# Pedestrian Master Plan Technical Update

Seattle Pedestrian Advisory Board Michelle Marx April 8, 2015

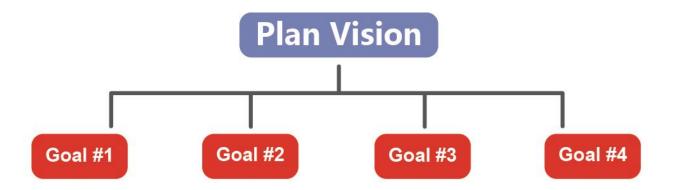

### **Plan Vision**

Vision:

Articulates the desired future outcome of the Plan.

#### Goals:

Desired outcomes (what we hope to accomplish).

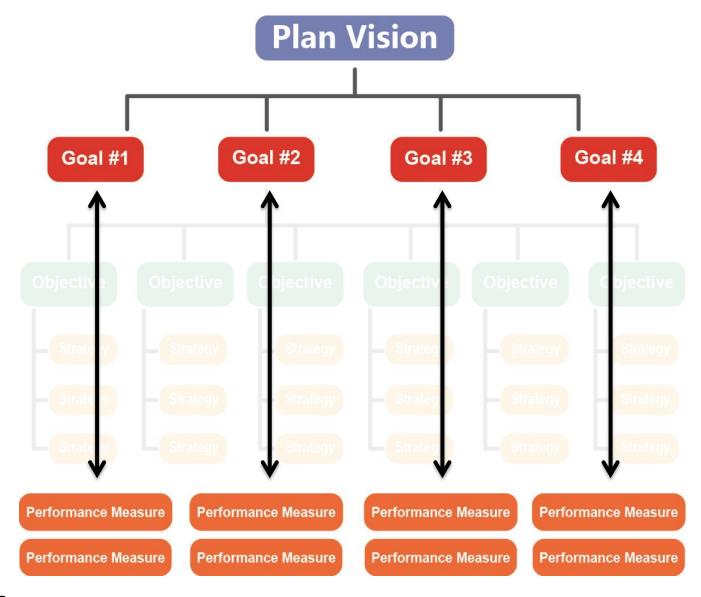

### **Objectives:**

How we plan to accomplish the Plan goals.

### Strategies:

Key actions for implementing each objective.

### Performance Measures:

How we track progress in achieving Plan goals.

# **PMP Vision**

Make Seattle the Most Walkable City in the Nation

### **PMP Goals**

- Safety: Reduce the number and severity of crashes involving pedestrians.
- Equity: Make Seattle a more
   walkable city for all through
   equity in public engagement,
   service delivery, accessibility, and
   capital investments.
- Vibrancy: Develop a pedestrian environment that sustains healthy communities and supports a vibrant economy.
- Health: Raise awareness of the important role of walking in promoting health and preventing disease.

| PMP Goals  | BMP Goals   | City's Core Values     |
|--|---|------------------------|
| <b>Safety:</b> Reduce the number and severity of crashes involving pedestrians.  | Safety: Improve safety for bicycle riders.  | A Safe City            |
| Equity: Make Seattle a more walkable city for all through equity in public engagement, service delivery, accessibility, and capital investments. | <b>Equity:</b> Provide equal bicycling access for all; through public engagement, program delivery, and capital investment.         | An Affordable City     |
| Vibrancy: Develop a pedestrian environment that sustains healthy communities and supports a vibrant economy.                                     | <b>Livability:</b> Build vibrant and healthy communities by creating a welcoming environment for bicycle riding.                    | A Vibrant City         |
| Health: Raise awareness of the important role of walking in promoting health and preventing disease.   | <b>Ridership:</b> Increase the amount and mode share of bicycle riding in Seattle for all trip purposes.                            | An Innovative City     |
|  | Connectivity: Create a bicycle network that connects to places that people want to go, and provides a time-efficient travel option. | An Interconnected City |

# Objectives

- Objective 1: Complete and maintain the pedestrian system identified in the PMP
- Objective 2: Improve walkability on all streets.
- Objective 3: Increase pedestrian safety.
- Objective 4: Plan, design, and build complete streets to move people and goods.
- Objective 5: Create vibrant public spaces that encourage walking
- Objective 6: Get more people walking for transportation, recreation, and health.

