, and stipends or wages. This budget change will fund the two additional Youth Development Counselors needed to provide the youth support services that are central to this program's service model.

Additional Staff to Support the Utility Discount Program

Expenditures	\$169,037
Revenues	\$169,037
Position Allocation	2.00

This Item adds one Program Intake Representative and one Administrative Specialist to HSD to support the Utility Discount Program. Since 2014, HSD has been charged with increasing enrollment in the UDP from 14,000 to 34,000 utility payers. This has resulted in higher caseloads and the need for additional staff to provide necessary administrative and enrollment support. These positions are backed by funding from Seattle Public Utilities and Seattle City Light.

CDBG Capital Investments

Expenditures	\$2,000,000
--------------	-------------

This item invests previously unused Community Development Block Grant (CDBG) money from the U.S. Department of Housing and Urban Development (HUD). These funds will go to support Seattle Housing Authority (SHA) and International Community Health Services (ICHS). SHA will use these funds to make much-needed upgrades to fire alarm systems and other building maintenance needs at its properties. These upgrades will both improve the safety of residents and reduce the number of false alarms to which the Seattle Fire Department currently responds. ICHS

Human Services Department

will use CDBG funding to support the completion of a facility for a Program of All-Inclusive Care for the Elderly (PACE) for the Asian Pacific Islander community.

Chief Seattle Club Health Clinic

Expenditures \$1,000,000

This item is a one-time capital investment in Chief Seattle Club's project to build affordable housing units and a health clinic in Pioneer Square. Seattle Indian Health Board will rent the main floor of the building and operate the health clinic. The project will also provide Chief Seattle Club with space to provide expanded services, including case management, job training, and education. Once constructed, it is estimated that the on-site clinic will provide primary care for between 600 and 1,200 homeless and low-income American Indian/Alaska Native people each year.

Safety RFP Ramp-Down Funding

Expenditures \$1,313,696

This item provides one-time funding in 2020 to ramp down City support of programs which previously received funding from the Human Services Department, but which were unsuccessful in the Department's 2019 Safety RFP process. 24 eligible applications to this RFP were reviewed by a 15-person review committee comprised of non-profit leaders, subject matter experts, local youth, and City staff from the Legislative, Law, Human Services, and Education and Early Learning departments. 14 organizations were successful in the RFP and were together awarded nearly \$4.5m. Of those not awarded, seven held contracts with the Human Services Department in 2019 and will receive this one-time support in 2020 to help mitigate the impacts of the RFP results on their programs and clients.

One-time Capital Investment in LGBTQ Youth facility

Expenditures \$500,000

This item adds one-time funding for Lambert House in support of its capital campaign. Lambert House empowers lesbian, gay, bisexual, transgender, and questioning youth through the development of leadership, social, and life skills. The organization offers LGBTQ youth over 30 different annual and ongoing programs, activities, resources, and services.

This funding will support Lambert House's current effort to acquire and renovate the building it currently operates in Seattle's Capitol Hill neighborhood. Funding will be distributed after an agreement for public benefits has been negotiated with the organization.

Support Statewide Human Services Advocacy

Expenditures \$25,000

This item adds funding to support the City's statewide human services contract for public policy advocacy. The City contracts with outside organizations to support public policies and funding that benefit low-income or vulnerable Seattle residents, particularly with elected officials in the Washington state government. The Office of Intergovernmental Relations had been managing these contracts in recent years, but the work better aligns with the Human Services Department. This addition will allow for the continued support of these contracts in the Human Services Department.

Proposed Technical

General Fund Appropriation Adjustments

Expenditures \$(386,011)

This item provides for technical adjustments to HSD Budget Control Levels in the General Fund. Changes are a combination of technical transfers between budget projects to align with current allocations made through HSD

Human Services Department

contracts to service providers and the balancing of General Fund items with grant funding in the Human Services Fund.

Grant Funded Appropriation Changes

Expenditures \$6,561,825

This item provides for increased appropriation as a result of current and anticipated grant awards in the Human Services Fund.

In the Addressing Homelessness BCL, changes include a \$1.5m increase in the City's McKinney-Vento award from the U.S. Department of Housing and Urban Development, a \$590,000 increase to the City's Housing Opportunities for People with AIDS (HOPWA) award, and a \$370,000 increase in funds from the City of Seattle's Housing Levy derived from underspend in the prior year. In the Preparing Youth for Success BCL, changes include a \$179,000 reduction in Education Levy funds and a \$175,000 reduction in the use of fund balance. In the Promoting Healthy Aging BCL, changes include a \$3.1 million increase to Title XIX case management funding, a \$358,000 increase in funding from the Older Americans Act, a \$550,000 reduction in transportation grant funding, and a \$177,000 increase in State grant funding, along with other small grant funding changes. In the Supporting Affordability and Livability BCL, changes include a \$400,000 increase in Older Americans Act funds and a \$73,000 increase in Childcare Nutrition Funds from the Office of the Superintendent for Public Instruction. In the Supporting Safe Communities BCL, the change reflects an increase of \$452,000 in the use of Domestic Violence and Sexual Assault funds from court proceeds.

Technical Transfers in the Human Services Fund

Expenditures -

This item contains net-zero transfers within the Human Services Fund. These transfers represent changes to allocations between funding sources, accounts, and projects. The resulting impact a \$76,939 reduction to the Addressing Homelessness BSL, a \$21,049 reduction to the Promoting Healthy Aging BSL, a \$64,447 increase to the Supporting Affordability and Livability BSL, and a \$33,540 increase to the Supporting Safe Communities BSL.

Transfer Funding for Upward Bound from HSD to DEEL

Expenditures \$(573,702)
Position Allocation (4.00)

This item transfers funding and positions for the Upward Bound program from the Human Services Department (HSD) to the Department of Education and Early Learning (DEEL). The Upward Bound program prepares underserved high school students for higher education by promoting academic achievement, goal setting, and career exploration. The program's goal is to give students the knowledge, skills and motivation necessary to earn a two- or four-year college or technical degree after high school. Each year, more than 100 students from three Seattle public high schools participate in Upward Bound.

This transfer to DEEL is occurring to improve mission alignment with the goals of the Families, Education, Preschool and Promise (FEPP) Levy which include pre-college and job readiness for Seattle students. Moving the program to DEEL also allows for efficiencies, and programmatic synergies which will improve access to Seattle Public Schools and Seattle Colleges, provide access to data and evaluation support, and provide direct access for Upward Bound students and families to the Seattle Promise program's services and supports. There is a corresponding adjustment in the DEEL section of the budget. This transfer includes both appropriation authority and program-related revenue from a Federal grant.

Human Services Department

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886 and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero in total.

CDBG and General Fund Transfer

Expenditures -

This item transfers appropriation authority from the general fund to the CDBG funding source in the Human Services fund to maximize the CDBG grant service cap.

Support for Evaluation Capacity at Organizations Operating Programs Backed by Sweetened Beverage Tax Revenue

Expenditures \$249,764

This item transfers ongoing appropriation authority in the amount of \$249,764 from the Office of City Auditor to the Supporting Affordability & Livability BSL in HSD. Funds are transferring from the Auditor to the Human Services Department in order for HSD to provide technical assistance to partner organizations that will expand their ability to evaluate programs funded by the Sweetened Beverage Tax. This item corresponds to item HSD-OT99 in the 2019 3rd Quarter Supplemental Budget Ordinance, which transfers the same amounts from 2018 and 2019 from the Office of City Auditor to the Human Services Department.

Transfer General Fund Appropriation to Short Term Rental Tax Fund

Expenditures -

This item transfers \$3.3 million of General Fund appropriation to the Short Term Rental Tax fund.

Council

Open and Operate a New Tiny House Village

Expenditures \$815,000

The City Council adopted a budget add for the Human Services Department to set up and operate additional capacity for a tiny house village that will serve up to 40 households at a time. This action includes \$142,000 in one-time funding to address start-up costs such as plumbing, electrical, and site preparation. This action includes \$673,000 in ongoing funding for annual operating costs.

The City Council included a proviso requiring that this tiny house village prioritize referrals from the City's Navigation Team, the Law Enforcement Assisted Diversion program, and Seattle Municipal Court.

Further Expand the Number of Tiny House Villages

Expenditures \$1,200,000

The City Council adopted a budget add for the Human Services Department to expand the number of tiny house villages it funds. This investment includes \$600,000 in one-time funding to address start-up costs such as plumbing, electrical, and site preparation. This action also includes \$600,000 in ongoing funding for annual operating costs. An associated proviso was adopted by the City Council requiring that this tiny house village prioritize referrals from the City's Navigation Team, the Law Enforcement Assisted Diversion program, and Seattle Municipal Court.

Human Services Department

Mobile Restroom Facilities

Expenditures \$1,284,000

The City Council adopted an add purchase and operate five mobile restroom units. This action includes \$558,000 in one-time funding to purchase the units and \$726,000 in ongoing funding for annual operating costs. Operating costs include staffing, supplies, drivers, fuel, repair, and maintenance.

Relocation and Building Renovations for a Youth Shelter

Expenditures \$1,500,000

The City Council adopted a one-time budget add for the Human Services Department to fund the relocation and necessary tenant improvements for the ROOTS Young Adult Shelter. This City funding is supplemented by \$1.5 million from the United Temple Methodist Church and an additional \$3 million to be provided by other sources.

Expand Homelessness Services for American Indian and Alaskan Native People

Expenditures \$1,000,000

The City Council adopted a budget action to expand the level of funding for homeless services organizations that primarily serve American Indian and Alaskan Native people in 2020. This action includes \$605,000 in ongoing funding and \$395,000 in one-time funding.

Legal Services for Homeless Youth

Expenditures \$100,000

The City Council adopted an ongoing add to the Human Services Department to support legal services and representation for youth and young adults (age 12-24 years old) who are either experiencing or at a high risk of experiencing homelessness. It is estimated that this investment will provide 1,500 hours of legal services in 2020.

Mental Health Outreach in the University District and Ballard

Expenditures \$206,000

The City Council adopted a one-time budget add to extend an existing pilot program which provides two mental health outreach workers to serve the University District and Ballard neighborhoods. This investment from the City covers 60 percent of the costs for these outreach workers. The Ballard and University District Business Improvement Areas provide the remaining 40 percent of funding needed. It is the Council's intention that this funding cover a 24 month extension of the pilot.

Financial Support for Scofflaw Mitigation Project

Expenditures \$100,000

The City Council adopted a budget action to provide ongoing funding for the Scofflaw Mitigation Project of the Interfaith Task Force on Homelessness, which provides assistance to individuals living in vehicles who have received four or more parking citations. This funding provides City support for part-time outreach and case management staff as well as client financial assistance.

Human Services Department

Provide Women's Hygiene Products and Diapers at City-Funded Shelters

Expenditures \$75,000

The City Council adopted a budget action to provide women's hygiene products and diapers to residents at City-funded shelters and tiny house villages. \$58,000 is intended for women's hygiene products and \$17,000 is intended for a diaper distribution pilot program for families in need.

Cut Funding from Safe Overnight Parking Pilot Program

Expenditures \$(125,000)

The City Council adopted a budget action to eliminate \$125,000 in one-time funding from a pilot program for safe overnight parking for individuals living in cars.

Funding to Support a Safe Overnight Parking Lot

Expenditures \$158,000

The City Council adopted a budget action to provide one-time funding to the Human Services Department to support a safe overnight parking lot for people living in vehicles. This action replaces \$125,000 for safe overnight parking that was cut by the City Council in another budget action and adds an additional \$33,000. This funding is in addition to \$250,000 in one-time money for a safe overnight parking pilot program which was in the base budget for 2020, bringing the Human Services Department's total funding for safe overnight parking to \$408,000 for 2020.

Expand Outreach to Homeless Encampments in North Seattle Neighborhoods

Expenditures \$210,000

The City Council adopted an action to invest in additional outreach to individuals experiencing homelessness on the north end of the city. The outreach workers funded by this action will work in collaboration with the Navigation Team, the Law Enforcement Assisted Diversion program, local businesses, the Seattle Police Department's Community Police Team, and local human services providers.

Cut Funding for the Relocation of Tiny House Villages

Expenditures \$(1,262,000)

The City Council adopted a budget action which cuts one-time funding to relocate two tiny house villages. This funding was included in the Mayor's Proposed Budget due to the anticipated expiration of land use permits which authorized the villages. It is expected that alternative arrangements such as temporary permit extensions or the passage of an ordinance by City Council will eliminate the need to move the two villages in 2020.

Reduce Start-Up Funding for Regional Homelessness Authority

Expenditures \$(345,000)

The City Council adopted a budget action to reduce one-time funding allocated for start-up costs for the new Regional Homelessness Authority. The Mayor's proposed budget included \$2,000,000 for this item. This action reduces the funding level to \$1,655,000.

Rental Assistance Pilot

Expenditures \$700,000

The City Council added \$700,000 of reprioritized General Fund resources for the Human Services Department (HSD) to create and evaluate a rental assistance pilot for individuals who (1) are age 50 or older, (2) have income limited to

Human Services Department

federal disability benefits, specifically Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI), that is no more than \$1,000 per month, and (3) are at risk of or currently experiencing homelessness. This funding is in addition to two other Council Budget Actions, resulting in a total of \$750,000 in 2020 for this purpose.

Staffing to Support Homelessness Investments

Expenditures	\$159,000
Position Allocation	1.00

The City Council adopted a one-time budget add to fund a term-limited planning and development specialist to support implementation and management of the City's homelessness investments in the Human Services Department.

Expanded Investment in the Law Enforcement Assisted Diversion Program and Additional Staff in the Law Department

Expenditures	\$3,500,000
--------------	-------------

The City Council adopted an ongoing budget action to significantly expand the City's investment in the Law Enforcement Assisted Diversion (LEAD) program. This action also adds authority for one full-time Assistant City Prosecutor position to the Criminal Division of the City's Law Department, bringing the number of LEAD-focused staff in the Law Department up to 2.5. Funding for this position will be provided by the LEAD program to the Law Department, and will be documented in a formal memorandum of understanding.

Youth Diversion, Community Building, and Education Programs

Expenditures	\$300,000
--------------	-----------

The City Council adopted a one-time budget action to fund organizations providing youth diversion, restorative justice, and non-arrest crime reduction programs.

Reallocate Funding from the Seattle Police Department to Support Additional Investment in Youth Diversion, Community Building, and Education Programs

Expenditures	\$222,600
--------------	-----------

The City Council adopted an ongoing budget action which reallocates funding from the Seattle Police Department to other priorities in order to further invest in crime prevention and youth diversion programming. These investments seek to provide alternatives to traditional criminal justice system engagement for youth.

Support for Construction of the Bill Hobson Comprehensive Clinic

Expenditures	\$1,800,000
--------------	-------------

The City Council adopted a budget action to provide one-time funding toward the development of Downtown Emergency Services Center's Bill Hobson Comprehensive Clinic. The clinic requires a total of \$22 million. In addition to the funding provided in this budget action, the clinic currently has financing commitments of \$8 million from the State capital budget, \$3 million in New Markets Tax Credits, \$1 million in private capital.

Harm Reduction Outreach Program for Sex Workers and Drug Users

Expenditures	\$140,000
--------------	-----------

The City Council adopted a one-time budget action to fund harm-reduction and outreach services to street-based sex workers and drug users. These funds may also be used harm reduction materials such as safe sex supplies, safe injection supplies, and fentanyl test kits.

Human Services Department

Sex Industry Workers Diversion Program

Expenditures \$124,000

The City Council adopted a one-time budget action for the Human Services Department to provide Sex Industry Workers Diversion classes through a contracted provider. This program will provide a post-booking diversion option for prostitution arrests consistent with the requirements of Seattle Municipal Code 12A.10.110, and will provide navigation to services such as education and employment readiness, housing, and chemical dependency counseling.

HIV/AIDS and Chronic Illness Education for the African American Diaspora

Expenditures \$55,000

The City Council adopted a one-time budget action to support an organization called African Americans Reach and Teach Health, which provides education to the African American diaspora about HIV/AIDS and chronic illnesses. This work will be conducted in collaboration with community clinics, community-based organizations, senior services, residential housing facilities, and the Human Services Department's Aging and Disability Services division.

Transportation and Activities for Low-Income Seniors

Expenditures \$10,000

The City Council adopted an ongoing budget action to provide funding for transportation and activities for low-income seniors. This funding will support bus passes, senior activities, and meals.

State-Wide Human Services Lobbying and Advocacy

Expenditures \$60,000

The City Council adopted a one-time budget action to fund a contract for state-wide lobbying and advocacy with a focus on addressing poverty and creating opportunities. The Mayor's Proposed Budget included \$25,000 for similar efforts. This budget action brings the Human Services Department's total funding for state-wide lobbying and advocacy to \$85,000.

Redirect Sweetened Beverage Tax to Support Food and Education Programs

Expenditures \$735,000

This change reduces one-time Sweetened Beverage Tax (SBT) support for capital improvements in the P-Patch program in the Department of Neighborhood (DON) from \$3,000,000 to \$725,000, a \$2,275,000 decrease. Individual department changes below are reflected in each department's budget section. The full \$2,275,000 decrease is shown below for reference, and directed to the following priorities:

- \$75,000 increase to the Office of Sustainability and Environment (OSE) for consultant services to assess scratch cooking infrastructure at Seattle Public Schools (SPS);
- \$300,000 increase to Seattle Parks and Recreation Department (SPR) and \$140,000 increase to OSE for installation of water bottle filling stations at community centers and Seattle Public Schools;
- \$735,000 increase to the Human Services Department (HSD) to provide micro-grants to food banks, meal program sites, and home childcare programs for kitchen equipment and supplies;
- \$225,000 increase to OSE for consultant services to develop an evaluation plan for all SBT-supported programs;
- \$100,000 increase to the Department of Education and Early Learning (DEEL) to provide grants to community-based organizations that work to provide diapers to families of diaper-aged children;
- \$375,000 increase to DEEL to evaluate how the City can facilitate connecting families with childcare providers and develop strategies and models based on best, promising, or emerging practices to address the lack of affordable and accessible childcare for infant and toddler care (0-3 years of age) from other jurisdictions;

Human Services Department

- \$225,000 increase to OSE for an additional 450 Fresh Bucks vouchers, expanding access to a total of 6,450 vouchers; and,
- \$100,000 increase to OSE for consultant support to assist with the Community Advisory Board's annual report and other materials.

This Budget change also imposes the following budget proviso on DON:

"Of the appropriations in the 2020 budget for the Department of Neighborhoods, \$725,000 is appropriated for capital improvements for P-Patch gardens located within Healthy Food Priority Areas, as presented on page 22 of the Healthy Food Availability & Food Bank Network Report, published in February 2019, and may be spent for no other purpose. Furthermore, the Council anticipates that funding will be prioritized for gardens located within areas where all three factors - lower income, longer travel times to healthy food retailers, and higher percentage of unhealthy food retailers - are present."

Thomas Street Redesign (SDOT); Rental Assistance Pilot (HSD)

Expenditures \$40,000

This Council Budget Action contains two unrelated components: a Seattle Department of Transportation (SDOT) change and a Human Services Department (HSD) change.

SDOT: The Council established a new Thomas Street Redefined CIP project (MC-TR-C105) and added \$1.76 million of one-time General Fund (of which \$1.25 million is TNC tax) for improvements to Thomas St from 5th Ave N to Dexter Ave N. Improvements may include, but are not limited to: a half block closure of 5th Ave N and Thomas St to create a public plaza adjacent to the Seattle Center skatepark; a 36-foot wide pedestrian and bicycle promenade from 5th Ave N to Dexter Ave N; and/or a protected intersection at Dexter Ave N and Thomas St. The project will be coordinated with streetscape improvements funded by Seattle City Light for the street frontage of the Broad Street Substation and intersection improvements at 7th Ave N and Thomas St funded by the Washington State Department of Transportation.

HSD: The Council added \$40,000 of reprioritized General Fund resources for the Human Services Department (HSD) to create and evaluate a rental assistance pilot for individuals who (1) are age 50 or older, (2) have income limited to federal disability benefits, specifically Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI), that is no more than \$1,000 per month, and (3) are at risk of or currently experiencing homelessness. This funding is in addition to two other Council Budget Actions, resulting in a total of \$750,000 in 2020 for this purpose.

Fund Threat Assessment Specialist Paralegal in the Criminal Division at \$117,000 for Domestic Violence Firearm Enforcement, Add \$10,000 to the Human Services Department for a Rental Assistance Pilot, and Impose Provisos

Expenditures \$10,000

This Council Budget Action adds \$117,000 GF to the Criminal Division in support of the Regional Domestic Violence Firearm Enforcement Unit (Unit) to fund a threat assessment specialist paralegal. This specialist would serve as a regional asset and first point of contact for high-risk firearm-related case assessment and would be responsible for case triage and assessment of both civil (protection order-related cases, including Extreme Risk Protection Orders) and criminal cases.

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2020 budget for the City Attorney's Office, \$117,000 is appropriated solely for a threat assessment specialist to be assigned to the Regional Domestic Violence Firearm Enforcement Unit and may be spent for no other purpose."

This Council Budget Action also adds \$10,000 for the Human Services Department (HSD) to create and evaluate a

Human Services Department

rental assistance pilot for individuals who 1) are age 50 or older, 2) have income limited to federal disability benefits, specifically Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI), that is no more than \$1,000 per month, and 3) are at risk of or currently experiencing homelessness. This funding is in addition to two other Council Budget Actions resulting in a total of \$750,000 in 2020 for this purpose.

Council Provisos

Council Provisos to the Human Services Department Budget

The City Council adopted the following provisos to the Human Services Department budget for 2020:

“Of the appropriations in the 2020 Budget for the Addressing Homelessness BSL, \$1,200,000 is provided solely to establish and operate a new tiny home village or enhanced shelter that will prioritize accommodating housing referrals from the Navigation Team, Law Enforcement Assisted Diversion program, and Seattle Municipal Court and may be spent for no other purpose.”

“Of the appropriations in the 2020 Budget for the Addressing Homelessness BSL, \$815,000 is provided solely to establish and operate a new tiny home village or enhanced shelter that will prioritize accommodating referrals from the Navigation Team, Law Enforcement Assisted Diversion program, and Seattle Municipal Court, as long as the referral is appropriate for that program model, and may be spent for no other purpose.”

“Of the funds provided to the Human Services Department in 2020, no funds shall be used to relocate or otherwise cease operations of the Georgetown Tiny Home Village in 2020.”

“Of the appropriations in the 2020 Budget for the Preparing Youth for Success BSL, \$100,000 is appropriated solely to provide legal services and representation for youth who are experiencing or at risk of homelessness, and may be spent for no other purpose.”

“Of the appropriation for the Addressing Homelessness BSL, \$206,000 is provided solely to fund a contract for mental health outreach workers in the University District and Ballard and shall be spent for no other purpose. Unspent funds so appropriated shall carry forward to subsequent fiscal years for this same purpose until they are exhausted or abandoned by ordinance.”

“Of the appropriation in the 2020 Budget for the Addressing Homelessness BSL, \$1,655,000 is provided for start-up costs stemming from the creation of a regional authority on homelessness and may be spent for no other purpose.”

“Of the appropriation in the 2020 budget for the Human Services Department, \$5.6 million is appropriated solely for a contract with a law enforcement assisted diversion program and may be spent for no other purpose.”

“Of the appropriation in the 2020 budget for the Human Services Department, \$350,000 is appropriated solely for a contract with a law enforcement assisted diversion program and would be used to sub-contract with Seattle City Attorney’s Office to support two law enforcement assisted diversion focused attorneys and a 0.5 FTE paralegal position and may be spent for no other purpose.”

“Of the appropriation in the 2020 budget for the Human Services Department, \$100,000 is appropriated solely for the Human Services Department to fund a study to be led by the Mayor’s Office, in consultation with a law enforcement assisted diversion program’s evaluation workgroup and Council central staff, that determines the staff and budget that is necessary to accept all appropriate referrals for priority individuals, and to determine, in consultation with the evaluation workgroup and Council central staff and an appropriate center at an academic institution whether the dedicated a law enforcement assisted diversion liaison attorney position initiated in spring 2017 has resulted in City cost savings through decreased warrants, filings, jail bookings, jail stays or otherwise and may be spent for no other purpose.”

“Of the appropriations in the 2020 budget for the Human Services Department, \$124,000 is appropriated solely for

Human Services Department

the sex industry workers diversion program and may be spent for no other purpose.”

“Of the appropriations in the 2020 Budget for the Addressing Homelessness BSL, \$700,000 is appropriated solely to provide rental assistance and case management of no more than 12 months to disabled individuals over the age of 50 who are homeless or at-risk of experiencing homelessness due to a transition onto federal disability programs, and to evaluate the effects of that program, and may be spent for no other purpose.”

“Of the appropriations in the 2020 Budget for the Addressing Homelessness BSL, \$10,000 is appropriated solely to provide rental assistance and case management for no more than 12 months to disabled individuals over the age of 50 who are homeless or at-risk of experiencing homelessness due to a transition onto federal disability programs, and to evaluate the effects of that program, and may be spent for no other purpose.”

“Of the appropriations in the 2020 Budget for the Addressing Homelessness BSL, \$40,000 is appropriated solely to provide rental assistance and case management for no more than 12 months to disabled individuals over the age of 50 who are homeless or at-risk of experiencing homelessness due to a transition onto federal disability programs, and to evaluate the effects of that program, and may be spent for no other purpose.”

“No more than \$830,500 of the money appropriated in the 2020 Adopted Budget for the Addressing Homelessness BSL may be spent for the functions and activities performed by the City’s Navigation Team until the Executive files with the City Clerk, without vote, quarterly reports on the topics outlined [in Council Budget Action HOM-15-C-1]. Upon the filing of an initial report by January 31, 2020, an additional amount of up to \$830,500 may be spent; upon the same filing of another report on the same topics by April 30, 2020, an additional amount of up to \$830,500 may be spent; upon the same filing of another report on the same topics by July 31, 2020 and commencement of operations for no less than 60 new spaces funded by Budget Actions HOM-2-C-1 and HOM-3-B-3 or their substitute actions, an additional \$830,500 may be spent; and the same filing of another report on the same topics is due by November 19, 2020.”

“Of the funds provided to the Human Services Department (HSD) in the Promoting Public Health BSL, \$500,000 is appropriated solely to fund substance abuse disorder treatment as an addition to the base contract between HSD and Seattle King County Public Health rather than as a single year amendment and may be spent for no other purpose.”

Appropriations by Budget Summary Level and Program

HSD - BO-HS-H1000 - Supporting Affordability and Livability

The purpose of the Supporting Affordability & Livability Budget Summary Level is to support educational programs for children, youth, and families; and provide utility payment and transportation assistance to Seattle residents with low incomes.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Access to Services	1,822,587	3,844,998	3,657,215	4,657,503
Community Facilities	-	3,512,451	1,779,074	8,672,325
Emergency Preparedness and Program Administration	-	943,876	906,207	1,181,250
Food & Nutrition	14,238,091	15,295,344	15,460,766	18,412,356
Total	16,060,678	23,596,669	21,803,261	32,923,434
Full-time Equivalents Total*	25.00	28.00	28.00	32.00

*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

The following information summarizes the programs in Supporting Affordability and Livability Budget Summary Level:

Access to Services

The purpose of the Access to Services Program is to provide information and access to community resources that support affordability and livability, including utility payment assistance and vehicle license rebates to low income residents in the City of Seattle.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Access to Services	1,822,587	3,844,998	3,657,215	4,657,503
Full Time Equivalents Total	14.00	14.00	14.00	16.00

Community Facilities

The purpose of the Community Facilities Program is to support the construction of facilities that are primarily for the benefit of low-income people in Seattle, including childcare facilities.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Community Facilities	-	3,512,451	1,779,074	8,672,325

Emergency Preparedness and Program Administration

This Budget Summary Level is being combined with the Affordability and Livability Budget Summary Level in the 2019 Budget.

Seattle Department of Construction and Inspections

Nathan Torgelson, Director

(206) 684-8600

www.seattle.gov/sdci

Department Overview

The Seattle Department of Construction and Inspections (SDCI) administers City ordinances regulating building construction, the use of land, and housing. It supports Mayor Durkan's priority of delivering essential City services and building safer, more just communities.

SDCI is responsible for developing and enforcing policies and codes related to public safety, environmental protection, land use, construction and rental housing, including:

- Environmentally Critical Areas Ordinance (ECA)
- Housing and Building Maintenance Code (HBMC)
- Just Cause Eviction Ordinance
- Rental Registration and Inspection Ordinance (RRIO)
- Seattle Building and Residential Codes
- Seattle Condominium and Cooperative Conversion Ordinances
- Seattle Electrical Code
- Seattle Energy Code
- Seattle Grading Code
- Seattle Land Use Code
- Seattle Mechanical Code
- Seattle Noise Ordinance
- Seattle Rental Agreement Regulation Ordinance
- Seattle Shoreline Master Program (SSMP)
- Seattle Tenant Relocation Assistance Ordinance (TRAO)
- Seattle Tree Protection Ordinance
- State Environmental Policy Act (SEPA)
- Stormwater Code

SDCI reviews land use and construction-related permits, annually approving more than 51,000 permits and performing approximately 230,000 on-site inspections. SDCI's work includes permit review and community involvement with Master Use Permits (MUPs); shoreline permits and design review; review and approval of permits for construction, mechanical systems, site development, elevators, electrical installation, boilers, furnaces, refrigeration, signs and billboards; field inspections for all construction and trade-related permits; annual maintenance inspections of boilers, elevators, and refrigeration equipment; and home seismic retrofits.

SDCI also enforces compliance with the codes and handles more than 30,000 contacts per year at the Code Compliance Complaint Center.

SDCI operations are funded by a variety of fees and General Fund resources. SDCI must demonstrate that its fees are set to recover no more than the cost of related services. To provide this accountability, SDCI uses cost accounting to measure the full cost of its programs. Each program is allocated a share of departmental administration and other overhead costs to calculate the revenue requirements of the program.

Budget Overview

The City of Seattle continued to see historically high levels of development activity in 2019. In 2018, SDCI's volumes of construction permits, building and electrical inspections, and housing, zoning and construction complaints were in line with the record levels SDCI has seen over the past three years. While high permit levels continued in 2019, the pace of development is projected to decrease in 2020.

Due to the strength of the development cycle, 13 positions were added to SDCI in 2019 to support land use zoning review and shorten permit review times. The 2020 Adopted Budget includes these newly added positions, which have a sunset date of December 31, 2022. These positions are funded by permit fees and other building and land use revenues.

Accela is the City's enterprise-wide permitting system that allows greater sharing between departments that are using the system, including SDCI, the Seattle Department of Transportation and the Seattle Fire Department. Accela will also provide a more streamlined process for applicants. In September 2018, SDCI and the Seattle Information Technology Department (Seattle IT) signed a change order to accelerate enhancement work and issue resolution of the new permit, complaint, and land use tracking and permitting system upgrade for SDCI. This change order was extended to the end of 2019. Ongoing improvements are being made throughout 2020 and beyond as the department continues to enhance the new system. In addition, continued investment in the Accela permitting initiative will lead to more immediate permitting process improvements, and better customer experience and interaction. SDCI's adopted budget makes two additional investments in the Accela program: it adds \$241,000 for SDCI's share of City-wide Accela support by Seattle IT, and it adds \$1.6 million for SDCI-specific Accela work.

The adopted budget advances Mayor Durkan's goal of seizing opportunities to build a more vibrant city for the future by adding a new position to serve as an Accessory Dwelling Unit (ADU) navigator, as directed in Executive Order 2019-4. The department is also planning for the future by participating in environmental review work for Sound Transit 3, a \$54 billion public transit expansion with a major light rail investment within Seattle.

Except for Code Compliance and Land Use Code Development, SDCI is primarily fee-supported and its fees and charges are necessary to fund its permitting and inspections operations. Per state law and Seattle Municipal Code, all fees collected by SDCI for processing and inspecting permits are used for that purpose, and the fee structure is established accordingly. The 2020 Adopted Budget includes legislation that revises most of SDCI's 2020 fees and charges by 4% to align with the Consumer Price Index (CPI) increase. The legislation also adjusts the land use hourly fee from \$386 to \$394, consistent with direction provided by Council during the 2019 Adopted Budget process. Please see the legislation for more detail.

Seattle Department of Construction and Inspections

City Council Changes to the Proposed Budget

The City Council changed SDCI's 2020 Proposed Budget in the following ways:

- the Council added \$235,684 and two FTEs to facilitate implementation of new tenant protection regulations and improve tenant outreach and education;
- the Council added \$230,000 for eviction legal defense;
- the Council added \$111,535 and one FTE to enforce Washington State regulations related to electrical contractor licensing; and
- the Council added \$60,000 for renter organizing and outreach.

Seattle Department of Construction and Inspections

Description of Incremental Budget Changes

Baseline

Citywide Indirect Costs Accela O&M Baseline Adjustment

Expenditures -

This baseline adjustment transfers \$1 million associated with Accela operations and maintenance (O&M) from the IT Allocation in the Leadership & Administration BSL to the Process Improvements & Technology BSL. This adjustment is within SDCI's Construction and Inspections Fund.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$3,682,936

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. \$310,000 of this increase is from the General Fund, \$10,000 is from the Unrestricted Cumulative Reserve Fund, and \$3,362,936 is from SDCI's Construction and Inspections Fund.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$55,500

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees. General Fund supports \$5,000 of this increase and \$50,500 is from SDCI's Construction and Inspections Fund.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,146,355

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services (FAS) rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Divisional Indirect Costs Green Sheet Position Restoration Baseline Adjustment

Expenditures -

This adjustment corrects budget allocations for three Admin Spec II positions that were restored by the City Council in Green Sheet 33-2-A-2-2019; this is required because the Council added back the full budget for these positions to the Leadership & Administration BSL, but the budget should have been split between the Leadership & Administration BSL and the Inspections BSL.

Seattle Department of Construction and Inspections

Reallocate Budget for Site Inspection Position to Site Development Program

Expenditures -

This adjustment realigns a position in the correct BSL/Program. A 1.0 FTE Site Dev Insp should have been allocated to Site Development in the Permit Services BSL; it was instead allocated to Site Inspections in the Inspections BSL. This change was a result of the restructure of the Site Development group during 2018 due to Summit Reimplementation.

Proposed Operating

Accessible Dwelling Unit (ADU) Navigator

Expenditures \$118,013
Position Allocation 1.00

Mayor Durkan directed SDCI to add a new "Accessory Dwelling Unit (ADU) Navigator" position via Executive Order 2019-4 to help guide homeowners through the permitting process for ADUs and Detached Accessory Dwelling Units (DADUs). A 2019 Third Quarter Supplemental Budget Ordinance item adds the position authority and budget appropriation for this position during only 2019. This action provides on-going budget appropriation and position authority for 1.0 FTE Permit Spec II position in SDCI's Permit Services BSL. This position is supported by fees in the Construction and Inspections Fund.

Divide Building Official and Principal Engineer Positions

Expenditures \$198,838
Position Allocation 1.00

This action adds 1.0 FTE Executive 2 position in the Permit Services program in preparation for the retirement of the individual who currently holds the titles of both Principal Engineer and Building Official. This position will provide continuity of service and is supported by fees in the Construction and Inspections Fund.

Parking Fee Increase

Expenditures \$352,800

This item covers costs for parking fee increases during 2019. Costs rose from approximately \$85/month per space to \$300/month per space. Parking fees were not previously budgeted in SDCI. The fees are paid for by Construction and Inspections Fund fees.

Increased Position Costs from Business-Driven Position Reclassifications and Position Alignments

Expenditures \$87,675
Position Allocation -

This action increases appropriation authority to cover increased labor costs due to seven position reclassifications that allow SDCI to better fulfill its business needs, improve customer service response levels, and retain talented staff. The General Fund supports \$8,554 of this item; the remaining \$79,121 is supported by SDCI's Construction and Inspections Fund.

Mayor-Directed Efficiencies in Vacancies

Position Allocation (1.00)

This action reduces position authority only for a 1.0 FTE Code Compliance Analyst position in the Compliance program. A sunset position was added in the 2015 Second Quarter Supplemental Budget Ordinance to assist with

Seattle Department of Construction and Inspections

the Shoreline Management Program. This position was added as an ongoing position in the 2016 Adopted Budget, and Seattle HR inadvertently added another pocket for the same body of work.

RRIO Inspections Program Positions

Position Allocation -

This action extends one position's sunset date from December 31, 2019 to December 31, 2022 and converts another sunset position to a regular ongoing position in order to maintain staffing capacity in support of the Rental Registration and Inspection Ordinance (RRIO) program. Ordinance 125705 changed the RRIO program's registration renewal cycle from five years to two years and adjusted RRIO program fees. The costs associated with these positions are included in the baseline, so there are no incremental costs. These positions are supported by RRIO fees in the Construction and Inspections Fund.

Seattle Department of Construction and Inspections Accela Work Group

Expenditures \$1,607,807

This action establishes a dedicated Seattle Information Technology Department (Seattle IT) project and provides nine positions in Seattle IT for the Seattle Department of Construction and Inspection's (SDCI's) Accela work items. The project supports ongoing innovation and enhancements that maximize efficiency and optimize customer experiences with permitting technology. This item allows quick response to new legislation and Mayor's Office priorities that require changes to Accela and related side systems; it also supports continued improvements to Accela as identified by SDCI. Of this amount, \$25,425 is one-time and the remainder is ongoing. This item is supported by permit fee revenues from the Construction and Inspections Fund.

Increase Seattle IT Allocation to Fund Accela Support

Expenditures \$240,627

Seattle IT added positions to support the Permitting System Integration (PSI) body of work. This item adds expenditure authority to SDCI to fund its allocation of expenditures for PSI. Please see Seattle IT's budget book pages for more detail in the "Increase Staff Support for Accela Program" item. This item is funded by permit fees in SDCI's Construction and Inspections Fund.

Seattle Department of Construction and Inspections Laptop Purchase

Expenditures \$401,465

These funds support the Seattle Department of Construction and Inspection's purchase of 140 laptops and laptop accessories. This one-time purchase of laptops will replace desktop computers. General Fund supports \$34,411 of this item and the remaining \$367,054 is from the Construction and Inspections Fund.

Proposed Technical

Land Use Zoning Reviewers related to CBA

Expenditures \$1,847,457

Position Allocation 13.00

This technical item increases budget appropriation and position authority for 11.0 FTE Land Use Planner III, 1.0 FTE Land Use Planner IV, and 1.0 FTE Permit Spec II positions with sunset dates of December 31, 2022. These 13 positions were added with the use of 2019 Contingent Budget Authority (CBA) and the subsequent 2019 Second Quarter Supplemental Budget Ordinance. The addition of these positions will reduce permit issuance times and reduce the backlog of zoning, discretionary land use, and addressing reviews. These positions are supported by fees in the Construction and Inspections Fund.

Seattle Department of Construction and Inspections

Overhead Technical Adjustment

Expenditures -

This action adjusts the distribution of indirect overhead expenses across programs to account for changes in the following budget programs: Compliance; Government Policy Safety & Support; Indirect Cost Recovery Offset; Inspections; Land Use Services; Permit Services; and Rental Housing. The adjustment also redistributes indirect overhead across SDCI programs consistent with the adopted budget. This budget-neutral adjustment represents a \$19,354 General Fund decrease and a corresponding increase from the Construction and Inspections Fund.

Council

Tenant Outreach, Property Owner and Tenant Assistance Group Staffing

Expenditures \$235,684
Position Allocation 2.00

This item adds position authority for 1.0 FTE Housing and Zoning Technician and 1.0 FTE Code Compliance Analyst to facilitate implementation of new tenant protection regulations and improve related outreach and education efforts.

In September 2019, the City Council passed five bills that modified or created new tenant protections. SDCI estimates that two ongoing positions are needed to address SDCI's existing workload, implement new regulations and provide outreach on City laws to landlords and tenants. This item is supported by ongoing General Fund except for \$7,000 of one-time General Fund which will be used to develop outreach materials.

Eviction Legal Defense

Expenditures \$230,000

This item adds one-time General Fund support for SDCI to contract with an outside organization to provide legal representation for Seattle renters facing eviction. This item funds two tenants' rights attorneys to provide eviction defense legal support.

Electrical Contractor Licensing Enforcement

Expenditures \$111,535
Position Allocation 1.00

The 2020 Adopted Budget adds 1.0 term-limited FTE Electrical Inspector and \$111,535 of General Fund to enforce state laws and regulations applicable to electrical contractors. The goal is to combat the use of unlicensed electrical contractors and uncertified electricians. This item includes \$35,000 for a one-time vehicle purchase for the inspector. The position starts mid-2020 and ends on December 31, 2021.

Renter Organizing and Outreach Expenditures; Reduction to SPD and SDOT

Expenditures \$60,000

This item adds \$60,000 of General Fund Resources for SDCI to contract with community-based organizations for renter education, outreach and organizing. Because this item is funded by delaying the hiring date for an administrative position in the Seattle Police Department (\$35,000) and a one-time reduction to SDOT for congestion pricing outreach (\$25,000), this is a one-time addition to SDCI's budget.

Seattle Department of Construction and Inspections

Council Provisos

Proviso on \$63,000 in SDCI for Updates to Green Building Standards

"Of the appropriations in the 2020 Budget to the Seattle Department of Construction and Inspections, \$63,000 is appropriated solely to develop updates to green building standards and green-building incentive programs, which will be proposed to the Council, and may be spent for no other purpose. The Council anticipates that proposed updates will include incentives to use FSC-certified cross-laminated timber as a construction material."

Appropriations by Budget Summary Level and Program

SDCI - BO-CI-U2200 - Land Use Services

The purpose of the Land Use Services Budget Summary Level is to provide land use permitting services.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Land Use Services	16,806,343	18,354,322	18,585,787	21,979,865
Land Use Services CBA	-	1,672,241	1,672,241	1,672,241
Total	16,806,343	20,026,563	20,258,028	23,652,106
Full-time Equivalents Total*	86.00	86.00	86.00	99.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Land Use Services Budget Summary Level:

Land Use Services

The purpose of the Land Use Services Program is to provide land use permitting services to project applicants, City of Seattle departments, public agencies, and residents. Land Use staff provide permit process information and regulatory expertise to inform pre-application construction project design. Land Use staff also review development concepts as part of a developer's permit application. The Land Use review process includes eliciting public input and facilitating public meetings and design review board meetings. It may also include coordination with various city and county agencies, defending project decisions during appeal to the Hearing Examiner or coordinating the department recommendation for a development application through the City Council approval process. These services are intended to ensure that development proposals are reviewed in a fair, reasonable, efficient, and predictable manner, and to ensure that the plans substantially comply with applicable codes, legal requirements, policies, and community design standards.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Land Use Services	16,806,343	18,354,322	18,585,787	21,979,865
Full Time Equivalents Total	86.00	86.00	86.00	99.00

Land Use Services CBA

The purpose of the Land Use Services CBA Program is to display the amount of unallocated Contingent Budget Authority (CBA) in the Land Use Services BSL that has not been accessed. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Land Use Services CBA	-	1,672,241	1,672,241	1,672,241

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2300 - Permit Services

The purpose of the Permit Services Budget Summary Level is to facilitate the review of development plans and processing of permits.

Seattle Department of Construction and Inspections

SDCI - BO-CI-U23A0 - Inspections

The purpose of the Inspections Budget Summary Level is to provide on-site inspections of property under development, inspections of mechanical equipment at installation and on an annual or biennial cycle, and certification of installers and mechanics.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Inspections	21,509,748	21,260,266	21,582,160	22,825,122
Inspections Services CBA	-	2,726,100	2,726,100	2,726,100
Total	21,509,748	23,986,367	24,308,261	25,551,222
Full-time Equivalents Total*	102.00	103.00	103.00	104.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Inspections Budget Summary Level:

Inspections

The purpose of the Inspections Program is to provide timely on-site inspections of property under development at predetermined stages of construction; work closely with project architects, engineers, developers, contractors, and other City of Seattle departments to approve projects as substantially complying with applicable City codes, ordinances, and approved plans; and to issue final approvals for occupancy.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Inspections	21,509,748	21,260,266	21,582,160	22,825,122
Full Time Equivalents Total	102.00	103.00	103.00	104.00

Inspections Services CBA

The purpose of the Inspections Services CBA Program is to display the amount of Contingent Budget Authority (CBA) that has not been accessed within the Inspections BCL for construction inspections and electrical inspections with plan review. In contrast, CBA that is accessed is appropriated in the programs in which it will be spent.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Inspections Services CBA	-	2,726,100	2,726,100	2,726,100

Seattle Department of Construction and Inspections

SDCI - BO-CI-U2400 - Compliance

The purpose of the Compliance Budget Summary Level is to ensure properties and buildings are used and maintained according to code standards, reduce deterioration of structures and properties, and enforce tenant protections.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Compliance	5,972,860	7,401,114	7,411,445	8,492,156
Rental Housing	1,273,093	2,014,135	2,038,228	2,124,557
Total	7,245,953	9,415,249	9,449,673	10,616,713

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Compliance Budget Summary Level:

Compliance

The purpose of the Compliance Program is to investigate and respond to violations of code standards for the use, maintenance, management and development of real properties and buildings, facilitate compliance by property owners and other responsible parties, pursue enforcement actions against violators through the legal system, reduce the deterioration of structures and properties to reduce blight, and manage the adoption of administrative rules and response to claims.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Compliance	5,972,860	7,401,114	7,411,445	8,492,156
Full Time Equivalents Total	35.00	37.50	37.50	38.50

Rental Housing

The purpose of the Rental Housing Program is to improve the quality of the rental housing stock in Seattle and investigate and respond to violations of tenant relocation and eviction regulations. By registering and inspecting all rental housing properties the program helps ensure key life, health and safety standards are met. The program provides assistance to property owners and tenants regarding relocation assistance, just cause eviction, and other duties and responsibilities of owners and tenants.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Rental Housing	1,273,093	2,014,135	2,038,228	2,124,557

Total	-	198,000	198,000	29,235
Full-time Equivalents Total*	58.00	59.00	59.00	59.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs Program is to collect and allocate departmental central costs such as pooled costs, paid-time-off, and other City central costs. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	465	21,226,694	21,978,020	22,090,564

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs Program is to lead department employees; provide policy guidance, financial stewardship, and employee support; and oversee relationships with the community, government agencies, and the media. The costs in this program are allocated to all department programs except the Contingent Budget Authority (CBA) Programs, the Process Improvements & Technology (PI&T) Program, and other programs in Leadership and Administration.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmental Indirect Costs	(140,913)	3,467,073	3,470,413	3,813,536
Full Time Equivalents Total	32.00	32.00	32.00	32.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide support functions for SDCI's primarily fee funded programs: Land Use Services, Permit Services, Inspections; and for the fee-funded portion of the Government Policy, Safety and Support Program. The costs in this program are allocated only to the programs described above.

Seattle Department of Construction and Inspections

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Divisional Indirect Costs	140,448	2,851,001	2,852,107	2,783,467
Full Time Equivalents Total	26.00	27.00	27.00	27.00

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset Program is to offset the proportionate share of Citywide Indirect Costs, Departmental Indirect Costs, and Divisional Indirect Costs that allocate to the department's other Budget Summary Level programs as overhead. It is necessary to offset the full cost of indirect cost programs to calculate the budget appropriation and revenue requirements of the related programs.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Indirect Cost Recovery Offset	-	(27,346,768)	(28,102,540)	(28,658,332)

SDCI - BO-CI-U2600 - Government Policy, Safety & Support

The purpose of the Government Policy, Safety & Support Budget Summary Level is to develop and update land use code and technical code regulations, manage the public disclosure of documents, and provide appropriate support for disaster preparation, mitigation, response, and recovery services.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Govt Policy, Safety & Support	2,380,915	2,612,607	2,640,477	2,754,259

Office of Economic Development

Bobby Lee, Director

(206) 684-8090

www.seattle.gov/economicdevelopment

Department Overview

The Office of Economic Development (OED) seeks to foster an inclusive economy that grows family-wage jobs and increases wealth among underserved communities. OED promotes shared prosperity for all Seattleites, economic growth that is equitable, robust, and enduring. OED supports a healthy business environment for underserved populations, empowers entrepreneurs to innovate, grow and compete, while at the same time supporting low-income Seattle residents to develop their talent towards viable career paths. OED invests in four primary program areas all targeting underserved populations: supporting entrepreneurs; building healthy and vibrant neighborhood business districts; developing the talent of youth and adults; and partnering with key industry sectors. The core services OED provides capitalize on Seattle's economic strengths, particularly in the industry areas of manufacturing and maritime, technology, startups, restaurants, health care, life sciences and global health, clean technology, and the creative economy. To accomplish this mission, the office delivers services designed to:

- support the retention and growth of local small businesses owned by underserved populations through technical assistance, access to capital, affordable commercial space, mentorship and marketing;
- increase the number of low-income youth and adults who obtain the skills necessary to meet industry's needs for qualified workers by building collaborations with community-based organizations in the service of youth and providing Career Connected Learning Grants to support youth career readiness;
- support neighborhood business districts through direct funding, technical support and Business Improvement Area (BIA) formation;
- streamline and advance policies and practices and develop partnerships that lead to sustainable economic growth with shared prosperity;
- attract and establish new business via domestic and international investments; and
- support the City's prioritization of film and special events through advocacy and permit coordination to encourage and grow film production and public events in a way that maximizes positive business, economic, and cultural activity while ensuring public safety.

In addition to these services, OED manages many financing programs to increase access to capital for projects from micro-loans to major capital lending. Among these financing tools are three federal programs: 1) Individual Development Accounts (IDAs), a matched savings program in which the City provides Community Development Block Grant funds to low-income owned businesses that demonstrate savings and take business training courses; 2) New Markets Tax Credits (NMTC) which leverage private investment in low-income communities through federal tax incentives; and 3) U.S. Department of Housing and Urban Development (HUD) Section 108 loans which provide financing for economic development projects benefiting low and middle-income individuals.

Budget Overview

The Office of Economic Development (OED), under the leadership of its new director, is implementing an Inclusive Economy Agenda. This mission rests on three OED competencies to serve underserved populations: building self-sufficiency and improving access to employment, family-wage job and wealth creation, and capacity-building for neighborhood resilience in the face of displacement. Those three competencies, in turn, are reflected in various office programs: workforce development and training, small business support and technical assistance, industry cluster development, and neighborhood business district support.

As part of this new mission, OED will work with the Office of Arts and Culture (Arts) to launch the Creative Industry Cluster program in the 2020 Adopted Budget. This is a result of the two offices reorganizing and repurposing the Office of Film and Music (OFM), which exists within OED, to support the growing needs of Seattle's creative economy. This restructure adds or repurposes existing positions in OED and transfers admissions tax-backed positions and programming back to Arts. This allows OED's teams and their economic development tools to fully support and invest in the new initiative. The Creative Industry Cluster program will be led by OFM as a new component of OED's Industry Support Team.

OED will also expand its small business support to include more funding by adding two new funds: The Business Stabilization and Tenant Improvement Funds. These funds will help small businesses navigate the difficulties of short-term setbacks and encourage commercial affordability in areas of high displacement. OED will repurpose some of its Only in Seattle (OIS) funding towards these two funds and the General Fund will backfill the original OIS funding.

City Council Changes to the Proposed Budget

The Council made changes to the Proposed Budget with regards to the OFM reorganization and the elimination of a consultant contract. The Council changed the OFM reorganization by reducing funding for the Creative Policy Advisor position, delaying the start of that position until mid-year, and adding capacity for film and music. The Council also eliminated a contract for local business support and retention.

The Council also made other changes to improve resources for the local workforce by providing one-time funding for apprenticeships that offer living wages and lead to career advancement, studying employment dependent on fossil fuels and how to support small business' transition to a greener economy, and providing support to the redevelopment of the Seattle Vocational Institute.

Office of Economic Development

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$340,293

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$5,689

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$73,992

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Technical Adjustment Salary & Benefits Transfer

Expenditures -

This is a technical, net-zero adjustment that moves position-related costs from the Business Services budget program to the Department Indirect Costs budget program.

City Business Recruitment & Attraction Services

Expenditures \$100,000

This item adds \$100,000 in ongoing funding to encourage business recruitment to and retention in Seattle.

Director Salary Adjustment

Expenditures \$31,470

This item adds \$31,000 in ongoing funding to pay for the additional position-related costs of hiring a new office director.

Office of Economic Development

Funding for Staff-Initiated Position Reclassifications

Expenditures \$51,491

This item adds \$51,000 in ongoing funding to pay for multiple, staff-initiated reclasses of job classifications approved by the Seattle Human Resources Department.

Pay Equity Funding

Expenditures -

This proposal uses \$119,000 in existing resources, including those made available from the reorganization of the Office of Film and Music, to address ongoing pay equity issues for office staff as researched and confirmed by Seattle Department of Human Resources.

Transgender Economic Empowerment Program

Expenditures \$185,000

This item adds \$185,000 in ongoing funding for a transgender economic empowerment program. In the 2019 Adopted Budget, Council placed an ongoing proviso on this amount for this work in the office. There are no available resources to fund this ongoing program in the existing budget of the office.

Proposed Operating

OFM Reorganization & Creative Industry Cluster

Expenditures \$(61,284)

Position Allocation -

In 2019, the Mayor's Office directed the Office of Economic Development (OED) and the Office of Arts and Culture (Arts) to review the mission and programming of the Office of Film and Music (OFM), which is within OED. Both offices agreed to an OFM reorganization to better sync their efforts to better support the creative economy. There are two components to this reorganization:

- **Transfer of admissions tax-backed staffing and programming to Arts.** OFM will transfer back to Arts programming and a position funded by Arts' admission tax revenues: a 1.0 FTE Strategic Advisor 1 to Arts to continue the role of a Creative Economy Business Advocate, a position that will be shared with OED, and \$50,000 in annual support for the Seattle Music Commission.
- **Repurposing of OFM Resources.**
 - New Creative Industry Cluster program. OED will add capacity to build out its creative economy cluster strategy, helping both Arts and OED support the growth of the local creative sector covering everything from film to music to gaming. These positions are changed or added: a 1.0 FTE Strategic Advisor 3 position, previously filled by the OFM director, will now be the Creative Industry Cluster Director; and a 1.0 FTE Strategic Advisor 2 will be added to provide focused policy and program development support for the overall Creative Industry Cluster program, costing \$164,000. A 1.0 FTE Strategic Advisor 1, the Film & Special Events program lead; a 1.0 FTE Strategic Advisor 2, the Nightlife Business Advocate; 2.0 FTE Admin Staff Assistants, acting as permitting specialists; and 1.0 FTE Admin Specialist I BU will remain unchanged.
 - Officewide capacity and budgetary needs. OED will reclassify a 1.0 FTE Admin Spec II BU in OFM as a Community Development Specialist for data collection and analysis in OED, resulting in a \$7,000 funding increase. OED will also use its OFM resources to fund a baseline add of \$119,000 to address pay equity issues within the office (please see baseline changes).

Office of Economic Development

Small Business Support Expansion

Expenditures \$300,000

This proposal expands the tools available to the Only in Seattle (OIS) program to include two designated funds to assist more small businesses, the Business Stabilization and Tenant Improvement Funds. Whereas before OIS programming focused on improving the capacity of small business districts, the OIS program will work closer with the Small Business Development program to tap new funding options for individual small businesses. The Business Stabilization Fund will help small businesses facing short-term emergencies, such as theft, vandalism, or emergency repairs, with a focus on those in high-risk displacement neighborhoods. The Tenant Improvement Fund encourages the development of affordable commercial tenant improvements for businesses in high displacement risk areas. Both these funds are part of the office's new Inclusive Economy Agenda, which aims to reduce barriers to economic success for small business owners. Of the \$852,000 in Community Development Block Grant that funds OIS, part of its \$1.5 million total, \$300,000 will be repurposed to support these two new small business funds. The General Fund will backfill OIS by the same amount to keep the program whole.

Adding Accounting Capacity

Expenditures -
Position Allocation 0.50

This proposal uses \$56,000 of the office's existing resources to reallocate two existing staff to new classifications that reflect their increased level of responsibility with respect to the management and administration of the accounting and finances. This additional responsibility is needed as the office continues to adjust to the increased work volume of the City's accounting system, PeopleSoft 9.2, which was implemented in 2018. The Finance Analyst, Senior, becomes a Strategic Advisor 1, in Finance, Budget, and Accounting; and the part-time Accounting Technician II becomes a full-time Accounting Technician III.

Council

Reduce Funding for Creative Industry Policy Advisor

Expenditures \$(65,000)

This item reduces \$65,000 in funding from the position for the Creative Industry Policy Advisor, added in the Proposed Budget as part of the Office of Film and Music Reorganization and Creative Industry Cluster. This action delays filling the position from January 1st to June 1, 2020. This is one-time.

Film and Music Program Lead

Expenditures \$116,291
Position Allocation 1.00

This item adds \$116,00 in ongoing admissions tax revenue to for a full-time Film and Music Program Lead, a Strategic Advisor 1, to focus on managing film and music program functions. Since 2012, these functions have been managed by a Film and Special Events Manager. Due to the large amount of work required by special events, film was about 15% of the staff member's time. Separating the duties into two assignments allows for more staff capacity to focus on the film industry and add music to the portfolio. The responsibilities of the new position include but are not limited to providing policy guidance related to the film and music industries; overseeing coordination of film permitting; advising the Office Director, the Special Events Committee, and Creative Industry Cluster Director on film and music policies.

Office of Economic Development

Seattle Business Recruitment and Retention Contract Elimination

Expenditures \$(100,000)

This item eliminates the \$100,000 consultant contract for local business recruitment and retention, which was added to the Office's baseline in the Proposed Budget to continue work that occurred in 2019.

High Road Apprenticeship Coordinator

Expenditures \$75,000

This item adds \$75,000 in ongoing funding to contract with a non-profit organization with a history of partnering with municipal governments and businesses to develop career pathways, such as the Workforce Development Council of Seattle-King County (WDC), to support high road apprenticeships. These apprenticeships offer living wages, full benefits, flexibility, participatory management, career advancement pathways, and a voice on the job. This funds an apprenticeship coordinator within a non-profit organization dedicated to engaging with existing high road training programs and developing new programs. The Office of Economic Development will collaborate with the selected non-profit organization and MLK Labor to determine specific responsibilities for this new role.

Regional Employment Dependent on Fossil Fuels Analysis

Expenditures \$100,000

This item adds \$100,000 in one-time funding for a study of local employment dependent on fossil fuels. The Green New Deal for Seattle (Resolution 31895), adopted by Council in August 2019, established a goal of making Seattle climate pollution-free by 2030, and committed the City to ensuring a just transition for workers whose jobs currently depend on the fossil fuel industry. However, the City lacks data on how many jobs in the region currently depend on the fossil fuel industry, and it is not clear what resources or actions will be required to achieve a just transition.

The goals of the study are to: (1) understand the potential impact to workers as the City acts to reduce reliance on fossil fuels; (2) analyze where job growth is anticipated in clean energy and related industries; and (3) identify strategies for supporting small businesses and their workers as the City transitions away from fossil fuels.

Seattle Vocational Institute Redevelopment

Expenditures \$200,000

This item adds \$200,000 in one-time funding to provide funding to the Central District Community Preservation and Development Authority (CD CPDA) for costs associated with the redevelopment of the Seattle Vocational Institute building in the Central District. As part of the 2019 Adopted and 2020 Endorsed Budget, the Council added \$100,000 to Finance General to support a feasibility study for the proposed CD CPDA. The funds were used to match funding from the State of Washington and King County to conduct initial planning and outreach work for the CD CPDA that is expected to be completed at the end of December 2019. Earlier this year, the Washington State Legislature passed and the Governor signed House Bill 1918, establishing the CD CPDA.

The intended source of ongoing revenue for the CD CPDA is rental income from the building currently occupied by the Institute, which is owned by Seattle Colleges. Title to the property will be transferred from Seattle Colleges to the CD CPDA following the appointment of its Board of Directors around the end of 2019. The CD CPDA is requesting \$21.5 million in capital construction funding from the State of Washington and \$2 million from King County for design, engineering, construction, and operating costs for an 18-month period before, during, and after construction. A combined pool of public funds from the City, County, and State will help support these costs.

Office of Economic Development

Council Provisos

Creative Industry Policy Advisor Proviso

"None of the \$99,000 appropriated in the 2020 budget for the Office of Economic Development may be spent for the Creative Industry Policy Advisor position (Strategic Advisor 2, exempt) until the Chair of the Civil Rights, Utilities, Economic Development, and Arts Committee, or successor committee, files a certification with the City Clerk that the Office of Economic Development has provided a report on how this position will support the diversity of workers in the Creative Industries sector, specifically those in the film and music industries."

Appropriations by Budget Summary Level and Program

OED - BO-ED-ADMIN - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide executive, community, financial, human resource, technology and business support to the Office of Economic Development.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	336,392	714,135	742,779	794,810
Departmental Indirect Costs	1,392,668	911,970	914,433	1,283,929
Pooled Benefits	133,866	570,728	496,787	481,413
Total	1,862,926	2,196,833	2,153,999	2,560,152
Full-time Equivalents Total*	7.50	7.50	7.50	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	336,392	714,135	742,779	794,810

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmental Indirect Costs	1,392,668	911,970	914,433	1,283,929
Full Time Equivalents Total	7.50	7.50	7.50	8.00

Pooled Benefits

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Pooled Benefits	133,866	570,728	496,787	481,413

Office of Economic Development

OED - BO-ED-X1D00 - Business Services

The purpose of the Business Services Budget Summary Level is to promote economic development in the City.

Office of Housing

Emily Alvarado, Director

(206) 684-3727

<http://www.seattle.gov/housing/>

Department Overview

The mission of the Office of Housing (OH) is to build strong healthy communities and increase opportunities for people of all income levels to live in our city. To accomplish this mission, OH has three Budget Summary Levels:

- Multifamily Housing;
- Homeownership and Sustainability; and
- Leadership and Administration.

Multifamily Housing employs the Housing Levy and other federal and local funding to make low-interest loans to developers to develop or preserve affordable multifamily rental housing. OH monitors the housing portfolio to ensure that the policy objectives of the City are achieved and the units remain in good condition. The portfolio now includes 16,800 units, representing a significant investment of City and other funding in affordable housing over 35 years.

Homeownership and Sustainability includes three programs to assist low-income households:

- The **Home Ownership Program** supports first-time homebuyers and existing low-income homeowners through down payment assistance loans, subsidies for permanently affordable homes, and foreclosure prevention loans.
- The **Home Repair Program** provides grants or no- to low-interest loans to assist with critical home repairs.
- The **Weatherization Program** provides grants to increase energy efficiency and lower utility costs for low-income residents in both single-family and multifamily properties.

Leadership and Administration provides centralized leadership, coordination, technology, contracting, and financial management services to OH programs and capital projects. This includes the Policy and Planning program that establishes long-term strategic plans, develops and implements policy-based tools, and addresses housing-related aspects of citywide land use and community development planning.

