Department Overview

The mission of the Human Services Department (HSD) is to connect people with resources and solutions during times of need so we can all live, learn, work, and take part in strong, healthy communities. HSD contracts with more than 230 community-based human service providers and administers programs to ensure Seattle residents have food and shelter, productive education and job opportunities, adequate health

Human Services Department

care, opportunities to gain social and economic independence and success, and many more of life's basic necessities. HSD staff are committed to working with the community to provide appropriate, culturally relevant services.

HSD's Strategic Plan, "Healthy Communities, Healthy Families," identifies a set of goals and actions to position HSD to better serve clients and strengthen the City's overall service delivery system. The strategic plan includes four key goals:

- Create a Proactive, Seamless Service System;
- Strengthen and Expand Partnerships;
- Engage and Partner with the Community; and
- Use Data-Driven Design and Evaluation.

In 2011, the Department organizational structure was changed to support the Strategic Plan. The realignment defines departmental results and measures, clarifies organizational functions and structure, links fiscal management with contracts development and monitoring and program delivery, and builds in a continuous quality improvement process based on data collection and analysis. These changes provide HSD with an organizational structure that is responsive, fluid, and sustainable, with a strong linkage between programs and the fiscal and contracting processes that support effective service delivery. The Department now consists of the following Divisions:

- Leadership and Administration;
- Youth and Family Empowerment;
- Community Support and Self-Sufficiency;
- Transitional Living and Support; and
- Aging and Disability Services.

In 2013, the Information Technology Program is renamed Data Integrity which also includes the Safe Harbors Homeless Management Information System Program, and the Financial Management Program is renamed Fiscal and Contract Administration. These name changes better reflect the functions of these programs and their relationship with the Strategic Plan.

HSD's work is funded by a variety of revenue sources, including federal, state and interlocal grants, and the City of Seattle General Fund. General Fund contributions leverage significant grant revenues to benefit Seattle residents. As a result, external grants represent approximately 53% of HSD's revenue, while General Fund represents 47%.

Budget Overview

In recognition of the City's priority to enhance the safety net for Seattle's most vulnerable residents, the 2013 Adopted and 2014 Endorsed budgets for the Human Services Department (HSD) preserve all direct services to the community and increases support in key program areas such as homelessness, domestic violence, childcare, and workforce development. This is particularly important now, as many individuals are experiencing continued and expanded need for direct human services to mitigate the continuing effects of the recession and reductions in funding by other public-sector entities.

First, the Human Services Budget maintains all current community-based health and human services and includes General Fund inflationary increase for agencies and community partners for the first time since 2009, allowing agencies to respond to increases in their own internal costs and continue existing levels of service delivery. One-time use of Department fund balance is also programmed in 2013 offset potential reductions in General Fund resources and to support the overall Department budget.

Second, the 2013 Adopted and 2014 Endorsed budgets include new investments that are based on national best practices, evidence-based evaluation, and consultation from on-the-ground community advocates to meet the most acute needs of the community. Most of the new investments support direct services that address the critical needs of the most vulnerable in these challenging economic times. New investments in the Center City Initiative Outreach and Engagement Teams and the Career Bridge program incorporate inter-agency and community-based collaboration to provide a comprehensive range of services to meet the specific needs of individuals. These investments are described further below.

Increasing Assistance to Unsheltered Families and Individuals

The 2013 Adopted and 2014 Endorsed budgets expand funding to assist homeless families with children through a national best practices service model that incorporates expanded outreach and engagement, coordinated entry and assessment, family reconciliation, diversion and progressive engagement models to rapidly move families from homelessness to housing. These components are essential for effective service delivery because they represent a coordinated and integrated approach to divert families from shelters, move families out of homelessness quickly, and help families remain in safe and stable housing. To support the service model, the 2013 Adopted and 2014 Endorsed budgets add General Fund support to HSD's budget to maintain and expand shelter and housing services for homeless families with children, following further analysis of the effectiveness of these programs in 2012. The 2013 Adopted and 2014 Endorsed budgets include continued funding for the diversion program that provides stabilization services for 23 families waiting to enter shelter; an expansion of the rapid re-housing program to assist 45 homeless families by placing them into housing with wrap around case management services, either before they enter the shelter system or directly from shelter; and expanded funding for the emergency vouchers and case management services program to support to approximately 80 families that have just become homeless. Funding for the rapid re-housing program is further increased through the changes made by Council as described below. The 2013 Adopted and 2014 Endorsed budgets also add funding for two peer-to-peer liaisons and one case manager to effectively engage homeless families with services and housing, as well as funding for contracting and system coordination support staff.

