"Come celebrate the conclusion of Horatio Law's South Park Crisálida project. Co-sponsored with South Park Arts, Summer Splash recognizes and honors South Park residents who participated in the creation of Community Yarns that cover the South Park Crisálida artwork. The celebration includes hands-on art activities featuring South Park artists Elise Consek and Tristen Warner, and a presentation on Urban Hydrology by Karina Adams and Therese Graf. South Park Crisálida was created to raise community awareness for the 14th and Concord Sewer Improvement Project that Seattle Public Utilities is constructing and became a destination piece that attracted visitors to the neighborhood during construction. The sculpture was on display within the construction zone along 14th Ave. S. in May and was moved to Marra Desimone Park for a temporary summer exhibition. South Park Crisálida is commissioned with Seattle Public Utilities 1% for Art funds and administered by the Seattle Office of Arts & Culture." <http://artbeat.seattle.gov/2016/08/10/celebrate-the-conclusion-of-horatio-laws-south-park-crisalida/>