Office of Housing

Budget Overview

In summer 2019, Mayor Durkan presented her vision and actions for the City's approach to addressing Seattle's housing crisis. The plan, *Seattle Housing Now*, includes four key priorities:

- Increase opportunity and access to family-wage jobs and shared prosperity;
- Build more housing for low- and middle-income earners, and for people experiencing homelessness;
- Address displacement and prevent eviction so Seattle residents can stay in their current housing and community; and
- Secure new tools and resources for the City to address housing in new, innovative ways.

The Office of Housing's 2020 Adopted Budget furthers these priorities through affordable homeownership investments and strategies to address displacement using the Mercer Properties proceeds and increasing the supply of new affordable housing through the State local option bond and other funding sources. The Adopted Budget also includes new programming to make it easier for low-income families to heat their homes using sustainable energy and other operational and technical changes.

Transformational Investments with Proceeds from Mercer Properties Sale

In 2019, the Mayor announced the disposition of surplus City property, known as the Mercer Properties, that resulted in over \$130 million in net proceeds for the City. Of this amount, the 2020 Adopted Budget will use \$73 million for transformational investments in affordable housing.

Investing in new permanently affordable homeownership opportunities and helping existing low- and moderate-income homeowners build assets are some of the best ways to prevent displacement while building community resiliency, agency, and wealth. Moreover, homeownership is a powerful tool to advance racial equity by increasing the wealth generation of people of color through homeownership. Less than 40% of households of color own their own homes compared to over half of white households. This results in a significant wealth gap.

The 2020 Adopted Budget invests \$45.5 million to address displacement and create opportunities for equitable transit-oriented development. Of this amount, \$15 million in the Office of Planning and Community Development (OPCD) funded a revolving Equitable Development Initiative (EDI) site acquisition loan pool to help project partners acquire site control in rapidly changing real estate markets; and another \$30 million appropriated to Finance General and \$500,000 OPCD funded a strategic property acquisition investment fund to address displacement.

The 2020 Adopted Budget includes **\$12 million of Mercer sale proceeds to increase the supply of permanently affordable homes and support stewardship of those homes**. The budget sets aside at least \$9 million for capital investment for permanently affordable homes and up to \$3 million to be used to seed an employer-resourced program to support buyer-driven, permanently affordable homeownership for middle-income Seattle workers. The City is currently exploring a partnership with Sound Transit to acquire up to 12 sites for permanently affordable homeownership. City funds will be used to support on-going affordability by covering the start-up program operations performed by a stewardship entity, as well as potentially provide deeper subsidy to households below 80% AMI if needed. The stewardship entity will help to prepare potential buyers for homeownership, affirmatively market homebuying opportunities, facilitate re-sales and monitor and enforce compliance with a regulatory agreement that ensures the homes will remain affordable for generations to come. Families and employers benefit when workers can live near their jobs rather than commute long distances.

The 2020 Adopted Budget also dedicates **\$2.5 million of the Mercer proceeds to pilot a loan program to help low- and moderate-income families create affordable ADUs**, generating wealth for homeowners and increasing the supply of rent- and income-restricted housing options in single-family zones. In community conversations across Seattle in 2019, the Mayor's Office heard strong support for a City financing option that could help a wider range of homeowners be able to create ADUs. Seattle has allowed attached and detached ADUs since 1994 and 2010, respectively, but less than two percent of single-family lots have added an ADU. Not only does this create an opportunity for new, contextual, space-efficient housing on tens of thousands of lots across Seattle neighborhoods,

Office of Housing

but ADUs also offer homeowners a flexible way to earn income and provide efficient, relatively inexpensive housing options for renters. To that end, the City recently adopted legislation removing regulatory barriers to ADUs and increasing the viability of ADU development throughout Seattle. However, limited financing options generally restrict ADU development and the corresponding benefits to those with wealth, equity, and access to capital.

The City's ADU financing program aims to address this issue and provide access to capital with below market-rate terms to low- and moderate-income homeowners who otherwise would not benefit from new ADU policies.

This pilot program will allow the City to test this approach, demonstrate the feasibility of affordable ADU loans to spur the private lending market and learn how to scale future financial support for homeowners interested in developing an ADU. The financing pilot also complements and works together with a suite of other strategies the City is pursuing to accelerate and broaden access to ADU development, as described in [Executive Order 2019-04](#), including streamlined permitting with pre-approved ADU plans; educational opportunities; and new and improved ADU resources, including a tool for exploring the feasibility of creating an ADU on a property.

New Affordable Housing Through the State Local Option Housing Law and newly dedicated Real Estate Excise Tax (REET)

In 2019, the State of Washington passed a local option housing bill (HB 1406) that allows cities and counties to retain certain local taxes, like sales or use tax, for 20 years provided they spend it on building new or rehabilitating affordable housing units or providing operating and maintenance (O&M) subsidies for new units of affordable or supportive housing. Seattle was the first city in the state to take advantage of this new law, which will provide up to \$4.2 million per year for 20 years.

The 2020 Adopted Budget invests in 175 new units of Permanent Supportive Housing (PSH) – and the associated O&M subsidies needed – through a bond against part of the future revenue. PSH provides wraparound services for the most vulnerable people, those living at or below 30% of the Area Median Income, and ensures they remain housed.

Taking advantage of another state law change in 2019 (HB 1219), the Mayor is also making \$25 million total of REET available for additional capital investments for new affordable housing through 2025. The Council made an additional \$7 million total of REET available over 2021-26.

Low-Income Heating Oil Conversion

In 2019, the Mayor proposed a new tax on heating oil service providers to provide financial assistance necessary to help low-income families convert to sustainable heating supply like electric systems. Heating oil produces carbon pollution, so the City chose this as one of its strategies in its 2013 Seattle Climate Action Plan to achieve its goal of becoming a carbon-neutral city by 2050. Low-income households will be eligible for assistance, including households enrolled Seattle City Light's Utility Discount Program.

Operational Changes

The 2020 Adopted Budget includes two operational changes that result in the service delivery level remaining the same or improving. OH will now fund staff positions in the Department of Finance and Administrative Services that oversee OH-funded projects to guarantee compliance with local wage laws. Previously, these positions were funded by Finance General. The budget also makes a change to OH's current homebuyer education program provided by a local non-profit. This redesign aims to align the program with OH's broader work to help families purchase affordable homes and prevent displacement.

Technical Changes

OH requested various changes in its appropriation authority largely due to changes in revenue projections but also due to corrections. There is also a net-zero technical change to correct the budget location for the office's pooled and fringe benefits to align the budget with the location of the actual expenditures.

Office of Housing

City Council Changes to the Proposed Budget

The Council recognized an update to the projected local option sales tax revenue. The Council also made changes to the Proposed Budget by repurposing proceeds from the sale of the Mercer Properties, specifically by reducing funding for the Strategic Investment Fund, and from the Homeownership and ADU Financing programs. Some of these Mercer Property reductions provide funding for other Council priorities; however, the bulk of these reductions will fund a \$13 million increase in the resources available to increase affordable housing rental production and preservation via OH's 2019 Notice of Funding Availability (NOFA) process. For more information on the Strategic Investment Fund changes please see the Finance General section of the budget book. It should be noted that certain errors will be need to be corrected in early 2020 via legislation: the reductions to the Homeownership and ADU Financing programs and the increase in resources for the NOFA should have been made in the Low-Income Housing Fund instead of the General Fund.

The Council tapped OH fund balance for the Homebuyer Education Redesign and for the pre-development and planning costs of housing projects in the Central District and Little Saigon.

Office of Housing

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$393,842

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$5,841

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$78,130

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Accessory Dwelling Unit (ADU) Financing Program

Expenditures \$5,838,470

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This item provides \$6 million in funding, revenue from the sale of the Mercer Properties, in the Office of Housing (OH) to fund an Accessory Dwelling Unit (ADU) pilot finance program to increase the affordable rental housing supply and support low- and moderate-income homeowners. OH is working with the Office of Planning and Community Development to develop a pilot loan program to help these homeowners build ADUs to provide affordable rental housing. The pilot program will be administered by a third-party entity with expertise in residential lending. Funds will be used for program implementation, including capital and third-party program delivery and administrative costs. While homeowners up to 120% Area Median Income (AMI) will be eligible, homeowners below 80% AMI will receive more favorable loans terms, such as deferred repayment or lower interest rates, to make constructing an ADU more feasible for these households. The loan terms and conditions will be structured in such a way to help homeowners remain in their community and lower racial disparities in access to capital. All ADU units created through the program will be affordable to households at or below 80% AMI for 10 years. This investment will fund up to 75 loans over three years.

The staffing costs for a full-time Community Development Specialist and programming costs will be shared with other Mercer Property proposal, the Increasing Homeownership Opportunities program, for a total of \$697,000 to

Office of Housing

cover five years when adjusted for inflation or about \$139,000 annually. This position, which is recognized in the homeownership proposal, will be responsible for designing the ADU pilot loan program, managing the RFP and contracting process for an ADU loan administrator, and managing questions and inquiries from potential ADU program participants. In addition, the position will handle responsibilities related to the homeownership program, including managing the RFP process for surplus sites, handling the day-to-day logistics of maintenance on the homeownership properties OH will be holding for future development, and managing community outreach work related to homeownership projects funded with Mercer proceeds. Since this one-time funding is to provide support for five years, \$996,000 will be held in reserves to cover staffing, programming, and maintenance costs for both proposals. Please see the Increasing Homeownership Opportunities proposal for more information.

Increasing Homeownership Opportunities

Expenditures	\$14,165,261
Position Allocation	1.00

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This proposal provides \$15 million in one-time revenue from the sale of the Mercer Properties to increase the supply of permanently affordable for sale homes through two approaches. Almost \$14 million will be used for capital investment to support the Mayor's goal of nearly doubling the City's portfolio of permanently affordable homes for households earning less than 80% of Area Median Income (AMI). The City is currently exploring a partnership with Sound Transit to secure up to 12 sites for permanently affordable homeownership for households at or below 80% AMI. Up to \$3 million would be used to seed an employer-resourced program to support buyer-driven, permanently affordable homeownership for middle-income Seattle workers. City funds would be used to support on-going affordability by covering the start-up program operations performed by the stewardship entity, as well as potentially provide deeper subsidy to households below 80% AMI if needed. The stewardship entity will help to prepare potential buyers for homeownership, affirmatively market homebuying opportunities, facilitate re-sales and monitor and enforce compliance with a regulatory agreement that ensures the homes will remain affordable for generations to come.

The proposal includes holding and maintenance costs, \$531,000 over 5 years when adjusted for inflation or about \$106,000 annually, to cover costs such as fence installation, maintenance, mowing, and snow removal. The staffing costs for a full-time Community Development Specialist and programming costs will be shared with other Mercer Property proposal, the Accessory Dwelling Unit Financing Program, for a total of \$697,000 to cover five years when adjusted for inflation or about \$139,000 annually. This position will handle responsibilities related to the homeownership program, including managing the RFP process for surplus sites, handling the day-to-day logistics of maintenance on the homeownership properties OH will be holding for future development, and managing community outreach work related to homeownership projects funded with Mercer proceeds. Although the position add is recognized in this program, the position will also be responsible for designing the ADU pilot loan program, managing the RFP and contracting process for an ADU loan administrator, and managing questions and inquiries from potential ADU program participants. Since this one-time funding is to provide support for five years, \$996,000 will be held in reserves to cover staffing, programming, and maintenance costs for both proposals. Please see the Accessory Dwelling Unit Financing Program proposal for more information.

Implement Local Option to Use State Sales Tax for Affordable Housing

Expenditures	\$22,500,000
Revenues	\$4,500,000

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

In 2019, the State of Washington passed a law allowing cities like Seattle to retain local taxes, like sales tax, to

Office of Housing

maintain or provide new affordable housing. Under the law, the City will be allowed to retain \$4.5 million in local taxes per year for up to 20 years. This proposal allows the City to bond \$18 million, recognized in the 2020 LTGO Taxable Bond Fund (36710), and use about \$4 million in revenue from the first year, recognized in the Low-Income Housing Fund (16400), to build 175 units of Permanent Supportive Housing (PSH). Revenue in the subsequent years will pay down the debt and provide 20 years of operation and maintenance subsidies for these units. PSH units provide wraparound services for the most vulnerable of people, from social services to medical care. This strategy ensures all residents in the program stay housed. The Office of Housing's staff will absorb any administrative work for this proposal.

Low-Income Heating Oil Conversion Program

Expenditures	\$270,000
Revenues	\$270,000

This request is to use revenue from a potential new oil heat tax to help families convert to sustainable energy. There will be \$270,000 available in 2020 and then \$750,000 annually from 2021 through 2029. OH will receive this funding to administer the delivery of services to help low-income families convert away from using oil to heat their homes. The tax becomes effective in July 1, 2020.

Wage Monitoring Staff

Expenditures	-
--------------	---

This proposal provides ongoing funding to maintain 1.5 FTE in the Department of Finance and Administrative Services (FAS) to ensure construction projects funded by the Office of Housing (OH) comply with wage labor laws. Previously, Finance General funded these positions, but when the City changed its accounting system in 2018 the use of Finance General was reevaluated, and it was determined that OH should be responsible for staff that focuses squarely on OH-funded projects. To help OH ease into this transition of funding responsibilities, the Mayor's Office agreed to have the General Fund finance these staff for 2019 with OH providing the ongoing funding starting in 2020. FAS and OH agree that any changes to staffing costs, beyond adjustments for inflation, will go through the formal budget process.

Homebuyer Education Redesign

Expenditures	\$(67,000)
Revenues	\$(217,000)

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This proposal swaps \$217,000 in ongoing Community Development Block Grant funding with \$150,000 in one-time General Fund to test a redesign of the homebuyer education program to better align it with the Office of Housing's (OH) work to help communities develop affordable options for homebuyers. This program will now be used to help potential homebuyers prepare to purchase a unit at the Othello Square Limited Equity Cooperative, the first City-funded housing cooperative that helps address displacement of both residents and businesses. This program redesign will allow OH to connect homebuyer education more directly to its community preference policy which supports homebuyers with local ties to neighborhoods purchase OH-funded homes. The program will be evaluated after a year to see whether the redesign should continue.

Office of Housing

Proposed Technical

Correct Budget Locations for Pooled and Fringe Benefits

Expenditures -

This is an ongoing net-zero transfer of appropriation authority in the amount of \$567,441 from the Leadership and Administration Budget Control Level (BCL) in the Office of Housing Fund (16600) to the Homeownership and Sustainability BCL in the same fund. This item also transfers appropriation authority in the amount of \$466,185 from the Leadership and Administration BCL in the Office of Housing Fund to the Multifamily Housing BCL in the same fund. Lastly, there is a minor transfer of appropriation authority in the amount of \$247 from the Leadership and Administration BCL in the General Fund (00100) to the Homeownership and Sustainability BCL in the same fund. These transactions are necessary to avoid a budget exception by moving the budget for fringe benefits, which includes FICA, Medicare, and retirement, and pooled benefits, which consists of health care, unemployment, worker's compensation, to the right locations. The transactions also include adding budget for pooled benefits billing.

Increased Capital Spending from Program Income and Interest Earnings

Expenditures \$11,730,000

This technical change adds authority for capital spending of interest earnings, which had previously been omitted in error, and program income. This item uses \$530,000 in fund balance. The remainder of the authority increase is supported by projected OH revenues recognized previously.

Revising Projected Asset Management Expenditures

Expenditures \$(1,353,066)

This technical change corrects the projected Operation and Maintenance expenditures in Asset Management, decreasing the subsidy amounts by \$1,353,066 to align budget with projected expenditures.

Weatherization Appropriation Change

Expenditures \$1,103,875

This technical proposal increases the appropriation authority by \$1,103,875 in the Weatherization grant program to reflect an increase in the projected revenues from the State of Washington and Federal Government by the same amount to that program in 2020.

Council

Recognize the City Budget Office's November 2019 forecast update

Revenues \$(271,638)

This budget action recognizes the results from the City Budget Office's November 2019 forecast update. Every August Council receives a General Fund revenue forecast followed by a fall update. The November 2019 update shows a net increase of \$1,216,427 in new revenue for 2020. This change reflects a 2020 error correction in the form of a \$1,322,000 one-time "transfer-in" from the Information Technology Fund (Transfer – ITD), partially offset by a combined \$105,573 decrease among the following revenue categories: Car Sharing Revenue, Parking Meters, Short Term Rental, and Heating Oil Tax.

Non-General Fund revenue changes include a \$589,362 increase in net Seattle Transportation Benefit District Funds (for transportation investments) in 2020; and \$271,638 less in Low-Income Housing Fund revenues in 2020. There were no changes to the Commercial Parking Tax, Sweetened Beverage Tax, or the Red Light Camera funds.

Office of Housing

Reduce Funding for Programming Backed by Mercer Property Sale Proceeds

Expenditures \$(6,500,000)

This item reduces \$18.2 million in one-time funding for programs supported by the proceeds from the sale of the Mercer Properties. The reductions broken out by programs are as follows: in Finance General, \$11.7 million from the \$41.7 million Strategic Investment Fund; and in the Office of Housing, \$3.5 million from the \$6 million Accessory Dwelling Unit Financing Program and \$3.0 million from the \$15 million for Increasing Homeownership Opportunities. These funding reductions will be used to support other Council priorities. To see the reductions to the Strategic Investment Fund please see the Finance General section of the budget book.

Repurposing Mercer Proceeds for Affordable Housing Rental Production and Preservation

Expenditures \$12,750,000

This item adds \$12.75 million in one-time funding to make financing commitments to affordable rental housing projects for those with incomes between 30 percent and 60 percent of Area Median Income. This funding will be available to projects that applied for the Office's 2019 Notice of Funding Availability (NOFA) process. This funding increase will be accomplished by reducing funding of several programs supported by proceeds from the sale of the Mercer Properties including the Strategic Investment Fund, Accessory Dwelling Unit Financing Program, and Increasing Homeownership Opportunities.

In addition, the Council intends to appropriate a total of \$7 million in additional REET II from 2021-2026. The \$7 million will be funded using REET II revenues received that are above the REET II forecasts reflected in the 2020-2025 Capital Improvement Program (CIP). If REET II revenues do not come in above forecast, up to \$5 million in REET II reserve funds will be used or REET II revenues currently programmed for the Seattle Parks and Recreation Major Maintenance Backlog and Asset Management CIP project (MC-PR-41001) will be redirected. Specific appropriations by source will be made in the 2021-22 Proposed Budget.

Increase Funding for Homebuyer Education Redesign

Expenditures \$67,000

Revenues \$67,000

This item adds \$67,000 in one-time use of fund balance from the Office's Operating Fund to the Homebuyer Education Redesign, listed in the Proposed Changes section. This program redesign is for first-time low-income homebuyers buy a unit at the Othello Square Limited Equity Cooperative. This funding brings the total one-time funding available for this program to \$217,000, the previous level of funding for the original homebuyer education program.

Affirmative Marketing and Community Preference Plans

Expenditures \$50,000

Revenues \$50,000

This item adds \$50,000 in one-time use of fund balance to support the implementation of Community Preference policies for levy-funded affordable housing projects in neighborhoods at high risk of displacement. Community preference seeks to help people to stay in or return to neighborhoods where they have long time social, cultural, faith and family ties. Funding will assist non-profit housing developers working with community partners to conduct outreach and affirmative marketing efforts that will lead to successful implementation of a community preference policy at specific levy-funded affordable housing projects.

Office of Housing

Central District Affordable Housing Projects

Expenditures \$150,000

This item adds \$150,000 in one-time funding for the pre-development and planning costs of affordable housing projects for low-income residents in the Central District. Pre-development and planning costs include, but not limited to preliminary plans, appraisals, environmental reports, and architectural designs. Housing developers typically use in-house resources or loans or grants from other organizations to fund such costs.

Little Saigon Affordable Housing Project

Expenditures \$100,000

This item adds \$100,000 in one-time funding for the pre-development and planning costs of a proposed housing project in Little Saigon to serve American Indian and Alaskan Native individuals and families. Pre-development and planning costs include, but are not limited to preliminary plans, appraisals, environmental reports, and architectural designs. Housing developers typically use in-house resources or loans or grants from other organizations to fund such costs.

Council Provisos

Accessory Dwelling Unit (ADU) Financing Program Proviso

"Of the appropriation in the 2020 budget for the Office of Housing, \$2,500,000 is appropriated solely for an Accessory Dwelling Unit Loan (ADU) Program and may be spent for no other purpose. Furthermore, none of the money so appropriated may be spent on the ADU Loan Program until authorized by future ordinance."

Department of Neighborhoods

Andrés Mantilla, Director

(206) 684-0535

www.seattle.gov/neighborhoods

Department Overview

The Department of Neighborhoods (DON) strives to strengthen Seattle by engaging all communities. DON serves residents of Seattle by providing programmatic support and building inclusive partnerships to help ensure that they receive equitable access to government and opportunities to build community. This is accomplished by fostering community partnerships, cultivating emerging leadership and facilitating community inclusiveness.

By establishing and implementing equitable outreach and engagement practices, DON is creating opportunities, promoting community building and broadening accessibility, which are important components to any community involvement process and reflected in the programs DON administers.

DON has three lines of business:

Community Building delivers technical assistance, supports services, grants, commissions, and programs in neighborhoods to strengthen local communities, engages residents in community improvement, leverages resources and completes neighborhood-initiated projects. The programs that support this work include:

- Community Engagement Coordinators
- Community Liaisons
- Community Safety
- Duwamish River Opportunity Fund
- Find It Fix It
- Healthy Food Fund
- Historic Preservation
- Housing Affordability and Livability Agenda (HALA)
- Major Institutions and Schools
- P-Patch Community Gardening
- Participatory Budgeting (Your Voice, Your Choice)
- People's Academy for Community Engagement (PACE)

Leadership and Administration provides executive leadership, communications, and internal operations and administration support for the entire department. This support includes financial, human resources, information technology, facility, and administrative functions.

Neighborhood Matching Fund provides support to local grassroots projects within neighborhoods and communities by providing funding to match community contributions of volunteer labor, donated professional services and materials, or cash, to implement community-based self-help projects.

Budget Overview

The Mayor is committed to improving the City’s outreach and engagement efforts, especially to historically underserved communities. As part of her commitment, the Mayor has asked the Department of Neighborhoods (DON) to improve the coordination of outreach and engagement by departments through the 2020 budget process. DON is to serve as a strategic advisor to departments so communities can better access City services and information and provide feedback in a more streamlined way.

The 2020 Adopted Budget includes two outreach and engagement proposals: one, to make a Seattle Department of Transportation (SDOT) pilot expansion permanent, and the second, to lay the groundwork for growing DON’s partnerships with other City departments. In 2019, DON and SDOT expanded upon their partnership to add more staff to work on various SDOT projects. In the 2020 Adopted Budget, those staff are made permanent and supported by SDOT revenue.

The Adopted Budget adds a full-time contracting position to oversee the increasing volume and complexity of intradepartmental Memorandums of Agreement (MOAs). This position will negotiate with the first cohort of departments to draft MOAs with DON to coordinate their outreach and engagement. As part of the MOAs, DON will seek budget from these departments to support two additional full-time staff for outreach and engagement.

The Adopted Budget also adds one-time funding for the AIDS Walk Memorial to finalize construction of this project.

Sweetened Beverage Tax (SBT) Community Grant

In 2018, the City passed a tax on sweetened beverages to promote public health, especially in underserved communities. As part of the ordinance establishing the tax, a Community Advisory Board recommends funding allocations for this revenue. For the 2020 Adopted Budget, the Advisory Board recommended investment in community-led activities such as grants to community-based organizations and programs; and support for one-time investments in infrastructure to increase the capacity of schools and community-based meal programs. In response, the Mayor is creating an ongoing community grant program, the Healthy Food Fund, in DON to provide resources to community-based organizations to improve public health.

One-time Funding for P-Patch Community Garden Preservation and Enhancement

DON’s P-Patch Community Garden program provides access to healthy food for both the gardeners who directly participate and the agencies to whom the p-patches and community gardens donate food. One of the purposes for which SBT revenues are targeted is “community-based investments to expand food access.” It has been over a

Department of Neighborhoods

decade since the last significant capital investment in the P-Patch Community Gardening Program, provided by the 2008 Parks Levy. Currently, there are several gardens facing relocation pressures, while others need capital investments to address deferred maintenance, and this funding would help address these issues. These one-time dollars will be allocated through a process that will involve department staff, the Community Advisory Board, and other P-Patch and community leaders.

City Council Changes to the Proposed Budget

The Council changed the Proposed Budget by decreasing Sweetened Beverage Tax funding for P-Patch Community Garden Preservation and Enhancement in DON to use those funds for other priorities, listed in the Incremental Budget Changes section below.

The Council addressed public safety concerns by providing one-time funding to historically underserved communities by providing emergency resources in various neighborhoods and building capacity in South Park. The Council also increased the size of a community grant for participatory theater.

Total Incremental Changes	\$4,814,229	6.50
Total 2020 Adopted Budget	\$17,927,374	65.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget	
Expenditures	\$489,335

Department of Neighborhoods

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$7,500

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$98,010

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Transfer FAS Fleet Services from P-Patch to Citywide Indirect Costs

Expenditures -

This item transfers budget for fleet services, provided by the Finance and Administrative Services department, from the P-Patch budget program to its correct budget program, Citywide Indirect Costs.

Transfer ITD Allocation Costs from P-Patch to Citywide Indirect Costs

Expenditures -

This item transfers budget for services provided by the Seattle Information Technology department from the P-Patch budget program to its correct budget program, Citywide Indirect Costs.

Transfer SA2 from Community Engagement Coordinators to Executive Leadership

Expenditures -

Position Allocation -

This item transfers a Strategic Advisor 2 position and its budget from the Community Engagement Coordinators budget program to the Executive Leadership budget program. This transfer is one part of three baseline transfers of Strategic Advisor 2 positions and budget authority from various budget programs to the Executive Leadership budget program to reflect how the department currently operates.

Transfer SA2 from Participatory Budgeting to Executive Leadership

Expenditures -

Position Allocation -

This item transfers a Strategic Advisor 2 position and its budget from the Participatory Budgeting budget program to the Executive Leadership budget program. This transfer is one part of three baseline transfers of Strategic Advisor 2

Department of Neighborhoods

positions and budget authority from various budget programs to the Executive Leadership budget program to reflect how the department currently operates.

Transfer SA2 from HALA to Executive Leadership

Expenditures	-
Position Allocation	-

This item transfers a Strategic Advisor 2 position and its budget from the Housing Affordability and Livability Agenda budget program to the Executive Leadership budget program. This transfer is one part of three baseline transfers of Strategic Advisor 2 positions and budget authority from various budget programs to the Executive Leadership budget program to reflect how the department currently operates.

Proposed Operating

SDOT Outreach & Engagement Expansion

Expenditures	\$662,775
Revenues	\$622,000
Position Allocation	4.00

This proposal makes a 2019 pilot outreach and engagement program between the Department of Neighborhoods (DON) and Seattle Department of Transportation (SDOT) permanent. In 2019, DON and SDOT expanded their outreach and engagement partnership to better align efforts to include communities in project planning and implementation. Previously, SDOT funded 2.0 FTEs in DON to serve as outreach and engagement advisors for SDOT projects. The pilot added 4.0 FTEs, all Strategic Advisor 1 positions to work on various SDOT projects. These positions will sunset at the end of 2019 and will be made permanent starting 2020. SDOT will provide \$622,000 in ongoing revenue in 2020 to fund this program. This program aims to serve as a template for Citywide efforts to improve department outreach and engagement.

Citywide Outreach & Engagement Expansion

Expenditures	\$82,610
Position Allocation	1.00

This proposal expands the DON's current portfolio to lay the Citywide groundwork to improve how departments provide and coordinate outreach and engagement. Position and budget authority for a 1.0 FTE Grants and Contracts Specialist, Sr. will be added to negotiate Memorandums of Understanding (MOUs) with the first cohort of partner departments, including Finance and Administrative Services, the Office of Sustainability and the Environment, Human Services Department, Seattle Information Technology, Seattle City Light, and Seattle Public Utilities. MOUs with partner departments will identify funding and other resources to support two additional full-time positions: a Planning and Development Specialist II to support Community Liaison work and an Administration Specialist II to provide general support. Additional budget and position authority can be added via supplemental requests in 2020.

AIDS Walk Memorial

Expenditures	\$65,000
--------------	----------

In 2020, the plaza over Seattle's Capitol Hill Station and the north edge of Cal Anderson Park will become home to the AIDS Memorial Pathway (AMP), a community-driven and collaboratively funded project. The department will contribute one-time funding of \$65,000 in 2020, in addition to \$100,000 provided in the 2019 2nd Quarter Supplemental Budget Ordinance, to finish this project. The AMP began in 2017 to gather stories about those who lived and died with HIV/AIDS, and those who fought and continue to fight the virus, especially ethnic minorities who are disproportionately impacted by HIV/AIDS.

Department of Neighborhoods

Healthy Food Fund

Expenditures	\$2,500,000
Position Allocation	1.50

This proposal uses \$2.5 million in ongoing funding from the Sweetened Beverage Tax (SBT) to create a Healthy Food Fund, a new community grant to improve public health. The Fund is in line with the recommendations from the Community Advisory Board (CAB), which provides recommendations regarding the City's use of SBT revenue. The Advisory Board recommends that the 2020 Proposed Budget invest more in community-led activities and provide more support for one-time investments in infrastructure to increase community capacity to offer healthier food options. The program will include funding for two permanent positions: a 1.0 FTE Planning and Development Specialist II and a 0.5 FTE Admin Spec II. Also included is one-time funding for a one-year TLT Planning and Development Specialist II.

P-Patch Community Garden Preservation and Enhancement

Expenditures	\$3,000,000
--------------	-------------

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This proposal provides one-time funding from the Sweetened Beverage Tax to provide additional support for the P-Patch Community Gardening program, which produces fresh, healthy foods for the public and develops a sense of community. This allows the department to invest in the community gardens to create a more financially sustainable program. The department will consider land acquisition, garden relocation, and capital infrastructure. The department will look towards working with the Sweetened Beverage Community Advisory Board, local community garden partners, and other stakeholders to best determine which projects to fund. The department will hire a TLT projects coordinator to support these efforts.

Council

Hub in a Box

Expenditures	\$34,000
--------------	----------

This item adds \$34,000 in one-time funding to support the Hub in a Box program, which provides secure equipment to support community responses in the case of a disaster, a community emergency hub. The program places supplies in areas where people are not typically engaged with the City and are less likely to want to navigate City processes. Priority will be placed on communities with lower levels of individual household capacity for emergency preparedness. These funds will enable the program to install 15 hubs in 2020.

South Park Public Safety Coordinator

Expenditures	\$75,000
--------------	----------

This item provides one-time funding of \$75,000 to continue the work of the South Park Public Safety Coordinator. The City provided \$75,000 in annual support for this work in 2018 and 2019. The South Park Public Safety Taskforce Report, released in 2017, recommended hiring a bilingual resident to coordinate community public safety efforts in South Park. In 2018, the coordinator was involved in seven assessments using Crime Prevention Through Environmental Design, which identified areas or elements that could attract crime. Further, the coordinator also completed 15 community cleanups, over 90 safety partnership and neighborhood coordination meetings, and 110 community safety and outreach events. This work continued into 2019.

Seattle Repertory Theater's Public Works Seattle Program

Expenditures	\$75,000
--------------	----------

Department of Neighborhoods

This item adds \$75,000 in one-time funding to the Neighborhood Matching Fund (NMF) program to increase a grant for the Seattle Repertory Theater to support the Public Works Seattle project. The Public Works Seattle project builds partnerships with community-based organizations to enable people of all backgrounds to participate in theater workshops and classes, attend performances, and create ambitious works of participatory theater. This project received \$25,000, the maximum grant amount, from NMF in 2019. These funds will increase the grant to \$100,000, the Neighborhood Matching Fund grant maximum prior to 2019.

Council Provisos

Redirect Sweetened Beverage Tax to Support Food and Education Programs

Expenditures \$(2,275,000)

This change reduces one-time Sweetened Beverage Tax (SBT) support for capital improvements in the P-Patch program in the Department of Neighborhood (DON) from \$3,000,000 to \$725,000, a \$2,275,000 decrease. Individual department changes below are reflected in each department's budget section. The full \$2,275,000 decrease is shown below for reference, and directed to the following priorities:

- \$75,000 increase to the Office of Sustainability and Environment (OSE) for consultant services to assess scratch cooking infrastructure at Seattle Public Schools (SPS);
- \$300,000 increase to Seattle Parks and Recreation Department (SPR) and \$140,000 increase to OSE for installation of water bottle filling stations at community centers and Seattle Public Schools;
- \$735,000 increase to the Human Services Department (HSD) to provide micro-grants to food banks, meal program sites, and home childcare programs for kitchen equipment and supplies;
- \$225,000 increase to OSE for consultant services to develop an evaluation plan for all SBT-supported programs;
- \$100,000 increase to the Department of Education and Early Learning (DEEL) to provide grants to community-based organizations that work to provide diapers to families of diaper-aged children;
- \$375,000 increase to DEEL to evaluate how the City can facilitate connecting families with childcare providers and develop strategies and models based on best, promising, or emerging practices to address the lack of affordable and accessible childcare for infant and toddler care (0-3 years of age) from other jurisdictions;
- \$225,000 increase to OSE for an additional 450 Fresh Bucks vouchers, expanding access to a total of 6,450 vouchers; and,
- \$100,000 increase to OSE for consultant support to assist with the Community Advisory Board's annual report and other materials.

This Budget change also imposes the following budget proviso on DON:

"Of the appropriations in the 2020 budget for the Department of Neighborhoods, \$725,000 is appropriated for capital improvements for P-Patch gardens located within Healthy Food Priority Areas, as presented on page 22 of the Healthy Food Availability & Food Bank Network Report, published in February 2019, and may be spent for no other purpose. Furthermore, the Council anticipates that funding will be prioritized for gardens located within areas where all three factors - lower income, longer travel times to healthy food retailers, and higher percentage of unhealthy food retailers - are present."

Office of Planning and Community Development

Sam Assefa, Director

(206) 386-1010

<http://www.seattle.gov/opcd/>

Department Overview

The Office of Planning and Community Development (OPCD) was established in December 2015 with a mission of strengthening citywide planning and implementation and ensuring City departments are aligned and coordinated in planning for Seattle's future development. OPCD coordinates City departments to ensure that development decisions and investments advance equitable growth, consistent with Seattle's Comprehensive Plan. The department is guided by its vision of "an inspiring city, in harmony with nature, where everyone thrives." In addition to partnering with other City departments, OPCD works closely with community partners and other agencies to implement that vision. During the last four years, OPCD has accomplished a wide range of projects, including implementation of Mandatory Housing Affordability (MHA); legislation to make it easier for property owners to create accessory dwelling units (ADUs); development of new Design Guidelines in six neighborhoods; funding more than 20 community-initiated projects to combat displacement through the Equitable Development Initiative (EDI); and numerous other items.

The director of OPCD co-chairs the Capital Subcabinet with the director of the City Budget Office (CBO) to facilitate a coordinated decision-making structure to guide planning and implementation of infrastructure investments. The Capital Subcabinet is comprised of key staff from the Mayor's Office, CBO, department directors who have responsibility for major capital projects, and directors of departments that support neighborhoods and businesses. OPCD works with members of the cabinet to ensure the City's capital investments support community development objectives, and that department priorities are aligned and reflected in policies and budget resources.

OPCD is organized in three divisions: Citywide Initiatives, Community Planning and Design, and Equitable Development.

Citywide Initiatives

This division leads the development of strategies, policies and actions on issues of citywide importance through efforts such as Seattle's 2035 Comprehensive Plan Update and the Affordable Middle-Income Housing Advisory Council. This division also represents the City in regional planning initiatives and works with partners to conduct research and analysis on current issues and trends to forecast potential future challenges and opportunities.

Community Planning and Design

This division works at the neighborhood, district or community scale to develop localized strategies for addressing community-defined priorities. These efforts are typically undertaken in collaboration with community partners and involve multiple City departments as well as other agencies. Outcomes range from near-term tactical interventions to legislative actions such as adoption of design guidelines and rezoning. Decisions about where to focus these efforts are informed by data on growth, equity, displacement, environmental issues and other topics, and are often in response to major capital investments or market forces that will catalyze community change and/or contribute to displacement. This division also leads site- and area-specific efforts to facilitate desired change in the built environment and property redevelopment that achieves community-benefit outcomes.

Equitable Development

This division leads the City's Equitable Development Initiative (EDI) in partnership with City departments and community groups to invest in community-led efforts aimed at addressing issues of racial equity, social justice and cultural displacement. The Equitable Development Framework guides how the City prioritizes its work; shapes its budgets, policies, programs, and investments; and structures the implementation of targeted strategies and

Office of Planning and Community Development

equitable development projects by using clear objectives for reducing disparities and achieving equitable outcomes for marginalized populations.

In addition, two independent commissions are housed within OPCD:

The **Seattle Design Commission** promotes civic design excellence in capital improvement projects that are located on City land, in the City right-of-way, or constructed with City funds. The commission provides recommendations on aesthetic, environmental and design principles and policies, and promotes interdepartmental and interagency coordination. The Seattle Design Commission consists of 3.5 FTE staff and 10 commissioners that meet twice a month and review City-funded capital projects such as community centers, park facilities, fire stations and police stations. The commission advises the Mayor, the City Council and City departments on the design of capital improvements and other projects and policies that shape Seattle's public realm.

The **Seattle Planning Commission** advises the Mayor, the City Council and City departments on broad planning goals, policies and plans for the physical development of the city. Comprised of 3.5 FTE staff and 16 volunteers, the commission's work is framed by the Comprehensive Plan and seeks public comment and participation as a part of the process to achieve the plan's vision. The commission provides independent analysis and promotes issues vital to livability.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Equitable Development Initiative (EDI) is an important and growing program within OPCD. The EDI program is coordinated by OPCD and guided by an interdepartmental working group consisting of staff from the Office of Housing (OH), Department of Neighborhoods (DON), Office of Economic Development (OED), Mayor's Office (MO), and City Budget Office (CBO). It is also informed by an external community advisory board representing impacted communities. In 2017, the City Council identified the initial five projects for the EDI program. Since then, the EDI program has completed two additional rounds of project funding and now supports a total of 22 unique projects. Support for each of these projects includes a mix of capacity building and capital development funding, which can include site acquisition.

The EDI program was initially funded with \$16 million in one-time proceeds from the sale of surplus property known as the Civic Square Block. The Washington State Legislature passed the Short-Term Rental (STR) Tax in the 2018 legislative session and beginning in 2019, the EDI program has also been funded with STR revenues. In 2020, \$5 million of STR revenues support EDI grant-making. General Fund supports EDI staff and other administrative components of the program, and the 2020 Adopted Budget includes \$430,000 of Community Development Block

Office of Planning and Community Development

Grant (CDBG) dollars. CDBG dollars are received as part of a grant from the federal government and will support construction or site development work.

In 2019, the City reached agreement on the sale of the Mercer Megablock properties in South Lake Union, resulting in new revenues, of which \$15 million is appropriated in the 2020 Adopted Budget for a new Equitable Development Initiative (EDI) Revolving Site Acquisition Loan program. This funding will help project partners acquire site control for EDI projects that include housing in order to advance the project toward concrete implementation outcomes. An additional \$500,000 of Mercer property proceeds are included in OPCD's adopted budget to fund work on strategic investments for anti-displacement property acquisition.

One of the core functions of OPCD is to serve as the steward of the City's Comprehensive Plan, a 20-year vision and roadmap for Seattle's future. The Comprehensive Plan guides City decisions about where to create new jobs and residences, how to improve the transportation system, and where to make capital investments such as utilities, sidewalks, and libraries. It provides a framework to guide most of Seattle's big-picture decisions on how to manage growth while preserving and improving our neighborhoods.

The Washington State Growth Management Act (GMA) requires that cities undertake a major review and update of their comprehensive plans every eight years. Under the GMA, comprehensive plans must accommodate the growth that is anticipated over the next 20 years. The previous major update of the Comprehensive Plan planned for anticipated growth of 70,000 housing units and 115,000 jobs during the 2014-2035 planning period. The next major plan update will extend the planning period to approximately 2043. Based on faster-than-anticipated growth to date and updated state and regional projections for population and employment, the next update will likely anticipate significantly more growth. In response, the City will review and revise as needed the Urban Villages growth strategy and policies that guide City actions that include land use, transportation, housing, and public investments. The 2020 Adopted Budget adds \$650,000 in one-time resources for OPCD to work on an Environmental Impact Study, engage in community outreach, and conduct a racial equity analysis to support the next major update to the Comprehensive Plan.

Another major initiative for OPCD is Sound Transit 3 (ST3) light rail station area planning. ST3 will include 14 new light rail stations and 11 miles of guideway in Seattle. Starting in 2020, City departments and other jurisdictions will begin substantive work on station area planning for ST3 facilities, including policies and implementation strategies concerning urban design and neighborhood integration of Sound Transit investments. OPCD will be engaged in station design and neighborhood integration, including the evaluation of station area planning principles supported by urban design frameworks for each station area, strategy development and implementation for Transit Oriented Development (TOD), Equitable Development, and Anti-Displacement. OPCD is also the lead department on developing station design guidelines, incentive zoning for station areas, and applying a Racial Equity Toolkit (RET) analysis to these projects.

City Council Changes to the Proposed Budget

The City Council modified OPCD's proposed budget in the following ways:

- The City Council added \$35,000 of one-time General Fund for a Natural Valuation Capital study; and
- The City Council indirectly modified an item related to OPCD's budget by changing the Strategic Investment Fund allocation in Finance General from \$41.7 million to \$30 million.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget Expenditures	\$443,442
--	-----------

Office of Planning and Community Development

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. Of this amount, \$28,330 is Real Estate Excise Tax and the remaining \$415,112 is General Fund.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$7,256

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees. General Fund supports \$6,789 of this increase and the remaining \$467 is from Real Estate Excise Tax.

Citywide Adjustments for Standard Cost Changes

Expenditures \$74,284

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process. The General Fund supports \$71,861 of this allocation and the remaining \$2,423 is supported by Real Estate Excise Tax.

Proposed Operating

EDI Revolving Site Acquisition Loan Fund

Expenditures \$15,000,000

Escalating land prices have become a barrier to implementing the strategies outlined in the Equitable Development Initiative (EDI) Implementation Plan and Equitable Development Financial Strategy. The 2020 Adopted Budget includes \$15 million of one-time funding to address this issue by creating a revolving site acquisition loan program for equitable development projects. Loans will be repaid with permanent financing so that this can be a sustainable tool to serve future projects. This item is funded by proceeds from the Mercer Megablock property sale in South Lake Union.

Strategic Investment Fund

Expenditures \$500,000

Position Allocation 1.00

The 2020 Adopted Budget makes significant investments in strategic land acquisition to advance racial equity and address displacement. The adopted budget adds \$330,664 of one-time General Fund for strategic land acquisition work to address displacement. The work will include community outreach and engagement. It will also include a citywide scan of potential properties, including feasibility evaluation. This item also provides \$169,336 of ongoing General Fund for a Strategic Advisor 2 Real Estate Advisor position. The adopted budget also includes a \$30 million allocation in Finance General to support a Strategic Investment Fund. OPCD will work with DON, OED, CBO, and OH on all phases of the strategic investment land acquisition work. Funding for this item comes from sale of the Mercer Megablock property in South Lake Union.

Office of Planning and Community Development

Comprehensive Plan Major Update

Expenditures \$650,000

This item adds \$650,000 of one-time General Fund support to launch the next major update of the City's Comprehensive Plan. The Plan update, which is required under the state Growth Management Act, is anticipated to take three years to complete. This item includes \$500,000 for OPCD to contract with a consultant team for the project EIS and \$150,000 for outreach and engagement. OPCD is working with DON and OCR to develop a community engagement work plan which will result in the generation of specific tasks and roles for OPCD, DON and consultants.

Restore Funding for EDI Staff

Expenditures \$1,119,580

This ongoing item restores funding to OPCD's budget for administration of the Equitable Development Initiative. In 2019, \$4 million of Short-Term Rental Tax (STR) dollars were allocated to community-initiated projects, and \$1 million of STR dollars were allocated to administer the program. On July 22, 2019, the City Council passed legislation that directed all \$5 million of OPCD's STR budget to community-initiated equitable development projects. This item adds General Fund to support the 6 FTEs who administer the EDI program and to support EDI administrative and consultant services costs.

Additional EDI Project Funding

Expenditures \$540,000

The 2020 Adopted Budget adds \$540,000 of one-time funding for Equitable Development Initiative grant awards. This will support projects that are strong candidates for project selection but were not initially selected for funding due to budget constraints. Of this amount, \$40,000 is from the General Fund and the remaining \$500,000 is from the Unrestricted Cumulative Reserve Fund.

Sound Transit 3 Funding from SDOT

Expenditures \$134,255
Revenues \$134,255

This technical item increases appropriation authority by \$134,255 for station area planning work related to Sound Transit 3. The 2020 Endorsed Budget included an appropriation of \$134,255 in SDOT's budget for work to be performed by OPCD in support of Sound Transit 3. This item adds the corresponding budget appropriation for OPCD. Revenues in SDOT's Transportation Fund (street use fees) are supporting this one-time General Fund appropriation to OPCD.

Proposed Technical

Move Short Term Rental Tax to New Fund

Expenditures -

During 2019, Council passed Ordinance 125872 which created the Short-Term Rental Tax Fund. This technical adjustment moves OPCD's \$5 million allocation of short-term rental tax from the General Fund to this new fund. This appropriation will be used to support the Equitable Development Initiative.

Technical Adjustments for Commissions Housed in OPCD

Expenditures -

Office of Planning and Community Development

This budget neutral item allocates commission budgets where expenses are occurring to assist with planning and monitoring efforts.

Council

Natural Capital Valuation Study

Expenditures \$35,000

This item adds \$35,000 of one-time General Fund to for OPCD to contract with an expert in ecosystem services. Funds will be used to evaluate how critical ecosystem services can be incorporated into the next major update to the City's Comprehensive Plan, with a focus on environmental justice and racial equity.

Council Provisos

Proviso \$150,000 in 2020 for Comprehensive Plan Outreach and Engagement in OPCD

Expenditures -

"None of the money appropriated in the 2020 budget for the Office of Planning and Community Development for outreach and engagement regarding the next major update to the Comprehensive Plan may be spent unless the Chair of the Council's Planning, Land Use and Zoning committee, or the successor committee with purview over the Office of Planning and Community Development, files a certification with the City Clerk that the Office of Planning and Community Development, the Department of Neighborhoods, and the Office for Civil Rights have briefed the committee on their work plan for Comprehensive Plan outreach and engagement, including a racial equity toolkit."

Proviso \$500,000 in OPCD for the Comprehensive Plan Environmental Impact Statement

Expenditures -

"Of the appropriation in the Office of Planning and Community Development (OPCD), \$500,000 is appropriated solely for the purpose of retaining a consultant or consultants to prepare an Environmental Impact Statement (EIS), if it is determined by OPCD that an EIS is warranted based on the proposed impacts of the next major Comprehensive Plan update. If required, OPCD is expected to sign a contract for consultant assistance to prepare an EIS in 2020. The appropriation may not be used for any other purpose. If OPCD determines that an EIS is necessary for the next major update, OPCD shall file with the City Clerk a contract with a consultant to study a range of alternatives, including, but not limited to:

1. At least one growth alternative that provides additional housing capacity and housing type diversity in all single-family areas.
2. At least one growth alternative that uses other strategies to minimize displacement of low-income residents and communities of color.
3. At least one growth alternative that studies an alternative name for Single-family zones, such as Neighborhood Residential.

The areas of study identified (items 1-3 above) may be combined into one alternative or studied separately. In developing the EIS scope, OPCD should consider other actions to increase residential building capacity, such as those listed in RCW 36.70A.600."

Community Police Commission

Bessie Scott, Interim Executive Director

(206) 256-5545

<http://www.seattle.gov/policecommission/>

Department Overview

The Office of the Community Police Commission (CPC) is the administrative and policy support entity of the Community Police Commission. The CPC is charged with providing community oversight and input on the police reform efforts that are the subject of a Settlement Agreement between the City and the U.S. Department of Justice regarding police practices. Membership of the CPC was modified in 2017 through legislation addressing changes in civilian oversight of the police ([Ordinance 125315](#)). A 21-member board appointed by the Mayor, the City Council and the Community Police Commission governs the CPC. Each commissioner serves a three-year term.

The CPC provides an independent forum for dialogue and widespread input on the reform efforts embodied in the Settlement Agreement and Memorandum of Understanding established by the Department of Justice. Ongoing community input is a critical component of achieving and maintaining effective and constitutional policing.

The CPC leverages the ideas, talent, experience and expertise of the people of Seattle to ensure police services:

- fully comply with the Constitution of the United States;
- ensure public and officer safety; and
- promote public confidence in the Seattle Police Department and its officers.

In 2017, the CPC's role was further refined through legislation addressing changes in the civilian oversight of the police ([Ordinance 125315](#)). The CPC is still charged with fulfilling and prioritizing the responsibilities as specified under the Consent Decree and Memorandum of Understanding and its role now includes:

- reviewing and providing input to many city partners on the police accountability system, police services and the Seattle Police Department's policies and practices;
- engaging in community outreach to obtain the perspectives of the community on police-community relations, the police accountability system, police services, policies and practices and providing that input to other City departments;
- maintaining connections with representatives of disenfranchised communities and community groups; and
- advocating for reforms to state law that will enhance public trust and confidence in policing and the criminal justice system.

Community Police Commission

Budget Overview

The 2020 Adopted Budget for the Community Police Commission (CPC) includes minor Citywide technical changes which are described below. Funding is reserved in the FAS adopted budget for future space renovations needs, estimated at \$250,000, as determined by CPC leadership.

City Council Changes to the Proposed Budget

The 2020 Adopted Budget reflects funding added by the City Council for external legal fees and one-time funding for CPC's 2020 workplan items including a strategic plan, an executive search, a complainant appeals taskforce and organizational development.

Community Police Commission

Total Incremental Changes	\$378,713	-
Total 2020 Adopted Budget	\$1,847,285	9.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$77,905

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$1,190

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$19,618

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer

Community Police Commission

of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Council

CPC Work Plan Items

Expenditures \$200,000

This change funds four one-time projects that are identified in the CPC's 2020 Work Plan. The work plan items include a national search process for a permanent Executive Director (\$70,000), a consultant to support the CPC's Strategic Plan (\$50,000), a task force to analyze the Seattle Police Department's complainant appeals process (\$30,000), and an organizational development expert to advise the CPC about how to maximize its operations while achieving the CPC's stated goals and statutory duties (\$50,000).

Council Provisos

Outside Legal Counsel and Impose a Proviso

Expenditures \$80,000

This change increases appropriation for the retention of outside legal services in order to receive independent legal advice and representation in policing-related matters, particularly with relation to United States v. Seattle, before the U.S. District Court of Western Washington.

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2020 budget for the Community Police Commission, \$80,000 is appropriated solely for the retention of outside legal counsel for an attorney-client relationship only, and may be spent for no other purpose."

Seattle Fire Department

Harold D Scoggins, Fire Chief

(206) 386-1400

www.seattle.gov/fire

Department Overview

The Seattle Fire Department (SFD) provides fire protection and prevention, technical rescue and emergency medical services for the City of Seattle. It deploys engine companies, ladder companies, aid and medic units and fireboats to mitigate the loss of life and property resulting from fires, medical emergencies and other disasters. SFD maintains 33 fire stations that are strategically located within six battalions to provide optimal response times to emergencies. Each battalion serves specific geographic areas in the city: the downtown/Central Area, north and northeast Seattle, northwest Seattle, south and southeast Seattle and West Seattle.

SFD has a strong record on prevention of fires and property loss from fires. Seattle has fewer fires than the national average and of other cities with similar population size. Dollar loss and civilian deaths are also below the national and regional averages. Seattle averages 0.9 fires annually per 1,000 residents, which is lower than the regional average of 3.5 and national average of 4.1. Over the past five years, the average number of total structure fires per year in Seattle has been 624. Total fire dollar loss averaged \$22.6 million per year.

SFD provides emergency medical responses, which account for approximately 82% of all fire emergency calls in Seattle. In order to respond to the emergency medical demand, all Seattle firefighters are trained as emergency medical technicians (EMTs) to provide basic emergency medical care, or basic life support. SFD staffs seven medic units each with two firefighter-trained paramedics to provide more advanced medical care or advanced life support. Additionally, the department has five full-time and two peak-time aid units staffed by firefighters to provide basic life support citywide.

In 2016, SFD implemented the Low Acuity Alarm Program to reduce non-emergency calls to the 911 system and to provide improved service and care to individuals with non-emergent needs. Currently, core activities are high utilization intervention (individuals and locations), low acuity data and trend analysis, establishment of referral partnerships and alternate treatment/transportation development.

The department also has marine, hazardous materials, high-angle, tunnel and confined-space rescue teams. In addition, SFD officers and firefighters are members of local and national disaster response teams such as the Federal Emergency Management Agency (FEMA)'s Urban Search and Rescue Task Force and wild land firefighting. SFD's fire prevention efforts include fire code enforcement, building inspections, plan reviews of fire and life safety systems, public education and fire safety programs, regulation of hazardous materials storage and processes and regulation of places of public assembly and public events to ensure life safety.

Seattle Fire Department

Budget Overview

The Seattle Fire Department's (SFD) 2020 Adopted Budget reflects the City's commitment to maintaining public safety and supporting the work of those who directly meet the community's emergency-response needs.

Enhancing Response to 9-1-1 Calls

SFD plays a key role responding to a high volume of 9-1-1 calls that are medical, behavioral, and/or social in nature and do not require emergency interventions or hospitalization, or "low-acuity" calls. In 2018, downtown core units responded to over 11,000 low-acuity calls. This represented nearly 50% of those units' EMS run volume. Yet SFD has few options for these patients beyond hospital Emergency Department (ED) transport or leaving them at the scene. Nearly half of these downtown non-emergent patients were seen but not transported and almost 4,000 of them were seen and transported to an ED. Low-acuity conditions affect some of the most vulnerable in the community and 31% of downtown core patients were flagged as experiencing homelessness.

In late 2019, SFD launched Health One, a Mobile Integrated Health (MIH) pilot, to intervene in crises after a 9-1-1 call as an alternative to this current state. This program sends a team of two fire fighters and one social worker to the scene of low-acuity and crisis EMS calls to divert patients to appropriate and therapeutic destinations. This service will achieve a "warm handoff" of the patient to a new or existing caseworker and supportive services, including shelter, housing, and substance abuse treatment. The 2020 Adopted Budget adds resources to enhance the Health One program.

Providing Life Safety Protections

SFD's Fire Marshal's Office (FMO) provides fire prevention services, including enforcement of the Fire Code, to help provide a high standard of life safety to residents, workers, and visitors to the city. Currently one in three fire protection systems in Seattle are out of compliance, and roughly one in three fire calls turns out to be a false alarm. Until recently, SFD could only provide a notice of violation that did not always result in sustained compliance. Following up on notices of violation (now called orders to comply) requires scheduling return visits that provide time for building owners to come into compliance, unless the violation requires immediate compliance. If a building owner continues not to comply with an order, after potential extensions of compliance deadlines, prosecution is the next step in enforcement, with the threat of penalties of up to \$1,000 per day of violation. This is a slow process that may be too lenient for smaller violations that are easy to come into compliance for and then reoffend. At the same time, the penalty at the end of the process can be harsh.

In late 2019, legislation was approved to provide FMO with a more moderate tool to compel code compliance. SFD now has the authority to issue citations for Fire Code violations such as locked exit doors, failure to properly maintain fire protection systems like sprinklers, and repeated false alarms. The provisions for Fire Code citations are similar to existing provisions in the Seattle Municipal Code for the Seattle Department of Construction and Inspections and the Seattle Department of Transportation, including appeal to the Office of the Hearing Examiner. This moderate tool in FMO's toolbox will improve life safety in the city by providing an immediate penalty and incentive for building owners and businesses to comply with the Fire Code.

Increasing Administrative Workload

As the city has grown and demand for SFD services has increased, so have demands on the Operations team's administrative staff. The department is striving to increase efficiencies with electronic systems; however, even with the addition of these systems, the volume of work far exceeds the resources available and the current staff in the past two years have worked a significant amount of overtime to keep up. A new position using existing resources will help provide the level of administrative support that is needed to effectively run Seattle Fire Department Operations and Resource Management Divisions.

City Council Changes to the Proposed Budget

The Council added \$600,000 of General Fund appropriation to SFD to augment one recruit class in 2020.

Seattle Fire Department

Council		
Add \$600,000 GF (one time) in 2020 to SFD to augment one recruit class	600,000	-
Total Incremental Changes	\$2,972,066	1.50
Total 2020 Adopted Budget	\$223,942,630	1168.55

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$719,197

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase for the department's non-uniformed staff, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$200,828

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Seattle Fire Department

Add Accounting Position

Expenditures	\$54,996
Position Allocation	0.50

This item adds an Accounting Technician II position to providing accounting support for the Fire Prevention Division, which will be implementing a new Fire Code citations program. The additional resource will be funded by new revenues collected from the Fire Code citations program. Until the fall of 2019, SFD did not have the authority to issue citations for Fire Code violations such as locked exit doors, failure to properly maintain fire protection systems like sprinklers, and repeated false alarms. With citations, the Fire Marshall's Office can now more quickly incentivize businesses and building owners to comply with the Fire Code than the prior method of issuing notices of violation, scheduling return visits and re-inspections, and pursuing litigation in particularly uncooperative cases. The 2020 Adopted Budget also increases resources at the Office of the Hearing Examiner to handle the citations appeals resulting from the new program. See the Office of the Hearing Examiner's budget book pages for more detail.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$959,825
--------------	-----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Enhance Health One

Expenditures	\$400,000
--------------	-----------

This item adds funding to enhance the Health One mobile integrated health service. Health One sends a team of two fire fighters and one social worker to the scene of EMS calls that do not require emergency department transportation, to divert patients to appropriate and therapeutic destinations. This program will allow firefighters and police officers to focus on emergency situations. The 2019 pilot program for Health One launched with operating hours coinciding with peak call times and core business hours of partner referral services, four days a week. This funding will enable SFD to expand Health One service and track and evaluate the program more effectively.

Increase Seattle IT Allocation to Fund Accela Support

Expenditures	\$37,220
--------------	----------

This item adds expenditure authority to SFD to cover its portion of new staffing added in Seattle Information Technology (Seattle IT) for the Permitting System Integration (PSI)/Accela program. See Seattle IT's budget book section for more details on this program.

Add Ops Admin Support

Expenditures	-
Position Allocation	1.00

Seattle Fire Department

This item adds an Administrative Staff Assistant to perform complex administrative support functions directly supporting the Assistant Chief of Operations and Assistant Chief of Resource Management and respective divisions and provide supervision of three administrative staff. SFD has documented a significant increase in the administrative workload of their Operations team since 2015, including overtime transaction processing, travel and training requests, tour and visit requests, memo generation, mail processing, and special events coordination. This increased workload resulted in nearly 1,000 hours of overtime (among 5 staff members) worked in 2018. The costs of this new position will be offset with reductions in utilization of temporary employment services and/or overtime.

Council

Add \$600,000 GF (one time) in 2020 to SFD to augment one recruit class

Expenditures \$600,000

The City Council added \$600,000 GF to the Seattle Fire Department (SFD) in 2020 to augment one recruit class.

The 2020 Endorsed and Proposed Budgets included base-level funding for two recruit classes, each containing 30 recruits. This Budget Action provided funding that is sufficient to fund nine additional candidates for one recruit class. SFD staff have indicated that a larger recruit class would allow the department to fill vacancies more quickly.

Firefighter's Pension

Steve Brown, Executive Secretary

(206) 625-4355

<http://www.seattle.gov/firepension/>

Department Overview

The Firefighters' Pension Fund (FPEN) provides pension and medical benefit services to eligible firefighters, active and retired, and their beneficiaries. FPEN is a closed plan that only covers firefighters who were hired before October 1, 1977. Retiree benefits for firefighters hired more recently are primarily covered through a separate state-managed plan.

Management of firefighter benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into FPEN to provide for firefighter retiree benefits. In March 1970, the state created the Law Enforcement Officers and Fire Fighters Retirement System Plan 1 (LEOFF 1). Seattle firefighters hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through FPEN. As a result, this group of firefighters receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's FPEN that exceeds LEOFF 1 coverage. Both FPEN and LEOFF 1 closed to new enrollees in October 1977. Firefighters hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from FPEN.

The Seattle Firefighters' Pension Board is a five-member quasi-judicial body chaired by the Mayor or his/her designee, which formulates policy, rules on disability applications, and provides oversight of the Firefighters' Pension Fund. Four staff employees of the board handle all of its operational functions. Staff positions associated with Firefighters' Pension Fund are not reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual FPEN budget, are based on the forecasts of an independent actuary. The Firefighters' Pension Fund has two statutory funding sources:

- The first is a component of the City's property tax levy. These revenues are placed in the City's General Fund, which funds the Fire Pension Fund's annual budget.
- The second is the state fire insurance premium tax.

These statutory funding sources are in addition to other smaller funding sources that support the Firefighters' Pension Fund obligations.

The Firefighters' Pension Fund includes two funds: the Fire Pension Fund, which pays current pension, medical, and death benefits; and the Actuarial Account, which was established by [Ordinance 117216](#) in 1994 to accumulate a balance sufficient to pay all future pension liabilities of the fund by 2028.

Budget Overview

The Firefighters' Pension Fund (FPEN) receives almost all of its revenue from the City's General Fund. FPEN's expenditures pay the legally-mandated pension and medical benefits, including long-term care, to eligible retired firefighters and qualified beneficiaries. Most of FPEN's retirees are represented by either Local 27 (firefighters' union) or Local 2898 (fire chiefs' union) and their total pension benefits are increased annually with a cost of living adjustment (COLA) equal to the negotiated annual wage increases (AWI) for the active union members at the Seattle Fire Department and then offset by benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

In November 2016, Council passed Ordinance 125190 which requires an actuarially determined level payment amount from the City to the FPEN Fund each year to cover pension benefit costs. Any remaining difference between the payment amount and actual pension benefit costs is transferred to the Actuarial Account for FPEN's future pension obligations. The account is invested in a portfolio managed by the Department of Finance and Administrative Services (FAS). The 2020 Adopted Budget assumes an annual rate of return of 6% on the investment portfolio and that the returns are continuously reinvested.

The 2020 Adopted Budget increases the administration appropriations by \$40,000 compared to the 2020 Endorsed budget to reflect citywide changes to wages, family medical leave benefits and internal service costs. It also increases the pension benefits payments by \$28,000.

Total 2020 Adopted Budget	\$21,236,362	4.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$45,511

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$864

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(6,388)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Firefighter's Pension

Proposed Technical

Pension Benefits Change

Expenditures \$28,000

This change better reflects expected pension benefits to be paid in 2020.