Additionally, the 2013 Adopted and 2014 Endorsed budgets expand funding for outreach support and for case management services for homeless families and individuals living in their cars. The case management funding supports a full-time case manager and represents an increase to the existing Safe Parking Pilot Program. These outreach and case management activities will increase access to referral services, support the Safe Parking Program, and provide mitigation with scofflaw and other issues.

Together, these changes continue \$360,000 of one-time investments in the 2012 Budget, and add an additional \$620,000 for a total of \$980,000 in General Fund support, prior to the changes made by the City Council as described below.

Human Services Department

Engaging Homeless in Downtown Neighborhoods

The Mayor's Center City Initiative (CCI) utilizes a new approach to address street disorder and support the health and vitality of downtown neighborhoods. A new CCI Outreach and Engagement Team will offer access to services and interventions for individuals that may exhibit signs of mental health or substance abuse issues, aggressive or intimidating behavior, and apparent homelessness in Belltown, the Commercial Core, Pioneer Square and the Chinatown/International District. This team will include collaborative participation and support from the Seattle Police Department (SPD), HSD, Metro Transit Police, the Washington State Department of Corrections, and the private sector to provide specific interventions that will most effectively address the issues.

To engage homeless individuals as part of the CCI Initiative, HSD will contract with and deploy formerly homeless individuals as peer-to-peer liaisons. Working under the supervision of an outreach case manager, a position that will also be contracted through HSD, and in collaboration with other of the CCI Outreach and Engagement Team, the liaisons will help identify and engage homeless people living in downtown streets or in places not suitable for human habitation. The liaisons will connect with individuals on a personal level and connect them with specialized and targeted services. The additional proactive police services funded in this initiative will also focus on contacting homeless and/or mentally ill individuals and connecting them to services via the new HSD-contracted outreach workers. The CCI will leverage both existing and new funding to increase SPD's Community Police Team (CPT) participation, focusing on the long-term and often chronic problems specific to individual neighborhoods. In addition, the Union Gospel Mission will provide a designated mental health professional to provide daily services and connect individuals with significant mental health issues to appropriate services. The 2013 Adopted and 2014 Endorsed budgets add funding to support the peer-to-peer liaisons and the outreach case manager. Additional funding in support of the Center City Initiative is provided as part of the changes made by Council as described below.

Supporting Domestic Violence and Sexual Assault Victims

The 2013 Adopted and 2014 Endorsed budgets add funding for independent community-based housing for domestic violence survivors and their children that are homeless or at risk of becoming homeless. Survivors will also receive voluntary, culturally competent domestic violence services and financial assistance to support safety, housing stability and economic self-sufficiency. Funding is also added to strengthen organizing and coalition-building efforts for domestic violence and sexual assault service providers and other stakeholders. Funding for domestic violence support programs is further increased through the changes made by Council as described below.

Community Development Block Grant and Workforce Development

In 2013 and 2014, the City is anticipating federal CDBG entitlement levels to remain unchanged from the 2012 actual level of approximately \$9.3 million. In 2013, the City completes its commitment of CDBG funding to the Rainier Valley Community Development Fund (RVCDF) with a final funding allocation of \$2 million. As a result, in 2013 and 2014, a portion of the City's anticipated CDBG entitlement is allocated for new purposes.

The U.S. Department of Labor shows that an important determinate of socio-economic advancement for is educational attainment beyond high school. In 2013, CDBG resources in HSD will support a new "Career Bridge" program, a partnership between the Office of Economic Development (OED) and the Human Services Department designed to prepare people in crisis or facing barriers to employment for the education and training necessary to secure employment that provides greater economic security. The program helps participants find employment while preparing them to be successful in the Pathways to Careers program, a partnership between OED, the Seattle Community College District and Seattle Employers that focuses on increasing the number of low-skilled working-age adults who complete a professional degree or credential that leads to a better paying and more secure job with benefits and opportunities for career advancement.

Human Services Department

In 2013, the City will identify a Community Based Development Organization (CBDO) that will be the front line point of contact with individual participants as part of the Career Bridge Program. The CBDO will coordinate recruitment of individuals, and assess each individual's needs. In 2013, it is anticipated that the CBDO will provide each program participant with 20 hours of career building and job search training. In addition, the CBDO will connect potential employers with participants, and refer participants to job training and other post-secondary programs as necessary and appropriate. An important innovation of the Career Bridge program will be the integration of human and employment services tailored to meet the unique needs of the individuals served by the program. The CDBO, with support from the City's Human Service Department, will connect participants to appropriate housing options, childcare and transportation services so that participants can focus on career building activities.

