Commissioner Committee & Workgroup Updates:

- **Community Engagement Committee:**

The meeting time has been updated. The committee plans to coordinate with OIRA on the Language Access Plan.
- **Police Practices Workgroup:**

Commissioner West reported the group reviewed two proposed ordinances from the county attorney's office:

- Bill 120995 – addresses illegal graffiti and introduces a restitution mechanism.
- Bill 1201006 – proposes changes to the city's Chronic Nuisance Property Ordinance.

The group also reviewed staff edits to SMC 4-18 (the city's immigration enforcement policy), providing feedback to refine the draft.

Sentinel Event Review (SER)

- Inspector General Lisa Judge and Deputy Inspector General Alyssa Perez Morrison presented an overview of the Sentinel Event Review (SER) process. SER is a structured approach to reviewing significant incidents by identifying not only individual actions but also systemic issues that contributed to the event. In this case, the SER will focus on the Cal Anderson protest that occurred in May.

- The goal is to understand what happened, why it happened, and to examine any systemic factors across City departments, including SPD, that contributed to the outcome.
- The process involves gathering comprehensive information and establishing a review panel composed of individuals who were either present at the protest or directly impacted by SPD's actions. The emphasis is on meaningful community involvement and ensuring that the panel reflects those most affected. To support this work, CPC and OIG are initiating weekly coordination meetings to move the process forward collaboratively.
