**Q5 Please use the space below to comment  
on additional ideas you have for the new  
play area:**

Answered: 23 Skipped: 38

#	Responses	Date
1	Please provide clear signage and instructions for use (ages, hours)	1/9/2016 10:07 PM
2	Swings are great. Also stone sculptures to climb on Thank you	1/6/2016 10:33 PM
3	a sandbox would be popular for little kids -maybe with a protective tent over??	1/4/2016 7:41 PM
4	Climbing structures that simulate bouldering and rock climbing.	1/4/2016 7:19 PM
5	no swings?	1/4/2016 5:13 PM
6	Swings are much more fun if taller. The new high set at Woodland Park adjacent the zoo are a great example. This park needs at least 4 bays of swings	1/4/2016 5:07 PM
7	Pull-up bar & stretching station for adults please	1/4/2016 4:53 PM
8	Can't wait!!!	1/4/2016 4:45 PM
9	Bigger is better so look to the big kids who will probably play and have played on the existing play space the most historically. The largest swing you can put there is also the best as that has always been a highlight of the existing space. Thanks.	12/29/2015 10:06 PM
10	zip line!	12/22/2015 11:52 AM
11	I would love to see some natural elements in the playground, to encourage interaction with nature but in a way that is easy for parents who need a break. I'm excited!	12/21/2015 6:25 AM
12	Hope you have the soil issues figured out this time.	12/20/2015 10:03 AM
13	In my personal experience as a parent, it seems that equipment geared toward ages 5-12, as some of the images note above, are not the best. Young children want to be at playgrounds and the equipment is often too advanced for them to enjoy and older children either no longer want to go to playgrounds and/or also can be entertained by equipment for younger ages.	12/19/2015 6:02 PM
14	Rubberized ground. Lots of swings.	12/18/2015 10:52 PM
15	Thank you for sending this!	12/18/2015 10:22 PM
16	A space that can be used for younger children and older children would be ideal as we have families in our neighborhood with a children from a wide range of ages. Thank you for soliciting this feedback	12/18/2015 6:27 PM
17	So happy to see this project move forward! Thank you!	12/18/2015 2:58 PM
18	It would be ideal if the color and aesthetic were more natural (rather than bright primary colors) in keeping with the Arboretum and Olmstead legacy of the area. This also gives kids and families living in the city a feeling of "being in nature" and outside rather than overstimulating bright colors. (mother of 11 and 7-year-old boys)	12/18/2015 8:12 AM
19	Lots of climbing and swings!	12/18/2015 4:11 AM
20	These all look gimmicky and as though they will not stand the test of time - both in terms of durability and aesthetics. Can you just install a simple, classic, play structure and leave the swings? Also, please be sure to not install anything that can get tagged with graffiti and that homeless people can sleep in at night. Right now we have a least 2 people who have been sleeping the the covered area around the play field for at least a year. Please do not build anything that is tented or a covered shelter. Also, I'm in the play field everyday and I see a lot of adults running, doing yoga, or other exercise in this space. Can the "play structure" also be designed to accommodate adult fitness i.e. pull up bars, sit up planks, etc? They the kids can play on it and adults can use for fitness.	12/17/2015 7:02 PM
21	Anything will be great!	12/17/2015 4:36 PM
22	Put high quality bike racks close to the play area so people can bike there. Don't use the terrible racks that Parks has used in the past, choose ones that everybody can use like the Urban Racks inverted U or the SportWorks Tofino please.	12/17/2015 4:24 PM

23	It's in the Arboretum! I'd like to see more wood and less plastic. I'd like at least one tree-related component. Please keep the play area inside the current area.	12/17/2015 4:18 PM