The Seattle Jobs Initiative (SJI) will be a critical partner to HSD and OED in 2013 in developing the Career Bridge program. SJI has a strong record of providing adults with significant employment barriers with training and job placement services and is well suited to support the Career Bridge in its initial year. The Career Bridge program will be partially funded in 2013 by focusing \$150,000 of OED's workforce development contract with SJI to fund SJI's contributions to the Career Bridge program. In addition, HSD's 2013 Adopted and 2014 Endorsed budgets include an allocation of \$60,000 in CDBG funds in 2013 to identify and develop at least one CBDO to be involved in administering the program. In 2014, it is anticipated that the CBDO will assume oversight and delivery of this program, and will partner with other community based organizations to serve as ongoing support to the individual participant as the individual moves toward stable employment. In 2014, the level of CDBG funds is increased to \$800,000 to be programmed by HSD to fully support the Career Bridge program through work with one or more CBDOs. The program will be developed and supported with existing City staff in OED and HSD in 2013-2014.

Other Budget Changes

The 2013 Adopted and 2014 Endorsed budgets provide funding to increase the number of child care subsidies for low- and moderate-income families who need affordable childcare in order to enter the workforce. The funding will allow HSD to provide child care subsidies 75 children who are currently on the waiting list to receive such support. Funding for child care subsidies is further increased through the changes made by Council as described below.

The 2013 Adopted and 2014 Endorsed budgets reflect grant-funded increases in funding and staff in the Aging and Disability Services programs. These include the New Freedom Program for in-home services funded by the Washington State Department of Health and Social Services, the Healthy Options expansion for intensive care management services funded by the Community Health Plans of Washington, and an increase in the volume of case management services funded by Medicaid.

Other changes in the 2013 Adopted and 2014 Endorsed budgets include the addition of grant funding and grant-supported staff to support the Out-of-School Youth Services Program funded by the Workforce Development Council. Grant funds and grant-funded staffing are also added in the 2013 Adopted and 2014 Endorsed budgets to accomplish planning work associated with vulnerable populations funded by the Federal Urban Areas Security Initiative. To support the implementation of HSD's data and performance-driven framework, the 2013 Adopted and 2014 Endorsed budgets change three existing part-time positions to full-time status using existing resources identified in the Department's budget.

Finally, a series of inflation and benefit changes, miscellaneous departmental technical adjustments, and budget-neutral changes relating to HSD's division realignment are made as part of the 2013 Adopted and 2014 Endorsed budgets.

City Council Changes to Proposed Budget

During the Council's review process, the Council increased General Fund support for programs in the areas of homelessness, domestic violence, public health, child care subsidies, senior centers, and the Center City Initiative.

In the area of homelessness, the Council changes increased funding for the rapid re-housing program; added funding to address fluctuations in the demand and availability of emergency shelter for single adult men and/or women; and added funding for emergency shelter capacity during May-September for women who may otherwise be turned away from year-round programs following the closure of winter response shelters in April. The Council changes provided funding for additional adult day center services for individuals living on the streets as part of the implementation of the Center City Initiative. The Council changes also recognized a one time, net zero change in funding from CDBG to King County inter-local grant revenues to fund shelter services.

Additional funding was provided for domestic violence services including legal advocacy, bilingual domestic violence services, and legal assistance for immigrant and non-immigrant domestic violence survivors. Funding was added to the Nurse Family Partnership program to serve all first-time, low-income mothers in Seattle who choose to enroll in the program by phasing in seven nurses and one nurse supervisor over the 2013-2014 budget period. One time funding was added to pay for costs related to child care services for homeless families anticipated at the time the 2013 Budget was adopted to be transitioning to new care from the City's former Homeless Child Care Subsidies Program. In 2013, these funds will be used to provide support for the same child care services provided in 2012, with no transition taking place. Further, funding was provided for senior centers to increase the social work services provided to their clients, and to increase the amount of bulk food purchasing by food banks and non-profit meal providers.

