City of Seattle Tow Company Rules

Seattle Municipal Code (SMC) Chapter 6.214.220 requires the City of Seattle to adjust certain maximum private impound fees during the first quarter of each year.

1. The maximum towing service fee, storage fee and uncompleted tow fee shall be as specified in SMC 6.214.220 and shall be adjusted by the Director of the Department of Finance and Administrative Services (FAS) or his or her designee (the Department Director) for inflation, by rule, during the first quarter of each calendar year as follows:
 - (a) **Towing service fee and uncompleted tow fee.** These fees shall be adjusted annually based upon the preceding year's percentage change in the annual Seattle-Tacoma-Bremerton Consumer Price Index for all Urban Consumers (CPI-U) Transportation, or a successor index hereto, as determined by the U.S. Department of Labor, Bureau of Labor Statistics.
 - (b) **Storage fee.** This fee shall be adjusted annually based upon the preceding year's percentage change in the annual Seattle-Tacoma-Bremerton Consumer Price Index for all Urban Consumers (CPI-U) Transportation, or a successor index hereto, as determined by the U.S. Department of Labor, Bureau of Labor Statistics, provided that any such adjustment in the storage rate shall not result in a storage rate that exceeds the maximum daily storage rate allowed under Revised Code of Washington (RCW) 46.55.118(1)(b).
2. **After-hours release fee.** This fee may be adjusted by the Department Director upon written findings that reasons to do so exist. The Department Director shall consider the number and frequency of after-hours releases, the effect of the fee on consumers, the costs to tow companies and any other factors related to after-hours releases. In considering those factors, the Department Director has chosen to keep the fee at its existing rate.
3. The current maximum private impound fees are shown in the following table:

Fee Type	2022 Maximum Fee	Consumer Price Index, Seattle Area (February 2023)	2023 Maximum Fee
Towing service ¹ (first hour)	\$260.28	9.4%	\$284.74
Towing service (each subsequent hour per 15-minute period)	\$46.44 (\$185.75 per hour)	9.4%	\$50.80 (\$203.21 per hour)

¹ The towing service fee is a flat hourly rate that includes winching, dolly service, drive line removal, installation of chains on the tow truck, installation of portable lights, vehicle hookup for towing or transporting, tire replacement and standby times (SMC 6.214.220.A.2). This fee is the only basis for computing charges for private impound towing services other than uncompleted tow, storage and after-hours release fees (SMC 6.214.220.A.1).
