**CENTRAL EAST-WEST NEIGHBORHOOD GREENWAYS OPEN HOUSE MAY 12**  
**Making residential streets safer and calmer for you, your family and neighbors**

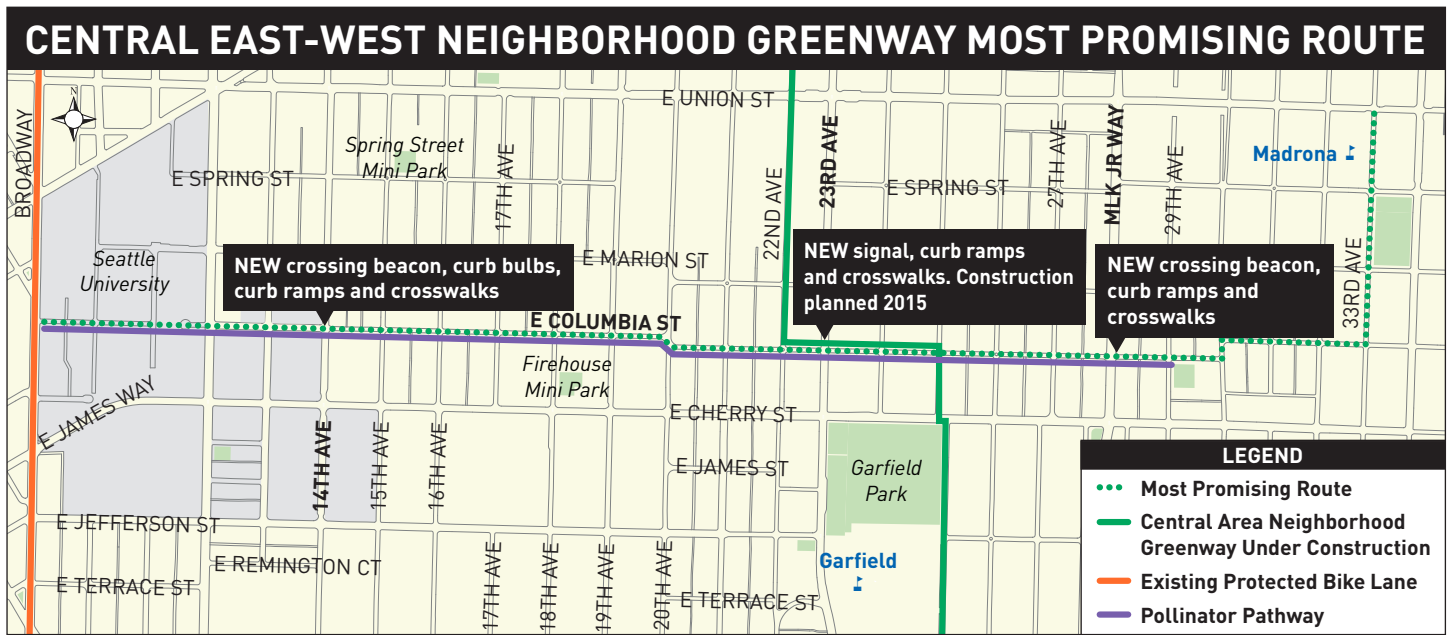

## CENTRAL EAST-WEST NEIGHBORHOOD SAFETY IMPROVEMENTS

In September 2014, the Seattle Department of Transportation (SDOT) hosted a public meeting and gathered valuable input on building an east-west neighborhood greenway in the Central Area. From the evaluation of the input we received, we recommend a greenway along E Columbia St from Broadway to 33rd Ave and along 33rd Ave from E Columbia St to E Union St. The recommendations include crossing improvements, traffic calming, stop signs facing north and south on residential streets, wayfinding signs, sharrows, reduced speed limit signs from 25 MPH to 20 MPH and pavement and sidewalk repairs.

This is the second of two public meetings. The first meeting shared traffic data and helped SDOT staff understand where people want to walk and bike and barriers to doing so. **Please attend our May open house. We are interested in your feedback.**

Seattle is building a network of neighborhood greenways. Neighborhood greenways are safer, calmer residential streets for you, your family and neighbors. On streets with low car volumes and speeds a greenway can:

- Improve safety
- Help people cross busy streets
- Discourage cut-thru traffic
- Protect the residential character of our neighborhoods
- Keep speeds low
- Get people to where they want to go like parks, schools, shops and restaurants