Office of Inspector General for Public Safety

Lisa Judge, Inspector General

(206) 684-3663

<http://www.seattle.gov/oig>

Department Overview

The Office of Inspector General for Public Safety (OIG) was established in 2017 via [Ordinance 125315](#). OIG provides oversight of management, practices, and policies of the Seattle Police Department (SPD) and Office of Police Accountability (OPA), monitoring of ongoing fidelity to organizational reforms implemented pursuant to the goals of the 2012 Federal Consent Decree and Memorandum of Understanding, and auditing and review of criminal justice system policies and practices related to policing and other criminal justice matters.

OIG is empowered to help ensure the fairness and integrity of the delivery of law enforcement services and the investigation of allegations of police misconduct. OIG has been established to make systemic recommendations for lasting reform that are intended to reflect the values of Seattle's diverse communities.

Responsibilities of OIG include:

- performing oversight activities that ensure the ongoing integrity of SPD and OPA processes and operations;
- ensuring SPD is meeting its mission to address crime and improve quality of life through the delivery of constitutional, professional, and effective police services that retain the trust, respect, and support of the community;
- conducting risk management reviews and performance audits;
- reviewing misconduct complaint-handling and investigations by OPA;
- evaluating SPD's response to incidents involving death, serious injury, serious use of force, mass demonstrations, serious property or vehicle damage, or other issues of significant public concern to assess the integrity of the process; and
- making recommendations to policymakers for increasing the effectiveness of SPD and related criminal justice system processes.

Office of Inspector General for Public Safety

Budget Overview

The 2020 Adopted Budget focuses on strengthening the capacity of the recently formed OIG by expanding the department's staffing. As OIG ramps up operations, additional auditing staff provide needed oversight for the audit areas identified in the police accountability ordinance. It will also help mitigate the impact of emergent audit issues that could affect the annual OIG work plan.

The 2020 Adopted Budget adds funding and position authority for two auditor positions: one senior auditor and one auditor. The senior auditor will provide oversight and technical expertise that will ensure compliance with auditing standards, and the auditor will help OIG conduct a greater number of audits. These changes expand the capacity of the department to fulfill its mandate to provide civilian auditing of the management, practices, and policies of the Seattle Police Department and Office of Police Accountability, as established under the 2017 Police Accountability legislation (Ordinance 125315).

City Council Changes to the Proposed Budget

The Council added funding for external legal fees for OIG. The Council added position authority for an operations manager position, supported in 2020 by one-time OIG salary savings.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$105,511

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$542

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Office of Inspector General for Public Safety

Expenditures \$167,237

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Senior Auditor (1.0 FTE) to OIG

Expenditures \$171,415
Position Allocation 1.00

This change adds position authority and funding for one senior auditor at a Strategic Advisor 2, Exempt, level for OIG. Auditing is a core function of the OIG. Under the police accountability ordinance (Ordinance 125315) that established the OIG, performance auditing distinguishes this organization from all other City police oversight entities. Audit supervision is a critical activity that should be done by a senior auditor to ensure objectivity, fairness and compliance with auditing standards, and provide meaningful mentorship to other auditors. This position will provide project management and strategic support and expand the department's capacity to perform complex audits as well as improve internal controls over OIG work product.

Add Auditor (1.0 FTE) to OIG

Expenditures \$159,413
Position Allocation 1.00

This item adds position authority and funding for one auditor at a Strategic Advisor 1, Exempt, level. This position will expand OIG's capacity to perform quality audits in accordance with auditing standards and support the ongoing work of the department in critically examining SPD's operations. Auditing is foundational to the OIG legal mandate to provide systemic oversight over SPD. The body of potential audit work is extensive and at current staffing levels, any new competing priority causes significant delays to planned audits. This additional staff position is necessary to support ongoing oversight capacity and operational needs and will increase the total number of auditors to four.

Council

Add Operations Manager Position (1.0 FTE)

Expenditures -
Position Allocation 1.00

This change adds 1.0 FTE to the Office of the Inspector General for Public Safety (OIG) for an Operations Manager Position to increase operational capacity to perform finance, budget, public disclosure and human resource functions. Many of the finance and human resource duties will continue to be performed with the assistance of Legislative Department staff. This position is supported by existing funding in 2020.

Council Provisos

Outside Legal Counsel and Impose a Proviso

Expenditures \$80,000

Office of Inspector General for Public Safety

This change increases appropriation for the retention of outside legal services in order to receive independent legal advice and representation in policing-related matters, particularly with relation to United States v. Seattle, before the U.S. District Court of Western Washington.

This Council Budget Action imposes the following proviso:

“Of the appropriation in the 2020 budget for the Office of Inspector General for Public Safety, \$80,000 is appropriated solely for the retention of outside legal counsel for an attorney-client relationship only, and may be spent for no other purpose.”

Law Department

Peter S. Holmes, City Attorney

Civil Division, (206) 684-8200; Criminal Division, (206) 684-7757

<http://www.seattle.gov/cityattorney>

Department Overview

The Law Department serves as counsel to the City's elected officials and agencies, and as the prosecutor in Seattle Municipal Court. The Seattle City Attorney, Peter S. Holmes, is a nonpartisan elected official.

The department provides legal advice to City officials and departments, represents the City in litigation, and protects the public health, safety, and welfare of the community by prosecuting violations of City criminal and civil ordinances and state law. The four department divisions are described below.

The **Civil Division** provides legal counsel and representation to the City's elected and appointed policymakers in litigation at all levels of county, state, and federal courts, and administrative agencies. The Civil Division is organized into seven specialized areas of practice: Employment, Environmental Protection, Land Use, Government Affairs, Torts, Regulatory Enforcement & Economic Justice, and Contracts & Utilities.

The **Criminal Division** prosecutes misdemeanor crimes and represents the City in contested traffic infractions in Seattle Municipal Court, provides legal advice to City clients on criminal justice matters, monitors state criminal justice legislation of interest to the City, and participates in criminal justice policy development and management of the criminal justice system. The Criminal Division is comprised of a Prosecution Support Unit, Case Preparation Unit, Domestic Violence Negotiation and Trial Unit, Domestic Violence Victim Advocates, Appeals, Review and Filing Unit, Specialty Courts Unit (Mental Health, Veterans' Court, LEAD, and Pre-filing Diversion), Infractions Unit, and Trial Team Unit.

The **Precinct Liaison Division** funds attorneys to work in each of the City's five police precincts, providing legal advice to police and other City departments, and solving issues of concern to the community.

The **Administration Division** provides executive leadership, communications, and operational support for the entire department. It is comprised of the executive leadership team, human resources, finance, media relations, and information technology staff.

Law Department

Budget Overview

The 2020 Adopted Budget provides additional resources to the Law Department to increase staffing to address special projects and meet increased workload, and adds funding for Citywide impacts.

In the last five years, use of outside counsel has increased for the Civil Division. The Law Department uses outside counsel when there is a conflict of interest, specific expertise is required, or existing staff is at capacity. Three Assistant City Attorney positions are added in the areas of employment and government affairs where outside counsel has increased primarily due to capacity. Adding these positions is expected to save the General Fund over \$1 million.

In the 2019 Adopted Budget, the Law Department was requested to absorb a 1% salary savings reduction of \$250,000 in the Civil Division. The reduction was restored in 2019 through the 2nd Quarter Supplemental Budget Ordinance and is restored on an ongoing basis in the 2020 Adopted Budget. Restoring this budget allows the department to fill vacancies promptly, adjust pay as required for the experience levels of staff, and absorb employee payouts when they leave the department. In 2019, movement of employees along the discretionary pay band was delayed until this funding was restored. The Law Department is concerned the current wage structure for Civil Division attorneys is not competitive. A compensation review of the Assistant City Attorney classification is underway to compare Civil and Precinct Liaison Division attorneys to the market of governmental attorneys.

In the Criminal Division, an Assistant City Prosecutor (ACP) is added to the general rotation of the Criminal Division in the 2020 Adopted Budget. Since the expansion of paid care leave programs in the City, the Criminal Division has had one to two ACPs on parental or other city benefited leave at any given time reducing overall capacity to address steady court scheduling and case management, as well as effectively identifying cases for diversion programs. Having a permanent position in place of temporary staffing enables the department to hire and train a permanent employee to backfill employees on leave. The position will also assist the Review and Filing Unit in addressing case filing backlogs that occur as a result of regular sick and vacation time usage when backfill is not being provided.

The current Criminal Division case management application, DAMION, was implemented in 1998 to track all aspects of prosecution including police reports, charging decisions, victims, witnesses, defendants, court dates and disposition. The application also relies upon significant data exchanges with the Seattle Police Department (SPD) and the Seattle Municipal Court (SMC). This desktop system is at the end of its lifecycle and the vendor is no longer fully supporting the application for updates and maintenance. In addition, use of the system limits the department's ability to implement a paperless process and reduce redundancies. The Seattle Information Technology Department (ITD) has \$325,000 in the Criminal Justice Information System Replacement Project to upgrade the existing system. An additional unspent \$650,000 was carried over from 2018 to 2019 to provide further funding for this project. Remaining funding needs will be addressed in the Criminal Justice Information System Replacement Project. A request for proposals (RFP) will be issued in 2019 to begin identifying a replacement solution. Implementation is expected to take place in 2020, with a 'go live' date in the fourth quarter of 2020.

The 2017 Adopted Budget created the Pre-Filing Diversion Program led by the Law Department with assistance from the Seattle Municipal Court. The 2017 Racial Equity Toolkit (RET) determined that additional services, including pre- and post-workshop support and swift connection to resources, were required to meet racial equity needs of participants. The adopted budget includes funding to double the number of workshops from 6 to 12 workshops per year to meet these needs. In the Administration Division, additional staff and staffing changes are being provided without funding to help the department manage the increased workload associated with the PeopleSoft 9.2 accounting system implementation and human resource needs. The department will fund this staff via contributions from the operating divisions. A Personnel Specialist position will bring human resource staffing to two to support over 200 employees and volunteers and manage an average of five open recruitments per month. In the finance section, an accounting tech position will be reclassified to full accountant adding redundancy to meet PeopleSoft 9.2 role requirements and provide coverage when the principal accountant is out.

The 2020 Adopted Budget also includes revenue-backed appropriation for the MOAs the Law Department has negotiated with other city departments and outside agencies for specific services. While these have historically been

Law Department

off budget, appropriation of these items follows the financial policies required by PeopleSoft 9.2. In addition, the budget provides appropriation for reclassifications approved by the Seattle Department of Human Resources.

In 2019, the Mayor convened the High Barrier Individuals Working Group, an interagency group including King County, in response to heightened community conversations around public safety and individuals repeatedly caught in a cycle of criminal justice, social services and community incidents. The group explored new strategies, system reforms or partnerships needed for a more focused approach to repeat offenders who are not receiving appropriate interventions. The group developed four new pilot programs to address these issues including Case Conferencing with support from the City Attorney's Office to coordinate across systems and programs addressing those involved in diversion programs, court programs or post-sentencing probation for these high barrier individuals. There are funds set aside in Finance General for these pilot programs.

City Council Changes to the Proposed Budget

A Council Budget Action related to a Human Services Department (HSD) contract with a law enforcement diversion program added \$3.5 million to HSD and funding for an additional assistant city prosecutor to the Law Department. The HSD appropriation is sufficient to fund the attorney through the contract agency and fund a study of the budget and staffing necessary to allow the contract agency to accept all currently anticipated referrals for prioritized individuals.

The Regional Domestic Violence Firearms Enforcement Unit includes members from the King County Prosecuting Attorney's Office, LAW, the Seattle Police Department, and the King County Sheriff's Office. The Unit currently consists of a Program Manager; three dedicated firearms prosecutors; a "Court Coordinator"; a "Court Orders Problem-Solver"; law enforcement personnel to serve and enforce the orders; a DV-Firearms Advocate to help petitioners and their families; and a paralegal and data/records staffer. Two Council additions in the 2020 Adopted Budget include:

- an additional advocate position to expand the ability of the Unit to serve as the first point of contact for family or household members initiating extreme risk protection orders and help educate the public and community partners about these protection orders; and
- a Threat Assessment Specialist paralegal will serve as a regional asset and first point of contact for high-risk firearm-related case assessment and be responsible for case triage and assessment of both civil (protection order-related cases, including Extreme Risk Protection Orders) and criminal cases.

The Council reduced a proposal to add three Assistant City Attorney positions in the Civil Division to decrease the use of outside counsel in the areas of employment and government affairs. The 2020 Adopted Budget leaves two Assistant City Attorneys partially funded.

In the 2020 Proposed Budget, funding was reserved in Finance General for a Case Conferencing Pilot to support the Law Department coordinating across systems and programs addressing those involved in diversion programs, court programs or post-sentencing probation for high barrier individuals. The City Council issued a proviso on these funds. The funding set aside in Finance General for the HB Probation pilot was re-purposed to support the Office for Civil Rights.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$1,701,530

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$28,530

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$315,431

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Attorney Staffing

Expenditures \$528,505

Position Allocation 3.00

The Council altered this proposal in the Adopted Budget. Refer to the Council Phase Changes section below. The proposed description follows:

The Law Department sometimes assigns work to outside attorneys due to conflicts of interest, needed expertise or staffing capacity. The department analyzed outside counsel data from 2014-2018 related to capacity of existing staff in the Civil Division. During that period, approximately \$18 million was spent on outside counsel. Of this, over \$10 million in expenditures was related to General Fund matters. Most of the remaining \$8 million was reimbursed by utility departments. The General Fund savings could be more than \$1 million annually with the hiring of three attorneys to address capacity issues.

Pre-Filing Diversion Program Funding of Choose 180 Workshops

Expenditures \$100,000

The 2017 Adopted Budget created the Pre-Filing Diversion Program led by the Law Department with assistance from the Seattle Municipal Court. In a 2017 Racial Equity Toolkit (RET) analysis, it was determined that additional services were required to meet racial equity needs of participants, including pre- and post-workshop support and

Law Department

connection with resources in a timely manner. The department conducts six workshops per year, providing one every other month. The six workshops have been funded through carryover budget due to the late start of the program in 2017. For 2020, the department requested \$25,000 to continue the same level of service. An additional \$75,000 is added to increase the workshops to one a month. With 12 workshops per year, participation is expected to increase with a more immediate connection to resources.

Assistant City Prosecutor to Address Case Backlog and Leave Backfill

Expenditures	\$144,127
Position Allocation	1.00

An Assistant City Prosecutor is added to the Criminal Division to provide capacity to backfill employees utilizing paid parental and family care leave. The Criminal Division typically has one to two prosecutors on parental or other city benefited leave at any given time. Having a permanent position that can be used in place of temporary staffing will enable the department to hire and train a single person to cover multiple types of leave and rotation. The position will also be available to assist the Review and Filing Unit to mitigate and address case backlogs, some of which may qualify for the department's diversion programming.

Restore Vacancy Rate Assumption Reduction

Expenditures	\$270,648
--------------	-----------

This item restores a \$250,000 ongoing 2019 budget cut of assumed salary savings to the Civil Division. Restoring the reduction allows the department to fill vacancies promptly, move employees along a discretionary pay spectrum as they increase their levels of experience, and absorb employee payouts when they leave the department.

Administrative Staffing

Expenditures	-
Position Allocation	1.00

Additional staff and staffing changes are being provided without funding to help the department manage the increased workload associated with the new financial system implementation and human resource needs. The department will fund this staff via contributions from the operating divisions. A Personnel Specialist position will bring human resource staffing to two to support over 200 employees and volunteers and manage an average of five open recruitments per month. While the department has grown more than 25% in the last ten years with many new leave and workforce equity requirements, HR staffing has remained unchanged. In the finance section, an accounting tech position will be reclassified to a full accountant to add the redundancy to meet PeopleSoft 9.2 role requirements and provide coverage when the principal accountant is out. This section manages over 5,000 invoices per year and is responsible for all special fund reimbursements for the Judgment and Claims Fund and Memorandum of Agreement (MOA) billing for the department which require analysis, invoice backup preparation and auditing to ensure they are correctly posted.

Proposed Technical

Budget for Revenue Supported Memorandum of Agreements

Expenditures	\$922,375
Revenues	\$759,985
Position Allocation	3.50

Law Department

City departments and outside entities have historically funded the Law Department for attorney services through memorandum of agreements (MOA). This revenue-backed funding is now tracked through the PeopleSoft 9.2 accounting system and requires associated appropriation per financial policies. Most of these changes are just formalizing financial arrangements that have existed in past years and for which resources have been allocated previously in the “customer” departments’ base budgets.

- MOA with Seattle Police Department for Discipline Support. \$160,660, 1.0 FTE. Since September 2017, a dedicated employment attorney in the Civil Division advises and serves the Chief of Police regarding officer discipline and disciplinary proceedings. The term-limited position is converted to a regular authority for the ongoing body of work.
- MOA with Seattle Police Department for Fifth Precinct Liaison Attorney. \$161,962. The Law Department has provided a fifth precinct liaison attorney to the Seattle Police Department (SPD) Southwest (SW) Precinct under a MOA since 2017. This liaison attorney provides in-person legal guidance to police officers and works with the SW Precinct on community safety, nuisance and regulatory issues, similar to the work performed by the other four liaison attorneys funded by the Law Department. The SW position was created by transferring a position from SPD to the Law Department and reclassifying it to an Assistant City Attorney. The position is funded by SPD pursuant to the 2017 MOA.
- MOA with Legislative Department for Code Reviser. \$25,000. The Code Reviser authority was legislated by ordinance in August 2019. The Legislative Department will provide \$26,164 in revenue to support this appropriation in 2020. The Law Department will reallocate a Paralegal position to a Strategic Advisor 1 to perform this work in the Civil Division.
- MOAs with Office Housing (OH) and Finance and Administrative Services (FAS). \$178,164, 1.0 FTE. For decades, the Law Department Civil Division has provided a dedicated attorney for legal advice and transactional support to OH. In late 2018, OH requested a second dedicated position. In the 2018 4th Quarter Supplemental Budget Ordinance, a position without appropriation was added to accommodate this request. This transaction adds appropriation for the second position. A technical net zero adjustment for the FAS MOA moves healthcare costs to the correct project as part of this transaction.
- MOA Funding Law Enforcement Assisted Diversion (LEAD) Staffing. \$204,269. This transaction adds appropriation authority in the Criminal Division for 1.5 FTEs supported by revenue from the Public Defender Association. This MOA was initiated in 2017. The funding and position authority will continue to be contingent on the execution of MOA agreements for this purpose on a biennial basis.
- MOA Funding Legal Intervention and Network of Care (LINC) Program Staffing. \$145,207, 1.0 FTE. In 2018, the Law Department signed a MOA with King County to provide services associated with the 2015-16 Washington Senate Bill 5177 and *Trueblood et al v. Washington State DSHS*. A prosecutor designed an internal program to make referrals of appropriate adult individuals to the LINC program developed and monitored by the King County Behavioral Health and Recovery Division’s (BHRD) Diversion and Reentry Services section. This agreement is anticipated to be ongoing contingent on continued funding availability from the State. The term-limited Assistant City Prosecutor position is converted to regular authority for the ongoing body of work in the Criminal Division.
- MOA with Seattle Police Department (SPD) for Forfeiture Paralegal. \$47,113, 0.50 FTE. The Law Department is litigating 22 real property and 48 personal property, narcotics, and felony forfeiture cases which require case management, discovery and trial prep assistance from paralegal staff. A MOA with SPD was initiated in 2018 to provide a 0.50 Paralegal funded by revenue from forfeiture funds in the Criminal Division. The regular position which sunsets at the end of 2019 is continued for the body of work in 2020

Fund 2019 Reallocations of Positions in the Public Disclosure Unit

Expenditures \$113,521

Two reallocations were approved by the Seattle Department of Human Resources (SDHR) in 2019. The first reclassification from Senior Paralegal to Strategic Advisor 2 aligned the department public disclosure officer to comparable positions across the City. The second reclassification from an out-of-class Paralegal to Assistant City Attorney acknowledged the long-term duties of the position to support public disclosure legal work.

Law Department

Fund Paralegal Reclassifications from 2018

Expenditures \$45,502

In August 2018, Ordinance 125653 established new classification titles and salaries for the Paralegal and Senior Paralegal positions in the Law Department. This transaction appropriates ongoing funding for the salary increase.

Council

Fund Paralegal in the Criminal Division as a Trauma Informed Advocate for Domestic Violence Firearm Enforcement

Expenditures \$113,077

Position Allocation 1.00

This Council Budget Action adds \$113,077 GF and 1.0 FTE paralegal position to the Criminal Division in support of the Regional Domestic Violence Firearm Enforcement Unit (Unit). This includes \$111,077 in ongoing funding and \$2,000 in one-time funding for equipment and office setup. This position will expand the Unit's capacity to address "red flag" cases involving individuals suspected of domestic violence and who pose an extreme risk.

Attorney Staffing

Expenditures \$(207,014)

Position Allocation (1.00)

This Council Budget Action cuts 1.0 FTE assistant city attorney position and \$207,014 GF from the City Attorney's Office (LAW). The 2020 Proposed Budget adds 3.0 FTE assistant city attorney positions to LAW's civil division. This cut would leave LAW with two FTEs, full funding for one position, and partial funding for the second position.

Council Provisos

Impose a proviso on Finance General Reserves for Law Department staffing of a case conferencing pilot related to a recommendation of the High Barrier Individual Work Group

Expenditures -

"None of the money appropriated in the 2020 Budget in Finance General Reserves may be spent on a case conferencing pilot for high-barrier individuals until the Mayor's Office has presented an analysis and detailed implementation plan to the Chair of the committee with jurisdiction over public safety. The analysis and plan should be developed in conjunction with the City Attorney's Office, the Criminal Justice Equity Team, and communities most impacted by the criminal legal system and should include: (1) a discussion of whether and how the pilot aligns with the reentry recommendations, (2) a description of unintended consequences and plan to mitigate them, (3) proposed metrics of success, (4) a racial equity analysis, (5) how the City Attorney's Office will coordinate with case managers or other clinical personnel not employed by the City who hold lawful releases of information from individuals with behavioral health conditions and high exposure to enforcement and prosecution and are permitted to share protected health information with the City Attorney's Office and law enforcement, and (6) how the program will be taken to scale."

Expanded Investment in the Law Enforcement Assisted Diversion Program and Additional Staff in the Law Department

Position Allocation 1.00

The City Council adopted an ongoing budget action to significantly expand the City's investment in the Law Enforcement Assisted Diversion (LEAD) program. This action also adds authority for one full-time Assistant City

Law Department

Prosecutor position to the Criminal Division of the City's Law Department, bringing the number of LEAD-focused staff in the Law Department up to 2.5. Funding for this position will be provided by the LEAD program to the Law Department, and will be documented in a formal memorandum of understanding.

This Council Budget Action imposes three provisos:

"Of the appropriation in the 2020 budget for the Human Services Department, \$5.6 million is appropriated solely for a contract with a law enforcement assisted diversion program and may be spent for no other purpose."

"Of the appropriation in the 2020 budget for the Human Services Department, \$350,000 is appropriated solely for a contract with a law enforcement assisted diversion program and would be used to sub-contract with the Seattle City Attorney's Office to support two law enforcement assisted diversion focused attorneys and a 0.5 FTE paralegal position and may be spent for no other purpose."

"Of the appropriation in the 2020 budget for the Human Services Department, \$100,000 is appropriated solely for the Human Services Department to fund a study to be led by the Mayor's Office, in consultation with a law enforcement assisted diversion program's evaluation workgroup and Council central staff, that determines the staff and budget that is necessary to accept all appropriate referrals for priority individuals, and to determine, in consultation with the evaluation workgroup and Council central staff and an appropriate center at an academic institution whether the dedicated a law enforcement assisted diversion liaison attorney position initiated in spring 2017 has resulted in City cost savings through decreased warrants, filings, jail bookings, jail stays or otherwise and may be spent for no other purpose."

Fund Threat Assessment Specialist Paralegal in the Criminal Division at \$117,000 for Domestic Violence Firearm Enforcement, Add \$10,000 to the Human Services Department for a Rental Assistance Pilot, and Impose Provisos

Expenditures	\$117,000
Position Allocation	1.00

This Council Budget Action adds \$117,000 GF to the Criminal Division in support of the Regional Domestic Violence Firearm Enforcement Unit (Unit) to fund a threat assessment specialist paralegal. This specialist would serve as a regional asset and first point of contact for high-risk firearm-related case assessment and would be responsible for case triage and assessment of both civil (protection order-related cases, including Extreme Risk Protection Orders) and criminal cases.

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2020 budget for the City Attorney's Office, \$117,000 is appropriated solely for a threat assessment specialist to be assigned to the Regional Domestic Violence Firearm Enforcement Unit and may be spent for no other purpose."

This Council Budget Action also adds \$10,000 for the Human Services Department (HSD) to create and evaluate a rental assistance pilot for individuals who 1) are age 50 or older, 2) have income limited to federal disability benefits, specifically Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI), that is no more than \$1,000 per month, and 3) are at risk of or currently experiencing homelessness. This funding is in addition to two other Council Budget Actions resulting in a total of \$750,000 in 2020 for this purpose.

Seattle Municipal Court

The Honorable Ed McKenna, Presiding Judge

(206) 684-5600

<http://www.seattle.gov/courts/>

Judicial Overview

The Seattle Municipal Court (Court) adjudicates misdemeanors, gross misdemeanors, infractions (e.g., traffic and parking tickets, traffic camera violations, and other violations), and civil violations related to building and zoning offenses. The Judicial Branch of Seattle government has seven elected judges and six appointed magistrates. There are more cases processed here than any other municipal court in the State of Washington; in 2019, 10,090 criminal cases were filed and 56,500 criminal hearings were held at Seattle Municipal Court. Approximately 568,000 infraction tickets were processed during 2019, with over 59,281 magistrate hearings held.

The Court is committed to excellence in providing fair, accessible and timely resolution of alleged violations of the Seattle Municipal Code in an atmosphere of respect for all. The Court is a leader in implementing innovative programs and services, utilizing evidence-based best practices and harm reduction strategies, using data to continually evaluate practices and inform new strategies, and taking a holistic approach that benefits Court participants and ensures ongoing public safety.

Whether individuals come to the Court to resolve a ticket or appear at a criminal hearing, the Court strives to meet people where they are and remove barriers to success, with the goal of reducing racial disparities and recidivism.

Court Programs and Services

The Court partners with community organizations to provide a wide variety of services at the **Community Resource Center**, a social service hub located in the courthouse. The Community Resource Center is open for the entire public's use and is woven into all the Court's strategies for supervising individuals, community outreach and reentry support. Services offered include:

- food and clothing
- housing through Coordinated Entry for All
- health and hygiene
- grocery cards and food stamps
- substance use disorder assessment
- employment and job readiness

In pretrial proceedings, judges prioritize the least restrictive option for release while protecting community safety. The Court's Pretrial Services division works to support individuals participating in a variety of alternatives to detention. Some of these alternatives include:

- day reporting included in an overall pre-trial strategy; and
- Electronic Home Monitoring (EHM) and Secure Remote Alcohol Monitoring (SCRAM) with options for subsidized or reduced costs for low income and homeless individuals.

The Court also partners with the Seattle City Attorney's Pre-filing Diversion Program.

In 2019, the Court implemented an **automated text reminder program** to improve court appearance rates, at no additional cost to the City. This makes it easier for individuals who are released pretrial to stay informed about their court dates and avoid having warrants issued. This is an especially important method of communication for individuals who have no permanent mailing address.

Seattle Municipal Court

For individuals fulfilling post-trial probation obligations, the Court's **Probation Counselors** work one-on-one with clients to address underlying needs and help them meet their goals. Over 72% of the individuals on probation in 2019 were sentenced for high public safety risk charges: DUIs make up the largest share of individuals on probation at 42%, followed by domestic violence at 19%. Of these individuals, 77% successfully completed their obligations; and 86% completed their probation obligations without returning to jail. One-third of the individuals on probation were successfully discharged early for successful completion. In 2019, the Court has contracted with the Vera Institute of Justice to review our current probation policies and practices with the goal of identifying examples of success as well as areas for advancement. This review will analyze impacts of court probation practices on communities of color, women and nonbinary people, and the LGBTQ community, and identify ways to improve service to these populations. This report is expected to be finalized in the second quarter of 2020.

Specialty Courts

In addition to three general trial courts, the jail arraignment calendar and the master jury trial calendar, the Court serves defendants and the community through several specialty court calendars.

Mental Health Court, established in 1999, is a specialized court where the judge, defense, prosecution, probation counselors, and a mental health clinician work as a team to improve outcomes for the participant. Individuals are referred to this voluntary program by judges, defense attorneys, prosecutors, jail staff, or others. Mental Health Court has saved thousands of jail days, thousands of hospital bed days, and hundreds of thousands of dollars in jail costs to the City of Seattle. The Mental Health Court program has been working over the last six months to increase participation. The Court is contracting via HSD with Public Health of Seattle/King County to provide clinical services to individuals eligible for MHC. Having a highly skilled clinician has resulted in a large increase in the volume of participants referred to the court and being placed on Conditions of Release. The clinician has worked with 51 participants since beginning with the court in May 2019.

Seattle Veterans Treatment Court was established in 2012 and is a voluntary, court-monitored treatment program that addresses the mental health and/or substance use issues of veteran defendants. This program is a collaboration between the Court, prosecution, defense, the King County Department of Community and Human Services, the Washington State Department of Veterans Affairs, and the U.S. Department of Veterans Affairs.

Domestic Violence Courts were established in 2004 and are staffed by designated judges and specialized probation counselors. A dedicated domestic violence court allows judges to ensure follow-through, aid domestic violence survivors, and hold offenders accountable, with the assistance of justice partners and social service agencies. The Court has been integral in piloting a collaborative treatment modality known as the **Domestic Violence Intervention Project (DVIP)**. This pilot project is aimed at improving safety for survivors via individualized batterer intervention and is a multi-agency/system collaboration and response. The pilot began in June 2018 and will fully launch in early 2020. The court is pursuing a federal grant opportunity in collaboration with the Department of Human Services through the Office of Violence Against Women. Grant award decisions are expected in the fall of 2020.

Seattle Youth Traffic Court, established in 2012, provides eligible teen drivers charged with a traffic violation the opportunity to maintain a clean driving record. Youth appear before a court of their peers who act as judges, jurors, defense attorneys and prosecutors. The peer jury determines an appropriate sanction based on the nature of the violation and impact on the community. This program is a collaboration between the Court, Seattle University School of Law, Garfield High School, and the Seattle Police Department.

In addition to these specialty courts, the Court is planning implementation for an updated pre-adjudication **Community Court** concept to begin in June 2020, in collaboration with the City Attorney, the Department of Public Defense, and other community partners. The Court is also examining the potential benefit of adopting a DUI specialty court, in collaboration with the Washington Traffic Safety Commission.

Community Outreach

The Court hosts quarterly community outreach events that bring court services and resources to Seattle neighborhoods. These *SMC In The Community* events are an opportunity for community members to receive assistance with resolving Seattle Municipal Court warrants, learn about options for addressing Seattle and King

Seattle Municipal Court

County tickets by setting up a payment plan or community service plan, get help with reinstating their driver's license, and access supportive services through the Community Resource Center.

A community event, at Garfield Community Center in May 2019, connected 248 people with a variety of services. While the majority (67%) of attendees were Seattle Municipal Court clients, a third were members of the general public coming to access supportive services from court partners. Approximately one in three people at the event reported experiencing homelessness or unstable housing.

The Court will continue to expand its outreach efforts. The last *SMC In the Community* event was October 2019 at Rainier Beach Community Center with over 400 participants and 20 providers. The Court is also exploring options for holding magistrate hearings in neighborhoods across Seattle to provide community members more accessible locations to resolve outstanding tickets, at no additional cost to the City. This program is expected to launch in the second quarter of 2020.

Infractions

The Court processes hundreds of thousands of traffic, parking, and traffic camera tickets every year. In 2018, the Court processed 27,421 traffic infraction tickets, 107,211 traffic camera tickets, and 433,175 parking tickets. Individuals may schedule hearings with one of the Court's magistrates to contest or mitigate their tickets; magistrates held 74,658 infraction hearings in 2018.

The Court will work with individuals who are unable to pay their tickets through payment plans or by converting the amount owed into community service hours.

Municipal Court Information System Replacement

The Court is replacing its legacy municipal court information system, MCIS, with a modern and adaptable case management solution. The new system will streamline court processes, improve the accessibility of court services to the public, and make it easier for partners at the Seattle Police Department, King County, and others to work collaboratively with the Court. The Court, in partnership with the Seattle Information and Technology Department, has contracted with Thomson Reuters to implement the C-Track (court case management and records) along with the C-Five (probation case management) programs. Major work on the project involving large numbers of staff from all areas of the court moves forward with configuration, data conversion and migration, integrations (approximately 56), and organizational change management.

Language Access and Accessibility

The Court has provided **Interpreter Services** in 148 languages since 2005. A Court priority is ensuring access to justice for Limited English Proficiency (LEP) and deaf, hard-of-hearing, or deaf-blind (D/HH/DV) individuals. Free of charge interpreter services are provided for criminal and civil matters, including court hearings, trials, attorney-client interviews, probation appointments, prosecution witnesses, mental health evaluations, customer service, and translation of court forms and letters. In 2019, about 6,000 interpreted events were conducted with the help of 193 freelance interpreters in 71 languages, including American Sign Language. Approximately 40% of the requests are for Spanish language interpreters. Other frequent requests for interpretation include the Vietnamese, Somali, Amharic, Tigrinya, Cantonese, Mandarin, Russian, Punjabi, and Arabic languages.

To improve services in languages where state certification is not yet available, the Court designed and implemented a mentoring program for non-credentialed and Registered court interpreters. This is the first program of its kind in Washington State and helps ensure quality interpretation services for all LEP individuals. In 2018, Interpreter Services also designed, tested and implemented video remote interpreting via VSee for some mitigation hearings. SMC Interpreter Services developed Bench Card Courtroom Interpreting for Spoken Languages, which has been approved by the Supreme Court Interpreter Commission to be used by judges statewide.

Budget Overview

The 2020 Adopted Budget provides resources to enable the Court to continue to adjudicate criminal cases, citations and infractions.

A priority for the Court is to continue preparing for the replacement of the Municipal Court Information System (MCIS). MCIS is over 27 years old and was developed internally using the legacy IBM Informix platform to capture key court case events and meet the reporting requirements of the state's Administrative Office of the Courts (AOC). Over time, the Court has enhanced this system to provide important case management information, increased application functionality and improved data exchanges and public access. The Court and the City are highly dependent on MCIS to provide a continuing, permanent record of court case events, dates, hearings and outcomes. MCIS also tracks defendant compliance with court ordered sanctions and tracks all related fines and fees. Data related to the collection of \$47 million in fines and fees from the Seattle Police Department's parking and traffic ticket devices are highly dependent on MCIS. Daily data exchanges with the City of Seattle departments, King County and the State of Washington agencies rely on MCIS fully functioning with modern technology capabilities.

This project, began in 2015, is included in the Seattle Information Technology Department (Seattle IT) Capital Improvement Program, as part of the Criminal Justice Information System Replacement Project, with an estimated total cost of \$41 million over six years.

Schedule and Milestones:

1. 2017: \$2.5 million was appropriated to Seattle IT to conduct an options analysis comparing available options, vendor demonstrations, and conduct research for information on technology capabilities, while concurrently documenting MCIS current business practices and requirements.
2. 2018: \$5 million was appropriated to develop an RFP, data preparation, business process engagement and organizational change management.
3. 2019: \$3 million was appropriated to finalize an RFP, evaluate proposals, specific vendor demonstrations and interviews fit gap analysis and contract negotiations.
4. 2020: \$8.3 million appropriated with the vendor on board.

Implementation will continue through 2020-2021 with a go-live date in January 2022.

Elected state, superior and district court judicial salaries are set by the Washington Citizen's Commission on Salaries for Elected Officials. By Ordinance 122112, SMC judicial salaries are set at 95% of the district court. A final salary schedule and wage increase was mandated effective July 2019 and the budget will fund this increase. Additionally,

Seattle Municipal Court

setting SMC judicial salaries at this level qualifies the City to receive a contribution from the state for technology improvements at SMC per the aforementioned ordinance.

In 2019, the Mayor convened the High Barrier Individuals Working Group, an interagency group including King County, in response to heightened community conversations around public safety and individuals repeatedly caught in a cycle of criminal justice, social services and community incidents. The group explored new strategies, system reforms or partnerships needed for a more focused approach to repeat offenders who are not receiving appropriate interventions. The group developed four new pilot programs to address these issues including the HB Probation pilot program that will feature a smaller, specialized caseload for SMC probation counselors to assist those high barrier individuals with court interactions, chemical dependencies and other issues. There are funds set aside in Finance General for these pilots as well as additional funding coming from the Municipal Court funds.

City Council Changes to the Proposed Budget

There were no changes made by City Council to the Seattle Municipal Court 2020 Proposed Budget, but the funding set aside in Finance General for the HB Probation pilot was re-purposed to support the Office for Civil Rights.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$1,761,439

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$26,556

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$276,506

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates,

Seattle Municipal Court

health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

2020 Judicial Salary Technical Adjustment

Expenditures \$29,198

In Washington state, elected state, superior and district court judicial salaries are set by the Washington Citizen's Commission on Salaries for Elected Officials. As directed in Ordinance 122112, Seattle Municipal Court judicial salaries are set at 95% of the district court. A final salary schedule and wage increase was mandated effective July 2019 which the Court will absorb within their 2019 budget. The 2020 Adopted Budget funds the 2019 ongoing increase. Additionally, setting SMC judicial salaries at this level qualifies the City to receive a contribution from the state for technology improvements at SMC. The state's contribution is generally \$150,000 annually and is applied to the Trial Court Improvement Account in Finance General. The Ordinance permits appropriation, by annual budget or by separate ordinance, solely to fund allowable Seattle Municipal Court related expenditures".

Council Provisos

Move \$170,000 from Finance General Reserves for high-barrier probation to the Office for Civil Rights and impose three provisos

Expenditures -

This Council Budget Action cut \$170,000 in Finance General Reserves intended to support creation of a probation pilot for high-barrier individuals in Seattle Municipal Court (SMC). It added \$170,000 to the Office for Civil Rights (OCR) to conduct outreach and engagement related to criminal legal system alignment and implementation efforts. The Council Budget Action also imposed three provisos:

"None of the money appropriated in the 2020 Budget in Finance General Reserves may be spent on a probation pilot for high-barrier individuals until both (a) Seattle Municipal Court has submitted to the Chair of the committee with jurisdiction over public safety the report requested in Statement of Legislative Intent CJ-7-A-2 and (b) the City Auditor has submitted the report requested in Statement of Legislative Intent CJ-1-B-1."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$30,000 is appropriated solely for community engagement sessions led by the Office for Civil Rights and the Legislative Department and may be spent for no other purpose. These funds are intended to support the Council's criminal legal system alignment work to engage with stakeholders, including persons currently or formerly incarcerated and communities most impacted by the criminal legal system, and staff in relevant City departments, including the City Attorney's Office, Seattle Municipal Court, and the Criminal Justice Equity Team. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$140,000 is appropriated solely for partnership, outreach, and engagement related to criminal legal system alignment, strategic plan development, and implementation efforts, including the work described in Council Budget Action CJ-2-B-2, Council Budget Action CJ-3-A-2, and Statement of Legislative Intent CJ-21-A-2 and may be used for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

Seattle Police Department

Carmen Y. Best, Chief of Police

(206) 684-5577

<http://www.seattle.gov/police/>

Department Overview

The Seattle Police Department (SPD) prevents crime, enforces laws, and enhances public safety by delivering respectful, professional, and dependable police services. SPD divides operations into five precincts. These precincts define east, west, north, south, and southwest patrol areas, with a police station in each area. The department's organizational model places neighborhood-based emergency response services at its core, allowing SPD the greatest flexibility in managing public safety. Under this model, neighborhood-based personnel in each precinct assume responsibility for public safety management, primary crime prevention and law enforcement. Precinct-based detectives investigate property crimes and crimes involving juveniles, whereas detectives in centralized units located at SPD headquarters downtown and elsewhere conduct follow-up investigations into other types of crimes. SPD also has citywide responsibility for enhancing the City's capacity to plan for, respond to, recover from, and reduce the impacts of a wide range of emergencies and disasters, under the auspices of the Office of Emergency Management. Other parts of the department function to train, equip, and provide policy guidance, human resources, communications, and technology support to those delivering direct services to the public.

Police Chief Carmen Best has adopted a set of policing priorities that will guide the department through the next phase of the Consent Decree and establish a culture of continuous improvement and innovation:

- **Reduce Crime and Disorder** - Improve public safety by effectively addressing crime and disorder.
- **Service Excellence** - Strive for excellence in service, to better foster trust, support and understanding in the communities we serve.
- **Honor and Professionalism** - Serve with honor, professionalism and pride.
- **Business Efficiency** - Increase business efficiency through better utilization of the resources we have, effective management of the budget and process improvements.
- **Data-Driven Policies and Practices** - Use data-driven policies and best practices to improve deployments, and monitor and respond to emerging crime trends.

In 2018, SPD was found to be in "full and effective compliance" with court-ordered reforms set forth in the 2012 U.S. Department of Justice ("DOJ") Settlement Agreement ("Consent Decree"). Following this announcement, the department immediately entered into a two-year sustainment period, wherein SPD must demonstrate its sustained compliance with the Consent Decree by providing constitutional and effective police services through the continued development and refinement of policies and procedures. In May 2019, the court found the department to be partially out of compliance with the Consent Decree in one area related to accountability. The City is working with the Federal Monitor, DOJ and other stakeholders to respond to the court's concern.

SPD is committed to recruiting, hiring and training police officers that are representative of the communities it serves. With higher than average attrition and increasing competition for qualified police candidates, the department is implementing new strategies to attract and retain a quality, diverse candidate pool to achieve its hiring goals in 2019 and beyond.

Budget Overview

The 2020 Adopted Budget for the Seattle Police Department (SPD) reflects the City's commitment to protecting public safety, strengthening community trust and enhancing responses to individuals in crisis. Over the last year, Chief Carmen Best has organized the department to ensure proactive and collaborative policing that enhances the police reform and accountability work that has been ongoing.

Since 2012, SPD has been under a federal Consent Decree with the U.S. Department of Justice (DOJ) and has been working with the Federal Monitor to meet the requirements and implement reforms. In January 2018, the U.S. District Court Judge overseeing the Consent Decree ruled that the SPD had fully complied with the first phase of the agreement, which initiated a second phase of the agreement a two-year sustainment period. During the sustainment period, SPD continues to demonstrate compliance with the Consent Decree before it can be terminated. In May 2019, the court issued a ruling that found the department partially out of compliance in one area – accountability. The City is working with DOJ, the Federal Monitor and other stakeholders to address the court's concern in this one area.

In developing the 2020 Adopted Budget, the Mayor worked closely with SPD to prioritize funding for safe and healthy communities. The hiring and retaining of sworn officers will continue to be the top priority in 2020, while providing funding for additional community-based emphasis patrols will help to address public safety needs. SPD's budget reflects targeted investments in the Mayor's priority areas, including:

- proactive community policing and supporting officer recruitment and retention;
- responding to a behavioral and public health crisis;
- strategic crime prevention and diversion; and
- supporting the department's community engagement and policing initiatives.

Proactive Community Policing and Supporting Officer Recruitment and Retention

Ongoing Police Officer Recruitment and Retention

The budget supports the department's ongoing efforts to recruit and hire quality, diverse police officers in 2020 above current staffing levels. It is important to both Chief Best and the Mayor to focus on building a department that represents the community it serves. Recognizing the significance of hiring diverse police officers and understanding that the current hiring plan is aggressive, the budget includes continued funding in support of recruiting efforts. The department piloted new recruitment and hiring approaches through 2019 including offering a hiring incentive and

Seattle Police Department

expanding recruitment locations. At the same time, the Mayor convened a Recruitment and Retention workgroup (“workgroup”) comprised of staff from the City’s Innovation & Performance team, SPD, Seattle Department of Human Resources, City Budget Office, the City Council and others. The workgroup studied why new hires and overall sworn officer counts are declining and identified short- and long-term strategies to improve outcomes. The workgroup proposed the implementation of 12 initiatives across the below areas to address the challenges that SPD faces when meeting its service goals:

- **Recruitment:** three initiatives that seek to increase the number and diversity of applicants;
- **Hiring:** four initiatives that seek to increase the efficiency and effectiveness of the hiring process; and
- **Retention:** five initiatives that seek to retain our talented, well-trained staff.

The 2020 Adopted Budget funds all these initiatives, and a strategic hiring and retention plan is being developed to operationalize and measure success of each initiative. The department’s ability to hire and retain officers will be closely tracked by the department and the Executive over the coming years, as many unknown variables will impact the ability to achieve goals. A new workgroup will be convened to track progress and determine the efficacy of the initiatives.

Focus on Proactive Community Policing

Under Chief Best, SPD is strengthening its community outreach and community-based policing efforts. Previous budgets included funding for the development of a community liaison program and a Community Service Officer (CSO) program. The adopted budget includes funding for expansion of the CSO program to all precincts in the City. This program becomes part of the newly formed Collaborative Policing Bureau which also includes the Navigation Team, the Crisis Response Unit and the Community Outreach Units. Consolidation of these units ensures a consistent and coordinated response to some of our most vulnerable community members.

The 2020 budget will include funding to continue community-based emphasis patrols at similar levels to 2019. In April 2019, based on community feedback and data analysis by SPD, emphasis patrols began in seven Seattle neighborhoods to improve public safety. Emphasis patrols are a recognized practice in police departments across the country and an evidence-based strategy to fight crime. Continuation of these patrols will build on the positive results to-date which included hundreds of contacts with individuals and increased visibility by SPD officers. Continuing evaluation will determine future deployments.

Responding to a Behavioral and Public Health Crisis

The department continues to use data to better prioritize an effective response to public safety calls. In 2018, 9-1-1 calls for individuals in crisis grew by 28% to 11,430 crisis calls. The Crisis Response Unit (CRU) specifically focuses on individuals who, due to mental health issues, are likely to cause harm to themselves or others and/or frequently contact 9-1-1. Officers deploy to these situations in a co-responder model with Mental Health Providers (MHPs). Currently there are five officers and one MHP in the unit. The 2020 budget adds four MHPs so that each officer in the unit has a co-responder and teams can focus on one precinct leading to better relationships with service providers and individuals who are in crisis.

Strategic Crime Prevention and Diversion

Diverting individuals from the criminal justice system continues to be a goal for Mayor Durkan. Many programs work directly in partnership with law enforcement to achieve these goals such as Law Enforcement Assisted Diversion (LEAD), youth violence prevention programs, the community police academy and community advisory groups.

Through the 2020 Adopted Budget, two successful diversion programs will be expanded. Choose 180 is a pre-trial diversion program that works to end youth detention and is administered by the City Attorney’s Office. The program expansion will double the number of classes for young adults allowing for monthly offerings serving an additional 100 young adults per year. To further invest in directed community outreach programs, the 2020 Adopted Budget will create a dedicated Native American community liaison to provide culturally responsive services to Indigenous communities navigating the criminal legal system.

Seattle Police Department

Continuing Investments in Police Reform and Accountability

The 2020 Adopted Budget expands activities pertaining to sustainment of the federal consent decree, reinforcing implemented reforms and investing in accountability structures within the department. This budget adds capacity to the Office of Police Accountability (OPA) by adding a civilian investigator to the office who will work closely with the public to investigate constituent complaints about policing and decrease the backlog of investigations. This brings the total number of investigators to nine sworn and two civilian staff. The budget also accelerates the schedule for providing implicit bias training for all officers.

Invest Wisely in SPD's Future

This budget includes investment in a critical piece of department infrastructure that is due for replacement, the Computer-Aided Dispatch System (CAD) which routes all SPD 9-1-1 calls to officers in the field. The CAD replacement will ensure that more complete data can be provided to officers ensuring a more efficient response.

City Council Budget Changes

The City Council made several changes to the proposed budget. The Council reduced the proposed budget for the recruitment and retention initiative by \$420,000. This reduction decreased staffing support, subsidized testing fees and training for sergeants. The City Council also reallocated \$222,600 from SPD's budget to other priorities.

SPD's budget was increased by \$135,500 for the Missing and Murdered Indigenous Women and Girls Crisis (MMIWG). The funding increase is for contracting with an indigenous-led, community-based organization that will assist SPD with methodology and data collection, provide new approaches to end gender-based violence and build relationships with the community. Also, the Council increased the classification and funding for the proposed Native liaison position as it will coordinate best practices for data reporting, collection and management related to MMIWG cases.

The City Council also provided funding for external legal counsel for the Office of Police Accountability.

Two provisos were imposed on Seattle Police Department's budget to require spending of \$200,000 on training related to interactions with sex workers and directing SPD to contract with a community-based organization to conduct the training.

Description of Incremental Budget Changes

Baseline

Budget Realignment with Actual Costs

Expenditures \$(6,178,689)

This is a technical adjustment to realign the 2020 SPD salary, benefit and overtime budget appropriation to reflect for delays in hiring in 2019 that impact 2019 expenditures.

Mental Health Professionals

Expenditures \$310,000

This adjustment funds 4 additional, contracted Mental Health Professionals (MHP) in the SPD Crisis Response Unit (CRU). The CRU, which is currently staffed with one MHP, works to connect individuals in crisis to resources to help address their physical and mental health needs and divert them from the criminal justice system. The addition of four MHPs would greatly expand the department's ability to work with community members before they reach acute stages of behavioral crisis. Each MHP-Officer team will focus on a precinct.

Abrogate vacant position

Position Allocation (1.00)

This item removes a position for a Management Systems Analyst, Senior, for the Parking Enforcement Unit.

Supplemental Changes to Baseline

Position Allocation 4.00

This adjustment reflects changes made through supplemental budget legislation since the last adopted budget. Supplemental budget legislation is developed by the Executive and adopted by the City Council three times a year to provide corrections to the adopted budget, unforeseen changes in circumstance, new funding opportunities or new policy priorities. These changes may include additions or reductions in appropriations and FTEs. Included in this adjustment are two position additions for the Legal Unit which provides support for public disclosure and case evidence, one position addition for civilianization of SPD's Equal Employment Opportunity (EEO) Investigator position and one addition of a grant-funded position.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$4,087,448

Seattle Police Department

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$320,211

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,665,027

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

SPOG Contract Increases - OT

Expenditures -

This technical baseline changes moves appropriation that was mistakenly put in the Salaries and Wages account and puts it into the appropriate overtime account. This appropriation was made in the 2019 approved budget for rate increases related to the SPOG contract.

Proposed Operating

Recruitment and Retention Initiatives

Expenditures \$1,663,683

Position Allocation 1.00

The Council altered this proposal in the adopted budget. Refer to the Council Phase Changes section below. The proposed budget description follows:

The City's Innovation & Performance team created a work group that developed strategies to increase recruitment and retention of sworn officers. Through interviews, surveys and interactions with officers, the team accepted over 1,000 ideas of ways to increase retention of current officers and increase hiring of new recruits and experienced officers. Twelve recommendations will be enacted by SPD as part of a strategic hiring and recruitment plan. This item funds all 12 recommendations and includes a project manager to oversee the first year of implementation, a training specialist to implement retention strategies and increased administrative staff support for the recruitment team.

Implicit Bias Training for SPD Officers

Expenditures \$100,000

Seattle Police Department

This item is a one-time transfer of budget from Finance General to the Seattle Police Department for all officers to receive implicit bias training from a national expert. Implicit bias is the subconscious form of group-based bias. The training will include an overview of implicit bias research and findings, interactive and introspective exercises and small group dialogue.

Sworn Officer Hiring Incentive

Expenditures \$813,750

SPD has experienced significant difficulty in recruiting both experienced and new police officers. To incentivize individuals to become a police officer with SPD, City Council passed Ordinance 125784 authorizing SPD to grant hiring bonuses of \$15,000 to experienced officers and \$7,500 to new recruits. This item will fund the hiring incentive through 2020 for 20 experienced officers and 84 new recruits.

Emphasis Patrols and Force Augmentation

Expenditures \$847,863

In 2019 multi-department, community-based emphasis patrols were effective in engaging with community members to highlight locations or issues that required attention, maintenance or police patrols. In 2020 SPD plans to continue this work using overtime shifts. Overtime will also be used to augment the force to ensure that SPD can maintain minimum staffing and target response times throughout the city.

Expand the Community Service Officer Program

Expenditures \$1,208,700

Position Allocation 6.00

This item adds one team of Community Service Officers (CSO) to SPD's Collaborative Policing Bureau. The five officers and supervisor will expand the CSO team to a total of 18 which will allow the teams to be based in precincts and provide service seven days per week with an expansion of hours until 8:00 p.m. CSOs are non-commissioned officers who work as liaisons between the community and SPD. They serve to bridge the service gap on non-criminal calls for service and perform a variety of public safety-related community service and outreach work that does not require the enforcement authority of a sworn officer. CSOs will also help augment the police force and potentially provide a pathway for individuals interested in policing but not ready to become a sworn officer.

Add Native American Liaison

Position Allocation 1.00

The Council altered this proposal in the adopted budget. Refer to the Council Phase Changes section below. The proposed budget description follows:

To further invest in community-based policing, this item adds one Crime Prevention Coordinator to SPD's Collaborative Policing Bureau who will be a dedicated Native American community liaison to provide culturally responsive services to Indigenous communities navigating the criminal legal system.

Civilian Investigator in the Office of Police Accountability

Expenditures \$148,832

Position Allocation 1.00

The Office of Police Accountability (OPA) establishes and manages processes to initiate, receive, classify and investigate allegations of police misconduct. This item transfers budget from Finance General to OPA to add a full-

Seattle Police Department

time civilian investigator to the office. Civilian investigators receive complaints of misconduct from the public and investigate those complaints. OPA is currently budgeted for nine sworn investigators and one civilian investigator.

Earthquake Early Warning

Expenditures \$(10,000)

This item reduces the Office of Emergency Management budget by \$10,000 to offset an increase in Seattle IT rates to SPD for a project in the Innovation Advisory Council portfolio: Earthquake Early Warning.

School Zone Camera Expansion

Expenditures \$170,908

Seattle Department of Transportation (SDOT) is proposing to expand the School Zone Camera program by up to five new school zone enforcement locations. The expansion would result in the increase of up to 10 new enforcement cameras. Each violation that is recorded by the cameras must be reviewed by a sworn officer. This item increases the budget for officer overtime and professional services necessary to review potential violations.

CAD Replacement

Expenditures \$2,675,343

Revenues \$1,415,650

Seattle Police Department's Computer Aided Dispatch (CAD) system was implemented in 2008. The system manages the in-flow of calls to SPD's 9-1-1 center and ensures that the calls can get to officers in the field with the relevant caller information relayed to patrol officers. The current CAD system has not been updated to take advantage of new technologies such as Next Generation 9-1-1 systems that integrate information from cell phone data for a faster, more accurate 9-1-1 response.

Upgrading the CAD system will allow police officers to respond more quickly and will provide resiliency and redundancy to the 9-1-1 system, especially in disaster situations. A new CAD system will also integrate with a variety of SPD systems to allow for in-depth lookup capabilities by dispatchers and officers.

The total project cost for 2020 is \$3.2 million. The project is funded by \$550,000 of fund balance from the New Records Management System project, \$1.4 million in funding from the E-9-1-1 levy and approximately \$1.3 million of General Fund appropriation.

Proposed Technical

Budget Restructuring

Expenditures -

This technical item aligns SPD's budget structure to its organizational structure. Two new BSLs are created, Collaborative Policing Bureau and School Zone Camera Program to better reflect SPD operations and align the budget to where the actual expenditures are occurring. The Collaborative Policing Bureau combines the navigation team, community outreach, the crisis response unit and community service officers into a single bureau. The purpose of the School Zone Camera Program BSL is to support operations and administration for the School Zone Camera program. Six precinct BSLs are combined into the single Patrol Operations BSL, and five investigations BSLs are combined into the single Criminal Investigations BSL. This change will allow for improved budget tracking, improved expenditure monitoring, greater transparency and compliance with citywide accounting practices. This request is cost neutral and only updates budget organization to reflect the current operational structure. This change does not affect deployment of personnel or resources.

Seattle Police Department

Council

Reallocate funding from the Seattle Police Department to support additional investment in youth diversion, community building, and education programs

Expenditures \$(222,600)

The City Council adopted an ongoing budget action which reallocates funding from the Seattle Police Department to other priorities in order to further invest in crime prevention and youth diversion programming. These investments seek to provide alternatives to traditional criminal justice system engagement for youth.

Reduce funding to subsidize recruit testing fee

Expenditures \$(70,000)

This item reduces SPD's budget for the recruitment and retention initiative. This on-going reduction decreases funding for the testing fee subsidy for candidates that are testing remotely.

Reduce funding for proposed sergeant training

Expenditures \$(240,000)

This item reduces SPD's budget for the recruitment and retention initiative. The initiative proposed \$787,000 for leadership and management training for all sergeants over four days. This one-time reduction reduces the training to only two days.

Reduce funding for staffing of the recruitment and retention initiative

Expenditures \$(75,000)

This item reduces SPD's budget for the recruitment and retention initiative. The initiative proposed \$150,000 for a temporary position to provide training to all sergeant's on leadership and management. This action is a one-time reduction to fund only half of the temporary position.

Renter Organizing and Outreach Expenditures; Reduction to SPD and SDOT

Expenditures \$(35,000)

This item adds \$60,000 of General Fund Resources for SDCI to contract with community-based organizations for renter education, outreach and organizing. Because this item is funded by delaying the hiring date for an administrative position in the Seattle Police Department (\$35,000) and a one-time reduction to SDOT for congestion pricing outreach (\$25,000), this is a one-time addition to SDCI's budget.

Council Provisos

Impose provisos related to additional training

Council imposed two provisos on Seattle Police Department (SPD) appropriations to restrict \$200,000 that may only be spent on training related to supporting sex workers.

This Council Budget Action imposes the following provisos:

"Of the appropriation in the 2020 budget for the Seattle Police Department (SPD), \$150,000 is appropriated solely for SPD to contract with a community based organization (CBO) that works in the advocacy and direct service realms to deliver select SPD officers and leadership a minimum of nine hours of training on effective and respectful interactions with sex workers and may be spent for no other purpose. The CBO should be peer-based, people of color led, and provide direct services to sex workers."

Seattle Police Department

“Of the appropriation in the 2020 budget for the Seattle Police Department (SPD), \$50,000 is appropriated solely for overtime for a training on sex workers that is delivered to all SPD Captains and Assistant Chiefs, SPD’s Vice and High Risk Victims Unit Detectives, North Precinct Community Police Team and Anti-Crime Team Officers, and all SPD Victim Advocates and may be spent for no other purpose.”

Add funding and position for 1.0 FTE Strategic Advisor for addressing the Missing and Murdered Indigenous Women and Girls Crisis

Expenditures	\$48,000
Position Allocation	-

This item changes the type of position from a Crime Prevention Coordinator to a Strategic Advisor 2 and adds \$48,000 to cover the difference in position costs for the Native American Liaison position added in the Proposed Budget. The position will focus on best practices for data reporting, collection and management of Missing and Murdered Indigenous Women and Girls cases.

This Council Budget Action imposes the following proviso:

“Of the appropriation in the 2020 budget for the Seattle Police Department, \$161,000 is appropriated solely for a Strategic Advisor – Technology position to work with data systems that record interactions with Indigenous people and may not be spent for any other purpose.”

Add funding for addressing the Missing and Murdered Indigenous Women and Girls Crisis

Expenditures	\$87,500
--------------	----------

This action provides on-going funding for a community-based organization to work with SPD to provide indigenous-centered strategies for addressing the Missing and Murdered Indigenous Women and Girls Crisis and to provide American Indian and Alaska Native communities with a liaison to the City of Seattle and SPD.

This Council Budget Action imposes the following proviso:

“Of the appropriation in the 2020 budget for the Seattle Police Department, \$87,500 is appropriated solely for a contract with an Indigenous led organization such as the Seattle Indian Health Board and may be spent for no other purpose.”

Add funding for outside legal counsel

Expenditures	\$80,000
--------------	----------

This change increases appropriation for the retention of outside legal services in order to receive independent legal advice and representation in policing-related matters, particularly with relation to United States v. Seattle, before the U.S. District Court of Western Washington.

This Council Budget Action imposes the following proviso:

“Of the appropriation in the 2020 budget for the Office of Police Accountability, \$80,000 is appropriated solely for the retention of outside legal counsel for an attorney-client relationship only, and may be spent for no other purpose.”

Police Relief and Pension

Dan Oliver, Executive Secretary

(206) 386-1286

<http://www.seattle.gov/policepension/>

Department Overview

The Police Relief and Pension Fund (PPEN) provides pension and medical benefit services to eligible active and retired police officers and their beneficiaries. PPEN is a closed plan which only covers police officers who were hired before October 1, 1977. Retiree benefits for police officers hired more recently are primarily covered through a separate state-managed plan.

The management of police benefits funds transitioned in the 1970s from local to state control. Prior to that time, the City paid into PPEN to provide for police officer retiree benefits. In March 1970, the State of Washington took over the provision of certain police pensions through Revised Code of Washington (RCW) Section 41.26, the Law Enforcement Officers and Fire Fighters (LEOFF) Plan 1. Seattle police officers hired between March 1970 and October 1977 enrolled in LEOFF 1, but also received additional benefit coverage through PPEN. As a result, this group of police officers receives retiree benefits primarily from the state's LEOFF 1 plan, but also any earned increment from the City's PPEN that exceeds LEOFF 1 coverage. Both PPEN and LEOFF 1 closed to new enrollees in October 1977. Police officers hired after that date enroll in the state's LEOFF 2 plan and do not receive benefits from PPEN.

The Seattle Police Pension Board is a seven-member quasi-judicial body chaired by the Mayor or the Mayor's designee, which formulates policy, rules on disability applications, and provides oversight of the Police Pension Fund. Three staff employees of the board handle all of its operational functions. Staff positions associated with Police Relief and Pension are reflected in the City's position list.

The projections of annual pension and medical benefits, which comprise about 97% of the total annual PPEN budget, are based on the forecasts of an independent actuary. The City's General Fund provides funding for nearly all of PPEN's annual budget that supports the Police Relief and Pension Fund obligations. The Police Pension Fund also has a statutory funding source from police auction proceeds, which contribute a small amount towards the annual budget.

Police Relief and Pension

Budget Overview

The Police Relief and Pension Fund (PPEN) pays legally mandated pension and medical benefits, including long-term care, to eligible retired police officers and qualified beneficiaries. The total pension benefits for PPEN members are increased annually through locally negotiated cost of living adjustments (COLA) and local inflation. These increases are then offset by the benefits paid by the state's LEOFF 1 pension plan which has its own annual growth rate.

Most of PPEN's retirees are represented by either the Seattle Police Management Association (SPMA) or the Seattle Police Officer's Guild (SPOG).

The 2020 Adopted Budget's retiree medical and long-term care costs are \$15.38 million, unchanged from the 2019 Adopted Budget. The actuarial report anticipates medical and long-term care costs will increase over the next 15 to 20 years due to PPEN's aging membership and annual trend rates for medical and long-term care costs.

