West Seattle
Neighborhood Intercept Survey
Conducted for the
Seattle Department of Transportation
October 2017
Survey Overview

◆ **Purpose and Methodology Overview**
  - To better understand behaviors among people visiting and working in West Seattle.
  - An intercept survey was conducted over a two week period. Interviewers were stationed at key intersections during weekdays and administered a brief survey to pedestrians passing by.

◆ **Objectives**
  - Gauge the general frequency and length of stay of visitors.
  - Investigate the key reasons for visiting.
  - Understand how visitors travel to/from the West Seattle Junction and parking behaviors of those who drive or carpool.
  - Identify ways the City can help to sustain and improve visitation to the area.
  - Quantify the demographic characteristics of visitors to the area.

◆ **Definitions**
  - Throughout this report the term “Visitors” refers to respondents who do not live nor work in the West Seattle Junction.
  - The term “respondents” refers to all respondents regardless of their live / work situation.
Key Findings (1)

- **Residency**: Just over one quarter (26%) of survey respondents are “visitors”, that is they neither live nor work in the West Seattle Junction.

- **Mode Share**: Twenty-nine percent of respondents drive alone, 27% walk, 18% carpool, and 14% take a bus.
  - **Driving**: Thirty-seven percent of “workers”, those who work near the West Seattle Junction but don’t live in the area, drive alone.
    - Half (53%) of workers who drive alone state that transit takes too long or is inconvenient and 37% state that their job requires a car, and 16% state that they have obligations such as family care requiring them to have an available vehicle.
    - Fifty-two percent parked in off-street, free parking spaces. Fourteen percent used on-street, time limited parking.
Key Findings (2)

- **Trip Purpose**: Visitors, those who neither live nor work in West Seattle, have various trip purposes.
  - Thirty percent state the primary purpose for their trip is eating out, 28% are visiting family or friends and 17% are in West Seattle to go shopping.
  - Typical reasons for visiting West Seattle include going out to eat (46%), visiting family / friends (42%), shopping (27%), recreation / events (22%) and grabbing coffee or a snack (19%).

- **Spending**: Eighty-two percent of respondents plan on spending money while in the area.
  - The average anticipated spend is $34.23
  - Those who carpool with others plan on spending the most money ($43.83). This is nearly twice the planned spend among bus riders ($22.88) and those who walk ($26.69).
Methodology

• A total of 490 interviews were completed in West Seattle with an overall margin of error of +/-4.4% at the 95% confidence level.

• Two interviewers were on-site to distribute and collect single page paper surveys and help respondents as needed. Interviewing took place over two the following dates and times (all in 2017).

  ✷ September 12: 10:00am to 2:00pm – California & Alaska (32 completes)
  ✷ September 13: – California & Oregon (16 completes)
