

NW MARKET ST PAVING PROJECT

30% Design Overview

June 2019

PROJECT OVERVIEW

NW Market St is an east-west arterial and considered a major truck street in Seattle's freight network. This 4-lane street is a critical piece of Seattle's arterial network and we will be constructing it with concrete to prepare for upcoming transit speed and reliability projects planned to begin in 2022. This work also contributes to our levy goal to pave up to 180 lane-miles of arterial streets by 2024.

The scope of this project includes:

- Full concrete reconstruction of NW Market St between 24th Ave NW and 15th Ave NW
- Curb ramp upgrades and replacements
- Sidewalk repair
- Tree pit expansion
- Water main upgrades
- Stormwater drainage improvements

We will continue to evaluate opportunities for transit improvements in partnership with the upcoming Route 44 Transit-Plus Multimodal Corridor Project.

SCHEDULE

The project is currently at 30% design. The design phase will continue throughout 2019. Construction will begin in mid-2020.

NEXT STEPS

Our goal is to keep you updated on the design progress. We will work closely with project neighbors to best coordinate in advance of construction. If you would like to learn more, contact us using the information below.

See map with planned changes on reverse.

These projects are funded by the 9-year Levy to Move Seattle, approved by voters in 2015. Learn more about the levy at www.seattle.gov/LevytoMoveSeattle.