The 2020 Adopted Budget includes appropriation increases of \$43,513 for centrally adjusted administrative and labor costs.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Police Relief and Pension

Incremental Budget Changes

Police Relief and Pension

	2020 Budget	FTE
Total 2020 Endorsed Budget	26,589,761	3.00
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	39,781	-
2020 State Paid Family Medical Leave Increase Base Budget	607	-
Citywide Adjustments for Standard Cost Changes	3,125	-
Total Incremental Changes	\$43,513	-
Total 2020 Adopted Budget	\$26,633,274	3.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$39,781

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$607

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$3,125

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle City Light

Debra Smith, General Manager & CEO

(206) 684-3500

<http://www.seattle.gov/light/>

Department Overview

Seattle City Light was created by the residents of Seattle in 1902 to provide affordable, reliable, and environmentally sound electric power to the City of Seattle and neighboring suburbs. Owned by the community it serves, City Light is a nationally recognized leader in energy efficiency, renewable resource development, and environmental stewardship.

City Light provides electric power to approximately 462,000 residential, business, and industrial customers within a 131-square-mile service area. City Light provides power to the City of Seattle and surrounding jurisdictions, including parts of Shoreline, Burien, Tukwila, SeaTac, Lake Forest Park, Renton, Normandy Park, and areas of unincorporated King County.

City Light owns about 2,000 megawatts of very low-cost, environmentally-responsible, hydroelectric generation capacity. In an average year, City Light meets about 50% of its load with hydroelectric facilities that it owns directly and obtains the remainder primarily through the Bonneville Power Administration (BPA). City Light is the nation's ninth largest publicly-owned electric utility in terms of customers served.

Budget Overview

The 2020 Adopted Budget for Seattle City Light (SCL) reflects the priorities outlined in the department's 2019-2024 Strategic Plan and follows the plan's rate path, which includes a rate increase of 5.4% in 2020. The adopted budget does not vary significantly from the 2020 Endorsed Budget; the differences are primarily attributable to several net-zero adjustments between programs and an overall funding increase for revenue-backed work related to pole attachments for the 5G network.

Seattle City Light

The most noteworthy net-zero adjustment is the use of projected underspend to fund the expansion of transportation electrification programs. Funding will be used for additional electric vehicle fast-charging stations; incentives for industrial vehicle customers; and infrastructure for King County Metro's new fleet of electric buses.

The 2020 Adopted Budget also incorporates a reorganization of City Light's operational structure that was implemented in April of 2019. This reorganization was intended to encourage greater creativity, innovation and collaboration, and to streamline working groups to achieve greater focus on priority areas. No additional resources were required and there were no changes to staffing levels.

City Light's 2020 Capital Improvement Program (CIP) budget includes the year-to-year reprioritization of projects but does not change the overall budget, except for the 100% revenue-backed increase for pole attachment work. For more detailed information on the capital program, please see the 2020-2025 Adopted CIP.

To support the capital program and other eligible City Light costs, the 2020 Adopted Budget anticipates a 2020 bond issue of approximately \$225 million.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Seattle City Light

Total 2020 Adopted Budget	\$1,432,987,392	1792.80

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$5,324,186

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the tentative agreement between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$757,236

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the tentative agreement with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(151,280)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer

Seattle City Light

of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Adopted Operating

Transportation Electrification

Expenditures -

This net-zero adjustment uses projected underspend within City Light's Customer Energy Solutions Division to expand transportation electrification programs in the following areas.

City Light already has a project underway to install 20 Direct Current Fast Chargers by the end of 2019. This expansion will add six more stations in 2020, bringing the total to 26.

The utility will also explore ways of enhancing charging options for multi-family residential customers, and they will work with the industrial transportation sector (for example trucking and package delivery companies) to install charging infrastructure for heavy-duty vehicles. Non-passenger vehicles account for approximately one half of vehicle emissions and City Light is exploring ways to help facilitate their transition to electric.

Lastly, City Light is working with King County Metro to design and build a charging facility for electric buses (Metro expects to receive 110 all-electric buses in 2021). City Light applied for a \$2 million matching grant from the Washington State Department of Commerce and if awarded, the department would set up a new capital project for this work.

Pole Attachment Contract-In Position Conversions

Position Allocation 8.00

City Light had been utilizing citywide contract-in positions for two Senior Capital Project Coordinators and five Electrical Engineer Associate IIIs to carry out pole attachment work. These positions are approaching the three-year limit for temporary assignments and this item converts the positions to permanent City Light staff. Funding for the positions already exists in the budget. The pole attachment body of work has continued to expand in recent years and the forecast is for continued growth, as telecommunications companies look to deploy 5G networks. Additionally, this item adds an unfunded Strategic Advisor I to assist with data analytics and accountability.

Annual Capital Spending Adjustments

Expenditures \$9,232,865

The CIP Overview BIP provides explanations for changes in the Capital Improvement Program (CIP) due to the normal refinement of work schedules and the ongoing reprioritization of capital work. This BIP highlights the 2020 changes in the current biennium and the 2021-25 changes in the remainder of the six-year CIP.

Technical Adjustments

Expenditures \$(3,750,150)

This request includes net-zero technical adjustments for central costs, security costs, and labor agreement increases, as well as a change in the budget treatment of engineering overhead. These adjustments are consistent with the Strategic Plan and adopted rates.

SCL - BC-CL-Z - Customer Focused - CIP

The purpose of the Customer Focused - CIP Budget Summary Level is to provide for the capital costs of customer service connections, meters, and other customer-driven projects, including large inter-agency projects requiring utility services or relocations. This Budget Summary Level supports capital projects identified in the department's Capital Improvement Plan. The utility's Financial Services projects are also included in this Budget Summary Level. These projects provide for the capital costs of rehabilitation and replacement of the utility's financial systems and information technology infrastructure, and the development and implementation of large software applications.

Seattle City Light

The following information summarizes the programs in Customer Focused - CIP Budget Summary Level:

CUSTOMER AND BILLING

The Customer and Billing program provides the funding to support a portion of the customer billing functions at the utility and to fund City Light's customer call center improvement program.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
CUSTOMER AND BILLING	692,605	64,152	209,434	603,918

CUSTOMER IT SYSTEMS

The Customer IT Systems program provides for the capital costs of rehabilitation and replacement of the utility's customer information technology infrastructure, and the development and implementation of large software applications. This program supports capital projects identified in the department's Capital Improvement Plan.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
CUSTOMER IT SYSTEMS	-	-	-	1,957,029

CUSTOMER OTHER

The Customer Other program provides funding to support the customer service engineering program and the Neighborhood Voluntary Undergrounding program.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
CUSTOMER OTHER	127,445	1,192,904	336,133	330,095
Full Time Equivalents Total	0.13	0.13	0.13	0.13

LOCAL JURISDICTIONS

The Local Jurisdictions program funds the capital costs for projects in local jurisdictions requiring utility services or relocations.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
LOCAL JURISDICTIONS	6,477,782	13,777,159	22,349,849	22,288,874
Full Time Equivalents Total	5.32	5.32	5.32	10.32

SERVICE CONNECTIONS

The Service Connections program funds the capital costs of customer service connections and meters.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
SERVICE CONNECTIONS	113,013,546	50,458,448	47,620,851	60,446,156

SCL - BO-CL-V - Environmental Affairs O&M

The purpose of the Environmental Affairs O&M Budget Summary Level is to help the utility generate and deliver energy in an environmentally responsible manner. This Budget Summary Level also supports the utility's renewable resource development programs, hydro relicensing, and real estate.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
ENVIRO AFFAIRS ADMIN O&M	8,360,676	8,792,526	8,929,413	8,997,178
ENVIRO AFFAIRS DEFERRED O&M	2,643,026	2,606,018	2,663,434	2,682,663

Total	15,216,279	16,363,893	16,657,956	16,853,892
Full-time Equivalents Total*	51.00	51.00	51.00	51.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Environmental Affairs O&M Budget Summary Level:

ENVIRO AFFAIRS ADMIN O&M

The Environmental Affairs Administration O&M program performs the administrative work associated with utility generation and the delivery of energy in an environmentally responsible manner. This program also supports the utility's renewable resource development programs, hydro relicensing, and real estate.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
ENVIRO AFFAIRS ADMIN O&M	8,360,676	8,792,526	8,929,413	8,997,178
Full Time Equivalents Total	19.03	19.03	19.03	19.03

ENVIRO AFFAIRS DEFERRED O&M

The Environmental Affairs Deferred O&M program funds the deferred O&M costs related to the utility's generation and the delivery of energy in an environmentally responsible manner. This program also supports the utility's renewable resource development programs, hydro relicensing, and real estate.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
ENVIRO AFFAIRS DEFERRED O&M	2,643,026	2,606,018	2,663,434	2,682,663
Full Time Equivalents Total	4.90	4.90	4.90	4.90

Seattle City Light

ENVIRO AFFAIRS OPS O&M

The Environmental Affairs Operations O&M program performs operational work associated with utility generation and the delivery of energy in an environmentally responsible manner. This program also supports the utility's renewable resource development programs, hydro relicensing, and real estate.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
ENVIRO AFFAIRS OPS O&M	4,212,577	4,965,349	5,065,109	5,174,051

Seattle Public Utilities

Mami Hara, General Manager & CEO

(206) 684-3000

<http://www.seattle.gov/util/>

Department Overview

Seattle Public Utilities (SPU) provides reliable, efficient and environmentally conscious utility services to enhance the quality of life and livability in all communities SPU serves. SPU operates three distinct utilities: Drainage and Wastewater, Solid Waste and Water. The three utilities each have unique revenue sources and capital improvement projects but share many operations and administration activities within SPU and the City.

Drainage and Wastewater: The Drainage and Wastewater Utility collects and disposes or discharges storm runoff and wastewater from residences, businesses, institutions and public properties within the City. In addition to handling sewage and storm water runoff, Drainage and Wastewater works with other government agencies and private parties to address Federal EPA-mandated sediment cleanup projects where contamination is linked to storm water or sewage, such as Gas Works Park and the Lower Duwamish Waterway. The drainage and wastewater systems include approximately 448 miles of separated sanitary sewers, 968 miles of combined sewers, 481 miles of storm drains, 68 pump stations, 85 permitted combined sewer overflow outfalls, 290 storm drain outfalls, 578 water quality structures, 295 drainage flow control facilities, and 38 combined sewer overflow control detention tanks and pipes.

Solid Waste: The Solid Waste Utility collects and processes recycling, compostables, and residential and commercial garbage to promote public health and safety, quality of life, and environmental stewardship. The City owns and operates two transfer stations, two household hazardous waste facilities, a fleet of trucks and heavy equipment, and several closed landfills. The Solid Waste Capital Improvement Plan (CIP) supports the transfer stations, heavy equipment, and post-closure projects on landfills previously used by the City. In addition, SPU contracts with private companies who collect household refuse, compostable material, and recyclables. The companies deliver the material to recycling and composting facilities and to transfer stations for its ultimate processing or disposal. In concert with its waste handling and disposal activities, Solid Waste engages its customers in environmental sustainability programs that promote recycling, composting and reducing waste generation. Solid Waste also works to keep Seattle clean, by targeting illegal dumping, automobile abandonment, graffiti removal and providing public litter cans and recycling bins across Seattle.

Water: The Water Utility provides reliable, clean, and safe water to more than 1.5 million customers in and around Seattle for consumption and other uses. The water delivery system extends from Edmonds to Des Moines and from Puget Sound to Lake Joy near Duvall. SPU delivers water directly to its customers in Seattle and adjacent areas and provides wholesale water to 21 suburban water utilities and two interlocal associations for distribution to their customers. The Water Utility includes 1,900 miles of pipeline, 31 pump stations, 15 treated water reservoirs, three wells and 104,000 acres in two watersheds. The Utility builds, operates and maintains the City's water infrastructure to ensure system reliability, conserve and enhance the region's environmental resources and protect public health and safety. SPU engages the community in conservation efforts to reduce water consumption.

SPU monitors its funds using financial targets and employs these metrics to communicate about the financial health of its utilities with the Mayor and City Council, Seattle residents and businesses, and the bond rating agencies. Financial performance metrics include net income; year-end cash balance; the amount of cash versus debt dedicated to the CIP; debt service coverage, which is the amount of cash available to pay annual debt service after day-to-day system expenses are paid; and, for the Drainage and Wastewater Fund, the debt to asset ratio. Due to strong financial management and a commitment on the part of elected officials to establishing prudent rates, SPU has some of the strongest bond ratings of any utility in the country. SPU's Water and Drainage and Wastewater bonds are rated one notch below the highest rating by both S&P (AA+) and Moody's (Aa1), while Solid Waste bonds, which traditionally are viewed as riskier by ratings agencies, are just slightly lower and still categorized as High-Grade High Quality bonds (AA and Aa3 from the two agencies, respectively). These high ratings help SPU sell revenue bonds to

Seattle Public Utilities

fund infrastructure investments at the lowest costs possible. These lowered costs benefit the utilities and the rate payers they serve.

Budget Snapshot

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Department Support

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2020 Adopted Budget for Seattle Public Utilities (SPU) largely reflects the 2020 Endorsed Budget that was developed in 2018 and continues to support key initiatives and service levels identified in the 2018-2023 Strategic Business Plan. The 2020 Adopted Budget also provides budget corrections based on financial planning information, and includes changes reflected in capital planning. The net impact of these changes reduces SPU's 2020 Adopted Budget by \$44.7 million.

Strategic Business Plan Overview

In 2017, the City adopted the 2018-2023 SPU Strategic Business Plan that guides the department's operations and investments for the six-year period from 2018-2023. A nine-member customer panel oversaw the development of the plan. The plan sets a transparent and integrated direction for all SPU utilities and contains projected six-year rate paths for water, drainage, wastewater, and solid waste lines of business. The adopted rate of growth across all lines of business is 5.2% annually.

In 2020, SPU will continue with programmatic reprioritization, efficiency improvements, and refinement of the CIP and operating budgets outlined in the plan to streamline utility services and deliver on regulatory requirements. SPU will create 9 new positions, including 6.0 FTEs to support financial services and 3.0 FTEs to support ongoing operations at solid waste transfer stations.

Drainage and Wastewater Highlights

The City adopted Drainage and Wastewater Rates in 2018 that reflected decreased expenditures in the Strategic Business Plan. Drainage rates will grow by 8.0% each year for the three-year period from 2019-2021. Wastewater rates will grow 7.5%, 7.4%, and 7.3% in 2019, 2020, and 2021 respectively. These rates include an estimate of a 2.8%

Seattle Public Utilities

increase in the King County treatment rate in 2021; actual 2021 rate increases may vary based on the actual King County treatment rate that is passed through to customers.

Efficiencies, Reductions, and Deferrals: The 2020 Adopted Budget reduces the Drainage and Wastewater 2020 Endorsed Budget by \$59.5 million, attributable to:

- reducing operating budget by \$19.4 million to reflect various technical changes related to taxes and fees, debt service, central costs, labor-related changes, and miscellaneous reductions;
- deferring \$21.7 million in costs associated with the Ship Canal Water Quality Project;
- deferring \$17.6 million in costs associated with construction on Operational Facilities projects;
- deferring \$8.9 million in costs associated with Move Seattle Levy projects; and
- a net increase of \$8.1 million in costs associated with increases and decreases across 30 capital projects within the Drainage and Wastewater CIP.

None of the efficiencies, reductions, or deferrals are expected to adversely affect services provided to customers or significantly change long-term goals of capital projects.

The 2020-2025 Adopted CIP revises and adds projects based on Combined Sewer Overflow and clean-up efforts, the largest of which is the Ship Canal Water Quality Project. For more information on these changes, please see the accompanying 2020-2025 Adopted CIP.

Water Utility Highlights

The Water Utility delivers potable water directly to retail customers both inside the City and in adjacent areas. These retail customers provide about 72% of the Water Fund's operating revenues, with roughly equal revenues coming from residential and commercial users. SPU also delivers water to districts and agencies who then deliver water to their direct customers. This wholesaling of water represents about 21% of Water's projected operating revenues in 2020. The remaining revenue is generated by non-rate fees and other sources.

The Water line of business has moved away from a period of intensive capital investment in new projects and is transitioning into maintenance and improvements of the existing transmission and distribution system. SPU will continue its efforts to complete reservoir retrofits and covering, water supply and asset preservation projects as detailed in the 2020-2025 Adopted CIP.

The City Council adopted Water Rates for retail customers in 2017 for the 2018, 2019 and 2020 rate period. Adopted Water rate increases for 2019 and for 2020 are under the 2018-2023 updated Strategic Business Plan by 2.5% and 3.7% respectively.

Changes to the Water Fund: The 2020 Adopted Budget increases the Water budget over the 2020 Endorsed Budget by \$12.3 million and includes:

- various technical changes to taxes and fees, debt service, central costs, labor-related changes, and miscellaneous reductions;
- increasing funding for capital projects driven by demand (e.g. water tap installations that follow permit requests for new construction; and
- decreasing funding for capital projects that are deferred or delayed.

For more information on these changes, please see the accompanying 2020-2025 Adopted CIP.

Solid Waste Highlights

The Solid Waste Utility provides collection services to residents and businesses within Seattle. Financial support of this service is primarily generated through charges based on the amount of garbage collected from residential and commercial waste collection contracts. Solid Waste will pursue opportunities for efficiencies in service delivery as it

Seattle Public Utilities

continues to experience decreased demand for services as a result of its conservation efforts to reduce solid waste and increase recycling activity.

SPU transmitted legislation to set Solid Waste Utility Rates for the 2020, 2021, and 2022 period. Solid Waste Rates are effective April 1st each year. Rates submitted for 2020-2022 are consistent with the 2020 Adopted Budget and is informed by the 2018-2023 Strategic Business Plan. The proposed rates include increases of 3.0% in 2020, 2.9% in 2021, and 2.9% in 2022, for an average annual increase of 3.0% over the three year period. This is below the average Solid Waste Rate path assumed in the 2018-2023 Strategic Business plan that assumed average annual increases of 3.4% over the same three-year period.

The Solid Waste Fund expects long-term demand to remain stable, with a small decline in some sectors through 2020.

Changes to the Solid Waste Fund: The 2020 Adopted Budget increases the Solid Waste budget over the 2020 Endorsed Budget by approximately \$871,000 due to revised capital project spending that shifts planned project costs in 2023 and 2024 forwards into 2020.

For more information on these changes, please see the accompanying 2020-2025 Adopted CIP.

Shared Across All Enterprise Funds

SPU corporate functions including leadership and administration, project delivery, and customer service are shared across all three enterprise funds and allocated proportionally. These functions are included individually by fund and each line of business collects enough rate revenues to pay for these costs.

Efficiencies, Reductions, and Deferrals: SPU will reduce budget by \$23.2 million across all three funds, primarily due to:

- \$19.6 million in reduced debt service obligations;
- \$1.5 million in reduced major contracts;
- \$9.1 million in reduced taxes and fees;
- \$5.7 million in increased labor changes; and
- \$1.3 million in increased miscellaneous programs.

Please see the Incremental Changes section below for more detail.

General Fund

In addition to the three utility enterprise funds, SPU receives General Fund monies to support activities that go beyond direct utility service provision and support general government services. The General Fund portion of the SPU budget provides resources for:

- the Clean City Program, which addresses public blight issues in Seattle including public litter, illegal dumping, graffiti on public property, and litter issues related to unsanctioned homeless encampments;
- the Trees for Seattle Program (previously called ReLeaf), which works to maintain and increase the urban tree canopy in Seattle; and
- general government functions like maintaining survey markers throughout Seattle, standardizing construction specifications and planning documents, and maintaining engineering records for the city.

Programmatic increases: The 2020 Adopted Budget adds approximately \$1.2 million to the SPU General Fund budget to reflect increasing costs related to disposal and operations for general government garbage and neighborhood clean-up programs, as well as for the Recreational Vehicle Remediation Pilot Program.

Homelessness Investments: The 2020 Adopted Budget will:

Seattle Public Utilities

- maintain existing programs that address litter issues arising from unsanctioned homeless encampments; and
- expand the 2019 pilot to reduce trash and litter from illegally parked recreational vehicles (RVs) in the public right-of-way or on Seattle Parks and Recreation property.

Existing Homelessness Programs: The 2019 Adopted Budget included funding for SPU to continue three programs related to homelessness issues in Seattle. These programs included the Encampment Bag Program, the Litter Abatement Program, and the Needle Program. Under these programs, SPU provided trash removal from encampments, removed litter from the public right-of-way in neighborhoods affected by unsanctioned homeless encampments, and removed used needles from the public right-of-way and installed and serviced public needle disposal boxes throughout Seattle. Since first implementing the programs as pilots in 2017, service levels have expanded. The 2020 Adopted Budget maintains the expanded service levels.

Council Changes to the Proposed Budget:

The City Council made the following changes to the Mayor's Proposed 2020 Budget:

- \$3,590: add funding for increased salary for the utility support position in the Office of City Auditor;
- \$0: create pilot program for mobile pump-out services to RVs (net-zero budget change);
- \$115,000: expand the Encampment Trash Program; and
- \$0: improve shut-off notifications to multifamily building residents (net-zero budget change).

Please see the Incremental Budget Changes section for more detail on each item.

Seattle Public Utilities

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Accounting and Operational Support

Expenditures	\$840,320
Position Allocation	6.00

This change increases budget in the Leadership and Administration Budget Control Level by \$840,320 in 2020 for the Water Fund, Drainage and Wastewater Fund, and the Solid Waste Fund. This change adds a mix of permanent and temporary labor to support areas in the Seattle Public Utilities (SPU) Accounting Division to address the impact of business process and system changes due primarily from the re-implementation of the financial system conducted in 2018, as well as operational support for data management. Included are the following permanent, ongoing positions: 3.0 FTE Accountants, 1.0 FTE Senior Accountant, 1.0 FTE Principal Accountant, 1.0 FTE Strategic Advisor. In addition, this change adds funding for 3.0 FTE temporary staff.

Solid Waste Operations

Expenditures	-
Position Allocation	3.00

This change converts 5.0 FTE term-limited temporary positions to permanent positions in 2020 in order to maintain the current staffing levels at the transfer stations. In addition, position-only authority for 3.0 FTE Laborers and reallocation of two existing vacant positions for 2.0 FTE Laborers is authorized. This change represents a net-zero dollar impact to the utility as a whole; budget already exists for the current temporary labor.

Clean City Disposal Costs

Expenditures	\$1,069,021
--------------	-------------

This change increases the General Fund appropriation in 2020 by \$1,069,021 in the Utility Services and Operations Budget Control Level to pay for increased Clean City program disposal costs, staff support for the RV Remediation pilot to maintain current service levels, and increased professional service costs to support changes in business practices.

RV Remediation Increase

Expenditures	\$116,616
--------------	-----------

This change adds \$116,616 to expand the Recreational Vehicle Remediation Pilot program begun in 2019. This expansion would allow SPU to provide clean-up support to the larger citywide effort, doubling the average number of sites available for remediation from an average of 8 locations to an average of 16 locations per month.

Seattle Public Utilities

Proposed Capital

Water Capital Changes

Expenditures \$12,323,340

This change increases the Water Fund Core and Shared CIP by \$12,323,340 in 2020. The primary focus is on asset management for distribution and transmission pipes, water system impacts associated with the various Seattle and regional transportation projects, and upgrades to water system facilities such as operation buildings. Please refer to the Water 2020-2025 Proposed Capital Improvement Program for more detail.

Drainage and Wastewater Capital Changes

Expenditures \$(40,175,697)

This change decreases the Drainage and Wastewater Fund (DWF) by \$40,175,697 in 2020 across all Capital Budget Control Levels, and reflects the SPU 2018-2023 Strategic Business Plan, which includes updated regulatory requirements and a joint project with King County to build a Combined Sewer Overflow (CSO) storage facility along the Ship Canal. Please see the Drainage and Wastewater 2020-2025 Proposed Capital Improvement Program for more details.

Solid Waste Capital Changes

Expenditures \$4,255,064

This change increases the Solid Waste Fund by \$4,255,064 in 2020 and shifts various project costs between years for a total reduction of \$690,000 over the 2020-2025 Capital Improvement Program. Changes from the Endorsed 2020 Solid Waste CIP are primarily driven by the South Park landfill redevelopment project as SPU, WSDOT, and Sound Transit negotiate and finalize scope and timeline. Please see the Solid Waste 2020-2025 Capital Improvement Program for more details.

Technology Capital Changes

Expenditures -

This change makes no change to the Technology Capital Improvement Program (CIP) in 2020. The total increase for the six-year period of 2020-2025 is \$10,500,000 in out-year spending, resulting from adding an additional year (2025) to the CIP spending plan window. This change also completes a net-zero shift as project timing and needs are projected to change in 2021 and beyond. Please see the Technology 2020-2025 Capital Improvement Program for more details.

Proposed Technical

Supplemental Budget Changes

Position Allocation 2.00

This technical change implements budget revisions made in the 2019 Quarterly Supplemental Budget Ordinances. Changes in this adjustment include transferring two positions from Seattle Department of Information Technology to Seattle Public Utilities.

Technical Adjustments

Expenditures \$(23,155,445)

Position Allocation 0.75

Seattle Public Utilities

This change increases SPU's staff resourcing by .75 FTE as SPU requests to convert two part-time positions to full-time positions, as well as reduces SPU's budget by \$23.2 million. This change adjusts various operating budgets in the Water, Drainage and Wastewater, Solid Waste and General Funds. The main drivers of change are:

- updated projections for taxes and fees paid by SPU as a result of lower than projected revenues on which these taxes and fees are based (\$9.1 million reduction);
- a reduction in debt service as SPU's bond issuance needs have been reduced due to improved capital planning and revenue projections (\$19.6 million reduction);
- a major service contract payment reduction as SPU updates projections for future contract expenditures (\$1.8 million reduction);
- an increase in city-wide central costs (\$2.7 million)
- an increase in labor-related and central cost expenses to support the department's share of city-wide central services and labor costs (\$5.7 million increase); and
- increases and reductions in miscellaneous activities (net \$1.1 million reduction).

Council

Add Funding for Salary Increases

Expenditures \$3,590

This item adds funding from the General Fund, Seattle City Light and Seattle Public Utility funds to provide a five percent salary increase for the Executive Manager positions and the Strategic Advisor positions in the Office of the City Auditor, to be granted at management's discretion in recognition of 2019 performance.

Create pilot program for mobile pump-out services to RVs

Expenditures -

This change adds \$179,712 in the Seattle Public Utilities (SPU) Drainage and Wastewater Fund to begin a pilot program that provides mobile pump-out services to recreational vehicles (RVs). This change also cuts \$179,712 from reserves that result in a net-zero budget impact. The pilot program aims to provide eight pump-out events per month, with each event consisting of a four-hour period during which five to eight RVs could be serviced. In total, the pilot program would service between 40 and 64 RVs per month. This estimate assumes that SPU will partner with the RV Remediation Interdepartmental Team or separately with the Seattle Police Department.

Expand the Encampment Trash Program

Expenditures \$115,000

This change adds \$115,000 of General Fund support to Seattle Public Utilities (SPU) to expand the Encampment Trash program through partnership with a nonprofit provider. This expansion will allow SPU to continue working with a non-profit provider in engaging encampment residents, educating residents on the program, and assisting with program delivery. This program is funded to support 10 sites annually.

Improve shut-off notifications to multifamily building residents

Expenditures -

This change adds \$30,000 in the Seattle Public Utilities (SPU) Water Fund to improve the notification process for residents of multifamily buildings when the building is facing an imminent water shut-off. The budget offsets this add by cutting \$30,000 from reserves.

Appropriations by Budget Summary Level and Program

SPU - BC-SU-C110B - Distribution

The purpose of the Distribution Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's water lines, pump stations, and other facilities.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Distribution	21,589,637	36,177,685	35,328,077	34,136,663
Total	21,589,637	36,177,685	35,328,077	34,136,663
Full-time Equivalents Total*	79.00	79.00	79.00	79.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C120B - Transmission

The purpose of the Transmission Budget Summary Level, a Capital Improvement Program funded by water revenues, is to repair and upgrade the City's large transmission pipelines that bring untreated water to the treatment facilities, and convey water from the treatment facilities to Seattle and its suburban wholesale customers' distribution systems.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Transmission	2,605,160	11,897,836	15,408,573	15,612,322
Total	2,605,160	11,897,836	15,408,573	15,612,322
Full-time Equivalents Total*	5.00	5.00	5.00	5.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C130B - Watershed Stewardship

The purpose of the Watershed Stewardship Budget Summary Level, a Capital Improvement Program funded by water revenues, is to implement projects associated with the natural land, forestry, and fishery resources within the Tolt, Cedar, and Lake Youngs watersheds.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Watershed Stewardship	302,851	1,192,633	173,878	1,289,569
Total	302,851	1,192,633	173,878	1,289,569
Full-time Equivalents Total*	8.00	8.00	8.00	8.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BC-SU-C140B - Water Quality & Treatment

The purpose of the Water Quality & Treatment Budget Summary Level, a Capital Improvement Program funded by water revenues, is to design, construct, and repair water treatment facilities and remaining open-water reservoirs.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Water Quality & Treatment	1,076,427	1,660,000	8,830,000	9,525,000
Total	1,076,427	1,660,000	8,830,000	9,525,000

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C410B - Shared Cost Projects

The purpose of the Shared Cost Projects Budget Summary Level, which is a Capital Improvement Program, is to implement the Water, Drainage and Wastewater, and Solid Waste Utility's share of capital improvement projects that receive funding from multiple SPU funds.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Shared Cost Projects	54,060,883	129,345,465	89,769,324	81,663,847
Total	54,060,883	129,345,465	89,769,324	81,663,847
Full-time Equivalents Total*	95.00	95.00	95.00	95.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SPU - BC-SU-C510B - Technology

The purpose of the Technology Budget Summary Level, a Capital Improvement Program, is to make use of technology to increase the Water, Drainage and Wastewater, and Solid Waste Utility's efficiency and productivity.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Technology	10,623,764	12,873,000	11,200,000	11,199,999
Total	10,623,764	12,873,000	11,200,000	11,199,999
Full-time Equivalents Total*	41.00	41.00	41.00	41.00

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Public Utilities

SPU - BO-SU-N000B - General Expense

The purpose of the General Expense Budget Summary Level is to provide for the Utility's general expenses such as debt service, taxes and major contracts.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Budget Reserves	-	4,891,654	8,332,924	7,909,526
Capital Purchases	94,676	225,082	229,583	234,175
Debt Service	166,494,702	179,931,914	199,496,319	179,932,891
Major Contracts	284,791,914	288,635,714	294,038,893	292,235,325
Taxes and Fees	130,393,257	137,269,086	150,863,602	141,778,458
Total	581,774,550	610,953,451	652,961,321	622,090,374

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Budget Reserves

The purpose of the Budget Reserves Program is to appropriate funds to maintain a necessary working reserve for unanticipated expenditures that may develop during the fiscal year. These are important due to the utility need to plan revenue on a six-year horizon.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Budget Reserves	-	4,891,654	8,332,924	7,909,526

Capital Purchases

The purpose of the Capital Purchases Program is to provide appropriation for the utility to purchase equipment that cannot be purchased using bond proceeds.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Capital Purchases	94,676	225,082	229,583	234,175

Debt Service

The purpose of the Debt Service Program is to provide appropriation for new bond issuance costs as well as principal and interest payments on previously issued bonds and loans.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Debt Service	166,494,702	179,931,914	199,496,319	179,932,891

Seattle Public Utilities

Major Contracts

The purpose of the Major Contracts Program is to provide appropriation for large service contracts that SPU has with solid waste contractors and for water and wastewater treatment costs.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Major Contracts	284,791,914	288,635,714	294,038,893	292,235,325

Taxes and Fees

The purpose of the Taxes Program is to provide appropriation for payment of city and state taxes.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Taxes and Fees	130,393,257	137,269,086	150,863,602	141,778,458

SPU - BO-SU-N100B - Leadership and Administration

The purpose of the Leadership and Administration Budget Summary Level is to provide overall management and policy direction for Seattle Public Utilities and to provide core management and administrative services like finance, human resources, and facility management.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	61,306,514	60,458,559	59,244,798	62,292,309
Departmental Indirect Costs	63,180,667	80,487,925	84,542,640	97,268,012
Divisional Indirect Costs	1,530,056	1,275,796	1,451,280	1,492,703
Indirect Cost Recovery Offset	-	(22,909,895)	(23,958,240)	(20,878,653)
Paid Time Off Indirect Costs	7,292,540	5,048,724	5,197,854	5,656,400
Pooled Benefits Indirect Costs	(16,405,366)	5,751,082	6,716,392	6,381,850
Total	116,904,411	130,112,190	133,194,725	152,212,621
Full-time Equivalents Total*	109.35	108.35	108.35	116.60

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The purpose of the Citywide Indirect Costs program is to fund internal services costs originating from outside of the department such as allocated costs from the Department of Finance and Administrative Services and Seattle Information Technology Department.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	61,306,514	60,458,559	59,244,798	62,292,309

Seattle Public Utilities

Departmental Indirect Costs

The purpose of the Departmental Indirect Costs program is to fund costs associated with management of the department. This may include personnel costs related to department leadership and administration or other administrative costs such as external rent and operating supplies or services.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmental Indirect Costs	63,180,667	80,487,925	84,542,640	97,268,012
Full Time Equivalents Total	109.35	108.35	108.35	116.60

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs program is to fund administrative costs generated by sub-departmental units.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Divisional Indirect Costs	1,530,056	1,275,796	1,451,280	1,492,703

Indirect Cost Recovery Offset

The purpose of the Indirect Cost Recovery Offset program is to reflect the adjustment to the Leadership and Administration BSL occurring as a result of the Utility's general and administrative overhead allocation.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Indirect Cost Recovery Offset	-	(22,909,895)	(23,958,240)	(20,878,653)

Paid Time Off Indirect Costs

The purpose of the Paid Time Off program is to fund salary and benefit costs associated with City-provided leave benefits such as holiday pay, sick time, vacation time, executive leave or other leave benefits, including termination payouts for vacation and sick leave.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Paid Time Off Indirect Costs	7,292,540	5,048,724	5,197,854	5,656,400

Pooled Benefits Indirect Costs

The purpose of the Pooled Benefits program is to fund department costs associated with health and dental insurance, workers compensation, and unemployment insurance contributions.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Pooled Benefits Indirect Costs	(16,405,366)	5,751,082	6,716,392	6,381,850

Seattle Public Utilities

SPU - BO-SU-N200B - Utility Service and Operations

The purpose of the Utility Service and Operations Budget Summary Level is to fund the direct delivery of essential Customer Service programs and the operating expenses for Pre-Capital Planning & Development, Project Delivery, Drainage and Wastewater, Solid Waste, Water and General Fund programs.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

The following information summarizes the programs in Utility Service and Operations Budget Summary Level:

Customer Service

The purpose of the Customer Service Program is to provide appropriation to manage and provide customer service support for the direct delivery of programs and services.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Customer Service	21,311,452	26,106,969	27,240,026	26,811,448
Full Time Equivalents Total	234.00	242.00	249.00	249.00

Drainage System

The purpose of the Drainage System Program is to provide appropriation for maintaining the drainage system, drainage conveyance, stormwater detention and green stormwater infrastructure.

Seattle Public Utilities

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Drainage System	7,341,858	10,102,780	11,209,670	10,475,721

DWW Facilities & Equip

The purpose of the DWW Facilities and Equipment Program is to provide appropriation for drainage and wastewater operating and decant facilities

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
DWW Facilities & Equip	1,322,248	255,672	266,186	789,897

DWW System Operations

The purpose of the DWW System Operations Program is to provide appropriation for drainage and wastewater overall system planning, system modeling and analysis, source control, compliance and outreach and education.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
DWW System Operations	18,317,519	22,674,958	23,374,569	19,777,319

Emergency Response

The Emergency Response Program provides appropriation to procure necessary equipment and provide maintenance and support services in case of emergencies.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Emergency Response	296,702	2,087,079	2,213,981	2,147,041

Engineering

The purpose of the Engineering Program is to provide engineering design and support services, construction inspection, and project management services to capital improvement projects and to the managers of facilities.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Engineering	6,039,663	7,045,537	7,331,297	6,529,147

Pre-Capital Planning

The purpose of the Pre-Capital Planning Program is to support business case development, project plans, and options analysis. This program will capture all costs associated with a project that need to be expensed during its life cycle, including any post-construction monitoring and landscape maintenance.

	2018	2019	2020	2020
Expenditures/FTE	Actuals	Adopted	Endorsed	Adopted
Pre-Capital Planning	3,129,376	4,127,267	4,727,643	4,191,666

Seattle Public Utilities

Solid Waste Facilities & Equip

The purpose of the Solid Waste Facilities & Equipment Program provides appropriation to maintain and support the solid waste facilities and landfills.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Solid Waste Facilities & Equip	4,249,512	5,529,176	5,756,407	6,020,127

Solid Waste Operations

The purpose of the Solid Waste Operations Program provides appropriation for overall solid waste system planning, operations of the transfer stations, solid waste outreach and management of the Local Hazardous Waste Mitigation Program (LHWMP).

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Solid Waste Operations	24,234,682	25,361,656	26,757,294	28,185,069
Full Time Equivalents Total	85.56	88.56	88.56	91.56

Wastewater System

The Wastewater System Program provides appropriation to maintain wastewater conveyance, pump stations and storage.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Wastewater System	11,733,085	15,626,505	15,108,382	13,861,807
Full Time Equivalents Total	225.05	233.05	233.05	233.05

Water Distribution System

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump stations and reservoirs.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Water Distribution System	11,803,593	15,908,943	16,699,704	14,252,581
Full Time Equivalents Total	120.09	120.09	120.09	120.09

Water Facilities & Equip

The Water Distribution System Program provides appropriation to maintain water distribution conveyance, pump stations and reservoirs.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Water Facilities & Equip	2,888,425	3,242,773	3,375,339	-

Seattle Public Utilities

Water Facilities & Equipment

The Water Facilities & Equipment Program provides appropriation to maintain water storage facilities.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Water Facilities & Equipment	-	-	-	3,392,850

Water Supply & Transmssn System

The Water Supply and Transmission System Program provides appropriation to operate and maintain the water pipelines, reservoirs and water sheds.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Water Supply & Transmssn System	6,019,954	5,710,257	6,058,546	5,991,810

Water System Operations

The Water System Operations Program provides appropriation to plan and monitor the overall water system and water quality lab, and includes the work for the Cedar River Habitat conservation.

Seattle Department of Transportation

Sam Zimbabwe, Director

(206) 684-5000

<http://www.seattle.gov/transportation>

Department Overview

The Seattle Department of Transportation (SDOT) develops, maintains, and operates a transportation system that promotes the safe and efficient mobility of people and goods, and enhances the quality of life, environment, and economy of Seattle and the surrounding region. The City's transportation infrastructure is estimated to be worth approximately \$20 billion, including:

- 1,548 lane-miles of arterial streets;
- 2,396 lane-miles of non-arterial streets;
- 2,293 miles of sidewalks;
- 124 bridges;
- 502 stairways;
- 613 retaining walls;
- 22 miles of seawalls;
- 267 traffic cameras;
- 1,085 signalized intersections;
- 361 miles of on-street bicycle facilities;
- 41,000 street trees;
- 1,581 pay stations;
- 31,319 curb ramps;
- more than 191,000 signs

The SDOT budget covers three major lines of business:

The **Transportation Capital Improvement Program** includes the major maintenance and replacement of SDOT's capital assets; the program also develops and constructs additions to the City's transportation infrastructure. The program includes the Major Maintenance/Replacement, Major Projects, and Mobility-Capital Budget Summary Levels (BSLs).

Operations and Maintenance covers day-to-day operations and routine maintenance that keep people and goods moving throughout the city, which includes operating the city's movable bridges and traffic signals, cleaning streets, repairing potholes, issuing permits, maintaining trees, and transportation planning and engineering. The four BSLs in this area are: Bridges and Structures; Maintenance Operations; Mobility-Operations; and Right-of-Way Management.

Business Management and Support provides overall policy direction and business support for SDOT and includes the Leadership and Administration and General Expense BSLs.

Seattle Department of Transportation

Budget Overview

The City of Seattle is one of the fastest growing cities in the United States. While this growth provides great opportunities for economic development, it also places significant pressure on the transportation system. Within this context of growth and increasing density, the 2020 Adopted Budget builds on the 2019 Adopted Budget with continued support for investments that enhance safe environments for walking, biking, riding transit, driving and moving freight based on geographic equity and community need. In addition, the adopted budget adjusts staffing to better maintain levels of service, leverage investments in improved customer service and help deliver key projects. All budget investments are intended to further integrate SDOT's master plans and continue to implement a comprehensive Move Seattle strategy that maintains and expands the City's transportation infrastructure. All investments are prioritized based on safety, need, regulatory requirements and policies established by the City.

For 2020, resources are focused on:

- delivering on voter commitments - STBD and Move Seattle Levy;
- enhancing safety and accessibility;
- engaging in effective management of the public right-of-way (ROW); and
- addressing emerging issues.

Delivering on voter commitments- STBD and Move Seattle Levy The 2020 Adopted Budget invests Seattle Transportation Benefit District (STBD) Proposition One revenues in Metro fixed-route transit service and continues funding for first/last mile transit service. These investments will support and increase mobility in areas where there are service gaps. The adopted budget also adds nearly \$5 million to STBD's capital improvement program to fund items such as new bus shelter pads and benches, transit-only lanes, queue jumps and other spot improvements. Using different modes of transit should help reduce single occupancy vehicle trips thus addressing a major contributor to traffic congestion. Funding in the adopted budget continues to promote affordability and accessibility of transportation options through the ORCA Opportunity program, which provides bus passes to students. The STBD Proposition One measure will expire at the end of 2020.

Seattle Department of Transportation

The 2020 Adopted Budget continues to support the Move Seattle Levy plan by including capital project staffing support, sidewalk and ADA improvements, bridge rehabilitation, and school zone safety enhancements. Construction funding for significant capital projects include the Fairview and Northgate Bridges, and the Delridge Way SW – RapidRide H Line multimodal corridor. The 2020 Adopted Budget will build on Levy accomplishments in 2019, which included the South Lander Street Bridge, six Vision Zero corridors, more than 25 Safe Routes to School projects, six miles of protected bike lanes, six miles of neighborhood greenways, and repaving 29 arterial lane miles across the city.

The table below summarizes the Move Seattle Levy capital and operations investments in the adopted budget.

Move Seattle Category (Levy Fund only)	2019 Adopted	2020 Adopted	Original Total 9-year Levy	Nov. 2018 Workplan Update 9-year Levy
Safe Routes	\$26,768,737	\$30,781,619	\$207,000,000	\$206,047,002
Vision Zero	\$9,539,877	\$8,786,287	\$71,000,000	\$70,881,807
Pedestrian and Bike Safety	\$14,055,979	\$21,231,970	\$110,000,000	\$108,909,724
Neighborhood Projects	\$3,172,880	\$763,362	\$26,000,000	\$26,255,471
Maintenance and Repair	\$65,923,361	\$78,525,917	\$420,000,000	\$420,445,711
Maintain Streets	\$36,775,405	\$40,951,074	\$250,000,000	\$250,571,854
Bridges and Structures	\$25,772,480	\$28,022,731	\$140,000,000	\$139,929,330
Urban Forestry and Drainage	\$3,375,477	\$9,552,112	\$30,000,000	\$29,944,527
Congestion Relief	\$55,089,929	\$31,448,501	\$303,000,000	\$303,507,287
Corridor Mobility Improvements	\$28,056,800	\$18,104,190	\$169,000,000	\$168,407,172
Light Rail Partnership Improvements	\$7,142,873	\$2,912,645	\$27,000,000	\$27,000,239
Pedestrian and Bike Improvements	\$11,449,770	\$8,887,540	\$68,000,000	\$69,630,458
Freight Mobility Improvements	\$8,440,486	\$1,544,126	\$39,000,000	\$38,469,418
Grand Total	\$147,782,027	\$140,756,037	\$930,000,000	\$930,000,000

Enhancing Safety and Accessibility The adopted budget includes several items that improve pedestrian and bike safety under the Vision Zero and the Safe Routes to School programs. The use of one-time revenues from the sale of surplus property in South Lake Union (known as the “Mercer Megablock”) will be used to support Vision Zero projects that enhance pedestrian and bicycle safety. In addition, the budget includes new school safety cameras at 2-3 locations in the fall of 2020 and funds a variety of additional school safety improvements. School safety cameras have a good track record of changing behavior—the longer a camera is in place, the better compliance is with posted school zone speed limits. Lastly, in order to meet our requirements for ADA curb ramps, additional funding is provided for curb ramp construction and staffing for inspections to ensure the ramps are code compliant.

Engaging in effective management of the public right-of-way (ROW) The City’s investment in paid parking technology provides a wealth of data that supports management of the right of way and maintaining parking space availability. The 2020 Adopted Budget implements several improvements to meet this goal, including updating commercial vehicle load zone permit fees and meter hooding fees. This action also improves service delivery at the Traffic Permit Counter and in the Commercial Vehicle Enforcement program by adding additional staffing resources supported by permit fee revenue. One position is added to the Traffic Permit Counter to improve processing times of permits and respond to customer inquiries. A second position is added to the Commercial Vehicle Enforcement

Seattle Department of Transportation

program to more effectively address commercial vehicle-related mobility issues in increasingly congested areas of the city, including Downtown and Pioneer Square.

SDOT continues to work with Seattle IT on several key collaborative efforts, including service delivery and new enterprise-wide permitting and mobility technology initiatives. The 2020 Adopted Budget includes funding for the department to develop a comprehensive and consolidated IT strategic plan for both emerging transportation technology and operational technology. Additional funding will support Hansen Permit Data Archiving to allow for closing out existing permits, examining prior conditions and collecting a permit history for future development.

Addressing Emerging Needs The Northlake Avenue retaining wall at the north end of Lake Union is deteriorating. A major multi-year investment is needed to replace the worn structure with a new solution that will better meet the needs of local businesses and the public. This budget funds design of the project. As part of the capital monitoring and oversight process, this project will be used as a pilot for a new “partial funding” approach being developed by the Project Delivery Executive Committee, a subgroup of the Capital Subcabinet.

Transportation Revenues

The 2020 Adopted Budget uses several funding sources and increased revenues to support transportation needs—sources include: federal, state and local grants; bonds; Move Seattle property tax levy; commercial parking tax; vehicle license fees; fees for service; real estate excise taxes; street vacation fees; gas tax; multimodal funds; property sale proceeds; school zone camera fines; sales tax; and an annual allocation from the City's General Fund.

Projected commercial parking tax revenue has been adjusted downward to reflect actual and forecasted declines in this revenue stream. These revenues are leveraged to back bond financing of both seawall and waterfront projects and general transportation needs. Continued investments of Real Estate Excise Tax (REET) support SDOT's Capital Improvement Program (CIP), allowing for increased funding in 2020 for infrastructure maintenance, preservation and expansion primarily focused on the central waterfront and general transportation projects, including ADA curb ramp construction.

The 2020 Adopted Budget includes a portion of the proceeds from the “Mercer Megablock” sale. Of the total anticipated proceeds from the sale, \$54.7 million has been identified as available for SDOT use. This funding is allocated across six categories in 2020-2023, and reflects a Council action that directed more funds to protected bike lane infrastructure:

Category	Amount (\$ in millions)	Description of Use of Funds
Mercer West Construction Loan Repayment	\$12.20	Repayment of the Interfund Loan.
SLU Streetcar Operating Loan Repayment	\$3.60	Repayment of the Interfund Loan.
Center City Connector Streetcar Capital Loan Repayment	\$9.00	Repay an interfund loan authorized in 2019 for Center City Streetcar planning and engineering design work.
Commercial Parking Tax Revenues Offset	\$7.20	Offsets a shortfall in CPT revenue.
<u>SDOT Vision Zero Priorities:</u>	<u>\$18.70</u>	Support new Vision Zero capital projects, including Bicycle Master Plan and Pedestrian Master Plan implementation projects. Funding will be spread over 2020-2023 based on planned project construction dates.
• PMP - Crossings	\$1.70	
• NE 43rd St Improvements	\$0.65	
• BMP - Greenways	\$2.00	
• Highland Park Intersection Improvements	\$3.50	
• BMP – Protected Bike Lane	\$10.35	
• PMP – Crossings	\$0.50	
Transaction Costs	\$4.00	Portion of the transaction costs charged to SDOT.

Seattle Department of Transportation

Additionally, during the budget adoption process, the Executive proposed and the Council passed legislation adopting increased taxes on Transportation Network Companies (TNCs). This recurring revenue source will go to the General Fund, but it is anticipated the revenues will partly go to support transportation projects. For 2020, the City Council utilized a portion of the anticipated revenues to support one-time project adds.

City Council Changes to the Proposed Budget

The City Council added appropriations and projects to the proposed budget, primarily making a variety of one-time adds (\$3,350,000 total) supported by the to-be-implemented increase in Transportation Network Company (TNC) taxes (see Ordinance 125971). While these new TNC taxes are ongoing, the Council utilized the 2020 revenue to fund several one-time adds. The Council also redirected \$2 million of “Mercer Megablock” property sale proceeds to support more protected bike lane infrastructure instead of using those proceeds to backfill declining commercial parking tax revenue, as originally proposed. The Council also used fund balance in the School Safety Traffic and Pedestrian Improvement Fund to build additional sidewalks along NW 132nd St and pay for an Active Transportation Coordinator at Seattle Public Schools.

For detailed descriptions of Council changes to the budget, see “Council Changes” in the incremental budget changes section below.

Total Incremental Changes **\$41,252,353** **26.50**

Total 2020 Adopted Budget **\$738,929,188** **958.00**

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$5,758,641

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. Of the total adjustment for 2020, about \$885,000 is from the General Fund, and the remainder is from other transportation-related funds.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$128,004

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

2020 SDOT Baseline CIP Adjustment

Expenditures \$(5,973,774)

Seattle Department of Transportation

This technical CIP adjustment applies Council changes made during 2019 to the "out years" (2020-2024) of the CIP projects. This change reestablishes the budget from which the 2020-2025 Proposed CIP incremental changes are applied.

2020 Waterfront Baseline CIP Adjustment

Expenditures \$(14,483,200)

This technical CIP adjustments applies Council changes made during 2019 to the "out years" (2020-2024) of the CIP projects. This change reestablishes the budget from which the 2020-2025 Proposed CIP incremental changes are applied.

Proposed Operating

STBD 2020 O&M Adjustment

Expenditures \$7,077,780

This one-time increase is for the City's purchase of Seattle Transportation Benefit District (STBD) transit services provided by King County Metro. The increased appropriation will fund 25,000 additional transit service hours in March 2020 (\$2.6 million), First Mile-Last Mile Service (\$4 million), and budget to adjust for 2019 actual transit service costs that were higher than anticipated (\$1.3 million). In addition, partnership service costs are decreasing by \$867,000; however, service levels will remain constant. The fund source is the Transportation Benefit District Fund (vehicle license fees and sales tax).

Mercer Megablock Property Proceeds - Operating

Expenditures \$7,600,000

This action programs a portion of the anticipated proceeds from the sale of the City's "Mercer Megablock" property in South Lake Union for transportation projects and programs administered by SDOT. Of the total anticipated proceeds from the sale, \$54.7 million has been identified as available for SDOT use.

SDOT Emerging Technology and IT Strategic Plan

Expenditures \$125,000

The 2020 Adopted Budget includes \$125,000 of one-time funding from internal overhead to complete a comprehensive transportation technology strategic plan, approved in a prior budget, that addresses all facets of SDOT technology including the technology infrastructure necessary to support emerging transportation systems and services; technology to expand and improve transportation operations such as traffic management and navigation; and operational technology for maintenance/operations and critical business functions. The Transportation Technology Plan (TTP) will be used to improve the safety, efficiency, cost effectiveness and end-user experience of travel in the city.

Emerging Transportation Technology Systems and Services include items such as autonomous vehicles (AV), intelligent transportation systems (ITS), pay-by-plate parking systems, navigation systems, ride-share services, incident response/congestion management applications and much more. To implement and support these systems, SDOT must also have the technology for daily operations and maintenance (O&M), business services (Financial, Purchasing/Contracting, Human Resources, etc.). The development of a comprehensive transportation technology plan is needed to ensure that City technology investments are identified and implemented proactively to improve efficiency, reduce costs, and ensure proper prioritization and sequencing.

Seattle Department of Transportation

Seattle Department of Transportation Permitting Archives

Expenditures \$235,686

The State of Washington requires that the City keep permit records for 6 to 10 years. This one-time item, funded by Street Use fees, will create an archive of the SDOT's current legacy permitting system (Hansen), which is at the end of its life and is being replaced by Accela. This project has two parts: Part 1 will migrate active records to Accela; Part 2 will develop a user-friendly mechanism to enable the business to readily store and search historical data that does not get converted into Accela (closed, inactive records). Enabling access to legacy data will allow the business to more readily research claims and other questions related to historical permit data.

Increase Seattle IT Allocation to Fund Accela Support

Expenditures \$275,042

Seattle IT added FTE to support the Permitting System Integration (PSI) body of work, related to the Accela permitting platform. This item adds \$275,042 in ongoing expenditure authority from the Transportation Fund to cover SDOT's allocation of expenditures for this effort. See Seattle Information Technology Department's budget book pages (ITD - 123) for more detail on the Increase Staff Support for Accela Program item.

Positions to Support Continuing Operations

Expenditures \$218,266

Position Allocation 23.50

This action maintains staffing capacity within SDOT to continue to provide basic services and voter-approved projects and programs delivered throughout the department by converting 19 Term-Limited Assignment (TLA) and Temporary Employment Services (TES) positions to regular, ongoing FTE and by adding 4.5 new FTE. No additional budget appropriation authority or revenues are needed for the 19 existing positions, as the costs and funding for these positions are already built into SDOT's 2020 Endorsed Budget. These positions support and perform essential services necessary to fulfill SDOT's mission and commitments to the community. All 19 TLA and TES positions will expire during 2020; conversion at the start of 2020 will help retain experienced and knowledgeable staff and ensure seamless delivery of services. Funding for the two (2) ADA curb ramp inspectors mentioned previously are included in this item. The remaining 1.5 positions are primarily revenue-backed. Any requested funding will be covered by a combination of permit fees and reimbursements from state agencies.

Commercial Vehicle Loading Zone Program Upgrade

Expenditures \$210,000

This action adjusts Commercial Vehicle Load Zone (CVLZ) permit fees to modernize the CVLZ system and improve curb space management in support of more efficient urban goods delivery. The fee will be raised from \$195 to \$250 (+\$55). This growing industry is critical to Seattle's continued economic vitality but faces increasing pressures from congestion and limited loading options. Without better CVLZ management, vehicles will continue to skip deliveries to return later or double-park, adding to congestion and business financial costs. Accompanying legislation adjusts the CVLZ permit fee. General Fund will cover payment program additions and upgrades, system set-up, ensuing credit card fees, and customer outreach.

Commercial Vehicle Enforcement Program and Traffic Permit Counter

Expenditures \$425,729

Position Allocation 2.00

This item adds \$425,729 and 2.0 FTE to improve SDOT service levels at the Traffic Permit Counter and in the Commercial Vehicle Enforcement program. One position is added to the Traffic Permit Counter to improve processing times of permits and respond to customer inquiries. A second position is added to the Commercial

Seattle Department of Transportation

Vehicle Enforcement program to more effectively address commercial vehicle-related mobility issues in increasingly congested areas of the city, including Downtown and Pioneer Square. In addition, a modest increase in Temporary No Parking fees (also known as meter hooding) of \$2 (8%-13% increase) is made to reflect current administrative program costs. General Fund, permit fees, and a reduction in costs related to contracted work at the permit counter are used to pay for the staffing as well as one-time costs such as protective equipment and vehicles.

Proposed Capital

Megablock Property Proceeds - Capital

Expenditures \$1,800,001

The Council modified this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

The proposed budget funds investments of \$16.7 million to support new Vision Zero capital projects, supplement existing projects, and increase spot safety projects, including bicycle and pedestrian projects over four years. The proposed 2020 budget funding amount is \$1.8 million. The Vision Zero projects were selected based on the priorities in the Bike Master Plan, the Pedestrian Master Plan and the Safe Routes to School Action Plan. These documents contain strong equity components, driving capital investments toward neighborhoods that are historically disadvantaged. The funding source for this item is Mercer Megablock proceeds.

STBD 2020 CIP Adjustment

Expenditures \$4,958,462

This one-time item increases funding to build additional capital projects that enhance transit speed, reliability, access and safety. Projects funded in 2020 include bus stop shelter footings and benches, transit-only lane markings (red lane treatment), queue jumps, and spot improvements. The fund source is the Transportation Benefit District Fund (vehicle license fees and sales tax).

Northgate Bridge and Cycle Track

Expenditures \$1,000,000

This item increases Move Seattle Levy funding for the construction of the Northgate Pedestrian and Bicycle Bridge by \$1 million in 2020 and increases total project costs by \$11.6 million. Funding for this project is coming from Bridge Rehabilitation and savings from the S Lander project. The project will construct pedestrian and bicycle improvements to enhance access to the Sound Transit Link Light Rail station under construction in Northgate; improvements include a pedestrian and bike bridge over I-5 and a protected bike lane and multi-use path along 1st Avenue NE. The existing transit center currently serves over 6,000 passengers daily, and the future light rail station is expected to serve over 15,000 passengers per day.

The completed project will improve connections between the east and west sides of the Northgate community, helping to knit together a neighborhood historically divided by a 10-lane interstate. The new bridge will span roughly 1,900 feet, landing at North Seattle College on the west side and at the future light rail station on the east side.

SDOT ADA Program

Expenditures \$2,067,645

The 2020 Adopted Budget includes \$7.22 million to fund the installation of an additional 273 curb ramps in 2020. Funding includes \$5.1 million of capital project savings and \$2.1 million in School Safety Traffic and Pedestrian Improvement (SSTPI). These investments allow the City to meet the annual ADA curb ramp requirement per the Reynoldson Consent Decree. Per the Consent Decree, a minimum of 1,250 ADA-compliant curb ramp improvements or remediations are required to be constructed in the city every calendar year. Ramps above 1,250, and up to 625,

Seattle Department of Transportation

can be deposited into a “credit bank” and applied to future years. The budget also provides two new, full time FTEs for inspection positions to support the ADA program to ensure ramps are constructed correctly. Timely curb ramp inspection due to staffing limitations has been one of the biggest challenges to counting ramps towards yearly deliverables.

Northlake Retaining Wall

Expenditures \$2,000,000

This item creates a new CIP project to fund the design of a replacement for the Northlake Retaining Wall to the 100% design level. This critical structure is a 452-foot-long lake front timber structure constructed in 1951 and is located along the north shoreline of Lake Union adjacent to North Northlake Way. The wall currently shows signs of advanced deterioration, overstress, and some sections of structural failure. The current calculated capacity/demand ratio is 0.1 where 1.0 represents stability. This presents a significant risk to public safety given the right-of-way supported by the wall, the private structures directly offshore and adjacent to the wall, and the close proximity (immediately adjacent and up to 50 feet onshore) of overhead power lines and subsurface gas, sewer, drainage and water utility infrastructure.

School Safety Traffic and Pedestrian Improvement

Expenditures \$1,250,001

The 2020 Adopted Budget funds pedestrian safety and accessibility projects in school zones through 2024 via the School Safety Traffic and Pedestrian Improvement Fund (SSTPI). Safe Routes to School is an integral part of the City’s commitment to Vision Zero, the plan to end traffic deaths and serious injuries by 2030. The program uses a combination of strategies, including engineering, encouragement, and education to reach the goal of increased safe walking for all of Seattle’s Public School students. The engineering toolkit includes projects like curb bulbs, curb ramps, raised crosswalks, crossing beacons, and pedestrian signals; sidewalks; school zone signage, 20mph flashing beacons, speed humps, lane reduction/lane narrowing, and street trees; for example. The program will construct as many of these types of projects as possible with this funding, including the installation of an additional 3-5 school zone cameras, and citation-related staffing.

Proposed Technical

South Lake Union Streetcar Operations

Expenditures \$928,002
Revenues \$1,506,763

This ongoing item increases the operating budget for the South Lake Union Streetcar. Several budget assumptions have changed since the 2020 Endorsed Budget: King County Metro has agreed to contribute \$1.5 million annually for streetcar operations through 2024, projected operating revenues have decreased by \$335,000, operating expenses have increased by \$37,000, and accounting practices have changed between the City and King County, which operates the streetcar. As a result of these changed accounting practices, the adopted budget includes revenues received from the ORCA fare payment system; in the past, these revenues were not included in SDOT’s budget. Of the \$928,000 expenditure increase, \$37,000 is due to increased operating costs and the remaining \$891,000 is due to accounting practice changes. This item also reduces the CPT transfer to SLU to reflect the increased contribution from King County. The fund source for this increase is King County Metro funds.

First Hill Streetcar Operations

Expenditures \$1,132,362
Revenues \$641,845

Seattle Department of Transportation

This ongoing item increases the operating budget for the First Hill Streetcar. Several budget assumptions have changed since the 2020 Endorsed Budget: projected operating revenues have decreased by \$491,000 and accounting practices have changed between the City and King County, which operates the streetcar. As a result of these changed accounting practices, the adopted budget includes revenues from the ORCA fare payment system; in the past, these revenues were not included in SDOT's budget. The adopted budget does not anticipate any increased operating expenses. The fund sources for the increase are operating revenues (\$860,000) and Commercial Parking Tax 10% (\$272,000).

REET Debt Service Project Alignment Correction

Expenditures -

This change request corrects the allocation of REET II funds for debt service payments in the 2019-2024 CIP between projects, from Debt Service - REET I (MO-TR-D003) to Debt Service - REET II (MO-TR-D006). This reflects the project structure in PeopleSoft 9.2 and will help prevent reporting discrepancies moving forwards.

Debt Service Technical Adjustments

Expenditures \$(1,881,573)

This is a technical adjustment for debt service based on funding swaps, updated financing cost assumptions, and changes in annual LTGO bond needs based on current project spend plans.

O&M Technical Adjustments

Expenditures \$(2,471,235)

This technical adjustment reflects Citywide technical adjustments made in the baseline phase, changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across City departments.

CIP Technical Adjustments

Expenditures \$5,225,129

This technical adjustment includes several projects with capital savings that have transferred funds to support upcoming projects and those with scope or schedule adjustments. Key work includes street paving and resurfacing; building new sidewalks and curb ramps; school safety improvements; implementation of the Bike, Pedestrian, and Transit Master Plans; investments to facilitate freight mobility; traffic cameras and signals; bridge projects such as bridge replacement, maintenance, and seismic retrofitting; and support for the Seawall and Waterfront Program.

Reimbursable Technical Adjustments

Expenditures \$801,793

This technical adjustment updates estimated reimbursable work amounts to account for anticipated increases in reimbursable work that SDOT will be undertaking.

Street Use Technical Adjustments

Expenditures \$1,690,017

This one-time adjustment aligns the budget with anticipated expenditures in SDOT's Street Use program. Funds will be used to support increased costs for temporary labor (\$388,000), training, fees, printing and other services

Seattle Department of Transportation

(\$569,000), downtown mobility staffing (\$439,000), urban design work (\$169,000), and various budget reallocations. The fund source is street use fees within SDOT's Transportation Fund.