### Performance measures

| Goal       | Performance Measure   |  |
|------------|---|--|
|            | Rate of crashes involving pedestrians   |  |
| Cafatu     | Vehicle speeds along identified corridors                                       |  |
| Safety     | School participation in pedestrian safety, education, and encouragement program |  |
|            | Driver and pedestrian behaviors and awareness of pedestrian laws                |  |
|            | City investments toward Top Tier projects in High Priority Areas                |  |
| Facilities | Public communication about pedestrian issues                                    |  |
| Equity     | Transit ridership   |  |
|            | Mode share (more people walking)  |  |
| Vibrancy   | Streetscape vibrancy  |  |
|            | Pedestrian activity   |  |
| Health     | Self-reported physical activity   |  |
| Health     | Children walking or biking to or from school                                    |  |

### Performance measures

| Goal          | Performance Measure   |
|---------------|---|
| $\rightarrow$ | Rate of crashes involving pedestrians   |
| Safaty        | Vehicle speeds along identified corridors                                       |
| Safety        | School participation in pedestrian safety, education, and encouragement program |
|               | Driver and pedestrian behaviors and awareness of pedestrian laws                |
|               | City investments toward Top Tier projects in High Priority Areas                |
| Familia       | Public communication about pedestrian issues                                    |
| Equity        | Transit ridership   |
| $\rightarrow$ | Mode share (more people walking)  |
| Vibrancy      | Streetscape vibrancy  |
| Vibrailey     | Pedestrian activity   |
| Health        | Self-reported physical activity   |
| Health        | Children walking or biking to or from school                                    |

# Pedestrian Activity: Pedestrian counts

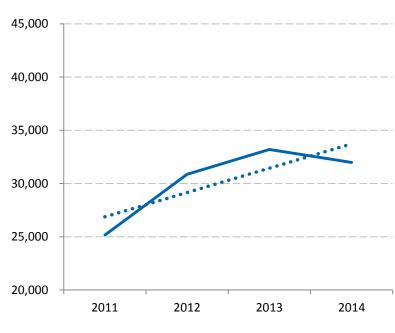

### Downtown Pedestrian Counts at Core Sites\*

Source: Downtown Seattle Association

\*Core Sites describes the nine sites consistently counted since pedestrian counts began in December 2006.

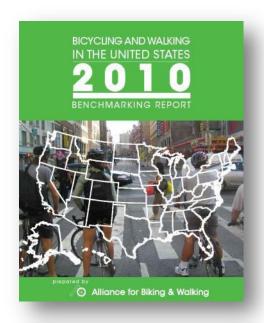

# Citywide Pedestrian Counts Average PM Peak\*

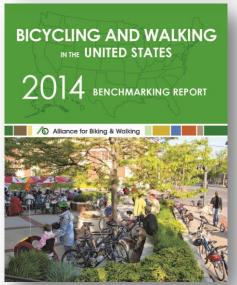

Source: SDOT

\*Average quarterly PM count (5-7 PM) for count in January, May, and September at 50 count locations citywide

## Pedestrian activity: Mode share

### Next Step: PSRC travel survey

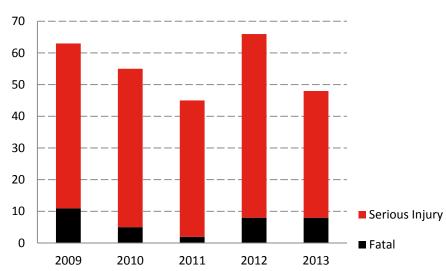

- Surveys taken in 2006 and 2014
- Surveys accounts for all trips (not just commute trips)
- PSRC currently working on unpacking the raw data to reflect walking trips to access transit
- Data expected to be cleaned up and ready for use by May

### Pedestrian safety (the raw numbers)

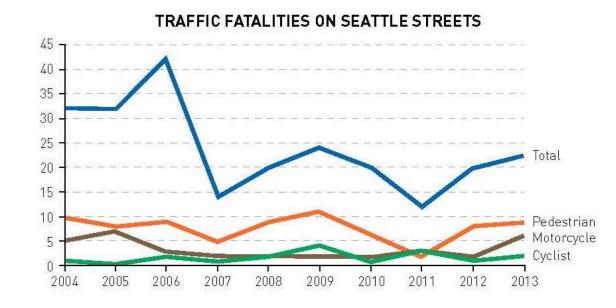

### Fatal and Serious Injury Pedestrian-Involved Collisions

|   | 2009 | 2013 |
|---|------|------|
| # Pedestrian Crashes                            | 454  | 396  |
| # Pedestrian Fatalities                         | 11   | 8    |
| # Pedestrian Fatalities and<br>Serious Injuries | 63   | 48   |

### Pedestrian safety (the raw numbers)

Crashes with pedestrians, bicyclists, and motorcyclists make up less than 5% of total crashes, but nearly 50% of the fatalities.

## Safety (Pedestrian fatality/crash/injury rates)

**Potential** 

numerators:

### Assessment, next steps:

- Ongoing data/trends assessment:
  - Mode share and crash/fatality/injury rates:
    - 2013 ACS walk to work rates
    - PSRC mode share data (May)
  - Vehicle speeds along identified corridors
  - School participation in safety/education/encouragement programs
  - KAB survey results
  - Transit boardings
  - Number of street use permits
  - City investment in Tier 1 PMP projects
- Infrastructure assessment ("what we've built")
  - Total sidewalk and crossing improvements built since 2009 (by program/project type)
    - BTG-funded sidewalk development/crossing improvements
    - Safe Routes to School
    - Neighborhood Street Fund
    - Capital projects (Complete Streets)
    - Private development
  - Total number of Tier 1 locations addressed
