Department Overview

The purpose of the Office of Economic Development (OED) is to shape an economically prosperous, diverse, just, and resilient city, with the guiding principle that an inclusive economy is more competitive. OED is committed to building an inclusive economy in the City of Seattle by making strategic investments to break down barriers and unlock access to opportunity, which will generate wealth equitably. OED programs focus on the five key pillars of the community-driven Future of Seattle Economy framework, which the City adopted as policy in Resolution 32099: investing in diverse talent and building our workforce, supporting small, women and minority-businesses, building BIPOC community wealth, investing in neighborhood business districts, and growing businesses and key industries.

Budget Overview

The 2026 Adopted Budget maintains core services for the Office of Economic Development. The department will continue to invest in the Future of Seattle Economy (FSE) framework. The FSE framework, adopted as City policy in Resolution 32099, provides a community-driven investment strategy for the City to promote inclusive economic growth. The adopted budget prioritizes strategies and programs that deliver direct impact, while maintaining operational and staffing capacity necessary to implement these programs. The adopted budget will allow the department to support programming in all five pillars of the FSE framework, and focuses funding in: supporting small, women, and minority-owned businesses, creating BIPOC community wealth, investing in neighborhood business districts, and growing business and key industries.

The 2026 Adopted Budget for the Office of Economic Development (OED) increases by \$9.5 million, approximately 31%, relative to the 2025 Adopted Budget. The adopted budget builds on successful programs in OED, including expanding and increasing funding for the Back to Business Fund on a one-time basis in 2026, with plans for additional one-time funding in 2027. The Back to Business Fund iterates on the Storefront Repair Fund program, initially funded by the Coronavirus Local Fiscal Recovery Fund

Office of Economic Development

Additionally, the adopted budget includes funding to support new place-based programs that focus investments in neighborhoods to improve economic development, neighborhood vibrancy, and public safety. The adopted budget provides funding for the Stabilize, Activate, and Invest Locally (SAIL) Fund program, small business supports as part of the Phố Đẹp Initiative to address safety and livability in Seattle's historic Little Saigon neighborhood, programming to incubate and develop neighborhood corner stores, and programming to address safety and security in grocery stores.

Finally, the adopted budget includes a net-zero budget structure reorganization that aligns with the Future of Seattle of Economy framework and improves public transparency into how funding is allocated between strategies.

City Council Changes to the Proposed Budget

The Council approved several amendments to the 2026 Proposed Budget detailed in the Council Changes section below. The Council added neighborhood-specific funding to support outreach activities, enhanced cleaning services, and development of a Business Improvement Area. The Council also added funding to support workforce development programs and the creation of a new maritime innovation center. Additionally, the Council reduced a portion of proposed funding for the Stabilize, Activate, and Invest Locally Fund and eliminated proposed funding for a business climate assessment.

Description of Incremental Budget Changes

Baseline

Miscellaneous Technical Corrections

Expenditures -

This budget-neutral item makes adjustments to account-level budget coding for funds previously included in the department's budget. This change is necessary to ensure that data in the City's budgeting system accurately reflects the department's budget.

Citywide Adjustments for Standard Cost Changes

Expenditures \$(16,100)

Citywide technical adjustments made in the baseline phase reflect changes to internal services costs, including rates from the Department of Finance & Administrative Services, Seattle Information Technology Department, Seattle Department of Human Resources, and for healthcare and other central cost factors. These adjustments reflect initial assumptions about these costs and inflators early in the budget process.

Adopted Operating

Establish a Stabilize, Activate, and Invest Locally (SAIL) Fund

Expenditures \$4,000,000

The Council reduced this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This one-time item, supported by the General Fund, will establish a Stabilize, Activate, and Invest Locally (SAIL) Fund. Neighborhoods in Seattle have persistent, interconnected problems related to public safety, economic development, and neighborhood vibrancy. To address this, the City will invest in a place-based approach that addresses cleanliness, safety, and economic revitalization at specific locations. This funding will support both short-term and long-term strategies in neighborhoods, such as Lake City and Little Saigon, that include law enforcement, increased street cleaning, funding to support physical environment changes that are proven to prevent crime, and activation initiatives.