Reimbursable CWF transfer to new BSL

Expenditures \$8,109,575

This action adds reimbursable appropriation authority to a new BSL for the Central Waterfront program. This appropriation was previously made within the Bridges and Structures BSL. The change request also reflects a reduction from this BSL. It increases the reimbursable authority by \$8,109,575 to \$41,500,000. This accounts for updated cashflow and additional reimbursable work above what was budgeted in the 2020 Endorsed budget.

The \$41.5 million is for the following reimbursable work: Seattle Parks (\$12,000,000), Office of Arts and Culture (\$250,000), SCL (\$15,000,000), Washington State Ferries/SCL (\$1,500,000), SPU (\$10,000,000) and Telecom (\$2,750,000).

Council

Technical Changes

Expenditures \$(990,000)

Revenues \$(990,000)

The City Council adopted several errata that affect SDOT's budget and CIP as described below:

- Vision Zero CIP Project - reduces state grant revenues by \$990,000 in 2020 and a corresponding reduction was made in SDOT's 2020 Transportation Fund appropriation. In addition, this project's Move Seattle Levy revenues are reduced by \$95,000 in 2023.
- Transit Corridor Improvements CIP Project - reduces Seattle Transportation Benefit District Proposition 1 revenues by \$9 million in 2020 and also reduces \$20 vehicle license fee revenues by \$5.942 million in 2020. Move Seattle revenues are reduced by \$362,000 in 2023.
- Corrects resource amounts for the Move Seattle Levy in 2021 and beyond for the following projects:
 - Bridge Seismic Phase III
 - Neighborhood Large Projects
 - New Traffic Signals
 - Next Generation Intelligent Transportation Systems (ITS)
 - Signal Major Maintenance
 - Arterial Asphalt & Concrete Program Phase II
 - 23rd Avenue Corridor Improvements
 - Freight Spot Improvement Program
 - Madison BRT - RapidRide G Line
 - SDOT ADA Program
 - Pedestrian Master Plan - School Safety
 - Pedestrian Master Plan - Crossing Improvements
 - Bike Master Plan - Protected Bike Lanes
 - Bike Master Plan - Greenways
 - Heavy Haul Network Program - East Marginal Way

Seattle Department of Transportation

Active Transportation Coordinator at Seattle Public Schools

Expenditures \$150,000

The Council appropriated an additional \$150,000 of School Safety Traffic and Pedestrian Improvement Fund to fund a new position at Seattle Public Schools, an Active Transportation Coordinator. The work of the new position will be to support walk-to-school and bike-to-school programs across the school district and support the district's efforts to ensure crossing guard positions are filled. Council intends to fund this position for at least five years and some type of interagency agreement with Seattle Public Schools will be necessary to provide the funding for the position.

Safe Routes to School - Walkway Improvements

Expenditures \$200,000

The Council appropriated an additional \$200,000 of School Safety Traffic and Pedestrian Improvement Fund to the Pedestrian Master Plan - New Sidewalks CIP project (MC-TR-C058) to fund walkway improvements along NW 132nd St between Greenwood Ave N and 3rd Ave NW. This location is within the walkshed of Broadview-Thomson K-8 School and is identified in the Safe Routes to School's walk audit of the area.

Transportation Equity Agenda

Expenditures \$300,000

Position Allocation 1.00

The Council moved \$300,000 of one-time General Fund (TNC tax) appropriation from Finance General to SDOT to fund a 1.0 FTE position (Strategic Advisor 1) to support implementation of SDOT's Transportation Equity Agenda. The Transportation Equity Agenda manages the low-income transit access and vehicle license fee rebate programs authorized by STBD Proposition 1. The intent of the Council is to provide resources and staff to oversee implementation of the agenda and provide funding for recommendations that are not budget neutral--for example, helping resource community organizations for community outreach. The Transportation Equity Agenda is anticipated to include recommendations for: (1) affordability, housing and displacement; (2) community engagement; (3) transit access; (4) transparency; and (5) safety.

Public Life Study of Capitol Hill

Expenditures \$150,000

The Council added \$150,000 of one-time General Fund (TNC tax) for a neighborhood focused public life study of Capitol Hill to be delivered in partnership with one or more community organizations, such as the Capitol Hill EcoDistrict. This funding is intended to support community engagement, community-based design, planning and visioning efforts for Capitol Hill. A public life study seeks to evaluate and characterize the use of public space (i.e. how is public space being used and who is using the public space) to provide insight into how design, activation, social behavior, built environment and urban form influence public activity.

Home Zone Program

Expenditures \$350,000

The Council added \$350,000 of one-time General Fund (TNC tax) for the construction of additional or expanded Home Zone program projects in 2020. In the 2019 Adopted Budget, Council approved \$350,000 for the Home Zone pilot program to fund traffic calming measures (such as diverters and speed humps) on clusters of residential streets to create people-centered zones within the arterial grid.

Seattle Department of Transportation

Market to MOHAI Lighting

Expenditures \$400,000

The Council added \$400,000 of one-time General Fund (TNC tax) to the Market to MOHAI CIP project (MC-TR-C095) to implement pedestrian lighting on four blocks along the 1.4-mile pedestrian corridor from Pike Place Market to South Lake Union. This funding would fill the remaining funding gap for the project.

Thomas Street Redesign (SDOT); Rental Assistance Pilot

Expenditures \$1,760,000

This Council Budget Action contains two unrelated components: a Seattle Department of Transportation (SDOT) change and a Human Services Department (HSD) change.

SDOT: The Council established a new Thomas Street Redefined CIP project (MC-TR-C105) and added \$1.76 million of one-time General Fund (of which \$1.25 million is TNC tax) for improvements to Thomas St from 5th Ave N to Dexter Ave N. Improvements may include, but are not limited to: a half block closure of 5th Ave N and Thomas St to create a public plaza adjacent to the Seattle Center skatepark; a 36-foot wide pedestrian and bicycle promenade from 5th Ave N to Dexter Ave N; and/or a protected intersection at Dexter Ave N and Thomas St. The project will be coordinated with streetscape improvements funded by Seattle City Light for the street frontage of the Broad Street Substation and intersection improvements at 7th Ave N and Thomas St funded by the Washington State Department of Transportation.

HSD: The Council added \$40,000 of reprioritized General Fund resources for the Human Services Department (HSD) to create and evaluate a rental assistance pilot for individuals who (1) are age 50 or older, (2) have income limited to federal disability benefits, specifically Supplemental Security Income (SSI) or Social Security Disability Insurance (SSDI), that is no more than \$1,000 per month, and (3) are at risk of or currently experiencing homelessness. This funding is in addition to two other Council Budget Actions, resulting in a total of \$750,000 in 2020 for this purpose.

Fortson Square Redesign

Expenditures \$400,000

The Council established a new CIP project (MC-TR-C104) and added \$400,000 of one-time General Fund (TNC tax) for reconstruction of Fortson Square (located at the corner of Yesler Way and 2nd Ave Ext S). The Council believes the project could commence construction in late 2020 and would last four months, with the goal of reopening Fortson Square to coincide with completion of the Chief Seattle Club renovation in Spring 2021.

West Marginal Way Safe Street and Accessibility Improvements

Expenditures \$500,000

The Council established a new West Marginal Way Safe Street and Accessibility Improvements CIP project (MC-TR-C103) and added \$500,000 of one-time General Fund (TNC tax) for pedestrian safety improvements at West Marginal Way near the Duwamish Longhouse and Cultural Center. The project is intended to include a pedestrian-activated traffic signal and marked crosswalk, sidewalk pavement on the west side of West Marginal Way, an ADA-accessible crossing of railroad tracks to the Duwamish Trail, and an ADA-accessible connection to the Duwamish Tribe's Herring's House parking lot.

Renter Organizing and Outreach Expenditures; Reduction to SPD and SDOT

Expenditures \$(25,000)

This item adds \$60,000 of General Fund Resources for SDCI to contract with community-based organizations for renter education, outreach and organizing. Because this item is funded by delaying the hiring date for an

Seattle Department of Transportation

administrative position in the Seattle Police Department (\$35,000) and a one-time reduction to SDOT for congestion pricing outreach (\$25,000), this is a one-time addition to SDCI's budget.

Free Floating Car Share Permit Fee Ordinance

Revenues \$(1,325,400)

The Council passed Council Bill 119699 in related budget legislation which adjusted the fee schedule for free floating car share permits. The Council, at SDOT's request, reduced the annual per vehicle Restricted Parking Zone (RPZ) fee from \$700 per year to \$200 per year thereby reducing the total free floating car share per vehicle fee from \$1,730/year to \$1,230/year. This budget action reflects the anticipated reduction in revenue to the Transportation Fund as a result of the fee schedule change and the projected decrease in total permits. The reduction consists of two components: (1) a \$375,000 reduction to reflect the lower RPZ fee proposed in Council Bill 119699, and (2) a \$950,400 reduction in 2020 to reflect fewer vehicles permitted than was anticipated in the 2020 Proposed Budget.

Council Provisos

Additional Funding for Protected Bike Lanes and Proviso

Expenditures \$9,850,000

The Council redirected \$2 million of Mercer Megablock property proceeds to the Bike Master Plan - Protected Bike Lanes CIP project (MC-TR-C062) resulting in a total of \$10.35 million of Mercer Megablock proceeds to implement bike infrastructure projects serving South Seattle. The 2020 Proposed Budget directed \$9.2 million of the Mercer Megablock property proceeds to backfill lower than anticipated Commercial Parking Tax revenue. This Council action reduced the Commercial Parking Tax backfill from \$9.2 million to \$7.2 million.

The Council also shifted \$7.85 million that the 2020-2025 Proposed CIP intended to spend in future years (2021, 2022, and 2023) to 2020. This action allowed the below spending proviso to apply to the total \$10.35 million total Mercer Megablock property proceeds as under state law, unspent capital appropriations automatically carry forward, with proviso restrictions, to subsequent years.

"Of the appropriations in the 2020 budget for the Seattle Department of Transportation's Mobility-Capital BSL, \$10,350,000 is appropriated solely for implementation of bicycle facilities on (1) Martin Luther King, Jr. Way (Rainier to Henderson St), (2) Beacon Avenue (Jose Rizal Bridge to S 39th St), and/or (3) Georgetown to South Park Trail and may be used for no other purpose."

Delridge Way SW - RapidRide H Line Corridor Proviso

"None of the appropriations in the 2020 budget for the Seattle Department of Transportation's Mobility-Capitol BSL may be spent on construction of the Delridge Way SW – RapidRide H Line (MC-TR-C042) CIP Project until the department has provided a report to Council detailing:

- (1) Community engagement efforts as part of 90% design;
- (2) Community feedback on 90% design;
- (3) Project changes from 90% design to 100% design;
- (4) Status of project funding sources;
- (5) Planned construction schedule;
- (6) Outreach and engagement plan for businesses that may be affected by the project, and the role of the Office of Economic Development to address potential impacts;
- (7) Pedestrian access and crossings at bus stops;
- (8) Decisions regarding 24/7 dedicated bus lanes, and parking removal;
- (9) Implementation of the Bicycle Master Plan as part of the project, as required by Chapter 15.80 of the Seattle Municipal Code; and
- (10) SDOT's consideration of a traffic diverter on 26th Avenue SW at SW Genesee and speed humps on 25th Ave SW north of Genesee; potential modification of the southbound protected bicycle lane (PBL) to a two-way PBLs from SW Juneau to SW Kenyon (with reduction of the double yellow line space)."

Seattle Department of Transportation

Appropriations by Budget Summary Level and Program

SDOT - BC-TR-16000 - Central Waterfront

The purpose of the Central Waterfront Budget Summary Level is to design, manage, and construct improvements to the transportation infrastructure and public spaces along the Central Waterfront.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Central Waterfront	-	-	-	98,128,075
Total	-	-	-	98,128,075

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BC-TR-19001 - Major Maintenance/Replacement

The purpose of the Major Maintenance/Replacement Budget Summary Level is to provide maintenance and replacement of roads, trails, bike paths, bridges and structures.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Bridges & Structures	9,136,126	42,492,825	26,691,223	38,795,436
Landslide Mitigation	414,304	453,000	466,000	475,349
Roads	38,583,621	50,402,124	48,966,885	61,154,175
Sidewalk Maintenance	4,076,007	5,692,000	3,765,648	3,807,479
Signs, Signals and Markings	1,338,651	1,552,533	1,594,145	1,657,420
Trails and Bike Paths	1,644,454	1,100,000	1,200,000	1,236,594
Urban Forestry	225,468	-	-	-
Urban Forestry	-	-	-	8,936
Total	55,418,631	101,692,482	82,683,901	107,135,389
Full-time Equivalents Total*	96.25	98.25	98.25	98.25

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Maintenance/Replacement Budget Summary Level:

Bridges & Structures

The purpose of Bridges and Structures Program is to provide for safe and efficient use of the city's bridges and structures to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Bridges & Structures	9,136,126	42,492,825	26,691,223	38,795,436
Full Time Equivalents Total	12.75	13.75	13.75	13.75

Seattle Department of Transportation

Landslide Mitigation

The purpose of the Landslide Mitigation Program is to proactively identify and address potential areas of landslide concerns that affect the right-of-way.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Landslide Mitigation	414,304	453,000	466,000	475,349
Full Time Equivalents Total	2.00	2.00	2.00	2.00

Roads

The purpose of the Roads program is to provide for the safe and efficient use of the city's roadways to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Roads	38,583,621	50,402,124	48,966,885	61,154,175
Full Time Equivalents Total	46.00	47.00	47.00	47.00

Sidewalk Maintenance

The purpose of Sidewalk Maintenance Program is to maintain and provide for safe and efficient use of the city's sidewalks to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Sidewalk Maintenance	4,076,007	5,692,000	3,765,648	3,807,479
Full Time Equivalents Total	6.00	6.00	6.00	6.00

Signs, Signals and Markings

The purpose of Signs, Signals and Markings Program is to design, plan and maintain the city's signs, signals, and street, sidewalk markings

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Signs, Signals and Markings	1,338,651	1,552,533	1,594,145	1,657,420

Trails and Bike Paths

The purpose of Trails and Bike Paths Program is to maintain and provide for safe and efficient use of the city's trails and bike paths to all residents of Seattle and adjacent regions to ensure movement of people, goods and services throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Trails and Bike Paths	1,644,454	1,100,000	1,200,000	1,236,594

Seattle Department of Transportation

Full Time Equivalents Total	27.75	27.75	27.75	27.75
-----------------------------	-------	-------	-------	-------

Urban Forestry

The purpose of the Landscape & Tree Maintenance Program is to provide planning, design, construction and construction inspection services for landscape elements of transportation capital projects, as well as guidance to developers on the preservation of city street trees and landscaped sites during construction.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Urban Forestry	225,468	-	-	8,936
Full Time Equivalents Total	1.75	1.75	1.75	1.75

SDOT - BC-TR-19002 - Major Projects

The purpose of the Major Projects Budget Summary Level is to design, manage and construct improvements to the transportation infrastructure for the benefit of the traveling public including freight, transit, other public agencies, pedestrians, bicyclists and motorists.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

SR-520	888,954	1,284,000	1,288,000	109,328
Total	37,370,305	58,753,717	115,339,275	109,328
Full-time Equivalents Total*	23.50	24.50	24.50	24.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Major Projects Budget Summary Level:

Alaskan Way Viaduct

The purpose of the Alaskan Way Viaduct and Seawall Replacement Program is to fund the City's involvement in the replacement of the seismically-vulnerable viaduct and seawall. The Alaskan Way Viaduct is part of State Route 99, which carries one-quarter of the north-south traffic through downtown Seattle and is a major truck route serving the city's industrial areas

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Alaskan Way Viaduct	34,074,130	57,469,717	114,051,275	-
Full Time Equivalents Total	22.00	23.00	23.00	23.00

Seattle Department of Transportation

First Hill Streetcar

Expenditures/FTE				
First Hill Streetcar	13,879	-	-	-

Mercer Corridor

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
Mercer Corridor	5,527	-	-	-

Mercer West

The purpose of the Mercer West Program is to use existing street capacity along the west portion of Mercer Street more efficiently and enhance all modes of travel, including pedestrian mobility, and provide an east/west connection between I-5, State Route 99, and Elliott Ave W.

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
Mercer West	2,387,817	-	-	-

SR-520

The purpose of the SR-520 Program is to provide policy, planning and technical analysis support and to act as the City's representative in a multi-agency group working on the replacement of the State Route 520 bridge.

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Expenditures/FTE				
SR-520	888,954	1,284,000	1,288,000	109,328
Full Time Equivalents Total	1.50	1.50	1.50	1.50

Seattle Department of Transportation

SDOT - BC-TR-19003 - Mobility-Capital

The purpose of the Mobility-Capital Budget Summary Level is to help maximize the movement of traffic throughout the city by enhancing all modes of transportation including corridor and intersection improvements, transit and HOV improvements, and sidewalk and pedestrian facilities.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Corridor & Intersection Imprv	20,426,227	32,081,095	26,606,393	40,668,696
Freight Mobility	14,803,094	38,267,051	33,819,822	38,752,769

Sidewalks & Ped Facilities	28,424,508	33,731,293	25,607,632	36,641,122
Transit & HOV	35,352,977	48,337,205	97,549,061	48,824,755
Total	128,717,008	185,022,952	207,436,732	210,557,566
Full-time Equivalents Total*	121.50	134.50	134.50	138.50

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Mobility-Capital Budget Summary Level:

Corridor & Intersection Imprv

The purpose of the Corridor & Intersection Improvements Program is to analyze and make improvements to corridors and intersections to move traffic more efficiently. Examples of projects include signal timing, left turn signals and street improvements.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Corridor & Intersection Imprv	20,426,227	32,081,095	26,606,393	40,668,696
Full Time Equivalents Total	37.50	37.50	37.50	38.50

Freight Mobility

The purpose of the Freight Mobility Program is to help move freight throughout the city in a safe and efficient manner.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Freight Mobility	14,803,094	38,267,051	33,819,822	38,752,769
Full Time Equivalents Total	4.50	4.50	4.50	4.50

Intelligent Transp System

The purpose of the Intelligent Transportation System (ITS) Program is to fund projects identified in the City's ITS Strategic Plan and ITS Master Plan. Examples of projects include implementation of transit signal priority strategies;

Seattle Department of Transportation

installation of closed-circuit television (CCTV) cameras to monitor traffic in key corridors; and development of parking guidance, traveler information and real-time traffic control systems.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Intelligent Transp System	3,007,711	4,516,945	6,833,055	3,259,933
Full Time Equivalents Total	8.25	9.25	9.25	9.25

Neighborhood Enhancements

The purpose of the Neighborhood Enhancements Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Neighborhood Enhancements	10,232,341	7,469,532	4,538,724	9,415,342
Full Time Equivalents Total	19.75	19.75	19.75	19.75

New Trails and Bike Paths

The purpose of the New Trails and Bike Paths Program is to construct new trails and bike paths that connect with existing facilities to let users transverse the city on a dedicated network of trails and paths.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
New Trails and Bike Paths	16,470,151	20,619,831	12,482,045	32,994,949
Full Time Equivalents Total	-	-	-	1.00

Sidewalks & Ped Facilities

The purpose of the Sidewalks & Pedestrian Facilities Program is to install new facilities that help pedestrians move safely along the city's sidewalks by installing or replacing sidewalks, modifying existing sidewalks for elderly and handicapped accessibility, and increasing pedestrian lighting.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Sidewalks & Ped Facilities	28,424,508	33,731,293	25,607,632	36,641,122
Full Time Equivalents Total	37.50	50.50	50.50	52.50

Transit & HOV

The purpose of the Transit & HOV Program is to move more people in less time throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Transit & HOV	35,352,977	48,337,205	97,549,061	48,824,755
Full Time Equivalents Total	14.00	13.00	13.00	13.00

Seattle Department of Transportation

SDOT - BO-TR-12001 - South Lake Union Streetcar Operations

The purpose of the South Lake Union Streetcar Operations Budget Summary Level is to operate and maintain the South Lake Union Seattle Streetcar.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
S Lake Union Streetcar Ops	974,684	2,793,955	3,428,841	4,356,843
Total	974,684	2,793,955	3,428,841	4,356,843

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-12002 - First Hill Streetcar Operations

The purpose of the First Hill Streetcar Operations Budget Summary Level is to operate and maintain the First Hill Seattle Streetcar.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
First Hill Streetcar Ops	5,927,202	12,069,474	8,288,386	9,420,748
Total	5,927,202	12,069,474	8,288,386	9,420,748

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

SDOT - BO-TR-16000 - Waterfront and Civic Projects

The purpose of the Waterfront and Civic Projects Summary Level is to pay for expenses related to reimbursable design and construction services provided by the Central Waterfront program for other City departments and external partners. Additionally, the BSL provides planning and leadership support for other Civic Projects.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Waterfront and Civic Projects	-	-	-	41,499,999
Total	-	-	-	41,499,999

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

Seattle Department of Transportation

SDOT - BO-TR-17001 - Bridges & Structures

The purpose of the Bridges and Structures Budget Summary Level is to maintain the City's bridges and structures which helps provide for the safe and efficient movement of people, goods, and services throughout the City. Additionally, the BSL provides general construction management, engineering support for street vacations, scoping of neighborhood projects, and other transportation activities requiring engineering oversight.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Bridge Operations	3,425,281	3,739,773	3,760,574	3,902,269

Full Time Equivalents Total	45.25	44.25	44.25	51.25

Seattle Department of Transportation

Neighborhoods

The purpose of the Neighborhoods Program is to plan and forecast the needs of specific neighborhoods including neighborhood and corridor planning, development of the coordinated transportation plans, traffic control spot improvements and travel forecasting. The program also constructs minor improvements in neighborhoods based on these assessments.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Neighborhoods	1,121,688	1,140,569	1,137,844	1,153,967
Full Time Equivalents Total	2.50	2.50	2.50	2.50

Parking & Curbspace

The purpose of Parking and Curb Ramp Program is to manage the City's parking resources, maintain and operate pay stations and parking meters for on-street parking, manage curbspace, develop and manage the City's carpool program and Residential Parking Zones.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Parking & Curbspace	13,240,830	13,670,815	13,869,926	14,767,719
Full Time Equivalents Total	32.00	31.00	31.00	31.00

Signs & Markings

The purpose of the Signs & Markings Program is to design, fabricate and install signage, as well as provide pavement, curb and crosswalk markings to facilitate the safe movement of vehicles, pedestrians and bicyclists throughout the city.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Signs & Markings	3,755,300	3,990,599	4,048,767	4,191,653
Full Time Equivalents Total	19.50	19.50	19.50	19.50

Traffic Signals

The purpose of the Traffic Signals Program is to operate the Traffic Management Center that monitors traffic movement within the city and to maintain and improve signals and other electrical transportation management infrastructure.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Traffic Signals	9,569,956	9,360,650	9,249,598	9,487,442
Full Time Equivalents Total	21.25	24.25	24.25	24.25

Transit Operations

The Purpose of the Transit Operations Program is to purchase Metro Transit service hours on routes with at least 65% of the stops within the city of Seattle and to support regional transit service in conjunction with other cities,

Seattle Department of Transportation

transit agencies, and transportation benefit districts who contribute to the cost of providing regional transit service. The program also funds ORCA Opportunity which provides youth ORCA cards for Seattle Public Schools Students, Seattle Promise scholarship students or similar programs. The program also funds and administers a \$20 low-income VLF rebate to qualified individuals and supports access to transit service for low-income riders. The Transit Operations program revenues support the implementation of City-wide improvements to maximize transit operations.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Transit Operations	43,380,667	52,120,211	59,717,169	66,851,338

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in Maintenance Operations Budget Summary Level:

Emergency Response

The purpose of the Emergency Response Program is to respond to safety and mobility issues such as pavement collapses, severe weather, landslides and other emergencies to make the right-of-way safe for moving people and goods. This program proactively addresses landslide hazards to keep the right-of-way open and safe.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Emergency Response	3,917,220	4,638,797	4,700,240	4,840,587
Full Time Equivalents Total	19.00	19.00	19.00	19.00

Operations Support

The purpose of the Operations Support Program is to provide essential operating support services necessary for the daily operation of SDOT's equipment and field workers dispatched from three field locations in support of street maintenance activities. These functions include warehousing, bulk material supply and management, tool cleaning and repair, equipment maintenance and repair, project accounting and technical support, and crew supervision.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Operations Support	4,777,578	4,804,480	4,805,337	4,956,495

Seattle Department of Transportation

The following information summarizes the programs in Leadership and Administration Budget Summary Level:

Citywide Indirect Costs

The Purpose of Citywide Indirect Cost Program is to allocate the City's general service costs to SDOT in a way that benefits the delivery of transportation services to the public.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Indirect Costs	35,749,039	39,937,628	39,766,385	39,733,357

Departmental Indirect Costs

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Departmental Indirect Costs	14,706,586	17,257,390	14,905,527	18,968,116
Full Time Equivalents Total	114.00	112.00	112.00	120.00

Divisional Indirect Costs

The purpose of the Divisional Indirect Costs Program is to provide division leadership and unique transportation technical expertise to accomplish the division's goals and objectives in support of the department's mission.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Divisional Indirect Costs	15,019,142	13,050,957	14,497,115	12,147,358
Full Time Equivalents Total	94.25	93.25	93.25	94.25

Indirect Cost Recovery Offset

Indirect Cost Recovery Offset Program includes Department Management Indirect cost recovery and General Expense Indirect Cost Recovery. This program equitably recovers and allocates departmental and general expense indirect cost from all transportation activities and capital projects to fund departmental management and support services essential for delivery of transportation service to the public.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Indirect Cost Recovery Offset	(98,299,089)	(70,245,975)	(69,169,027)	(69,265,285)

Pooled Benefits and PTO

This budget program contains the funding associated with employee leave, time off, and benefit-related costs for Workers' Compensation, healthcare and other centrally distributed benefit costs.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Pooled Benefits and PTO	33,168,500	-	-	-

Seattle Department of Transportation

SDOT - BO-TR-18002 - General Expense

The purpose of the General Expense Budget Summary Level is to pay for general business expenses necessary to the overall delivery of transportation services, such as Judgment and Claims contributions and debt service payments.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Initiatives	182,121	-	-	14,150,000
Debt Service	33,447,752	35,028,548	39,782,023	37,900,450
Judgment & Claims	2,590,087	2,590,087	2,590,087	2,590,087
Total	36,219,960	37,618,635	42,372,110	54,640,537

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

The following information summarizes the programs in General Expense Budget Summary Level:

Citywide Initiatives

The purpose of the Citywide Initiatives program is to support citywide or multi-departmental system or process improvement initiatives.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Citywide Initiatives	182,121	-	-	14,150,000

Debt Service

The purpose of Debt Service Program is to meet principal repayment and interest obligations on debt proceeds that are appropriated in SDOT's Budget

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Debt Service	33,447,752	35,028,548	39,782,023	37,900,450

Judgment & Claims

The purpose of the Judgement & Claims Program is to represent SDOT's annual contribution to the City's centralized self-insurance pool from which court judgements and claims against the city are paid.

Expenditures/FTE	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Judgment & Claims	2,590,087	2,590,087	2,590,087	2,590,087

Central Waterfront Improvement Program

Marshall Foster, Director

206-684-8413

<http://www.seattle.gov/office-of-the-waterfront-and-civic-projects>

Central Waterfront Improvement Program

The Office of the Waterfront and Civic Projects is responsible for coordinating the City's waterfront improvement efforts, including project management, design, construction, and financial management. Organizationally, it is a unit of the Seattle Department of Transportation (SDOT), although its director reports directly to the Mayor. The Office of the Waterfront and Civic Projects is charged with administering the overall program and ensuring that it is managed efficiently and delivers on the Concept Design and Framework Plan for the Central Waterfront as adopted by the City in Resolution 31399.

The projects that make up the Central Waterfront program are included in SDOT's budget and in the budgets of two other City departments. Although there are multiple funding sources and multiple projects within the waterfront improvement program, the program itself includes all of the projects listed below.

Seattle Department of Transportation

- Alaskan Way Main Corridor project (MC-TR-C072)
- Overlook Walk and East/West Connections (MC-TR-C073)

Department of Parks and Recreation

- Parks Central Waterfront Piers Rehabilitation (MC-PR-21007)
- Aquarium Expansion (MC-PR-21006)

Department of Finance and Administrative Services

- Pike Place Market PC-1 North Waterfront Entrance project (complete)
- Local Improvement District Administration

In addition, there are funds budgeted in CIP projects for Seattle Public Utilities (SPU) and Seattle City Light (SCL) for utility relocations related to the Central Waterfront program. The Office of the Waterfront and Civic Projects is leading design and construction activities for these relocations, which in SDOT's budget are combined in a reimbursable project. The Office of Arts and Culture also has funding from the Waterfront program's 1% for Arts contribution.

Central Waterfront Improvement Fund is a single fund from which multiple departments draw funding resources. The fund tracks the interfund loan and philanthropic funds as well as other revenues. The fund supports certain costs associated with the design and construction of the waterfront improvement program and related costs for City administration, including the Office of the Waterfront and Civic Projects. Appropriations made from the Central Waterfront Improvement Fund are for these purposes.

In 2019, City Council created the Waterfront LID Fund to pay expenses related to the Waterfront Local Improvement District (#6751). Multiple departments will draw on the resource in this fund, which will be supported by an Interfund Loan (repaid by LID Bonds and LID assessments) until the LID bonds are sold in late 2020 or early 2021.

Office of the City Auditor

David G. Jones, City Auditor

(206) 233-3801

<http://www.seattle.gov/audit/>

Department Overview

The Office of City Auditor was established by City Charter and serves as Seattle's independent performance audit function. The City Auditor is appointed by the City Council to a four-year term of office.

The Office of City Auditor seeks to promote honest, efficient management and full accountability throughout City government. It serves the public interest by providing the City Council, the Mayor and City employees with accurate information, unbiased analyses and objective recommendations on how best to use public resources.

The Office of City Auditor conducts audits of City departments, programs, grantees and contracts, as well as some non-audit projects. Most of the office's work is performed in response to specific concerns or requests from City Councilmembers, but the City Auditor also independently initiates work to fulfill the office's mission. If resources are available, the City Auditor responds to requests from the Mayor, City departments and the public.

Through its work, the Office of City Auditor answers the following types of questions:

- Are City of Seattle programs being carried out in compliance with applicable laws and regulations, and is accurate information furnished to the City Council and Mayor on these programs?
- Do opportunities exist to eliminate inefficient use of public funds and waste?
- Are programs achieving desired results?
- Are there better ways to achieve program objectives at lower costs?
- Are there ways to improve the quality of service without increasing costs?
- What emerging or key issues should the City Council and Mayor consider?

Office of the City Auditor

Budget Overview

The 2020 Adopted Budget maintains resources to support the Office of City Auditor and includes technical adjustments to bring the department's budget into alignment with an Annual Wage Increase, a State Paid Family Medical Leave increase, changes to internal service costs, and items previously approved in the 2019 Second Quarter Supplemental Budget Ordinance. In addition, \$500,000 included in the Auditor's baseline budget for the evaluation of the Sweetened Beverage Tax will now be funded from Sweetened Beverage Tax Fund, rather than the General Fund where those tax resources had previously been deposited.

City Council Changes to the Proposed Budget

The Council added \$69,156 to the Office of City Auditor to allow for performance-based salary increases at management's discretion.

Office of the City Auditor

Total Incremental Changes	\$(31,481)	-
Total 2020 Adopted Budget	\$2,579,778	10.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$114,822

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$1,900

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$32,405

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates,

Office of the City Auditor

health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Supplemental Changes

Expenditures \$(249,764)

This adjustment reflects changes made through supplemental budget legislation since the last adopted budget. Supplemental budget legislation is developed by the Executive and adopted by the City Council four times a year to provide for corrections to the adopted budget, unforeseen changes in circumstance, new funding opportunities or new policy priorities. These changes may include additions or reductions in appropriations and FTEs. This change includes transferring \$249,764 from the Office of City Auditor to the Human Services Department (HSD) for HSD to provide technical assistance to partner organizations that will expand their ability to evaluate programs funded by the Sweetened Beverage Tax.

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886, and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero.

Council

Add Funding for Salary Increases

Expenditures \$69,156

This item adds funding from the General Fund, Seattle City Light and Seattle Public Utility funds to provide a five percent salary increase for the Executive Manager positions and the Strategic Advisor positions in the Office of the City Auditor, to be granted at management's discretion in recognition of 2019 performance.

City Budget Office

Ben Noble, Director

(206) 615-1962

<http://www.seattle.gov/budgetoffice/>

Department Overview

The City Budget Office (CBO) is responsible for developing and monitoring the City's annual budget, carrying out budget-related functions, overseeing fiscal policy and financial planning activities, policy analysis, and preparing legislation for City Council review. CBO provides strategic analysis relating to the use of revenues, debt, long-term issues, and special events. The office also provides technical assistance, training, and support to City departments in performing financial functions. The Innovation and Performance team is also in CBO, supporting and advancing initiatives by using data and design to solve problems.

Budget Overview

The 2020 Adopted Budget increases the City Budget Office's budget by \$531,000, a 7.9% increase. All of the increases are related to Citywide changes, including a labor agreement, state benefit changes and central costs for services such as space and information technology.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

City Budget Office

Incremental Budget Changes

City Budget Office

Total Incremental Changes	\$530,928	-
Total 2020 Adopted Budget	\$7,283,554	36.00

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$139,974

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$384,686

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$6,268

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Office for Civil Rights

Mariko Lockhart, Director

(206) 684-4500

<http://www.seattle.gov/civilrights/>

Department Overview

The Office for Civil Rights (OCR) envisions a city of liberated people where community historically impacted by racism, oppression, and colonization hold power and thrive. OCR's mission is to end structural racism through accountable community relationships and anti-racist organizing, policy development, and civil rights enforcement.

OCR works to achieve equity and advance opportunity in Seattle by:

- developing policies and promoting partnerships to achieve racial equity and social justice;
- enforcing City, state and federal antidiscrimination in housing, employment, public accommodations, and contracting, and civil rights laws such as all-gender restroom ordinance, ban on conversion therapy provided to minors ordinance, fair chance housing ordinance, and closed captioning ordinance using restorative justice methods, investigations, compliance, and settlement negotiations;
- conducting housing and employment testing based on protected classes;
- staffing the Seattle Human Rights Commission, Seattle Women's Commission, Seattle Lesbian, Gay, Bisexual, Transgender, and Queer Commission, and the Seattle Commission for People with disAbilities;
- administering the Title VI program of the 1964 Civil Rights Act, which relates to physical access to governmental facilities, projects, and programs, and Title II complaints alleging discrimination on the basis of disability in the provision of services, activities, programs or benefits by the City;
- offering free civil rights trainings and technical assistance to businesses and community groups on civil rights laws;
- making available a wide array of civil rights information, including translations into other languages.

OCR leads the City's Race and Social Justice Initiative (RSJI). RSJI is committed to eliminating institutional and structural racism through a four-prong approach. 1) build an anti-racist network within City government and shift internal practices and develop decision-making skills that eliminate institutional and structural racism; 2) transform the internal government culture of the City toward one rooted in racial justice, humanistic relationships, belonging and wellbeing; 3) align racial justice efforts with local community organizing and strengthen relationships with communities most impacted by structural racism; and 4) work in relationship with national and regional racial justice leaders from all communities and sectors to advance racial justice.

Office for Civil Rights

Budget Overview

The 2020 Adopted Budget adds staffing capacity to the Office for Civil Rights (OCR) to support the City's Race and Social Justice Initiative (RSJI). The budget adds two positions to OCR: one commission liaison position, and one position focused on RSJI training. Adding the commission liaison position allows OCR to expand RSJI staffing to respond to the growing need across the City for RSJI support.

OCR staffs four commissions: the Commission for People with disAbilities, the Seattle LGBTQ Commission, the Seattle Human Rights Commission, and the Seattle Women's Commission. Prior to 2014, OCR had two commission liaison positions dedicated to providing support to the four commissions. Each liaison supported two commissions, and the staffing was focused on serving as point of contact for the commissions, administrative support, managing the recruitment and appointment process, training and onboarding new commissioners, providing technical assistance, and assisting with event planning. In 2014, there was a re-organization that shifted a vacant commission liaison position to the RSJI Division to expand capacity to address the growing city-wide RSJI needs and the mandates. Since 2015, the RSJI work across the city has continued to expand with OCR playing a critical role in supporting department training and policy needs. OCR has struggled to support the four commissions with only one position. Adding a new position will allow OCR to continue and expand the level of support for the RSJI work and staff the commissions more effectively.

In May 2018, the Mayor issued Executive Order (EO) 2018-04: Anti-Harassment and Anti-Discrimination. Among other things, the EO tasked the Seattle Department of Human Resources (SDHR) director and the OCR director to develop anti-harassment and anti-discrimination training. SDHR was also directed to work with all departments to develop a training plan for employees to include anti-harassment and anti-discrimination training and bias training. The two departments have worked collaboratively to assess the training needs of executive departments and develop a training plan. The demand for trainings far exceeds the capacity that the two departments have for providing trainings. To respond to the EO, and meet department training needs, the 2020 Adopted Budget adds two positions to SDHR and one position to OCR. SDHR is the lead department on the EO and the training plan. The SDHR positions are described in the SDHR section of the budget. The OCR position will add capacity to the department to do RSJI training and partner with SDHR on embedding RSJI in the anti-harassment and anti-discrimination trainings.

The 2020 Adopted Budget maintains \$1 million added by the City Council in the 2020 Endorsed Budget for community-based organizations providing alternatives to or addressing harm created by the criminal legal system. Funds will be dispersed through a participatory grantmaking model led by OCR in which participants use a democratic process and shared analysis to make funding decisions.

Finally, the 2020 Adopted Budget includes funding for wage adjustments related to the agreement between the City and the Coalition of Unions.

City Council Changes to the Proposed Budget

The Council made permanent two temporary positions that were added in the 2019 Second Quarter Supplemental Budget. The positions include a dispute resolution mediator and a planning and development specialist II position. The dispute resolution mediator will continue implementation of a restorative justice approach to resolution of cases regarding the violations of the City's civil rights laws. The planning and development specialist was added to focus on community outreach.

The Council also added funding to support community celebrations for Human Rights Day, Indigenous People's Day, and Martin Luther King Jr. Day. The funding for the Indigenous People's Day celebration includes a proviso that is included in the proviso section below.

The Council added funding for community engagement sessions, outreach, strategic plan development, and implementation efforts related to criminal legal system alignment work. The Council action includes a proviso which

Office for Civil Rights

requires OCR to submit a plan to Council for how the funding will be spent and an ordinance to release the proviso. The proviso language is included in the proviso section below.

Finally, the Council reduced funding for positions added in the 2020 Proposed Budget. The positions are funded for 9 months in 2020 rather than the 12 months assumed in the proposed budget.

 Total 2020 Adopted Budget	 \$7,055,083	 35.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Office for Civil Rights

Expenditures \$330,370

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$3,701

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(11,657)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Move Racial Equity Fund to RSJI

Expenditures -

This is a budget neutral change to move the Racial Equity Fund that assists organizations with building their capacity to address structural racism, from the Leadership and Administration program to the Race and Social Justice program. The Racial Equity Fund is \$60,000.

Move Testing Budget to Enforcement

Expenditures -

This is a budget neutral technical change to move the \$150,000 testing program budget from the Leadership and Administration program to the Civil Rights Enforcement program. The testing program utilizes testers to identify discriminatory practices and bias in access to Seattle's housing market and employment.

Proposed Operating

Increase Commission Support

Expenditures \$125,479

Position Allocation 1.00

This item adds a position to staff both the Commission for People with disAbilities (SCPD), and the Seattle LGBTQ Commission. Prior to 2014, OCR had two positions supporting the commissions. In 2014, a re-organization shifted one of the positions to the RSJI team in recognition of the increasing RSJI body of work across the City. Because the demand for OCR RSJI training, policy and toolkit support has continued to increase, OCR needs to maintain and increase the level of RSJI staffing. The position will provide administrative support on various tasks, staff commission meetings, manage the recruitment and appointment process, onboard new commissioners, deliver coordinate

Office for Civil Rights

commissioner training, assist with coordinating of commissions events, and provide appropriate liaison duties between commissions and City departments, Council staff, and the Mayor's Office.

Increase Race and Social Justice Training Capacity

Expenditures	\$149,413
Position Allocation	1.00

This items adds a Strategic Advisor 1, Exempt position to increase RSJI training capacity to the department. In May 2018 the Mayor issued Executive Order (EO) 2018-04: Anti-Harassment and Anti-Discrimination. Among other things, the EO tasked the Seattle Department of Human Resources (SDHR) director and the OCR director to develop anti-harassment and anti-discrimination training. To respond to the EO, and meet department training needs, the 2020 Proposed budget adds two positions to SDHR and one position to OCR. SDHR is the lead department on the EO and the training plan. The SDHR positions are described in the SDHR section of the budget. The OCR position is focused on adding capacity to the department for RSJI trainings and partnering with SDHR to embed RSJI in the anti-harassment and anti-discrimination trainings.

Council

Add \$15,000 GF to OCR for Human Rights Day

Expenditures	\$15,000
--------------	----------

This Council Budget Action adds \$15,000 GF to the Office for Civil Rights (OCR) to create a stable source of funding for the City's "Human Rights Day" Celebration. In 2012, the City reaffirmed its commitment to promote human rights by proclaiming Seattle a "Human Rights City" and adopting the Universal Declaration of Human Rights through Resolution 31420. A "Human Rights City" consciously aspires to respect, protect, and fulfill universal human rights as spelled out in the Universal Declaration of Human Rights. Along the same lines, the City has been celebrating Human Rights Day since 2000, and the 2020 celebration will be the 21st annual celebration.

Add \$15,000 GF to OCR to fund Indigenous People's Day celebrations and impose a proviso

Expenditures	\$15,000
--------------	----------

This Council Budget Action adds \$15,000 GF to the Office for Civil Rights (OCR) to create a stable source of funding for the City of Seattle's annual Indigenous People's Day celebration, including but not limited to the morning march, the daytime City Hall celebration, and the evening celebration at the Day Break Star Center. The Council Budget Action also imposes a proviso. The proviso language is included in the proviso section below.

Add \$15,000 GF to OCR to fund the City's MLK Jr. Unity Day celebration

Expenditures	\$15,000
--------------	----------

This Council Budget Action would add \$15,000 GF to the Office for Civil Rights (OCR) to provide a stable source of funding for the City's Martin Luther King, Jr. (MLK Jr.) Unity Day celebrations. The City first began programming to celebrate MLK Jr. Unity Day celebrations in 2015, and the City has sponsored a celebration each year since then. The 2020 celebration will be the 6th annual Unity Day.

Add \$252,876 GF to OCR for 2.0 FTEs to address capacity issues

Expenditures	\$252,876
Position Allocation	2.00

This Council Budget Action adds two positions to OCR: 1.0 FTE dispute resolution mediator for a restorative justice approach to resolution of cases regarding violation of the City's civil rights laws and a 1.0 FTE planning and development specialist II position to help with community outreach. These positions were added as two part-time

Office for Civil Rights

temporary positions in the 2019 Second Quarter Supplemental Budget, supported by one-time funding for 2019. This Council Budget Action would convert these two part-time, temporary positions into two permanent, full-time positions.

Cut \$52,404 GF from OCR and delay hiring of new positions by three months

Expenditures \$(52,404)

This Council Budget Action cuts funding from the Office for Civil Rights (OCR) by delaying hiring for the two proposed position additions in the 2020 Proposed Budget by three months rather than supporting full-year costs.

Add \$170,000 for Criminal Legal System Alignment

Expenditures \$170,000

This Council Budget action adds \$30,000 for community engagement sessions and \$140,000 for partnership, outreach, and engagement related to criminal legal system realignment. This budget action includes two provisos which are included in the proviso section below.

Council Provisos

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$30,000 is appropriated solely for community engagement sessions led by the Office for Civil Rights and the Legislative Department and may be spent for no other purpose. These funds are intended to support the Council's criminal legal system alignment work to engage with stakeholders, including persons currently or formerly incarcerated and communities most impacted by the criminal legal system, and staff in relevant City departments, including the City Attorney's Office, Seattle Municipal Court, and the Criminal Justice Equity Team. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$140,000 is appropriated solely for partnership, outreach, and engagement related to criminal legal system alignment, strategic plan development, and implementation efforts, including the work described in Council Budget Action CJ-2-B-2, Council Budget Action CJ-3-A-2, and Statement of Legislative Intent CJ-21-A-2 and may be used for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$50,000 is appropriated solely for grants to community-based organizations responding to hate violence and creating a mechanism for sharing hate crime data reported to these organizations and may be spent for no other purpose."

Appropriations by Budget Summary Level and Program

OCR - BO-CR-X1R00 - Civil Rights

The purpose of the Civil Rights Budget Summary Level is to encourage and promote equal access and opportunity, diverse participation, and social and economic equity in Seattle. OCR works to eliminate discrimination in employment, housing, public accommodations, contracting, and lending in Seattle through enforcement, and policy and outreach activities. In addition, OCR is responsible for directing the Race and Social Justice Initiative, which leads other City departments to design and implement programs that help eliminate institutionalized racism.

Civil Service Commissions

Andrea Scheele, Interim Executive Director

(206) 233-7118

<http://www.seattle.gov/civil-service-commission>
<http://www.seattle.gov/public-safety-civil-service-commission>

Department Overview

The **Civil Service Commissions** is the administrative entity serving both the Civil Service Commission and the Public Safety Civil Service Commission. The Commissions are quasi-judicial bodies charged with providing fair and impartial hearings on disciplinary actions and other employment related issues. Each commission is governed by a separate three-member board, with one member appointed by the Mayor, one appointed by the City Council, and one elected by, and representing, the employees. The term of each commissioner is three years.

The **Civil Service Commission (CSC)** provides fair and impartial hearings of alleged violations of the City's personnel rules. Employees may file appeals with the CSC regarding all final disciplinary actions and alleged violations of the Personnel Ordinance, as well as related rules and policies. The CSC may issue orders to remedy violations and may also make recommendations to the Mayor and the City Council regarding the administration of the personnel system.

In addition, the CSC investigates allegations of political patronage to ensure the City's hiring practices are established and carried out in accordance with the merit principles set forth in the City Charter. The CSC conducts public hearings on personnel related issues and may propose changes to personnel rules, policies, and laws to the Mayor and the City Council.

The purpose of the **Public Safety Civil Service Commission (PSCSC)** is to implement, administer, and direct a civil service system for sworn personnel of the Seattle Police Department and uniformed personnel of the Seattle Fire Department. The PSCSC provides sworn police and uniformed fire employees with a quasi-judicial process for hearings on appeals concerning disciplinary actions, examination and testing, and other related issues.

Civil Service Commissions

Budget Overview

The 2020 Adopted Budget for the Civilian Service Commissions (CIV) makes no significant changes and includes minor Citywide technical changes which are described below.

City Council Changes to the Proposed Budget

The council made no changes to the 2020 Proposed Budget.

Incremental Budget Changes

Civil Service Commissions

	2020 Budget	FTE
Total 2020 Endorsed Budget	491,802	2.00
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	25,186	-
2020 State Paid Family Medical Leave Increase Base Budget	374	-
Citywide Adjustments for Standard Cost Changes	8,735	-
Total Incremental Changes	\$34,295	-
Total 2020 Adopted Budget	\$526,097	2.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$25,186

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$374

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$8,735

Civil Service Commissions

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of the Employee Ombud

Amarah Khan, Director

(206) 256-5982

Department Overview

In 2018, the Mayor issued [Executive Order](#) 2018-04 creating the Office of the Employee Ombud (OEO) following the recommendations issued by the Anti-Harassment Inter-departmental Team (AH IDT) on improving the City's workplace culture. The mission of the OEO is to support City employees in all branches of City government in assessing their concerns regarding workplace conduct that may be considered inappropriate; may constitute harassment, discrimination, or retaliation; and/or is in conflict with the City's Personnel Rules, Citywide workplace expectations, and other City policies.

The OEO provides assistance to City employees through a variety of means, including clarifying the City's processes and systems for reporting and investigations; facilitating discussions to break down miscommunication; providing the contact for represented employees' unions; and understanding what remedies are available through State or Federal agencies. The OEO also support employees with referrals to the City's contracted Employees Assistance Program (EAP) for appropriate emotional assistance.

In addition to individual employee services, the OEO engages with policy improvements that support the City's continuous effort to provide every City employee a safe and respectful workplace where they can do their best work in serving the residents of Seattle. OEO, as part of its systemic change mission, offers trainings and capacity building to city departments so that practices and behaviors that cause conflict among us can be addressed in a proactive manner. Beginning in 2020, the OEO will submit an annual report to the Mayor's Office and City Council that addresses issues extending beyond the experiences of individual employees and have a broader, systemic impact on the City. The report may include recommendations to change the City's Personnel Rules, complaint and investigations systems or trainings, and share information on patterns of inappropriate workplace conduct at the City.

Office of the Employee Ombud

Budget Overview

The 2020 Adopted Budget furthers the Mayor's commitment to the Office of the Employee Ombud and the growth necessary to carry out the office's mission. Since the creation of the OEO in the second quarter of 2019, it has received over 80 requests for assistance. In order to be able to keep up with the need, the adopted budget adds two additional positions: one position will serve as an Assistant Ombud, supporting case management, policy development, communications and training; another position will provide administrative support to the director and office. In addition to the two positions, the adopted budget adds one-time relocation costs and an on-going rent adjustment.

The 2020 Adopted Budget also provides for technical adjustments in the baseline budget reflecting agreements with the Coalition of Unions. The agreements include State Paid Family Medical Leave and an Annual Wage Increase. Another technical adjustment corrects the budget to reflect actual director labor costs.

City Council Changes to the Proposed Budget

As part of the adopted budget process, the Council made a reduction of \$135,250 to the one-time \$500,000 relocation cost, providing OEO with \$364,750 to cover costs associated with an office move.

Total 2020 Adopted Budget	\$1,278,671	5.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$33,770

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$299

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(67,589)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the

Office of the Employee Ombud

Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Labor Cost Adjustment

Expenditures	\$57,108
--------------	----------

The director position was originally budgeted as a Manager 2 but classified as an Executive 2 per the Mayor's Office and Council requests. This adjustment adds funds to the Office of the Employee Ombud's total budget to account for actual labor costs.

Proposed Operating

Increase Case Management Capacity

Expenditures	\$288,023
Position Allocation	2.00

This item provides additional funding to the Office of the Employee Ombud in order to increase case management capacity. This includes funding for two positions:

- 1.0 FTE Strategic Advisor 2, to support policy, communications, and training development and increase case management capacity; and
- 1.0 FTE Management Systems Analyst, to support the overall office with administrative, data, and budgeting needs.

These positions provide much needed capacity to address the high number of inquiries already received in 2019.

Relocation of Office and Lease Cost Increase

Expenditures	\$541,000
--------------	-----------

The Council reduced this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This item provides the Office of Employee Ombud with funds to be able to relocate to a larger office space to support their growing staff and operational needs. The increase includes one-time funding for move costs, tenant improvements, and ongoing incremental cost for lease difference.

Council

Reduction in One-Time Relocation Costs

Expenditures	\$(135,250)
--------------	-------------

This item reduces one-time relocation funds for the Office of the Employee Ombud by \$135,250 in 2020. This reduction provides OEO with \$364,750 to cover relocation costs.

Employees' Retirement System

Jeff Davis, Executive Director

(206) 386-1293

<http://www.seattle.gov/retirement/>

Department Overview

The Seattle City Employees' Retirement System has two major functions: administration of retirement benefits and management of the assets of the Retirement Fund. Employee and employer contributions, as well as investment earnings, provide funding for the system. Approximately 9,150 active employee members, 2,350 terminated employee members and 6,400 retired employee members participate in the plan.

The provisions of the plan are set forth in [Chapter 4.36](#) of the Seattle Municipal Code. The plan is a "defined benefit plan" which means an employee's salary, years of service, and age at the time of retirement are used to determine the amount of retirement benefits. At retirement, members are given a choice of several payment options to collect their retirement benefit. The Retirement System is led by a seven-member Board of Administration and an Executive Director appointed by the Board.

Please note that the appropriations detailed in the following tables reflect only the costs to administer the system and do not reflect payment of retiree benefits.

Budget Overview

The Seattle City Employees' Retirement System (SCERS) relies on the long-term health of its assets to sustain its long-term financial obligations to SCERS members. The long-term health of SCERS is measured by the annual January 1 funding status, a percentage that represents the value of the asset portfolio over the reserves needed to pay retirement benefits to employees.

As of January 1, 2019, SCERS net assets are valued at \$2.88 billion with a 68.2% funded status. This is a decrease from 69.9% in 2018, but still higher than the low of 62% in 2010. Prior to 2018, SCERS funding status had increased steadily since 2010 due to changes SCERS has made to positively impact the funding status over the long-term. The 2018 decrease was due to adopted changes in assumptions related to long-term investment returns and lower than

Employees' Retirement System

expected investment returns in 2018.

Annual Contributions: The plan's actuaries determine an "annual required contribution" (ARC) into SCERS so its assets grow in tandem with pension costs, which rise as new employees join SCERS, wages increase, and retirees live longer. In response to the drop in the value of its invested assets and its funded status coming out of the 2008-09 recession, SCERS and the City enhanced the plan in 2013 by revising its ARC calculation so SCERS will be fully funded after a fixed 30-year period beginning January 1, 2013 and ending January 1, 2043. In addition to the employee and employer annual required contributions, the City pays an additional fluctuating amount to achieve the fully funded status by 2043. These amounts are reflected in departmental budgets throughout the 2020 Adopted Budget.

Investment Return Assumption: In January 2014, SCERS decreased its long-term investment return assumption from 7.75% to 7.50% in anticipation of slower asset growth over the next 30 years. Effective January 2020, SCERS will decrease this assumption further to 7.25%. This assumption raises the ARC so the plan relies more on employee and employer contributions that are based on salaries, which are less volatile than the investment returns affected by portfolio experience and the economy.

Asset Smoothing: SCERS implemented an asset smoothing policy in 2011 to protect the funded status from volatile year-to-year swings by recognizing annual investment return gains and losses evenly over five years. This policy results in gradual changes in the ARC so the City's contribution is more stable.

Pension Plan for New Employees Hired On or After January 1, 2017: The City began evaluating plan changes in 2012 to reduce the cost of the plan for employees and the City, thereby enhancing SCERS' fiscal stability over the long run, while still maintaining an adequate retirement benefit for employees. In 2016, the City and labor unions agreed, and Council approved, a new defined benefit plan (SCERS II) for new employees hired on or after January 1, 2017. SCERS II has a similar structure to the existing plan (SCERS I).

Under SCERS II, there is an estimated 3.8% combined savings for annual employer and employee contributions. Members of the new plan will contribute 7% of their salary toward their retirement benefit, compared to 10.03% under SCERS I. Given the lower contributions into the plan, the new SCERS II plan will provide a retirement benefit lower than the SCERS I plan, but consistent with the design of the current SCERS I plan. The SCERS II benefit will still provide City retirees with an adequate retirement income when combined with Social Security.

The 2020 Adopted Budget includes appropriation increases of \$235,272 for centrally adjusted administrative and labor costs but is otherwise unchanged from the 2019 Adopted and 2020 Endorsed Budget.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Ethics and Elections Commission

Wayne Barnett, Executive Director

(206) 684-8500

<http://www.seattle.gov/ethics/>

Department Overview

The Seattle Ethics and Elections Commission (SEEC) helps foster public confidence in the integrity of Seattle city government by providing education, training, and enforcement of the City's Ethics Code, Whistleblower Code, and lobbying regulations. It also promotes informed elections through education, training, and enforcement of the City's Elections Code and Election Pamphlet Code. With the passage of [Initiative 122](#) in November 2015, the Commission now administers and funds the Democracy Voucher Program.

The Commission's work on behalf of the City of Seattle centers around five main lines of business:

Ethics Code: The Commission conducts ethics training for all City of Seattle employees upon request and through the City's New Employee and New Supervisor Orientation programs. It also provides ethics training information for City employees via the City's intranet site. The Commission issues advisory opinions regarding interpretations of the Code of Ethics and also investigates and rules upon alleged violations of the Code. More than thirty years of formal advisory opinions, organized and searchable by topic, are available on the Commission's website.

Whistleblower Code: The Commission helps to protect an employee's right to report improper governmental action and to be free from retaliation as a result of such reporting. The Commission either investigates allegations of improper governmental actions itself or refers allegations to the appropriate agency.

Elections Code and Election Pamphlets Code: The Commission fulfills the public's mandate of full campaign disclosure by:

- training organizations required to report campaign contributions and expenditures in proper reporting procedures;
- auditing campaign reports;
- working with organizations to correct errors; and
- making all campaign finance information available to the public.

Since 1993, the Commission has made summary reports of campaign financing information available to the public, and since 1995, the Commission has published campaign financing information on its website. The Commission also produces voters' pamphlets for City elections and ballot measures. It makes these pamphlets available in several languages and produces a video voters' guide with King County.

Lobbying Regulations: The Commission is charged with administering the City's lobbying regulations. The Commission collects and posts information so that residents know who is lobbying and how much they are being paid to lobby. The Commission also enforces compliance with the lobbying regulations.

Democracy Voucher Program: The Commission administers the Democracy Voucher Program which was approved with the passage of I-122 in November 2015. The primary goal of the program is to provide \$100 in vouchers to eligible Seattle residents so that they can contribute to candidates for City office who qualify to participate in the program.

Budget Overview

The 2020 Adopted Budget for the Seattle Ethics and Elections Commission (SEEC) maintains investments at current service levels. The only significant change in the SEEC budget is the net-zero conversion of temporary staff to permanent status in the Democracy Voucher program. Having nearly completed two full election cycles, it's become clear that the bodies of work related to public relations (one full-time position) and program administration (one part-time position) are ongoing.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Ethics and Elections Commission

Incremental Budget Changes

Ethics and Elections Commission

	2020 Budget	FTE
Total 2020 Endorsed Budget	1,738,855	5.90
Conversion of Temporary Positions to Permanent Status	-	1.50
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	70,855	-
2020 State Paid Family Medical Leave Increase Base Budget	1,047	-
Citywide Adjustments for Standard Cost Changes	26,136	-
Total Incremental Changes	\$98,038	1.50
Total 2020 Adopted Budget	\$1,836,893	7.40

Description of Incremental Budget Changes

Conversion of Temporary Positions to Permanent Status

Expenditures	-
Position Allocation	1.50

The Democracy Voucher program initially utilized temporary labor during the program's implementation as the staffing needs were unclear. Having almost completed two election cycles, and with the three-year limit on term-limited temporary labor approaching, the program will convert two staff members to permanent status.

A full-time, temporary Public Relations Specialist, Senior will be converted to permanent status. This position addresses the ongoing need to promote awareness of the Democracy Voucher program, develop strategic partnerships with organizations working with underserved communities, and ensure that key program communications are culturally relevant and widely available in multiple languages.

Secondly, the program's half-time Administrative Specialist III position will be made permanent. This body of work, which includes handling program inquiries as well tracking, replacing and processing vouchers, is ongoing.

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures	\$70,855
--------------	----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the tentative agreement between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

Ethics and Elections Commission

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$1,047

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the tentative agreement with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$26,136

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Department of Finance and Administrative Services

Calvin W. Goings, Director

(206) 386-0041

<http://www.seattle.gov/fas>

Department Overview

The Department of Finance and Administrative Services (FAS), with approximately 600 employees represented by 16 different unions, has the most diverse set of responsibilities of any City department. In addition to the services FAS provides directly to its external customers, FAS also provides behind-the-scenes services to all City departments, which supports their work on the public's behalf. Broadly, FAS's work and operations can be broken into four categories.

Customer Service

FAS is often the first stop for the public to interact with City government. This contact may come through the City's Customer Service Bureau, the Downtown Customer Service Center, the six customer service centers located throughout the city, or the Mobile Customer Service Center which launched in late 2016. Over the phone, online and in person, customers can get information, request services, pay bills, resolve problems and voice opinions. FAS supports the City's compliance with the Washington State Public Records Act by providing Citywide coordination and guidance on public disclosure and by helping customers clarify requests so they receive the information they are seeking from FAS or from other departments. These functions support transparency in City work. In addition, FAS oversees the City's efforts to comply with Title II of the Americans with Disabilities Act. Finally, through the Seattle Animal Shelter, FAS advocates for animal welfare, reunites lost animals with their owners and finds suitable owners to adopt homeless animals.

Regulation and Oversight

FAS ensures that all businesses operating in Seattle are properly licensed and pay the required business and occupation taxes. FAS issues regulatory licenses for certain business types - including taxis, transportation network companies and for-hire vehicles, adult entertainment venues, door-to-door salespeople, short-term rentals, recreational marijuana establishments and trade shows - and enforces requirements related to those licenses. FAS also monitors certain types of businesses to increase consumer safety and ensure proper charges for services. This includes setting rate caps for tows on private property, as well as ensuring that consumers are not overcharged due to an inaccurate device, such as a gas pump or a supermarket scanner or scale. As the central coordinator for City contracting, FAS establishes policies and procedures to ensure fair competition for City-funded construction projects and oversees programs to ensure everyone in the community has equal access to jobs and opportunities involving those projects. As part of these efforts, FAS administers the City's Priority Hire program to increase employment within the construction trades among women, people of color and those living in economically distressed ZIP codes. FAS also enforces animal-related ordinances, including the investigation of animal cruelty, neglect and abuse.

Financial Services

FAS's City Finance Division (CFD) prioritizes sustained fiscal health for the City in balance with the goals set forth by the Mayor and the City Council. CFD accomplishes this by providing Citywide financial direction and cohesive policies to City departments. In addition, CFD manages the City's bond issuance and internal loan programs, administers City-levied taxes, oversees the City's retirement boards, invests City funds and issues reports on City financial activity. CFD ensures that City revenues are collected and that vendors and City employees are paid properly in a timely manner. As a partner with the City's Law Department, CFD administers the payment of claims and judgments for damages against the City. CFD also oversees City financial systems and partners with the Seattle Department of Human Resources to oversee the City's human resources system.

Department of Finance and Administrative Services

Operational Services

FAS designs, builds and maintains most City-owned buildings, including Seattle City Hall, the Seattle Municipal Tower, the Justice Center, the Joint Training Facility, 33 neighborhood fire stations and five police stations. When departments need to acquire property or when the City no longer has a purpose for a property, FAS is responsible for managing the acquisition or disposition of the property. FAS also maintains the City's vehicle fleet, which includes police patrol cars, fire engines and heavy equipment. FAS also negotiates purchasing contracts on behalf of all City departments and establishes purchasing guidelines for departments.