Descriptions of Incremental Budget Changes

Baseline Changes

Citywide Adjustments for Standard Cost Changes - \$2,940,482

Citywide technical adjustments made in the "Baseline Phase" reflect changes due to inflation, central cost allocations, retirement, health care, workers' compensation, and employment costs. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Remove One-Time 2012 Adjustments - (\$443,700)

The baseline budget is reduced to remove the one-time increase in 2012 for homeless families with children pending further evaluation of the effectiveness of the program outcomes in 2012. This funding is restored in the Budget as described below.

Human Services Department

Nurse Family Partnership Full Year Costs - \$76,500

The baseline budget is increased to reflect the annualized funding level for the Nurse Family Partnership, a program that was added in 2012.

Use of Fund Balance - Baseline

The baseline budget reflects an increase in \$630,000 of ongoing General Fund support to address the one-time use of prior-year fund balance that was built into HSD's budget in 2012 and in prior years. There is no change in appropriation associated with this adjustment.

Recognize Indirect Costs on 2012 Adjustments - \$56,139

The baseline budget is increased to support indirect costs that HSD has incurred as a result of 2012 additions to the budget.

Proposed Policy Changes

Use of Fund Balance

To avoid cuts to direct service programs that may have otherwise been required to address General Fund budget challenges, \$637,000 in one-time HSD unrestricted fund balance is programmed to support 2013 expenditures. This one-time use of fund balance represents accumulated savings in 2012 and is not assumed to be ongoing. There is no change in appropriation associated with this adjustment.

Expanded Child Care Subsidies - \$500,000

Funding available for the childcare subsidy program is increased by \$500,000 and will reduce the program wait list by 75 children. The subsidies help low- and moderate-income working families pay for childcare for children ages one month to 13 years. Childcare subsidies may remove a barrier to employment for parents.

Investments to Address Homelessness - \$980,000

General Fund support is added to HSD's budget to maintain and expand shelter and housing services for homeless families with children, following further analysis of the effectiveness of these programs in 2012. The Budget continues the 2012 funding amount of \$120,000 for the diversion program that provides stabilization services for 23 families waiting to enter shelter; increases funding from \$150,000 to \$250,000 for the rapid re-housing program to assist 45 homeless families by placing them into housing with wrap around case management services, either before they enter the shelter system or directly from shelter; and increases funding from \$70,000 to \$275,000 for the emergency vouchers and case management services program to support to approximately 80 families that have just become homeless. The Budget adds \$135,000 in new funding for two peer-to-peer liaisons and one case manager to effectively engage homeless families with services and housing and \$110,000 for contracting and system coordination support.

Additionally, the Budget adds \$25,000 for outreach support and increases funding from \$20,000 to \$65,000 for case management services for homeless families and individuals living in their cars. The case management funding supports a full-time case manager and represents an increase to the existing Safe Parking Pilot Program. The outreach and case management activities will increase access to referral services, support the Safe Parking Program, and provide mitigation with scofflaw and other issues.

Together, these changes continue \$360,000 of one-time investments in the 2012 Budget, and add an additional \$620,000 for a total of \$980,000 in General Fund support.

Human Services Department

Domestic Violence Support Programs - \$180,000

The Budget adds \$120,000 for supportive housing for domestic violence survivors and their children in Seattle. The program will provide independent community-based housing for domestic violence survivors who are homeless or at risk of becoming homeless. Survivors will also receive voluntary, culturally competent domestic violence services and financial assistance to support safety, housing stability and economic self-sufficiency. The Budget also includes \$60,000 to strengthen organizing and coalition building efforts for domestic violence and sexual assault service providers and other stakeholders.

Center City Initiative Outreach and Engagement Team - \$133,000

The Budget includes \$133,000 to support contracted positions including two peer-to-peer liaisons and an outreach case manager for the Center City Initiative Outreach and Engagement Team. The peer-to-peer liaisons will engage homeless individuals in the downtown neighborhoods, provide emergency support services, and assist homeless individuals to access additional services. The outreach case manager will oversee the work of peer-to-peer liaisons, and identify clients who are unsheltered through direct outreach activities and referrals from other providers.

Aging and Disability Services Program Expansion - \$2,486,271/19.50 FTE

The Budget reflects approximately \$990,000 in new grant-supported revenue for the New Freedom Program. The New Freedom program is an option for individuals that require a nursing home level of care but choose to receive in-home services in place of moving into a skilled nursing facility. In mid-year 2012, the State of Washington Department of Social and Health Services contracted HSD to provide assessment and care consultation services to approximately 680 clients. To support the increased caseload, Aging and Disability Services has added a New Freedom specialist team with eight Counselors, one Senior Human Service Program Supervisor, one Registered Nurse Consultant, and one Social Services Aide.

