Update on Work Progress, Reports and Safety

Work Progress

The continuance of phase 2 construction began last December. Keller and Titan are on site, and they are gearing up for trades coming on board. Work will include mechanical, electrical, concrete, and other trades work. They created a PowerPoint presentation to educate contractors on Priority Hire and they plan to hold a meeting later this month or April. The project is 20% overall complete. They are continuing to work towards their project performance deliverables.

Safety

COVID-19 protocols are continuing to be followed.

Grievances

There are no active grievances.

Pre-apprenticeship Updates

PACT has a current cohort of 14 students. They will host a meet and greet for contractors to come and meet with graduates on March 23rd. The next cohort will begin May 4.

Carpenters have 3 cohorts that will begin in April. They just graduated a pre-apprenticeship class of 8 women.

Old/Unfinished/New Business

Urban League and ANEW have resources for apprentices impacted by the strike.

There is a high suicide rate in construction, ask folks to keep supervision, be aware and keep an eye on crew members and check in.
