Hello, neighbor!

The Office of Planning and Community Development (OPCD) is working with the community (that's you!) and other City departments to develop a community plan that guides growth and coordinates investments in livability in the Crown Hill Urban Village.

Your feedback will help guide community priorities and future investments in the neighborhood!

The first workshop is focused on sharing key concerns and opportunities for improvement in the neighborhood. We will also be asking for input on a community vision for the future of the neighborhood.

Drop in anytime! Expect to take 30-45 minutes to complete all of the activities and questions.

If you can't make it, fill out the online survey at [SURVEYMONKEY.COM/R/CROWNHILL](https://www.surveymonkey.com/r/crownhill)

**Learn more at our website!