Office of Economic Development

Expand the Back to Business Fund Program

Expenditures \$2,500,000

This one-time item, supported by the Payroll Expense Tax Fund, will expand the Back to Business Fund for a total budget of \$3.3 million in the 2026 Proposed Budget. The Executive intends to propose an additional \$2.5 million in one-time funding for this program in the 2027 Proposed Budget. The Back to Business Fund, launched in August 2025, supports small businesses impacted by vandalism and property damage. The program provides funding in three tracks: Storefront Repair Fund, Storefront Security Fund, and Neighborhood Business District Investments. The Storefront Repair Fund builds on the success of the earlier Coronavirus Local Fiscal Recovery Fund program of the same name, and provides grants to businesses to reimburse the cost for fixing damages from vandalism or other property damage. The Storefront Security Fund provides grants to businesses to reimburse the cost for improving storefront security. Finally, the Neighborhood Business District Investments provides funding to neighborhood business organizations to address public safety and improve the look of neighborhood business areas.

Establish a Grocery Store Security Fund Pilot Program

Expenditures \$1,000,000

This one-time item, supported by the General Fund, will fund the implementation of a pilot Grocery Store Security Fund program. This program will address retail theft, property damage, and other crimes at grocery stores. This program will provide support for infrastructure improvements and security solutions that make grocery stores throughout Seattle safer for workers and customers.

Provide Supports for Neighborhood Grocers

Expenditures \$700,000

This one-time item, supported by the General Fund, will support the opening and expansion of small businesses offering healthy, fresh foods and cultural household essentials throughout Seattle neighborhoods. This support will encourage and incentivize food access, with a specific focus on food deserts, as well as new opportunities for corner stores and bodegas through changes proposed in the One Seattle Comprehensive Plan Update.

Support Small Businesses through the Phố Đẹp Initiative

Expenditures \$200,000

This one-time item, supported by the Payroll Expense Tax Fund, will provide small business and neighborhood supports as part of the Phố Đẹp (Beautiful Neighborhood) Initiative, a community-led effort to address safety and livability in Seattle's historic Little Saigon neighborhood. These investments will enhance economic vibrancy by supporting business recruitment, providing resources for new businesses, and improving marketing throughout the neighborhood.

Conduct a Business Climate Assessment

Expenditures \$500,000

The Council reduced this proposal in the adopted budget. Refer to the Council Changes section below. The proposed budget description follows:

This one-time item, supported by the General Fund, will support consultant costs for a Business Climate Assessment. The assessment will review the City's laws, regulations, taxes, levies, fees and practices applicable to businesses and analyze how the City compares to other regional, national, and international municipalities. The assessment will produce a comprehensive report that will include an overall business friendliness score and specific policy recommendations to improve the business environment for specific business types and sectors, informed by quantitative data and qualitative evaluations of regulatory complexity.

Office of Economic Development

Support for the Waterfront Shuttle

Expenditures \$500,000

This one-time item, supported by the Payroll Expense Tax Fund, will provide continued support for the downtown waterfront shuttle. The free summertime waterfront shuttle, provided in partnership with the Friends of the Waterfront, is intended to promote economic activity in downtown Seattle, especially during the 2026 FIFA World Cup.

Develop a Customer Relationship and Case Management System

Expenditures \$400,000

This one-time item, supported by the Payroll Expense Tax Fund, will support the development of a customer relationship and case management system to support implementation of the department's program. This project will provide the department with the necessary tools to centralize customer and program data, and will improve the department's internal workflows. There is a corresponding change in the Information Technology Department's budget.

Support for a Community Workforce Training Center

Expenditures \$250,000

This one-time item, supported by the General Fund, will provide funding to support capital costs for the development of a community workforce training center. The facility, to be developed and operated by Uplift Northwest, will provide space for job training and certification programs, dining, hygiene facilities, community activities and collaboration, administrative offices, and leasable commercial spaces.

Abandon Grant Funding for Tenant Improvement Fund Program

Expenditures \$(500,000)

Revenues \$(500,000)

This ongoing item will abandon Community Development Block Grant (CDBG) funding from the department's budget. This CDBG funding previously supported the Tenant Improvement Fund program. The Office of Economic Development, in collaboration with the Human Services Department, has determined that the CDBG funding source is not a good match for this program given challenges identifying projects that fulfill compliance requirements of the grant. The Tenant Improvement Fund program, which provides grants to small businesses to support acquisition of signage and commercial equipment, retains \$2 million in the 2026 Proposed Budget. Please see the Human Services Department proposed budget for details on how this CDBG funding will be redeployed in 2026.