The Budget reflects \$1.1 million of new grant-supported revenue for the Healthy Options expansion to the existing King County Care Partners contract with Community Health Plans of Washington (CHPW). King County Care Partners, administered by HSD's Aging and Disability Services, is a chronic care coordination model serving clients with high health care needs and costs. CHPW will contract with HSD to provide intensive care management services to an estimated 400 enrollees with special health care needs who are at high risk for re-hospitalization. To meet a 50:1 enrollee to staff ratio, one registered nurse, and three case managers are added.

The Budget reflects projected growth in the Aging and Disability Services Case Management Program's service to Medicaid clients. One Senior Supervisor, two Counselors, a Social Services Aide and a 0.5 FTE Administrative Specialist I are added in 2013, and an additional 2.0 FTE Counselors are added in 2014. These positions will create capacity in the expanded program to serve low-income and ethnic minority elders, meet DSHS requirements, and implement HSD risk management strategies. A budget increase of approximately \$400K for the positions is fully funded by Medicaid.

Grant-Related Adjustments - \$101,560/2.00 FTE

The Budget reflects the addition of two new positions funded by grant funds in 2013-2014. The first grant provides funding for an Out-of-School Youth Services Program, which began mid-year 2012 and addresses the education and employment needs of out-of-school youth, ages 14-21. The program is funded by the Workforce Development Council of Seattle/King County and funds a Youth Development Counselor position that provides educational support and work-readiness training for 30 youth who have dropped out of high school. Services include objective assessment, development of service strategy plans, school re-enrollment/GED enrollment, job training, career exploration and other services that lead to economic self-sufficiency.

The Budget also adds a Planning & Development Specialist I in HSD to address large-scale care issues for vulnerable populations. The work began mid-year 2012 and is supported by the Federal Urban Areas Security Initiative (UASI) funding allocated to the Seattle Police Department.

Human Services Department

Data and Evaluation Position Adjustments/1.25 FTE

To assist in the implementation of the performance and data-driven framework that HSD is developing to alignment investments with needs based on data, the Budget increases three existing part-time positions to full-time status using existing funding in the Department. One Strategic Advisor I position is increased by 0.5 FTE to 1.0 FTE in the Youth and Family Empowerment division and will be responsible for data analysis and evaluation as well as data reports. One Senior Planning and Development Specialist is increased by 0.5 FTE to 1.0 FTE in the Transitional Living & Support Division and will support the planning, policy development and evaluation efforts for over \$15 million of federal grants and ensure that federal funds are effectively targeted to benefit low- and moderate income persons as required by federal funding guidelines. Finally, 0.25 FTE of position authority is added to an existing 0.75 FTE Senior Project Funding and Agreement Coordinator to reflect the full body of work required for the position. This position conducts financial monitoring and fiscal review of contracts with community-based agencies. Funding for these position changes has been identified through administrative funding shifts and existing indirect allocation in the Department's budget.

CDBG - Career Bridge Program - \$60,000

The Budget includes \$60,000 of CDBG resources in 2013 and \$800,000 in 2014 to implement the new "Career Bridge" program. The Career Bridge program will train and support 120 low- and moderate-income people in 2013 with 20 hours of career building and job search training, connection to potential employers, referral to job training and other post-secondary programs, and other services tailored to meet the unique needs of the participants. Full build-out of the program is anticipated to support 240 people in 2014. The 2013 CDBG amount of \$60,000 is supplemented by \$150,000 of redirected General Fund in OED's budget for the Seattle Jobs Initiative to provide transitional support to this program, resulting in a total funding level of \$210,000 in 2013.

Proposed Technical Changes

Final Citywide Adjustments for Standard Cost Changes - \$429,622

Citywide technical adjustments made in the "Proposed Phase" reflect changes due to inflation, central cost allocations, retirement, health care, workers' compensation, and unemployment costs. These adjustments typically reflect updates to preliminary cost assumptions established in the "Baseline Phase."

