

GREEN LAKE AND WALLINGFORD PAVING & MULTI-MODAL IMPROVEMENTS

Safer streets for people walking, biking, driving, and taking transit

Spotlight: N 40th St

Winter 2019

PROJECT OVERVIEW

As soon as late spring 2019, we'll repave and make improvements for people walking along N 40th St from Stone Way N to Latona Ave NE. We're also evaluating improvements to east-west bike connections in the area.

N 40th St will soon have rapid flashing beacons at Bagley Ave N and at 2nd Ave NE.

INTERSECTION IMPROVEMENTS

We're repairing sidewalks and adding or upgrading curb ramps at many intersections along N 40th St for Americans with Disabilities Act (ADA) accessibility—that's over 100 curb ramps! We're also making improvements at several intersections on N 40th St:

- **Bagley Ave N and N 40th St:** New crosswalk and curb ramps, as well as sidewalk repair for safer and more comfortable crossings for people walking and biking. The community selected these intersection improvements as a part of our Neighborhood Street Fund program. For more information on this program, visit: bit.ly/2RCTHGq. We're also adding rapid flashing beacons to improve visibility for people walking.
- **N 40th St at Densmore Ave N and Ashworth Ave N:** New curb bulbs to shorten the crossing distance for people walking, enhance safety, and calm traffic. The community selected these intersection improvements as part of our Your Voice, Your Choice program. For more information on this program, visit: bit.ly/2LI2L10.
- **2nd Ave NE and N 40th St:** New rapid flashing beacons to improve visibility for people walking.

WHAT WE HEARD: People walking need safe access to Hamilton International Middle School and Wallingford Playfield.

WHAT WILL THE PROJECT LOOK LIKE?

New or upgraded curb ramps at various intersections along N 40th St.

Sidewalk repair near bus shelters, near people's homes, and at key intersections.

We're evaluating improvements for east-west bike connections in the area.

QUESTIONS AND ANSWERS

How will the project improve bike connections in the area?

Our original design on N 40th St included a new protected bike lane. Given concerns we heard from neighbors and businesses as well as from people who bike through the neighborhood, we're looking at other improvements to east-west bike connections in the area. In the coming months, we'll share more information and provide an opportunity for public comment.

How will on-street parking on N 40th St be affected by the project?

In the coming months, we'll review alternative improvements to east-west bike connections on 40th, some of which may include removing some on-street parking. In addition, in order to improve sightlines for people turning onto 40th and people backing out of their driveways, we may restrict on-street parking in certain areas, as needed. As we evaluate these options, we'll share them with the community for feedback.

CONSTRUCTION

We anticipate beginning construction in your area in late spring 2019 and finishing in 2020. As we get closer to construction, we'll work with you to understand your needs and share information about impacts. We'll send regular construction updates to neighbors via email. Our outreach team will also be available to help address concerns.