Adopted Technical

Align Budget Structure with the Future of Seattle Economy Framework

Expenditures -

This technical item adds new budget programs and projects and makes adjustments to program and project coding to align the department's budget structure with the Future of Seattle Economy framework. The Future of Seattle Economy, adopted as City policy in Resolution 32099, provides a community-driven investment framework for the City to promote inclusive economic growth.

Office of Economic Development

Align Budget for E-Proval Permitting System with Anticipated Expenditures

Expenditures \$(50,000)

This technical item aligns budget for ongoing costs associated with the E-Proval permitting software with anticipated actuals. The E-Proval permitting software supports workflows in the Special Events Office. Ongoing costs for the software were initially budgeted at \$100,000 per year beginning in 2024, but the department has since determined that ongoing costs for the software will be \$50,000 per year.

Bargained Annual Wage Adjustment to Base Budget

Expenditures \$(122,315)

This centrally administered change adjusts base budget appropriations to reflect the proper Annual Wage Increase (AWI) increment for 2026, as outlined in the agreements between the City and the Coalition of City Unions for personnel costs. AWI increments are determined based on the average change in the local Consumer Price Index (CPI). This change represents a true-up between the forecasted CPI assumption included in the Endorsed Budget and the actual CPI data.

SCERS Retirement Contribution Rate Reduction

Expenditures \$(15,944)

The City's employee retirement system, the Seattle City Employees Retirement System (SCERS) is a defined benefit pension program funded by a combination of salary-based employer (i.e., the City) and employee contributions, and investment earnings. Based on the updated actuarial valuation for 2025, this item reduces the employer contribution rate from the endorsed rate of 15.17% to the SCERS minimum actuarial required rate of 15.06%.

April General Fund Revenue Adjustment

Revenues \$22,000

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

August General Fund Revenue Adjustment

Revenues \$(82,000)

This is a technical adjustment to capture centrally projected and forecast General Fund revenue increments for this department.

Council

Reduce the Stabilize, Activate, and Invest Locally Fund

Expenditures \$(1,000,000)

This Council Budget Action decreases \$1,000,000 General Fund one-time from the proposed Stabilize, Activate, and Invest Locally (SAIL) Fund, a new investment in short and long-term strategies to address cleanliness, safety, and economic realization at specific neighborhoods, initially focusing on Little Saigon and possibly Lake City. The SAIL Fund in 2026 is funded at \$3 million total, after this reduction. Funding made available by this reduction is used to support the creation of a Federal Response Reserve in Finance General. There is a corresponding change in the 2026 Adopted Budget for Finance General.

Office of Economic Development

Eliminate Funding for the Business Climate Assessment

Expenditures \$(500,000)

This Council Budget Action decreases \$500,000 General Fund one-time in the Office of Economic Development (OED), eliminating funding for the proposed business climate assessment. There is a corresponding change in the 2026 Adopted Budget for the Seattle Department of Transportation.

Add Funding for a Maritime Innovation Center

Expenditures \$400,000

This one-time Council Budget Action provides \$400,000 General Fund to support the Maritime Innovation Center, intended to be a hub for maritime entrepreneurship, providing shared labs, offices, and demonstration space where startups, researchers, and industry can collaborate. The Office of Economic Development will negotiate a public benefit package with Maritime Blue, which could include: jobs created and maintained; in-kind goods and services to the community with a focus on racial and social equity; and activation and revitalization of the surrounding neighborhood.

Add Funding for Outreach Activities in Ballard and the University District

Expenditures \$380,000

This Council Budget Action provides \$380,000 General Fund ongoing to support one outreach worker each in Ballard and the University District, for outreach to unhoused individuals in the business improvement areas of each neighborhood. These workers will also help facilitate communication between businesses, service providers, City staff, residents, and unhoused individuals. This funding is intended to support the Ambassador programs in each business district and is intended to be provided to organizations that have experience administering an Ambassador program, such as the Ballard Alliance and the University District Partnership.

Add Funding for Cleaning in Ballard, University District, and Capitol Hill

Expenditures \$300,000

This Council Budget Action provides \$300,000 General Fund one-time to support cleaning services in the downtown Ballard business core, the University District, and in Capitol Hill along the Pike/Pine Corridor. The cleaning services will include pressure washing and address litter and garbage. This funding is intended to be provided to organizations with ties to the neighborhood business communities, such as the Ballard Alliance and U District Partnership.

