2. Gorge, Diablo and Boundary are all City Light
3. Since the City Light conservation program began in 1977, customers have saved over_____dollars on their bills
4. Sun, wind, solar and hydro are all_____energy

BRIGHT IDEAS TO KEEP YOUR ENERGY COSTS LOW
Looking to brighten up your apartment but worried about the cost? Here are a few tips to get started:

• Use LED light bulbs. They use 80 percent less energy than incandescent light bulbs.
• When shopping for LED light bulbs, look for the City Light logo for an instant in-store discount.
• Remember to always turn off your lights when leaving a room—it only takes seconds to save hours while you’re away!

LED One Billion
Yes Ductless Heat Pump
Water Heater
SAFETY TIP FROM THE FIELD

“While generators can be effective during a power outage, they need to be used with care. Always use portable generators outside in well-ventilated areas. Never plug a generator into your home circuitry. Instead, plug in appliances directly into the outlets on the generator. Be sure not to use your charcoal or propane grills indoors, either.”

-Darwyn Anderson, Safety, Health & Wellness Director

ADVANCED METERING CONTINUES IN 2018

This year, City Light will continue replacing its existing meters with advanced meters that wirelessly deliver energy consumption information to the utility. With more than 30 installers in the field, our team is exchanging and installing more than 1,000 meters a day! Check out this map to find out when our team will be in your neighborhood to install advance meters.

Aug. 2017 to Sept. 2017
Oct. 2017 to Dec. 2017
Jan. 2018 to March 2018
Apr. 2018 to June 2018
July 2018 to Sept. 2018
Oct. 2018 to Dec. 2018

For more information on advance meters, visit seattle.gov/light/ami.

BE ON THE LOOKOUT FOR SCAMS

City Light will never call demanding immediate payment over the phone. If you are contacted by someone threatening to shut off your service if you don’t pay immediately, end the conversation right away. Call us at (206) 684-3000 or visit seattle.gov/light/endscams to report the scam attempt.

Crews are in these neighborhoods, working to provide reliable service:

• Blue Ridge/North Beach: installing underground conduits to improve electrical service and allow for shorter restoration times;
• South Lake Union/Denny Triangle: installing underground vaults and duct banks in advance of the new substation;
• Pioneer Square: increasing electrical reliability by connecting and repairing underground conduits in support of the Center City Connector Streetcar project;
• Pioneer Square (South King Street at Alaskan Way South): relocating transmission lines in preparation for demolition of the Alaskan Way Viaduct;
• Mt. Baker: Upgrading overhead utility poles in support of Sound Transit’s planned East Link Extension.

This is a partial list. For details go to seattle.gov/light/atwork and click on an orange cone to learn about individual projects.
