FROM THE EXHIBIT

**IMMINENT MODE** is a platform for multidisciplinary artists to play with the juxtaposition of creative expression, mediums, cultures, and voices.

Developed and curated by Adé Cōnnére, Anouk Rawkson, and Jordan Christianson, a team of duos comprised of a Garment Designer and Fine Artist are paired to collaborate and create a work for exhibition featuring a piece wearable art and large-scale installation based on a theme.

With a focus on creators from our local LGBTIQ/QTPOC community, our goal is to raise mostly-unheard voices, visibility, and provide space for our unique and amazing stories to be told.

**IMMINENT MODE: US** Our sixth exhibition, asks for a deeper examination of where we've come from, why our ancestors came to this land, and how our cultural differences can find harmony.