Technical Adjustments - (\$508,557)/(.50) FTE

Department technical adjustments reflect changes in grant revenue, minor internal transfers for HSD's new organizational structure, and reallocation of internal costs. Technical adjustments also reflect the continuation of the Seniors Training Seniors in Computer education program that was funded in 2011 and 2012 with City Cable Funds. Community Development Block Grant (CDBG) funding for public services contracts is reduced by \$330,000 due to a reduction in CDBG funds between the 2012 Adopted Budget and the 2012 actual HUD allocation on account of the federal cap on CDBG expenditures for public services. The City's actual allocation of Emergency Shelter Grant (ESG) funds from HUD were \$350,000 greater in 2012 than anticipated in the 2012 Adopted Budget, and are expected to be maintained at this higher level. The ESG funds provide ongoing support to fund these public services in 2013-2014.

Council Phase Changes

Nurse Family Partnership Program Expansion - \$527,000

This change provides funding to phase-in seven nurses and one nurse supervisor contracted through Public Health-Seattle & King County during 2013-2014. This increase in staffing levels is intended to allow the program to serve all first-time, low-income mothers in Seattle who choose to enroll in the program.

Human Services Department

Homelessness Funding - \$350,000

The Council changes provide \$200,000 in funding to serve an additional 35 families through the rapid re-housing program, which when combined with the funds added in the Proposed Phase, will serve a total of 80 additional families each year beginning in 2013; \$100,000 in funding to address fluctuations in emergency shelter availability for single men and women; and \$50,000 for to serve women turned away from year-round programs that are full following the closure of winter response shelters. The Council changes also recognize a one-time, net-zero change in the funding source for emergency shelter services from CDBG to King County inter-local grant revenues. The \$150,000 in CDBG funds made available as a result of this change are programmed in the 2013 Adopted Budget in the Office of Economic Development to mitigate the extended closure of the South Park Bridge, pursuant to an agreement with King County.

Domestic Violence Program Expansion - \$230,000

This change provides funding for domestic violence services including \$75,000 for legal advocacy for sexual assault victims when cases do not result in criminal charges; \$60,000 for bilingual advocacy services to Bhutanese and Japanese survivors of domestic violence; \$45,000 for legal advocacy to assist immigrant survivors of domestic violence; and \$50,000 for legal assistance to assist non-immigrant survivors of domestic violence.

Day Center Services in Center City - \$200,000

This change provides \$200,000 for additional adult day center services to support and assist in the implementation of the Center City Initiative. These day center services will include hygiene and support services with the intended outcome of moving individuals from the streets into permanent housing.

Food Bank and Meal Provider Funding - \$200,000

This change adds \$200,000 for bulk food buying to increase the availability and decrease the cost of nutritional food purchased by food banks and non-profit meal providers.

Social Work Services in Senior Centers - \$150,000

This change adds \$150,000 for Senior Centers to increase the social work services provided to their clients.

Child Care Subsidies - \$50,000

This change adds one time funding of \$50,000 to pay for costs related to child care services for homeless families anticipated at the time the 2013 Budget was adopted to be transitioning to new care from the City's former Homeless Child Care Subsidies Program. In 2013, these funds will be used to provide support for the same child care services provided in 2012, with no transition taking place.

City Council Provisos

The Council adopted the following budget provisos:

- *Of the appropriation in the 2013 budget for the Human Services Department (HSD) Transitional Living and Support BCL, \$135,000 is appropriated solely for outreach, engagement or case management services for families and may be spent for no other purpose. Furthermore, none of the \$135,000 so appropriated may be spent until authorized by future ordinance. The Council anticipates that such authority will not be granted until HSD provides the Council with a Comprehensive Outreach and Engagement Strategy that meets the requirements of Budget Action 103-1-A-2, and this Strategy is approved by the Housing, Human Services and Health Committee. HSD is requested to submit the Comprehensive Outreach and Engagement Strategy to the Council's Housing, Human Services, and Health Committee by April 30th, 2013.*
- *No more than \$35,000 of the appropriation in the 2013 budget for the Human Services Department's (HSD's) Transitional Living and Support BCL may be spent on outreach, engagement or case management services to implement the Center City Initiative until HSD submits, and the Chair of the Budget Committee and the Chair of the Housing, Human Services, and Health Committee file with the City Clerk certification that HSD has submitted the following information: The number of individuals and the types of challenges faced by the individuals to be served by the CCI; whether and how these individuals are already receiving services, such as outreach & engagement, case management, behavioral health, chemical dependency, and housing; and a recommendation on whether additional funding is needed for outreach, engagement and case management; and/or whether further investment in direct services (including housing, identification cards, medication, and substance abuse treatment) would be a better use of limited resources. The Council requests HSD to provide this information no later than March 29, 2013.*
