### **Budget Overview**

Finance General serves as a central repository for ongoing City costs; including General Fund contributions to the operations of City departments, debt service payments made from centrally-managed Funds and contributions to outside organizations. It also provides a mechanism to hold appropriations temporarily until the City determines the appropriate managing department; to act as a contingency reserve to respond to unpredictable situations; and, to cover costs that vary with economic conditions.

In the 2021 Proposed Budget, Finance General is the mechanism to transfer General Fund resources to the below departments:

- Office of Arts and Culture;
- Seattle Public Library;
- Office of Labor Standards;
- Police Pension;
- Fire Pension;
- Finance and Administrative Services;
- Information Technology;

### **Description of Incremental Budget Changes**

|  | <b>Baseline</b> |
|--|-----------------|
| Adjustment for One-Time Budget Changes |                 |
| Expenditures                           | \$(40,325,850)  |
| Revenues                               | \$(28,642,267)  |

In Finance General, this adjustment reverses many one-time transfers and reserves which were established in the 2020 Adopted Budget by both the Mayor and the City Council. These are technical items which were never intended to carry into the 2021 Budget.

#### **Citywide Adjustments for Standard Cost Changes**

| Expenditures |
|--------------|
|--------------|

\$(10,902,359)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare, retirement and industrial insurance charges for the department. These adjustments reflect initial assumptions about these costs and inflators early in the budget process. In addition, Finance General includes changes to the Judgement and Claims rates. The 2021 Budget returns Finance General Judgement and Claims payments to 2019 levels due to reallocation of costs to departments, resulting in a large decrease for Finance General.

### **Proposed Operating**

### **Equitable Communities Initiative**

Expenditures

\$100,000,000

This funding is reserved for recommendations by a Community driven process, organized by a community task force planned to begin in the fall of 2020. The task force will focus on up-stream investments for Black, Indigenous, and people of color (BIPOC) communities to address disparities and make meaningful changes that can be measured by community progress. The task force will be comprised of BIPOC community leaders who will engage with community, with support from city departments.

The policy and investment recommendations will focus on:

- Building opportunity and an inclusive economy
- Community wealth building and preserving cultural spaces
- Climate justice and Green New Deal
- Community wellness and safety
- Other areas the task force and community determine should be prioritized

The task force will have broad latitude in setting the timetable, process and agenda for their work. However, it is contemplated that by December 2020 they will identify initial areas where community thinks investments should be prioritized. The task force, centered on community input, will also determine the research, data and technical advice they need in each of those areas to create desired outcomes in each area in the years to come.

The task force will not be making funding recommendations to specific organizations. The task force, based on technical support, legal requirements and desired outcomes may consider a range of funding mechanisms and programmatic structures, including participatory budgeting, grants, RFPs, and loans.

These funds are anticipated to be an ongoing, annual investment.

As decisions about allocations are reached, appropriations will be assigned as required by city law and procedures.

#### Joint COVID-19 Relief Plan

Expenditures

\$5,000,000

As part of the 2020 budget, the Mayor and City Council have invested \$233 million in COVID-19 relief programs. To further address community needs, an additional \$45 million will be invested from the City reserves and other funding sources, with approximately half appropriated in 2020 and the remainder in 2021. The investments will be distributed according to a spending plan, which includes assistance to small business, childcare, individuals experiencing homelessness or at risk of losing their home, people experiencing food insecurity, and immigrants and refugees.

In Finance General, \$5 million is included for 2021 to provide funding for testing costs incurred by various City departments in 2021, including facilities costs, staff time and supplies. Appropriations will be transferred from Finance General to departments once costs are incurred.

#### **Insurance Premium Increase**

Expenditures

The item increases the appropriation for insurance premium payments made out of Finance General on behalf of the entire City. With this increment, the total 2021 Proposed Budget for insurance is \$9.8 million. This change is the result of significant increases in renewal of both property and liability insurance in 2020. In both cases a combination of external market factors and the City's recent claims history led to the increase.

\$2,900,000

#### **Teleworking Stipend Reserve**

Expenditures

This item creates a reserve for a teleworking stipend which is being distributed to City of Seattle employees. This stipend is to ensure that the City is in compliance with the Wage Theft Ordinance. Funds will be distributed by departments to employees throughout the year and this reserve will be allocated to departments as reimbursement once final amounts are known.

\$570,000

### **Reduce High Barrier Reserve**

Expenditures

\$(362,500)

This change reduces the high barrier workgroup reserve. The 2020 Adopted Budget included \$762,500 in ongoing funding for operations of the West Wing facility at the King County Jail, rapid reentry and case conferencing pilots. The West Wing facility is not expected to begin operations until mid-2021, and funding for operations is not needed until that time. The reentry and case conferencing pilots were not initiated given the dynamic and evolving issues around criminal justice.

### **Proposed Technical**

### **Revenue Update**

Revenues

\$126,082,919

This change reflects updates to baseline revenues from the August revenue forecast. Finance General includes revenue updates for the major General Fund sources (including the new payroll tax), the Short-Term Rental Tax Fund, the Sweetened Beverage Tax Fund, the Real Estate Excise Tax (REET) I and II Funds, the Emergency Fund and Revenue Stabilization Fund, Bond Funds, and the Cumulative Reserve Subfund-Unrestricted.