FAS's budget is split into the following eight functional areas:

- Capital Development and Construction Management (CDCM), which plans, designs and constructs accessible City facilities and spaces that are fiscally responsible, operationally sound and environmentally sustainable. CDCM's services include master use and facilities planning, new facility design and construction, building infrastructure, office buildout and renovations, Americans with Disabilities Act (ADA) compliance and space planning.
- Purchasing and Contracting, which manages rules, bids and contracts for products, supplies, equipment and services; maintains guidelines and procedures for consultant contracting; and administers public works contracting to ensure that all City departments adhere to the City's policy goals related to social equity and environmental stewardship.
- Facility Operations, which manages more than 105 public buildings and facilities covering 3 million square feet, including office space, parking garages, police and fire stations, community facilities and maintenance shops; procures leased space for City tenants when needed; plans and acquires new and expanded City facilities; and disposes of surplus City property.
- City Finance, which receives City revenue and provides Citywide financial services such as debt management, treasury, City investments, Citywide accounting, business licensing and tax administration, and risk management which includes claims settlements. City Finance also provides financial oversight of the Central Waterfront Improvement Fund, which funds the approximately \$700 million Waterfront Seattle project.
- Fleet Management, which buys and provides maintenance, motor pool and fueling services for more than 4,000 vehicles and heavy equipment while supporting environmentally sustainable fleet goals and practices as they relate to City climate goals.
- Regulatory Compliance and Consumer Protection, which provides a variety of regulatory services such as overseeing Seattle's taxicab, transportation network company and for-hire vehicle industry, and consumer protection services, such as the Weights and Measures program.
- Seattle Animal Shelter, which promotes public safety and animal welfare, enforces Seattle's laws regarding animals, runs animal sheltering and adoption programs, and manages a spay and neuter clinic, caring for about 5,500 animals per year including dogs, cats, chickens and goats.
- Office of Constituent Services, which provides the customer service interface for the City's constituents through the Customer Service Bureau and at eight customer service centers, responding to more than 210,000 constituent contacts each year in addition to overseeing ADA Title II and Washington state Public Records Act compliance.

Internal service operations in FAS are primarily supported through charges to City departments and, in some cases such as when the City leases space, by private businesses or individuals. FAS also collects certain fees specifically to pay for its services, such as the Seattle Animal Shelter Spay and Neuter Clinic, pet licensing, the Weights and Measures program and for-hire driver licenses. The General Fund supports certain FAS services, including administration of the City's taxes and business licensing services.

Organizational Structure

In addition to the central FAS services mentioned above there are several budgetary units across the City for which FAS is not directly responsible for staffing or service provision but are housed within the FAS organizational

Department of Finance and Administrative Services

structure. For these areas FAS works with City Budget Office to facilitate resource requests and financial plans when required. Those units are:

- Judgment and Claims, which provides for the payment of legal claims and suits brought against the City government.
- Jail Services, which provides for the booking, housing, transporting and guarding of City inmates who are adults charged with or convicted of misdemeanor crimes alleged to have been committed within city limits.
- Indigent Defense Services, which secures legal defense services, as required by state law, for indigent people facing criminal charges in Seattle Municipal Court.
- Transit Benefits, which pays for the transit benefits offered to City employees.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

As an internal services department, the Department of Finance and Administrative Services (FAS) supports all City departments through its fleets, facilities, customer service, finance, contracting and purchasing functions. FAS bills many of its functions to other City departments through central rates and allocations. FAS also performs general government functions, like business licensing and tax collection, consumer protection, parking meter collections, and operation of the Seattle Animal Shelter, which are funded directly in the General Fund.

The 2020 Adopted Budget includes operating increases to support the Citywide environmental sustainability goals through additional funding for the Green Fleet Action Plan and administrative support for a new Heating Oil Tax. The budget also increases support for existing work including the recreational vehicle (RV) remediation pilot and the administration of the Waterfront Local Improvement (LID). It also provides resources and positions for the ongoing management of the City's Animal Shelter, financial and Human Resources software systems and the implementation of Statewide Initiative 1000 (I-1000). These additions include work funded through existing City resources and the conversion of temporary staff to ongoing positions, recognition of the ongoing nature of this work.

Department of Finance and Administrative Services

In addition, there are technical changes that increase appropriations in FAS, including supporting real estate leases for departments with functions outside of City owned buildings. These technical changes are funded through appropriations in other City departments.

Delivering on the City's Climate and Environmental Goals

In April 2018, Mayor Durkan issued Executive Order 2018-02, directing City departments to accelerate a transition to a clean and green City fleet and committing the City to a goal of achieving a fossil-fuel-free fleet by 2030. As part of this goal, the executive order directed FAS to update the City's Green Fleet Action Plan (GFAP) setting out how this goal will be met. The updated GFAP commits the City to an electric fleet for all vehicle purchases where a market ready option exists. Additionally, the City was among the first in the nation to order hybrid police patrol vehicles and will continue converting existing gas patrol vehicles to hybrid vehicles. Larger, diesel-powered vehicles such as fire engines and heavy machinery do not have suitable electric or hybrid options. The City will switch to renewable diesel fuel which burns 50% cleaner than regular diesel fuel.

Accordingly, the 2020 Adopted Budget includes funding across City departments to upgrade to electric vehicles and to start purchasing renewable diesel fuel. This new funding is in addition to the existing resources in the Endorsed 2020 budget for electric vehicle charging stations and is partially offset by savings from lower fuel usage.

In addition to Fleet electrification, in 2020 the Office of Sustainability and the Environment (OSE) will increase efforts to help Seattle households convert their energy supply away from inefficient and environmentally harmful oil heat through a new tax on oil heating suppliers. FAS will support the implementation and collection of this tax through the Business Licensing and Tax Administration Division. Please see the OSE budget pages for details on this program.

Administering the Transportation Network Company (TNC) Tax

The 2020 Adopted budget is accompanied by legislation launching a new tax on TNC rides in the City of Seattle. As FAS is responsible for implementing, administering, and enforcing taxes within the City, funding has been added to the department to help with the rule making, background set up and ongoing administration of the tax. Revenue from the tax will be used for housing, transportation and driver support and will be appropriated separately into Office of Housing, Seattle Department of Transportation, Office of Labor Standards and Finance General.

Supporting the Central Waterfront Redevelopment Project

In 2012, City Council adopted Resolution 31399 endorsing an integrated funding plan for the Central Waterfront, including the formation of a Local Improvement District (LID) funded by property assessments. In January 2019, Council passed Ordinance 125762 to form the Waterfront LID. FAS provides support to The Office of the Waterfront in managing the administration of the overall project, including the LID. The final assessment amounts will be confirmed by Council in 2020 and will include assessments of City owned buildings. Therefore, the Adopted 2020 Budget adds resources for these assessments and the administration of the LID itself.

Removing Unsafe RVs from City Right-of-Way

Through the Regulatory Compliance and Consumer Protection (RCCP) division, FAS manages the City's contract with Lincoln Towing for removal of vehicles from City right-of-way. In recent years, this program has included an increasing number of RVs that are inoperable and pose a public health hazard. Impounded RVs that are not collected by owners and are found to be a significant health hazard can be disposed of. Both the increase in the number of RVs being towed and an increase in the size of the City's program mean there will likely be more RVs disposed of in 2020 than in previous years, thus requiring additional resources.

Managing the City's Financial System

The 2018 implementation of PeopleSoft 9.2 has given the City enhanced capabilities in effective and transparent financial management. As the lead department delivering on the effectiveness of the new financial system, FAS has additional needs in both accounting and systemwide management. The additional resources included in the 2020 Adopted Budget will provide increased benefits for the City's audited and public facing financial reports, as well as

Department of Finance and Administrative Services

improving the consistency and accuracy of internal reporting for departments. The 2020 Adopted Budget also provides a sunset position to support to support scoping efforts and implementation of the Human Capital Management Project to replace Human Resources Information System (HRIS).

Implementing Statewide I-1000

Initiative 1000 (I-1000) provides public agencies with the authority to establish and implement affirmative action programs to address the impacts Initiative 200 had on public education, employment opportunities and public contracting programs. Under I-1000, agencies now may establish affirmative action programs that allow setting and achieving goals for protected groups in terms of race, sex color, ethnicity or national origin. The purpose is to increase diversity within defined areas, such as contracting and employment, provided no quotas or set asides are used and there are other selection criteria used besides protected class status.

The City is committed to equity and inclusion within its contracting program, employee hiring and recruitment, and education opportunities for Seattle residents. The Adopted 2020 budget allocates resources to implement this initiative and to continue promoting and advancing our equity and inclusion objectives. This work includes a review of how the City's current policies and aspirational goals fit into initiative requirements, a Citywide disparity study, and development and implementation of any policy or procedural changes necessary to be in compliance with this initiative.

Maintaining Critical Infrastructure

Investing in ongoing maintenance of City facilities is essential to ensure a smooth and safe working environment for employees and visitors. In 2020, FAS will continue work on two large capital projects in the Seattle Municipal Tower (SMT): the heating and air-conditioning system replacement, which began in 2018 and the elevator replacement project. The elevator replacement project will reach 100% design with funding to start in 2021. As the 2020-2025 Capital Improvement Program has been redesigned to reflect risk and uncertainty into project estimates, construction funding for this project will be refined and appropriated as part of next year's budget process.

FAS is also responsible for all of the City's public safety facilities and there are a number of existing capital projects for improvements and maintenance work across these buildings. For example, the funding in this budget adds resources to the Fire Station 31 capital project to address the future needs for fire service in North Seattle.

Space and Lease Needs for City Departments

In 2019, FAS created the Real Estate Services Division, which had previously been incorporated into the Facilities Services Division. This was created within existing budgets and positions. The creation of a new FAS division to specialize in real estate services reflects Mayor Durkan's interest in closer coordination and delivery of interdepartmental real estate strategy and related services. Along with other items managed by this division, the Adopted 2020 Budget includes technical adjustments to provide appropriations for external leases for Seattle Public Utilities and the Seattle Information Technology Department. Both leases were passed via Council action in 2019.

City Council Changes to the Proposed Budget

The Council made three changes to the 2020 Proposed Budget, reducing funding in two proposals and increasing capital funding to another. These changes were made due to additional information being available during the Council budget process that had not been known at the time the budget was originally proposed.

The first change is a reduction in the appropriation to pay for the Waterfront Local Improvement District (LID) assessment that will be owed on City buildings. The original estimate was \$2.1 million was needed for these assessments, but once the final numbers were known this was reduced by \$312,000, allowing that funding to be reallocated. Secondly, the City's Director of Citywide Mobility position was originally included in the FAS budget for 2020, but was subsequently updated to end in December 2019 and the funding was re-directed to other purposes.

Department of Finance and Administrative Services

Council also changed the description and scope of the Fire Station 31 Improvement project, as well as adding \$500k of Real Estate Excise Tax (REET) to the project. These changes provide the funding to support the creation of an interim Fire Station 31 as the City searches for a new permanent site for the station.

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$599,954

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including Information Technology rates, Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across City departments. While the internal service rates are final for 2020, the adjustments reflect initial assumptions about these costs and inflators early in the budget process.

FAS Baseline & Technical Adjustments

Expenditures \$290,230

Position Allocation 3.00

In 2019, FAS reallocated existing staff to areas that have seen increased workload with the implementation of the PeopleSoft 9.2 system, particularly in the areas of enhanced procedure to pay (EP2P). The position movements were budget neutral. Baseline changes also provide net three position pockets to manage the City's ADA Title II compliance program and tax related rule making and outreach. As FAS provides technical and accounting support to small departments additional resources were provided to the department following the creation of the Office of the Employee Ombud (OEO).

Q2 2019 Labor Changes 2020 Entry

Position Allocation 5.00

In 2019, FAS added five position pockets in the second quarter supplemental ordinance. These resources addressed increased workload, providing accounting and budget support to small departments and executive offices, and to support the implementation of PeopleSoft 9.2 in the areas of purchasing, contracting, accounting and budget services.

Proposed Operating

Green Fleet Action Plan Initiatives

Expenditures \$2,223,000

This item adds an additional budget of \$2.2 million to the FAS Fleet Capital Program to implement Mayor Durkan's Executive Order 2018-02: to reduce the City's fleet's greenhouse gas emissions by 50% by 2025 and be fossil fuel free by 2030. The corresponding increases to departmental budgets for these vehicle upgrades are \$1.8 million. An

Department of Finance and Administrative Services

anticipated savings of \$407,000 from reduction in fuel costs are based on anticipated lower fuel usage and would fund the remaining needs.

FAS Resource Needs for the Transportation Network Company (TNC) Tax

Expenditures \$1,546,000

On September 19, 2019, Mayor Jenny A. Durkan announced a proposed tax on rides with Transportation Network Companies (TNCs) that begin or end in the City of Seattle. Proceeds from the tax, scheduled to go into effect on July 1, 2020, will be used to fund a variety of investments in affordable housing, transportation including transit, and a series of measures designed to support TNC drivers. This item appropriates \$1,546,000 to FAS to implement the tax. The revenue supporting this add is recognized in Finance General.

Citywide Resource Needs for Waterfront Redevelopment LID assessment

Expenditures \$2,100,000

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

In January 2019, the City Council passed an ordinance forming the Waterfront Local Improvement District (LID). There are a number of City-owned buildings within the designated LID area that are required to pay the assessment. This item adds a one-time appropriation of \$2.1 million to FAS to fund the assessments on those buildings. This expenditure has been anticipated since the LID was proposed in 2012 and funding for these assessments has been held in reserve in the REET fund.

Waterfront Redevelopment LID Administration

Expenditures \$881,043

This item adds additional funding of \$881,043 for administrative expenses associated with the implementation of the Central Waterfront Local Improvement District (LID) in 2020. The 2020 LID budget is funded by the existing Central Waterfront Interfund loan prior to collection of LID assessments. This item will be funded with revenues from the LID assessments.

Resource Needs for RV Disposal

Expenditures \$165,154

FAS is responsible for managing the City's contract for vehicle impound management services. This includes the impound and, if appropriate, the disposal of recreational vehicles (RVs) that pose a safety or health hazard. Due to an increase in both the volume and cost of RV disposal, additional funding is required in 2020 to maintain the program at 2019 levels. This increase will fund the disposal of RVs found at the locations currently covered by the City's RV remediation pilot and does not fund the expansion of the work. This is covered in a separate budget item.

Expansion of the RV Remediation Program

Expenditures \$200,000

In addition to funding the existing RV disposal costs in FAS, this budget add provides funding of \$200,000 for the expansion of the impounded RV disposal program. This funding would provide additional funds for the expansion to additional sites that are not currently covered by the City's existing RV remediation program.

Administrative Needs for OSE Heating Oil Tax

Expenditures \$605,000

Department of Finance and Administrative Services

As part of the City's ongoing work on climate change, the Office of Sustainability and the Environment (OSE) has created a new heating oil tax as an effective way to help Seattle households convert away from ineffective and environmentally damaging heating oil. As with all Seattle taxes, the City Finance division in FAS will provide support for the implementation and administration of this tax. This item provides both one-time and ongoing resources for this program.

Resource Needs Post PeopleSoft (PS) 9.2 Implementation for Citywide Accounting Support

Expenditures	\$307,353
Position Allocation	3.00

As the lead department in delivering on the effectiveness of PS 9.2, FAS has additional needs in both accounting and systemwide management. This item adds 3.0 FTE positions (two Principal Accountants and one Business Analyst) with new funding for two of the three positions within the City Finance Division. These positions will allow FAS to continue to manage both the core financial components of the system, but also coordinate business process improvements across the City.

Judgment and Claims Trend Adjustment

Expenditures	\$5,000,000
Revenues	\$5,000,000

Starting in 2016, the Judgment and Claims (JC) fund expenditures have been showing a higher trend in the settlements and judgments in tort cases and an increase in the use of outside counsel. This trend continues through 2019 and is expected to remain high through 2020. In 2018, Resolution 31847 revised the JC policies and increased the budget appropriation based on actuarial reports. The goal is to achieve beginning a 50% confidence level of meeting actual expenditures in 2019, a 60% confidence level in 2020 and increases of 10% each year that achieve 90% confidence by 2023. This approach is expected to work long-term once the short-term higher trend levels out. An appropriation of \$5 million will meet the expenditure demands of this trend.

Permit System Integration Support

Expenditures	\$214,174
--------------	-----------

This item adds expenditure authority to FAS to cover its portion of new staffing added in Seattle Information Technology Department (Seattle IT) for the Permitting System Integration (PSI) project. See the Seattle IT budget book pages for more details on this program.

Initiative 1000 Implementation

Expenditures	\$179,227
Position Allocation	1.00

In April 2019, the Washington State Legislature passed Initiative 1000 (I-1000) which gives public agencies the authority to establish and implement affirmative action programs to address inequities in public education, employment and contracting based on proven disparate treatment of certain protected classes. This funding adds 1.0 FTE Strategic Advisor II to coordinate the City's implementation of I-1000.

FAS Resource Needs for Human Capital Management (HCM) Project

Expenditures	\$161,091
Position Allocation	1.00

This item funds a Strategic Advisor 2 position (set to sunset the end of 2023) to support scoping efforts and implementation of the Human Capital Management Project to replace Human Resources Information System (HRIS).

Department of Finance and Administrative Services

The Seattle Department of Human Resources (SDHR) is the lead department on this project, although FAS leads on the integration with the PeopleSoft 9.2 system. SDHR will reimburse FAS for this additional cost.

A Permanent Pocket for Animal Shelter Veterinarian

Expenditures	-
Position Allocation	1.00

This item converts a temporary veterinarian position into a full-time permanent Veterinarian position. In 2017, the City Council approved a pilot program to provide additional in-house animal care, which was completed using a temporary position. This program has been successful in reducing wait times for animals requiring care, reducing transportation costs, and increasing vaccination rates and other care for animals at the shelter. The ongoing position allows Seattle Animal Shelter to continue providing this level of service within the existing budget.

Transfer FAS public disclosure office position to Mayor's Office

Position Allocation	(1.00)
---------------------	--------

Between 2015 and 2018, the number of public records requests (PDR) received by the Mayor's Office has more than doubled from 99 in 2015 to 223 in 2018. This budget transfers an existing 1.0 FTE Strategic Advisor 2 Exempt position, currently supporting Mayor's Office PDR requests, from the Department of Finance and Administration to the Mayor's Office. This transfer, as well as an additional PDR position increase in the Mayor's Office, will better align PDR staff with department work.

Proposed Capital

Fire Station 31 Improvements

Expenditures	\$1,500,000
--------------	-------------

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This item adds \$1.5 million of Real Estate Excise Tax (REET) to the existing Fire Station 31 Capital Improvements project. This project was initially to fund the bunker gear storage room in the basement of the building. During the design and bidding phase for this project additional needs at the station were identified. This additional funding provides resources to ensure the long-term functioning of Fire Station 31. An assessment of the final project scope is underway but it is clear that significant additional funding will be needed.

Seattle Municipal Tower Elevator Rehabilitation

Expenditures	\$(3,000,000)
--------------	---------------

The 2018-2023 CIP provided preliminary estimates for the SMT elevator replacement project prior to pre-design. After completion of pre-design the cost and timing estimates have been updated. The revised schedule funds design at \$1 million in 2020, with estimated overall project costs between \$28 million to \$32 million needed in 2020-2023.

2020 Departmental Space Planning

Expenditures	\$1,450,000
--------------	-------------

This item adds Real Estate Excise Tax (REET) and Street Vacation Fee funding in 2020 to fund space renovations in the Seattle Municipal Tower (SMT) with the goal of helping departments move back into, or stay, in City owned buildings. This funding will be used to renovate space with potential projects including relocating the Office of Labor Standards (OLS) from their current leased space and expanding the current Community Police Commission (CPC)

Department of Finance and Administrative Services

space in SMT. Locating departments inside City owned space is more efficient as FAS manages and operates the buildings, and departmental rents are lower.

Municipal Energy Efficiency Program

Expenditures \$(1,407,554)

This change transfers the Municipal Energy Efficiency Program (MEEP) funding to Seattle Center and Seattle Parks and Recreation for 2020. Previously, this funding was budgeted centrally in the FAS capital budget. The MEEP program is managed by the Office of Sustainability and Environment in support of the City's goal to reduce building energy use.

Proposed Technical

Departmental Space Lease Increases

Expenditures \$489,000

This item increases FAS appropriation by \$489,000 to pay the costs for an external space lease for Seattle Public Utilities (SPU) and Seattle Information Technology Department (ITD). The funding for this change is from each of these departments and this technical adjustment gives FAS the appropriation authority to pay the external leases.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$5,446,260

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$83,345

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Cost of Issuance and Debt Service BCL Adjustments

Expenditures \$(145,433)

This item adjusts the General Bond Interest Redemption Fund (BIRF) to reflect the actual debt service payments out of the BIRF for 2020. These changes are primarily driven by the Build America Bonds tax credit. This change request also trues up the cost of issuance out of the 2020 bond funds (Tax Exempt and Taxable) to reflect the updated issuance amounts. Refer to the individual department budget pages for more information on projects using debt financing.

Technical Adjustment to FAS CIP Appropriation

Expenditures \$(500,000)

This item is a technical correction to the FAS Information Technology System Initiatives to align the 2020 appropriations with the 2020 - 2025 Capital Improvement Plan. There are no changes to the planned capital project, but this change updates the 2020 Adopted Budget to align with changes made during the 2019-2020 budget development process.

Department of Finance and Administrative Services

Council

Reduction in Waterfront LID payments for City owned properties

Expenditures -

The Council Budget Action reduces the appropriation in the Department of Finance and Administrative Services (FAS) by \$312,159 for payment of assessments on City-owned property for the Waterfront Local Improvement District (LID). The Mayor's proposed budget appropriated \$2,100,000 to pay Waterfront LID assessments for City-owned property. This assumed the original \$200,000,000 LID amount, which has since been reduced to \$160,000,000, and that the City would pay the assessment on two properties subsequently no longer owned by the City, the Seattle IT Communication Shop and the Civic Square Block.

Since the Mayor proposed her budget, FAS filed the final property assessment roll for the LID with the City Clerk. The final assessment roll, which reflects the transfer of the two City-owned properties and the revised LID amount, establishes a total assessment for City-owned properties of \$1,790,012. The excess appropriation in the proposed budget is \$312,159.

Remove Funding for the Director of Citywide Mobility

Expenditures	\$(250,000)
Revenues	\$(250,000)

The Council removed funding for the Director of Citywide Mobility beginning in 2020. By the end of 2019, the operational planning and preparation work conducted by this position will be completed and funding for the position will no longer be needed. The Mayor created this position as term-limited temporary, and the 2020 Proposed Budget originally included funding for this position to continue through 2020.

Amend project page and add funding for Fire Station 31 Improvements (MC-FA-FS31MP)

Expenditures	\$500,000
--------------	-----------

This Council Budget Action adds \$500,000 REET I to the Department of Finance and Administrative Services (FAS) FAS Fire Station 31 Improvements CIP Project (MC-FA-FS31MP) in 2020 and renames that CIP Project to "Fire Station 31 Temporary Station" for creation of an interim fire station and siting of a permanent station as shown on Attachment A. The amended CIP Project provides funding to site and erect a temporary station using tents and trailers, and funding for site selection for a permanent replacement to the existing Fire Station 31. The current CIP Project includes \$1.5 million for these activities in 2020; with this Council Budget Action, a total of \$2 million will be available to relocate the Fire Station.

Finance General

Ben Noble, Director

(206) 615-1962

<http://www.seattle.gov/financedepartment/>

Department Overview

Finance General is controlled by the City Budget Office and provides a mechanism for allocating General Fund and other central resources to reserve and bond redemption funds, City departments, and certain programs where the City Council, Mayor, or City Budget Office needs additional oversight.

Budget Snapshot

	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Department Support				
General Fund Support	240,411,634	200,978,410	205,064,889	256,309,722
Other Funding - Operating	6,446,463	6,157,174	4,631,074	11,929,493
Total Operations	246,858,097	207,135,584	209,695,963	268,239,215
Total Appropriations	246,858,097	207,135,584	209,695,963	268,239,215

Budget Overview

Finance General serves as a central repository for ongoing City costs, General Fund contributions to the operations of City departments, and contributions to outside organizations. It also provides a mechanism to hold appropriations temporarily until the City determines the appropriate managing department; to act as a contingency reserve to respond to unpredictable situations; and, to cover costs that vary with economic conditions.

In the 2020 Adopted Budget, Finance General is the mechanism to transfer General Fund resources to the below departments:

- Office of Arts and Culture;
- Seattle Public Library;
- Office of Labor Standards;
- Police Pension;
- Fire Pension;
- Finance and Administrative Services;
- Information Technology;

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$4,197,739

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor. For Finance General, this amount reflects General Fund support to the Finance and Administrative Services Department, Office of Labor Standards, Seattle Public Library, and to the Police Relief and Pension Fund and Firefighters Pension Fund personnel.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$56,967

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions move a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees. For Finance General, this amount reflects General Fund support to the Finance and Administrative Services Department, Office of Labor Standards, Seattle Public Library, and to the Police Relief and Pension Fund and Firefighters Pension Fund personnel.

Finance General

Citywide Adjustments for Standard Cost Changes

Expenditures \$(1,602,818)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Finance General Transfer to Departments for Central Rates

Expenditures \$2,694,985

This item is the transfer from the General Fund via Finance General to Seattle Public Library, Office of Labor Standards Fund, Police Pension and Relief Fund, Fire Pension Fund, Department of Finance and Administrative Services and Seattle Information Technology Department for standard cost changes made during the baseline phase. These charges are also reflected in the departmental budget.

Proposed Operating

High Barrier Workgroup Pilots

Expenditures \$2,932,500

This funding is for four pilot programs that have been recommended by the High Barrier Individuals Working Group. This interagency working group was brought together in response to heightened community conversations around public safety and individuals repeatedly caught in a cycle of criminal justice, social services and community incidents.

The City and King County will partner to create a 40-60 bed, comprehensive place-based treatment center at the "West Wing" of the King County Correctional Facility. The treatment center will provide intensive on-site treatment for mental health and substance use disorder issues, as well as supportive housing and case management. Three additional pilots include a "rapid re-entry connector" program to plan for the release of individuals from jail; enhanced probation; and "case conferencing" by dedicated law enforcement and services staff to develop a coordinated plan for the most high-barrier individuals. The pilot programs will begin to be implemented in late 2019 and early 2020.

Public Restroom in the University District

Expenditures \$550,000

This funding is for a public restroom in the University District. Funding will support planning (including identifying potential sites) as well as the cost to provide a public restroom.

Seattle Storm Relocation Costs

Expenditures \$2,600,000

This item increases appropriation authority by \$2.6 million to pay for the Seattle Storm's relocation costs, per the amended facility use agreement between the Storm and the City as approved by the City Council. While the Arena at Seattle Center is undergoing redevelopment, the Storm has been displaced from the facility. Under the amended facility use agreement, the City must pay for certain lost revenues and increased costs related to this displacement.

Finance General

Strategic Investment Fund to Address Displacement

Expenditures \$41,700,000

This fund will support strategic investment in areas at high risk of displacement or in areas of low access to opportunity that present unique opportunities for transformational equitable development. This would include areas with significant planned public investment like light rail station areas and parks, where increased access to opportunities will likely also increase displacement pressure. This fund will focus on sites and projects with the potential to achieve multiple community benefit outcomes through mixed-use and mixed-income development that creates opportunities for housing, affordable commercial and cultural space, public open space, and childcare.

Implementing this strategy will require creative use of existing expertise across City departments, outside expertise, and multiple forms of partnership. The City intends to execute this strategy in a way that builds on existing City and community assets and deepens relationships with community development organizations and other agencies committed to these outcomes. An interdisciplinary team including the Office of Planning and Community Development, Office of Housing, Office of Economic Development, the Office of Arts and Culture, Department of Neighborhoods, Office for Civil Rights, Department of Finance and Administrative Services and community partners experienced in community organizing and/or development will be formed in the third quarter of 2019 to finalize the criteria and principles for successful use of these funds through community engagement and outreach. We expect that this team, with the help of a development consultant, will identify priority investment opportunities and screen initial opportunities most likely to meet the goals of the program and pass an initial feasibility analysis. A short-list of priority opportunities will be further vetted in the first quarter of 2020 to determine conceptual development mix and scale, identification of potential partners, leveraging opportunities, and strategies to mitigate risk. Finally, the City will begin executing this investment strategy in mid-2020.

Support to IT Department in Lieu of Cable Franchise Funds

Expenditures \$750,000

This item provides \$750,000 of ongoing General Fund support for the Digital Equity program in the Seattle Information Technology Department which was previously supported by Cable Franchise Fees. Cable Television Fund revenues are steadily declining and these funds enable continuation of the program.

Transportation Network Company Tax Reserve

Expenditures \$8,109,485

Revenues \$9,655,485

On September 19, 2019, Mayor Jenny A. Durkan announced a proposed tax on rides with Transportation Network Companies (TNCs) that begin or end in the City of Seattle. Proceeds from the tax, scheduled to go into effect on July 1, 2020, will be used to fund a variety of investments in affordable housing, transportation including transit, and a series of measures designed to support TNC drivers. This item recognizes the anticipated 2020 revenue of \$9,655,485 to Finance General and creates a reserve of \$8,109,485 for those investments. The remaining \$1,546,000 is appropriated to the Department of Finance and Administrative Services to implement the tax.

Implicit Bias Training for SPD Officers

Expenditures \$(100,000)

This item is a one-time transfer of budget from Finance General to the Seattle Police Department for all officers to receive implicit bias training from a national expert. Implicit bias is the subconscious form of group-based bias. The training will include an overview of implicit bias research and findings, interactive and introspective exercises and small group dialogue.

Civilian Investigator in the Office of Police Accountability

Finance General

Expenditures \$(148,832)

The Office of Police Accountability (OPA) establishes and manages processes to initiate, receive, classify and investigate allegations of police misconduct. This item transfers budget from Finance General to OPA to add a full-time civilian investigator to the office. Civilian investigators receive complaints of misconduct from the public and investigate those complaints. OPA is currently budgeted for nine sworn investigators and one civilian investigator.

Proposed Technical

Adjust Debt Service Payments

Expenditures \$(165,006)

This adjusts Finance General payments for debt service to reflect projected debt service obligations for actual debt issuances.

Beginning Balance Transfer for Sweetened Beverage Tax Fund

Expenditures \$4,018,000

Revenues \$4,018,000

Pursuant to Ordinance 125886, this item transfers Sweetened Beverage Tax proceeds from the General Fund to the new Sweetened Beverage Tax Fund. This amount represents the beginning 2019 balance for Sweetened Beverage Tax in the General Fund and will allow departments to begin spending Sweetened Beverage Tax out of the new fund immediately in 2020, before 2020 revenue is deposited into the Fund. Any additional unspent Sweetened Beverage Tax proceeds from 2019 will be transferred from the General Fund to the new Sweetened Beverage Tax Fund in the same manner after 2019 fiscal year end, once final balances are known.

Increase Budget for Insurance Premiums

Expenditures \$383,921

Insurance premiums are paid by Finance General on behalf of City departments. Large liability insurance claims in recent years have increased premiums significantly, and this is a trend projected to continue in 2020. This increment is needed to fund the anticipated 2020 premium payment.

Increase Fire Hydrant Payment to SPU

Expenditures \$496,000

This increases the General Fund support to Seattle Public Utilities for hydrant maintenance, a general government expense. SPU expects an increase in costs to service fire hydrants due to inflationary cost increases, growth in the number of assets requiring service, and accelerated work on maintenance backlogs.

Increase Transfer to Fiscal Reserve Funds

Expenditures \$508,292

This increases the General Fund transfer to the Emergency Fund and the Revenue Stabilization Fund. Transfer amounts are based on financial policies established by state law and city ordinance. For the 2020 Adopted Budget, the City will add \$1.9 million to the Emergency Fund reserve balance, bringing the total to \$66.9 million for 2020, and \$3.0 million to the Revenue Stabilization Fund reserve balance bringing the total to \$60.8 million for 2020.

Finance General

Partially Restore Budget for Disability Claim Reserve

Expenditures \$63,233

In the development of the 2020 Endorsed Budget, the City Council took an across the board General Fund reduction with Green Sheet 1-10-B-1. For Finance General, the reduction came from the Disability Claim Reserve project. This budget proposal partially restores the \$500,000 original budget to \$350,000.

Street Lighting Reserve

Expenditures \$500,000

Increase to recurring reserve in Finance General for payments to Seattle City Light for street light maintenance, a General Fund obligation. Increases are due to lower than projected conversions to LED bulbs and therefore, higher than projected electricity consumption.

Technical Adjustment for OLS Space Rent

Expenditures \$(219,649)

This is a technical adjustment to the baseline budget of the Office of Labor Standards in the amount of \$219,649. This adjustment corrects previous estimates for lease increase.

Transfer Short-Term Rental Tax Baseline Budget to New Fund

Expenditures \$(193,157)

Finance General contained baseline budget for debt service payments funded with Short-Term Rental Tax for the affordable housing bonds. This technical change reflects the requirements of Ordinance 125872, and transfers the baseline department budget for Short-Term Rental Tax activity from the General Fund (00100) to the Short-Term Rental Tax Fund (12200). In addition, this change request reduces the budget due to lower than anticipated debt service payments.

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886, and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero.

Transfer to Arts and Culture Fund

Expenditures \$252,410

This increases the transfer from the General Fund to the Arts and Culture Fund in accordance with City policy. This change incorporates updated actual 2018 Admissions Tax revenue, which was higher than projected in the 2020 Endorsed budget. Each budget year's transfer amount reflects Admissions Tax revenue from two years prior.

Transfer to Judgement and Claims Fund

Expenditures \$5,000,000

This transfers additional funding to the Judgement and Claims Fund to cover higher expenditures due to increases in settlements and tort cases and the use of outside counsel. There is a corresponding increase in the Judgement and Claims Fund in the Department of Finance and Administrative Services for payments.

Finance General

Council

Add Funding for Salary Increases

Revenues \$7,180

This item adds funding from the General Fund, Seattle City Light and Seattle Public Utility funds to provide a five percent salary increase for the Executive Manager positions and the Strategic Advisor positions in the Office of the City Auditor, to be granted at management's discretion in recognition of 2019 performance.

Errata Corrections to the Proposed Budget and CIP

Expenditures \$(778,668)

Revenues \$(778,668)

This errata item in Finance General revises the revenue projection and corresponding expenditure authority for the Transportation Network Company (TNC) Tax to align with refined forecasts.

Expand Coyote Central program to the Lake City neighborhood

Expenditures \$50,000

The City Council added one-time funding of \$50,000 General Fund to both the Office of Arts and Culture (ARTS) and Finance General (FG) to support the expansion of Coyote Central to the Lake City neighborhood. FG will transfer the General Fund moneys to ARTS for this work. This funding will contribute to a new building, "Coyote North," which will have a dedicated performing arts center, hold classes, provide activities, and give access to professional artists for youth living in the North End.

Coyote Central is a creative space for youth and teenagers to explore interests and build skills in creative pursuits through hands-on projects. Coyote North is currently raising funds to meet their capital and programming goal of \$2.4 million. Coyote North applied to ARTS for funding through its Cultural Facilities Fund competitive process and has been awarded \$90,000. This item gives Coyote North a total award of \$140,000.

General Fund Revenue for 2019 Information Technology Fund Rate True-Up

Revenues \$750,000

This Council Budget Action added \$750,000 of one-time General Fund revenue from the 'true-up' of Seattle Information Technology's Internal Services rates with actual service costs. The Seattle Information Technology budget is funded with a mix of direct billing for costs incurred and costs allocated to other city funds for services provided. Beginning in 2018, Seattle IT expenditure savings that are backed by internal rate revenue will be refunded to billed departments. The 2018 true-up generated a \$1,322,000 refund to the General Fund. This is a new ongoing practice. However, amounts will vary from year to year, so while this budget action recognizes \$750,000 as ongoing revenue from the current and future reconciliations, it should be considered a one-time revenue.

Reduction in Waterfront LID payments for City owned properties

Revenues \$312,159

The Council Budget Action reduces the appropriation in the Department of Finance and Administrative Services (FAS) by \$312,159 for payment of assessments on City-owned property for the Waterfront Local Improvement District (LID). The Mayor's proposed budget appropriated \$2,100,000 to pay Waterfront LID assessments for City-owned property. This assumed the original \$200,000,000 LID amount, which has since been reduced to \$160,000,000, and that the City would pay the assessment on two properties subsequently no longer owned by the City, the Seattle IT Communication Shop and the Civic Square Block.

Since the Mayor proposed her budget, FAS filed the final property assessment roll for the LID with the City Clerk.

Finance General

The final assessment roll, which reflects the transfer of the two City-owned properties and the revised LID amount, establishes a total assessment for City-owned properties of \$1,790,012. The excess appropriation in the proposed budget is \$312,159.

Transfer \$2.24 million from the Unrestricted Cumulative Reserve Fund to the General Fund

Expenditures	\$2,242,000
Revenues	\$2,242,000

This Council Budget Action transferred \$2.24 million from the Unrestricted Cumulative Reserve Fund to the General Fund to be used for funding the Council's priorities. In the 2020 Proposed Budget, the Unrestricted Cumulative Reserve Fund includes a \$2.14 million child care reserve and has an Ending Unreserved Fund Balance of \$102,000. These funds are not restricted, and this action transfers these funds to the General Fund so that they can be appropriated in the 2020 Adopted Budget.

Reduce Funding for Programming Backed by Mercer Property Sale Proceeds

Expenditures	\$(11,700,000)
--------------	----------------

This item reduces \$18.2 million in one-time funding for programs supported by the proceeds from the sale of the Mercer Properties. The reductions broken out by programs are as follows: in Finance General, \$11.7 million from the \$41.7 million Strategic Investment Fund; and in the Office of Housing, \$3.5 million from the \$6 million Accessory Dwelling Unit Financing Program and \$3.0 million from the \$15 million for Increasing Homeownership Opportunities. These funding reductions will be used to support other Council priorities. To see the reductions to the Strategic Investment Fund please see the Finance General section of the budget book.

Transportation Equity Agenda

Expenditures	\$(300,000)
--------------	-------------

The Council moved \$300,000 of one-time General Fund (TNC tax) appropriation from Finance General to SDOT to fund a 1.0 FTE position (Strategic Advisor 1) to support implementation of SDOT's Transportation Equity Agenda. The Transportation Equity Agenda manages the low-income transit access and vehicle license fee rebate programs authorized by STBD Proposition 1. The intent of the Council is to provide resources and staff to oversee implementation of the agenda and provide funding for recommendations that are not budget neutral--for example, helping resource community organizations for community outreach. The Transportation Equity Agenda is anticipated to include recommendations for: (1) affordability, housing and displacement; (2) community engagement; (3) transit access; (4) transparency; and (5) safety.

Finance General Reserve for Transportation Projects

Expenditures	\$(3,050,000)
--------------	---------------

The Council reduced Finance General reserves by \$3.05 million, which is a portion of the anticipated 2020 fee revenue from the Transportation Network Company Tax, for transportation purposes. This action provides General Fund for transportation expenditures identified in the 2020 Adopted Budget.

Remove Funding for the Director of Citywide Mobility

Expenditures	\$(134,150)
--------------	-------------

The Council removed funding for the Director of Citywide Mobility beginning in 2020. By the end of 2019, the operational planning and preparation work conducted by this position will be completed and funding for the position will no longer be needed. The Mayor created this position as term-limited temporary, and the 2020 Proposed Budget originally included funding for this position to continue through 2020.

Finance General

Council Provisos

Impose a proviso on Finance General Reserves for a rapid reentry connector pilot at the King County jail

"None of the money appropriated in the 2020 Budget in Finance General Reserves may be spent on a rapid reentry connector pilot for high-barrier individuals until the Mayor's Office has presented an analysis and detailed implementation plan to the Chair of the committee with jurisdiction over public safety. The analysis and plan should be developed in conjunction with the King County jail, the Criminal Justice Equity Team, and communities most impacted by the criminal legal system and should include: a discussion of whether and how the pilot aligns with the reentry recommendations, a description of unintended consequences and plan to mitigate them, proposed metrics of success, a racial equity analysis, an analysis of how to reduce jail populations that are being held at the King County jail for under 72 hours, and how the program will be taken to scale."

Impose a proviso on Finance General Reserves for Law Department staffing of a case conferencing pilot related to a recommendation of the High Barrier Individual Work Group

"None of the money appropriated in the 2020 Budget in Finance General Reserves may be spent on a case conferencing pilot for high-barrier individuals until the Mayor's Office has presented an analysis and detailed implementation plan to the Chair of the committee with jurisdiction over public safety. The analysis and plan should be developed in conjunction with the City Attorney's Office, the Criminal Justice Equity Team, and communities most impacted by the criminal legal system and should include: (1) a discussion of whether and how the pilot aligns with the reentry recommendations, (2) a description of unintended consequences and plan to mitigate them, (3) proposed metrics of success, (4) a racial equity analysis, (5) how the City Attorney's Office will coordinate with case managers or other clinical personnel not employed by the City who hold lawful releases of information from individuals with behavioral health conditions and high exposure to enforcement and prosecution and are permitted to share protected health information with the City Attorney's Office and law enforcement, and (6) how the program will be taken to scale."

Impose a proviso on the Strategic Investment Fund in Finance General

"None of the money appropriated in the 2020 budget for the Finance General Reserve Strategic Investment Fund may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Executive submits a proposed spending plan for this Fund."

Move \$170,000 from Finance General Reserves for high-barrier probation to the Office for Civil Rights and impose three provisos

Expenditures \$(170,000)

This Council Budget Action cut \$170,000 in Finance General Reserves intended to support creation of a probation pilot for high-barrier individuals in Seattle Municipal Court (SMC). It added \$170,000 to the Office for Civil Rights (OCR) to conduct outreach and engagement related to criminal legal system alignment and implementation efforts. The Council Budget Action also imposed three provisos:

"None of the money appropriated in the 2020 Budget in Finance General Reserves may be spent on a probation pilot for high-barrier individuals until both (a) Seattle Municipal Court has submitted to the Chair of the committee with jurisdiction over public safety the report requested in Statement of Legislative Intent CJ-7-A-2 and (b) the City Auditor has submitted the report requested in Statement of Legislative Intent CJ-1-B-1."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$30,000 is appropriated solely for community

Finance General

engagement sessions led by the Office for Civil Rights and the Legislative Department and may be spent for no other purpose. These funds are intended to support the Council's criminal legal system alignment work to engage with stakeholders, including persons currently or formerly incarcerated and communities most impacted by the criminal legal system, and staff in relevant City departments, including the City Attorney's Office, Seattle Municipal Court, and the Criminal Justice Equity Team. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

"Of the appropriation in the 2020 budget for the Office for Civil Rights, \$140,000 is appropriated solely for partnership, outreach, and engagement related to criminal legal system alignment, strategic plan development, and implementation efforts, including the work described in Council Budget Action CJ-2-B-2, Council Budget Action CJ-3-A-2, and Statement of Legislative Intent CJ-21-A-2 and may be used for no other purpose. Furthermore, none of the money so appropriated may be spent until authorized by future ordinance. Council anticipates that such authority will not be granted until the Office for Civil Rights provides to the chair of the committee with jurisdiction over public safety a plan for how the money will be spent for this purpose."

Appropriations by Budget Summary Level and Program

FG - BO-FG-2QA00 - Appropriation to Special Funds

The purpose of the Appropriation to Special Funds Budget Summary Level is to appropriate General Fund and other centrally managed resources, several of which are based upon the performance of certain City revenues, to bond redemption or special purpose funds. These appropriations are implemented as operating transfers to the funds or accounts they support.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted
Appropriation to Special Funds	211,063,724	168,000,026	169,939,484	183,761,018
Total	211,063,724	168,000,026	169,939,484	183,761,018

**FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here*

FG - BO-FG-2QD00 - Reserves

The purpose of the Reserves Budget Summary Level is to provide appropriation authority to those programs for which there is no single appropriate managing department, or for which there is Council and/or Mayor desire for additional budget oversight.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

Office of Hearing Examiner

Ryan Vancil, Hearing Examiner

(206) 684-0521

<http://www.seattle.gov/examiner/>

Department Overview

The Office of Hearing Examiner is Seattle's quasi-judicial forum for reviewing factual and legal issues raised by the application of City Code requirements to specific people or property. As authorized by the Seattle Municipal Code, the office conducts hearings and decides appeals in cases where members of the public disagree with a decision made by a City agency. Many of the matters appealed to the Hearing Examiner relate to land use and environmental permit decisions and interpretations made by the Seattle Department of Construction and Inspections. The Hearing Examiner also hears appeals in many other subject areas, and makes recommendations to the City Council on rezone petitions, major institution master plans, and other Council land-use actions.

The Hearing Examiner is appointed by the City Council, and Deputy Hearing Examiners are appointed by the Hearing Examiner. Examiners handle all pre-hearing matters, regulate the conduct of hearings, and prepare decisions and recommendations based upon the hearing record and applicable law. The Seattle Municipal Code requires all examiners to be attorneys with training and experience in administrative hearings. The Hearing Examiner also manages an executive assistant to oversee the administrative areas of the office, a legal assistant to assist with hearings and decision preparation, and an administrative specialist to support all other office positions and provide information to the public.

Office of Hearing Examiner

Budget Overview

The 2020 Adopted Budget maintains support to the Hearing Examiner and preserves the services provided by the Hearing Examiner to members of the public and the City Council. Technical adjustments have been made to bring the adopted budget into alignment with an Annual Wage Increase, a State Paid Family Medical Leave increase, and other citywide adjustments to internal service costs.

Additionally, the 2020 Adopted Budget includes a part-time position to support appeals of fire code violations issued by the Seattle Fire Department (SFD). 2019 legislation granted SFD the authority to issue citations for Fire Code violations such as locked exit doors, failure to properly maintain fire protection systems like sprinklers, and repeated false alarms. The Hearing Examiner will partner with the SFD to hear appeals to the citations.

City Council Changes to the Proposed Budget

The City Council added one-time funding for the Hearing Examiner to purchase portable hearing recording equipment that the Office of Hearing Examiner will use if there are two large, multi-party public hearings at the same time. Additionally, the City Council added ongoing funding for a planner who can participate in mediations; previously parties had to pay for the use of a planner.

Office of Hearing Examiner

Incremental Budget Changes

Office of Hearing Examiner

	2020 Budget	FTE
Total 2020 Endorsed Budget	965,060	4.63
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	46,104	-
2020 State Paid Family Medical Leave Increase Base Budget	725	-
Citywide Adjustments for Standard Cost Changes	(5,847)	-
Fire Code Citations	32,671	0.37
Council		
Purchase of Portable Recording Equipment and Add Funding for Mediation Planner	23,000	-
Total Incremental Changes	\$96,653	0.37
Total 2020 Adopted Budget	\$1,061,713	5.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$46,104

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$725

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(5,847)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final

Office of Hearing Examiner

for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Fire Code Citations

Expenditures	\$32,671
Position Allocation	0.37

This item increases an Administrative Specialist II position from part time to full time to support hearing appeals to the Seattle Fire Department's fire code citations. The increase is due to the impact of 2019 legislation that granted SFD the authority to issue citations for Fire Code violations such as locked exit doors, failure to properly maintain fire protection systems like sprinklers, and repeated false alarms. This item is funded through citation fees.

Council

Purchase of Portable Recording Equipment and Add Funding for Mediation Planner

Expenditures	\$23,000
--------------	----------

This item includes \$8,000 in one-time funding for portable recording equipment and \$15,000 in ongoing funding for a planner to participate in mediation. Currently, the Office of Hearing Examiner has access to two hearing rooms with recording equipment, one large and one small, resulting in the office only being able to accommodate one large, multi-party public hearing at a time. With the purchase of portable recording equipment, a second larger room can be used to conduct two larger hearings simultaneously.

This item also adds funding for the participation of a planner in the mediation process. Currently, mediation parties must pay for the required participation of a planner.

Seattle Department of Human Resources

Bobby Humes, Director

(206) 684-7999

<http://www.seattle.gov/personnel/>

Department Overview

The Seattle Department of Human Resources (SDHR) is responsible for centrally setting the strategic direction for human resources services: identifying, hiring, and retaining the City's dynamic, diverse workforce as well as developing and administering a compensation and benefits program to create a quality employee experience. SDHR also provides core human resources (HR) support services to all City employees. SDHR operations:

- create greater HR accountability and collaboration citywide so that consistent, cost-effective services are provided to all employees;
- provide full-service HR to 18 supported departments;
- manage the evolving HR alignment strategic plan;
- ensure a culture of respect and dignity for all employees;
- develop consistent policies, improved services, and programs that enhance the workforce;
- develop proactive workforce equity through our Workforce Equity Strategic Action Plan; and
- provide executive recruitment and succession planning services.

SDHR establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; and ensures department staff and managers receive information and resources required to meet business needs and legal requirements such as leave administration.

The **Director's Office** establishes Citywide personnel rules; offers strategic consultative assistance to departments, policymakers and employees; provides internal fiscal management and budget development; and spearheads Citywide programs and efforts such as the Human Resources Strategic Plan and the Workforce Equity Initiative.

Citywide Shared Administrative Services administers Citywide quality and cost-effective employee benefits, including health care and workers' compensation; provides Citywide safety, classification/compensation and Workforce Analytics & Reporting services; manages the City's voluntary deferred compensation plan; and handles absence management.

Citywide Workforce Equity leads the Workforce Equity Strategic Plan and proactively addresses policies, processes and practices that advance the City's ability to maintain consistent and equitable treatment of employees Citywide. Partners include the Office for Civil Rights and the community to end racial disparities and create fair and equitable City career pathways.

Citywide Labor Relations develops and implements labor relations strategies in collaboration with labor management teams across the City, develops training in coordination with HR systems administration and operations while bargaining the impacts of management strategy and philosophy with labor partners.

Citywide Service Delivery and Talent Acquisition provides human resources support to executive offices; strategic alignment with department HR leaders and staff; and talent engagement, selection and staffing accountability for equitable outcomes.

Citywide HR Planning and Innovation is the strategy by which the Citywide HR workplan is developed by the multi-departmental Human Resources Leadership Team (HRLT) and focuses on projects intended to improve HR practices, standardize HR processes, implement Citywide HR programs, and update policies to meet workforce and business needs.

Citywide Human Resources Investigations Unit responds to and thoroughly investigates employee allegations of harassment, discrimination, retaliation and harassment-related misconduct in a manner which reflects an

Seattle Department of Human Resources

acknowledgement of the historical limitations of the employment law.

Personnel Compensation Trust Funds

The Seattle Department of Human Resources (SDHR) administers five Personnel Compensation Trust Funds related to employee benefits. These funds are managed through Citywide contractual obligations on behalf of employees and City departments. The administering department collects funds from other City departments, which are then paid out to various insurance companies, service providers, and individuals.

Health Care Fund: contains the revenues and expenses related to the City's medical, dental and vision insurance programs; Flexible Spending Account program; Employee Assistance Program; COBRA continuation coverage; and other healthcare related items. The City is self-insured for both the Aetna and Kaiser medical plans, the vision plan, and one dental plan and carries insurance for the remaining dental plan.

Fire Fighters Health Care Fund: was created to track fire fighter employee contributions previously held within the larger Health Care Fund. Fire fighter premium collections are distributed directly to the trust that provides fire fighters' healthcare.

Industrial Insurance Fund: captures the revenues and expenditures associated with the City's Workers' Compensation and Safety programs. Since 1972, the City of Seattle has been a self-insured employer as authorized under state law. The Industrial Insurance Fund receives payments from City departments to pay for these costs and related administrative expenses. Overall costs include fees levied by the Washington State Department of Labor and Industries, reinsurance premiums, and administrative costs to manage the program.

Unemployment Insurance Fund: contains the revenues and expenditures associated with the City's unemployment benefit and administration costs. The City is a self-insured employer with respect to unemployment insurance.

Group Term Life Insurance Fund: contains the revenues and expenses related to the City's group term life insurance, long-term disability insurance, and accidental death and dismemberment insurance plans.

Seattle Department of Human Resources

Budget Overview

The Seattle Department of Human Resources (SDHR) strives for a consistent, equitable employee experience at the City so that employees can do their best work. SDHR supports employee resources such as benefits and professional development, and department services such as employee relations and job classifications. SDHR provides full HR services to most small and medium-sized departments. The City's larger departments employ their own HR staff. This structure has created the potential for varying levels of HR services and employee experiences across the City. Citywide alignment of HR policies and programs is essential to support City efforts towards workforce equity and consistent policy interpretation.

The 2019 Adopted Budget highlighted the work of SDHR to align the City's HR practices, creating strategic changes in workplace culture that would lead to the deepest impacts on workforce equity. The 2020 Adopted Budget adds one-time \$2.6 million and ongoing \$3.2 million and 6.5 FTE to support several key department additions:

Human Resources Investigations Unit

In 2018, the Mayor issued Executive Order 2018-04 on Anti-Harassment and Anti-Discrimination following the Anti-Harassment Inter-Departmental Team (AH IDT) recommendations to transform the City's workplace culture to promote a safe, welcoming and inclusive workplace for all employees. The 2019 Adopted Budget established the Human Resources Investigation Unit (HRIU) with a Director and City Investigator positions. Two additional Investigator positions and one Management Systems Analyst were added through the 2019 2nd Quarter Supplemental Budget Ordinance. The 2020 Adopted Budget adds a third Investigator to the unit. These positions support the initial work to stand up the HRIU unit and begin the phased process to transition in-scope department intake and investigations to HRIU. The HRIU investigators will also work closely with the newly created Office of the Employee Ombud to ensure that workplace misconduct concerns are addressed. These positions are paid for through central cost allocation and are budget neutral adds.

Anti-Harassment/Anti-Discriminations Citywide Trainings

The Anti-Harassment and Anti-Discrimination Executive Order (EO) also tasked the SDHR director and the director of the Office for Civil Rights (OCR) to develop anti-harassment and anti-discrimination (AH/AD) training and then to work with all departments to develop a plan for employees to receive AH/AD and bias training. In order to meet the city-wide learning plan that is outlined in the Mayor's Executive Order, AH/AD learning content needs to be developed and implemented for approximately 11,000 City employees across 25 departments. This demand for trainings far exceeds the capacity that the two departments currently have for providing trainings. SDHR is the lead department on the EO and the training plan. The 2020 Adopted Budget adds two positions to SDHR: one permanent Project Manager and one term-limited one-year Project Coordinator to assist in the initial implementation of the training plan. The OCR position, as described in the OCR section of the budget, will add capacity to the department to lead Race and Social Justice Initiative (RSJI) training and partner with SDHR on embedding RSJI in the anti-harassment and anti-discrimination trainings.

City Leadership Academy

The City Leadership Academy (CLA) is a nine-month development program for City of Seattle employees who want to expand their leadership skills, create change, and model racial equity, social justice, and inclusion. The CLA is a key strategy in creating a safe and inclusive workplace, as well as providing pathways for advancement for City personnel. The 2020 Proposed Budget included a permanent position and operational budget authority to ensure this program continues to equip leaders with the skills to lead change, develop an inclusive culture, and collaborate across departments. The CLA is partially funded by \$5,000 departmental sponsorships per employee accepted into the program. The proposed on-going position and associated funding were not included by the City Council in the adopted budget. The City is evaluating options for the future of this program.

Full HR Support for Small Departments and Offices

SDHR provides end-to-end HR support and aligns HR services to numerous departments and offices throughout the City. The 2020 Adopted Budget makes permanent a mid-year 2019 addition of a HR Business Partner to expand full-service HR support to additional City offices.

Seattle Department of Human Resources

HR Alignment

The 2019 Adopted Budget included a new HR allocation, charging SDHR's operating costs to each City department, and falling in line with the other central cost departments – the Seattle Information Technology Department (ITD) and the Department of Finance & Administrative Services (FAS). The 2020 Adopted Budget continues SDHR's work towards transitioning and consolidating in a concerted effort to further engaging departments with the services they provide, supporting departments and employees, and solidifying the foundation for HR alignment.

Comprehensive Wage Study

In an effort to align City represented job titles with current market rates, ensuring the equity and competitiveness of City jobs, the City will engage in a comprehensive wage study under the terms of a Memorandum of Agreement (MOA) between the City and the Coalition of City Unions. The wage study will encompass all Coalition titles, of which there are approximately 650 Citywide and is funded at \$2 million. This project is expected to be completed by December 31, 2021.

Other 2020 Adopted Budget Items

Several additional baseline and operational adjustments are included in the adopted budget, which:

- adjust appropriation for changes to central costs including internal services, health care, retirement and workers' compensation charges;
- add two positions, a 0.5 FTE Administrative Specialist 2 in support of the retiree medical plan funded by the Retirement Department (SCERS), and the addition of a term-limited temporary Health Advocacy Project Manager to implement and manage the City's new Advocacy and Well-Being (AWB) program, funded by the Health Care Fund;
- add budget and appropriations for \$70,000 for annual software license fee increases; and
- add funding for the first year of a two-year scoping and planning study to replace HRIS/EV5, the current system used for employee timekeeping, payroll, and basic HR management functions. The first year adds \$336,000 and the second-year costs, currently estimated at \$2.2 million, will be addressed in the next biennial budget.

Finally, the 2020 Adopted Budget includes net-zero technical adjustments for simplification and alignment of SDHR's budget. These adjustments include correcting labor budgets to align with position transfers, the reallocation of paid time off distribution for ease of tracking and reporting, the consolidation of IT project budgets to ensure proper account coding, and the redistribution of the indirect project budget to improve SDHR's complex cost recovery.

Personnel Compensation Trust Funds

The following provides a summary of each of the five individual funds that comprise the Personnel Compensation Trust Funds and are administered by SDHR.

Health Care Fund: Total City health care costs including medical, dental and vision care are expected to reach \$264 million in 2020. The City of Seattle experienced slow growth in average cost increases from 2014 through 2016. However, health care costs are generally cyclical in nature and in 2017 and 2018 the City of Seattle experienced health care deficits. Costs are expected to increase with a 7% annual trend in 2020.

The 2020 Adopted Budget assumes an estimate of 12,058 active employees enrolled in healthcare.

Fire Fighters Health Care Fund: The Fire Fighters Health Care Fund was created in the City's new financial system to track fire fighter employee contributions previously held within the larger Health Care Fund. This adjustment transfers revenue and expense budget to the new fund (63100).

Industrial Insurance Fund: The 2020 Adopted Budget assumes decreases in total expenditures, principally due to lower projected fees paid to the state Department of Labor and Industries (L&I) for assessments and other services.

The 2020 Adopted Budget includes no funds for purchase and implementation of a new workers' compensation system, a project scheduled for completion in 2019. However, two additional administrative expenditures are

Seattle Department of Human Resources

adopted, including a one-time cost of \$50,000 to configure the new system to streamline Occupational Safety and Health Administration (OSHA) reporting and an on-going annual expenditure of \$15,000 for staff certifications required by L&I.

Unemployment Insurance Fund: The 2020 Adopted Budget for unemployment expenses is unchanged from the 2020 Endorsed Budget.

Group Term Life Fund: Total costs in the fund are expected to be approximately \$6.6 million in 2020. Unchanged from the 2020 Endorsed Budget the City Council approved in November 2018, the 2020 Adopted Budget costs are an increase of 2% over the 2019 Adopted Budget.

City Council Changes to the Proposed Budget

As part of the adopted budget process, the City Council cut the proposed on-going position and funding for the City Leadership Academy.

Seattle Department of Human Resources

Seattle Department of Human Resources

Total Incremental Changes	\$20,471,939	6.50
Total 2020 Adopted Budget	\$322,844,156	114.50

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$950,139

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$14,816

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Budget Increase for Cornerstone System Licensing Costs

Expenditures \$70,000

SDHR pays the annual license fees for Cornerstone, the Citywide training and performance management system. The contract is five years with a two-year extension and is scheduled to expire in June 2019. The City's cost did not change during the initial five-year period. Under the terms of the extension, the vendor will adjust the City's license fees to reflect interim price increases, a change in the subscription model and growth in the number of employees using the system. This change in appropriations will cover the additional cost of subscription.

Citywide Adjustments for Standard Cost Changes

Expenditures \$1,060,158

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Transfer Budget Authority from Health Care Fund to Fire Fighters Health Care Fund

Expenditures -

Revenues -

A new Fire Fighters Health Care Fund was created in the 2019 2nd Quarter Supplemental Budget Ordinance. The City's health care costs for fire fighters had previously been appropriated in the Health Care Fund and separating them out allows for easier tracking of fire fighter employee contributions. This action transfers appropriation

Seattle Department of Human Resources

authority from the Health Care Fund to the Fire Fighters Health Care Fund.

Proposed Operating

Addition of AH/AD Learning Partner and Project Manager

Expenditures	\$281,551
Position Allocation	1.00

This item adds two positions in SDHR to create and implement the work of the Anti-Harassment/Anti-Discrimination Citywide Train-the-Facilitator (TTF) program and develop and manage Anti-Harassment/Anti-Discrimination learning courses. These positions include:

- One 1.0 FTE Strategic Advisor 1, One-year Term-Limited Temporary
- One 1.0 FTE Strategic Advisor 1, Permanent

The TTF is in line with and supports the vision of SDHR serving as a consulting body. Furthermore, the TTF model builds capacity using existing resources, is more sustainable, and advances the work of shifting the City culture to one that learns and practices racial equity. An additional position is included in the Office for Civil Rights budget.

Addition of City Leadership Academy Program Advisor and Program Funding

Expenditures	\$247,559
Revenues	\$100,000
Position Allocation	1.00

The Council altered this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This item adds a 1.0 FTE City Leadership Academy (CLA) Strategic Advisor 1 Program Advisor position and appropriates program costs from two sources: a sponsorship fee paid for each participant by the home department, and the remainder recovered through SDHR allocation (beginning 2021).

Addition of Funding for Human Capital Management (HCM) Scoping Study

Expenditures	\$336,149
--------------	-----------

This item adds funding for the first year of a two-year scoping and planning project for the future replacement of the current HRIS/EV5 application, which helps track position authority and personnel across the City. The current HRIS/EV5 application is at or near end of its useful life and it will be an ongoing challenge to stay current and compliant with security requirements.

Addition of HR Investigations Unit Positions

Expenditures	\$625,644
Position Allocation	4.00

This item adds four positions to the Human Resources Investigations Unit created through the Mayor's Executive Order 2018-04. These positions include:

- Three 1.0 FTE Strategic Advisor 2 - City Investigators
- One 1.0 FTE Management Systems Analyst

These positions support the initial work to stand up the HRIU unit and begin the phased process to transition in-scope department intake and investigations to HRIU.

Seattle Department of Human Resources

Addition of Human Resources Business Partner

Expenditures	\$156,081
Position Allocation	1.00

This item adds a 1.0 FTE Strategic Advisor 1 HR Business Partner (HRBP) position to provide full-service HR support to additional small City offices. This request is for budget authority only as ongoing funding is through the SDHR internal services cost allocation.

Addition of Retiree Benefits Position

Expenditures	\$52,599
Position Allocation	0.50

This item adds a 0.5 FTE Administrative Specialist 2 position to provide retiree medical plan administrative support. This request is for budget authority only as ongoing funding is through the Retirement Department (SCERS) and is through the SDHR internal services cost allocation.

