

Street Ends (Shoreline)

Data Set Summary

<i>Data Set Basics</i>	
Title	Street Ends (Shoreline)
Abstract	The data includes 149 shoreline street ends located within the Seattle City Limits.
Description	Shoreline street ends are designated by ordinance as a land portion of a street segment that provides physical or visual access to a body of water and its shoreline.
Supplemental Information	This layer allows SDOT to track these sites separately from other parts of the right of way.
Update Frequency	Weekly
Keyword(s)	SDOT, Seattle, Transportation, Shoreline, Street Ends
<i>Contact Information</i>	
Contact Organization	SDOT, Street Use
Contact Person	SDOT GIS Analyst
Contact Email	DOT_IT_GIS@seattle.gov

Attribute Information

Attribute	Data type, length	Description
OBJECTID	ObjectID	ESRI unique identifier.
AREA	Double	
PERIMETER	Double	
STEND_	Double	Street End identification number
STEND_ID	Double	Unique identifier number as listed in the inventory specified by the establishing ordinance
SYMBOL	Short	Numeric identifier for the symbol used to symbolize data points on this layer
NO_	Short	Secondary identification number

ArcGIS Metadata Form

Attribute	Data type, length	Description
ACCESS_COD	Text, 1	Street End access code
VACA	Text, 1	Whether the Street End entry has been vacated. Code = "V" if vacated, blank if still in shoreline street ends portfolio.
TEXT_PLACE	Text, 2	Text placement in popup
R_W	Short	Width of right of way, in feet
STATUS	Text, 50	Current Street End status
CPN_PLACENAME	Text, 20	Name of the adjacent street
CPN_TYPE	Text, 20	Adjacent street type All values = ROW (Right of Way)
CPN_CAT	Text, 255	Adjacent street category All values = STE (Street End)
SOURCE	Long	Data source. All values = 17
ST_NO	Long	Street address of adjacent property (currently not populated)
ST_PRE		Street directional prefix
ST_NM		Street name
ST_TYPE	Text, 5	Street type
ST_SUF	Text, 3	Street directional suffix
ST_TYPE_2	Text, 5	Secondary street type
IMAGEURL	Text, 255	Link to Street End image
IMAGEFILE	Text, 50	Image file number
HYPERLINK	Text, 255	Hyperlink to Street End image
IMAGEURL1	Text, 255	Link to secondary Street End image
IMAGEFILE1	Text, 50	Secondary image file number
HYPERLINK1	Text, 255	Hyperlink to secondary Street End image
IMAGEURL2	Text, 255	Link to tertiary Street End image
IMAGEFILE2	Text, 50	Tertiary image file number
HYPERLINK2	Text, 255	Hyperlink to tertiary Street End image
DIRECTIONS	Text, 500	
STEWARDSHIP	Text, 100	
PROJECT_STATUS	Text, 25	
PROJECT_YEAR	Text, 4	
MAINTENANCE_STATUS	Text, 50	
PROJECT_CATEGORY	Text, 50	
ACCESS_CODE	Text, 255	Street End access code (2)

ArcGIS Metadata Form

Attribute	Data type, length	Description
PROJECT_NAME	Text, 255	Street End project name
SITE_STATUS	Text, 255	Current Street End site visitor status
DESCRIPTION	Text, 255	Short Description of Street End
