Environmental Works Community Design Center and SMR Architects, both leaders in designing multi-family housing, will team up to present on the opportunities and challenges of designing for special populations. The presentation will look at a variety of housing types such as homeless supportive housing, homeless shelters, housing for veterans, housing for people with traumatic brain injury, and more!

**Scott Starr,  
Principal at SMR  
Architects**

Scott Starr is an Architect and has been a partner at SMR Architects since 2010. He has worked with

nonprofit housing providers such as DESC and Plymouth Housing on five major supportive housing projects as well as homeless shelters and service centers.

**Bill Singer, Director  
of Architecture and  
Housing Studio Lead  
at Environmental  
Works Community  
Design Center**

Bill has over 33 years of experience working on a wide

variety of building types. He has particular expertise in the design of sustainable affordable housing and homeless supportive housing in the Puget Sound region.

**Christina  
Congdon,  
Designer at  
Environmental  
Works  
Community  
Design Center**

Christina has over 10 years

of experience in architecture with an emphasis on housing. Her focus is on underserved populations, including housing for people with disabilities, family housing, and rural housing.

This presentation is free and open to the public.
