City of Seattle Office of Housing: Oil-to-Electric Program Homeowner Oil Tank Decommissioning Agreement

Section 1: Homeowner Oil Tank Information

1. Where is your oil tank located:

☐ I have a **below-ground** heating oil tank ☐ I have an **above-ground** heating oil tank

If you have an **above-ground oil tank**, please describe where it is located:

Section 2: Program Agreements

I understand that my participation in the Oil-to-Electric Program complies with the following agreement:

1. I understand that the City of Seattle will decommission my **below-ground heating oil tank**, by filling it in place in accordance with Section 5704.2.13 of the Seattle Fire Code:
<https://www.seattle.gov/Documents/Departments/Fire/Business/5962CAMDecommissionOilTanks>
2. **Release and Indemnification:**
I promise not to hold the City of Seattle, Office of Housing, and/or its agents, officials, and employees responsible for any harm, injuries, or damage that might happen during the work at the home address mentioned. This includes any issues related to the work or any unexpected events that might arise from it. I agree to protect and defend the City and its representatives from any claims or liabilities in connection with the work. This promise is crucial for the City's decision to hire someone to decommission the tank at the specified address. I acknowledge that the City will cover the costs of the contract and permits for the tank decommissioning; however, the City is not guaranteeing the contractor's performance, and the City is not accountable for any actions or mistakes made by the contractor during the work.
3. I understand that the city will not go on with the decommissioning of my heating oil tank if there is any evidence of a prior or active oil leak. **If that is the case, then my Oil-to-Electric conversion will be put on hold unless I decide that I will have my tank removed along with any contaminated soil.** I understand that I will need to handle the tank removal and cover any expenses to fix the contaminated soil. If I am insured, I understand the removal of contaminated soil may be addressed by my PLIA insurance. If I do not have PLIA insurance, and I decide to remove my oil tank, I understand those costs will be my sole responsibility. Grants and loans may be available through the PLIA Loan and Grant program with more information at: www.plia.wa.gov. This is a program administered by the WA State Pollution Liability Insurance Agency and not the City of Seattle.

Section 3: Decommissioning Options

Please initial **one** of the four options listed below:

The City of Seattle Office of Housing will only pay for Options 1 and 2.

1. _____ **Option 1:** I agree to let the Office of Housing decommission (remove or clean and fill) my underground heating oil tank by leaving it in place. They will hire a furnace company to remove the oil and fill the tank with a material like sand or foam, making it unusable. By choosing this, I won't be covered by PLIA for any leaks. I also understand that my oil tank system may have leaked before. If there was a leak in the past, I might be responsible for cleanup costs, impacting my property value. The City won't do any tests to check for past oil leaks. Finally, I understand that if I have Pollution Liability Insurance under PLIA, it will end 30 days after disconnecting the tank from the furnace, leaving me without coverage if an old leak is found later.
2. _____ **Option 2:** I have an above-ground oil tank and to take part in this program, I need to choose to have it taken away from my property. I know that I have 30 days from the day the tank is disconnected from the furnace to file a claim with PLIA if there is contamination from an oil leak. I understand that the City of Seattle is not connected with PLIA and that I am responsible for any communications and negotiations with PLIA. If there is an oil leak found during the removal of my oil tank, the City of Seattle will not be responsible for any contamination clean-up or related costs. I also understand that any coverage exclusions, policy coverage limits, or liability under my PLIA policy are not the City of Seattle's responsibility.

The City Office of Housing will not pay for Options 3 and 4:

3. _____ **Option 3:** I choose to remove my below-ground heating oil tank and I have PLIA insurance. I understand I need to hire a furnace contractor to take out my oil tank, and I am responsible for the removal cost. I know that I have 30 days after the tank is disconnected to tell PLIA if there's contamination from an oil leak. The City of Seattle is not connected to PLIA, and I am responsible for any communications and negotiations with PLIA. If there is an oil leak during the removal, the City of Seattle won't cover cleanup costs, or anything related. Any issues with my PLIA policy, like coverage limits or exclusions, are my responsibility, not the City's.
4. _____ **Option 4:** I choose to have my below-ground heating oil tank removed, and I am not insured by PLIA. I understand I need to hire a furnace contractor/service provider to take out my oil tank, and I am responsible for the removal cost. If there is an oil leak during the removal, the City of Seattle won't cover cleanup costs, or anything related.

Section 4: Owner Signed Acknowledgement

By signing below, I understand the Agreement, and as the legal owner(s) of the property, have initialed the corresponding paragraph with my decision regarding the heating oil tank.