Addition of Term-Limited Temporary Health Advocacy Project Manager

Expenditures	\$131,534
--------------	-----------

This item adds a term-limited temporary 1.0 FTE Strategic Advisor 1 Health Advocacy Project Manager to implement and manage the City's new Advocacy and Well-Being (AWB) program. The position will assist with review and evaluation of vendor proposals, develop change management communication strategies and be responsible for post-implementation activities, strategies and communication. The Health Care Fund will cover the salary and benefits costs.

Addition of Two Term-Limited Temporary Positions and Funding for Wage Study

Expenditures	\$2,008,868
--------------	-------------

This item adds two term-limited temporary positions and funding for consultant costs to complete a comprehensive wage study encompassing all Coalition titles. The positions include:

- One 1.0 FTE Strategic Advisor 2, Term-Limited Temporary
- One 1.0 Management Systems Analyst, Term-limited Temporary

This will be funded pursuant to a Memorandum of Agreement (MOA) between the City of Seattle and the Coalition of City Unions. The study is expected to take multiple years.

Implement Centralized OSHA Workers Compensation System

Expenditures	\$50,000
--------------	----------

This item adds one-time funding to configure new Origami workers compensation system Citywide, implement centralized OSHA tracking and reporting, and transition all departments to the centralized system; this will allow SDHR to easily track Citywide trends and produce aggregate reports.

Increase Budget for Workers' Compensation Training and Certification

Expenditures	\$15,000
--------------	----------

This item adds ongoing funding to support the required Washington State Department of Labor and Industries (L&I) certification and training of City employees who administer worker compensation claims.

Seattle Department of Human Resources

Transfer of Positions to HR Investigations Unit

Expenditures -

This item transfers two existing positions to the HR Investigations Unit created through the Mayor's Executive Order 2018-04. These positions include:

- One 1.0 FTE Executive 1 - Director
- One 1.0 FTE Strategic Advisor 3 – City Investigator

These positions support the initial work to stand up the HRIU unit and begin the phased process to transition in-scope department intake and investigations to HRIU.

Proposed Technical

2020 Healthcare Expenditure Adjustment

Expenditures \$14,901,380

This adjustment to the health care fund reflects a trend rate of 7% in 2020. The City's total health care enrollment is expected to have a slight increase in 2020, compared to the 2019 Adopted Budget.

2020 Industrial Insurance Expenditure Adjustment

Expenditures \$(215,127)

This adjustment to the Industrial Insurance fund reflects decreases in total expenditures of 1%, due principally to lower projected fees to be paid to the Department of Labor and Industries (L&I) for assessments and other services.

Balancing of Indirect Cost Recovery

Expenditures -

This budget neutral adjustment redistributes indirect cost recovery to balance 2020 Adopted Budget.

Consolidation of IT Projects Budget

Expenditures -

This budget neutral adjustment moves the Customer Relationship Management System budget to ensure accurate coding.

Indirect Cost Recovery Alignment

Expenditures -

This technical adjustment is a net-zero alignment between indirect cost recovery accounts.

Indirect Project Budget Alignment

Expenditures -

This budget neutral adjustment redistributes the salary and benefits budget to materially improve SDHR complex indirect cost recovery for internal budget management, tracking and reporting.

Net-Zero Budget Alignment

Expenditures -

This budget neutral adjustment aligns labor budget with position transfers.

Seattle Department of Human Resources

Paid Time Off Cost Redistribution

Expenditures -

This budget neutral adjustment reallocates the budget authority for Paid Time Off for ease of tracking and reporting purposes.

Council

Errata Corrections to the Proposed Budget and CIP

Expenditures \$(65,000)

This item removes duplicate appropriations for the Seattle Department of Human Resources in the 2020 Proposed Budget. During the proposed budget process, two additional change requests were submitted for the Workers Compensation system and certification improvements.

Removal of City Leadership Academy Program Advisor Position

Expenditures \$(149,413)

Position Allocation (1.00)

This item cuts a 1.0 FTE Strategic Advisor 1 Program Advisor position (on-going) from the City Leadership Academy program.

Office of Immigrant and Refugee Affairs

Cuc Vu, Director

(206) 233-3886

www.seattle.gov/iandraffairs

Department Overview

The mission of the Office of Immigrant and Refugee Affairs (OIRA) is to improve the lives of Seattle's immigrant and refugee families. OIRA works to strengthen immigrant and refugee communities by engaging them in decisions about the City of Seattle's future and improving the City's programs and services to meet their needs.

OIRA collaborates with the Immigrant and Refugee Commission, community partners, government agencies, faith-based institutions, the private sector, and City departments to achieve our mission. According to the 2014 American Community Survey, immigrants and refugees comprise approximately 18 percent of Seattle's population. Today, the immigrant population has likely grown, as recent Census Bureau data shows that one in four (more than half a million) King County residents is foreign-born, increasing diversity in the region.

OIRA is dedicated to supporting the City's Race and Social Justice Initiative by consistently using the racial equity toolkit analysis, operationalizing racial equity in our workplans, and engaging directly with immigrant and refugee communities.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The 2020 Adopted Budget continues the City's commitment to enhancing the health, economic security, and safety of Seattle immigrants and their families, and protecting them from federal immigration threats. The 2020 Adopted Budget maintains resources and staff to support the ongoing work of the Office of Immigrant and Refugee Affairs and includes technical baseline adjustments to meet agreements with the Coalition of Unions. The agreements include a State Paid Family Medical Leave and an Annual Wage Increase. Additional baseline adjustments account for changes to the expenditure authority and revenue acceptance of Washington State Department of Social and Health Services (DSHS) and Seattle Housing Authority (SHA) grants to fall in line with the issuance of the awards. The request for expenditure authority and revenue will be added via supplemental grant acceptance upon notice of receipt.

Office of Immigrant and Refugee Affairs

The final baseline adjustment addresses the partnership with King County to fund the Legal Defense Network. In 2017, the City provided \$1 million in one-time funding and the County added \$550,000 in one-time funding to create the Seattle-King County Immigrant Legal Defense Network (LDN) running through the end of 2018. The City, assuming it would continue to administer the joint program, renewed its commitment to invest \$1 million annually to the LDN in the 2019 Adopted and 2020 Endorsed Budget. Since the budget was adopted, Seattle and King County have worked to refine the program model and shifted funds to the County to administer. The ordinance associated with the five-year King County Veterans, Seniors and Human Services Levy (VSHSL) funding which supports the County contribution requires the County to conduct any procurement and evaluation processes associated with the VSHSL funding. As a result, the shift in contract administration to King County was necessary to allow continued joint funding of this regional program, though OIRA maintains a policy, planning and convening role. While this technical adjustment reduces OIRA's expenditure authority of the County's portion, the City's commitment to the LDN remains unchanged. Since starting in October 2017, the LDN has assisted over 700 individuals with legal advice and direct representation, and in placing them with pro bono attorneys.

City Council Changes to the Proposed Budget

As part of the adopted budget process, the City Council made two additions to the Office of Immigrant and Refugee Affairs.

The first addition provides \$375,000 in one-time funding to establish a Rapid Response program to support emergent needs. This funding will support efforts such as specialized legal clinics for Deferred Action for Childhood Arrivals (DACA) - eligible individuals and their families and other immigrants that will be impacted by rule changes to public charge, immigration fee increases, and the elimination of immigration fee waivers. The second addition provides \$50,000 in one-time funding to provide scholarships to DACA applicants to assist them in filing renewal applications.

Office of Immigrant and Refugee Affairs

Total 2020 Adopted Budget	\$4,379,420	9.50

Description of Incremental Budget Changes

Baseline

Citywide Adjustments for Standard Cost Changes

Expenditures \$6,769

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

DSHS grant expenditure and revenue reduced

Expenditures \$(390,000)

Revenues \$(390,000)

This technical change reduces the \$390,000 expenditure authority and revenue in the 2020 baseline which corresponds to WA Department of Social and Health Services funding awarded annually for a July-June contract

Office of Immigrant and Refugee Affairs

period, to support the New Citizen Program. In future this expenditure authority and revenue will be added via supplemental grant acceptance ordinance when received.

SHA grant expenditure and revenue reduced

Expenditures	\$(25,941)
Revenues	\$(25,941)

This technical change reduces the \$25,941 expenditure authority and revenue in the 2020 baseline which corresponds to Seattle Housing Authority funding awarded annually, to support the New Citizen Program. In future this expenditure authority and revenue will be added via supplemental grant acceptance ordinance when the award notification is received.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures	\$85,103
--------------	----------

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures	\$1,343
--------------	---------

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Proposed Technical

King County Funding to Legal Defense Network Reduction

Expenditures	\$(810,000)
--------------	-------------

This adjustment reduces OIRA's expenditure authority corresponding to the amount appropriated for King County's portion of 2020 funding for the Legal Defense Network (LDN). Per a Memorandum of Agreement, King County will administer the funds for both entities and not transfer the County funding to the City of Seattle.

Council

Addition of Funding for Immigration Renewal Application Scholarships

Expenditures	\$50,000
--------------	----------

This item adds \$50,000 in one-time funding to provide scholarships for renewal of Deferred Action for Childhood Arrivals (DACA) or Temporary Protected Status (TPS) applications.

Addition of Rapid Response Funding

Expenditures	\$375,000
--------------	-----------

This item adds \$375,000 in one-time funding to establish a Rapid Response Fund to support specialized legal informational clinics, fund additional community support for outreach regarding rule changes that impact access to services used by immigrant and refugee residents of Seattle, and respond to emerging immigration issues.

Seattle Information Technology Department

Saad Bashir, Chief Technology Officer

(206) 386-0026

<http://www.seattle.gov/seattleIT>

Department Overview

The Seattle Information Technology Department (Seattle IT) provides strategic direction for and management of the City's information technology resources. These include telecommunications, data, and supporting physical infrastructure; applications and application infrastructure; computer engineering and operations; data centers, servers, storage, and backup equipment; desktop, mobile, and printing devices; cloud services; digital engagement services; and the services to provide, maintain, and support the above for the City.

Seattle IT is a relatively new department, created in April 2016, comprised of information technology staff and resources previously located throughout City departments and in the City's previous IT department, the Department of Information Technology. With a full view of the City's IT needs, Seattle IT looks for opportunities to consolidate multi-department IT requests into one Citywide project, identifies similar programs that can share a common platform, and considers where a department may already have a solution that another department could utilize.

In 2019, Seattle IT implemented a reorganization to improve its ability to provide to best-in-class digital service. Seattle IT is now organized into 11 divisions: Frontline Digital Services; Digital Workplace; Business Applications; Platform Applications; Client Solutions; Executive Advisor; Service Modernization; Chief Privacy Officer; Digital Security & Risk; Technology Infrastructure; and the Chief of Staff.

The **Frontline Digital Services** Division is accountable for day to day client support and services, including device and customer support, web support, and IT service management.

The **Digital Workplace** Division provides modern tools and technologies for the City. The division endeavors to find all the processes the City is using and improve them with digital tools.

The **Business Applications** Division provides development and support for applications that are specific to departments' business needs, including finance and human resources, public safety and dispatch, and utility systems.

The **Platform Applications** Division manages enterprise-wide software solutions including GIS, CRM, and Permitting. The division's support ranges from ongoing software maintenance to enhancements and special projects.

The **Client Solutions** Division strategically leads departments through technology service delivery. The division is a part of the Seattle IT Leadership Team and plays a vital role in service delivery to its business customers.

The **Executive Advisor** Division oversees several business-critical areas including the City's cable television franchises, providing affordable high-speed internet access to residents, businesses, and institutions. The division maintains regular information exchanges with government stakeholders and oversees the departments Race and Social Justice initiative including digital equity.

The **Service Modernization** Division addresses new functionality and plans a modern approach to Best-in-Class digital service.

The **Chief Privacy Officer** Division provides structure and guidance essential for City departments to fully incorporate appropriate privacy practices into daily operations, and to build public trust and confidence in how we collect and manage the public's personal information.

Seattle Information Technology Department

The **Digital Security & Risk** Division balances safeguarding the City's assets, infrastructure, and the information entrusted to the City with the City's commitment to openness, transparency, equity, and innovation.

The **Technology Infrastructure** Division manages the back-end infrastructure of the organization.

The **Chief of Staff** Division provides the services that enable the successful operation of the department including corporate performance management, budget, finance, accounting, human resources, communications, administrative, contracting and purchasing services.

As an internal service department, Seattle IT provides services to other City departments that in turn pay Seattle IT for the services they purchase. As such, Seattle IT receives revenue from most of the major fund sources within the City, including the General Fund, Seattle City Light, Seattle Public Utilities, Seattle Department of Transportation, Seattle Department of Construction and Inspections and the Retirement Fund. Seattle IT also receives funds from the City's Cable Television Fund, grants and other government agencies external to the City (e.g., Seattle Public Schools, the Port of Seattle) that buy Seattle IT services for special projects.

Cable Fund Overview

Beginning in 1996, the City of Seattle entered into cable franchise agreements that included a franchise fee as compensation for cable television providers locating in the public right-of-way. The City has approved franchises with CenturyLink, Comcast and Wave Division I.

The Cable Television Franchise Fund (created by Ordinance 118196) revenues come from the franchise fee collected from the agreements. Related expenditures are budgeted in Seattle IT and charged to the Cable Television Franchise Fund. Resolution 30379 establishes usage policies for the fund. The fund pays for the following services:

- administration of the Cable Customer Bill of Rights as well as the public, education, and government access costs the City is obligated to fund under the terms of its cable franchise agreements;
- support of the Seattle Channel, including both operations and capital equipment;
- programs and projects promoting technology literacy and access, including related research, analysis, and evaluation; and
- use of innovative and interactive technology, including television and online content, to provide ways for residents to access City services.

Seattle Information Technology Department

Budget Overview

To develop the 2020 Adopted Budget, the Seattle Information Technology Department (Seattle IT) solicited new information technology (IT) project proposals from departments; evaluated proposals based on need, security, compliance and cost; looked for opportunities to create efficiencies and invest in common platforms; and approved individual department IT requests. The adopted budget reflects Seattle IT's new vision of providing best in-class digital services and follows six primary objectives: to be connective and collaborative, to be efficient and flexible, to continually invest in talent and capabilities, to be modern and innovative, to be reliable and sustainable, and to focus on privacy and transparency.

Reorganization of Seattle IT's Structure

The adopted budget includes adjustments to reflect the Seattle IT reorganization implemented in May 2019. The reorganization has five outcomes:

- simplify reporting relationships to improve the paces of decision-making;
- group similar components to deliberately increase collaboration;
- pivot every inch of Seattle IT to be innovation savvy that provides leadership to the rest of the organization;
- create a transparent view of Seattle IT for the benefit of stakeholders; and
- activate critical back office support functions to enable the rest of Seattle IT for success.

Budget Efficiencies

Seattle IT reviewed its budget to find reductions that would not impact the delivery of core services. The 2020 Adopted Budget includes a 1% increase in the assumed employee vacancy rate for Seattle IT, increasing it from 3% to 4%.

Seattle IT Initiatives

The 2020 Adopted Budget includes funding for Seattle IT to enhance its service delivery and implement new projects on behalf of the City. Key changes to improve the delivery of IT services include additional staffing to increase capacity for Seattle IT's Finance team and the Seattle City Light and Seattle Public Utilities Customer Information System. In addition, the adopted budget provides appropriation authority for the following IT Initiatives projects:

- Accela is the City's preferred application for permitting systems. As more departments move on to the platform, Seattle IT needs to increase its ongoing technical and customer relations support. The 2020 Adopted Budget includes additional resources to support the Accela permitting system.
- Seattle IT will maintain applications created during the first round of the Innovation Advisory Council (IAC) projects. The IAC was launched on August 2, 2018, by way of an Executive Order signed by Mayor Durkan. It includes a range of our region's most innovative companies committed to sharing insights and expertise with the City as the City develops data-driven technological approaches to addressing our priority areas of homelessness, affordability, and delivery of basic services. These applications include a youth opportunity portal and an application to support the City's Navigation Teams.

Cable Television Franchise Fund Budget Efficiencies

The Cable Television Franchise Fund receives revenues from cable television provider franchise fees. The 2020 Adopted Budget continues previous uses of the Cable Fund for programs such as the Seattle Channel, the Cable

Seattle Information Technology Department

Customer Bill of Rights, initiatives that promote technology literacy and access, and technology that provides ways for residents to access City services.

Cable franchise fee revenues declined significantly from 2018 to 2019. Revenues continue to fall and will steadily decline in future years as Seattle residents increasingly discontinue their cable television service in favor of internet-based streaming video services that are not subject to the City's regulatory structure. The 2020 budget reduces expenditures for programming that has historically been supported by the Cable Fund including reducing some contracted services and identifying alternative funding sources to replace the use of the Cable Fund. Seattle IT is closely monitoring quarterly franchise payments to determine the level of future reductions that will be necessary.

Department Initiatives

Seattle IT's budget includes funding for eight department-specific IT projects for which Seattle IT will do the work and collect revenues from the respective departments. These project funds are appropriated in both Seattle IT and in department budgets. These projects are shown in the Seattle IT budget book pages; however, the detail for these projects are included in the budget book sections for the individual departments. Please see the individual departments' budget book sections for more details.

Technical Changes

The adopted budget includes technical adjustments to implement a rebate for the reconciliation of the 2018 actual spending to revenues, and to increase the appropriation for maintenance and other standard annual cost increases.

- Seattle IT has performed a rate reconciliation of the 2018 shared services operating costs comparing revenues to actual expenditures. Seattle IT will rebate the amount that is underspend from the 2018 revenue collection. Seattle IT is committed to conducting this reconciliation annually.
- Seattle IT faces increased costs of existing systems and software licensing under contract as well as an increase in the leasing cost of a radio site.

The adopted budget also includes adjustments to add permanent positions to replace contract-in position, remove an Office Management Aide position, adjust budget system license cost revenues to accurately reflect the departments' licenses, align funding with planned spending in the 6-year Capital Improvement Program (CIP), reflect changes made through supplemental budget legislation, adjust for State Paid Family Medical Leave increase, add 2020 coalition and non-represented annual wage increases, and update internal service costs.

City Council Changes to the Proposed Budget

The adopted budget assumes that in 2020, there will be a rebate of \$750,000 of one-time General Fund revenue from the 'true-up' of Seattle Information Technology's 2019 Internal Services rates with actual service costs. The actual amount of the rebate was not known when the Council adopted the budget and may be more or less than \$750,000. This change was reflected in the overall balancing of the General Fund and does not affect Seattle IT's 2020 appropriation authority. The adopted budget also assumes that there will continue to be future rebates of \$750,000 to the General Fund on an ongoing basis. However, it is not possible to predict whether there will be future rebates or what the amounts will be.

The City Council also approved a correction to errata in Seattle IT's CIP. The action reduces the LTGO Bonds and expenditure authority for the Computing Services Architecture project.

Description of Incremental Budget Changes

Baseline

2020 Seattle IT Baseline CIP Adjustment

Expenditures -

This technical CIP adjustments applies Council changes made during 2019 to the "out years" (2020-2024) of the CIP projects. This change reestablishes the budget from which the 2020-2025 Adopted CIP incremental changes are applied.

Citywide Adjustments for Standard Cost Changes

Expenditures \$205,772

Revenues \$205,772

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Seattle IT Baseline Changes

Expenditures \$218,734

This item adjusts the adopted budget for baseline changes including inflation, and resource realignment.

Proposed Operating

Increase Vacancy Rate by 1%

Expenditures \$(1,038,035)

Revenues \$(1,038,035)

This item increases the department's employee vacancy rate assumption in the budget from 3% to 4%. By adjusting the vacancy rate assumption, the reduction better aligns the 2020 budget with the expected vacancy rate.

Seattle Information Technology Department

Reduce Excess Space Rent Budget

Expenditures	\$(1,018,256)
Revenues	\$(1,018,256)

This item aligns the space rent budget to the amount in the Central Cost Manual.

Increase Staff Support for Accela Program

Expenditures	\$1,326,750
Revenues	\$1,326,750
Position Allocation	8.50

This item adds positions to the Accela Program to fill the operating gaps that have emerged as more departments are using the system. The positions will support quality testing, operation and release management, systems analysis work for departments, and external customer support. Several of these positions fill roles currently filled by temporary or contracted positions.

Seattle Police Department Records Management System Maintenance

Expenditures	\$822,000
Revenues	\$822,000

This item provides funding for the annual maintenance contract cost for the new Seattle Police Department records management system.

Earthquake Early Warning

Expenditures	\$10,000
Revenues	\$10,000

This item adds ongoing funding to support an earthquake early warning system for the City. Under the leadership of the City's Innovation Advisory Council, the Earthquake Early Warning project seeks to build a last-mile alert prototype to deliver early warning of impending hazardous ground shaking to key public safety officials.

Navigation Team App 2.0

Expenditures	\$10,000
Revenues	\$10,000

This item adds ongoing funding to support the work of the Navigation Team's NavApp 2.0 project. Under the leadership of the City's Innovation Advisory Council, NavApp 2.0 seeks to improve the Navigation Team's ability to use data to connect unsheltered individuals with existing services and create faster resolutions to hazardous situations.

Youth Opportunity Portal

Expenditures	\$10,000
Revenues	\$10,000

This item adds ongoing funding to support the Youth Opportunity Portal project. Under the leadership of the City's Innovation Advisory Council, the Youth Opportunity Portal project seeks to create a central online website and a centralized application platform for youth programs.

Seattle Information Technology Department

Add Staff to Support Customer Information System Reporting

Expenditures	\$302,206
Revenues	\$302,206
Position Allocation	2.00

This item adds funding for two developers at the Information Technology Professional-B level to support Seattle City Light (SCL) and Seattle Public Utilities (SPU) to build out and sustain data platforms to support customer information system reporting requirements. The data reporting work will provide reports to SCL and SPU that inform business decisions.

Capitol Hill Radio Lease Funding

Expenditures	\$145,000
Revenues	\$145,000

Seattle IT is operating under a new lease for the Capitol Hill radio site, a commercial tower infrastructure asset that provides services to critical City communications equipment. The new lease increases the City's expenditures by \$60,000 in 2019 and \$145,000 in 2020.

Change Allocation Methodology for Compliance Service

Expenditures	\$21,581
Revenues	\$21,581

This item changes the cost recovery methodology for the Compliance project from the number of transactions and devices to the average IT allocation. Considering the continual evolution of technology and associated risks/threats, and the growing areas of compliance, Seattle IT (ITD) expanded the scope of the compliance group from solely focusing on payment compliance and account data protection-related standards to a single team focused on the broader spectrum of compliance. This changes the allocation methodology metric to one more appropriate for the broader scope of the combined team.

The increase in budget is a technical change related to ITD's own consumption of services which is higher in the new metric than in the old. Because these costs are double-budgeted within ITD as part of their indirect cost distribution, additional appropriation authority is needed. The total amount included in rates to customers is not changing.

IT Infrastructure Maintenance Funding

Expenditures	\$613,000
Revenues	\$613,000

This item increases the budget for annual maintenance/licensing renewals of server/storage contracts and network/telecommunications contracts. This increase in cost is driven by increased customer usage and vendor inflation.

Budget Change Overhead Impacts

Expenditures	\$325,501
Revenues	\$325,501

This item represents the changes to Seattle IT overhead from the items included in rate calculations. Seattle IT recovers revenue for its use of technology services. The adopted budget changes include changes that increase

Seattle Information Technology Department

Seattle IT's use of technology services, leading to a need for an increase in appropriations. This is a technical change and does not affect customer rates.

Seattle IT Reorganization Budget Alignment

Expenditures	\$ (138,777)
--------------	--------------

This item aligns Seattle IT's baseline budget with the Department's new organizational structure. The difference between the old baseline and the new is a decrease in Seattle IT's use of technology services.

Transfer Seattle City Light (SCL) Internal Operating Initiatives Funds to SCL

Expenditures	\$ (1,608,407)
Revenues	\$ (1,608,407)

This item transfers the funds in the Seattle City Light (SCL) Internal Operating Initiatives project back to Seattle City Light. This project is a holding project for the non-capitalizable portion of SCL's IT project funding. Rather than maintain a holding project for upcoming projects, Seattle IT will change to budgeting each project individually, as is consistent with the projects of other departments.

Utility Customer Self-Service Support

Expenditures	\$ 158,131
Revenues	\$ 158,131

This item funds ongoing support and maintenance agreement with Milestone Utility Services, Inc. for the utility customer self-service portal application ("EPORTAL") implemented in 2019.

Cable Fund: Convert a Position to Single Point of Contact on Small Cell for Carriers

Expenditures	-
--------------	---

This item transfers a Strategic Advisor 2 position from the Digital Equity project to a newly created project to support the telecommunication industry transition to 5G deployment which will require low power, short range wireless transmission systems (also known as small cells). As the industry moves towards 5G deployment, this role will help coordinate City activities in support of the transitions. Currently an Interdepartmental Team (IDT) helps coordinate this activity and the processes necessary to provide space on City structures (e.g. utility poles). The IDT has identified a need for a single point of contact for this work. This position will address this need. This change shifts funding for this position from the Cable Fund to be supported by fees the City charges carriers.

Cable Fund: Eliminate Digital Equity Manager Position

Expenditures	\$ (178,256)
Revenues	\$ (178,256)
Position Allocation	(1.00)

This item eliminates funding for the vacant Digital Equity Manager position. Other Seattle IT staff will assume the program and personnel management responsibilities of this positions.

Seattle Information Technology Department

Cable Fund: Eliminate Funding for a Temporary Community Technology Outreach Coordinator Position

Expenditures	\$(167,350)
Revenues	\$(167,350)

This item eliminates funding to support a temporary Community Technology Outreach Coordinator position in the Digital Equity program. This position supports the Community Technology Advisory Board and the Surveillance Working Group. Seattle IT will shift the work to support the advisory board and working group to other staff in the department.

Cable Fund: Eliminate Open Data Manager Position

Expenditures	\$(165,032)
Revenues	\$(165,032)
Position Allocation	(1.00)

This item eliminates funding for Seattle IT's vacant Open Data Manager position. With the department's recent reorganization, the Open Data program has merged with other data services, and Seattle IT will leverage other resources to fulfill this function.

Cable Fund: Align Funding for Ytech Digital Pathways Program

Expenditures	\$(45,000)
Revenues	\$(45,000)

This item aligns the funding from the Community Technology Services project to reflect the 2019 contract amount of \$45,000 per year to support the Greater Seattle YMCA's YTech Digital Pathways program. YTech provides workshops targeted at young adults experiencing or at risk of homelessness, focusing on real-world digital skills that will increase participant access to employment, education and other important resources, including housing, and healthcare. It also offers a weekly after-school program for middle and high school students, intended to help build a bridge between low income youth, youth of color, immigrant and refugee youth, and Seattle's tech economy.

Cable Fund: Reduce Seattle Channel CIP Budget

Expenditures	\$(75,000)
Revenues	\$(75,000)

This item reduces the Seattle Channel's Capital Improvement Plan budget for equipment and equipment maintenance services to address shortfalls in revenues in the Cable Fund. The reduction of the capital budget may reduce the amount and quality of equipment the Channel procures to produce its programming and will require an extension of maintenance contracts on some equipment.

Cable Fund: Reduction of Seattle Channel Contracted Services

Expenditures	\$(202,700)
Revenues	\$(202,700)

This item is a budget reduction to respond to Cable Fund revenue shortfalls. The reduction of contractor services will result in a reduction of resources needed to produce some Seattle Channel programs and will reduce the overall frequency of some of the programs the Channel delivers.

Seattle Information Technology Department

Cable Fund: Transfer Digital Media Specialist Position to Communications

Expenditures	-
Revenues	-
Position Allocation	-

This item transfers the Digital Media Specialist position to Seattle IT's Communications team. As a part of Seattle IT's recent reorganization, the department identified this position as a better resource for the Communications team and it will now be supported by Seattle IT rates rather than the Cable Fund. This change does not lead to service-level impacts.

Cable Fund: Transfer Information Technology Professional-C to Public Engagement

Expenditures	-
Position Allocation	-

This item transfers an Information Technology Professional-C (ITP-C) position from the Seattle Channel to the Public Engagement team. This position currently supports the Seattle Channel website and this change incorporates those responsibilities into the overall web work of the Public Engagement team. This position will now be supported by Seattle IT rates rather than the Cable Fund.

Cable Fund: Transfer Seattle Channel Position to Seattle IT (ITD) Communications Team

Expenditures	-
Revenues	-
Position Allocation	-

This item transfers the Seattle Channel Communications Manager to Seattle IT's core Communications team in Finance & Administration. Combining the staff into a single team will eliminate duplicative efforts and allow the department to better focus its communications resources both internally and externally. Support will continue to be provided to the Seattle Channel, but within the broader context of external communications for the Department at large. This position will now be supported by Seattle IT rates rather than the Cable Fund.

Cable Fund: Library Levy Wi-Fi Hotspots Revenue Change

Expenditures	\$(642,000)
--------------	-------------

The 2019 Library Levy includes funding for SPL's Wi-Fi hotspots and digital equity program. Previously, this program was funded by the Cable Fund. This item adjusts the Cable Fund budget to reflect that the program is now budgeted in the Library Levy.

Cable Fund: Substitute Cable Fund with General Fund

Expenditures	-
--------------	---

This item provides \$750,000 of ongoing General Fund support for the Digital Equity program in the Seattle Information Technology Department which was previously supported by Cable Franchise Fees. Cable Television Fund revenues are steadily declining and these funds enable continuation of the program.

Seattle Department of Construction and Inspections Accela Work Group

Expenditures	\$1,601,218
Revenues	\$1,601,218
Position Allocation	9.00

Seattle Information Technology Department

This action establishes a dedicated Seattle Information Technology Department (Seattle IT) project and provides nine positions in Seattle IT for the Seattle Department of Construction and Inspection's (SDCI's) Accela work items. The project supports ongoing innovation and enhancements that maximize efficiency and optimize customer experiences with permitting technology. This item allows quick response to new legislation and Mayor's Office priorities that require changes to Accela and related side systems; it also supports continued improvements to Accela as identified by SDCI. Of this amount, \$25,425 is one-time and the remainder is ongoing. This item is supported by permit fee revenues from the Construction and Inspections Fund.

Seattle Department of Construction and Inspections Laptop Purchase

Expenditures	\$401,465
Revenues	\$401,465

These funds support the Seattle Department of Construction and Inspection's purchase of 140 laptops and laptop accessories. This one-time purchase of laptops will replace desktop computers. General Fund supports \$34,411 of this item and the remaining \$367,054 is from the Construction and Inspections Fund.

Seattle Department of Transportation Permitting Archives

Expenditures	\$235,686
Revenues	\$235,686

The State of Washington requires that the City keep permit records for 6 to 10 years. This one-time item, funded by Street Use fees, will create an archive of the SDOT's current legacy permitting system (Hansen), which is at the end of its life and is being replaced by Accela. This project has two parts: Part 1 will migrate active records to Accela; Part 2 will develop a user-friendly mechanism to enable the business to readily store and search historical data that does not get converted into Accela (closed, inactive records). Enabling access to legacy data will allow the business to more readily research claims and other questions related to historical permit data.

Department of Education and Early Learning Child Information and Provider System Enhancements

Expenditures	\$322,388
Revenues	\$322,388

This item continues enhancement and expansion work on the existing Child Information and Provider System (CHIPS), an in-house customer relationship management platform used to manage the application, enrollment, and data monitoring for early learning providers that contract with DEEL.

Finance and Administrative Services FleetAnywhere Hosted Solution

Expenditures	\$203,917
Revenues	\$203,917

This project migrates the Department of Finance and Administrative Services' Fleet Management Division's work order system, FleetAnywhere, to a hosted environment on the cloud. Moving to a hosted environment will decrease the amount of time the positions in Seattle IT and the business devote to servicing the system.

Seattle Department of Human Resources Compensation Assignment Reporting and Tracking System Replacement

Expenditures	\$527,329
Revenues	\$527,329

The Seattle Department of Human Resources (SDHR) Shared Administrative Services division is replacing their 27-year-old Compensation Assignment Reporting and Tracking System (CARATS) software with 21st century software

Seattle Information Technology Department

and workflow tools to include new functionality, tracking, monitoring, stakeholder notification and real-time information capabilities. CARATS software was developed in-house and is minimally supported by Seattle IT. SDHR will partner with Seattle IT to either identify and leverage existing tools or pursue a software solution.

Seattle Department of Human Resources Human Capital Management Scoping Study

Expenditures	\$175,000
Revenues	\$175,000

This item adds funding for consulting services to complete the initial scoping and planning phase of the Human Capital Management (HCM) System project. The system currently used for employee timekeeping, payroll, and basic HR management functions is more than 20 years old. An initiative is underway to upgrade, stabilize, and extend the existing vendor contract to enable the systems to remain in place for a 5-year period while the City plans and implements a modern HCM platform.

Seattle Police Department Computer Aided Dispatch Replacement

Expenditures	\$2,675,343
Revenues	\$2,675,343

The Seattle Police Department's (SPD) Computer Aided Dispatch (CAD) system was implemented in 2008. The system manages the in-flow of calls to SPD's 9-1-1 center and ensures that the calls can get to officers in the field and that relevant caller information is relayed to patrol officers. The current CAD system has not been updated to take advantage of new technologies such as Next Generation 911 systems that integrate information from cell phone data for a faster, more accurate 911 response.

Upgrading the CAD system will allow police officers to respond more quickly and will provide resiliency and redundancy to the 911 system, especially in disaster situations. A new CAD system will also integrate with a variety of SPD systems to allow for in-depth look-up capabilities by dispatchers and officers.

Existing funds within SPD's budget, revenue from the King County E-911 levy, and savings from the records management project have been allocated to fund the project.

Proposed Technical

Eliminate Office Management Aide Position

Position Allocation	(1.00)
---------------------	--------

This item eliminates a position which was mistakenly added in the 2019 Adopted Budget. This position class is centrally held by Seattle Department of Human Resources (SDHR), therefore Seattle IT is removing this position because it is not needed by SDHR.

2018 Revenue True Up Technical Adjustment

Expenditures	\$8,054,543
--------------	-------------

Seattle IT has performed a rate reconciliation of the 2018 budgeted shared services operating costs comparing revenues to actual expenditures. Seattle IT will rebate the amount that is underspend from the 2018 revenue collection. This item provides Seattle IT with the needed legal appropriation to refund savings to departments as a part of the 2018 rate reconciliation. Seattle IT will conduct this reconciliation annually.

Seattle Information Technology Department

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures	\$4,160,058
Revenues	\$4,160,075

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures	\$119,000
Revenues	\$119,000

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Abandon Unfunded Tech Management Tools Budget

Expenditures	\$(2,933,327)
Revenues	\$(2,933,327)

This item abandons the unfunded portion of the Tech Management Tools project budget. A placeholder bond funding request for a tools refresh was included in the 2020 Endorsed Budget. With the recent launch of its new Service HUB system and the increasing switch to software as a service-based applications and toolsets, Seattle IT does need bond funds for Tech Management Tools in 2020.

Add Five Positions to Replace Contract-In Positions

Position Allocation	5.00
---------------------	------

This item creates new permanent positions for five contract-in positions. As a part of consolidation, five contract-in positions transferred from Seattle City Light to Seattle IT (ITD). ITD was unaware that these were contract-in positions which are held centrally in the Seattle Department of Human Resources and is converting them to regular positions. There is no rate or financial impact, as these positions are already funded in ITD's budget

Add Strategic Advisor 1 to Finance & Administration

Expenditures	-
Revenues	-
Position Allocation	1.00

This item adds a Strategic Advisor 1 to the Finance Team. This position will complete complex financial analyses to better support Seattle IT division leaders and drive operational efficiency.

Cable Fund: Transfer Strategic Advisor 2 Position to Enterprise Planning

Expenditures	-
Revenues	-
Position Allocation	-

This item transfers the Smart City Coordinator position to Seattle IT's Governance and Strategic Initiatives project. Originally this position was conceived of to support Seattle's Smart City Initiatives in technology. As such, it was

Seattle Information Technology Department

funded by the Cable Fund given the externally focused nature of its work. However, this position now serves as a broader technology policy advisor working on issues which span the City. As such, the position is more appropriately funded from a broader source of funds and placed within a team with that broader scope of responsibilities.

Central Cost Manual Technical Adjustment

Expenditures	-
Revenues	-

This item shifts the Citywide Central Cost Manual adjustments to better align with where the related expenses are assigned in Seattle IT's budget.

Department Specific Maintenance True Up

Expenditures	\$33,186
Revenues	\$33,186

This item realigns the maintenance funding needed for two of Seattle IT's (ITD) maintenance projects. These two projects in Seattle IT allow ITD to directly assign costs for unique maintenance items to the requesting department. This item ensures that department rates closely match the projected 2020 maintenance spending. Major changes include adding funding for Oracle SKIRE, a Department of Finance and Administrative Services project, and DynamicCRM, a multi-department project.

Questica Subscription Fees

Expenditures	-
--------------	---

This item realigns the maintenance budget within the Applications BSL to fund ongoing Questica subscription fees. Questica is the budget system used by the City Budget Office and the City Council.

Seattle Public Utilities (SPU) CIP Technical Adjustment

Expenditures	\$1,950,000
Revenues	\$1,950,000

This item increases appropriation authority to align the Applications BSL budget with the anticipated Seattle Public Utilities' CIP budget for technology projects in 2020.

Seattle Public Utilities (SPU) Positions Transfer

Expenditures	\$(320,320)
Revenues	\$(320,320)
Position Allocation	(2.00)

This item is a 2019 supplemental item that transfers two positions back to the Seattle Public Utilities. These positions support the utility's Integrated Security System (ISS) which is an Operational Technology system. ISS is a combination of software, hardware, databases, peripherals (cameras, etc.) and network services to protect SPU critical infrastructure and facilities. The ISS is used to control physical access to facilities and trigger alarms in response to security events at multiple sites both in the City (reservoirs, transfer stations, pump stations, etc.) and in eastern King County (dams, water treatment facilities, transmission lines, etc.).

Seattle Information Technology Department

Transfer Network CIP Budget to Operating – Capital Decrease

Expenditures	\$ (500,000)
--------------	--------------

This item transfers \$500,000 from the network CIP budget to the network operational budget to align budget with expected spending.

Transfer Network CIP Budget to Operating – Operating Increase

Expenditures	\$500,000
--------------	-----------

This item transfers \$500,000 from the network CIP budget to the network operational budget to align budget with expected spending.

Transfer Position to Accela

Expenditures	-
Revenues	-
Position Allocation	-

This item transfers an Info Technol Prof B-BU from the Frontline Digital Services Division to the Accela project in the Platform Applications Division.

Transfer Security CIP Funding to Operating and Abandon Unfunded Budget – Capital Decrease

Expenditures	\$ (919,803)
Revenues	\$ (680,689)

This item abandons the unfunded portion of the IT Security CIP project and transfers the remaining CIP budget to the Digital Security & Risk BSL's Operating Budget. The IT Security CIP project was created to fund major upgrades and product implementations to enhance the security of the City of Seattle's networks and systems. With the shift in the technology environment to service based, rather than on-premise, the enhancements and upgrades planned by Seattle IT to improve security do not qualify as capital purchases and should not be included in the CIP program.

Transfer Security CIP Funding to Operating and Abandon Unfunded Budget – Operating Increase

Expenditures	\$836,709
Revenues	\$597,595

This item abandons the unfunded portion of the IT Security CIP project and transfers the remaining CIP budget to the Digital Security & Risk BSL's Operating Budget.

Transfer Tech Management Tools Maintenance Funding to Operating – Capital Decrease

Expenditures	\$ (43,288)
Revenues	\$ (43,288)

This item transfers the Tech Management Tools maintenance budget from Seattle IT's CIP budget to its operations and maintenance budget. Ongoing maintenance costs should be in Seattle IT's operating budget rather than the capital budget.

Transfer Tech Management Tools Maintenance Funding to Operating – Operating Increase

Expenditures	\$43,288
Revenues	\$43,288

Seattle Information Technology Department

This item transfers the Tech Management Tools maintenance budget from Seattle IT's CIP budget to its operations and maintenance budget. Ongoing maintenance costs for Tech Management Tools should be in Seattle IT's operating budget rather than the capital budget.

Cable Fund Technical Adjustments

Expenditures \$(1,799,275)

This item adjusts the Cable Television Franchise Fee Fund (10101) budget to reflect the impact of changes with the Seattle Information Technology Operating Fund (50410) involving the use of Franchise Fee revenue. This change reflects budget changes as well as changes in methodologies that impact Cable-funded projects and shared services. Additionally, the Cable Fund efficiencies, as well as items that reduce the revenue from Cable Fund in the Seattle Information Technology Operating Fund, are included in this change to the Cable Television Franchise Fee Fund budget authority.

Office of Intergovernmental Relations

Lily Wilson-Codega, Director

(206) 684-0213

<http://www.seattle.gov/oir>

Department Overview

The Office of Intergovernmental Relations (OIR) provides advice and information to, and on behalf of, City elected officials, City departments, and external partners. The primary goal of these efforts is to ensure the City's interests are advanced with regional, state, federal, tribal, and international entities to enable the City to better serve the Seattle community.

* FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Budget Overview

The Office of Intergovernmental Relations (OIR) is responsible for engaging with other jurisdictions and governmental entities to collaborate and advocate for outcomes that are in the interest of the City and region. OIR implements and manages lobbying contracts and ensures the City's lobbying resources align with the City's strategic advocacy priorities.

The 2020 Adopted Budget restores funding to OIR to support the City's membership in the Association of Washington Cities (AWC) after the 2019 Adopted Budget reduced funding. AWC has also changed its dues structure resulting in higher dues for 2020 and future years.

City Council Changes to the Proposed Budget

The City Council made no changes to OIR's 2020 Proposed Budget.

Office of Intergovernmental Relations

Incremental Budget Changes

Office of Intergovernmental Relations

	2020 Budget	FTE
Total 2020 Endorsed Budget	2,744,100	10.00
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	115,961	-
2020 State Paid Family Medical Leave Increase Base Budget	1,875	-
AWC Baseline Adjustment and Increase	110,000	-
Citywide Adjustments for Standard Cost Changes	18,638	-
Total Incremental Changes	\$246,474	-
Total 2020 Adopted Budget	\$2,990,574	10.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$115,961

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$1,875

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

AWC Baseline Adjustment and Increase

Expenditures \$110,000

Since the 1990s, the City of Seattle has paid \$100,000 per year to be a member of the Association of Washington Cities (AWC). In 2018, the AWC changed its dues structure and the City's dues will increase \$5,000 a year over the next five years. In 2019, the City's dues will be \$105,000 and \$110,000 in 2020. The 2020 Adopted Budget includes the full \$110,000 allocation to restore funding after a reduction in the 2019 Adopted Budget.

Office of Intergovernmental Relations

Citywide Adjustments for Standard Cost Changes

Expenditures	\$18,638
--------------	----------

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Appropriations by Budget Summary Level and Program

OIR - BO-IR-X1G00 - Office of Intergovernmental Relations

The purpose of the Intergovernmental Relations Budget Summary Level is to promote and protect the City's federal, state, regional, tribal, and international interests by providing strategic advice, representation, and advocacy to, and on behalf of, City elected officials on a variety of issues. These include: federal and state executive and legislative actions; issues and events relating to the City's tribal and international relations; and jurisdictional issues involving King County, suburban cities, and regional governmental organizations.

Office of Labor Standards

Martin S. Garfinkel, Director

(206) 256-5297

www.seattle.gov/laborstandards

Department Overview

The mission of the Office of Labor Standards (OLS) is to advance labor standards through thoughtful community and business engagement, strategic enforcement, and innovative policy development, with a commitment to race and social justice. The Office of Labor Standards focuses on the implementation of labor standards for employees working within Seattle city limits. Effective January 2020, there are 13 such standards, established through City ordinances and a City initiative:

- **Paid Sick and Safe Time Ordinance**, requiring employers with more than four full-time equivalent employees to provide paid sick and safe time;
- **Fair Chance Employment Ordinance**, restricting how employers can use conviction and arrest records during the hiring process and course of employment;
- **Minimum Wage Ordinance**, establishing a minimum hourly wage that will rise to \$15/hour for all employees in the city by 2021;
- **Wage Theft Ordinance**, requiring employers to provide written notice of employment information and pay all compensation due by reason of employment (including wages and tips) on a regular pay day;
- **Secure Scheduling Ordinance**, establishing scheduling requirements for covered retail and food service establishments to provide schedule predictability and increased access to hours;
- **Domestic Workers Ordinance**, which provides protections for domestic workers and establishes a Domestic Workers Standards Board; and
- **Commuter Benefits Ordinance**, requiring employers to provide commuter benefits on a pre-tax basis (OLS enforcement begins in January 2021).

Two ordinances protect the rights of drivers for transportation network companies (i.e. Uber and Lyft):

- **Transportation Network Company Driver Deactivation Rights Ordinance** gives TNC drivers the right to challenge unwarranted deactivations before a neutral arbitrator, and creates a Driver Resolution Center to provide representation for drivers; and
- **Transportation Network Company Minimum Compensation Ordinance** requires that TNC drivers should be paid at least the minimum wage and be reimbursed for expenses and funds a study to determine the precise method for accomplishing this goal.

Four ordinances protect the rights of hotel workers:

- **Hotel Employee Safety Protections Ordinance** requires employers to take certain steps to prevent and report violent and harassing conduct by guests and to support employees who report this misconduct;
- **The Protecting Hotel Employees from Injury Ordinance** limits the workload of employees who clean hotel rooms to reduce the frequency and occurrence of injuries associated with room cleaning;
- **The Improving Access to Medical Care for Hotel Employees Ordinance** requires employers to provide employees working in large hotels with increased access to medical care; and
- **The Hotel Employees Job Retention Ordinance** requires employers to take certain actions to reduce job insecurity in the hospitality industry.

OLS provides education and technical assistance to the business and worker communities. As a part of these efforts, OLS manages the **Community Outreach and Education Fund** to foster collaboration between OLS and the community with funds to develop awareness and understanding of the worker rights provided by Seattle's labor standards. The office also manages the **Business Outreach and Education Fund** which provides technical assistance

Office of Labor Standards

to small businesses to increase compliance with Seattle's labor standards. The fund emphasizes outreach to businesses owned by low-income and historically disenfranchised communities who typically are not served by traditional outreach methods.

OLS also provides technical, policy, and administrative support for the Labor Standards Advisory Commission, consisting of 15 members who advise on matters related to labor standards , as well as to the recently created Domestic Workers Standards Board, a nine member body that advises on issues related to workplace protections for domestic workers.

Budget Overview

The 2020 Adopted Budget maintains resources and staff to support the significant ongoing work of the Office of Labor Standards. This includes sustained funding for 5 FTEs that were added in the 2019 budget to support the increased capacity needs of the office and to support the Domestic Workers Ordinance enacted in July 2018. In addition to the City ordinances that OLS currently enforces (Paid Sick and Safe Time, Fair Chance Employment, Minimum Wage, Wage Theft, Secure Scheduling, and Domestic Workers), OLS will begin to implement in 2020 the Commuter Benefits Ordinance, four new ordinances protecting hotel workers and two new ordinances protecting drivers for transportation network companies. Over 54,000 employers are required to comply with, and over 580,000 workers are protected by, at least some of the laws enforced by OLS.

The 2020 Adopted Budget provides OLS with a number of technical adjustments, the biggest of which will cover agreements with the Coalition of Unions.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Office of Labor Standards

Incremental Budget Changes

Office of Labor Standards

	2020 Budget	FTE

Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	345,045	-
2020 State Paid Family Medical Leave Increase Base Budget	2,962	-
Citywide Adjustments for Standard Cost Changes	79,212	-
Proposed Technical		
Technical Adjustment for OLS Space Rent	(219,649)	-
Total Incremental Changes	\$207,570	-
Total 2020 Adopted Budget	\$6,864,873	28.00

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures	\$345,045
Revenues	\$345,045

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures	\$2,962
Revenues	\$2,962

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures	\$79,212
Revenues	\$79,212

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer

Office of Labor Standards

of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Technical

Technical Adjustment for OLS Space Rent

Expenditures	\$ (219,649)
Revenues	\$ (219,649)

This is a technical adjustment to the baseline budget of the Office of Labor Standards in the amount of \$219,649. This adjustment corrects previous estimates for lease increase.

Legislative Department

Bruce Harrell, Council President
(206) 684-8888 TTY: (206) 233-0025
<http://www.seattle.gov/council/>

Department Overview

The Legislative Department is comprised of the Seattle City Council, as well as two primary divisions: Central Staff and the Office of the City Clerk. Each division supports various aspects of the Council and works with members of the public and City departments to facilitate and develop effective and responsive public policy. The Council and Legislative Department are part of the legislative branch of government, which also includes the Office of City Auditor, the Office of Hearing Examiner, and the Office of Inspector General.

The Council is composed of two at-large and seven district-elected seats for a total of nine, nonpartisan, elected Councilmembers. In November 2015, seven district Councilmembers were elected to a four-year term beginning in 2016. Two at-large Councilmembers were elected to an initial two-year term to align with the election for a four-year term with the Mayor and City Attorney election in 2017. This approach staggers the district and at-large elections two years apart in future years.

The City Council establishes city laws; creates, evaluates and approves policies, legislation, and regulations; approves the City's annual operating and capital improvement budgets; and provides oversight to the City's executive departments. Each Councilmember has a staff of legislative assistants who assist in this work.

Central Staff provides policy and budget analysis for Councilmembers and their staffs, as well as consultant contract services for the Legislative Department. The Office of the City Clerk advances principles of open government and inclusive access through effective facilitation of the legislative process and transparent, accountable stewardship of public information and the official record, including City Council proceedings and legislation. The City Clerk serves as ex-officio elections administrator and filing officer. The office manages the City's Boards and Commissions Registry Program; coordinates public records disclosure requests; and provides information technology, administrative and operational support to the Legislative Department.

Communications and Human Resources/Finance teams are also a part of the Legislative Department. Communications staff assist Councilmembers and the Council as a whole in communicating values, goals and issues to the public by providing marketing and public relations services, including website and social media management, strategic media relations and public affairs work. Human Resources/Finance staff provide employee relations, talent acquisition, employee development, performance management, benefits administration services, finance, budget, accounting, and payroll for the Legislative Department and Office of City Auditor.

Legislative Department

Budget Overview

The 2020 Adopted Budget maintains support to the Legislative Department and preserves the services provided by the City Council and the City Clerk to residents and City departments. The budget includes an increase to enhance Central Staff's ability to provide legal, policy, and fiscal analysis to the City Council. Finally, technical adjustments have been made to bring the adopted budget into alignment with an Annual Wage Increase, a State Paid Family Medical Leave increase, and other citywide adjustments to internal service costs.

City Council Changes to the Proposed Budget

The Council increased resources to the Legislative Department to analyze the Law Enforcement Assisted Diversion program (\$120,000), create an infant/parent room in City Hall (\$100,000), and to fund salary increases associated with a new Deputy to the City Clerk position and other reclassifications within the department.

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$924,023

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$14,361

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Legislative Department

Citywide Adjustments for Standard Cost Changes

Expenditures \$156,802

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Proposed Operating

Add Funding for Central Staff Support to City Council

Expenditures \$200,000

This item adds ongoing funding to enhance Central Staff's ability to provide legal, policy, and fiscal analysis to the City Council.

Council

Analysis of the Law Enforcement Assisted Diversion (LEAD) Program

Expenditures \$120,000

This item adds \$120,000 of one-time funding to the Legislative Department (LEG) to fund a contract for an analysis that examines the relationship between Seattle's criminal justice system and the Law Enforcement Assisted Diversion (LEAD) program. The analysis will: 1) examine current and emerging criminal justice research to determine how the LEAD program operates within a logic model that reduces reliance on the criminal justice system, including an inventory of research that supports a shift away from reliance on the criminal justice system to respond to public order issues driven by behavioral health problems and/or extreme poverty; 2) identify specific performance measures that relate to the logic model and also informs how there is a reduction in reliance on the criminal justice system and a reduction in public disorder issues; and 3) identify the data necessary to support the performance measures.

Create an Infant/Parent Room

Expenditures \$100,000

The City Council passed Resolution 31910, which lays out steps to create an infant-at-work pilot program for the City of Seattle. This item adds one-time funding to allow the Council to dedicate and furnish a room in City Hall that would provide a quiet place for employees to feed and comfort their infants.

Create Deputy to the City Clerk Position

Expenditures \$48,539

Position Allocation -

This item adds \$48,539 of ongoing funding to the Legislative Department, cuts 1.0 FTE Administrative Staff Analyst position, and adds 1.0 FTE Executive Manager-Legislative position to be a Deputy to the City Clerk. The increase provides the funding to make up the difference in salaries between these two positions.

Legislative Department

Provide Funding for Salary Increases

Expenditures \$20,770

This item adds \$20,770 of ongoing funding to the Legislative Department to increase the salaries for two reclassified positions in the Communications Division. Both positions, previously classified as Public Relations Specialist, Sr, were reclassified effective May 26, 2019, to Strategic Advisor-Legislative. Increased funding will bring the salaries for these two positions into the pay range for the new classifications.

Office of the Mayor

Jenny A. Durkan, Mayor

(206) 684-4000

<http://www.seattle.gov/mayor/>

Department Overview

The Office of the Mayor works to provide leadership to the residents, employees, and regional neighbors of the City of Seattle and to create an environment that encourages ideas, civic discourse, and inclusion for the City's entire diverse population.

In the municipality of Seattle, the Mayor governs the Executive Branch as its chief executive officer. The many legal roles and responsibilities of the Mayor, and those working directly for the Mayor, are prescribed in the City Charter, state statutes and municipal ordinances. Elections for this nonpartisan office are held every four years.

Budget Overview

The 2020 Adopted Budget increases the Office of the Mayor's budget by \$595,000. A transfer of public disclosure request staffing into the office adds \$188,000, and the remainder of the increase is related to Citywide changes, including a labor agreement, state benefit changes and central costs for services such as space and information technology.

City Council Changes to the Proposed Budget

The Council made no changes to the 2020 Proposed Budget.

Office of the Mayor

Incremental Budget Changes

Office of the Mayor

	2020 Budget	FTE
Total 2020 Endorsed Budget	7,111,434	37.50
Baseline		
2020 Coalition and Non-Rep Annual Wage Increase Base Budget	385,647	-
2020 State Paid Family Medical Leave Increase Base Budget	5,546	-
Citywide Adjustments for Standard Cost Changes	15,798	-
Proposed Operating		
Public Disclosure Request Staffing	188,290	2.00
Total Incremental Changes	\$595,281	2.00
Total 2020 Adopted Budget	\$7,706,715	39.50

Description of Incremental Budget Changes

Baseline

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$385,647

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$5,546

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Citywide Adjustments for Standard Cost Changes

Expenditures \$15,798

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Office of the Mayor

Proposed Operating

Public Disclosure Request Staffing

Expenditures	\$188,290
Position Allocation	2.00

Between 2015 and 2018, the number of public records requests (PDR) received by the Mayor's Office has more than doubled from 99 in 2015 to 223 in 2018. This budget transfers an existing 1.0 FTE Strategic Advisor 2 Exempt position, currently supporting Mayor's Office PDR requests, from the Department of Finance and Administrative Services to the Mayor's Office. A new 1.0 FTE Strategic Advisor 2 position and budget is also added to maintain the 2.0 FTE supporting Mayor's Office PDR requests, which is currently supported by a temporarily loaned position. This adjustment will better align PDR staff with department work.

Appropriations by Budget Summary Level and Program

MO - BO-MA-X1A00 - Office of the Mayor

The purpose of the Office of the Mayor Budget Summary Level is to provide executive leadership to support City departments, engage and be responsive to residents of the city, develop policy for the City, and provide executive administrative and management support to the City.

Program Expenditures	2018 Actuals	2019 Adopted	2020 Endorsed	2020 Adopted

*FTE totals are provided for informational purposes only. Changes in FTEs resulting from City Council or Human Resources Director actions outside of the budget process may not be detailed here

Office of Sustainability and Environment

Jessica Finn Coven, Director

(206) 684-9261

www.seattle.gov/environment

Department Overview

The Office of Sustainability & Environment (OSE) develops and implements citywide environmental policies and programs that propel Seattle toward a sustainable, equitable, and carbon neutral future. OSE collaborates with a wide range of stakeholders to develop innovative environmental solutions that foster equity, vibrant communities, and shared prosperity. OSE develops policies and promotes green initiatives through three functional areas:

Citywide Coordination: Coordinates interdepartmental work on priority programs, policies, and outreach to advance the City's environmental goals. OSE's coordination work includes a focus on food systems, urban forestry, energy efficiency in City buildings, equity and environment, and environmental performance measurement. OSE is also responsible for administrative coordination of three prominent Boards and Commissions: the Urban Forestry Commission, the Sweetened Beverage Tax Community Advisory Board, and the Green New Deal Oversight Board.

Innovation & Research: Conducts research and develops the City's next generation of environmental and sustainability policies and programs. OSE's innovation and research includes a special focus on environmental equity, building energy, food policy, and transportation electrification, including implementing the Equity and Environment Agenda, Building Energy Benchmarking & Tune-Up program, Fresh Bucks food access program, and the Drive Clean Seattle program.

Climate Change Action Planning, Implementation and Measurement: Coordinates implementation of the Seattle Climate Action Plan to reduce Seattle's greenhouse gas emissions, including goal assessment, action planning, community outreach, and performance measurement. OSE's climate change planning and measurement work also includes implementing a climate change adaptation strategy that minimizes the disproportionate impacts of a changing climate while making Seattle less vulnerable and more resilient.

Office of Sustainability and Environment

Budget Overview

The 2020 Adopted Budget for the Office of Sustainability & Environment (OSE) largely remains unchanged from the 2020 Endorsed Budget, focusing on the implementation of established initiatives and supporting ongoing policy and administrative functions. The 2020 Adopted Budget does include new initiatives in food policy and energy efficiency.

New initiatives: In 2020, OSE will implement the following new or expanded initiatives:

Fresh Bucks Program Expansion: In 2012, OSE established the Fresh Bucks Program, a program that increases the affordability of fresh fruits and vegetables to participants of the Supplemental Nutritional Assistance Program (SNAP). Fresh Bucks partners with local businesses, supermarkets, farmers markets, and healthcare clinics to provide financial incentives for consuming healthy food.

In 2015, OSE received \$1.6 million in federal grants through the Food Insecurity Nutrition Incentive (FINI) grant program to expand benefits for program participants. By 2016, Fresh Bucks had expanded to 29 locations, and launched Fresh Bucks Rx, partnering with medical providers to prescribe fruits and vegetables to food insecure patients.

In 2018, Fresh Bucks expanded program eligibility beyond the Federal Supplemental Nutrition Assistance Program participation, in alignment with other affordability programs. Also in 2018, \$480,000 of FINI grants supported direct incentives to Fresh Bucks participants. As part of the long-term strategy to sustain and grow the Fresh Bucks program, the City has identified resources from the Sweetened Beverage Tax as a natural nexus to support the program in 2019 and beyond. An additional \$923,000 from the Sweetened Beverage Tax was added in 2018 to support the program. This funding was originally reserved by the Mayor and Council in the 2018 Adopted Budget and released on recommendation of the Sweetened Beverage Tax Community Advisory Board through the 2018 Second Quarter Supplemental Budget Ordinance.

In 2020, an additional \$2,000,000 is provided to expand the Fresh Bucks voucher program, supported by new revenue from the Sweetened Beverage Tax. Please see the incremental change description below for more information about this expansion.

Oil Heat Conversion Expansion and Tax: The City has imposed a new tax on residential heating oil to reduce carbon emissions and increase programmatic support to help homeowners convert from oil heat to electric heat pumps. The City estimates that about 18,000 homes rely on oil heating within the city limits. Funding from this tax would support an OSE conversion program to complete about 3,000 conversions from oil heating to electric heat pump by 2028, partnering with Seattle City Light and the Seattle Office of Housing. This program will prioritize the conversion of low-income residents by providing support for the full cost of the conversion for qualified residents, and provides partial incentives to the remaining non-low income customers. This program also supports a training program for businesses that may be impacted by the tax.

Position Support for Energy Efficiency: OSE will add two new sunset positions to the work program supporting the Municipal Energy Efficiency Project (MEEP), a capital project spanning multiple departments that seeks to improve building energy efficiency through capital projects in City-owned facilities. These positions are fully funded through existing revenue budgeted in the MEEP. For more detail about this project, please see the Municipal Energy Efficiency Project located in the Department of Finance and Administrative Services' 2020-2025 Capital Improvement Program.

Funding Climate Director: OSE has grown to support expansive climate change policy initiatives across the City through its Climate Action work. In continuing to support the Mayor's Climate Action Strategy and keep the City on track to meet objectives of the Paris Climate Accord, OSE will add \$175,899 to fund a Climate Director.

Ongoing initiative support: The 2020 Adopted Budget continues to fund existing initiatives in OSE, including:

- Equity and Environment Initiative
- Duwamish Valley Program

Office of Sustainability and Environment

- Climate Action Initiatives
- Drive Clean Seattle
- Building Energy Efficiency
- Food Policy and Programs

Please see previous years' budgets for a description of these initiatives.

Council Changes to the Proposed Budget:

The City Council added \$765,000 of one-time Sweetened Beverage Tax (SBT) funding to the Office of Sustainability and Environment by redirecting a portion of a one-time reduction of \$2,275,000 from the Department of Neighborhoods P-Patch program. This funding will support the following one-time activities:

- \$75,000: Scratch Cooking Assessment
- \$140,000: Water Bottle Filling Stations
- \$225,000: SBT Program Evaluation
- \$225,000: Fresh Bucks Program Expansion
- \$100,000: Community Advisory Board annual support

Please see the Incremental Changes section below for more detail on these items.

Total 2020 Adopted Budget	\$12,635,685	30.50

Description of Incremental Budget Changes

Add \$156,291 GF and 1.0 FTE Strategic Advisor 1 to OSE to support the Green New Deal Oversight Board and the climate action interdepartmental team

Expenditures	\$156,291
Position Allocation	1.00

Office of Sustainability and Environment

This Budget Action adds \$159,291 GF in ongoing support to the Office of Sustainability and Environment (OSE). In September 2019, the Council passed Ordinance 125926, establishing the Green New Deal Oversight Board (Board) and creating an interdepartmental team (IDT) to implement climate actions. The legislation anticipated that both entities would be staffed by OSE, which does not currently have sufficient staff capacity to support either. This action provides staff support for the Board and IDT by adding \$116,291 GF for 1.0 FTE Strategic Advisor 1. It also adds \$40,000 GF to compensate Board members for whom participating on the Board presents a financial hardship; this amount assumes all 19 members qualify.

The Strategic Advisor position will provide administrative support for the Board and coordinate the efforts of the IDT, which will be comprised of representatives from the Department of Parks and Recreation, Seattle Department of Transportation, Office of Planning and Community Development, Seattle Department of Construction and Inspections, Office of Housing, Seattle Public Utilities, Seattle City Light, Office of Economic Development, Seattle Department of Human Resources, Office of Emergency Management, Department of Neighborhoods, the Mayor's Office, City Council, City Council Central Staff, and other departments as needed. The IDT will facilitate the development and creation of annual climate actions for all City departments that will collectively result in the elimination of climate pollutants by 2030, and measure progress towards this goal.