#### **Update Reserves for Recurring Expenses**

Expenditures

\$(8,806,738)

This item makes changes for updated cost projections and includes non-programmatic changes that represent the latest cost estimates for recurring expenses paid by the Finance General department. Included in this adjustment are projected payment increases for utility services funded by the General Fund (street lights and fire flow), transit pass subsidies for employees, General Fund disability claim reserves, and changes to several other small recurring payments. The large decrease in budget is due to removal of the Transportation Network Company reserve from Finance General to other departments.

#### **Temporary Hiatus of Reserve Transfer**

| Expenditures | \$(4,929,960) |
|--------------|---------------|
| Revenues     | \$(4,929,960) |

This eliminates the budget for the transfer of General Fund resources to the Emergency Fund (10102) and the Revenue Stabilization Fund (00166). Due to the pandemic and recession, the 2021 budget includes the use of the Emergency Fund and the Revenue Stabilization Fund to supplement the General Fund. When the budget calls for a use of the Revenue Stabilization Fund, SMC 5.80.020 requires that the annual contribution to the Revenue Stabilization Fund contributions are governed by internal City Policy, which was recently amended to state "In the event that a severe or long-lasting event . . . leads to deep or multiple years of spending from the fund, the City shall make contributions to satisfy the target balance as soon as is practically possible."

#### Provide General Fund Support to Department Programs

Expenditures

\$(4,756,309)

This item provides the resources needed to support department operations which receive General Fund through operating transfers, including Seattle IT, Finance and Administrative Services, the Office of Labor Standards, the Seattle Public Library, Police Relief and Pension, Firefighters' Pension, and the Office of Arts and Culture. The amount is a reflection of the General Fund savings from budget reductions taken by these departments.

### **Remove Seattle Storm Relocation Reserve**

Expenditures

\$(2,600,000)

This item removes the reserve for the Seattle Storm relocation from Finance General in 2021. The reserve is not needed beyond 2020 because the lease agreement signed by the Seattle Arena Company (ArenaCo) and the City of Seattle stipulates that responsibility for providing a venue for the Storm will have passed from the City to ArenaCo in 2021.

### Reduce General Fund Support to FAS for Encampment Clean-Up

Expenditures

\$(1,313,229)

In the 2021 Proposed Budget, the encampment clean-up function is transferred from the Department of Finance and Administrative Services (FAS) to Seattle Public Utilities. General Fund resources to support the program were provided to the FAS Fund via a transfer from Finance General. Because Seattle Public Utilities has the General Fund budget directly in the department, this transfer is no longer needed.

### **Reduce General Fund Support to IT Department**

Expenditures

\$(750,000)

This one-time item removes \$750,000 of General Fund support in 2021 for the Digital Equity program in the Seattle Information Technology Department as it can now again be supported by Cable Franchise Fees in 2021. In 2020, due to anticipated declines in Cable Television Fund revenues, the General Fund replaced Cable Television Fund revenues. For 2021, however, Cable Television Fund revenues have been determined to be sufficient to cover this appropriation.

### Increase Transfer to FAS for OEM Accounting and Administrative Support

| Expenditures | \$85,000 |
|--------------|----------|
|--------------|----------|

This item increases the General Fund transfer from Finance General to the Department of Finance and Administrative Services (FAS) to provide back office support for the new Office of Emergency Management and Seattle Emergency Communications Center. This is a technical change to appropriate General Fund resources for the transfer.

#### **Adjust Debt Service Payments**

Expenditures

\$1,151,024

This adjusts Finance General debt service payments to reflect projected obligations for actual debt issuances. Included are debt service payments for Finance General from the General Fund, Real Estate Excise Tax (REET) I and REET II Funds, Short-Term Rental Tax Fund and the Cumulative Reserve Fund - Unrestricted.

#### **Transfer REET II to Low Income Housing Fund**

| Expenditures | \$5,000,000 |
|--------------|-------------|
|              |             |

The 2020 Adopted Budget directed the Office of Housing to commit \$25 million to Multifamily capital projects which would be reimbursed by Real Estate Excise Tax (REET) II revenues in the amount of \$5 million annually from 2021 through 2025. This item adds \$5 million of appropriations out of the REET II fund for the transfer to the Office of Housing.

### Transfer Emergency Funds into General Fund for Joint COVID-19 Relief Plan

| Expenditures | \$20,750,000 |
|--------------|--------------|
| Revenues     | \$20,750,000 |

As part of the 2020 budget, the Mayor and City Council have invested \$233 million in COVID-19 relief programs. To further address community needs, an additional \$45 million will be invested from the City reserves and other funding sources, with approximately half appropriated in 2020 and the remainder in 2021. The investments will be distributed according to a spending plan, which includes assistance to small business, childcare, individuals experiencing homelessness or at risk of losing their home, people experiencing food insecurity, and immigrants and refugees.

This appropriation allows for the transfer of Emergency Fund reserves into the General Fund to support departmental COVID-19 Relief efforts in 2021.

### Fund Balancing Entry

Revenues

\$(15,886,614)

This is a technical item to balance revenues and expenditures for the Funds managed by this department.

#### Transfer Revenue Stabilization and Emergency Funds into General Fund

| Expenditures | \$52,000,000 |
|--------------|--------------|
| Revenues     | \$52,000,000 |

This item increases appropriations out of the Emergency Fund (10102) and the Revenue Stabilization Fund (00166) and increases revenue to the General Fund to provide sufficient resources to fully balance the 2021 Proposed Budget.
