

**SEPA DETERMINATION OF NON-SIGNIFICANCE (DNS)  
SEATTLE DEPARTMENT OF TRANSPORTATION  
SEATTLE BICYCLE MASTER PLAN**

**Description of proposal:** The Seattle Bicycle Master Plan, which is a major update to the last version of the BMP which was adopted in 2007, is a long-range system plan to achieve the vision that riding a bicycle is a comfortable and integral part of daily life in Seattle for people of all ages and abilities. It provides a policy framework around what the plan will accomplish, and defines a number of strategies and actions for how the plan will be implemented over time. Bicycling provides a cost-effective, healthy, and convenient means of transportation, which helps advance a number of city goals (for example, the City's carbon reduction goals in the Climate Action Plan), increases social interaction on streets, offers alternatives to driving on congested roadways, and reduces pollution. Through the updated Bicycle Master Plan, Seattle will make its transportation system more environmentally, economically, and socially sustainable.