Citywide Adjustments for Standard Cost Changes

Expenditures \$46,739

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including the Department of Finance & Administrative Services rates, Information Technology rates and Human Resources rates, health care, retirement and industrial insurance charges for the department. This adjustment also includes a transfer of resources from the department to the Human Resources Investigations Unit (HRIU) as part of the City's efforts to improve investigative processes and practices across the City departments. While the internal service rates are final for 2020, some of the other adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Request that OSE establish high-road contracting standards for electrical contractors

This Statement of Legislative Intent requests that the Office of Sustainability (OSE) collaborate with the Office of Housing (OH) to establish high-road contracting standards for electric heat installers, as per the high-road standards and practices established by Resolution 31232 in 2010. Between 2010 and 2014, OSE administered a federally-funded Community Power Works program that offered loans and rebates for eligible energy efficiency improvements to homes. For this program, OSE developed a Community High-Road Agreement (HRA) workforce agreement focused on providing good jobs, equitable access, and quality work. The HRA encouraged living-wage jobs with benefits, training opportunities, and safety guarantees; ensured that all types of businesses and workers, including those in historically underrepresented groups, had access to the program's economic opportunities; and included quality assurance mechanisms to promote high-quality energy efficiency improvements.

The City has set a goal of decommissioning all underground residential oil tanks or replacing them with a modern tank by 2029 and is funding the conversion of oil heat systems to electric systems for eligible low-income households using the proceeds from the Heating Oil Tax, enacted by Ordinance 125934. These conversions will be administered by OH. OSE and OH should set up conditions for an HRA with electric heat installers contracted for these conversions. Additionally, OSE should explore the possibility of creating a list of electrical contractors who are willing to agree to an HRA and determine if the City can prioritize these contractors for City-funded projects.

OSE should submit a report to the Sustainability and Transportation Committee, or successor committee, the Council Central Staff Executive Director, and the Green New Deal Oversight Board by June 30, 2020.

Office of Sustainability and Environment

Baseline

Supplemental Budget Changes

Expenditures \$680,000

This change completes a true-up of the 2020 Adopted Budget for any ongoing appropriation changes made in 2019. This change includes adding \$680,000 of appropriation in the Sweetened Beverage Tax Fund to replace expiring grant and one-time funding, and maintain current service levels for the Fresh Bucks program.

2020 Coalition and Non-Rep Annual Wage Increase Base Budget

Expenditures \$255,788

This centrally administered change adjusts appropriations to reflect the Annual Wage Increase, as outlined in the agreements between the City and the Coalition of Unions, for personnel costs included in this department's baseline budget. This includes increases to salary, FICA, Medicare, retirement, overtime and temporary labor.

2020 State Paid Family Medical Leave Increase Base Budget

Expenditures \$4,454

Starting in January 2020, Washington State will offer paid family and medical leave benefits to all workers in the State of Washington, including City of Seattle employees. In 2020, the agreements with the Coalition of Unions moves a portion of the cost responsibility to the employee in 2020, with the City paying the remainder. This item increases appropriations to account for the City's obligation for all employees.

Proposed Operating

Increase support for Fresh Bucks

Expenditures \$2,000,000

This change increases the funding for the Fresh Bucks program by \$2,000,000, tripling the number of eligible residents for the voucher component of the program to 6,000 recipients, for a total of over 12,000 served by all Fresh Bucks services. This supports OSE's Fresh Bucks voucher program, a key element of the Fresh Bucks Program's strategy to reach residents in the "food security gap" who experience food insecurity but do not qualify for other food assistance programs. OSE has identified continued demand for this program, with further expansion possible as funds become available.

Heating Oil Tax and Conversion Expansion

Expenditures \$595,357

This change will increase OSE's budget to support activities in the Oil Heat Conversion Program, which currently provides subsidies, and will expand those subsidies alongside new training, education, communication, and support efforts to individuals wishing to convert from residential oil heating furnaces to electric heat pumps. This work expands OSE's current work on conversion, and will be supported by additional temporary staffing. This budget supports the initiative outlined in Ordinance 125934, imposing a tax of \$.236 on each gallon of heating oil. No budget was appropriated in the passage of Ordinance 125934. The tax will generate funds to mitigate environmental and carbon pollution with specific focus on funding residential oil conversions to electric heat pumps, assisting in the conversion of about 2,700 homes through this program. Seattle Office of Housing and Seattle City Light will provide additional program support to implement these conversions, and Seattle Department of Finance and Administrative services will provide support for implementing the tax.

Office of Sustainability and Environment

Program Advisor for Energy Efficiency

Position Allocation 1.00

This change will add 1.0 FTE Strategic Advisor 1 position to the Municipal Energy Efficiency Program as a position with a sunset date. The position will be supported by Real Estate Excise Taxes currently allocated within the Municipal Energy Efficiency Project CIP. This position will sunset December 31, 2026. Please see the Department of Finance and Administrative Services' 2020-2025 Capital Improvement Program for more detail on this project.

Administrative Support for Energy Efficiency

Expenditures \$81,223

Position Allocation 1.00

This change will convert an existing temporary position, expiring in November 2019, that provides administrative and technical support to the Municipal Energy Efficiency Project, to a permanent position with a sunset date. Position costs will be revenue-backed by General Fund energy rebates earned through the work of the program and will sunset December 31, 2026. Please see the Department of Finance and Administrative Services' 2020-2025 Capital Improvement Program for more detail on this project.

Ongoing Funding for Climate Director

Expenditures \$175,899

This change adds \$175,899 to OSE's budget to support a position responsible for implementing and monitoring the Climate Action Strategy released in April 2018 and the City's commitment to achieving the goals of the Paris Climate Accord. The position also oversees OSE's work on municipal and private building energy efficiency and energy benchmarking, Greenhouse Gas Inventory and Climate Action Plan reports, and coordinating the Mayor's Environment and Climate Subcabinet. In 2019, City Council modified the funding to this position to apply only through 2019. This change restores the funding for 2020 as ongoing support.

Proposed Technical

Transfer Sweetened Beverage Tax Baseline Budget to New Fund

Expenditures -

This technical change reflects the requirements of Ordinance 125886 and transfers the baseline department budget for Sweetened Beverage Tax activity from the General Fund (00100) to the Sweetened Beverage Tax Fund (00155). These changes are net-zero.

Council Provisos

Increase support for the Green New Deal Oversight Board

Expenditures \$136,291

Position Allocation 1.00

This change adds General Fund appropriation for 1.0 FTE Strategic Advisor 1 to administer the Green New Deal Oversight Board, including \$20,000 to compensate Board members for whom participating on the Board presents a financial hardship. It also imposes the following budget proviso:

"Of the appropriation in the 2020 budget for the Office of Sustainability and Environment, \$20,000 is appropriated solely for compensation to Green New Deal Oversight Board members for whom participation on the Board presents a financial hardship and may be spent for no other purpose."

Office of Sustainability and Environment

Redirect Sweetened Beverage Tax to Support Food and Education Programs

Expenditures

\$765,000

This change reduces one-time Sweetened Beverage Tax (SBT) support for capital improvements in the P-Patch program in the Department of Neighborhood (DON) from \$3,000,000 to \$725,000, a \$2,275,000 decrease from the proposed budget. Individual department changes below are reflected in each department's budget section. The full \$2,275,000 decrease is shown below for reference, and directed to the following priorities:

- \$75,000 increase to the Office of Sustainability and Environment (OSE) for consultant services to assess scratch cooking infrastructure at Seattle Public Schools (SPS);
- \$300,000 increase to Seattle Parks and Recreation Department (SPR) and \$140,000 increase to OSE for installation of water bottle filling stations at community centers and Seattle Public Schools;
- \$735,000 increase to the Human Services Department (HSD) to provide micro-grants to food banks, meal program sites, and home childcare programs for kitchen equipment and supplies;
- \$225,000 increase to OSE for consultant services to develop an evaluation plan for all SBT-supported programs;
- \$100,000 increase to the Department of Education and Early Learning (DEEL) to provide grants to community-based organizations that work to provide diapers to families of diaper-aged children;
- \$375,000 increase to DEEL to evaluate how the City can facilitate connecting families with childcare providers and develop strategies and models based on best, promising, or emerging practices to address the lack of affordable and accessible childcare for infant and toddler care (0-3 years of age) from other jurisdictions;
- \$225,000 increase to OSE for an additional 450 Fresh Bucks vouchers, expanding access to a total of 6,450 vouchers; and,
- \$100,000 increase to OSE for consultant support to assist with the Community Advisory Board's annual report and other materials.

This Budget change also imposes the following budget proviso on DON:

"Of the appropriations in the 2020 budget for the Department of Neighborhoods, \$725,000 is appropriated for capital improvements for P-Patch gardens located within Healthy Food Priority Areas, as presented on page 22 of the Healthy Food Availability & Food Bank Network Report, published in February 2019, and may be spent for no other purpose. Furthermore, the Council anticipates that funding will be prioritized for gardens located within areas where all three factors - lower income, longer travel times to healthy food retailers, and higher percentage of unhealthy food retailers - are present."

Assumptions:

¹Revenues from Comcast grants for Digital Equity Initiative in FY 2016-2019. FY 2019 Revised includes \$40,000 for one-time fees for CenturyLink "Center closure fee" related to closing Seattle Service Center.

²This represents the transfer from ITD Fund 50410 (\$533,068) from FY 2018 underspending.

³Starting in 2019, the Cable Fund can borrow up to \$2,000,000 from fund 50410 through 12/31/2020, with full loan re-payment by 12/31/2020.

⁴Projected 2019 True Up: ITD is planning the following 2019 underspend- \$215K RecTech, \$50K Ytech, \$102K SeaChannel O&M , \$190K SeaChannel CIP. This number will change depending on final 2019 spending.

⁵Revenue projection for FY 2021-2023 assumes a 2% annual decrease in franchise fee and PEG revenues.

⁶Reflects potential future expenditure cuts to ensure the CF remains fiscally solvent.

⁷Cash Float and Revenue Projections Reserve reduced starting in 2018 Actuals and eliminated in 2019 Adopted.

⁸PeopleSoft 8.8 to 9.2 Budget Conversion True Up: The amount ITD did not collect in the FY 2018 customer rates due to the conversion from PeopleSoft 8.8 to 9.2. This revenue was collected in FY 2019 allocated rates.

Footnotes

¹ This is the first year a financial plan has been included in the budget book for the Park District.

² The Park District's ending fund balance reflects an interfund loan balance. SPR will continue to collect revenues into the Park District which will replenish fund balance over time.

³ The Park District was created in 2014 and the first six year funding cycle was approved for 2015-2020. This six year plan included a 2.5% annual inflationary factor. In 2019 and 2020, SPR will work on developing the 2021-2026 Park District funding cycle, which may include different inflationary assumptions. This financial plan assumes the same 2.5% inflationary factor for revenues and expenditures through 2023. Actual 2021-2023 projections may change based on the final 2021-2026 Park District Financial Plan.

Assumptions:

- ¹2019 Technical Adjustment (\$38,928) transfers the Fiber Leasing Fund balance into the ITD Fund (50410) per the FY 2019 Adopted Budget.
- ²FY 2020 based on proposed budget; FY 2021-2023 assumes 3% revenue growth across all revenue categories.
- ³Rates Allocated: Revenue collected from customers through allocations (i.e., ITD bills customers based on budget).
- ⁴Rates Direct Billed: Revenue collected from customers through direct billing (i.e., ITD bills customers based on actual expenses).
- ⁵Rates Direct Billed (2018 CIP Carryforward Items): Unspent CIP budget, carried forward from FY 2018 to FY 2019, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁶Rates Direct Billed (2018 Operating Carryforward Items): Unspent operating budget, carried forward from FY 2018 to FY 2019, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁷Rates: Direct Billed (2018 Grants Carryforward): Unspent Rainier Beach Grant budget, carried forward from FY 2018 to FY 2019, that will be direct billed to customers (i.e., ITD bills customers based on actual expenses).
- ⁸Billable Project Revenues: Double budget appropriation for IT Project Management resources that are not assigned to specific Projects.
- ⁹Bond Proceeds: Revenue received from City of Seattle General Obligation (GO) bond issuances.
- ¹⁰ITD's Cost of Technology Consumption: ITD's consumption of ITD projects and services. Represents intra-fund (50410) revenue.
- ¹¹Non-City Agency Revenues: Revenue collected from Agencies outside of the City of Seattle (e.g., King County).
- ¹²Interest Earnings: Revenue from the interest earned on ITD's cash balance. Interest calculation: Interest rate (3%) times the average of beginning and ending cash balances.
- ¹³Other: Miscellaneous revenues collected in FY 2018, primarily from Fiber Initiatives.
- ¹⁴Q3 Supplemental: Planned Q3 requests include one-time refund of \$766,667 to SDOT for SDOT PACT and \$533,068 to Cable Fund for FY 2018 underspending.
- ¹⁵Continuing Appropriation and Encumbrances: Includes the allocated revenues collected in FY 2018 for CIP (excluding PC-IT-C3550 '800 MHz Radios'), Encumbrances, and Special Carryforward budgets.
- ¹⁶Computer Replacement (Law Department): This reserve consists of the rates ITD collects from the Law Department each year for PC replacements. Unlike other Departments, the Law Department replaces all PCs once every five years, versus a portion each year.
- ¹⁷Operating Expense Reserve: Internal Seattle IT policy establishes a cash float of approximately 45 days of reimbursable expenses.
- ¹⁸Planning Reserve: Reserve for planning reserves for unanticipated one-time expense
- ¹⁹Refund to Seattle Center from underspending in the SRI Side System project.
- ²⁰PeopleSoft 8.8 to 9.2 Budget Conversion True Up: The amount ITD did not collect in the FY 2018 customer rates due to the conversion from PeopleSoft 8.8 to 9.2. This revenue will be collected in FY 2019 allocated rates.
- ²¹FAS 2019 Rate Adjustment: The amount ITD will not collect in the FY 2019 customer rates for the FAS (Finance and Administrative Services) facility expenses increases that were determined after ITD rates were finalized. ITD will address this shortfall through the 2019 Revenue True Up process.
- ²²2018 Revenue True Up: Underspending in the FY 2018 allocated projects (\$8,587,611) that will be transferred to the major funds in FY 2020 (the Cable Fund underspending of \$533,068 will be transferred in 2019).
- ²³Ending Unreserved Fund Balance: ITD has conservatively assumed that annual expenditure will equal annual budget, including carryover funds and CIP.

Cost Allocation Tables:

These tables provide information about how the City allocates internal service costs (i.e. overhead provided by City agencies to other City agencies) to customer agencies.

Cost Allocation

Central Service Departments and Commissions - 2020 Cost Allocation Factors

Central Service Department	Cost Allocation Factor
City Auditor	Audit hours spent on direct department projects averaged over prior two-year period.
City Budget Office	Percent of FTE time spent on cost allocation departments/funds.
Civil Service Commission	Five-year average of number of cases by department.
Office of Civil Rights	2010-2011 cases filed by department.
Office of Employee Ombud	Proportionate to budgeted FTE by department.
Office of Intergovernmental Relations	Staff time and assignments by department.
Office of Sustainability and Environment	Management assessment of FTE time on work programs.
Department of Finance and Administrative Services	Various factors and allocations. See Appendix B(1) for details on services, rates, and methodologies.
Seattle Information Technology	Various factors and allocations. See Appendix B(2) for details on services, rates, and methodologies.
Law Department	Two-year average of civil attorney and paralegal service hours by department (excludes hours that are covered by direct billing via MOAs), including proportionate amount of overhead.
Legislative Department	City Clerk's Office based on number of Legislative items; Central Staff and Legislative Assistants on assignments; City Council 100% General Fund or by MOA* and City Clerk based on workload.
Seattle Department of Human Resources	Various factors and allocations. See Appendix B(3) for details on services, factors, and methodologies.
State Examiner (State Auditor)	75% by Summit rows of data; 25% by authorized FTEs.
Emergency Management	Actual expenditure dollar spread.

*Memorandum of Agreement (MOA) on charges

Statements of Legislative Intent:

This section describes the Statements of Legislative Intent (SLI) adopted by the City Council. SLIs provide specific direction to departments on various work plan items for the 2020 Adopted Budget.

The City Council may change aspects of these SLIs before final adoption by Resolution in February 2020. These documents represent the items as passed by the Council in November 2019.

	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the City Budget Office (CBO), in partnership with the Department of Neighborhoods, Office for Civil Rights, Seattle Department of Human Resources, and the Law Department, develop a proposal to provide compensation (through scholarships, stipends, or other benefits such as transit passes) to volunteers on the City's Boards and Commissions whose employers do not pay them for such service to make these engagement opportunities more inclusive and accessible.

The City has over 70 boards and commissions that provide advice and feedback on a broad range of topics to the City Council and the Mayor. This work should include:

- (1) analysis to determine the funding needed to support the recommended approach;
- (2) analysis of existing City resources expended annually to support the boards and commissions to determine if there are efficiencies that could be introduced to free up resources to provide this compensation; and
- (3) a best practices review of other cities that provide compensation to inform implementation of a compensation option for volunteers, including recommendations for establishing low-barrier criteria to determine eligibility for compensation.

CBO should submit a proposal to the Finance and Neighborhoods Committee, or successor committee, and the Council Central Staff Executive Director, by June 1, 2020.

Responsible Council Committee(s):

Finance & Neighborhoods

Date Due to Council: June 1, 2020

	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

Following the response to SLI 12-70-A-2-2019, and the draw down of contracted services to the lowest possible floor beginning in 2020, this Statement of Legislative Intent requests a report from the City Budget Office (CBO) on the actual use of those contracted beds by the City of Seattle's Jail Services Contract with King County. The report should include the following information:

1. An analysis of the average daily bed use per the contract held by the City by year over the life of the current contract;
2. The 2019 and 2020 cost per bed/per night per the contract; and,
3. Options for flexibility in the distribution of services inside the King County Jail given the City's, and County's, recent commitment to capital improvements in the Jail for the purpose of enhanced shelter services to provide comprehensive services to community members that are the hardest to serve.

The report should be submitted to the Gender Equity, Safe Communities, New Americans & Education Committee, or its successor committee, and a copy to the Central Staff Executive Director, by May 15, 2020.

Responsible Council Committee(s):

Gender Equity, Safe Communities, New Americans & Education

Date Due to Council: May 15, 2020

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the City Budget Office provide a report to the Finance and Neighborhoods Committee (or its successor) and the Central Staff Executive Director allowing the City to begin collecting a progressive tax on high-income residents. The report should identify the necessary steps, a proposed implementation timeline, and funding needs for the City to begin collecting as early as practicable in 2020 the progressive tax on high-income residents (passed as Ordinance 119002 on July 10, 2017).

In the event that the Supreme Court rules that the City cannot begin collecting a progressive tax on high-income residents, this Statement of Legislative Intent requests a different report from the City Budget Office within 30 days of such a ruling. In such a circumstance, the City Budget Office should provide a report to the Finance and Neighborhoods Committee (or its successor) and the Central Staff Executive Director indicating the necessary steps, a proposed implementation timeline, and funding needs for the City consistent with the Supreme Court ruling.

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the City Auditor conduct a review of the Seattle Municipal Court's (SMC's) probation program. This assessment should focus on the impacts of probation on people of color who are currently or have previously been under the Court's jurisdiction as part of probation and the racial proportionality of the imposition, conditions of compliance, length, and successful completion of probation, as well as early release from probation.

The audit should also identify gaps in the collection, analysis, and use of data as well as recommendations on how to fill these gaps.

Before initiating this work, the City Auditor should consult with the Chair of the committee with jurisdiction over public safety (currently Gender Equity, Safe Communities, New Americans, and Education) about the review's scope and objectives to ensure that it is informed by the Vera Institute of Justice's report on probation. The report is anticipated for completion in November 2019.

Upon completion of the probation audit, Council requests that the auditor evaluate the City's criminal legal system to identify impacts communities of color who are most impacted by the criminal legal system. This secondary phase of the audit should not be undertaken until the auditor has consulted with the chair of the committee with jurisdiction over public safety about the scope of the audit, which should be informed by ongoing criminal legal system alignment work.

Budget Action Title: Request that OCR spend a portion of its \$1 million in its 2020 Proposed Budget on community-based organizations to create restorative justice approaches to individuals committing hate crimes

Ongoing: No Has Attachment: No

Primary Sponsor: Lisa Herbold

Council Members: Kshama Sawant, Abel Pacheco, Debora Juarez, Mike O'Brien, Sally Bagshaw, Lorena González

Staff Analyst: Asha Venkataraman

Date		Total	LH	BH	KS	AP	DJ	MO	SB	TM	LG
11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the Office for Civil Rights (OCR) spend some portion of the \$1,080,000 included in the 2020 Proposed Budget on community-based organizations to develop or provide restorative justice programs for individuals who commit hate or bias crimes. OCR is currently developing a process to equitably distribute these funds in 2020.

Preliminary research shows that there are no existing community-based programs, trainings or community services rooted in harm reduction or restorative justice related to the commission of hate crimes to which a person who has committed a hate crime can participate. The grant of this funding is intended to fill that gap.

Consistent with the 2020 Endorsed Budget, the 2020 Proposed Budget includes \$1,080,000 for community-based organizations providing alternatives to or addressing harm created by the criminal justice system. The funding is expected to support organizations focused on achieving safety, health, healing, and reconciliation through alternatives to the criminal legal system. This SLI asks that OCR add an additional purpose of creating restorative justice programs for individuals committing hate and bias crimes.

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Seattle Municipal Court (SMC) partner with the Criminal Justice Equity Team to provide a report that includes:

- (1) a racial equity analysis identifying racial equity outcomes for a high-barrier probation program;
- (2) an analysis of existing evidence and data about the elements of high-barrier probation and whether it increases or decreases involvement in the criminal justice system in the long term;
- (3) the parameters, performance metrics, and desired outcomes for high-barrier individuals participating in the program, including more than just recidivism and compliance with court conditions, such as whether the individuals successfully access permanent housing, are successful in meeting the goals they set for themselves; and
- (4) whether the program as a whole reduces racial disproportionality.

The report should be submitted to the Chair of the committee with jurisdiction over public safety by April 1, 2020.

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests a report from the City Attorney's Office (LAW) addressing a recommendation made by the Seattle Reentry Workgroup on expanding prefilng diversion opportunities for individuals age 25 and older. Specifically, this SLI requests that LAW evaluate the staffing, costs, and additional resources that would be required to:

- (1) Expand the current young adult prefilng diversion program to serve individuals over the age of 25 while maintaining other eligibility criteria, such as type of crime; or
- (2) Create a new prefilng diversion program for individuals over the age of 25 with different criteria, such as expanding the type of eligible crimes.

LAW's report should include its recommendation on which option the City should pursue. The report shall be submitted to the Council, the Chair of the Gender Equity, Safe Communities and New Americans Committee (or successor committee), and the Director of Council Central Staff by May 15, 2020.

Background:

In December 2015, the City Council established a Prisoner and Community Corrections Re-entry Workgroup (sometimes referred to as the Seattle Reentry Workgroup) to coordinate and strengthen the City's efforts to assist the reentry process for people returning from incarceration (Resolution 31637). The Seattle Reentry Workgroup included representatives from community organizations, individuals living with criminal histories, as well as King County departmental staff (Public Defense and Community & Human Services) and City of Seattle staff (Seattle Municipal Court, City Council, Executive departments, and the City Attorney's Office).

As part of its mandate, the Seattle Reentry Workgroup was tasked with developing a set of policies, ordinances, strategies, or programs that the City can implement to facilitate reentry and remove unnecessary barriers to employment, housing, and other benefits. The Seattle Reentry Workgroup

Budget Action Title: Request that SPD develop a reporting mechanism that accurately captures race data

Ongoing: No Has Attachment: No

Primary Sponsor: Lorena González

Council Members: Lisa Herbold, Bruce Harrell, Kshama Sawant, Debora Juarez, Mike O'Brien, Sally Bagshaw

Staff Analyst: Carlos Lugo

Date		Total	LH	BH	KS	AP	DJ	MO	SB	TM	LG
11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the Seattle Police Department (SPD) work with the Seattle Municipal Court (SMC), and the City Attorney's Office (LAW) to develop alternate reporting mechanisms that accurately capture race data and ethnicity, including but not limited to accurately capturing information on the Latinx community.

This SLI requests that SPD submit a report to the Council, the Chair of the Gender Equity, Safe Communities and New Americans Committee (or successor committee) and the Director of Council Central Staff by July 1, 2020. The report should include:

- (1) The evaluation of one or more alternative reporting mechanisms that are developed;
- (2) A recommendation for which alternative reporting mechanism should be used and an explanation of why; and
- (3) Any resources needed to implement the recommended approach.

Background:

In December 2015, the City Council established a Prisoner and Community Corrections Re-entry Workgroup (sometimes referred to as the Seattle Reentry Workgroup) to coordinate and strengthen the City's efforts to assist the reentry process for people returning from incarceration (Resolution 31637). The Seattle Reentry Workgroup included representatives from community organizations, individuals living with criminal histories, as well as King County departmental staff (Public Defense and Community & Human Services) and City of Seattle staff (Seattle Municipal Court, City Council, Executive departments, and the City Attorney's Office).

As part of its mandate, the Seattle Reentry Workgroup was tasked with developing a set of policies, ordinances, strategies, or programs that the City can implement to facilitate reentry and remove unnecessary barriers to employment, housing, and other benefits. The Seattle Reentry Workgroup released its final report in October 2018. In its findings, the Workgroup stated that SPD officers do not

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version
CJ	26	A	2

consistently use the ethnicity field in the National Incident-Based Reporting System (NIBRS). This results in Latinx community members being labeled under racial categories such as White, Black, or Unknown. As this data is then used by SPD, SMC, and LAW, the current reporting mechanism does not allow for an accurate assessment how the criminal legal system impacts the Latinx community or whether the community is disproportionately represented in the system.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests reports from the Executive addressing recommendations made by the Seattle Reentry Workgroup on increasing economic opportunity for those living with criminal histories. Specifically, this SLI requests that:

1. The Office of Economic Development (OED) and the Office for Civil Rights (OCR) work with formerly incarcerated community members to develop a plan that supports small businesses owned by those with criminal histories. This support could include identifying and facilitating connections with business consultants, technical assistance to secure financing and navigating regulations, and grants for seed money to establish new businesses.
2. The Seattle Department of Human Resources (SDHR), Seattle Information Technology (SIT), and OED develop recommendations to increase hiring opportunities for those with criminal histories who have completed technological training from OED's TechHire partners.
3. OED and Finance and Administrative Services (FAS) prepare a report on how the City can increase the number of Requests for Proposals (RFP), Requests for Qualifications (RFQ), and public works projects awarded to businesses owned or led by formerly incarcerated individuals.
4. SDHR and OED's Workforce Equity Team develop a report on how the City can increase hiring opportunities for formerly incarcerated individuals.

The Executive is requested to submit the reports to the Council, the Chair of the Gender Equity, Safe Communities and New Americans Committee (or successor committee) and the Director of Council Central Staff by July 1, 2020. In the event that additional resources are required to respond to this SLI, the Council expects the Executive to request them in the first quarter supplemental.

11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

The purpose of this Statement of Legislative Intent is to take initial steps toward implementing labor harmony provisions in the contracting vehicles for the City's Child Care Assistance Program (CCAP), known as Vendor Services Agreements.

In recent years, the Council has taken a number of actions to incorporate labor standard provisions into City contracts or contracting processes. Recent examples include:

- a) Priority Hire and Project Labor Agreement requirements for public works construction projects in 2015;
- b) City Light Energy Efficiency as a Service pilot projects in 2018; and
- c) the Central Waterfront Operations and Maintenance agreement in 2019.

In addition, in April 2019, the Council added a provision to the Families, Education, Preschool, and Promise (FEPP) Levy Implementation and Evaluation Plan that requires the Department of Education and Early Learning (DEEL) to consider "adherence to labor laws and a commitment to labor harmony" in evaluating contractor proposals.

The Council requests that DEEL conduct stakeholder engagement meetings with current or potential CCAP providers to determine if labor harmony provisions are currently in place and how those provisions could be implemented to ensure uninterrupted care. Stakeholder engagement should, at a minimum, include: family child care providers, child care center directors and teachers, and labor organizations.

The Council requests that the stakeholder engagement process include in-person meetings to gather information and solicit feedback on potential options for implementing labor harmony. In order to ensure robust turnout and participation at the meetings, the Council requests that DEEL utilize multiple methods of communications with stakeholders, including email, telephone, text messages, traditional mail, etc.

Statements of Legislative Intent

Agenda

	Absent	1								X	

Statement of Legislative Intent:

The Washington State Opportunity Scholarship (WSOS) provides scholarships to low- and middle-income students pursuing degrees, certificates, or apprenticeships in high-demand trade, health care, or Science, Technology, Engineering & Math (STEM) fields. WSOS partners with industry and philanthropic donors whose contributions are matched by the State of Washington to raise funds to support two different pathways: (1) a Baccalaureate Scholarship for those pursuing a bachelor's degree in a STEM or health care field; and (2) a Career and Technical Scholarship for those pursuing a degree or certificate in a high-demand trade, health care or STEM field.

In the 2019 legislative session, the State Legislature modified the WSOS program to allow municipalities to contribute funding to the program, which along with State matching funds are awarded to program participants from that municipality. Seattle has an opportunity to be the first municipality to partner with WSOS and to design a program that matches the workforce needs of the city. Collaboration with WSOS would also further the City's commitment to post-secondary education and training, complementing the Seattle Promise investments included in the Families, Education, Preschool, and Promise Levy.

The Council requests that the Department of Education and Early Learning (DEEL) coordinate with WSOS and industry partners to assess the feasibility of implementing the municipal match scholarship program in Seattle. Throughout the process, where possible, the Executive should work with WSOS to compile relevant information that could be provided to other municipalities that want to create similar programs.

The Council further requests that DEEL provide a report to the Council by March 31, 2020 summarizing the status of the work with WSOS in assessing the feasibility of a scholarship program that complements the City's Seattle Promise program. The report should, at a minimum, include the following information:

- a) Partners participating in the process;
- b) Recommended focus for the scholarships to be offered (i.e., industries to be targeted, baccalaureate degrees or career and technical education certificates, etc.);

Statement of Legislative Intent:

Background

As stated on page 10 of the Implementation and Evaluation Plan (I&E Plan), the overall outcome for the Families, Education, Preschool, and Promise (FEPP) Levy is: "African American/Black, Hispanic/Latino, Native American, Pacific Islander, underserved Asian populations, other students of color, refugee and immigrant, homeless, English language learners, and LGBTQ students achieve academically across the preschool to post-secondary continuum."

The I&E Plan further states, on page 17:

"While FEPP Levy goals and outcomes are often framed at the population level with the intent to achieve outcomes for all Seattle students, [the Department of Education and Early Learning's (DEEL)] evaluation activities are committed to disaggregating data to better understand who is being served, how well, and with what results. When outcomes are presented merely in aggregate, race-based inequities are hidden and enabled to persist. DEEL commits to disaggregate data by age, race, ethnicity, languages spoken, socioeconomic status, gender, ability, and income to the extent possible to promote equity in our investments."

Additionally, as part of its work with the FEPP Levy Oversight Committee, in June 2019, DEEL created a Data Workgroup with the following goal: "To create a unified strategy and guidelines for DEEL around collecting and presenting demographic data of the children/students, families and providers we serve."

Request

The Council requests that DEEL provide a written report or presentation to the Council by May 1, 2020 describing its demographic data collection and analysis process. The report should, at a minimum, include discussion of:

- a. How data are collected;

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version
DEEL	10	A	1

- b. Who DEEL partners with for data collection and sharing;
- c. How data are disaggregated for evaluation activities;
- d. Other data sources or considerations used in determining target populations; and
- e. Identified opportunity gaps or inequities currently present in areas where the City invests FEPP levy funds.

The Council requests that DEEL also address the following items in the report:

1. How is DEEL using data to inform the creation of funding opportunities and allocations?
2. How is DEEL ensuring that students experiencing the effects of the largest opportunity gaps are being targeted and supported by FEPP Levy investments?
3. What data are being used to inform the Culturally Specific and Responsive investment strategy?
4. How will DEEL use performance data from recipients of FEPP Levy funds to inform future funding allocations?

Statement of Legislative Intent:

This Budget Action requests that the Department of Neighborhoods (DON) work with the Seattle Parks and Recreation (SPR) and the City Budget Office to identify funding opportunities, either through the Metropolitan Parks District or some other ongoing source of funding, for P-Patch maintenance and enhancement, and report to the Finance and Neighborhoods Committee, or its successor committee, and submit a copy to the Central Staff Executive Director, by June 28, 2020.

The SPR generally spends up to \$200,000 a year from Metropolitan Parks District funds to improve P-Patches. This enables the program to maintain and enhance up to five out of the 89 P-Patches a year. In 2019, no P-Patch improvements were funded.

In addition, the 2020 Proposed Budget includes \$3 million in one time funding from the Sweetened Budget Tax for land acquisition, garden relocation, and capital infrastructure improvements for the P-Patch program.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Department of Neighborhoods (DON), in consultation with the Safe and Healthy Communities Subcabinet and Office of City Auditor, report on next steps and funding needed to replicate the Rainier Beach: A Beautiful Safe Place for Youth (ABSPY) program in the Westwood and South Delridge neighborhoods. DON is requested to provide a report to the Gender Equity, Safe Communities, New Americans and Education Committee, or its successor committee, the Councilmember for District 1, and the Central staff Executive Director, by April 3, 2020.

ABSPY is a program of the Rainier Beach Action Coalition in collaboration with the Seattle Police Department, the Office of City Auditor, the Seattle Neighborhood Group and other City agencies and community-based organizations. ABSPY uses evidence-informed strategies to identify and address the place-based causes of youth victimization and crime at five focus locations, known as "hotspots" through non-arrest interventions. These interventions include business engagement, school campus safety, positive behavioral interventions and supports, crime prevention through environmental design, safe passage activities, and youth and neighborhood engagement. Funding for ABSPY has been provided through grants provided by George Mason University's Center for Evidence-Based Crime Prevention Policy.

Statement of Legislative Intent:

This Budget Action requests Finance and Administrative Services (FAS), in consultation with the Office of Labor Standards (OLS), to develop a plan for adding questions to the City's registration process for Title 6 business license applications. Information collected from these questions would support the City's policy development and outreach for labor standards and other laws covering businesses operating in Seattle.

The Council requests FAS to consider adding questions that address business characteristics and preferred contacts for outreach, including but not limited to:

- (1) number of employees in Seattle;
- (2) number of employees worldwide;
- (3) franchise status;
- (4) NAICS Code;
- (5) preferred contact information for City outreach and education; and
- (6) an annually updated email address associated with the business that includes the ability to opt-out of receiving City communications.

The Council requests FAS to develop a plan for adding these questions that includes but is not limited to:

- (1) assessment of outcomes for making the questions mandatory or voluntary;
- (2) methods for encompassing paper and on-line registrations;
- (3) content of questions;
- (4) ability for the City to add questions if necessary;
- (5) ability for businesses to update information on a rolling and annual basis;
- (6) language access;
- (7) cost;
- (8) timeline;
- (9) compliance; and
- (10) any necessary legislation to implement these changes.

The Council requests FAS to submit this plan to the Finance and Neighborhoods Committee, or successor committee, by June 30, 2020.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests the Department of Finance and Administrative Services (FAS) and Human Services Department (HSD) conduct a search of Seattle-owned and private properties to identify locations available to place two tiny home villages with a minimum of 40 tiny homes. The analysis should provide options that presume both the passage and the failure to pass CB 119656, unless CB 119656 has been enacted by the time the report is submitted. The report should also include a cost estimate of the set-up costs and on-going maintenance and operations costs, presuming that this tiny home village would provide case management and services similar to an enhanced shelter. The report will be submitted to the Council's Housing, Health, Energy, and Workers' Rights Committee (or its successor committee) and the Central Staff Executive Director by February 1, 2020.

Responsible Council Committee(s):

	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests the Human Services Department (HSD) obtain feedback from contracted agencies that distribute beacons for the Samaritan program and report on the following:

1. Amount of case management time that homeless services agencies spend on actions stemming from Samaritan participation;
2. Whether case management is affected by the time spent on actions related to the Samaritan program; and
3. Estimated impact on customer participation in case management and other services due to participation in Samaritan.

HSD will submit the report to the Human Services, Equitable Development, and Renter's Rights committee (or its successor committee) and the Central Staff Executive Director by August 31, 2020.

11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

The Council requests that the Human Services Department (HSD) provide a report on the cost, feasibility, and methods of providing resources to subsidize transit passes for employees of HSD-contracted service providers. The report should include one or more options for how the City could cover some or all costs necessary for an HSD-contracted service provider to provide fully or partially subsidized transit benefits to its employees. HSD should work with Council staff and relevant stakeholders beginning in January 2020 to develop a work plan for this report, and meet as needed through June 30, 2020.

Building on the information provided in the response to SLI-35-7-A-2-2019, the report should address the following issues:

- 1) Approximately how many employee salaries at HSD-contracted service providers are contingent on the funding provided through HSD contracts? (Given that HSD contracts are not directly based on number of employees, how can the City determine or estimate the number of employees or FTEs supported by each contract?)
- 2) What are feasible methods and associated costs for providing transit benefits to these employees?
- 3) What transit benefits do HSD-contracted service providers already offer to their employees?
- 4) If the City were to offer funds to subsidize transit benefits for employees covered by an HSD contract, on the condition that a service provider offer the same benefit to all its Seattle employees, how many HSD-contracted service providers would likely participate in the program, and what are the projected costs?
- 5) What opportunities are there for collaboration with King County to develop a joint program that also covers the Department of Community and Human Services (DCHS) contracts?
- 6) What are the potential funding sources, existing or new, that could subsidize transit passes for HSD-contracted service providers.

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version

Budget Action Title: Request improvements to Utility Discount Program intake process

Ongoing: Yes Has Attachment: No

Primary Sponsor: Teresa Mosqueda

Council Members:

Staff Analyst: Amy Gore

Date		Total	LH	BH	KS	AP	DJ	MO	SB	TM	LG
11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This action request that the Human Services Department (HSD) establish a dedicated service provider line and warm hand-off process for incoming calls to the Utility Discount Program (UDP). HSD depends on service providers to refer applicants to the UDP; currently, providers are reporting long wait times on the existing UDP customer service phone line. A dedicated line and warm hand off would assist in the enrollment of new UDP customers and be a more efficient use of service providers' and clients' time.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Economic Development (OED) collaborate with the Office of Housing (OH), Seattle Department of Construction and Inspections (SDCI), and the Office of Planning and Community Development to identify strategies and develop tools that will help connect building owners and developers with small businesses and service providers that are seeking commercial tenancies. This could include, but is not limited to: (1) developing a database of small businesses that are either at risk of displacement or have already been displaced, and an inventory of existing vacant commercial spaces and commercial space under development; (2) information on potential funding opportunities for commercial space, such as the Equitable Development Initiative, Seattle Preschool Program, and child care facilities program; and (3) information on permitting, leasing, licensing, and other applicable processes, rules and other requirements. SDCI and OH should provide these resources to all developers pursuing mixed-use residential projects (both affordable and market-rate) at pre-application meetings.

OED, SDCI, and OH should submit the materials and provide a progress report to the Housing, Health, Energy, and Workers' Rights Committee, or successor committee, and the Council Central Staff Executive Director by May 29, 2020.

	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Economic Development (OED) provide recommendations regarding the creation of a film commission to serve as an independent advisory body to the City Council and Mayor on issues related to the film industry in Seattle. In the 2020 Proposed Budget, the resources previously located within the Office of Film and Music (OFM) will be repurposed to advance OED's new Creative Industry strategy. While the key functions of OFM, such as the permitting support for special events and filming, will remain unchanged, OED's broader strategy may result in a diminished focus on the film industry.

OED should determine if a film commission is necessary, and if so, describe the purpose of the commission, desired qualifications of commission members, and what resources would be needed to support the commission. To develop these recommendations, OED should consult with film industry stakeholders and the Office of Arts and Culture, as needed, and provide a report to the Civil Rights, Utilities, Economic Development, and Arts Committee, or successor committee, and the Council Central Staff Executive Director by April 3, 2020.

Responsible Council Committee(s):

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Sustainability (OSE) collaborate with the Office of Housing (OH) to establish high-road contracting standards for electric heat installers, as per the high-road standards and practices established by Resolution 31232 in 2010. Between 2010 and 2014, OSE administered a federally-funded Community Power Works program that offered loans and rebates for eligible energy efficiency improvements to homes. For this program, OSE developed a Community High-Road Agreement (HRA) workforce agreement focused on providing good jobs, equitable access, and quality work. The HRA encouraged living-wage jobs with benefits, training opportunities, and safety guarantees; ensured that all types of businesses and workers, including those in historically underrepresented groups, had access to the program's economic opportunities; and included quality assurance mechanisms to promote high-quality energy efficiency improvements.

The City has set a goal of converting all homes heated by oil to electric heat or to a modern tank by 2029 and is funding the conversion of oil heat systems to electric systems for eligible low-income households using the proceeds from the Heating Oil Tax, enacted by Ordinance 125934. The conversions will be administered by OH. OSE and OH should set up conditions for an HRA with electric heat installers contracted for these conversions. Additionally, OSE should explore the possibility of creating a list of electrical contractors who are willing to agree to an HRA and determine if the City can prioritize these contractors for City-funded projects.

OSE should submit a report to the Sustainability and Transportation Committee, or successor committee, the Council Central Staff Executive Director, and the Green New Deal Oversight Board by June 30, 2020.

	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests Seattle City Light (SCL) report to the Sustainability and Transportation Committee, or its successor, and the Central Staff Director by July 31, 2020 regarding how SCL's proposed 2021-2026 Strategic Plan and rate design will be consistent with the goals of Resolution 31895, namely:

- A. Make Seattle free of climate pollutants, meaning those that cause shifts in climate patterns, including carbon dioxide, black carbon, methane, nitrogen oxides, and fluorinated gases, by 2030;
- B. Prioritize investment in communities historically most harmed by economic, racial, and environmental injustice;
- C. Advance an equitable transition from an economy based on extraction and exploitation to one based on regeneration and cooperation, ensuring that those with the least amount of power and wealth are positioned to lead during this transition and are not left behind; and
- D. Create stable, well-paying jobs that prioritize local hire and are protected by Project Labor Agreements and Labor Harmony Agreements to ensure high-quality work and fair treatment of workers.

SCL is expected to transmit for Council's consideration the proposed 2021-2026 Strategic Plan and the rate design in the second quarter of 2020.

Seattle has committed to eliminating all climate pollution by 2030 as part of Seattle's Green New Deal Resolution (Resolution 31895). To fulfill this commitment, Seattle will need to convert rapidly from the use of fossil fuels as energy sources for the operation of vehicles and buildings to the use of all-electric modes of transportation and building energy systems.

In 2005, SCL became the first electric utility in the country to achieve zero net greenhouse gas emissions.

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version
SCL	2	A	1

It has maintained that carbon neutral status every year since. Consequently, transitioning to an all-electric transportation system and all-electric buildings powered by SCL would largely eliminate carbon emissions from these sectors.

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests Seattle City Light (SCL) in collaboration with Seattle Department of Transportation (SDOT) and the Office of Sustainability and the Environment (OSE) to report to the Sustainability and Transportation Committee, or its successor, and the Central Staff Director by July 31, 2020 on:

The expected impacts to SCL, SDOT and OSE on the operations and capital projects resulting from shifting to exclusive use of electricity for 100 percent of the power demands of buildings and all modes of local transportation (including private vehicles, light duty vehicles, public transportation and port operations) in the City of Seattle by 2030. The report should include answers to the following questions:

A. How would SCL meet the increased demand for electric power, including impacts on infrastructure?

B. How would SDOT incorporate full electrification into its transportation planning, infrastructure investment, and cross-agency coordination?

C. How would OSE adjust its cross-agency coordination, monitoring of compliance, and measuring of progress?

D. What are the key milestones to achieve complete electrification of local transportation and buildings in Seattle by 2030?

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Office of Planning and Community Development (OPCD) and the Seattle Department of Construction and Inspections (SDCI) develop, and conduct any necessary associated environmental review, on a regulatory proposal to limit development of new fossil fuel production and storage facilities within the Seattle city limits.

In August 2019 the Council passed Resolution 31896, which established the docket of Comprehensive Plan amendments the Council will consider in 2020. Resolution 31896 contemplates that the Council will consider the following types of policy changes related to fossil fuels and public health:

"Section 5. Amendments related to fossil fuels and public health. The Council requests that OPCD, in consultation with the Seattle Department of Construction and Inspections, the Office of Sustainability, and the Environmental Justice Committee, draft, evaluate, undertake environmental review and provide recommendations for potential amendments to the Environment, Land Use or Utilities Elements that would clarify the City's intent to protect the public health and meet its climate goals by limiting fossil fuel production and storage."

Any policy and / or regulatory proposal related to the location of fossil fuel production and storage facilities in Seattle's shorelines may be combined with the 2020 update to the Seattle Shoreline Master Program, for which Comprehensive Plan amendments may be adopted outside of the annual Comprehensive Plan amendment cycle.

The report should be submitted to the Chair of the Planning, Land Use and Zoning Committee, or its successor committee, and the Central Staff Executive Director, by June 30, 2020.

Statement of Legislative Intent:

Council requests that the Seattle Department of Transportation (SDOT) provide a report identifying the amount of SDOT's annual expenditures to maintain bicycle infrastructure and recommending accounting and budget process changes to measure this spending from year to year.

The 2020 Proposed Budget includes \$38,722,268 for the Maintenance Operations Budget Summary Level (BSL). The Maintenance Operations BSL provides appropriations for routine maintenance of the City's right-of-way, including roadways, sidewalks, and landscaping. Within this BSL, the budget does not identify specific funding for maintenance of bike facilities, such as protected bike lanes and trails.

Council requests that SDOT (a) identify the amount of annual funding for maintenance of bike facilities; (b) identify accounting and budget process changes to clearly identify this category of spending in future budget proposals; and (c) work with the Seattle Bike Advisory Board and stakeholders to develop a list of priority locations for ongoing maintenance.

Council requests that SDOT report to the Sustainability and Transportation Committee (or successor committee) and the Central Staff Director by April 1, 2020.

	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that the Seattle Police Department (SPD) examine its Charge By Officer (CBO) program. The analysis should determine how CBO cases are used by SPD, LAW and SMC.

SPD is asked to submit a report by July 1, 2020 to the Chair of the Gender Equity, Safe Communities, and New Americans Committee – or successor committee - and the Council Central Staff Director. The report should:

- (1) summarize Seattle's CBO program history, including information on number of CBOs by year, the average time it takes to file a CBO, whether the CBO has resulted in a FTA notice and data on the crimes where CBO is used;
- (2) through an analysis of arrests, FTAs and jail bookings, describe whether the CBO program decreases or contributes further to involvement in the criminal justice system in the long term; and
- (3) determine whether the CBO program exacerbates harm in cases where providing a citation as an alternative to booking might have otherwise been handled by not citing or referring a person to the Law Enforcement Assisted Diversion (LEAD) program.

Background:

Section 15.020 of the SPD Policy Manual outlines the Department's CBO program, which offers SPD officers an alternative to booking suspected misdemeanants into jail. The CBO program allows officers to refer directly to the City Attorney's Office (LAW) a case that has been fully investigated in the field and does not require any Detective follow up.

The CBO reduces the negative outcomes associated with jail bookings, which may include separation from family and the risk of losing employment if a suspected misdemeanant cannot report for work. However, it does not fully mitigate the harm caused by the Criminal Justice System and may exacerbate such harm if

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version
SPD	1	B	1

LAW filing delays or an improperly delivered summons results in a Failure To Appear (FTA) notice that becomes the basis for a warrant.

As an alternative to arrest, or to CBO, the City's Law Enforcement Assisted Diversion offers officers another choice – to bypass the Criminal Justice System altogether in favor an approach that reduces law violations by participants through use of harm reduction-based case management.

Some U.S. cities, such as New Orleans, LA use CBO-type programs where officers are expected to issue summonses in lieu of arrests for many misdemeanor offenses. And the State of New York passed legislation in April 2019 that expands the use of desk appearance tickets in lieu of arrests for most misdemeanors. These efforts are in line with President Obama's Task Force on 21st Century Policing which recommended that "law enforcement training policies should emphasize de-escalation and alternatives to arrest or summons in situations where appropriate." Additionally, the Seattle Reentry Workgroup, created by Resolution 31637 and convened by the Office of Civil Rights, recommended in its final report that SPD limit arrests for nonviolent misdemeanor offenses and increase its use of alternatives to arrest.

Statement of Legislative Intent:

This Statement of Legislative Intent requests that the Seattle Police Department (SPD) develop a City-wide approach to collect and report the theft, damage, or vandalism of City assets, including the theft of copper wire and the damage caused to City infrastructure during copper wire theft.

Seattle City Light (SCL) has reported 19 copper thefts from streetlights in 2019, with a year-to-date repair cost of over \$113,000. These are in addition to seven other copper thefts from SCL physical facilities in 2019. Seattle Public Utilities and the Seattle Department of Transportation have also indicated that they have incurred theft of copper wire, although the theft is not always reported to SPD. Staff at SPD have indicated that a cursory review showed 52 incidents in 2018 where copper wire was noted as part of the theft report.

SPD is requested to submit to the Chair of the Gender Equity, Safe Communities, New Americans and Education Committee (GESCNA-Ed) – or a successor Committee – and to the Director of Council's Central Staff every quarter beginning on April 1, 2019 a report that:

- (1) Identifies whether City departments are tracking damage to City infrastructure, including damage caused by copper wire theft;
- (2) Recommends how City departments could most effectively track damage to City infrastructure; and
- (3) Recommends steps that SPD and other departments can take to deter theft and to identify and address frequent offenders of copper wire theft.

Statement of Legislative Intent:

The Statement of Legislative Intent would request that the Seattle Police Department (SPD) report on the eight scrap metal recycling businesses in Seattle and their compliance with copper wire sales transactions and recordkeeping requirements established by RCW 19.290.020.

RCW 19.290.020 requires that every scrap metal business doing business in this state must create as part of each recycling transaction an accurate and legible record of each transaction involving private metal property or nonferrous metal property. The record must be open to the inspection of any commissioned law enforcement officer at all times during business hours and must be maintained wherever that business is conducted for five years following the date of the transaction.

SPD is requested to submit to the Chair of the Gender Equity, Safe Communities, New Americans and Education Committee (GESCNA-Ed) – or a successor Committee – and to the Director of Council's Central Staff on March 31, 2020 a report that:

- (1) Indicates how SPD is responding to Council's request to examine records of copper wire transfers;
- (2) Identifies steps that SPD is taking to ensure that metal recyclers are keeping accurate records of transactions and are taking action to deter purchase of stolen metals; and
- (3) Identifies financial or personnel related resources that are needed to ensure that SPD has what it needs to effectuate this Statement of Legislative Intent (SLI) as well as SLI SPD 9-A-1.

Statement of Legislative Intent:

This Statement of Legislative Intent was included in the 2019 Adopted Budget and is requested to be continued in the 2020 Adopted Budget.

This Statement of Legislative Intent would require the Seattle Police Department to submit to the Council in the third week of each month, beginning in January of 2020, the "SPD Sworn Staffing Model" (SPD Sworn Hiring Projections with Year-to-Date Actuals) as well as a report on Precinct staffing. The model shall include actuals from the beginning of the prior year through the preceding month and hiring projections through the end of the following year. The department shall also submit a precinct census in a format similar to what has been transmitted in 2019. The department shall transmit these reports electronically to the Central Staff member who is responsible for police matters and to the Chair of the Gender Equity, Safe Communities, New Americans and Education Committee or any successor committee that is responsible for public safety matters.

Statement of Legislative Intent:

The Council requests Seattle Parks & Recreation (SPR) to provide a report on the status of the Green Seattle Partnership Program. This program is a collaborative effort between the City of Seattle and Forterra to restore 2500 acres of forested park lands in Seattle by 2025. The report should include the following information:

- 1) Forest Restoration Progress: What is the status of the acres involved in the program?
 - a) total # of acres enrolled
 - b) # of acres in establishment Phases 2-3
 - c) # of acres that have reached the final Phase 4
 - d) # of acres remaining to be enrolled
 - e) # of additional acres beyond the original goal of 2,500
- 2) Volunteers: How many volunteer hours have been leveraged to make this program successful?
- 3) Community Leadership: How many forest stewards are trained as volunteer and forest restoration experts?
- 4) Youth: What kind of youth engagement has the program accomplished?
 - a) number of schools/students engaged
 - b) % of the total volunteer hours that are youth
 - c) number of youth leadership opportunities/programs involved
- 5) Challenges: What are the challenges and barriers to completing the remaining work of restoring more than 2500 acres of park land?
- 6) Investments: What are the estimated resources that have been invested to date by implementation partners, volunteer hours, and City funding)?

Statements of Legislative Intent

Agenda

Tab	Action	Option	Version
SPR	6	A	2

7) Funding: What funding and resources (please list/describe separate for FTE for field, program and volunteer management; materials; contractors; etc.) are needed to:

- a) Enroll the remaining acres into Phase 1 restoration
- b) Move remaining acres into Phase 4
- c) Maintain acres in Phase 4 between 2020 and 2025
- d) Maintain all Phase 4 long-term annually beyond 2025

8) Extended Impacts: What are the unintended benefits that have resulted and resources leveraged (e.g., research, additional funding, etc.) from the partnership?

9) Neighborhood Benefits: Are there opportunities for these projects to better serve the needs of our neighborhoods and provide a greater degree of environmental services even more than it does currently?

10) Access to Nature: How can we enhance the passive recreation offered by these properties as we also ensure they maintain a high degree of ecological integrity?

Budget Action Title: Request that FAS and SDOT report on the feasibility of a Transportation Assistance Voucher Program

Ongoing: No Has Attachment: No

Primary Sponsor: Budget Committee

Council Members:

Staff Analyst: Amy Gore

Date		Total	LH	BH	KS	AP	DJ	MO	SB	TM	LG
11/19/2019	Yes	8	X	X	X	X	X	X	X		X
	No	0									
	Abstain	0									
	Absent	1								X	

Statement of Legislative Intent:

This Statement of Legislative Intent (SLI) requests that Finance and Administrative Services (FAS) and Seattle Department of Transportation (SDOT) provide a report to the Governance, Equity & Technology Committee (or successor committee) on the feasibility of a City of Seattle Transportation Assistance Voucher Program to be funded by Transportation Network Company (TNC) Tax revenues. This report will be due on or before March 31, 2020.

The program would provide vouchers to persons with limited mobility, seniors and/or low-income households to be used on transportation services provided by City of Seattle for-hire licensed operators. The intent is that the report requested in this SLI will be the basis of a new Seattle Transportation Assistance Voucher Program that would be created by Council in 2020 and funded with TNC tax revenues each year. The report should also explore the option of leveraging funding through partnerships with existing programs.

To effectuate this change, Council should also pass Council Budget Action (CBA) TNCSPN-106-B-1 which adds the Transportation Assistance Voucher Program to the list of eligible uses of TNC tax revenues in Resolution 31914; pass CBA TNCTAX 103-B-1, which adds the Transportation Assistance Voucher Program to the list of intended uses of the TNC tax revenues in Council Bill 119684; and pass CBA TNCSPN-104-B-1, which imposes a proviso on \$500,000 of finance general appropriations.

Governance, Equity & Technology

Date Due to Council: March 31, 2020

Glossary

Appropriation: A legal authorization granted by the City Council, the City's legislative authority, to make expenditures and incur obligations for specific purposes.

Biennial Budget: A budget covering a two-year period. Under state law, a biennium begins with an odd-numbered year.

Budget - Adopted and Proposed: The Mayor submits to the City Council a recommended expenditure and revenue level for all City operations for the coming fiscal year as the Proposed Budget. When the City Council agrees upon the revenue and expenditure levels, the Proposed Budget becomes the Adopted Budget, funds are appropriated, and legal expenditure limits are established.

Budget - Endorsed: The City of Seattle implements biennial budgeting through the sequential adoption of two one-year budgets. When adopting the budget for the first year of the biennium, the Council endorses a budget for the second year. The Endorsed Budget is the basis for a Proposed Budget for the second year of the biennium, and is reviewed and adopted in the fall of the first year of the biennium.

Budget Control Level: The level at which expenditures are controlled to meet State and City budget law provisions.

Capital Improvement Program (CIP): Annual appropriations from specific funding sources are shown in the City's budget for certain capital purposes such as street improvements, building construction, and some kinds of facility maintenance. These appropriations are supported by a six-year allocation plan detailing all projects, fund sources, and expenditure amounts, including many multi-year projects that require funding beyond the one-year period of the annual budget. The allocation plan covers a six-year period and is produced as a separate document from the budget document.

Chart of Accounts: A list of expenditure, revenue, and other accounts describing and categorizing financial transactions.

Community Development Block Grant (CDBG): A U.S. Department of Housing and Urban Development (HUD) annual grant to Seattle and other local governments to support economic development projects, human services, low-income housing, and services in low-income neighborhoods.

Comprehensive Annual Financial Report of the City (CAFR): The City's annual financial statement prepared by the Department of Finance & Administration.

Cost Allocation: Distribution of costs based on some proxy for costs incurred or benefits received.

Cumulative Reserve Subfund (CRS): A significant source of ongoing local funding to support capital projects in general government departments. The CRS consists of two accounts: the Capital Projects Account and the Revenue Stabilization Account. The Capital Projects Account has six subaccounts: REET I, REET II, Unrestricted, South Lake Union Property Proceeds, Asset Preservation Subaccount - Fleets and Facilities, and the Street Vacation Subaccount. The Real Estate Excise Tax (REET) is levied on all sales of real estate, with the first .25% of the locally imposed tax going to REET I and the second .25% to REET II. State law specifies how each REET can be spent.

Debt Service: Annual principal and interest payments the City owes on money it has borrowed.

Errata: Adjustments, corrections, and new information sent by departments through the City Budget Office to the City Council during the Council's budget review as an adjunct to the Mayor's Proposed Budget. The purpose is to adjust the Proposed Budget to reflect information not available upon submittal and to correct inadvertent errors.

Glossary

Full-Time Equivalent (FTE): A term expressing the amount of time for which a position has been budgeted in relation to the amount of time a regular, full-time employee normally works in a year. Most full-time employees (1.00 FTE) are paid for 2,088 hours in a year (or 2,096 in a leap year). A position budgeted to work half-time for a full year, or full-time for only six months, is 0.50 FTE.

Fund: An accounting entity with a set of self-balancing revenue and expenditure accounts used to record the financial affairs of a governmental organization.

Fund Balance: The difference between the assets and liabilities of a particular fund. This incorporates the accumulated difference between the revenues and expenditures each year.

General Fund: A central fund into which most of the City's general tax revenues and discretionary resources are pooled, and which is allocated to support many of the operations of City government. Beginning with the 1997 Adopted Budget, the General Fund was restructured to encompass a number of subfunds, including the General Fund Subfund (comparable to the "General Fund" in prior years) and other subfunds designated for a variety of specific purposes.

Grant-Funded Position: A position funded 50% or more by a categorical grant to carry out a specific project or goal. Seattle Municipal Code 4.04.030 specifies that "categorical grant" does not include Community Development Block Grant funds, nor any funds provided under a statutory entitlement or distribution on the basis of a fixed formula including, but not limited to, relative population.

Operating Budget: That portion of a budget dealing with recurring expenditures such as salaries, electric bills, postage, printing, paper supplies, and gasoline.

Position/Pocket Number: A term referring to the title and unique position identification number assigned to each position authorized by the City Council through the budget or other ordinances. Positions may have a common title name, but each position has its own unique identification number assigned by the Records Information Management Unit of the Seattle Department of Human Resources at the time position authority is approved by the City Council. Only one person at a time can fill a regularly budgeted position. An exception is in the case of job-sharing, where two people work part-time in one full-time position.

Program: A group of services within a department, aligned by common purpose.

Reclassification Request: A request to change the job title or classification for an existing position. Reclassifications are subject to review and approval by the Classification/Compensation Unit of the Seattle Department of Human Resources and are implemented upon the signature of the Director of Human Resources, as long as position authority has been established by ordinance.

Reorganization: Reorganization refers to changes in the budget and reporting structure within departments.

PeopleSoft 9.2: The City's central accounting system managed by the Department of Finance & Administration.

Sunsetting Position: A position funded for only a specified length of time by the budget or enabling ordinance.

TES (Temporary Employment Service): A program managed by the Seattle Department of Human Resources. TES places temporary workers in departments for purposes of filling unanticipated, short-term staffing needs, such as vacation coverage, positions vacant until a regularly-appointed hire is made, and special projects.

Type of Position: There are two types of budgeted positions. They are identified by one of the following characters: **F** for Full-Time or **P** for Part-Time

- **Regular Full-Time** is defined as a position budgeted for 2,088 compensated hours per year, 40 hours per week, 80 hours per pay period, and is also known as one full-time equivalent (FTE).
- **Regular Part-Time** is defined as a position designated as part time, and requiring an average of 20 hours or more, but less than 40 hours of work per week during the year. This equates to an FTE value of at least 0.50 and no more than 0.99.

SUPPLEMENT TO 2020 ADOPTED BUDGET BOOK

Transportation Network Company (TNC) Tax

Overview

On September 19, 2019, Mayor Jenny A. Durkan announced a proposed tax on rides with Transportation Network Companies (TNCs) that originate in the City of Seattle. Proceeds from the tax, scheduled to go into effect on July 1, 2020, will be used to fund a variety of investments in affordable housing, transportation including transit, and a series of measures designed to support TNC drivers.

Legislation submitted with the 2020 Proposed Budget exacts the tax, adopts a spending plan for the proceeds, appropriates 2020 revenues, and enacts driver protections. The financial impacts are summarized below. The City Council passed this legislation in November 2019.

Revenue

If the TNC tax goes into effect on July 1, 2020 as planned, it is estimated to generate \$8,876,817 of General Fund revenue in the half-year of collection in 2020. Estimates for future years are found in the chart below.

Year	2020 (half-year)	2021	2022	2023	2024	2025
Est. Revenue	\$8,876,817	\$19,911,013	\$21,930,203	\$23,055,560	\$23,891,715	\$24,757,506

Appropriations

Before the tax is implemented, the Department of Finance and Administrative Services (FAS) will work to set up the accounting and tax infrastructure necessary to implement and enforce the tax beginning July 1, 2020. The department will receive \$1,546,000 in appropriations.

The City Council appropriated \$3,350,000 to the Seattle Department of Transportation (SDOT) for various projects in the 2020 Adopted Budget. The remainder of the 2020 funds (\$3,980,817) are appropriated into Finance General, which is a mechanism to hold appropriations temporarily. It is anticipated that those funds will be moved from Finance General into the Office of Housing and the Office of Labor Standards in the first half of 2020.

2020 – Revenues and Appropriations

\$8,876,817 – Revenue to General Fund (00100) – Finance General

\$1,546,000 – Appropriations to Department of Finance and Administrative Services
