

City of Seattle

Edward B. Murray, Mayor

Finance and Administrative Services

Fred Podesta, Director

July 25, 2016

The Honorable Tim Burgess
Seattle City Hall
501 5th Ave.
Seattle, WA 98124

Councilmember Burgess,

Attached is an annual report of all real property under City ownership. The annual review supports strategic management of the City's real estate holdings. Because City needs change over time, the annual review helps create opportunities to find the best municipal use of each property or put it back into the private sector to avoid holding properties without an adopted municipal purpose.

Each January, FAS initiates the annual review process. City departments with jurisdiction over real property assure that all recent acquisitions and/or dispositions are accurately represented, and provide current information about each property's current use, and future use, if identified. Each property is classified based on its level of utilization -- from Fully Utilized Municipal Use to Surplus.

In addition, in 2015 and 2016, in conjunction with CBO, OPI, and OH, FAS has been reviewing properties with the HALA recommendation on using surplus property for housing. The attached list has a new column that groups excess, surplus, underutilized and interim use properties into categories to help differentiate the potential for various sites. Below is a matrix which explains the categorization:

Category	Description
Difficult building site	Small, steep and/or irregular parcels with limited development opportunity
Future Use	Identified use in the future will change status from Interim Use to Fully Utilized
In process	Various departments involved in actively seeking higher and better use
Industrial zoning	Industrial zoning precludes housing development
MOB Lease	Mutually Offsetting Benefit lease with non-profit partners
Outside City limits	
Pending Housing Assessment	Potential site for Office of Housing analysis which has not been evaluated yet
Potential sale; proceeds to OH	Small parcels which Office of Housing is not interested in developing, but which could sold with proceeds going to OH
Restricted Funding	Utilities and SDOT parcels that do not fall into the other categories. These parcels could be considered property like any private property in that a purchaser needs to pay fair market value.
Retain for City use	Identified use for another City Department
Snippet	Very small parcels
Sold	
Under contract	Not available for disposition until contract has expired

Additionally, those properties that are "in process" have some additional information on the status and potential of those properties being most actively managed and those which seem most promising for housing sites.

As of March 20, 2016, the City had ownership interests in 1,189 property management areas (PMAs), not including locations where the City may have only a leasehold interest, easement or other property right. Significant changes in 2015 include acquisition of 250 acres for wildlife mitigation in Skagit County by Seattle City Light, and Seattle Public Utilities purchase of the former Yankee Diner site for the Ship Canal Water Quality Project. Seattle Parks & Recreation added an additional 100,000 sq. ft. for green space and other uses. Property dispositions in 2015 included the sale of the former Teen Parent property, which grossed \$1,388,000 and the conveyance of the FAS portion of the Danny Woo Garden to Interlm, with a covenant keeping that land in community use in perpetuity.

If you have questions about the report or about FAS's role in managing the City's real property assets, do not hesitate to contact me at 684-0503 or Mike Ashbrook at 615-0985. We would be happy to brief the Affordable Housing, Neighborhoods and Finance Committee if this would be of interest.

Sincerely,

Fred Podesta, Director

Cc: City Councilmembers
