

WASHINGTON PARK ARBORETUM ENVIRONMENTAL EDUCATION CENTER PRE-DESIGN STUDY

WEDNESDAY, DEC. 5, 2018
6:30 – 8 PM

GRAHAM VISITORS CENTER, WASHINGTON PARK ARBORETUM, 2300 ARBORETUM DRIVE E, SEATTLE WA 98112

Come learn about the Pre-Design Study and provide input on three concept designs!

Seattle Parks and Recreation, University of Washington Botanic Gardens, and the Arboretum Foundation invite the community to learn about the proposed new Environmental Education Center in the Arboretum. Together, we contracted with Mithun on a Pre-Design Study for the project. We are excited to present that information to the community and gather your input.

This new facility will allow our current youth and adult education programs to provide more robust educational experiences and meet growing program demands.

The desired goal as stated in the Arboretum Master Plan is to serve 20,000 children and adults annually from diverse communities across the region.

FOR ADDITIONAL INFORMATION OR IF YOU NEED AN
INTERPRETER OR ACCOMMODATIONS PLEASE CONTACT:
