JANUARY 2025

Saving Energy and Money
in 2025

On January 1, City Light implemented new electricity rates. We understand that rate increases can be challenging, so we're here to provide you with tools, tips, and resources to help you save energy and reduce your bills. Now more than ever, it's important to understand how you use electricity and find ways to be more energy efficient. When we all work together to lower our energy use, it not only helps reduce costs but also supports the entire service area and eases the load on the power grid. Plus, energy-saving habits contribute to our region's clean energy goals. Learn more about the new rates, how to get help with your bill, and several practical strategies to save money.

Powerful Tips

We want to share simple, budget-friendly tips to help renters save energy. Small changes can lower utility bills and make your space more energy-efficient without losing comfort or convenience. Seal drafts, make the most of natural light, adjust hot water settings, and unplug devices when not in use. These easy steps can add up to big savings. Let's work together to save energy and build a more sustainable future.
