

## **Phase 2B**

**In this slide show:**

### **Phase 2B Begins**

## **March 2012 Construction Update**

Representatives of SDOT, WSDOT, FTA and FRA toured the station on March 15, 2012 as part of the kick-off event.

The event attracted public and media attention.

Major Mike McGinn was one of the speakers at the event.

Excavation on the station's west side for foundation improvements.

Pre-ticketing area next to main waiting room blocked off for construction.

View of another side of the pre-ticketing area blocked off for construction.

Construction started inside the blocked off area.

Concrete was removed from the supporting columns to prepare for installation of additional structural steel.

Temporary enclosed area under tunnel for Amtrak during construction

A view of the northwest side of the station with enclosed staging area.
