WELCOME

Thank you for coming to tonight’s community meeting

6:00 PM
Please sign in, grab a comment form, browse the information boards, and talk to your neighbors and staff

7:00 PM
Community meeting concludes, please turn in your comment form
Spring walk audit results
We have heard that neighbors want to:
  • Make neighborhood streets safer so that everyone can enjoy walking around
  • Be able to walk to bus stops on 15th Ave NE and Lake City Way NE, school, local businesses, and parks
  • Slow down speeds, decrease noise from traffic, and make it easier to pull out of your driveway

We want to respond to the community desire for walkways in this neighborhood.

Benefits of cost-effective walkways
  • Separate people walking from people driving
  • Narrow the street and slow down people driving
  • Cost a fraction of a traditional sidewalk, so we can build a whole network instead of one block
  • Provide safer routes to places people want to go, like bus stops, schools, parks, shops

Challenges of cost-effective walkways
  • Some parking has to be removed to make space for the walkway
  • Don’t address drainage issues like a traditional sidewalk
  • Don’t look as nice as a traditional sidewalk

How much do sidewalks cost?

<table>
<thead>
<tr>
<th>Typical Cost per Linear Foot</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-Effective Walkway</td>
</tr>
<tr>
<td>$1,000</td>
</tr>
<tr>
<td>Traditional Sidewalk</td>
</tr>
<tr>
<td>$100</td>
</tr>
</tbody>
</table>

How many blocks can we build?

<table>
<thead>
<tr>
<th>Number of 330 Foot Long Blocks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cost-Effective Walkway</td>
</tr>
<tr>
<td>16</td>
</tr>
<tr>
<td>Traditional Sidewalk</td>
</tr>
<tr>
<td>1</td>
</tr>
</tbody>
</table>
WHICH STREETS ARE WE CONSIDERING?

Note: We currently have plans to install cost-effective asphalt walkways on 17th Ave NE from NE 90th St to NE 91st St and from NE 92nd St to NE 94th St. These two blocks are flat and can be constructed in asphalt relatively easily.
WHAT DOES A COST-EFFECTIVE WALKWAY LOOK LIKE?

Before

Parking  People walking or driving in the same space  Parking

Note: There will be gaps in the wheel stops for driveways.

After

New walkway separated by wheel stops  Drive Lane  Parking

Parking  People walking or driving in the same space  Parking
CONNECTED WALKWAY NETWORKS
MATTER FOR WALKING TO SCHOOL

Percent Walking and Biking to School

Quality of Walking Environment [smaller number is better]
