

## Reporting back on Holman Rd NW & 13th Ave NW

Hello!

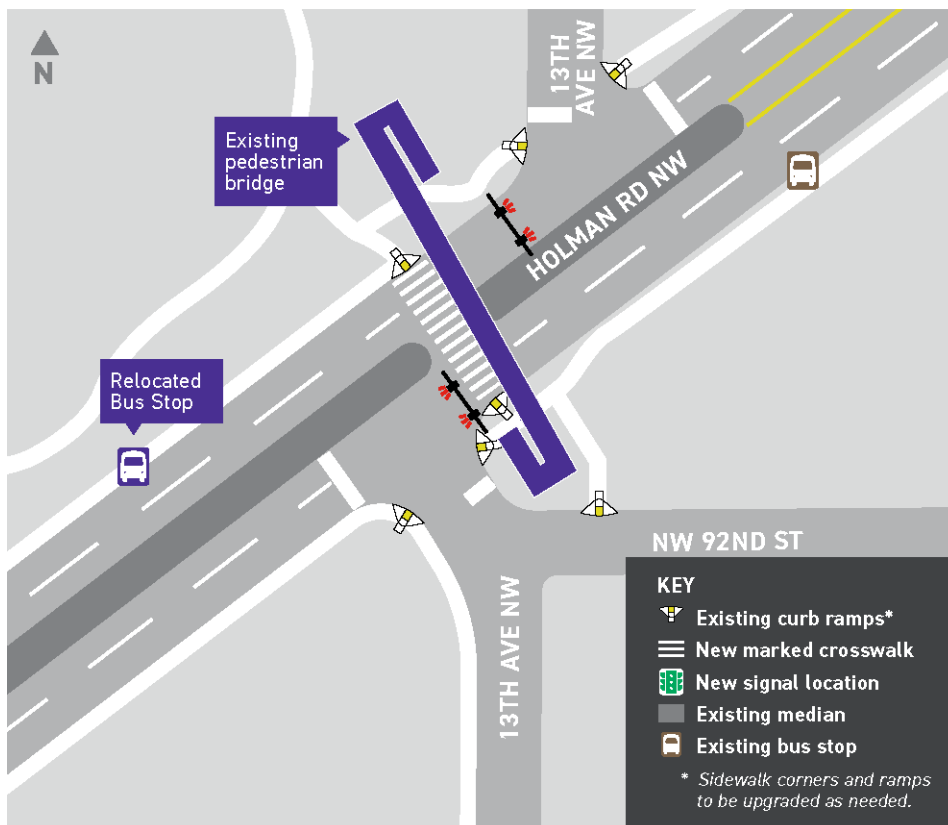

We're excited to share the outcome of Holman Rd NW at 13th Ave NW Signal project. We've revised the design to keep the pedestrian overpass and install one crosswalk.

As you know, community members concerned about the safety of students crossing at this location requested a new traffic signal and crosswalk at this location. Standard design procedures led us to propose removing the pedestrian overpass and installing two crosswalks. However, after hearing how important the pedestrian overpass is to people, we agreed to reexamine our design options.

We've come up with a solution that keeps the pedestrian overpass and installs one crosswalk just below it. This design requires more complex signal design and additional soil and foundation work, which is in part why it was not our initial recommendation.

### NEIGHBORHOOD STREET FUND Holman Rd NW/13th Ave NW New Signal Project

REVISED DESIGN, SEPTEMBER 2017

The project schedule remains the same. We expect to complete design by the end of this year and construction in 2018.
