

# **4<sup>th</sup> Quarter 2025 PAYROLL EXPENSE TAX REPORTING FORM**

The payroll expense tax is due and payable on a quarterly basis. This worksheet is intended to assist taxpayers to determine the amount to report on the fourth-quarter return.

Step 1 Current Year Payroll Expense Tax Due					
Annual Employee Compensation	<u>Column A</u> Payroll Expense Total	<u>Column B</u> Deduction	Column C Taxable Amount	Column D Tax Rate ①	Column E Tax Due
Payroll expense of employees with annual compensation of \$189,371 but less than \$504,989					
Payroll expense of employees with annual compensation of \$504,989 or more					
Total Tax Due					

The payroll expense tax rates are applied to the total annual compensation paid in Seattle of employees with annual compensation of \$189,371 or more.

Step 2 Payroll Expense Tax Paid				
Calendar Quarter	<u>Quarter 1</u> (Jan 1 - Mar 31)	<u>Quarter 2</u> (Apr 1 - Jun 30)	<u>Quarter 3</u> (Jul 1 - Sep 30)	<u>Total</u>
Payroll expense tax paid for Quarters 1, 2, and 3. *				

<sup>\*</sup> For quarters one, two, and three, the taxpayer may use the Seattle payroll expense in the prior calendar year to arrive at an estimated amount to report in each quarter.

Step 3	Step 3 Payroll Expense Tax Reconciliation Calculation				
Column A Annual Payroll Expense Tax Due (Part 1, Column E Total)	Column B Taxes Paid on prior Returns (Total from Step 2)	Column C Tax Balance Due (A-B)	Column D Input the rate for the compensation with the greatest payroll expense (See Table 1, p. 2)	Column E Total Compensation to Report on Q4 Return (C / D)	

# **Worksheet Directions**

Step 1		
Column A:	Enter your total payroll expense in Seattle for the complete calendar year.	
Column B:	If eligible, deduct the total payroll expense for eligible Non-profit Healthcare Entity employees.	
Column C:	Subtract the amount in Column B from the amount in Column A and enter the result in Column C.	
Column D:	Enter the appropriate Payroll Expense Tax Rate based on the Total Seattle Payroll Expense (refer to Table 1 below).	
Column E:	Multiply the amount in Column C by the tax rate in Column D.	

# Step 2

Enter the payroll expense tax amounts paid in quarters one, two, and three and input the sum in the Total column.

	Step 3
Column A:	Enter your total payroll expense tax due from Part 1 Column (E) above.
Column B:	Enter the total tax paid in quarters 1 through 3 from Part 2.
	Subtract the amount in Column B from the amount in Column A and enter the result in Column C. This is the total 4th quarter tax payment due. If the amount in Column C is positive, continue completing Columns D and E.
Column C:	If the amount in Column C is negative, the estimated payroll expense paid in Quarters 1, 2, and 3 (Column B) is more than the total Seattle payroll expense tax due for the year (Column A). <b>Do not continue the worksheet.</b> The previously filed quarterly return may be amended to obtain a refund for the overpaid payroll expense for the current year and the 4 <sup>th</sup> quarter Payroll Expense Tax Return should be filed zero.
	Input the tax rate from Table 1. To determine your rate, first find your Tier (1, 2 or 3) based on your total annual Seattle compensation. Next, determine your Row (1 or 2) based on the larger taxable amount reported in Step 1, Column C of this worksheet. The Tier and Row cross-section is your rate.
Column D:	For example, if a business with total annual compensation in 2025 had less than \$126,247,179 in total annual compensation paid in the city to employees and \$2,000,000 of compensation paid in the city was to employees with annual compensation of \$189,371 but less than \$504,989 and \$2,500,000 of compensation was paid in the city to employees with annual compensation of \$504,989 or more; the tax rate in Column D would be 0.01811 (1.811%)
Column E:	Divide the amount in Column C by the rate in Column D to arrive at the estimated payroll expense to enter on your fourth quarter return. Enter the amount determined in Column E on your 4 <sup>th</sup> Quarter return under the annual compensation Tier that corresponds to the rate in Column D.

## How to Prepare your Payroll Expense Tax Return

Column A: Taxable Annual Employee Compensation\*

Column B: Enter your total payroll expense for Seattle for this tax period.

Column C: If eligible, deduct the total payroll expense for employees with annual compensation of \$189,371 to \$504,989.

Column D: Subtract the amount in column C from the amount in column B and enter the result in column D

Column F: Multiply the amount in column D by the tax rate shown in Column E and enter the result in Column F.

Totals: Drop down result from Column F to Total Tax Due. If filing after the due date add applicable penalty/interest and add to Total to be Paid.

\*The payroll expense tax is on payroll expense attributable to employees whose annual compensation is \$189,371 or more in the current calendar year. This threshold amount may change with inflation based on the CPI-U Index each year.

### **Online Reporting**

This form can be filed online at www.filelocal-wa.gov. There is a fee to file electronically.

#### Report by Mail

Make check payable to **City of Seattle**. Payments must be sent with the tax return when tax is due. Forms received without payment will not be considered "received" if taxes are owed. Late penalties and interest shall apply if either the form or check are postmarked after the due date.

### **Late Penalties**

A form with any tax due must be received by the due date to avoid late penalty. If received after the due date penalty shall apply as follows:

Nine percent (9%) of the tax due if postmarked after the due date; or

Nineteen percent (19%) of the tax due if postmarked after the last day of the month following the due date; or

Twenty-nine percent (29%) of the tax due if postmarked after the last day of the second month following the due date.

### **Questions?**