Increase Funding for Business Improvement Area Support in Capitol Hill

Expenditures \$50,000

This Council Budget Action provides \$50,000 General Fund one-time to provide additional support for developing a Capitol Hill Business Improvement Area, focused on the Pike/Pine corridor. This funding is in addition to \$150,000 General Fund ongoing to provide support for the Capitol Hill neighborhood business district, to be provided to one or more organizations with ties to the Capitol Hill business community to assist with a variety of tasks, including but not limited to capacity building for the establishment or expansion of a business improvement area (BIA), engaging with businesses and property owners, visitor assistance, or outreach with unhoused neighbors. The additional one-time funding is intended to provide additional outreach efforts to help establish a BIA.

Office of Economic Development

Add Funding to Support Workforce Development Programs

Expenditures \$50,000

This Council Budget Action provides \$50,000 General Fund one-time to support the creation of a pilot program designed to provide free AI, cybersecurity, and entrepreneurship training to Seattle residents and small business owners. The pilot program is intended to be implemented by an organization with experience in providing free, job-ready training programs in information technology skills that lead to well-paying careers, such as Americans 4 Equality. Funding for this item is support by a corresponding change in the 2026 Adopted Budget for the Information Technology Department.

Council Provisos

Proviso Funding in the Stabilize, Activate, and Invest Locally Fund

This Council Budget Action imposes the following proviso:

"Of the appropriations in the Office of Economic Development's 2026 budget for the Business Services Budget Summary Level (BSL BO-ED-X1D00), of which \$4 million is intended to go towards the "Stabilize Activate and Invest Locally" (SAIL) Fund, \$1.5 million is appropriated solely for SAIL fund services in the Lake City neighborhood, and may be spent for no other purpose."

Proviso Funding for Services in Little Saigon and Chinatown-International District

This Council Budget Action imposes the following provisos:

"Of the appropriations in the Office of Economic Development's 2026 budget for the Business Services Budget Summary Level (BSL BO-ED-X1D00), of which \$4 million is intended to go towards the "Stabilize Activate and Invest Locally" (SAIL) Fund, \$1.1 million is appropriated solely for SAIL fund services in the Little Saigon or Chinatown-International District neighborhoods, and may be spent for no other purpose."

"Of the appropriations in the 2026 budget for the Office of Economic Development, \$300,000 is appropriated solely for an Ambassador program in the Chinatown-International District or Little Saigon neighborhoods, and may be spent for no other purpose."

"Of the appropriations in the 2026 budget for the Office of Economic Development, \$100,000 is appropriated solely for Crime Prevention Through Environmental Design (CPTED) improvements in Little Saigon or Chinatown-International District, and may be spent for no other purpose."

Proviso Funding for the Liberty Project

This Council Budget Action imposes the following proviso:

"Of the appropriation in the 2026 budget for the Office of Economic Development \$500,000 is appropriated solely for the Liberty Project, and may be spent for no other purpose."

Proviso Funding to Support Small Businesses in Eastlake

This Council Budget Action imposes the following proviso:

"Of the appropriations in the 2026 budget for the Office of Economic Development, \$200,000 is appropriated solely to support small businesses in Eastlake, and for no other purpose."

Office of Economic Development

Proviso Funding for Neighborhood Business Districts

This Council Budget Action imposes the following proviso:

"Of the appropriation in the Office of Economic Development's 2026 budget for the Business Services Budget Summary Level (BSL BO-ED-X1D00), \$200,000 is appropriated solely for neighborhood business district organizations that do not anticipate forming a Business Improvement Area (BIA) in the next year, including, but not limited to, Georgetown, and may be spent for no other purpose."

Proviso Funding to Support Small Businesses in North Delridge

This Council Budget Action imposes the following proviso:

"Of the appropriations in the 2026 budget for the Office of Economic Development, \$250,000 is appropriated solely to support small businesses in North Delridge that are at risk of displacement, and for no other purpose."

Proviso Funding for a Business Incubator in Lake City

This Council Budget Action imposes the following proviso:

"Of the appropriations in the Office of Economic Development's 2026 budget for the Business Services BSL (BSL BO-ED-X1D00), \$50,000 is appropriated solely for supporting a business incubator space in Lake City, and may be spent for no other purpose."
